Section 1622.40 is revised to remove duplicative provisions, archaic date reference, and the distinction in result of discharges for the convenience of the Government and other discharges from the Armed Forces.

Section 1622.42 is revised to give specific recognition to the treaty provisions respecting dual nationals for purposes of classification into Class 4–C. The proposed revision would also exempt from classification in Class 4–C an alien registrant who had left the country while under an order for induction or alternate service. Section 1625.14 is also modified to reflect this change.

Section 1622.47 is added to establish Class 4–PM: Medical specialist registrant not qualified for military service and § 1622.44 is modified to reflect this change. Medical specialists are evaluated under different criteria than regular registrants, and being disqualified as a regular registrant does not disqualify the registrant from service as a medical specialist. To remove confusion, we should have separate disqualified classes for these two groups, just as we have separate available classes for the two groups. The last paragraph of each of §§ 1622.44 and 1622.47 will permit local boards to classify registrants into Class 4–P if they are incarcerated. This has been a problem in the past, as there was no way to find the registrant disqualified for service without sending them to the Armed Forces Examining and Entrance Stations which for obvious reasons could not be done.

The revision of § 1622.46 provides for a minimum of six months of satisfactory alternate service in order to qualify for Class 4–W.

Section 1623.2 is revised to reflect the creation of Class 1–A–OM, Class 1–OM, and Class 4–PM; to place Class 2–M below Class 1–H and Class 4–P; and to place Class 4–G above Class 1–H. These changes will facilitate the maintaining of an inventory of medical specialist students and medical specialists and conserve, in time of peace, the time of local boards in classifying registrants entitled to classification in Class 4–G: Registrant exempted from service during peace.

The revocation of § 1623.7 reflects that one card serves both purposes of evidencing registration and classification.

Section 1631.6(b) is amended to authorize the ordering prior to January 1 of a registrant to report for induction after January 1 when he has been identified as a member of one of the categories eligible for induction after January 1. "Unsatisfactory reservists" would not be inducted under the revised regulation.

Section 1632.1 is amended to add paragraph (e) to contain the material formerly in § 1622.42(a) dealing with the computation of time of residence of an alien in the United States.

The revision of § 1632.12 would eliminate references to specific forms used by the United States Army Recruiting Command and the warning that a reservist who ceases to serve satisfactorily may be inducted.

The revocation of §§ 1632.15, 1632.20, and 1632.21 would eliminate administrative details not appropriate for regulations. Section 163.20 is revoked because its subject matter is dealt with in §§ 1622.12, 1622.44, and 1625.2(a). Section 1632.31 is revoked because it is inconsistent with the provisions of § 1632.12 which would govern.

Section 1641.1 is amended to require a registrant to notify his local board of his entry into medical or other medical specialist school.

The revision of § 1641.6 would eliminate the requirements a registrant have certain documents in his personal possession except when he is on active duty and that he surrender such documents

when he is inducted or enters upon active duty in the Armed Forces.

The revocation of § 1641.7 would eliminate the requirement that a registrant obtain documents that he would no longer be required to have in his personal possession.

Part 1643, *Parole*, is revoked because it is misleading in view of the fact that there is no authority to induct parolees at the present time.

Section 1680.5 is revised to clarify the definition of the year of prime vulnerability of medical and allied specialists, particularly for aliens.

Now therefore by virtue of the authority vested in me by the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.) and Executive Order 11623 of October 12, 1971, the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m. e.s.t. on January 31, 1975, as follows:

PART 1602—DEFINITIONS

1. Section 1602.1 is revised to read as follows:

§ 1602.1 Definitions to govern.

The definitions contained in section 16 of the Military Selective Service Act, and the definitions contained in this part shall govern in the interpretation of the regulations in this chapter.

2. Sections 1602.4 and 1602.6 are revoked as follows:

§ 1602.4 [Revoked]
§ 1602.6 [Revoked]

3. Section 1602.10 is revised to read as follows:

§ 1602.10 Selective service law.

The term 'selective service law' includes the Military Selective Service Act, and all rules and regulations issued thereunder.

PART 1603—SELECTIVE SERVICE PERSONNEL IN GENERAL

4. Section 1603.3 is revised to read as follows:

§ 1603.3 Uncompensated services.

The services of registrars (except as the Director of Selective Service may otherwise provide), members of local boards, members of appeal boards, medical speciality advisors to the State Directors of Selective Service, advisors to registrants, and all other persons volunteering their services to assist in the administration of the selective service law shall be uncompensated, and no such person serving without compensation shall accept remuneration from any source for services rendered in connection with selective matters.

PART 1604—SELECTIVE SERVICE OFFICERS

5. Section 1604.31 is revised to read as follows:

§ 1604.31 Medical specialty advisors to the State Directors of Selective Service.

The Director of Selective Service may appoint, upon the recommendation of the State Director of Selective Service, as a Medical Specialty Advisor to such State Director of Selective Service a licensed practitioner in the field of each of the medical specialities for which the Secretary of Defense places a call for the induction of men into the Armed Forces. It shall be the duty of each advisor to furnish advice regarding the deferment of registrants in his respective medical specialty at the request of the State Director of Selective Service.

PART 1622—CLASSIFICATION RULES AND PRINCIPLES

6. In § 1622.2, the introductory text is amended to read as follows:

§ 1622.2 Classes.

Each registrant shall be classified in one of the classes established in this Part.

* * * * *

7. Section 1622.11 is revised to read as follows:

§ 1622.11 Class 1–A–O: Conscientious objector available for noncombatant military service only.

In Class 1–A–O shall be placed every registrant who would have been classified in Class 1–A but for the fact that he has been found, by reason of religious, ethical, or moral belief, to be conscientiously opposed to participation in combatant training and service in the Armed Forces.

8. Section 1622.14 is revised to read as follows:

§ 1622.14 Class 1–O: Conscientious objector available for alternate service.

In Class 1–O shall be placed every registrant:

(a) Who has been found, by reason of religious, ethical, or moral belief to be conscientiously opposed to participation in war in any form and to be conscientiously opposed to participation in both combatant and noncombatant training and service in the armed forces; or

(b) Who has been separated from the armed forces (including their reserve components) by reason of conscientious objection to participation in both combatant and noncombatant training and service in the armed forces.

9. Paragraph (a) of § 1622.15 is revised to read as follows:

§ 1622.15 Class 1–AM: Medical, dental and allied specialists.

(a) In Class 1–AM shall be placed every registrant who is or becomes a doctor of medicine, dentist, a doctor of optometry, a doctor of osteopathy, a doctor of podiatry, a veterinarian, or a registered nurse.

* * * * *

Section 1622.17 is added to read as follows:

§ 1622.17 Class 1–A–OM: Medical, dental, or allied specialist available for noncombatant military service.

(a) In Class 1–A–OM shall be placed every registrant who would have been classified in Class 1–AM but for the fact that he has been found, by reason of religious, ethical, or moral belief, to be conscientiously opposed to participation in combatant training and service in the Armed Forces.

(b) A registrant classified in Class 1–A–OM shall be identified as follows: Class 1–A–OMM for doctor of medicine; Class 1–A–OMD for dentist; Class 1–A–OME for doctor of optometry; Class 1–A–OMO for doctor of osteopathy; Class 1–A–OMP for doctor of podiatry; Class 1–A–OMV for veterinarian; and Class 1–A–OMN for registered nurse.

11. Section 1622.19 is added to read as follows:

§ 1622.19 Class 1XOM: Medical, dental, or allied specialist available for alternate service.

(a) In Class 1–OM shall be placed every registrant who would have been classified in Class 1–AM but for the fact that (1) he has been found, by reason of religious, ethical, or moral belief, to be conscientiously opposed to participation in both combatant and noncombatant training and service in the Armed Forces; or (2) has been separated from the Armed Forces (including their reserve components) by reason of conscientious objection to participation in both combatant and noncombatant training and service in the Armed Forces.

(b) A registrant classified in Class 1–OM shall be identified as follows: Class 1–OMM for doctor of medicine; Class 1–OMD for dentist; Class 1–OME for doctor of optometry; Class 1–OMO for doctor of osteopathy; Class 1–OMP for doctor of podiatry; Class 1–OMV for veterinarian; and Class 1–OMN for registered nurse.

12. Paragraph (a) of § 1622.26 is revised to read as follows:

§ 1622.26 Class 2–M: Registrant deferred because of study preparing for a specified medical specialty.

(a) In Class 2–M shall be placed any registrant other than a registrant who is in a medical, dental or allied specialist category, who is satisfactorily pursuing a full-time course of study leading to a professional degree in medicine, dentistry, optometry, osteopathy, podiatry, veterinary medicine, or licensure as a registered nurse.

* * * * *

13. Paragraph (a) of § 1622.40 is revised to read as follows:

§ 1622.40 Class 4–A: Registrant who has completed military service.

(a) In Class 4–A shall be placed any registrant other than a registrant eligible for classification in Class 1–C or Class 1–D who is within any of the following categories:

(1) A registrant who was discharged after having served honorably on active duty for a period of not less than 6 months in the Army, the Air Force, the Navy, the Marine Corps, or the Coast Guard.

(2) A registrant who has served on active duty for a period of not less than twenty-four months as a commissioned

officer in the National Oceanic and Atmospheric Administration or in the Public Health Service, provided that such period of active duty in the Public Health Service as a commissioned Reserve officer commencing after June 30, 1967, shall have been performed by the registrant while assigned to staff any of the various offices and bureaus of the Public Health Service including the National Institutes of Health, or while assigned to the Coast Guard, or the Bureau of Prisons of the Department of Justice, or the National Oceanic and Atmospheric Administration or the Environmental Protection Agency.

(3) A registrant who while an alien has served on active duty for a period of not less than 12 months in the armed forces of a nation determined by the Department of State to be a nation with which the United States is associated in mutual defense activities and which grants exemption from training and service in its armed forces to citizens of the United States who have served on active duty in the Armed Forces of the United States for a period of not less than 12 months: *Provided*, That all information which is submitted to the local board concerning the registrant's service in the armed forces of a foreign nation shall be written in the English language.

(4) A registrant who has completed six years of satisfactory service as a member of one or more of the Armed Forces including the Reserve components thereof.

14. The heading and paragraphs (a) and (c) of § 1622.42 is revised to read as follows:

§ 1622.42 Class 4–C: Aliens or dual nationals.

(a) In Class 4–C shall be placed any registrant who establishes that he is a national of the United States and of a country with which the United States has a treaty or agreement that provides that such person is exempt from liability for military service in the United States.

* * * * *

(c) In Class 4–C shall be placed any registrant who is an alien and who has departed from the United States prior to being issued an order to report for induction or alternate service that has not been canceled. If any registrant who is classified in Class 4–C pursuant to this paragraph returns to the United States his classification shall be reopened and he shall be classified anew.

* * * * *

15. Section 1622.44 is revised to read as follows:

§ 1622.44 Class 4–F: Registrant not qualified for military service.

(a) In Class 4–F shall be placed any registrant, other than a registrant who is a medical, dental, or allied specialist, who is found by an Armed Forces Examining and Entrance Station, under applicable physical, mental or administrative standards, to be not qualified for service in the Armed Forces; except that no such registrant whose further examination or re-examination is determined by AFEES to be justified shall be placed in Class 4–F until such further examination has been accomplished and such registrant continues to be found not qualified for military service.

(b) In Class 4–F shall be placed any registrant other than a registrant who is a medical, dental, or allied specialist, who is confined in a prison, mental institution, or recognized drug rehabilitation center.

16. Section 1622.46 is revised to read as follows:

§ 1622.46 Class 4–W: Registrant who has completed alternate service in lieu of induction.

In Class 4–W shall be placed any registrant who subsequent to being ordered by the local board to perform alternate service in lieu of induction has been released from such service by the local board after satisfactorily performing the work for a period of 24 months, or has been granted an early release by the Director or State Director of Selective Service after completing at least 6 months of satisfactory service as prescribed in § 1660.10 of this Chapter.

17. Section 1622.47 is added to read as follows:

§ 1622.47 Class 4–FM: Medical specialist registrant not qualified for military service.

(a) In Class 4–FM shall be placed any registrant who is found by an Armed Forces Examining and Entrance Station, under standards applicable to medical, dental, and allied specialists, to be not qualified for service in the Armed Forces; except that no such registrant whose further examination or re-examination is determined by AFEES to be justified shall be placed in Class 4–FM until such further examination has been accomplished and such registrant continues to be found not qualified for military service.

(b) In Class 4–FM shall be placed any registrant in the medical, dental, and allied specialist categories who has applied for an appointment as a Reserve officer in one of the Armed Forces in any of such categories and has been rejected for such appointment on the sole ground of a physical disqualification.

(c) In Class 4–FM shall be placed any registrant in a medical, dental, or allied specialist category, who is confined in a prison, mental institution, or recognized drug rehabilitation center.

PART 1623—CLASSIFICATION PROCEDURE

18. Section 1623.2 is revised to read as follows:

§ 1623.2 Consideration of classes.

Every registrant shall be placed in Class 1–A under the provisions of § 1622.10 of this chapter, except that when grounds are established to place a registrant in any one of the classes listed in the following table, the registrant shall be classified in the lowest class for which he is determined to be eligible, with Class 1–AM considered the highest class and Class 1–C considered the lowest class, according to the following table:

Class 1–AM: Registrant in any of the specified medical, dental, and allied specialist categories.
Class 1–A–O: Conscientious objector available for noncombatant military service only.
Class 1–A–OM: Medical, dental, or allied specialist available for noncombatant military service.
Class 1–O: Conscientious objector available for alternate service.
Class 1–OM: Medical, dental, or allied specialist available for alternate service.
Class 2–AM: Medical, dental, or allied specialist deferred because of community essentiality.
Class 2–S: Registrant deferred because of activity in study.
Class 2–D: Registrant deferred because of study preparing for the ministry.
Class 3–A: Registrant deferred because of dependency of others.
Class 4–B: Officials deferred by law.
Class 4–C: Aliens or dual nationals.
Class 4–D: Minister of religion.
Class 4–G: Registrant exempted from service during peace.
Class 1–H: Registrant not currently subject to processing for induction.
Class 4–F: Registrant not qualified for military service.
Class 2–M: Registrant deferred because of study preparing for a specified medical specialty.
Class 4–FM: Medical specialist registrant not qualified for military service.
Class 4–W: Conscientious objector who has completed alternate service in lieu of induction.
Class 4–A: Registrant who has completed military service.
Class 1–D: Member of Reserve component or student taking military training.
Class 1–W: Conscientious objector performing alternate service in lieu of induction.
Class 1–C: Member of the Armed Forces of the United States, the National Oceanic and Atmospheric Administration, or the Public Health Service.

19. Section 1623.7 is revoked.

§ 1623.7 [Revoked]

PART 1624—PERSONAL APPEARANCE BEFORE LOCAL BOARD

20. Paragraph (b) of § 1624.1 is revised to read as follows:

§ 1624.1 Opportunity for personal appearance.

* * * * *

(b) Registrant who has filed a claim for classification in Class 1–A–O, Class 1–O, Class 1–A–OM, Class 1–OM, or Class 3–A, upon his written request, shall be afforded an opportunity to appear in person before the local board before his classification is determined by the local board. Should such registrant appear in person before the local board in advance of his classification being determined, the provisions of § 1624.4 shall apply, and he shall not be afforded an opportunity to appear concerning such classification after such determination.

PART 1625—REOPENING AND CONSIDERING ANEW REGISTRANT'S CLASSIFICATION

21. Section 1625.14 is revised to read as follows:

follows:

every registrant who would have been twenty-four months as a commissioned

§ 1625.14 Cancellation of order to report for induction or for alternate service by reopening of classification.

The reopening of the classification of a registrant by the local board shall cancel any order to report for induction or alternate service which may have been issued to him.

PART 1631—ALLOCATION OF INDUCTIONS

22. Paragraph (b) of § 1631.6 is amended to read as follows:

§ 1631.6 Action by local board upon receipt of allocation.

* * * * *

(b) Registrants shall be selected and ordered to report for induction in the following categories and in the order indicated: *Provided*, That a registrant who has been identified, in accord with procedures prescribed by the Director of Selective Service, as one who will become a member of one of the following categories on the next January 1, may, prior to January 1, be selected and ordered to report for induction on a date after January 1 as a member of such category:

(1) Volunteers who have not attained the age of 26 years in the sequence in which they have volunteered for induction.

(2) Nonvolunteers in the Extended Priority Selection Group who have not attained the age of 26 years in the order in which their random sequence number had been reached.

(3) Nonvolunteers in the First Priority Selection Group for the current calendar year in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1.

(4) Nonvolunteers who have not attained the age of 26 years in each of the lower priority selection groups, in turn, within the group in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1.

(5) Nonvolunteers who have attained the age of 19 years during the calendar year but who have not attained the age of 20 years, in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1.

(6) Nonvolunteers who have attained the age of 26 years and each year thereafter in turn, most recent year first, within the year group in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1: *Provided*; That the random sequence number established on December 1, 1969, will apply to any registrant born prior to January 1, 1944.

(7) Nonvolunteers who have attained the age of 18 years and 6 months and who have not attained the age of 19 years in the order of the random sequence number established by random selection procedures prescribed in accordance with § 1631.1 for registrants who during the current calendar year have attained the age of 19 years but who have not attained the age of 20 years.

PART 1632—DELIVERY AND INDUCTION

23. Paragraph (e) of § 1632.1 is added to read as follows:

§ 1632.1 Order to report for induction.

* * * * *

(e) No local board shall issue an order to report for induction or alternate service to a registrant who is an alien unless he shall have resided in the United States for one year. When such a registrant has been within the United States for two or more periods (including periods before his registration) and the total of such periods equals one year, he shall be deemed to have resided in the United States for one year. In computing the length of such periods, any portion of one day shall be counted as a day.

24. Section 1632.12 is revised to read as follows:

§ 1632.12 Enlistment of registrants ordered for induction.

Whenever a local board receives official notification that one of its registrants to whom an induction order has been issued has been enlisted or appointed in the Armed Forces of the United States, including the Reserve components thereof, and the date of enlistment or appointment is at least 10 days prior to his scheduled reporting date for induction it shall reopen his classification and classify him anew.

25. Sections 1632.15, 1632.20, 1632.21, 1632.30 and 1632.31 are revoked.

§§ 1632.15, 1632.21, 1632.30, 1632.31 [Revoked]

PART 1641—DUTY OF REGISTRANTS

26. Section 1641.1 is revised to read as follows:

§ 1641.1 Reporting by registrants of their current status.

(a) It shall be the duty of every registrant, so long as his file is actively maintained by his local board, to keep his local board currently informed in writing of the address where mail will reach him.

(b) It shall be the duty of every registrant until his liability for training and service has terminated, to inform his local board in writing of his entrance into a professional course of study leading to a professional degree in a medical, dental or allied specialist category, together with his current address, and to inform his local board in writing of the receipt of any such professional degree, together with his current address.

(c) It shall be the duty of every registrant to submit to his local board information concerning his status within ten days after the date on which the local board mails him a request therefor, or within such longer period as may be fixed by the local board.

27. Section 1641.6 is revised to read as follows:

§ 1641.6 Effect of failure to have unaltered documents in personal possession.

The failure of any person to have his registration certificate (SSS Form 2) or status card (SSS Form 7) in his personal possession shall be prima facie evidence of his not having registered.

§ 1641.7 [Revoked]

28. Section 1641.7 is revoked.

PART 1643—[REVOKED]

29. Part 1643 is revealed.

PART 1661—CLASSIFICATION OF CONSCIENTIOUS OBJECTORS

30. Section 1661.1 (a) and (b)(4) is revised as follows:

§ 1661.1 Purpose; definitions.

(a) The provisions of this part govern the consideration of a claim by a registrant for classification in Class 1–A–O (§ 1622.11 of this chapter), Class 1–A–OM (§ 1622.17 of this chapter), Class 1–O (§ 1622.14 of this chapter), or Class 1–OM (§ 1622.19 of this chapter).

(b) * * *

(4) Prima Facie Claim. A nonfrivolous claim, which, if true, would be sufficient on its face to warrant granting classification in Class 1–A–O, Class 1–A–OM, Class 1–O, or Class 1–OM.

31. Section 1661.2 is revised to read as follows:

§ 1661.2 The claim of conscientious objection.

A claim to classification in Class 1–A–O, Class 1–A–OM, Class 1–O, or Class 1–OM may be made by the registrant in writing, such document shall be placed in his File Folder.

32. The headings of §§ 1661.3, 1661.4 and 1661.5 are revised to read as follows:

§ 1661.3 Basis for Classification in Class 1–A–O or Class 1–A–OM.

§ 1661.4 Basis for Classification in Class 1–O or Class 1–OM.

§ 1661.5 Exclusion from Class 1–A–O, Class 1–A–OM, Class 1–O, and Class 1–OM.

33. Paragraph (a) of § 1661.6 is revised to read as follows:

§ 1661.6 Analysis of religious training and belief.

(a) A registrant claiming conscientious objection is not required to be a member of a "peace church" or any other church, religious organization, or religious sect to qualify for a 1–A–O, 1–A–OM, 1–O, or 1–OM classification; nor is it necessary that he be affiliated with any particular group opposed to participation in war in any form.

* * * * *

34. Paragraph (i) of § 1661.9 is amended to read as follows:

§ 1661.9 Considerations relevant to granting or denying a prima facie claim for classification as a conscientious objector.

* * * * *

(i) The registrant may submit letters of reference and other supporting statements of friends, relatives and acquaint-

ances to corroborate the sincerity of his claim, although such supplemental documentation is not essential to approval of this claim. A finding of insincerity based on these letters or supporting statements must be carefully explained in the board's decision, specific mention being made of the particular material relied upon for denial of classification in Class 1–A–O, Class 1–A–OM, Class 1–O, or Class 1–OM.

34. Section 1661.10 is revised to read as follows:

§ 1661.10 Types of decisions.

(a) The following are the types of decisions which may be made by the local and appeal board when a prima facie claim of conscientious objection has been stated.

(1) Decision to grant a claim for classification in Class 1–A–O, Class 1–A–OM, Class 1–O, or Class 1–OM, as requested, based on a determination that the truth or sincerity of the registrant's prima facie claim is not refuted by any information contained in the registrant's file or obtained during his personal appearance.

(2) Decision to deny a claim for classification in Class 1–A–O, Class 1–A–OM, Class 1–O or Class 1–OM, finding on the basis of all information before the board, that the claim fails to meet the tests specified in §§ 1661.3 and 1661.4. If supported by evidence in the file the board may find that the facts presented by the registrant in support of his claim are untrue.

(3) Decision to grant classification in Class 1–A–O or Class 1–A–OM to a registrant even though he requested reclassification in Class 1–O or Class 1–OM. It should be noted that the registrant who requests classification in Class 1–O or Class 1–OM should be classified in Class 1–A–O or Class 1–A–OM only when the information presented demonstrates clearly that the registrant is opposed only to bearing arms and that he does not object to noncombatant service.

PART 1680—MEDICAL, DENTAL, OR ALLIED SPECIALIST CATEGORIES (CLASS 1–AM)

§ 1680.5 [Amended]

35. Paragraph (b) of § 1680.5 is amended by revoking the text that follows the first sentence of subparagraph (6).

36. Paragraph (c) of § 1680.5 is added to read as follows:

* * * * *

(c) As used in paragraph (b) of this section, the year of prime vulnerability for an alien who enters the United States after he has completed the professional training described in § 1622.15(c) of this chapter will begin when he completes one year of residence in the United States: *Provided*, That the year of prime vulnerability for an alien who has resided in the United States in a nonpermanent resident status will begin when he completes one year of residence in the United States, or when he registers for Selective Service, whichever is later. The year of prime vulnerability for all other persons will begin upon attainment of the first appropriate professional degree or diploma, or upon completion of one year of internship or equivalent training, whichever is later. The one year of internship or equivalent training must follow immediately upon the attainment of the appropriate professional degree.

37. Section 1680.9 is revised to read as follows:

§ 1680.9 Alternate service.

A registrant in Class 1–OM will be ordered to alternate service in lieu of induction in accord with Part 1660 of this chapter at the time that he would be called for induction if he were in Class 1–AM.

38. Section 1680.11 is revised to read as follows:

§ 1680.11 Noncombatant military service.

A registrant classified in Class 1–A–OM will be ordered for induction at the time that he would be ordered for induction if he were in Class 1–AM.

BYRON V. PEPITONE,
Director.

DECEMBER 16, 1974.

[FR Doc.74–29640 Filed 12–19–74;8:45 am]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Whereas, on November 1, 1974, the Director of Selective Service published a Notice of Proposed Amendments of Selective Service Regulations 39 FR 38674 of November 1, 1972; and

Whereas more than thirty days have elapsed subsequent to such publication during which period comments from the public have been received and considered. The proposed amendments are being made effective without change.

Section 1604.25 is amended to provide for the disqualification of an appeal board member instead of the appeal board in certain cases. Section 1604.26 is amended to add a sentence to provide that an appeal board may continue to function so long as a quorum of the prescribed membership is present at each official meeting.

Section 1604.55 is amended to provide for the disqualification of a local board member instead of the local board in certain cases. Section 1604.56 is amended to add a sentence to provide that a local board may continue to function so long as a quorum of the prescribed membership is present at each official meeting.

Section 1608.6 is revoked because it is obsolete in its references to a medical advisor. Sections 1608.12(d) and 1608.13 (b) is amended to delete obsolete references to the Office of Public Information. Section 1608.12(f)(1) is revised to delete an obsolete citation. Section 1608.17 is revised to reflect the new procedures for processing demands of courts or other authorities for information protected by regulations in view of the closing of the Regional Counsel offices.

Section 1613.4 is revised to reflect the use of a new form in registrant processing. The issuance of a replacement card would be conditional upon a representation that the card last issued to the registrant had been lost, stolen or destroyed.

Now therefore by virtue of the authority vested in me by the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.) and § 1604.1 of Selective Service Regulations (32 CFR 1604.1), the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m. e.s.t on January 31, 1975, as follows:

PART 1604—SELECTIVE SERVICE OFFICERS

1. Section 1604.25 *Disqualification* is revised to read as follows:

§ 1604.25 Disqualification.

(a) No member of an appeal board shall act on the case of a registrant who is the member's first cousin or closer relation, either by blood, marriage, or adoption, or who is the member's employer, employee, or fellow employee, or stands in the relationship of superior or subordinate of the member in connection with any employment, or is a partner or close business associate of the member, or is a fellow member or employee of the appeal board.

(b) A member of an appeal board may disqualify himself in any matter in which he would be restricted for any reason in making an impartial decision.

(c) Whenever a quorum of the appeal board cannot act on the case of a registrant, and there is no panel of the appeal board to which the case may be transferred, the appeal board shall transmit such case to the State Director of Selective Service for transfer to another appeal board.

2. Section 1604.26 *Organization and meeting* is revised to read as follows:

§ 1604.26 Organization and meeting.

Each appeal board or panel shall elect a chairman and a secretary. A majority of the members of an appeal board or panel when present at any meeting shall constitute a quorum for the transaction of business. A majority of the members present at any meeting at which a quorum is present shall decide any question. Every member present, unless disqualified, shall vote on every question or classification. In case of a tie vote on a question or classification, the board shall postpone action until it can be decided by a majority vote. If any member is absent so long as to hamper the work of the board, the chairman, a member or employee of the board or panel concerned shall recommend to the State Director of Selective Service that such member be removed and a new member appointed. If, through death, resignation, or other cause, the membership of a appeal board or panel thereof, falls below the prescribed number of members, the board or panel shall continue to function, provided a quorum of the prescribed membership is present at each official meeting.

3. Section 1604.55 *Disqualification* is revised to read as follows:

§ 1604.55 Disqualification.

(a) No member of a local board shall act on the case of a registrant who is the member's first cousin or closer relation, either by blood, marriage, or adoption, or who is the member's employer, employee, or fellow employee, or stands in the relationship of superior or subordinate of the member in connection with any employment, or is a partner or close business associate of the member, or is a fellow member or employee of the local board.

(b) A member of the local board may disqualify himself in any matter in which he would be restricted, for any reason, in making an impartial decision.

(c) Whenever a quorum of a local board cannot act on the case of a registrant, the local board shall transmit such case to the State Director of Selective Service for transfer to another local board.

4. Section 1604.56 *Organization and meeting* is revised to read as follows:

§ 1604.56 Organization and meeting.

Each local board shall elect a chairman and a secretary. A majority of the membership of the local board shall constitute a quorum for the transaction of business. A majority of the members present at any meeting at which a quorum is present shall decide any question or classification. Every member present, unless disqualified, shall vote on every question or classification. In case of a tie vote on any question or classification, the board shall postpone action on the question or classification until it can be decided by a majority vote. If any member is absent so long as to hamper the work of the local board, the chairman, a member, or employee of the local board shall recommend to the State Director of Selective Service that such member be removed and a new member appointed. If through death, resignation or other cause, the membership of a local board falls below the prescribed number of members it shall continue to function provided a quorum of the prescribed membership is present at each official meeting.

PART 1608—PUBLIC INFORMATION

§ 1608.6 [Revoked]

5. Section 1608.6 *Disclosure or furnishing of information relating to physical or mental condition of registrants* is revoked.

6. Paragraphs (d) and (f)(1) of § 1608.12 *Available information* are revised to read as follows:

§ 1608.12 Available information.

• • • • •

(d) The Registrants Processing Manual may be inspected at the office of any local board, the office of the State Director of Selective Service for any State or at the National Headquarters, Selective Service System.

• • • • •

(f) • • •

(1) The names, positions, titles, grades, salaries, and duty station of employees of the Selective Service System are public information.

• • • • •

7. Paragraph (b) of § 1608.13 *Places where information may be obtained* is revised to read as follows:

§ 1608.13 Places where information may be obtained.

(b) Requests for information concerning the national administration of the Military Selective Service Act shall be addressed to the National Headquarters, Selective Service System, 1724 F Street NW., Washington, D.C. 20435.

8. Section 1608.17 is revised to read as follows:

§ 1608.17 Demands of courts or other authorities for records or information protected by these regulations.

No officer or employee of the Selective Service System will comply with a request, demand or order of a court or other authority to produce information the disclosure of which is prohibited or restricted by the provisions of this part without the prior approval of the Director of Selective Service.

PART 1613—REGISTRATION PROCEDURES

9. Section 1613.4 is revised to read as follows:

§ 1613.4 Issuing replacement Status Card.

A replacement Status Card (SSS Form 7) will be issued to a registrant by the local board with which he is registered upon its receipt of his written request therefor, and statement that the Status Card last issued to him has been lost, stolen or destroyed.

DECEMBER 16, 1974.

BYRON V. PEPITONE,
Director.

[FR Doc.74-29041 Filed 12-18-74;8:45 am]

PART 1660—ALTERNATE SERVICE

Miscellaneous Amendments

Whereas, on November 1, 1974, the Director of Selective Service published a notice of proposed amendments of Selective Service Regulations, 39 Federal Register 38678 of November 1, 1974; and

Whereas more than thirty days have elapsed subsequent to such publication during which period comments from the public have been received and considered. The proposed amendments are being made effective without change.

Section 1660.9(c) is amended to eliminate the requirement that a registrant traveling to his alternate service assignment request travel, meal and lodging before they will be provided. Sections 1660.9(b), (c), (d), and (f) are revised to remove the detailed instructions to the State Director in conducting an investigation when a registrant performing alternate service leaves his job. The State Director would be given clear authority to report a registrant for prosecution or to reassign him to a job. Hardship, medical or other bona fide reasons are prescribed as the criteria for approving a registrant's request for reassignment.

Sections 1660.10 and 1660.11 are revised to make clear the registrant's entitlement to classification in Class 4-W and a certificate of release if he is released after six months of satisfactory service.

Now therefore by virtue of the authority vested in me by section 6(j) of the Military Selective Service Act, as amended (50 App. U.S.C. section 451 et seq.), the Selective Service regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m. e.s.t. on January 31, 1975, as follows:

1. Paragraphs (b) through (f) of § 1660.9 Administration of alternate service are amended to read as follows:

§ 1660.9 *Administration of alternate service.*

• • • • •

(b) Whenever the State Director has reason to believe that a registrant was refused employment, or the registrant refused or constructively refused employment or was relieved for cause or left his job without authority he will determine whether the registrant was at fault. If he determines that the registrant was at fault, he may report the registrant for prosecution or he may request the registrant's local board to order the registrant to an appropriate job by issuing an Amendment to Order to Report for Alternate Service (SSS Form 153A). Time not spent on an approved job will not be creditable toward completion of his alternate service obligation.

(c) If the State Director finds no failure of the registrant to perform satisfactorily, he will request the registrant's local board to order the registrant to an appropriate job by issuing an Amendment to Order to Report for Alternate Service (SSS Form 153A). If the registrant complies with the order, the intervening time between jobs will not constitute a break in the required period of alternate service.

(d) The State Director may reassign a working registrant at any time he determines (1) that the job to which the registrant is assigned ceases to be acceptable as alternate service as defined in Section 1660.6, or (2) that there is a hardship, medical, or other bona fide basis for such reassignment. To reassign the registrant, the State Director shall request the registrant's local board to issue an Amendment to Order to Report for Alternate Service (SSS Form 153A). Prior to the issuance of an Amendment to Order to Report for Alternate Service (SSS Form 153A) in accord with this paragraph, the registrant is required to continue in the alternate service to which he had been ordered most recently.

V 39 N 246 DEC 20 1974 XUM

for Selective Service, whichever is later. Regional Counsel offices. official meeting.

(e) The Director of Selective Service or the State Director of Selective Service will issue travel orders, tickets or transportation requests and meal and lodging requests to the registrant for his travel (1) from the office of his local board or local board nearest the place of his residence at the time he is selected for alternate service to the place of performance of the alternate service to which he is ordered within the United States, (2) for his return travel from such place to the office of the local board from which he traveled to the place of performing alternate service upon his satisfactorily completing his period of work or his travel to any other place upon his satisfactorily completing his period of alternate service whenever the cost of such transportation would not exceed the cost of travel to the local board from which he traveled, and (3) for his travel from one place of employment to another when his employment is transferred under the provisions of paragraph (c) or (d) of this section.

(f) No action shall be required of a registrant by an Amendment to Order to Report for Alternate Service (SSS Form 153A) without his consent within 10 days after the issuance of such form.

Section 1660.10 is amended to read as follows:

§ 1660.10 Release from alternate service.

The State Director of the State in which a registrant is working or the Director may release a registrant prior to his completion of 24 months of service upon a determination of hardship, medical, or other bona fide basis for such early release. If the registrant is working outside the State in which he is registered, the decision should be made in consultation with the State Director of the State in which the registrant is registered.

Section 1660.11 is amended to read as follows:

§ 1660.11 Completion of alternate service.

When a registrant's local board is informed by the State Director that the registrant has been released from alternate service after six months or more of satisfactory service, the local board shall classify the registrant in Class 4–W and issue a Certificate of Release from Alternate Service (SSS Form 154).

Dated: December 16, 1974.

BYRON V. PEPITONE,
Director.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[RM-2393; FCC 74-1334]

PART 1—PRACTICE AND PROCEDURE

Memorandum Opinion and Order

In the matter of amendment of Part 1, Subpart C (Rulemaking Proceedings), rules of practice and procedure.

1. The Commission has before it a petition for rulemaking filed on June 7, 1974 by the Joint Re-Regulation Committee of the Federal Communications Bar Association and the Communications Committee, American Bar Association. The Joint Committee proposes that procedures for amendment of the FM Table of Assignments be changed in several respects. Public notice of the filing of the petition was given on June 18, 1974. The time for filing statements supporting or opposing the petition expired on July 18, 1974. No statements were filed.

BACKGROUND

2. Before discussing the proposed changes, it is appropriate to set out some general information concerning the FM Table of Assignments and current procedures for amendment of the rules and regulations.

3. *FM Table of Assignments.* The portion of the radio spectrum allocated to FM broadcasting (88–108 MHz) has been divided into 100 channels, each 200 kHz in width. Eighty of these channels (numbered 221–300) are available for use by commercial FM broadcast stations and have been assigned to communities throughout the United States under principles designed to maximize their availability for productive use and to preclude radio frequency interference.[1] In California, for example, Channel 232 has been assigned to eight communities and 17 channels have been assigned to Los Angeles. More than 3400 channel assignments have been made to some 2278 separate communities. The FM Table of Assignments (FM Table) is a list, arranged by State and community, of the commercial FM channel assignments to each community. It is set out in § 73.202 of the Commission's rules (47 CFR 73.202).

4. Applications for authority to construct an FM station must be consistent with the FM Table of Assignments.[2] Thus, an individual who is interested in establishing an FM station in a community which is not listed in the Table or on a channel which is not assigned to the community in question must first petition for and obtain an amendment of the Table, to conform it to his purpose, after which he or any other interested party may apply for a construction permit. Because the Table is a Commission rule, general procedures for amendment of the rules (47 CFR 1.401–1.427) govern action on such petitions. The Joint Committee is seeking amendment of these general procedures insofar as they apply to petitions for amendment of the FM Table.

5. *Rule making procedures.* Sections 1.401–1.407 apply to petitions for rule making. Under these procedures, when a petition is filed, it is reviewed by an appropriate member of the professional staff to determine whether it should be accepted as a petition for rule making. In most cases, this decision is very easily made, requiring only a few minutes of staff time. In the case of petitions to amend the FM Table, the process is somewhat more complex. Petitioner is required, for example, to make an engineering study, and the adequacy of that study is reviewed before the petition is accepted. If the study is inadequate in any respect, petitioner is required to correct the deficiency before the petition is accepted. The staff time required for this evaluation varies with the complexity of the petition, but it is not substantial, and the effort involved is by no means equivalent to what is required to decide whether a notice of proposed rule making should issue.

6. If the petition is accepted, it is assigned a file number (e.g., RM–1234). On Friday of each week, the Commission issues a public notice of petitions for rule making accepted during the week. The notice briefly describes each petition and invites any interested person to file a statement supporting or opposing it. Statements may be filed within 30 days after the notice is issued and must be served on petitioner. Replies to such statements may be filed within 15 days after the statement is filed and must be served on the person who filed the statement to which the reply is directed. The Commission may act on the petition at any time after it is filed, without awaiting the expiration of the periods for filing statements or replies, and might well do so if the proposal obviously had, or obviously lacked, merit. In almost all cases, however, action is deferred until after these periods have expired, either because comment on them is considered useful or (as is almost always the case) the staff cannot reach them for action within a lesser period. If statements and replies are submitted, they are considered before action is taken. In acting on petitions to amend the FM Table of Assignments (a substantive rule), the Commission would either deny the petition or issue a notice of proposed rule making.

7. The notice of proposed rule making initiates a rule making proceeding governed by procedures set out in §§ 1.411–1.427 of the rules. Where the notice derives from a petition for rulemaking, it announces, in effect, that the Commission is considering adoption of petitioner's proposal or some modification thereof. The notice outlines what is now the Commission's proposal and requests comments and reply comments within a reasonable period specified therein; it is published in the FEDERAL REGISTER. Comments and reply comments are available for inspection or copying at the Commission's Public Reference Room; however, there is no requirement that they be served on other persons participating in the proceeding. After considering the comments and reply comments and any other relevant information, the Commission

[1] Non-commercial FM broadcast stations are licensed primarily on channels 201–220, which have not, in most areas, been assigned to particular communities.

[2] Minor deviations are permitted by § 73.209 (b) of the rules.

issues a decision acting on the proposal and stating the reasons for the action taken.

PROPOSED CHANGES

8. The Joint Committee suggests the following changes in the procedures governing rule making proceedings, insofar as they apply to changes in the FM Table of Assignments:

(1) In the case of petitions to amend the FM Table, the Commission should dispense with the public notice that the petition has been filed and statements supporting or opposing the petition and should proceed directly to the issuance of a notice of proposed rule making or, if the amendment lacks merit, to denial of the petition.

(2) The Commission should specifically allow or should require, by rule, that a draft notice of proposed rule making be submitted with petitions for amendment of the FM Table. (FCBA recommends that the Commission permit the submission of a draft notice; the ABA recommends that the submission of such a draft be required.)

(3) If the proposed amendment of the Table would involve a change in the channel assigned to any existing licensee or permittee, petitioner should be required to serve a copy of the petition on that licensee or permittee.

(4) Copies of all comments filed in response to the notice of proposed rule making should be served upon the parties whose petition initiated the notice.

(5) Copies of reply comments should be served upon parties who filed comments to which the reply comments relate.

(6) Parties should be permitted to submit counter proposals in comments in response to the notice of proposed rule making only and should not be permitted to advance them for the first time in reply comments.

DISCUSSION

9. The primary objective of the Joint Committee is to expedite action on petitions to amend the FM Table of Assignments. In the Committee's view, dispensing with the two-tier procedure, in which the Commission solicits the views of interested persons successively in a public notice of the petition's filing and in a notice of proposed rule making, would contribute to that objective. Submission of a draft notice of proposed rule making would contribute to the same objective if it were utilized and if the time a staff member devoted to its preparation were thus saved.

10. We share the interest of the Joint Committee in reducing backlogs and expediting action on petitions to amend the Table. We do not agree, however, that the two-tier procedure is the cause of delay or that dispensing with it would contribute to the Committee's objective. The real cause of delay is the existence of a backlog and the unavailability of sufficient staff personnel to eliminate it. Staff members occupied with processing petitions filed at an earlier date cannot turn their attention immediately to the merits of new petitions as they are filed. They can, and now do, undertake a brief preliminary review of new petitions to assure that they are not patently defective and to afford petitioner an opportunity to correct the deficiency at an early date if they are. The public notice apprises petitioner that his petition has reached the proper hands and that it appears to be in order. This preliminary review could not be replaced during the same time frame with the more thorough study required to determine whether a notice of proposed rule making should be issued. Dispensing with the procedure would instead mean that the petition would be held for an appreciable period, without action of any kind, until the study leading to issuance of a rule making notice or denial could be completed. The staff now rarely reaches a petition for processing on the merits until after the periods for filing statements and replies responsive to the public notice have expired and, if it should, need not delay processing pending expiration of those periods.[1] The public notice has the merit of providing early notice of the filing of the petition to interested persons, including any of whom the petitioner and the Commission may not be aware. If no statements are submitted, no time is lost. If statements and replies are submitted, they can be helpful in identifying interested persons and issues which may warrant consideration in the proceeding, and it should be helpful to all concerned for such matters to surface at any early stage of the proceeding. Thus, in our judgment, the public notice procedure does not delay action on petitions to amend the Table, can produce benefits, and should be retained. However, it should be noted that we have responded affirmatively to the thrust of the FCBA–ABA petition—as a request for expedited action—by adding a subsection (d) to § 1.405 making it clear that "the Commission may act on a petition for rule making at any time after it is filed." (See note 3 below.)

11. Although we have some general reservations about parties to a proceeding submitting draft documents for adoption by the Commission, they do not apply with any force to the submission of draft notices of proposed rule making for amendment of the FM Table of Assignments. Such notices are usually brief and utilize more or less standardized language and, in many instances, the submission of a draft notice could save staff time and thereby contribute to reducing the backlog. If the draft cannot be used, no harm has been done. The submission of such drafts is not barred by present procedures, of course, but it may well be constructive to encourage their submission by amending the rules to call attention to the possibility.

12. Several of the Joint Committee's recommendations concern the service of the petition for rulemaking, comments and reply comments. The Committee recommends, first, that copies of the petition be served on existing FM licensees or permittees if the proposed amendment involves a change in the channels assigned to them. The Commission has heretofore given notice of the petition to such licensees and permittees. However, the procedure recommended by the Committee is superior to present practice, in that it provides earlier notice and relieves the Commission's staff of this task. We are therefore amending the rules to require the petitioner to make service of petitions to amend the FM Table on affected licensees and permittees and to attach a certificate of service to the petition. The staff will review the certificate as a check to assure that service has been made on all affected licensees or permittees.

13. The Committee further recommends that copies of comments be served on the petitioner for rule making and that copies of reply comments be served on parties who filed comments to which the reply comments relate. We think that this proposal also has merit in proceedings for amendment of the FM Table, in which the number of participants is relatively small and participants are often cast in very real adversary roles. In such circumstances, the requirement of service is not unduly burdensome and will not discourage participation. The rules are amended herein to require service as proposed in the petition.

14. The Joint Committee recommends, finally, that counter proposals should be submitted in comments only and should not be advanced for the first time in reply comments. We agree with this recommendation. The following standard language is now included in every notice for amendment of the FM Table:

> Any counterproposals will be considered only if advanced in initial comments, so that interested parties may comment in reply comments. A counterproposal will not be considered if advanced in reply comments.

We agree that such a provision should be included in the rules but will continue to include it in the text of each rulemaking notice proposing an amendment of the FM Table of Assignments.

15. Petitions for amendment of the FM Table are submitted in greater frequency than petitions for amendment of the Television Table of Assignments (47 CFR 73.606). However, the changes recommended by the Joint Committee and the foregoing discussion are just as appropriate for the TV as for the FM Table, and the procedural changes adopted herein will apply equally to proceedings for amending both Tables.

16. In view of the foregoing, *It is ordered*, That the rules of practice and procedure are amended as set forth in

[1] Section 1.405 of the rules provides that statements and replies may be filed "prior to Commission action on the petition but not later than" 30 days after Public Notice is given, or 15 days after the filing of the statement, as the case may be. Thus, if the Commission acts prior to expiration of the 30 or 15 day periods, the periods are reduced accordingly and no later statements or replies may be filed. We think that this provision can be more clearly stated and are amending § 1.405 to do so.

XUM

the attached Appendix. The amended procedures shall apply to proceedings in which the petition for rule making is filed on or after December 20, 1974 (§ 1.401 & § 1.405). To the extent that the amended procedures apply to proceedings following issuance of a notice of proposed rule making, they shall apply to proceedings in which the notice is issued on or after December 20, 1974 (§ 1.420). The petition for rule making filed by the Joint Re-Regulation Committee is granted to the extent indicated herein and is in other respects denied.

17. Authority for these amendments is contained in sections 4(i) and (j) and 303(r) of the Communications Act of 1934, as amended, 47 USC 154(i) and (j) and 303(r), and in 5 USC 553. Because the amendments involve a matter of procedure, the prior notice and effective date provisions of 5 USC 553 are inapplicable.

(Secs. 4, 303, 48 Stat., as amended; 1068, 1082; (47 U.S.C. 154, 303))

Adopted: December 4, 1974.

Released: December 11, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX

In Part 1 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 1.401(d) is added, to read as follows:

§ 1.401 Petitions for rule making.

* * * * *

(d) Petitions for amendment of the FM Table of Assignments (§ 73.202 of this chapter) or the Television Table of Assignments (§ 73.606) shall be served by petitioner on any Commission licensee or permittee whose channel assignment would be changed by grant of the petition. The petition shall be accompanied by a certificate of service on such licensees or permittees. A draft Notice of Proposed Rule Making may be submitted with a petition for amendment of the FM or Television Table of Assignments.

2. Section 1.405(d) is added, to read as follows:

§ 1.405 Responses to petition; replies.

* * * * *

(d) The Commission may act on a petition for rule making at an time after it is filed. Statements in support of or in opposition to a petition for rule making, and replies thereto, shall not be filed after Commission action, and the periods provided in this section for filing such pleadings are subject to this requirement.

3. Section 1.420 is added, to read as follows:

§ 1.420 Additional procedures in proceedings for amendment of the FM or Television Table of Assignments.

(a) Comments filed in proceedings for amendment of the FM Table of Assignments (§ 73.202 of this chapter) or the Television Table of Assignments (§ 73.606) which are initiated on a petition for rulemaking shall be served on petitioner by the person who files the comments.

(b) Reply comments filed in proceedings for amendment of the FM or Television Table of Assignments shall be served on the person(s) who filed the comments to which the reply is directed.

(c) Such comments and reply comments shall be accompanied by a certificate of service.

(d) Counterproposals shall be advanced in initial comments only and will not be considered if they are advanced in reply comments.

[FR Doc.74-29686 Filed 12-19-74;8:45 am]

[FCC 74-1379; Docket No. 19551; RM-1821 etc.]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations, Table of Assignments

1. The Commission here considers and disposes of the remaining portions of this proceeding to amend the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) involving 16 cities in Georgia, Alabama, and Mississippi. The basic proposal is bottomed on the petition of the Broadcast Good Music Committee (hereinafter referred to variously as "Good Music", "Music!", or "BGMC") to assign Channel 300 at Atlanta, Georgia, as a seventh FM channel assignment (RM-1864). Good Music had proposed alternatives, but we rejected as inadequate its plan to substitute a Class A channel at Macon, Georgia, for Channel 300, since a construction permit already had been granted (now licensed as Station WCRY-FM). Thus, the Notice proposed for consideration BGMC's plan requiring channel changes at Hawkinsville, Macon, and Ocilla, Georgia; Birmingham and Gadsden, Alabama; and Macon, New Albany, Oxford, and Clarksdale, Mississippi. This presently involves changes at seven cities, six of which are occupied by operations stations;[1] this is referred to hereinafter as the "Atlanta" or "principal" proposal. The other nine cities involve a direct counterproposal and two subsidiary groups of counterproposals. The direct counterproposal is to assign Channel 300 to Monroe, Georgia, population 8,071,[2] in lieu of Atlanta (RM-2077); that proposal is identical in all other respects to the principal proposal.[3] As already noted, with the exception of Macon, Mississippi, all the assignments affected by the Atlanta and Monroe proposals are occupied thus *inter alia* raising questions about reimbursement should it be deemed that the public interest, convenience, and necessity would be served by the proposal to assign Channel 300 to either Atlanta or Monroe. See footnote 6, infra.

2. One of the subsidiary groups involves petitions to add FM channels variously at Tuscaloosa, Alabama (a third), and a second channel at both Columbus and Starkville, Mississippi. The Notice noted the conflict between the proposal of Ben P. Yarber to assign Channel 221A to Starkville (RM-1923) with the Atlanta proposal as concerns the proposed substitution of Channel 221A for 280A at Macon, Mississippi. The petitions of James Eatherton (RM-2029) and Tri-Cities Broadcasting Company (RM-2038) to assign Channel 280A to Columbus and Tuscaloosa, respectively, were filed later and considered part of this group because they are timely as counterproposals under the standard cut-off in FM rule making proceedings; they conflict with the principal proposal's proposed assignment to Birmingham, the current assignment to Macon, Mississippi, and with each other; and the Columbus proposal also conflicts with the 280A proposal for Starkville.

3. The other subsidiary group involves FM channel assignments to communities in mid-Alabama which are considered as counterproposals because of Tri-Cities' alternative proposal to assign Channel 224A instead of 280A at Tuscaloosa. Included are proposals to assign Channel 224A at Haleyville as a first channel assignment (RM-2004); and Jasper, Alabama as a second assignment (RM-2037); and Radio South's counterproposals that Channel 292A, occupied by Station WRCK-FM, be reassigned from Sheffield, Alabama, to Haleyville, and

---

[1] Statement of Chairman Wiley filed with original document.

[1] The First Report and Order severed and disposed of the Clarksdale proposal which conflicted with the petition of Radio Helena, Incorporated, licensee of Station KCRI-FM, Helena, Arkansas, to change its channel assignment to solve a second harmonic interference to a television station problem (38 F.C.C. 2d 878 (1972)). And the Second Report and Order disposed of the Ocilla, Georgia, proposal and related counterproposals in southeast Georgia, adopted September 19, 1974 (FCC 74-1006), 48 F.C.C. 2d (1974), petitions for reconsideration pending.

[2] Unless otherwise indicated, all population data are from the 1970 Census.

[3] In order to assign Channel 300 to either Atlanta or Monroe, it is necessary to change the channel assignment at Macon, Georgia (substitute Channel 279 for 300), which in turn requires change of channels at Hawkinsville, Georgia (substitute Channel 237A for 280A), and Gadsden, Alabama (substitute Channel 229 for 279); the change at Gadsden in turn requires the substitution of Channel 279 for 229 at Birmingham, Alabama, which then requires channel changes at Macon, Mississippi (BGMC proposed substitution of Channel 221A for 280A, although 261A is available), and New Albany, Mississippi (Channel 248 for 278); and the latter requires that at Oxford, Mississippi, substitution of Channel 278 for 248. On November 1, 1974, the Commission received from BGMC a document, entitled "Amendment to RM 1864 of Broadcast Good Music! Committee", which among other things would amend the foregoing plan. The "amendment" constitutes a counterproposal which may not be considered in connection with this proceeding, since untimely. The standard "cut-off" for considering a counterproposal is the date for filing comments, which in this docket was October 31, 1972.

224A be substituted there[4], and that as for Tuscaloosa, Channel 269A be assigned to Northport, a city with slightly less than 10,000 population, which is an apparent suburb of Tuscaloosa without any aural broadcast service of its own. Comments were filed by the various petitioners, Ring Broadcasting Company (Ring); Middle Georgia Broadcasting Co., Inc.; WDJC Radio, Inc.; Leroy E. Kirkpatrick; and New Albany Broadcasting Co. With the exception of Ring, the licensee of a daytime-only AM Station WRWG at Atlanta which supports the Atlanta proposal, those other than the petitioners are the licensees of the stations affected by principal proposal opposing the proposed change(s) or commenting on rights to reimbursement.

4. The basic issue here is whether Channel 300 should be assigned to Atlanta, Georgia. The Broadcast Good Music Committee (short title for The Citizens Committee to Preserve the Present Programming of the "Voice of the Arts on WGKA–AM and FM") petitioned to deny the assignment and transfer of the WGKA stations because of a proposed change of programming from the classical music format of these stations coincident to a change of ownership. See generally Citizens Committee v. FCC, 436 F. 2d (D.C. Cir. 1970). Because unsatisfied with the expedient adopted—that a noncommercial educational FM station program classical music and WGKA–AM adopt a contemporary music format—Music! filed the petition bottoming the principal proposal. Good Music is not the usual petitioner in an FM rule making proceeding seeking the assignment of a channel to a community in order that the petitioner might apply for the channel when assigned but rather as an advocate for an additional FM channel assignment for Atlanta in order that some broadcaster interested in a full time classical music format would apply if a channel were assigned to Atlanta. In this respect, the Notice rejected the notion that program format is a determinative factor in making an FM channel assignment.[5] The Notice also rejected BGMC's population per assignment argument as not fair or meaningful in making FM channel assignments except where the communities are of comparable size. The Notice asked for comments as to specific issues:

(a) Atlanta's need for Channel 300;

(b) the impact of such an assignment on existing assignments;

(c) that a preclusion study be furnished; and

(d) questions as to reimbursement.[6]

5. Good Music says that it is "superfluous" for it to comment on the need of Atlanta for another channel which it says is evident. Instead, Good Music refers to its efforts in the WGKA change of format proceeding "occasioned by the insufficiency of North Georgia broadcast services and the programming variety they offer." Even though the Notice pointed out that programming is not an appropriate basis for making FM channel assignments, Good Music says that the effect on existing stations "will be nil, other than in creating an additional broadcast service, for which the need is clear."[7] BGMC did not furnish a preclusion study. Rather its comments are mainly directed at the various counterproposals. As to Monroe, BGMC contends that that city receives a plethora of service from the eight "Atlanta" FM stations as well as those at Athens, Gainesville, and Macon. BGMC would resolve the subsidiary proceedings by making assignments of Class A stations on Class C channels not usable as Class C's because of mileage separation requirements.[8] Ring is the only broadcaster which has expressed an interest in this proceeding. As to the issues raised by the Notice, Ring only comments about reimbursement. Despite what the Notice said about programming format as being of slight relevance, Ring's main discussion is the need of the Atlanta market for a fulltime station with Station WRNG's format.

6. The proposal to assign Channel 300 to Atlanta, Georgia, with the concomitant channel changes at seven other communities must be considered in the light of the principles underlying and utilized in establishing the FM Table of Assignments. Because of the inadequacies of the system which had been followed in the AM service under which an applicant was granted a particular frequency on a case-to-case consideration of service area gain as opposed to interference to existing stations (absent questions as to mutually exclusive applications or qualification), we adopted, as we already had for television, an overall pre-engineered plan for the assignment of FM channels bottomed on the authority of section 307(b) of the Communications Act of 1934, as amended. to provide a fair, efficient, and equitable distribution of radio service among the several States and communities. There is no need here to either catalog the technical criteria or priorities which are set out in various decisions in Docket No. 14185 (40 F.C.C. 660 through 821) and in particular the Third Report, Memorandum Opinion and Order promulgating the Table of Assignments (40 F.C.C. 747 (1963)). Suffice it to say that the Table of Assignments was designed to achieve maximum and optimum use of each FM channel and to make provision for future needs which were not then ripe for expression.

7. As particularly relevant, adopted were population criteria under which we attempted to assign from 6 to 10 channels to a city with a population of 250,000 to 1,000,000.[9] See Para. 4 of the further notice of proposed rulemaking in Docket No. 14185 (FCC 62–867), which was incorporated by reference in the Third Report, Memorandum Opinion and Order, 40 F.C.C. 747, 758 (1963). Atlanta (population 487,455, 1960 Census) was assigned six channels for the existing stations there (petitions for two other channels were denied; see 40 F.C.C. at 788–9).[10] Significantly, as concerns the population guidelines and certain other respects (for example, power and height), we decided that existing stations were to be left undisturbed. See second further notice of proposed rulemaking in Docket No. 14185, 40 F.C.C. 728 at 732 (1962). However, some stations were ordered to make channel changes to eliminate short spacings of

---

[4] Since Station WRCK–FM occupies Channel 292A, it would be entitled to reimbursement if this counterproposal is adopted. See Order to Show Cause, adopted September 6, 1974 (Mimeo No. 28270).

[5] "[W]e do not believe that we should base the exercise of our authority under Section 307(b) on programming preferences. It is not that this matter is without any significance, but rather that it cannot be substituted for an evaluation of the comparative needs of communities for service. Whatever the significance of the court's decision dealing with the WGKA controversy and the new owner's plan to terminate the existing classical music programming service, it cannot be read to require action here when it is totally unclear who would occupy the channel or what programming the successful applicant would offer. This is a far different situation than the one before the court which involved the termination of an existing program service. If a channel were to be asigned, Music! or any other possible party would be free to raise this matter as having possible decisional significance in a comparison between the applicants. We indicate no view on any such request and only hold that this question does not have any place in this context." (Para. 6, Notice of Proposed Rule Making in Docket No. 19551, adopted July 19, 1972 (FCC 72–639; 37 Fed. Reg. 15320, 15321).)

[6] It is well settled Commission policy that where a change in the FM Table of Assignments requires an operating station to change the channel of its operation it is entitled to be reimbursed for actual cost of change. See, e.g., Cocoa Beach, 1 F.C.C. 2d 643, 645 (1965); Wenatchee, 2 F.C.C. 2d 828, 830 (1966); Kenton and Bellefontaine, 3 F.C.C. 593, 603–605 (1966); Gretna and Danville, 5 F.C.C. 2d 333, 341 (1966); Circleville, 5 F.C.C. 2d 159 (1967); Lake City, 47 F.C.C. 2d 1067, 1076 (1974); see also Supplement to the Third Report, Memorandum Opinion and Order in Docket 14185, 40 F.C.C. 807 (1963).

[7] It went on to say:

[N]o matter what type of programming * * *, it surely will not duplicate existing formats, thus increasing the diversity in scope of Atlanta radio service while fulfilling common community purposes.

[8] Thus BGMC says that Columbus could be assigned either Channel 235 or 236, Tuscaloosa 264, Haleyville or Russellville 241, and Jasper 289. Russellville, population 7,814, was mentioned because it is located in the preclusion area for a Channel 224A assignment to Jasper; see Policy to Govern Request for Additional FM Assignments, 8 F.C.C. 2d 79 (1967).

[9] In this respect, BGMC alleged that Atlanta is the principal metropolitan area in the southeastern part of the United States. Atlanta, population 496,973, is the central city of the Atlanta Standard Metropolitan Statistical Area (SMSA) which, as redesignated in 1973, has a population of 1,597,816.

[10] 23 other cities of the 45 in this population grouping also were assigned only channels for existing stations. Seven other cities were also assigned six channels; nine were assigned less; seven were assigned seven; five were assigned eight; nine were assigned nine; and the remaining eight 10 or more.

V 39 N 246 DEC 20 1974 XUM

existing stations (40 F.C.C. at 760–1); three were involuntary and ten were voluntary (see 40 F.C.C. at 760; see also Supplement to Third Report, Memorandum Opinion and Order, 40 F.C.C. 807).

8. To assign another channel to Atlanta would require us to deviate from the tenets laid down in Docket No. 14185 and scrupulously adhered to since then. While it might be argued that under the population criteria, Atlanta with a 1970 population of 496,973, is entitled to another channel, this contention cannot be sustained. It has a fair share of FM channels considering our actions in Docket No. 14185 and since then. Population is more of a guideline rather than an immutable standard, and it is subservient to more paramount considerations. See, e.g., Colorado Springs, 44 F.C.C. 2d 1047, 1054 (1974); Pensacola, 44 F.C.C. 2d 1056, 1061 (1974); Yakima, 42 F.C.C. 2d 548–550 (1973); Fresno, 38 F.C.C. 2d 525, 526 (1973); and compare San Antonio, 7 F.C.C. 2d 836, 842–3 (1967).[11] It is noteworthy that we have deleted a channel from a city in this population category in order to make an assignment elsewhere.[12] Indeed, we immediately

We concur that the listing of actions realized that "literal fulfillment of the [population] criteria * * * [is] beyond the realm of reason" (40 F.C.C. at 754).

9. In order to assign Channel 300 to Atlanta, it is necessary to change the assignments of seven other communities: Hawkinsville and Macon, Georgia; Birmingham and Gadsden, Georgia; and Macon, New Albany, and Oxford, Mississippi, each of which except Macon, Mississippi, is occupied by an operating station. This would be an unprecedented reshuffling of the FM stations of the sort which the Commission avoided in establishing the FM Table of Assignments. No sound reason has been advanced why such an action should be taken, and we must refrain in the absence of an overwhelming public interest consideration. Indeed, if anything, the public interest strongly militates against the changes of channel assignments of six operating stations scattered over a wide geographical area to make a single channel assignment to a city which has a sufficient amount of FM service and an abundance of aural service generally. In the circumstance, we conclude that the public interest, convenience, and necessity is better served by denying the petition of Broadcast Good Music Committee to assign Channel 300 to Atlanta, Georgia.

10. We turn now to the proposal of Community Broadcasting Company, Inc. (Community), licensee of daytime-only AM Station WKUN there, which alternatively proposes the assignment of Channel 300 to Monroe, Georgia (instead of Atlanta). Since this differs from the Atlanta proposal only as to the city to which it is proposed to assign Channel 300, the same rationale for denying the principal proposal is equally applicable. However, we believe that it may be instructive to point out how the proposal is inadequate in other respects.

11. The gist of Community's proposal is that Monroe as the focal point of an eight county agricultural area[13] with a total population of 180,625 (2,252 square miles) is in need of a fulltime broadcast station to meet that area's needs and in particular which AM Station WKUN cannot. Monroe, population 8,071, is located in Walton County, population 23,404. Monroe is about 45 miles east of Atlanta, and, in fact, it is part of the Atlanta SMSA. In apparent anticipation of objections that a city the size of Monroe does not warrant assignment of a Class C FM channel, Community alleges that Channel 300 is the only FM channel available for assignment there and an FM station at Monroe would provide second and third FM service to substantial areas and populations.[14] Significantly, Monroe is part of the Atlanta SMSA, and, more importantly, it receives a plethora of aural broadcast service from the eight Class C FM stations licensed to Atlanta, Marietta, and Smyrna, and many AM stations in the Atlanta market, aside from AM Stations WKUN (daytime-only) and WMRE (Class IV) licensed to Monroe and possibly stations at Athens and Gainesville. As pointed out in the Notice in this proceeding, programming is not of principal significance in making an FM channel assignment (see Para. 4 and fn. 5, above). Nor is Community's assertion that Monroe is entitled to a first FM channel assignment rather than Atlanta a seventh one persuasive. Community's argument is an oversimplification of one of the priorities followed in establishing the FM Table of Assignments; specifically, in the further notice of proposed rulemaking, adopted July 25, 1962 (FCC 62–857), we said:

> Insofar as possible, to provide each community with at least one FM broadcast station, especially where the community has only a daytime-only or a local (Class IV) AM station, and especially where the community is outside an urbanized area.

12. As already noted, Monroe has two AM stations, it is in the Atlanta SMSA, and it is well served by the Atlanta market aural broadcast stations as well as from Athens and Gainesville. In such circumstance, the first channel priority is not even relevant. But, even if it were, it is not compelling for, as we said in the Third Report, Memorandum Opinion and Order in Docket No. 14185, a priority is not deemed a firm promise to be kept but only one of internally inconsistent goals forming the basis for action by judicious balancing (40 F.C.C. 747, 753 (1963)). Indeed, as noted above with respect to the population criteria (Para. 8), we promptly recognized the inadequacy of a mechanistic attempt to turn desirable goals into absolute requirements (40 F.C.C. at 754). Thus, for example, because of the recognized impossibility of making FM channel assignments to every community, we generally made FM channel assignments to those among the less populated ones with a population of 10,000 or more; and since then we have maintained a policy of assigning channels to communities with lesser population only if there is an expressed demand and a channel is readily available. Also, if we assign Channel 300 to Monroe, the successful applicant would be liable for substantial sums for reimbursing the six stations which would have to make channel changes in order that Channel 300 could be assigned to Monroe in accordance with mileage separations. In this respect, Community merely stated that it would participate with other beneficiaries proposing new facilities in this proceeding. Without elaborating, it is rather evident that if Channel 300 were assigned to Monroe, there is a serious question whether the successful applicant for it could afford the financial burden; see and compare San Antonio, 7 F.C.C. 2d 836, 843 (1967)), where the Commission rejected a proposal to assign Channel 298 to Kenedy-Karnes instead of San Antonio in part because of the failure to show that Kenedy-Karnes could afford the facilities of a Class C channel.

13. We now turn to the other proposals. We first discuss the Mississippi-Alabama group. This includes petitions for additional channels at Starkville, Tuscaloosa, and Columbus (RM's–1923, 2029, and 2038). RM–1923 is based on the petition of Ben P. Yarber, licensee of daytime-

---

[11] In San Antonio, Pensacola, Fresno, and Yakima, additional channels were assigned either comporting with or exceeding the population criteria, inasmuch as there were no questions of channel availability. In Colorado Springs, there was no channel available without depriving another city of one of its channels in which circumstance we denied the petition (see and compare the denial of the petition of Esquire, Inc., for a channel at Atlanta considered in Docket No. 14185; 40 F.C.C. at 788). In San Antonio, a channel was added by changes of assignments at four other communities (none were occupied); Pensacola was one of several interrelated proposals; and no other assignment changes were involved in Fresno and Yakima.

[12] See Cincinnati, 40 F.C.C. 972, 977–8 (1965); New Orleans, Docket No. 16535, Paras. 4–5 (FCC 66–846); Omaha, Docket No. 17095, Paras. 14–16 (FCC 67–456); and St. Louis, 4 F.C.C. 2d 401 (1966).

[13] Walton, Barrow, Oconee, Morgan, Jasper, Newton, Rockdale, and Gwinnett Counties.

[14] The latter at best is a dubious consideration. Under the Roanoke Rapids doctrine (9 F.C.C. 2d 672 (1967)), at times we have assigned a Class C channel to a community which normally merits only a Class A channel if this would result in service to substantial unserved (no FM service) and underserved (only one other FM signal) areas. (This doctrine was recently revised in Anamosa and Iowa City, 46 F.C.C. 2d 520, 525–6 (1974).) Clearly meaningless is Community's contention that the reassignment of Channel 300 from Macon, Georgia, would make possible the assignment of Channel 299 or 300 in a large area in southeastern Georgia. If this were germane, we note that assignment of Channel 300 to Atlanta would provide a larger area for such use of 299 or 300.

only AM Station WKOR there, seeking to assign Channel 221A as a second FM assignment to Starkville, Mississippi, population 11,369, the seat of Oktibbeha County, population 28,752. Because already filed, this proposal was included in the Notice because of the conflict with the BGMC proposal to substitute Channel 221A for 280A at Macon, Mississippi (population 3,617), seat of Noxubee County, population 14,292. As required by the Policy to Govern Requests for Additional FM Assignments, 8 F.C.C. 2d 79 (1967), Yarber was requested to furnish information as to possible preclusion and impact on educational FM stations in the vicinity. The Notice also noted that Channel 280A could be assigned to Starkville without conflict if the principal proposal were adopted (and in particular the deletion of Channel 280A at Macon, Mississippi), which Yarber since has counterproposed. The latter conflicts with the counterproposal in RM-2039 and which in turn conflicts with RM-2038 respectively proposing the assignment of Channel 280A to Tuscaloosa, Alabama, and Columbus, Mississippi, which conflicted with the principal proposal as concerns the substitution of Channel 279 at Birmingham, Alabama, and the existing Channel 280A assignment at Macon, Mississippi.

14. In RM-2039, Tri-Cities Broadcasting Company (Tri-Cities), licensee of daytime-only AM Station WTUG there, proposed Channel 280A as a third FM channel assignment to Tuscaloosa, Alabama. RM-2038 is based on the petition of James Eatherton, licensee of daytime-only AM Station WACR there, to assign Channel 280A as a second FM channel assignment at Columbus, Mississippi.[25] Tuscaloosa, population 65,773, is the seat of Tuscaloosa County (population 116,029), which constitutes the Tuscaloosa SMSA. Columbus, population 25,795, is the seat of Lowndes County, population 49,799.

15. The last group to be considered here stems from the counterproposal of Tri-Cities to assign Channel 224A at Tuscaloosa. This conflicts with the petition of Radio South Inc., licensee of AM Station WARF, Jasper, Alabama, to assign that channel as a second FM assignment to that community (RM-2037), which in turn conflicts with the petition of Helton & Norris (H & N) to assign the same channel as a first FM assignment to Haleyville, population 4,196, located in Winston County, population 6,654 (RM-2004). In order to resolve the conflict between Jasper and Haleyville 224A proposal, Radio South proposed that Channel 292A be assigned to Haleyville and Channel 224A be substituted for it at Sheffield.[26] It also suggested that as an "alternative" to assigning Channel 224A to Tuscaloosa Channel 269A be assigned to Northport, population 9,435, which is located across the Black Warrior River from Tuscaloosa. The following table sets forth pertinent information as to the population of, the county in which located, and the aural broadcast outlets available for each of the cities for which there is a counterproposal.

City	Population	County	Population	Aural broadcast service
Haleyville, Ala.	4,196	Winston	36,654	WJBB (class IV).
Jasper,[1] Ala.	10,798	Walker	54,246	WWWB (daytime-only), WARF (class IV), and WWWB-FM.
Northport, Ala.	9,435	Tuscaloosa	116,029	None.
Tuscaloosa,[1] Ala.	65,773	do	116,029	WTUG (daytime-only), WACT (daytime-only), WTBC (class IV), WJRD, WNPT, WUOA (FM), WATC-FM and WUAL (noncommercial FM).
Columbus,[1] Miss.	25,795	Lowndes	49,799	WACR (daytime-only), WCBI, WMBC (class IV) and WJWF (FM).
Starkville,[1] Miss.	11,369	Oktibbeha	28,752	WKOR (daytime-only), WSSO (class IV), and WSMU (FM).

[1] County seat.

16. As noted above, the Mississippi-Alabama (Tuscaloosa, Alabama, and Columbus, Starkville, and Macon, Mississippi) group became intertwined with the Atlanta proposal because of conflict as concerns proposed channel assignments at Birmingham, Alabama, and Macon, Mississippi. The conflict with Birmingham now becomes moot by virtue of our denying the Atlanta proposal and the Monroe alternate. Disposition of this group depends on resolution of conflicting proposals for the use of Channel 280A at Tuscaloosa, Columbus, and Starkville which variously conflict with each other and common to all is the need to delete that channel's assignment at Macon, Mississippi. As already noted, Yarber's petition to assign Channel 221A to Starkville (RM-1923) conflicted with the Atlanta proposal as concerns the proposed substitution of Channel 221A for 280A at Macon, Mississippi.[27] As concerns disposition of these proposals, no problem is posed by the Macon channel assignment; as Tri-Cities has shown, Channel 261A may be substituted there if that action is deemed appropriate (se para. 23 below).

17. Common to both the mid-Alabama and Mississippi-Alabama groups is Tri-Cities' alternative proposal to assign either Channel 224A or 280A to Tuscaloosa as a third FM channel assignment. Tri-Cities, licensee of daytime-only AM Station WTUG there, postulates its proposal to assign a third FM channel assignment to Tuscaloosa on the following: Tuscaloosa is the cultural, economic, social, commercial focal point and principal city of the Tuscaloosa SMSA.[28] We are told that Tuscaloosa is isolated from other population areas: 39 miles from Bessemer, the nearest community with 25,000 population, and 50 miles away is Birmingham the nearest community with a population of 100,000 or more. Tri-Cities urges that the assignment of a third FM facility to Tuscaloosa would enable it to serve the needs of Station WTUG's audience on a full time basis and to operate it on a competitive parity with other aural broadcast stations in Tuscaloosa.[29] Tri-Cities claims an audience of 27,972 in Tuscaloosa County (17,345 in the city and the remaining 10,627 in the county). Its pleadings also refer to an extensive potential Black audience for an FM station as proposed in Hale, Pickens, and Greene Counties.[30]

18. As discussed at some length in the notice and paragraph 4 above, programming format is not a principal consideration in making FM channel assignments.[31] On the other hand, under the population criteria, the extent that it is not outweighed by more important considerations, Tuscaloosa is a city "entitled" to a third FM channel; see Para. 7 above. Absent some overriding factor that disposes of Tri-Cities' proposal in the first instance (and its linchpin effect), we must consider each of the groups separately. Radio South has suggested that it is more imperative that Northport have a first FM channel assignment before Tuscaloosa have a third one, but assignment of

[25] Eatherton's reply comments filed November 20, 1972, will not be considered because they are untimely. Those filed November 6, 1972, will be considered as a matter of expediency. In this respect, Eatherton's pleadings were not signed by him or authorized legal counsel but rather by a "radio engineering consultant". As we recently held in Lake City, pleadings of this nature do not conform to § 1.52 of the Commission's rules and regulations. 37 F.C.C. 2d 1057, 1059-1060 (1972).

[26] This would require Station WBCK-FM to change channel assignments and to be reimbursed for such change. See Order to Show Cause, adopted September 10, 1974, (Mimeo No. 28270), and fn. 6 above.

[27] The Notice raised questions as to the impact of the assignment of Channel 221A on educational FM channels in the area, and it further suggested the possibility of the use of Channel 280A at Starkville, which Yarber has counterproposed.

[28] The population of Tuscaloosa is 65,773; that of Tuscaloosa County (the SMSA) is 116,029.

[29] WTUG is an "independent Negro" station (Standard Rate and Data Service).

[30] This apparently is based on 50 uV/m service to a rural area (§ 73.315(b) of the Commission's rules and regulations). In terms of protected 1 mV/m contour service, an FM station at Tuscaloosa does not serve all of Tuscaloosa County.

[31] The proposals of James Eatherton and Ben P. Yarber for additional channels at Columbus and Starkville are posited on the same sort of argument. As in Tri-Cities, each is the licensee of a daytime-only AM station with a format directed at the Black populace seeking a full time broadcast outlet for such programming.

XUM 2193 V 39 N 246 DEC 20 1974 XUM

Channel 224A to Tuscaloosa and 269A to Northport, respectively, both may be possible.[22] In the circumstances, we consider the merits of the respective groups.

19. We first consider the Mississippi-Alabama group. Here, as already noted, all the proposals are for additional channel assignments—a third assignment to Tuscaloosa and a second to both Starkville and Columbus. (See Para. 13 above.) Eatherton proposed Channel 280A to Columbus on the premise of the need of that community for a second FM station to meet the needs of the Black audience and his economic disadvantage in competing with the other stations there which are AM Station WCBI, and the WMBC AM–FM combination (the AM is a daytime only). As Eatherton alleges, Channel 280A is the only channel that might be assigned to Columbus. In his petition, Eatherton indicated an intent to allow programming by students of Mississippi State College for Women, located at Columbus.

20. In support of its claim that Channel 280A should be assigned to Tuscaloosa, rather than Columbus (that is, Tri-Cities claim is more mertitorious than Eatherton's on a comparative basis), Tri-Cities makes the following assertions: the population of Columbus is only 39.2 percent of Tuscaloosa; and the population of Lowndes County is only 42.8 percent of Tuscaloosa County. Since both express an intent to provide first fulltime night time service to the Black population, Tri-Cities makes a similar comparison of the population of the respective cities and counties and additionally that at Tuscaloosa the channel would meet the programming needs of the Black population of Hale, Pickens, and Greene Counties. Finally, Tri-Cities asserts that a station at Tuscaloosa would serve a population of 106,131 within the 1 mV/m contour as compared to 56,364 on a Columbus station. As we said with respect to Good Music's population per number of channel assignments argument in support of the principal proposal, a comparison of the sort Tri-Cities makes is not meaningful or fair. Such an argument stretched to its logical extreme would inevitably mean that, in a contest between a large city in an urbanized area and a small city in a rural area, one with the most audience potential would prevail irrespective of the availability of other aural broadcast services. Indeed, this is the sort of mechanistic legerdemain which the Third Report, Memorandum Opinion and Order in Docket No. 14185 establishing the FM Table of Assignments rejected (see Para. 12, supra).

21. As already noted, the arguments of both parties as to the need of expanded programming is not relevant.[23] Certainly, Eatherton's argument as to competitive parity is not relevant to this type of proceeding, although this and programming presumably would be of some relevance at the application stage, should we make the assignment. As between Columbus and Tuscaloosa, on the basis of comparative need, we find that the public interest, convenience, and necessity is better served by the assignment of Channel 280A to Columbus. We have not considered the competing proposal for Starkville, inasmuch as there is another channel available for that community, if in fact an additional channel assignment should be made there.

22. At Starkville, Yarber, the licensee of a daytime-only AM station there, is seeking parity with another AM–FM combination with a daytime-only AM station and a fulltime AM station. Yarber based his proposal on the needs of Starkville and Station WACR's listening audience for fulltime programming of the same sort, which, as we have already said, is not an appropriate consideration for making an FM channel assignment. Yarber also said that Station WSMO–FM at Starkville only programs from 7 a.m. to 11 p.m. Yarber, as required by the Policy to Govern Requests for Additional FM Assignments, 8 F.C.C. 2d 79 (1967), made a preclusion study, but he did not indicate the impact on educational FM as requested by the Notice. In the latter respect, a staff study shows that the assignment of Channel 221A would not have impact on potential educational channels on Channels 218–220.

23. In order to assign Channel 280A to Columbus, it is necessary to delete that channel from Macon, Mississippi. As part of the Atlanta proposal, which also requires deletion of Channel 280A at Macon, the substitution of Channel 221A at Macon had been proposed. The latter, however, conflicts with the action taken here to assign Channel 221A to Starkville. However, Tri-Cities in connection with its proposal to assign Channel 280A to Tuscaloosa, which also would have required deletion of Channel 280A at Macon, has shown that Channel 261A may be assigned there in accordance with all mileage separations. We do not, however, propose to substitute Channel 261A for 280A at Macon at this time. Macon is not the size community to which an FM channel assignment is made in the absence of demand (that is, someone evidencing a willingness to apply for and operate a station), especially when Channel 261A might also be used at Aliceville, Alabama, a community of comparable population (Aliceville's population is 2,851). See and compare the action taken in the Second Report and Order in this docket as concerns substitution of a channel at Blackshear, Georgia (FCC 74–1006), 48 F.C.C. 2d (1974), reconsideration pending.

24. We now consider the mid-Alabama proposals. As already noted, these concern conflict for Channel 224A as a first assignment to Haleyville, a second channel assignment to Jasper, and a third assignment to Tuscaloosa, Alabama. Helton & Norris Enterprises, Inc. (H & N) in support of their petition to assign Channel 224A to Haleyville cited information as to the population growth of the city and Winston County in the decade between 1960 and 1970. It is contended that there is particular need for an FM channel to serve Haleyville and Winston County, since AM Station WJBB at Haleyville is the only broadcast station in the county and operates at diminished power after sunset. Information was also given as to continuing growth, industry, and sociological factors; we need not repeat this information here. The arguments of Tri-Cities in support of the proposal to assign Channel 224A to Tuscaloosa have been set forth in some detail above (Para. 17). Radio South's proposal to assign Channel 224A to Jasper was filed as a counterproposal to the H & N's petition and in fact is a second attempt to have that channel assigned to Jasper; see Jasper, 30 F.C.C. 2d 186, 192 (1971).

25. In brief, Radio South urges that, as the county seat (population 10,798) and largest community in Walker County (population 56,246), Jasper is an important retail, educational, and recreational center of sufficient population, economic stability, and socio-economic importance which merits the assignment of a second FM channel. It is asserted that Jasper is the only community in the county with aural broadcast stations and 70% of the county's population reside in a 10-mile radius of the Jasper city limits. Because of the conflict, that is, the Haleyville proposal with that for Jasper and the latter with that for Tuscaloosa, Radio South counterproposed the assignment of Channel 292A to Haleyville and the substitution of Channel 224A at Sheffield for 292A, which is occupied by Station WRCK–FM, and as an alternate for the 224A proposal of Tri-Cities that Channel 269A be assigned to Northport, which is located just north of Tuscaloosa which is without an aural service of its own. In the latter respect, Radio South indicates that it is ready, willing and able to proceed to promptly apply for the channel if assigned to Northport and to promptly build a station if its application is granted. H & N does not oppose Radio South's counterproposal, and indeed, has indicated willingness to contribute to the reimburse-

[22] Because of mileage separation requirements to Station WHHY–FM, Channel 270, Montgomery, Alabama, the transmitter site of a station on Channel 269A at Northport has to be at least several miles north of Northport's reference point. It has been suggested that from such a point a station on Channel 269A could not provide all of Northport with principal community coverage. The information and data available is not sufficient to determine whether this is so, and an appropriate Notice of Proposed Rule Making will be adopted. For the purposes of discussion here, we assume that Radio South is ready, willing, and able to proceed to apply for a channel if assigned to Northport and to promptly build if its application is granted. In sum, we assume that, assertions of Tri-Cities to the contrary, Radio South's proposal for a Northport channel was not intended to confuse the issue about assigning Channel 224A to Tuscaloosa so that Channel 224A would be assigned to Jasper.

[23] In this respect, Tri-Cities contention of service to Hale, Greene, and Pickens Counties is highly dubious (see fn. 20). Indeed, it is even questionable whether a station on a Class A channel at Tuscaloosa can be said to fully serve Tuscaloosa County.

ment of Station WRCK-FM." Tri-Cities has no objection to the assignment of a channel to Haleyville but it strongly questions whether Jasper merits another assignment. In the latter respect, Tri-Cities relies on the earlier denial of the Channel 224A assignment to Jasper while Radio South seeks to explain that on the basis of the facts. Tri-Cities also attacks Radio South's "alternative" to assign Channel 269A at Northport as being no solution whatsoever; this it says has no preclusionary effect on the assignment of Channel 224A at Tuscaloosa. It also calls attention to the fact that Channel 269A would be short-spaced to Station WHHY-FM, Montgomery, Alabama.

26. In resolving this portion of the proceeding, there is no question that Haleyville (as opposed to Monroe, Georgia) merits a first channel assignment. In this respect, if Channel 224A is assigned to Jasper, then Channel 292A may be assigned to Haleyville by reassigning that channel from Sheffield where Channel 224A may be assigned in compliance with the mileage separation to Jasper. As already noted, this requires that Station WRCK-FM change its channel assignment. Station WRCK-FM has agreed to this provided that it will be reimbursed for reasonable expenses, and Radio South and H & N have agreed to participate in such reimbursement. Thus, our action here depends on whether we find that on balance the public interest, convenience, and necessity would be better served by assigning a second FM channel to Jasper or a third FM channel to Tuscaloosa, or, as proposed by Radio South in its counterproposal, assigning a second channel to Jasper and alternatively assigning a channel to Northport, Alabama.

27. Radio South and Tri-Cities interpret our action in denying the assignment of Channel 224A to Jasper in 1971 differently. We there said that Jasper is not a large city, that it has not grown since 1960, and that an FM station as well as two AM stations (one fulltime) are there. In the circumstances, we decided that assignment of Channel 224A should not be made at that time particularly in view of the doubts about the site of a station on Channel 224A which we had also then assigned to Arab, Alabama (30 F.C.C. 2d at 192). In the latter respect, presently in hearing are two applications (BPH-7961 and BPH-8224, Docket Nos. 19849 and 19851), one of which proposes a site which would compel a station on Channel 224A at Jasper to be sited so that a community grade signal could not be placed over Jasper. It is also significant that Jasper in addition to having its own FM station receives an abundance of aural broadcast signals from Birmingham including its six FM stations (37 miles away).[25] Jasper is the type of community to which we might assign a second FM channel if readily available. As has been shown, this is not so. Conceivably this aspect of the proceeding could be held in abeyance pending the outcome of the comparative hearing for Channel 224A at Arab, or conversely the hearing could be stayed to await the outcome of the rule making, that is, if we assigned Channel 224A to Jasper, the application(s) could be amended. Neither alternative comports with the prompt and orderly dispatch of Commission business; indeed, the net effect would be to delay the construction of a station at Arab. In contrast, Tuscaloosa, a much bigger community, has available to it only the aural broadcast services from the radio stations located there. In these circumstances, it would appear that as between Tuscaloosa and Jasper the most fair, efficient, and equitable assignment is at Tuscaloosa considering size and service.

28. There remains for discussion Radio South's proposal to assign Channel 269A to Northport. This proposal appears to have merit; Northport has no aural broadcasting of its own, and Radio South is ready, willing, and able to proceed. While this might be considered a counterproposal, it is not really germane to where Channel 224A should be assigned.[26] In any event, because of changed circumstances,[27] there is a need for further engineering data; also, Radio South did not adduce aural information (e.g., the socio-political nature) about Northport in seeking the assignment of an FM channel to a community (see section 1.401(c) of the Commission's Rules and Regulations). In the circumstances, the Northport proposal will be dealt with separately in a notice of proposed rulemaking in another proceeding.

29. In view of the foregoing and pursuant to authority found in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, it is ordered, That effective January 27, 1975, the FM Table of Assignments (§73.202(b) of the Commission's rules and regulations), is amended with respect to the following cities as follows:

City:	Channel No.
Haleyville, Ala.	224A
Tuscaloosa, Ala.	224A, 269, 288A
Columbus, Miss.	276A, 280A
Starkville, Miss.	221A, 292A

* * * * *

30. *It is further ordered*, That the petition of Broadcast Good Music! Committee to assign Channel 300 to Atlanta, Georgia, and make concomitant changes elsewhere (RM-1954) is denied.

31. *It is further ordered*, That the petition of Community Broadcasting Company to assign Channel 300 (RM-2077) to Monroe, Georgia, is denied.

32. *It is further ordered*, That the petition of Radio South, Inc. to assign Channel 224A (RM-2037) to Jasper, Alabama, is denied.

33. *It is further ordered*, That the assignment of Channel 269A Macon, Mississippi, is deleted.

Secs. 4, 303, 307, 48 Stat., as amended; 1066, 1082, 1083 (47 U.S.C. 154, 303, 307)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-29099 Filed 12-19-74;8:45 am]

[FCC 74-1365; Docket No. 19845 RM-2121]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations

1. The Commission has before it a notice of proposed rulemaking adopted February 25, 1974, 39 FR 9553, inviting comments on a petition filed by Frank A. Franco and Anthony B. Battaglieri (Franco, et al.) which requested the Commission to assign FM Channel 221A to Naples, Florida. Franco, et al. filed its comments in support of the proposal. In addition, Anthony B. Battaglieri filed a letter addressed to the Chief, Broadcast Bureau. On June 27, 1974, one month after the due date for filing reply comments, Naples Image, Inc., licensee of WALJ(FM), Naples, Florida, filed comments in opposition to the proposed assignment.[1] The proposed assignment may be made without making other changes in the Table and would meet the spacing requirements of the Commission's rules.

2. Naples (population 12,042) [2] is the seat of Collier County (population 38,040), is located some 150 miles south of Tampa on the west coast of Florida. Existing broadcast facilities consist of one full-time AM station (WNOG), 1270 kHz, 500 w, DA-N, U) and two FM stations (WALJ(FM), Channel 228A and WCVU(FM), Channel 233, owned by the licensee of the AM facility).

3. Franco, et al., in their comments, incorporated the data contained in the petition for rulemaking, and reaffirmed its intention to apply for the channel if it is assigned, and to promptly construct if their application is granted. They also state that the compelling social and economic reasons for making the assignment have not changed since the filing of the petition.

4. Because Naples Image, Inc., in its comments, opposes the proposed assignment on economic grounds, we are repeating herein the population and economic data contained in the petition. Franco et al., in their petition stated that

---

[25] Jasper is in the Birmingham SMSA which consists of Jefferson, Shelby, St. Clair, and Walker Counties (population 760,230).

[26] If a channel is assigned to Tuscaloosa, one may apply for its use at Northport under the provisions of Section 73.203(b) of the Commission's Rules and Regulations. See Melbourne and Satellite Beach, 47 F.C.C. 2d 717 (1974).

[27] Station WHHY, Channel 270, Montgomery, Alabama, has been granted a construction permit authorizing change in power, height, and transmitter site.

[28] See footnotes 4 and 6, above.

[1] By Order released December 2, 1974, the Commission consented to the assignment of the license of Station WALJ(FM) from Naple Image, Inc. to Collier Broadcasting Company (BALH-2060). For reasons set forth hereafter, we are considering the pleading on the merits.

[2] All population figures cited are from the 1970 U.S. Census, unless otherwise specified.

the increase in population for Naples from 1960 to 1970 was 158.7 percent (194.5 percent for Naples Census Division) and 141.5 percent for Collier County. The Florida Department of Commerce has projected a 1975 population for Collier County of 49,400—more than 11,000 greater than 1970—and a projected 1980 population of 90,200. It is stated that: "[U]nited Telephone expects the 1975 population to reach 71,650, and projects a 1980 population of 168,000." However, the preceding statement does not refer to any specific area. It is stated that virtually all the population lies near Naples, as shown by the total population of 27,143, consisting of Naples, North Naples, Naples Park, Immokalee and Everglades. The Naples census division contains 26,896, or approximately 71 percent of the population in the county. The interior portion of Collier County is principally composed of the Big Cypress Swamp.

5. 1970 Census figures indicate median income for males sixteen years and older to be $8,016 with females earning $4,130. The family median income was $13,733 as compared to Miami ($7,304), Tallahassee ($9,078) and Orlando ($7,945). Unemployment in Naples is comparatively low—1.4 percent for males 16 years old and over and 2.3 percent for females in that age bracket, with a combined average of 1.7 percent. Collier County shows unemployment at 2.4 percent for males 16 years old and over with 2.8 percent being the figure for women. In comparison, Miami has combined unemployment of 4.3 percent; Panama City 3.3 percent; and Tallahassee 3.4 percent.

6. In 1965, building permits were issued for construction value of $8,062,696; for 1966—$10,981,380, 1967—$14,394,361; 1968—$23,031,515; 1969—$27,942,537; 1970—$37,363,521; in 1971, it rose to $50,038,625. Wholesale sales increased from $2,690,000 in 1948 to $26,351,000 in 1967; and retail sales increased from $3,008,000 in 1951 to $76,588,000 in 1969.

7. Naples has a separate identity from the large population belt on the East Coast of Florida. A publication entitled General History—Naples and Collier County, Florida, prepared by the Naples Chamber of Commerce was submitted as an attachment to the petition setting forth much significant historic and economic data concerning the area. Naples, in addition to being the county seat, is the principal community as well as the financial, cultural and business center of the community. There are two national banks, two state banks and a savings and loan association with 1970 total deposits of $164,606,305 as opposed to $22,111,578 in 1960. A daily newspaper, the Naples Daily News is published there. Naples also has a 191 bed hospital with a medical staff of 43. There are 20 different church congregations located in Naples, and all major national civic and social organizations are represented. There are 3,000 rental units available in Naples for tourists.

8. The letter comment filed by Battaglieri pointed out that he and Dr. Franco are successfully operating Station WRFY-FM in Reading, Pennsylvania; that he plans to move to Naples; that he had visited the station and concluded that the management of Station WALJ(FM) operated the station in an unexperienced manner; and that the area can support another radio station, provided it is operated by an "FM-experienced" management.

9. Naples Image states, in its comments, that it was financially unable to pay counsel and that it has since learned that it can file comments directly. Based on its assertion of hardship, we will waive the filing date for filing comments, accept the comments and consider them on the merits. Naples Image opposes the assignment on the grounds that Naples cannot support its two existing FM stations. WALJ(FM), which began operation in 1971, contends that there are inadequate advertising revenues available in the Naples area to support the two existing FM stations, much less a third FM station. They also submitted, under oath, a financial statement of operations for the years 1972 and 1973 showing losses of $50,373 and $86,476. It is then claimed by WALJ(FM) that Palmer Broadcasting Company, the licensee of the existing AM and the other existing FM station, in a statement in the August 6, 1973, issue of Broadcasting, "admitted that WCVU (then WNFM) was only selling $5,000 a month or $60,000 a year worth of advertising without telling what it cost to operate the station and whether there was a loss or gain."

10. Naples Image also points out that a new FM station has just moved into Bonita Springs, approximately 15 miles north of Naples; that a new UHF television station is about to begin operations, and a new AM station, that will place a signal into Naples, is about to begin operations in Marco Island, approximately 17 miles south of Naples. They also state that Naples and Collier County have recently adopted several no-growth ordinances.

11. Allocations of FM channel assignments are made on the basis of public interest considerations. All that Naples Image has submitted in support of its conclusion that the Naples market cannot support a third FM assignment are an accounting statement of its own financial condition and a reference in Broadcasting Magazine attributed to the other FM operation in Naples concerning the amount of that station's gross revenues. It submits no specific data concerning the effect, if any, that the operation of a third FM station would have on the programming and operations of the two existing FM stations in Naples. We believe that any such economic issue would be more appropriately considered in connection with an application for a construction permit for use of the channel.

12. As we stated in the Notice, the proposed assignment of Channel 221A to Naples would foreclose future assignments on Channels 218, 219, 220, and 221A. Although the preclusion on Channel 221A would encompass a relatively large area, there are only a few communities located therein, and Immokalee (population 3,764) is the only community that could use an FM channel. However, it is to be noted that Immokalee had Channel 240A assigned to it but the channel was moved to Bonita Springs, Florida (15 miles north of Naples) on a petition of the licensee of the station (FCC 71-1138, 32 F.C.C. 2d 307). Immokalee still has a fulltime Class IV AM station. As to the preclusion on the three educational channels, the nearest community with a higher educational facility is Fort Myers, Florida (37 miles north of Naples) which has a junior college (Edison Jr. College, students—1,516, 1967-68). The nearest Channel 6 television station is located at Miami, Florida (WCIX-TV), some 90 miles from Naples and 120 miles from Fort Myers, and does not provide a Grade B service to these communities. Thus there is no need to reserve the use of Channels 218, 219 or 220 for educational use. The channels below Channel 218 could be used if a need for educational FM stations should arise. We find that the assignment of Channel 221A to Naples, would be an efficient use of the frequency and, based on the foregoing, that it is in the public interest to make the channel assignment even though it exceeds the quota set forth in the FM assignment policy guidelines.

13. In view of the foregoing, and pursuant to the authority contained in sections 4(i), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, *It is ordered*, That, effective January 27, 1975, the FM Table of Assignments, § 73.202(b) of the rules, is amended to read as follows for the city listed below:

City:	Channel No.
Naples, Fla	221A, 228A, 233

14. *It is further ordered*, That the filing date for comments is waived, and the late-filed comments of Naples Image, Inc., are accepted.

15. *It is further ordered*, That this proceeding is terminated.

Secs. 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307)

Adopted: December 10, 1974.

Released: December 18, 1974.

FEDERAL COMMUNICATIONS COMMISSION.

[SEAL] VINCENT J. MULLINS, *Secretary.*

[FR Doc.74-29690 Filed 12-19-74;8:45 am]

[Docket No. 18302; FCC 74-1354]

RADIO SERVICES

Miscellaneous Amendments

In the Matter of Inquiry as to automatic vehicle locator systems in the Land Mobile Radio Services involving Parts 2, 89, 91, and 93 of the Commission's rules.

1. The Commission has under consideration a Petition for Reconsideration submitted in the above-entitled matter by the Boeing Company. Petitioner requests partial reconsideration of the Re-

port and Order in this proceeding which provided interim rules for the licensing and operation of automatic vehicle monitoring radio systems (AVM).[1] This Order was adopted on July 31, 1974, and published in the FEDERAL REGISTER on August 12, 1974 (39 FR 28881).

2. Boeing's request concerns the channel loading requirements adopted for AVM systems that operate on land-mobile frequencies below 512 MHz.[2] These requirements were imposed to assure that frequencies used for AVM, and therefore not generally usable for other purposes, are employed efficiently in terms of the number of vehicles that should be accommodated for digital-data type of radio communication operations. The new rule provisions states:

> For transmission between vehicles and base stations, each frequency in a single-frequency mode of operation will provide location data for at least 200 vehicles, or both frequencies in a two-frequency mode of operation will provide location data for at least 400 vehicles • • •

The rule further states that when these standards are not met, frequency assignments for AVM will be on a secondary, non-interference basis to radiotelephony operations, and additional frequencies will not be authorized.

3. The Boeing system is being developed in the 450–470 MHz band where propagational characteristics are favorable to the "dead reckoning" AVM method it utilizes.[3] In this band, frequencies are assigned in pairs and AVM licensees are consequently required to meet the 400-vehicle loading standard for two-frequency operation. However, this represents about twice the number of vehicles that the Boeing system is capable of locating on paired frequencies if it is to maintain its accuracy goals for AVM.[4] For this reason, Boeing asks in effect that we modify the rule to permit users of its system to meet only the single-frequency channel loading requirement when paired frequency operations is the normal assignment method.

4. The Commission believes that the factors involved in Boeing's request warrant reconsideration and we are granting its petition. Comments supporting Boeing's petition were submitted by the Police Departments of Lansing, Michigan, St. Louis, Missouri, and Wichita, Kansas, and by the Associated Public Safety Communications Officers, Inc. (APCO). These parties argue that modification of the AVM loading standards would permit effective development of Boeing's "dead reckoning" AVM technique and is, therefore, consistent with the Commission's finding that the interim rules should accommodate each of the different AVM methods. APCO summarizes this view:

> At this early stage in the development of AVM technology, we support the request that the channel loading standard be modified to assure further technological development and the maximum reasonable feasibility in system configuration and operation. This rule change, we submit, will further the Commission's stated objective of fostering progress in AVM technology without frustrating its equally important objective of assuring efficient spectrum utilization.

5. The Commission agrees that Boeing's requested rule modification has merit. It appears reasonable and potentially productive to apply the single-frequency loading requirement of approximately 200 vehicles to paired-frequency assignments in the 450–512 MHz band. A similar policy for channel loading standards already applies to voice operations on paired frequencies in many parts of this band. At the same time, the change of the loading requirements could double the number of 450–512 MHz band frequency pairs being used for AVM operations with a concomitant reduction of available frequencies in this band for other important radio communication requirements. In addition, the Boeing technique uses only one base station frequency in a system to "interrogate" vehicles, regardless of the number of mobile station frequencies involved. For example, under the requested loading requirement for a Boeing system involving about 600 vehicles, a licensee could be assigned three pairs of UHF frequencies. However, the system would use only one of the base station frequencies, together with the three mobile station frequencies. The two remaining base station frequencies would not be used. Apart from the obvious waste of the base station frequencies, this does not accord with the Commission's UHF allocation, use, and two-frequency separation plan which is based on frequency pairing.

6. Boeing recognized these problems and noted that it expected that only comparatively small AVM systems involving a few hundred vehicles would be designed for this region of the spectrum. However, until this is borne out, there is need for measures to help assure against excessive use of UHF frequencies for AVM to the detriment of other potential licensees. Thus, while we will not impose specific limitations at this time in the interim provisions on the number of UHF frequencies that will be assigned for dedicated AVM operations in a given area, we will require showing in appropriate cases that valid alternatives to assignment of new UHF frequencies for AVM do not exist. In these respects, we will expect licensees to use presently assigned frequencies to a maximum extent by such tactics as trading off voice operations for AVM. We want to emphasize that we expect that future large scale AVM systems, such as Boeing's, will develop on frequencies we have allocated for this purpose in the 900–930 MHz region.[5] Radio equipment is being developed for operation in this band and we see no important difficulty in terms of propagational limitations to successful AVM uses at this range.

7. In consideration of the foregoing, the rule modifications of the channel loading requirement for operation of AVM systems in the 450–512 MHz band requested by the Boeing Company is determined to serve the public interest and will be adopted.

8. Accordingly, pursuant to authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, *it is ordered*, That Parts 89, 91, and 93 of the Commission's rules are amended, as shown below, effective January 27, 1975. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082 (47 U.S.C. 154, 303))

Adopted: December 10, 1974.

Released: December 18, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 89, 91, and 93 of the Commission's rules are amended as follows:

PART 89—PUBLIC SAFETY RADIO SERVICES

1. Paragraph (c)(3)(i) of § 89.120 is amended to read as follows:

§ 89.120 **Interim provisions for operation of automatic vehicle monitoring systems.**

• • • • • •

(c) • • •

(3) • • •

(i) For transmission between vehicles and base stations, each frequency in a single-frequency mode of operation will provide location data for approximately 200 vehicles, or both frequencies in a two-frequency mode of operation will provide location data for approximately 400 vehicles, except that for frequencies in the 450–512 MHz band that are assigned in pairs in accordance with the allocation plan for the band, the requirement is that location data be provided for approximately 200 vehicles for

---

[1] AVM systems employ two-way non-voice radio communications to automatically determine and make known at a central point the location of a licensee's vehicles. A secondary feature of many of these systems permits supplemental data and instruction transmissions between vehicles and base stations relating to a licensee's activities.

[2] Below 512 MHz, land mobile frequencies available in the 25–50 MHz, 150–170 MHz and 450–512 MHz bands may be assigned for AVM operations. In the 900 MHz band, segments in the frequency bands 902–912 MHz and 918–928 MHz are allocated specifically for AVM systems. (See Section 2.106 of the Rules.)

[3] The three major AVM techniques being developed are the "proximity sensing," "multilateration," and "dead reckoning" methods. The Report and Order discusses distinctions between these techinques and lists current references for further study of the different approaches.

[4] Boeing's technique provides location data for each of 194 vehicles in a single or paired-frequency system with claimed accuracy, on a two-second update rate, of fifty feet.

[5] See note [3], *supra*.

each frequency pair; and a showing is made that 50 percent of the vehicles will be in operation within the system by the end of the second year of the initial license term, and 70 percent will be in operation within the system by the end of the initial license term; except that if these vehicle loading standards will not be met, frequencies will be assigned only on a secondary non-interference basis to any authorized radiotelephony operation;

PART 91—INDUSTRIAL RADIO SERVICES

2. Paragraph (c)(3)(i) of § 91.120 is amended to read as follows:

§ 91.120 Interim provisions for operation of automatic vehicle monitoring systems.

* * * * *

(c) * * *

(3) * * *

(i) For transmission between vehicles and base stations, each frequency in a single-frequency mode of operation will provide location data for approximately 200 vehicles, or both frequencies in a two-frequency mode of operation will provide location data for approximately 400 vehicles, except that for frequencies in the 450–512 MHz band that are assigned in pairs in accordance with the allocation plan for the band, the requirement is that location data be provided for approximately 200 vehicles for each frequency pair; and a showing is made that 50 percent of the vehicles will be in operation within the system by the end of the second year of the initial license term, and 70 percent will be in operation within the system by the end of the initial license term; except that if these vehicle loading standards will not be met, frequencies will be assigned only on a secondary non-interference basis to any authorized radiotelephony operation;

PART 93—LAND TRANSPORTATION RADIO SERVICES

3. Paragraph (c)(3)(i) of § 93.120 is amended to read as follows:

§ 93.120 Interim provisions for operation of automatic vehicle monitoring systems.

* * * * *

(c) * * *

(3) * * *

(i) For transmission between vehicles and base stations, each frequency in a single-frequency mode of operation will provide location data for approximately 200 vehicles, or both frequencies in a two-frequency mode of operation will provide location data for approximately 400 vehicles, except that for frequencies in the 450–512 MHz band that are assigned in pairs in accordance with the allocation plan for the band, the requirement is that location data be provided for approximately 200 vehicles for each frequency pair; and a showing is made that 50 percent of the vehicles will be in operation within the system by the end of the second year of the initial license term, and 70 percent will be in operation within the system by the end of the initial license term; except that if these vehicle loading standards will not be met, frequencies will be assigned only on a secondary non-interference basis to any authorized radiotelephony operation;

Title 4—Accounts

CHAPTER III—COST ACCOUNTING STANDARDS BOARD

SUBCHAPTER E—DISCLOSURE STATEMENT

PART 351—BASIC REQUIREMENTS

CFR Correction

Certain provisions of Title 4—Accounts, Chapter III—Cost Accounting Standards Board, Subchapter E—Disclosure Statement, Part 351—Basic Requirements, were inadvertently omitted from the 1974 revision of the Code of Federal Regulations. The sections involved were: §§ 351.41, 351.50 and 351.70 which were promulgated on October 4, 1973. (38 FR 27507). These sections, which have been in effect since that date, will be included in the 1975 revision of the Code of Federal Regulations.

ARTHUR SCHOENHAUT,
Executive Secretary.

[FR Doc.74-29008 Filed 12-19-74;8:45 am]

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 205—ADMINISTRATIVE PROCEDURES AND SANCTIONS

Emergency Amendment to Procedural Regulations

The Federal Energy Administration hereby amends, effective immediately, §§ 205.26 and 205.36, of Chapter II, Title 10, Code of Federal Regulations, with respect to the duration of certain adjustment and assignment orders issued under Subparts B and C, respectively, of Part 205 of FEA's regulations, or under Subpart B of Part 205 as in effect prior to the revision of Part 205 issued August 29, 1974 (39 FR 32261, September 5, 1974).

These amendments provide in § 205.26(d) and § 205.36(a) that any order issued pursuant to Subparts B or C of Part 205, unless otherwise specified, shall be effective for the duration of the Mandatory Petroleum Allocation Program, according to the terms of the order. Section 205.26(e) and § 205.36(e) provide that notwithstanding § 205.26(d) and § 205.36(a), any order issued pursuant to Subparts B or C of Part 205 prior to December 31, 1974 which specifies a termination date of December 31, 1974 shall be effective for the duration of the allocation program.

The purpose of these amendments is to clarify that orders adjusting a purchaser's base period use or assigning a supplier for periods corresponding to base periods, unless clearly intended as interim or temporary orders, should remain effective beyond the end of 1974. While most adjustment and assignment orders specify no termination date or by their terms are effective for the duration of the Mandatory Petroleum Allocation Program, a number of orders, generally those issued early in the program, which were the type of order intended to be in effect for the duration of the program, were inadvertently made effective only until December 31, 1974. These orders should remain in effect notwithstanding the stated termination date. Orders which have termination dates other than December 31, 1974 shall terminate in accordance with their terms.

The FEA recognizes that in some cases the parties may be adversely affected by the extension of orders under these amendments. Therefore § 205.26(f) and § 205.36(f) provide that any effect of § 205.26(e) and § 205.36(e), respectively, on the orders in question shall be deemed to be an FEA order which may be appealed by filing an appeal in accordance with the provisions of Subpart H of Part 205.

Section 7(i)(1)(B) of the Federal Energy Administration Act of 1974 (Pub. L. 93–275) (FEAA) provides for waiver of the requirements of that section as to time of notice and opportunity to comment prior to promulgation of regulations where strict compliance with such requirements is found to cause serious harm or injury to the public health, safety, or welfare. Since it would be administratively impossible for FEA to inform all parties affected by the unintended termination of orders and to receive and process all applications for extension of such orders and since the orders in question provide the basis for supply arrangements with respect to many allocated products and different uses, including priority uses, the FEA has concluded that strict compliance with requirements of section 7(i)(1)(B) of the FEAA would cause serious harm and injury to the public health, safety and welfare. Accordingly, these requirements must be waived and these amendments are made effective immediately, prior to opportunity to comment thereon.

The review provisions of section 7(c)(2) of the FEAA are hereby waived for a period of fourteen days, as provided for in that section, upon a finding that there is an emergency situation which requires immediate action. FEA is submitting the text of this emergency amendment concurrently with its issuance to the Administrator of the Environmental Protection Agency for his review.

Because these amendments are being issued on an emergency basis, an opportunity for oral presentation of views will not be possible prior to its promulgation. A public hearing on the amendment, however, will be held beginning at 9:30 a.m. on January 21, 1975, at the Federal Building, Room 3000, 12th and Pennsylvania Avenue, NW., Washing-

ton, D.C., to receive comments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request for an opportunity to make oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., e.s.t., January 13, 1975. Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through January 15, 1975. Each person selected to be heard will be so notified by the FEA before 5:30 p.m., e.s.t., January 15, 1975, and must submit 100 copies of his or her statement to Executive Communications, FEA, Room 3315, Federal Building, Washington, D.C. 20461, before 9 a.m., e.s.t., January 21, 1975.

The FEA reserves the right to select governing the conduct of the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearing will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communications, FEA, before 4:30 p.m., e.s.t., January 17, 1975. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer The FEA or the presiding officer, if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area of the FEA, Room 3400, Federal Building, 12th and Pennsylvania Avenue N.W., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Anyone may buy a copy of the transcript from the reporter.

Interested persons are invited to submit data, views, or arguments with respect to the emergency amendment to Executive Communications, Federal Energy Administration, Box BQ, Washington, D.C. 20461.

Comments should be identified on the outside envelope and on documents submitted to Executive Communications, FEA, with the designation "Emergency Amendment to Procedural Regulations." Fifteen copies should be submitted. All comments received by January 17, 1975, and all relevant information, will be considered by the Federal Energy Administration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790 (39 FR 23185))

In consideration of the foregoing, Part 205 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective immediately.

Issued in Washington, D.C., December 18, 1974.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

1. Section 205.26 is amended by adding paragraphs (d), (e) and (f) to read as follows:

§ 205.26 Decision and order.

* * * * *

(d) Any order issued pursuant to this subpart, unless otherwise specified, shall be effective for the duration of the Mandatory Petroleum Allocation Program, according to its terms.

(e) Notwithstanding paragraph (d) of this section, any order issued pursuant to this subpart prior to December 31, 1974, which order specifies a termination date of December 31, 1974, shall be effective for the duration of the Mandatory Petroleum Allocation Program.

(f) Any effect of paragraph (e) of this section upon any order issued pursuant to this subpart prior to December 31, 1974 shall be deemed to be an FEA order issued under this subpart, which may be appealed by filing an appeal with the FEA Office of Exceptions and Appeals or the appropriate Regional Office in accordance with the provisions of Subpart H of this part.

2. Section 205.36 is amended by adding paragraphs (e) and (f) and by revising paragraph (a) to read as follows:

§ 205.36 Decision and order.

(a) Upon consideration of the application and other relevant inforamtion received or obtained during the proceedcation and other relevant information ing, the FEA shall issue an appropriate order. The order shall state the periods corresponding to base periods to which it applies, and shall be effective for the duration of the Mandatory Petroleum Allocation Program, according to its terms, unless a duration for a lesser period is specified therein.

* * * * *

(e) Notwithstanding paragraph (a) of this section, any order issued pursuant to this subpart prior to December 31, 1974, other than a temporary assignment order under § 205.39, which order specifies a termination date of December 31, 1974, shall be deemed effective for the duration of the Mandatory Petroleum Allocation Program.

(f) Any effect of paragraph (e) of this section upon any order issued pursuant to this subpart prior to December 31, 1974 shall be deemed to be an FEA order issued under this subpart, which may be appealed by filing an appeal with the FEA Office of Exceptions and Appeals or the appropriate Regional Office in accordance with the provisions of Subpart H of this part.

[FR Doc.74-29885 Filed 12-19-74;10:27 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

TAXATION AS SELF-EMPLOYMENT INCOME OF FEES RECEIVED BY CERTAIN OFFICERS OF STATES AND POLITICAL SUBDIVISIONS

Notice of Supplementary Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, considerations will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC: LR: T, Washington, D.C. 20224, by January 19, 1975.

Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by January 19, 1975. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) in order to conform such regulations to the provisions of section 122(b) of the Social Security Amendments of 1967 (81 Stat. 843).

Section 122(b) provided that, effective with respect to fees received after 1967, the performance of the functions of a public office of a State or its political subdivision which are compensated solely on a fee basis and which are not covered by social security under an agreement entered into by the State and the Secretary of Health, Education, and Welfare pursuant to provisions of the Social Security Act are subject to self-employment tax.

A notice of proposed rule making designed to conform the regulations to changes made by this section was published in the FEDERAL REGISTER for July 3, 1973 (38 FR 17727). A provision contained in that notice which required that fee-basis public officials be "employees" as that term is defined in the Federal Insurance Contributions Act has been revised in the proposed regulations. This revision reflects congressional intent to cover certain public officers who are employees within the meaning of section 218 of the Social Security Act but are not employees under the common law definition, such as magistrates and justices of the peace.

In order to conform the Income Tax Regulations (26 CFR Part 1) under section 1402(c) of the Internal Revenue Code of 1954 to section 122(b) of the Social Security Amendments of 1967 (81 Stat. 843), § 1.1402(c)-2 would be amended by revising paragraphs (a) (2) and (b) to read as follows:

§ 1.1402(c)-2 Public office.

(a) • • •

(2) *Fee basis public officials*—(i) *In general.* If an individual receives fees after 1967 for the performance of the functions of a public office of a State or a political subdivision thereof for which he is compensated solely on a fee basis, and if the service performed in such office is eligible for (but is not made the subject of) an agreement between the State and the Secretary of Health, Education, and Welfare pursuant to section 218 of the Social Security Act to extend social security coverage thereto, the service for which such fees are received constitutes a trade or business within the meaning of section 1402(c) and § 1.1402(c)-1. If an individual performs service for a State or a political subdivision thereof in any period in more than one position, each position is treated separately for purposes of the preceding sentence. See also paragraph (f) of § 1.1402(c)-3 relating to the performance of service by an individual as an employee of a State or a political subdivision thereof in a position compensated solely on a fee basis.

(ii) *Election with respect to fees received in 1968.* (A) Any individual who in 1968 receives fees for service performed by him with respect to the functions of a public office of a State or a political subdivision thereof in any period in which the functions are performed in a position compensated solely on a fee basis may elect, if the performance of the service for which such fees are received constitutes a trade or business pursuant to the provisions of subdivision (i) of this subparagraph, to have such performance of service treated as excluded from the term "trade or business" for the purpose of the tax on self-employment income, pursuant to the provisions of section 122(c)(2) of the Social Security Amendments of 1967 (as quoted in § 1.1402(c)). Such election shall not be limited to service to which the fees received in 1968 are attributable but must also be applicable to service (if any) in subsequent years which, except for the election, would constitute a trade or business pursuant to the provisions of subdivision (i) of this subparagraph. An election made pursuant to the provisions of this subparagraph is irrevocable.

(B) The election referred to in subdivision (ii)(A) of this subparagraph shall be made by filing a certificate of election of exemption (Form 4415) on or before the due date of the income tax return (see section 6072), including any extension thereof (see section 6081), for the taxable year of the individual making the election which begins in 1968. The certificate of election of exemption shall be filed with an internal revenue office in accordance with the instructions on the certificate.

(b) *Meaning of public office.* The term "public office" includes any elective or appointive office of the United States or any possession thereof, of the District of Columbia, of a State or its political subdivisions, or of a wholly-owned instrumentality of any one or more of the foregoing. For example, the President, the Vice President, a governor, a mayor, the Secretary of State, a member of Congress, a State representative, a county commissioner, a judge, a justice of the peace, a county or city attorney, a marshal, a sheriff, a constable, a registrar of deeds, or a notary public performs the functions of a public office. (However, the service of a notary public could not be made the subject of a section 218 agreement under the Social Security Act because notaries are not "employees" within the meaning of that section. Ac-

cordingly, such service does not constitute a trade or business.)

[FR Doc.74-29749 Filed 12-19-74;8:45 am]

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[21 CFR Parts 1304, 1308]

CONCENTRATE OF POPPY STRAW

Addition to Schedule II and Authorizing its Importation

A long-time national policy has been established against the importation of finished narcotic drugs; permitting only the importation of such quantities of crude opium deemed to be necessary to provide for the medical, scientific or other legitimate requirements of the United States for any salt, compound, derivative, or preparation of opium poppy. This policy was first established by the Congress in enactment of the Narcotic Drugs Import and Export Act of May 26, 1922, and was affirmed by the Congress by enactment of the Controlled Substances Import and Export Act of October 27, 1970 (Pub. L. 91-513, Title III; 21 U.S.C. 951 et seq.).

The Congress also provided in the Controlled Substances Import Act of 1970, that the Attorney General (now delegated to the Administrator of the Drug Enforcement Administration) may permit the importation of such quantities of narcotic drugs as he finds necessary to provide for the medicinal, scientific, or other legitimate needs of the United States during an emergency in which domestic supplies of such narcotic drugs are found to be inadequate.

During the past four years, the International Narcotic Control Board has been reporting that some countries (including the United States) have been encountering difficulties in obtaining sufficient opium for medical purposes. The matter was discussed fully at the third special session of the United Nations Commission on Narcotic Drugs at Geneva, February 18-March 1, 1974, where there was general agreement that there is a growing demand for opium poppy derivatives which has not been met by the production of crude opium. Also, in a report (B-173123) issued July 23, 1974, the Comptroller General of the United State indicated that the demand for codeine is increasing in the United States, and that a critical situation could develop without additional sources of supply.

Opium production in 1973 was not sufficient to cover the needs of the drug manufacturers, and it was necessary for the manufacturers to use up their inventories beyond an acceptable level in order to meet immediate and estimated future needs for codeine. The International Narcotic Control Board predicted that by 1974, opium resources and opium requirements would be in balance. Unfortunately, India's production in 1974, which was estimated at 1,139 metric tons in November 1973, was actually only 894 metric tons. The resulting deficit and reduction of opium available to United States manufacturers has been largely covered by the equivalent of approximately 238 metric tons of opium authorized to be released from the national strategic materials stockpile. Estimates of opium production in 1975 are not encouraging. India continues to be the only country that produces opium for exportation, and because opium is an agricultural product vulnerable to climatic hazards such as prolonged rains delaying the planting season, very severe winters, and drought during growing seasons, it would not be in the best interest of the United States to continue to rely exclusively on the importation of crude opium for its medical requirements.

Recent reports from the International Narcotic Control Board have been encouraging in regard to the anticipated supply of poppy straw, which will be available from 1975 onwards. The poppy straw process is designed to extract morphine and other opium poppy alkaloids directly from the poppy straw. This process produces a concentrated liquid form or dried gum or a powder containing opium poppy alkaloids, which is described as "concentrate of poppy straw." The poppy straw process will do much to relieve the imbalance of the world's supply and demand for codeine, but only to the extent that there is sufficient industrial capacity to handle it. Several United States pharmaceutical manufacturers have the capacity to manufacture codeine from concentrate of poppy straw, and can help to expand the capacity to utilize increased harvesting of poppy straw.

In order to remedy the shortage of raw materials, the United States Government has taken and will continue to take various steps, which will be spread over a period of time and coordinated to close the gap between the supply and demand for opium poppy derivatives without tilting the balance in the opposite direction. The first step was the release of stockpiled opium. The second measure is to supplement the imbalance with quantities of raw material other than crude opium, and at the same time maintain control equal to the system now applicable to crude opium. The most appropriate equivalent of crude opium is concentrate of poppy straw, that is, the crude extract of poppy straw in either liquid, solid or powder form, which contains the phenanthrine alkaloids of the opium poppy. Accordingly, in pursuance of his authority under section 1002 of the Controlled Substances Import and Export Act (21 U.S.C. 952) and § 1312.13 of the Code of Federal Regulations (21 CFR 1312.13), the Administrator has determined that beginning January 1, 1975, and until further notice, concentrate of poppy straw may be imported on the basis that an emergency exists in which raw materials for the production of opium poppy alkaloids are inadequate.

Concentrate of poppy straw is included in schedule I of the Single Convention on Narcotic Drugs, and is subject to the full regime of control applicable to substances in that schedule. Therefore, under the provisions of section 201(d) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(d)), the Attorney General is authorized to control concentrate of poppy straw in the schedule of the Act deemed most appropriate to carry out the obligations of the United States. The Drug Enforcement Administration has determined that concentrate of poppy straw should be controlled in schedule II of the Act.

The Drug Enforcement Administration desires that concentrate of poppy straw be subjected to the same controls as opium. Accordingly, special reporting requirements similar to § 1304.33 will be imposed on manufacturers who import concentrate of poppy straw.

Therefore, under the authority vested in the Attorney General by sections 201 (d), 301, and 1002 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulations, the Administrator hereby proposes that Parts 1304 and 1308 of Title 21 of the Code of Federal Regulations be amended as follows

1. A new § 1304.42 is added as follows:

§ 1304.42 Reports from manufacturers importing concentrate of poppy straw.

(a) Every manufacturer importing concentrate of poppy straw shall submit in addition to Form 333, Form DEA 247 (c) accounting for the importation and for all manufacturing operations performed between importation and the production in bulk of finished marketable products, standardized in accordance with the U.S. Pharmacopeia, National Formulary, or other recognized medical standards. Subsequent manufacture from such products, including bottling or packaging operations, shall be accounted for in the returns on DEA Form 333 (1304.38) and its supplements. DEA Form 247(c) shall be submitted quarterly to the Regulatory Investigations Section, Drug Enforcement Administration, Department of Justice, Washington, D.C. 20537, on or before the 15th day of the month immediately following the period for which it is submitted.

(b) The report of manufacture from concentrate of poppy straw shall consist of summaries with supporting detail sheets accounting for original manufacture from concentrate of poppy straw, production from morphine for further manufacture, and also accounting for stocks of concentrate of poppy straw, morphine for further manufacture and other crude alkaloids.

(c) The detail sheets (DEA 247(c)) supporting the summary of original manufacture from concentrate poppy straw shall show separately the amount of concentrated poppy straw imported, the concentrated poppy straw used for the extraction of alkaloids, subsequent manufacture from those alkaloids, and the inventory of concentrated poppy straw at the close of the reporting period.

XUM
V 2193 N46 DEC 20 74
XUM

(d) Upon importation of concentrate of poppy straw, samples will be selected and assays made by the importing manufacturer in a manner and according to a method previously approved by DEA. Where final assay data is not determined at the time of rendering report, the report shall be made on the basis of the best data available, subject to adjustment, and the necessary adjusting entries shall be made on the next report.

(e) Upon withdrawal of concentrate of poppy straw from customs custody, the importing manufacturer shall assign to each container an identification mark or number by which the concentrate of poppy straw will be associated with the lot assay and identified in reports.

(f) Where factory procedure is such that partial withdrawals of concentrate of poppy straw are made from individual containers, there shall be attached to each container a stock record card on which shall be kept a complete record of all withdrawals therefrom.

(g) Concentrate of poppy straw derivatives which are produced for exclusive use in further manufacturing purposes shall be reported produced when they come into existence in that form in which they are to be so used. Alkaloids or derivatives produced exclusively for distribution shall be reported as produced when manufacture has actually been completed and the finished marketable product ready for packaging and distribution. Such products shall be regarded as ready for packaging and distribution as soon as all processing other than mere packaging has been completed. Products manufactured partly for distribution and partly for use in further manufacture will be reported produced as soon as manufacture is complete and they are ready either for use in further manufacture or for packaging for distribution.

(h) Subject to § 1303.24(c) of this chapter, no accumulations of morphine or other narcotic controlled substances in their pure or near-pure states shall be permitted to remain inactively in process for an unreasonable time in light of efficient industrial practices. All such products nearing completion of their respective processes and approaching a condition of purity shall be carefully protected, promptly completed, and immediately transferred to finished stocks, and reported as produced.

(i) In making conversions of concentrate of poppy straw alkaloids and their salts to anhydrous morphine the quantity of the particular alkaloid or salt in avoirdupois ounces shall be multiplied by a conversion factor arrived at by ascertaining the ratio, carried to the fourth decimal place, between the respective molecular weight of such alkaloid or salt and the molecular weight of anhydrous morphine (285.16), such weights being computed to the third decimal place from the chemical formulae of the substances and the atomic weights of elements, as adopted by the International Committee on Chemical Elements and published in the latest edition of the U.S. Pharmacopoeia.

2. Section 1308.12 is amended by adding a new (b)(5) as follows:

§ 1308.12 Schedule II.

* * * * *

(b) * * *

(5) Concentrate of poppy straw (the crude extract of poppy straw in either liquid, solid or powder form which contains the phenanthrine alkaloids of the opium poppy)..... 9670.

* * * * *

All interested persons are invited to submit their comments and objections, in writing, regarding this proposal. Comments and objections should be submitted in quintriplicate to the Office of Chief Counsel, Drug Enforcement Administration, Department of Justice, Room 1203, 1405 I Street, Washington, D.C. 20537, and must be received on or before January 22, 1974.

Dated: December 17, 1974.

JOHN R. BARTELS, Jr.,
Administrator,
Drug Enforcement Administration.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 74-WE-81-AD]

McDONNELL DOUGLAS MODEL DC-10-10, DC-10-10F, DC-10-30, AND DC-10-30F AIRPLANES

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to McDonnell Douglas Model DC-10-10, DC-10-10F, DC-10-30, and DC-10-30F airplanes. There have been failures of fan blades on General Electric CF6 engines that could result in a severing of some wing engine nose cowl bolts causing loss of the cowl due to engine unbalance. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require modifications of the engine nose cowl attachments per McDonnell Douglas DC-10 Service Bulletin 71-53, dated September 25, 1974, or an equivalent modification approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Western Region, Attention: Regional Counsel, Airworthiness Rules Docket, P.O. Box 92007 World Way Postal Center, Los Angeles, California 90009. All communications received on or before February 5, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

McDONNELL DOUGLAS: Applies to Model DC-10-10, DC-10-10F, DC-10-30, and DC-10-30F airplanes certificated in all categories.

Compliance required within the next 4000 flight-hours after the effective date of this A.D., unless already accomplished.

To minimize the possibility of losing wing engine nose cowl due to severed nose cowl attach bolts and engine unbalance loads, modify the wing engine nose cowls per McDonnell Douglas DC-10 Service Bulletin 71-53, "Powerplant—Cowling—Modify Engine Nose Cowl Attachments," dated September 25, 1974, or later FAA-approved revisions, or an equivalent modification approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Issued in Los Angeles, California on December 11, 1974.

ROBERT O. BLANCHARD,
Acting Director,
FAA Western Region.

[FR Doc.74-29633 Filed 12-19-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-CE-27]

TRANSITION AREAS

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to revoke and redesignate controlled airspace within the State of Kansas except west of Longitude 99°04'00" W., north of V216, V4-108 and V132 east, and in accomplishing this end to amend the Colby, Kansas, Phillipsburg, Kansas, and Hugo, Colorado, transition areas to eliminate reference to airspace within the State of Kansas.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before January 20, 1975, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration

officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

There are 26 separate 1,200-foot transition areas designated within the State of Kansas east of Longitude 99°04'00" west, south of V216, V4–108 and V132. To simplify airspace descriptions, provide continuity in the floor of controlled airspace, to improve aeronautical chart legibility, to make it easier for both the pilot and air traffic control to provide more control services, it is proposed to extend controlled airspace extending upward from 1,200 feet above the surface to the State of Kansas except that area west of Longitude 99°04'00" west, north of V216, V4–108 and V132.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition areas are amended by deleting references to that airspace extending upward from 1200 feet above the surface.

KANSAS

Anthony	Larned
Chanute	Lawrence
Colby	Liberal
Dodge City	Manhattan
Emporia	Oswego
Fort Scott	Parsons
Garden City	Phillipsburg
Goodland	Pittsburg
Great Bend	Pratt
Hays	Russell
Hutchinson	Salina
Independence	Topeka
Kansas City	Wichita

In § 71.181 (39 FR 440), the following 1200' transition areas would be amended to now read as follows:

COLBY, KANS.

That airspace extending upward from 700 feet above the surface within a 5½ mile radius of Colby Municipal Airport (latitude 39°25'30" N., longitude 101°03'45" W.); and within 3 miles each side of the 017° bearing from Colby Municipal Airport, extending from the 5½ mile radius area to 8 miles north of the airport and that airspace extending upward from 1200' above the surface within 4½ miles east and 9½ miles west of the 017° and 197° bearings to/from the Colby Municipal Airport extending from one mile south to 18½ miles north of the airport.

GOODLAND, KANS.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Renner Field-Goodland Municipal Airport (latitude 39°22'10" N., longitude 101°41'55" W.); and within 5 miles each side of the Goodland VORTAC 163° radial, extending from the 7-mile radius area to 12 miles south of the VORTAC; and that airspace extending upward from 1,200' above the surface within 5 miles each side of the Goodland VORTAC 343° radial extending from the north edge of V4 and V132 to 12 miles north of the VORTAC.

PHILLIPSBURG, KANS.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the Phillipsburg Municipal Airport (latitude 39°44'15" N., longitude 99°19'00" W.); and within 3 miles each side of the 142° bearing from Phillipsburg Municipal Airport, extending from the 7-mile radius area to 10½ miles southeast of the airport; and that airspace extending upward from 1,200' above the surface within 4½ miles northeast and 9½ miles southwest of the 142° bearing from the Phillipsburg Municipal Airport extending from the airport to the north edge of V216.

HUGO, COLORADO

That airspace south of Hugo, Colo., VOR extending upward from 8,500 feet MSL, bounded on the north by V–108S, on the northeast by V–263, on the south by V–210, and on the west by V–19E and that airspace east of Hugo, extending upward from 9,500 feet MSL, bounded on the north by V–4, on the east by V–17, on the southeast by V–216, on the southwest by V–263, and on the northwest by V–169, excluding the airspace within Federal airways, the Pueblo and Colorado Springs, Colo., transition areas and that portion within the state of Kansas.

In § 71.181 (39 FR 440), the following transition area is added:

KANSAS

That airspace extending upward from 1,200' above the surface within the state of Kansas excluding that portion west of Longitude 99°04'00" W., North of V216, V4–108, V132 East.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, 49 (U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on December 2, 1974.

A. L. COULTER,
Director, Central Region.

[FR Doc.74–29630 Filed 12–19–74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74–CE–26]

TRANSITION AREAS

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to revoke and redesignate controlled airspace within the State of Missouri and alter the Marion, Illinois, and Blytheville, Arkansas, transition area designations to eliminate reference to airspace within the State of Missouri.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before January 20, 1975, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

There are 30 separate 1,200-foot transition areas presently designated within the State of Missouri, including portions of the Marion, Illinois, and Blytheville, Arkansas, 1,200-foot transition areas which reference airspace within the State of Missouri. To simplify airspace descriptions, provide continuity in the floor of controlled airspace, to improve aeronautical chart legibility, to make it easier for both the pilot and air traffic control to provide more control services, it is proposed to extend controlled airspace extending upward from 1,200 feet above the surface to cover the entire State of Missouri.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 400), the following transition areas are amended by deleting references to that airspace extending upward from 1,200 feet above the surface.

MISSOURI

Cape Girardeau	Moberly
Columbia	Neosho
Dexter	Nevada
Farmington	Perryville
Festus	Point Lookout
Fort Leonard Wood	Poplar Bluff
Higginsville	Readsville
Joplin	St. Joseph
Kaiser	St. Louis
Kansas City	Sedalia
Kirksville	Sikeston
Lebanon	Springfield
Malden	Trenton
Mexico	Vichy

MARION, ILLINOIS

That portion lying in the state of Missouri.

BLYTHEVILLE, ARKANSAS

That portion lying in the state of Missouri.

In § 71.181 (39 FR 440), the following transition area is added:

MISSOURI

That airspace extending upward from 1,200 feet above the surface within the boundary of the state of Missouri.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the De-

partment of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on December 2, 1974.

A. L. COULTER,
Director, Central Region.

[14 CFR Part 71]

[Airspace Docket No. 74-RM-19]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations which would alter the transition area at Livingston, Mont.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station P.O. Box 7213, Denver, Colorado 80207. All communications received on or before January 17, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 E. 25th Avenue, Aurora, Colorado 80010.

The standard instrument approach procedure at Livingston, Mont. has been revised to delete the transition arcs to the final approach course and to change the missed approach course. An alteration of the airspace to be protected for the IFR procedure is required as a result of this revision.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.181 (39 FR 440) amend the description of the Livingston, Mont. transition area to read as follows:

LIVINGSTON, MONT.

That airspace extending upward from 700 feet above the surface within 9.5 miles west and 4.5 miles east of the Livingston VORTAC 340° radial extending from the VORTAC to 18.5 miles north of the VORTAC and within 2.5 miles each side of the Livingston 085° radial, extending from a 5-mile radius circle centered on Mission Field Airport, Livingston, Mont. (latitude 45°41'45" N., longitude 110°26'40" W.) to 9 miles east of the VORTAC; that airspace extending upward from 1,200 feet above the surface within 6 miles south and 9.5 miles north of the Livingston VORTAC 085° and 265° radials, extending from 7 miles west to 21 miles east of the VORTAC.

This amendment is proposed under authority of section 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colorado, on December 13, 1974.

M. M. MARTIN,
Director,
Rocky Mountain Region.

[Airspace Docket No. 74-SW-51]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a transition area at Batesville, Ark.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, PO Box 1689, Fort Worth, Texas 76101. All communications received on or before January 20, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (39 FR 440), the following transition area is added:

BATESVILLE, ARK.

That airspace extending upward from 700 feet above the surface within a 15-statute-mile radius of Batesville Regional Airport, Batesville, Ark. (latitude 35°42'00" N., longitude 91°38'00" W.); and within 3.5 miles each side of 255°T (250°M) bearing from the Batesville NDB (latitude 35°42'13" N., longitude 91°45'08" W.), extending from the 15-mile radius area to 11.5 statute miles west of the NDB; excluding that portion which overlies the Heber Springs, Ark., transition area.

The proposed transition area will provide controlled airspace for aircraft executing a new instrument approach procedure for the Batesville Regional Airport, Batesville, Ark.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on December 12, 1974.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.74-29635 Filed 12-19-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-SW-44]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at La Pryor, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, PO Box 1689, Fort Worth, Texas. 76101. All communications received on or before January 20, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (39 FR 440) the following transition area is added:

LA PRYOR, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of La Paloma Ranch Airport (latitude 28°-53'30" N., longitude 99°51'00" W.) and within 3.5 miles each side of the 353° bearing from the La Pryor, Tex., NDB (latitude 28°-55'47" N., longitude 99°51'16" W.) extending from the 5-mile radius area to 11.5 miles northwest of the La Pryor, Tex., NDB.

The proposed transition area will provide controlled airspace for aircraft executing the proposed NDB Rwy 17 instrument approach procedure.

Final action on this proposal will be made consistent with the depiction of La Paloma Ranch Airport on appropriate sectional charts scheduled June 19, 1975.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on December 10, 1974.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.74-29636 Filed 12-19-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-SO-115]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Craig AFB Aux. #1 (Vaiden), Ala., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, PO Box 20636, Atlanta, Ga. 30320. All communications received on or before January 20, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Craig AFB Aux. #1 (Vaiden) transition area would be designated as:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Craig AFB Aux. #1 (Vaiden), Ala. (latitude 33°30'36" N. longitude 87°23'06" W.); within 2.5 miles each side of the extended centerline of Runway 16, extending from the threshold to 10.5 miles north of the threshold.

The proposed designation is required to provide controlled airspace protection for IFR operations (military) at Craig AFB Aux. #1 (Vaiden) Airport. A prescribed instrument approach procedure to this airport, utilizing U.S. Air Force radar, is proposed in conjunction with the designation of this transition area.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on December 10, 1974.

PHILLIP M. SWATEK,
Director, Southern Region.

[14 CFR Part 71]

[Airspace Docket No. 74-EA-82]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Philadelphia, Pa. Control Zone (39 FR 416) and Transition Area (39 FR 565).

The geographic position of the Philadelphia International Airport, Philadelphia, Pa., has been revised and requires a revision in the description of the Philadelphia, Pa. Control Zone and Transition Area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Deparment of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before January 20, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Philadelphia, Pennsylvania, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Philadelphia, Pa. Control Zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 39°52'22" N., 75°14'58" W., of Philadelphia International Airport, Philadelphia, Pa.; within a 6-mile radius of the center of the airport extending clockwise from a 266° bearing to a 016° bearing from the airport; within 2.5 miles each side of the Philadelphia International Airport Runway 27R ILS localizer course, extending from the localizer to 6.5 miles east; within 2 miles each side of the Philadelphia International Airport Runway 9R ILS localizer course, extending from the 5-mile radius zone to 2 miles east of the OM; within 2.5 miles each side of the New Castle, Del. VORTAC 055° radial, extending from the 5-mile radius zone to 18.5 miles northeast of the VORTAC.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by deleting the description of the Philadelphia, Pa. Transition Area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the center, 39°52'23" N., 75°14'58" W. of Philadelphia International Airport, Philadelphia, Pa.; within a 9-mile radius of the center of the airport, extending clockwise from a 136° bearing to a 256° bearing from the airport; within an 11-mile radius of the center of the airport, extending clockwise from a 256° bearing from the airport to a 058° bearing from the airport; within 6.5 miles south and 4.5 miles north of the Philadelphia International Airport Runway 9R ILS localizer course, extending from 5.5 miles east to 11.5 miles west of the OM; within 4.5 miles each side of the Modena, Pa. VORTAC 097° radial, extending from 24 miles east to 33 miles east of the VORTAC; within a 5.5-mile radius of the center, 39°47'50" N., 75°20'35" W. of Bridgeport Airport, Bridgeport, New Jersey; within 2 miles each side of the Woodstown, N.J. VORTAC 350° radial, extending from the 5.5-mile radius area to the Woodstown, N.J. VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348], and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on December 5, 1974.

ROBERT H. STANTON,
Director.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20292; Rm-2188 etc.]

TABLE OF ASSIGNMENTS, FM BROADCAST STATIONS

Notice of Proposed Rule Making

1. Notice of proposed rulemaking is hereby given of proposed amendment of § 73.202(b) of the rules, the FM Table of Assignments, with regard to the abovementioned communities.

2. Three petitions seeking assignment of two channels have been filed. The three communities for which these assignments are sought are clustered around the contiguous borders of Missouri, Illinois and Kentucky. Joe W. Hebel petitions for assignment of Channel 252A to Paducah, Kentucky. James S. Fritch, Curtis E. Miller and Roy E. Delancy seek that channel for Vienna, Illinois. KBOA, Inc., licensee of AM Station KREI, Farmington, Missouri, petitions for assignment of Class C Channel 253 to Farmington. The petitions for Channel 252A are mutually exclusive

and assignment of Channel 253 to Farmington would preclude an assignment of Channel 252A to Vienna, but not to Paducah.

3. Paducah, Kentucky (pop. 34,627),[2] is situated just outside of the southern border of Illinois and is the seat of McCracken County (pop. 58,251). Hebel avers that Paducah is the largest city within a 100 mile radius and that its stores, cultural facilities and government offices, therefore serve persons in a wide area. Paducah is presently served locally by three full-time AM stations and two Class C FM stations that Hebel contends duplicate their sister AM stations most or all of the time. Hebel asserts that Paducah is in need of an independent FM station and that the city has the necessary economic activity to support an additional assignment to the area.

4. Hebel's petition indicates that his proposed assignment would result in adjacent and co-channel preclusions in Fredericktown (pop. 3,799) and Greenville, Missouri (pop. 327), and in Harrisburg (pop. 9,535) and Metropolis, Illinois (pop. 6,940). A staff study has shown that Mound City (pop. 1,171), Mounds (pop. 1,718), and Vienna (pop. 1,325), all in Illinois, would also be within the preclusion area of this proposed assignment. Hebel has shown that Channel 237A is available for assignment to Fredericktown. However, subsequent to submission of his petition, substitution of Channel 238 for Channel 297 at Poplar Bluff, Missouri, foreclosed the availability of Channel 237A to Fredericktown. Hebel has shown that Channel 257A is available for assignment to Greenville, that Harrisburg had a Class B assignment, and that the proposed assignment could, if adopted, be licensed to Metropolis under the 10-mile rule (section 73.203(b) of the Rules). In his response to this Notice, the petitioner should indicate what channels, if any, are available for assignment to Fredericktown, Mound City, Mounds, and Vienna.

5. Vienna (pop. 1,325), the seat of Johnson County (pop. 7,550), and its largest city is located in southern Illinois, 28 miles northwest of Paducah. The petitioners for the Vienna assignment aver that Vienna serves as a trade center for its county and for parts of contiguous Pope and Massac Counties, that it provides complete city services to the area and that it is developing into an important recreational area with numerous state parks and recreation lakes nearby including the Shawnee National Forest.

6. There is no local aural service anywhere in Johnson County. The petitioners for the Vienna assignment aver that there is a particular need for providing timely weather information to the farmers and the general public which is not available at the present time from any source. In particular, they state that the prompt reporting of unusual school closings or disasters affecting the area would be of vital importance to the public. As between Paducah and Vienna the Commission is faced with the question of whether to assign a channel to a larger community that is already served by five full-time aural services or to a smaller community that has none. Ordinarily, the Commission will not, on its own motion, make an assignment to a community with a population of less than 10,000. However, the Commission will do so when such anassignment would be in the public interest and when a petitioner for such an assignment indicates that he will, apply for the channel if its assigned, and if authorized, build a station promptly. In considering the aforementioned proposals for FM assignments, the Commission will weigh what appears to be adequate full-time aural service to Paducah [3] against our priority of providing "Insofar as possible, * * * each community with at least one FM broadcast station, especially where the community has only a daytime-only or local (Class IV) AM station, and especially, where the community is outside of an urbanized area." [4] The petitioners may direct comments to this point.

7. Farmington (pop. 6,590), the seat of St. Francois County (pop. 36,818), is located in southeastern Missouri, 67 miles northwest of Vienna and 112 miles northwest of Paducah. KBOA, Inc., the petitioner for assignment of Class C Channel 253 to Farmington is the licensee of daytime-only standard broadcast Station KREI. The only other aural service originating in the county is transmitted by Station KFMO, Flat River, a full-time Class IV station which provides no nighttime service interference free to Farmington. KBOA avers that the towns around Farmington are sparsely populated and that Farmington with its population of 7,031 is the largest city in a 40 mile area. The petitioner's engineering analysis shows that the proposed assignment would result in very limited preclusion on Channels 252A, 253, and 254, and that these areas do not include any sizeable community without an FM station or assignment. KBOA has indicated that Farmington has a mayor-city council form of government and that it is served by one daily and one weekly newspaper. The petitioner has described in great detail the social, governmental and economic activities of communities that would be served by its proposed Class C assignment.[5] KBOA contends that its

8. Farmington is not the type of community that would ordinarily be assigned a Class C channel. However, the proposal would bring a first FM service to 1,555 square miles with a population of 13,913. Commission has made such assignments where it has been shown that a high power station is necessary to cover a large sparsely populated area, where a Class A channel would not provide adequate service due to hills or valleys, or where a Class A channel was not available for assignment. KBOA avers that to the south and southwest of Farmington the terrain becomes hilly and then, as one moves further out, very rough with granite type mountains in the Iron County area. However, it should be noted that these terrain factors do not appear to affect reception within Farmington itself. KBOA avers that the towns around Farmington are sparsely populated and that a Class C channel would allow full-time service to the people in this area. Standing alone KBOA would make a good case for assignment of a Class C channel to Farmington. But when, as here, making such an assignment would preclude granting an assignment to an underserved area for which someone has expressed an intent to apply and if authorized, to build a station promptly, the Class C assignment can be made only if the petitioner for that assignment can show that the assignment should be made even though this preclusion will result. This is especially true when a Class A channel is available for assignment to the area.[6] KBOA has indicated that Channel 224A could be assigned to Farmington.[7] A Class A channel, we are told, would provide a first FM service to 167.5 square miles with a population of 5,136. KBOA should indicate whether it would apply for a construction permit for Channel 224A if assigned to Farmington and if authorized (and it intends to apply) that it would promptly begin construction. Failure to do so may leave Farmington without an assignment (in keeping with our policy of not making assignments to communities with populations under 10,000 unless such an intent is expressed) if the Vienna proposal is adopted. Further, in order to build a full record on which to make an informed decision, supportive information should be submitted for all petitioners as to areas and populations which will receive a first and second aural service from the proposed assignments including AM nighttime service as well as FM service.[8] KBOA should submit a showing as to the preclusions, if any, that would result from assignment of Channel 224A to Farmington and whether any channels are available for assignment to these precluded communities.

9. It is the Commission's opinion that the aforementioned proposals merit fur-

---

[2] All population figures are from the 1970 U.S. Census.

[3] See *Anamosa and Iowa City, Iowa*, 46 F.C.C. 2d 520 (1974).

[4] *Id.* ¶ 14.

[5] This and other information was supplied in response to a request by the Commission for additional information including a comparison of service that would be provided by Class C and Class A assignments.

[6] See Note 4.

[7] KBOA has expressed concern over the fact that the small area available for location of a transmitter site is the same area toward which the FAA "missed approach" instrument procedure for the Farmington airport is turned. This will have no bearing on this rule making unless KBOA shows that this precludes location of a transmitter in that area.

[8] See *Roanoke Rapids and Goldsboro, N.C.*, 9 F.C.C. 2d 672 (1967), and *Anamosa and Iowa City, Iowa*, 46 F.C.C. 2d 520 (1974).

ther exploration in a rule making proceeding. Therefore, pursuant to authority contained in sections 4(i), 303, 307(b) and 5(d)(1) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules and Regulations, It is proposed to amend § 73.202 (b) of the Commission's rules and regulations, the FM Table of Assignments, as follows:

§ 73.202 Table of assignments.

* * * * *

City	Channel No. Present	Proposed
Farmington, Mo		253
Paducah, Ky	227, 245	227, 245, 253A
or alternatively:		
Vienna, Ill		253A
or alternatively:		
Vienna, Ill		253A

or alternatively:		
Paducah, Ky	227, 245	227, 245, 253A
Farmington, Mo		234A

* * * * *

10. *Showings required.* Comments are invited on the proposals discussed and set forth above. Proponents of proposed assignments are expected to file comments even if they only resubmit or incorporate by reference their former pleadings. Proponents should also state or restate their present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

11. *Cut-off procedure.* The following procedures will govern the consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposals in this Notice, they will be considered as comments in this proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

12. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before January 24, 1975, and reply comments on or before February 13, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties, must be made in written comments, reply comments, or other appropriate pleadings.

13. In accordance with the provisions of § 1.419 of the rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. These will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

VHF; SAFETY ON THE GREAT LAKES

Notice of Proposed Rule Making

In the Matter of Amendment of Part 83 of the rules to implement the mandatory VHF requirements of the Agreement Between the United States of America and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973.

1. In this proceeding, the Commission proposes to amend Part 83 of the rules to establish very high frequency (VHF) as the mandatory safety system on the Great Lakes in accordance with the Agreement Between the United States of America and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973 (GLA). This GLA, upon entry into force on May 6, 1975, will terminate the Agreement with Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1952.

2. The new GLA has different criteria for its applicability than the 1952 GLA. The new and old provisions are set forth below to facilitate comparison.

1973 GLA	*1952 GLA*
a. Every vessel over 65 feet in length measured from end to end over the deck exclusive of sheer);	a. Every vessel of 500 gross tons or over:
b. Every vessel engaged in towing another vessel or floating object, except:	b. Every vessel under 500 gross tons engaged in towing another vessel of 500 gross tons or over or engaged in towing any other floating object having a dimension in any direction of 150 feet or more, unless the vessel so towed complies with the requirements of this Agreement;
(i) where the maximum length of the towing vessel, measured from end to end over the deck exclusive of sheer, is less than twenty-six (26) feet and the length or breadth of the tow, exclusive of the towing line is less than sixty-five (65) feet;	
(ii) where the vessel towed complies with the requirements of this Agreement and the Technical Regulations annexed thereto:	
(iii) where the towing vessel and tow are located within a booming ground; or	
(iv) where the tow has been undertaken in an emergency and neither the towing vessel nor the tow can comply with this Agreement and the Technical Regulations annexed thereto.	
c. Every passenger vessel over 65 feet in length (measured from end to end over the deck exclusive of sheer);	c. Any vessel carrying more than six passengers for hire
d. This Agreement is not applicable to vessels in the following specific categories:	d. This Agreement is not applicable to vessels in the following specific categories:
(i) ships of war and troop ships;	(i) ships of war and troop ships; and
(ii) vessels in tow;	(ii) vessels owned and operated by any government and not engaged in trade.
(iii) vessels not propelled by mechanical [illegible];	
(iv) vessels owned and operated by any government and not engaged in trade;	
(v) any vessel towing another vessel in or out of a single port when such towage is not in excess of 20 miles outside such port;	(d) requirement for survey and certification of the radiotelephone installation is prescribed.
(vi) any vessel towing another vessel engaged in the movement of material between a port and a dumping ground authorized by either Contracting Government when such dumping ground is not more than 30 miles outside such port;	
(vii) any vessel navigated in connection with river or harbor improvement work or any marine construction when such navigation is within an area whose radius from the site of such river or harbor improvement work or marine construction is not greater than 30 miles.	

3. The general substance of the rule amendments set forth in the Appendix applicable to ship stations using radiotelephony in the band 156–158 MHz on the Great Lakes is as follows:

(a) On May 6, 1975, VHF becomes the mandatory radiotelephone system on the Great Lakes and MF will be discontinued as the mandatory requirement;

(b) technical specifications for the VHF radiotelephone installation are prescribed;

(c) required frequencies and operating procedures are prescribed; and

4. The new GLA enters into force on May 6, 1975. There will be an interim period from the commencement of the navigation season until May 6, 1975, where MF will be the mandatory system on the Great Lakes. It is proposed that vessels subject to the 1952 GLA may (a) continue to use the MF installation until May 6, 1975, or (b) during this interim period, request the Commission to accept a VHF installation found to be in compliance with the rules adopted in this proceeding. The Commission will make provision for the survey and certification of vessels not subject to the 1952 GLA, but which will become subject to the 1973 GLA on May 6, 1975. These surveys and certifications will be conducted in such a manner as to impose the minimum delays on vessel operations subject to the number of Commission engineers available for these surveys.

5. The new GLA states that there shall be on board at least one operator whose qualifications for radiotelephone opera-

tion for safety purposes on the Great Lakes have been certified by each of the Contracting Governments for citizens of its own country on vessels of that country or for vessels of other countries as possessing the following qualifications:

(a) General knowledge of practical radiotelephone operating procedure;

(b) Ability to send correctly and receive correctly by radiotelephone using the English language; and

(c) Knowledge of the International Radio Regulations and specifically of that part of those Regulations relating to the safety of life.

In order to assure that the treaty obligations are fulfilled, we are proposing a requirement that the required operator have a radiotelephone third-class operator permit or higher.

6. The proposed amendments, as set forth below, are issued pursuant to the authority contained in the Agreement Between the United States of America and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973, and in sections 4(i) and 303 (c), (e), and (r) of the Communications Act of 1934, as amended.

7. Pursuant to procedures set forth in § 1.415 of the Commission's rules, interested parties may file comments on or before January 27, 1975, and reply comments on or before February 7, 1975. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it in addition to the specific comments invited by this notice. Responses will be available for public inspection during regular business hours in the Commission's Broadcast and Docket Reference Room at its headquarters in Washington, D.C.

8. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: December 10, 1974.

Released: December 19, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 83 of Chapter 1, Title 47, Code of Federal Regulations, is amended as follows:

1. Section 83.157(a) is amended to reflect the operator requirement of the Great Lakes Radio Agreement as follows:

§ 83.157 Certified persons required by Great Lakes Radio Agreement.

(a) For the purpose of complying with Article VII, paragraph 1 of the Great Lakes Radio Agreement, there shall be on board each United States vessel when underway and subject to the Great Lakes Radio Agreement, as an officer or member of the crew, at least one person whose qualifications for radiotelephone operation have been certified. Such certified person shall hold a radiotelephone third-class operator permit or higher class of authorization.

* * * * *

2. Section 83.206 is amended to require the watch on the VHF distress, safety and calling frequency as follows:

§ 83.206 Watch required by the Great Lakes Radio Agreement.

Each ship of the United States which is equipped with a radiotelephone installation for compliance with the Great Lakes Radio Agreement shall, when underway and subject to said Agreement, keep a continuous and effective watch on 156.8 MHz whenever such installation is not being used for authorized traffic. Such watch shall be maintained by at least one officer or member of the crew designated to do so. The person designated by the master may simultaneously perform other duties relating to the operation or navigation of the vessel, provided such other duties do not interfere with the effectiveness of the watch.

3. Sections 83.368(a) & (c) are amended to specify Eastern Standard Time and modify log entries for vessels subject to the Great Lakes Agreement.

§ 3.368 Radiotelephone station log.

(a) A station log shall be maintained during the hours of service of ship stations using radiotelephony, in which the entries required by this section shall be made. Pages of the log shall be numbered in sequence and each page shall include the name of the vessel and the radio call sign of the station. All entries which show transmitter operation shall be made and signed by the licensed operator (or other person in accordance with §83.155). Watch entries, and signatures of each person keeping the required watch, shall be so related that they constitute a certification by each such person as to when he began and ended each period of his watch during the voyage. The date and time of each occurrence or incident required to be entered in the log shall be shown opposite the entry, and the time shall be counted from 0000 to 2400 beginning at midnight. Stations on board vessels engaged on international voyages, other than on the Great Lakes or inland waters, shall use Greenwich mean time (GMT); stations on board vessels navigated on the Great Lakes and subject to the Great Lakes Agreement shall use Eastern Standard Time (e.s.t.); other stations may use GMT or local standard time. The appropriate symbol, GMT, e.s.t., c.s.t., p.s.t., etc., shall be entered at the head of the column in which time is entered.

* * * * *

(c) The log of ship stations subject to the Great Lakes Agreement shall include these entries specified by subparagraphs (1), (5), (6), (7), (9), and (10) of paragraph (b) of this section, and in addition shall include the name and radio license number of each operator actually on board and designated by the master to operate the radiotelephone installation.

* * * * *

4. Subpart U is deleted in its entirety, and new Subpart U is added as follows:

Subpart U—Radiotelephone Installations Provided for Compliance with the Great Lakes Radio Agreement

§ 83.536 Applicability to vessels.

The Agreement Between the United States of America and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973, applies to vessels of all countries when navigated on the Great Lakes. The Great Lakes Agreement defines the Great Lakes as "all waters of Lakes Ontario, Erie, Huron (including Georgian Bay), Michigan, Superior, their connecting and tributary waters and the River St. Lawrence as far east as the lower exit of St. Lambert Lock at Montreal in the Province of Quebec, Canada." A vessel to which the Great Lakes Agreement applies and which falls into the specific categories of paragraphs (a), (b) or (c) and not excepted by paragraphs (d) or (e) shall comply with this Subpart while navigated on the Great Lakes:

(a) Every vessel 65 feet or over in length (measured from end to end over the deck, exclusive of sheer);

(b) Every vessel engaged in towing another vessel or floating object, except:

(1) where the maximum length of the towing vessel, measured from end to end over the deck exclusive of sheer, is less than twenty-six (26) feet and the length or breadth of the tow, exclusive of the towing line, is less than sixty-five (65) feet;

(2) where the vessel towed complies with this subpart;

(3) where the towing vessel and tow are located within a booming ground; or

(4) where the tow has been undertaken in an emergency and neither the towing vessel nor the tow can comply with this subpart.

(c) Any vessel carrying more than six passengers for hire;

(d) The requirements of the Great Lakes Agreement shall not apply to:

(1) ships of war and troop ships;

(2) vessels owned and operated by any government and not engaged in trade.

(e) The Commission may, if it considers that the conditions of the voyage or voyages affecting safety (including but not necessarily limited to the regularity frequency and nature of the voyages, or other circumstances) are such as to render full application of the Great Lakes Agreement unreasonable or unnecessary, may exempt partially, conditionally or completely any individual vessel for one or more voyages or for any period of time not exceeding one year.

§ 83.537 Survey and Certification.

Each vessel of the United States subject to the Great Lakes Agreement shall have a periodic survey of the required

radiotelephone installation not less than once every thirteen months. This survey shall be made while the vessel is in active service or within not more than one month before the date on which it is placed in service. A Great Lakes Agreement Radiotelephony Certificate will be issued to vessels found, as a result of the periodic survey, to be in compliance with the Agreement. Such certificate shall be prominently posted at the principal operating position of the required radiotelephone installation.

§ 83.539 Radiotelephone installation.

(a) Each vessel of the United States while subject to the requirements of the Great Lakes Radio Agreement shall be fitted with a radiotelephone in effective operating condition meeting the provisions of this subpart in addition to the provisions of such other rules in this part, governing ship stations using telephony, as are applicable.

(b) The term "radiotelephone installation," for the purposes of the Great Lakes Radio Agreement, means a ship radio station (including the source of power necessary to energize the apparatus) capable of being used for the effective transmission and reception of speech for the purpose of quickly establishing and effectively carrying on communications relating to distress, safety and navigation on the frequencies 156.8 MHz, 156.7 MHz, 156.6 MHz and 156.3 MHz and such other frequencies required for their service, each of these frequencies readily available for use at all times. Nothing contained in this paragraph shall be construed to require or prohibit the availability of other frequencies by the use of this same "radiotelephone installation" for communication authorized by this part on other frequencies.

(c) Every radiotelephone station shall include one or more transmitters, one or more receivers, one or more sources of electrical energy; and associated antennas and control equipment. The radiotelephone station, exclusive of the antennas and source of electrical energy, shall be located as high as practicable on the vessel, preferably on the bridge, and suitably protected from the harmful effects of water, temperature, electrical and mechanical noise.

§ 83.541 Principal operating position.

(a) The principal operating position of the radiotelephone installation shall be on the bridge, convenient to the conning position.

(b) Where the radiotelephone station is located elsewhere than on the bridge, provision shall be made for complete operational control of the equipment at that location and at the bridge operating position. However, provision shall be made to take immediate and complete control of the equipment at the bridge operating position.

§ 83.542 Radiotelephone transmitter.

(a) The transmitter shall be capable of effective transmission of F3 emission on 156.8 MHz, 156.3 MHz, 156.6 MHz, 156.7 MHz, and such other frequencies as are required for their service.

(b) The transmitter shall be of a type which has been demonstrated in the process of type acceptance as being capable of delivering a carrier power of at least 15 watts, but not more than 25 watts, on each of the frequencies 156.8 MHz, 156.3 MHz, 156.6 MHz and 156.7 MHz into 50 ohms effective resistance, when operated with an applied primary supply voltage of 13.6 volts DC.[1] In addition, for transmitters type accepted after January 1, 1975, which are intended to be usable for the purposes of this subpart and which are designed to operate from a nominal power supply voltage of 12 volts DC, the application for type acceptance shall include a showing of compliance with the power output of paragraph (c)(4) of this Section.

(c) When an individual demonstration of the capability of the transmitter is deemed necessary in the judgment of the Commission, the requirements and procedures for determining compliance with the output power requirements prescribed in this paragraph, with the radiotelephone installation normally installed on board ship, shall also be met, as follows:

(1) Measurements of primary supply voltage and transmitter output power shall be made with the equipment drawing energy only from the ship's battery, in accordance with the following procedures.

(2) The primary supply voltage, measured at the power input terminals to the transmitter, terminated in a matching artificial load, shall be measured at the end of 10 minutes of continuous, uninterrupted operation of the transmitter at its full power output.

(3) The primary supply voltage, measured in accordance with the procedures of this paragraph, shall not be less than 11.5 volts.

(4) The transmitter output power, measured in accordance with the procedures of this paragraph, shall be not less than 15 watts.

§ 83.543 Radiotelephone receiver.

(a) The receiver used for maintaining the listening watch required by § 83.206 shall be capable of effective reception of F3 emission on the frequencies 156.8 MHz, 156.3 MHz, 156.6 MHz and 156.7 MHz.

(b) The receiver shall have a sensitivity of at least two microvolts across 50 ohm or equivalent input terminals, for a 20 decibel signal-to-noise ratio.

§ 83.544 Main source of energy.

(a) A main source of energy of sufficient capacity to energize the radiotelephone installation properly and immediately shall be available at all times while the vessel is subject to the requirements of the Great Lakes Radio Agreement.

(b) Means shall be provided for adequately charging any storage batteries used as a main source of energy, or any part thereof. There shall be provided a device which during charging of the batteries, will give a continuous indication of the rate and polarity of the charging current.

§ 83.545 Auxiliary source of energy.

(a) An auxiliary source of energy shall be provided, independent of the vessel's normal electrical system and capable of properly energizing the radiotelephone installation and illuminating the operating controls at the principal operating position prescribed in § 83.547, for at least four continuous hours under normal operating conditions. When meeting this four-hour requirement, such auxiliary source of energy shall be located on the bridge level or at least one deck above the vessel's main deck.

(b) In lieu of the independent source of energy specified in (a) above, the vessel may be provided with an auxiliary radiotelephone installation having a power source independent of the vessel's normal electrical system. Any such installation must comply with §§ 83.539, 83.542, 83.543, 83.547, 83.548 and 83.549, as well as the general technical standards contained in this part. Additionally, the power supply for any such auxiliary radiotelephone shall be regarded as an "auxiliary source of energy" for the purposes of paragraphs (c), (d) and (e) of this Section.

(c) Means shall be provided for adequately charging any storage batteries used as an auxiliary source of energy, or any part thereof, for the required radiotelephone installation. There shall be provided a device which, during charging of the batteries, will give a continuous indication of the rate and polarity of the charging current.

(d) Use of the auxiliary source of energy, when required by paragraph (a) of this Section, shall be available within one minute after the need for its use.

(e) The shipowner, operating company, or station licensee, when directed by the Commission, shall prove by demonstration as prescribed in subparagraphs (1), (2), (3) and (4) of this paragraph or by such other means as may be deemed necessary, that the auxiliary source of energy is capable of meeting the requirements of paragraph (a) of this Section, as follows:

(1) When the auxiliary source of energy consists of or includes a storage battery, proof of the ability of such battery to operate continuously and effectively over the required period of time is authorized to be established by a discharge test over the required period of time, when supplying power at the voltage required for normal and effective operation to an electric load as prescribed by subparagraph (3) of this paragraph.

(2) When the auxiliary source of energy consists of or includes an engine-driven generator, proof of the adequacy of the engine fuel supply to operate the unit continuously and effectively over the required period of time may be established by using as a basis the fuel consumption during a continuous period of one hour when supplying power, at the voltage required for normal and effective operation, to an electrical load as

[1] Sets operating from other values of primary supply voltage, such as 26.4 VDC, 36.0 VDC, or 117 VAC shall meet this requirement for operation at their respective primary supply voltage, in lieu of 13.6 VDC.

XUM 42193 DEC 74 V 2074 V XUM

prescribed by subparagraph (3) of this paragraph.

(3) For the purposes of determining the electrical load to be supplied, the following formula shall be used:

(i) One-half the current consumption of the radiotelephone while transmitting at its rated power output, less one-half the current consumption while not transmitting; plus

(ii) Current consumption of the required receiver; plus

(iii) Current consumption of the source of illumination provided for the operating controls prescribed by § 83.547; plus

(iv) The sum of the current consumption of all other loads to which the auxiliary source of energy may supply power in time of emergency or distress.

(4) At the conclusion of the test specified in subparagraphs (1) and (2) of this paragraph, no part of the auxiliary source of energy shall have excessive temperature rise, nor shall the specific gravity or voltage of any storage battery be below the 90 percent discharge point as determined from information (such as voltage curves or specific gravity tables) supplied by the manufacturer of the type of battery involved.

§ 83.546 Antenna system.

The antenna provided shall be effective, vertically polarized and located as high as practicable on the masts or superstructure of the vessel. The transmission line shall be effective and, to the extent practicable, shall impose a minimum loss.

§ 83.547 Illumination of operating controls.

(a) The radiotelephone may have dial lights which clearly illuminate the operating controls at the principal operating position.

(b) In lieu of (a) above, a light from an electric source of energy may be provided and permanently arranged to illuminate the operating controls of the radiotelephone at the principal operating position. If an auxiliary source of energy is required to be provided on board the vessel, arrangements shall be provided to permit the use of such source of energy for such illumination within one minute after the need arises for its use.

§ 83.548 Test of radiotelephone installation.

At least once during each calendar day in which a vessel of the United States is navigated while subject to the Great Lakes Radio Agreement, a test communication on a required frequency to demonstrate that the radiotelephone installation is in proper operating condition shall be made by a certified person who is required in accordance with § 83.157, unless the normal daily use of the equipment demonstrates that this installation is in proper operating condition for that purpose. Should the equipment be found at any time by a person other than the master not to be in operating condition, the master shall be promptly notified. A record shall be made in the radio station log showing the operating condition of the equipment as determined either by daily normal communication or the daily test communication referred to in this Section, and showing that, if an improper operating condition was found, the master was properly notified thereof.

§ 83.549 Failure of radiotelephone installation while enroute.

If, when a United States vessel is subject to the Great Lakes Radio Agreement, the vessel's radiotelephone installation required by the GLA ceases to be in effective operating condition, the master shall forthwith exercise due diligence to restore the radiotelephone station to effective operating condition at the earliest practicable moment, and, in any event, the radiotelephone installation shall be restored at the first scheduled port of entry where repair facilities are available. In addition to the foregoing, the master shall, within 12 hours after the time of arrival of the vessel at the destination, send to the Secretary, Federal Communications Commission, Washington, D.C. 20554, an explanation of the full particulars of the matter in writing, including the date the master became aware of the deficiency in the radiotelephone installation and the nature of such deficiency, a description of the steps taken to correct such deficiency, and in the case of a vessel whose destination is on the Great Lakes, a statement that the radiotelephone installation has been, or will be, placed in effective operating condition before the ship leaves that port.

§ 83.550 Antenna radio frequency indicator.

The radiotelephone station shall be equipped with a device which will provide visual indication whenever radio frequency energy is being radiated from the antenna.

[FR Doc.74-29092 Filed 12-19-74;8:45 am]

[47 CFR Part 97]

[Docket No. 20282; FCC 74-1336]

AMATEUR RADIO SERVICE

Proposed Privileges and Requirements for Operator Classes

In the matter of amendment of Part 97 of the Commission's rules concerning operator classes, privileges and requirements in the Amateur Radio Service; RM-1016, RM-1363, RM-1454, RM-1456, RM-1516, RM-1521, RM-1526, RM-1535, RM-1568, RM-1572, RM-1602, RM-1615, RM-1629, RM-1633, RM-1656, RM-1724, RM-1793, RM-1805, RM-1841, RM-1920, RM-1947, RM-1976, RM-1991, RM-2030, RM-2043, RM-2053, RM-2149, RM-2150, RM-2162, RM-2166, RM-2216, RM-2219, RM-2256, RM-2284, RM-2449.

1. The Commission has before it the above listed petitions (also listed in more detail in Appendix I) for rulemaking. Principally, petitioners are seeking amendment to the rules for the Amateur Radio Service regarding operator classes, requirements, and [1] privileges. Some desire additional privileges for only one specific operator license class, or desire lower requirements for one specific class. Others want more extensive amendments, such as the deletion, or addition, of an entire license class. Some would establish a new "Hobby" operator license class, having no telegraphy skill requirement. Of these, RM-1841, RM-1991, and RM-2053 would have this operator class in the Citizens Radio Service. Since operation of a radio station as a hobby or diversion, i.e., an activity in and of itself,[1] is prohibited in the Citizens Radio Service, we consider such operation to be one more suitable to the Amateur Radio Service. Thus, these three petitions are included in this proceeding. RM-1633, RM-1656, RM-1793, and RM-1841 are also included in Docket 19759, but will be considered herein to the extent applicable. Additionally, petitions RM-1947 and RM-2256 contain proposals otherwise pertaining to operator privileges and are included herein for that reason.

2. RM-1629 relates to the possibility for conducting operator examinations at places other than regular Commission examination points by persons other than Commission employees. Since the entire matter of amateur radio operator examinations will be under consideration in this proceeding, it is also incorporated.

3. The type of amendments requested by the petitioners cover a broad scope of thoughts and ideas. In summary, the salient requests are:

a. Authorize some, or all, Novice Class privileges to the Technician Class.

b. Permit a person to hold both a Novice Class license and a Technician Class license.

c. Authorize some privileges in the 144–148 MHz frequency band to the Novice Class.

d. Authorize all of the 144–148 MHz frequency band to the Technician Class.

e. Authorize some privileges in the 28–29.7 MHz frequency band to the Technician Class.

f. Reallocate the frequency subbands among the various license classes.

g. Establish new frequency subbands for incentive purposes in the 1800–2000 kHz band.

h. Authorize Amateur Extra Class operator privileges to Advanced Class operators.

i. Limit transmitter power privileges for General Class operators to 250 watts on the 3.5 MHz, 7.0 MHz and 14.0 MHz frequency bands.

j. Limit transmitter power privileges for all operator classes to 300 watts on amateur frequency bands below 30 MHz.

k. Specify maximum transmitter power in terms of output.

l. Establish a new Hobby Class license, or a new VHF Telephony Class license having no telegraphy requirements or privileges.

---

[1] See § 95.83(a)(1).

6. The privileges associated with each

believe there are the means available

been valuable beyond estimation. Partici-

as are required for their service.

m. Establish a new Beginner Class and a new Code Class of operator licenses.

n. Combine the Novice Class license and the Technician Class license into a new VHF Telephony Class.

o. Establish a new Intermediate Class license and a new Communicator Class license.

p. Establish a new Advanced Technician or First Class Technician Class license.

q. Discontinue the Conditional Class and Technician Class operator license.

r. Issue the Amateur Extra Class operator license for life.

s. Reduce Element 1(B) telegraphy requirement from 13 words per minute to 10 words per minute.

Obviously, we cannot accommodate all of these requests because some are in conflict with others. We do not believe it is desirable to deal with these petitions on a piecemeal basis, since many are interrelated. Accordingly, we conclude the time is propitious for a review of our entire amateur licensing structure. To this end, we have reviewed the petitions carefully, together with the existing system of operator privileges and requirements, against the fundamental basis and purpose of the Amateur Radio Service. The following represents our best forecast of the direction we should move in this matter.

4. We recognize the desire by some amateurs, and would be amateurs, as expressed in RM-1633, RM-1793, and RM-1976, for a class of amateur operator license having requirements that do not include a knowledge of telegraphy. Although every amateur radio operator license has traditionally required the applicant to demonstrate some level of proficiency in International Morse Code, goals within the basis and purpose of the Service could be met, at least in part, without this requirement. Moreover, as several of the petitioners point out, the International Radio Regulations do allow the Commission to waive the requirement for an amateur to "* * * have proved that he is able to send correctly by hand and to receive correctly by ear, texts in Morse code signals * * *"[1] in the case of stations only operated above 144MHz. A survey and analysis[2] conducted in 1971 indicated that there may be as many non-licensees interested in amateur radio activities, if not more, than there are persons already licensed in the Amateur Radio Service. The most often mentioned reason for not obtaining an amateur license is the telegraphy requirements. We are aware of the need for, and the use of, telegraphy in amateur radio communications is much less on amateur frequency bands above 50 MHz than it is on the amateur frequency bands in the High Frequency (3–30 MHz) and Medium Frequency (.3–3 MHz) range, where spectrum conservation, tolerance to interference, and other factors, make telegraphy an important mode of amateur radio-communication. We believe, under carefully established provisions, a new "telephony-only" type of operator license, limited to frequencies above 144 MHz, could and should be incorporated into the Amateur Radio Service.

5. The present operator license structure is shown in Figure 1. For all intents and purposes there are ten classes of operator licenses available in five ascending levels of operator privileges. Qualification for an operator license is established by means of the various examination elements shown in Figure 1. These may be administered either by a Commission examiner or by a volunteer examiner through the mail examination system. The Amateur Extra (C) Class, the Advanced (C) Class, and the Conditional (P) Class licenses are issued to physically disabled applicants qualifying on the basis of a mail examination administered by a volunteer. The Conditional Class license is issued to applicants qualifying on the basis of a mail examination administered by a volunteer, because of distance or other unusual difficulty in appearing at a regular examination point. The Technician (C) Class and Novice Class licenses are issued to applicants qualifying on the basis of a mail examination administered by a volunteer, the normal procedure for these license classes. Except for the Novice Class license and the Conditional Class license, the absence of the designator (C) or (P) following the operator class on the license means the licensee has qualified before a Commission examiner, and is not subject to re-examination. Any licensee qualifying on the basis of mail examination may be required by the Commission to appear before a Commission designated examiner for re-examination. Periodically, a sample number of licensees who have obtained their licenses on the basis of a mail examination are selected at random and asked to appear in order to verify the validity of the mail examination system. Those who do not appear, and those who do not pass the re-examination, are subject to license cancellation.

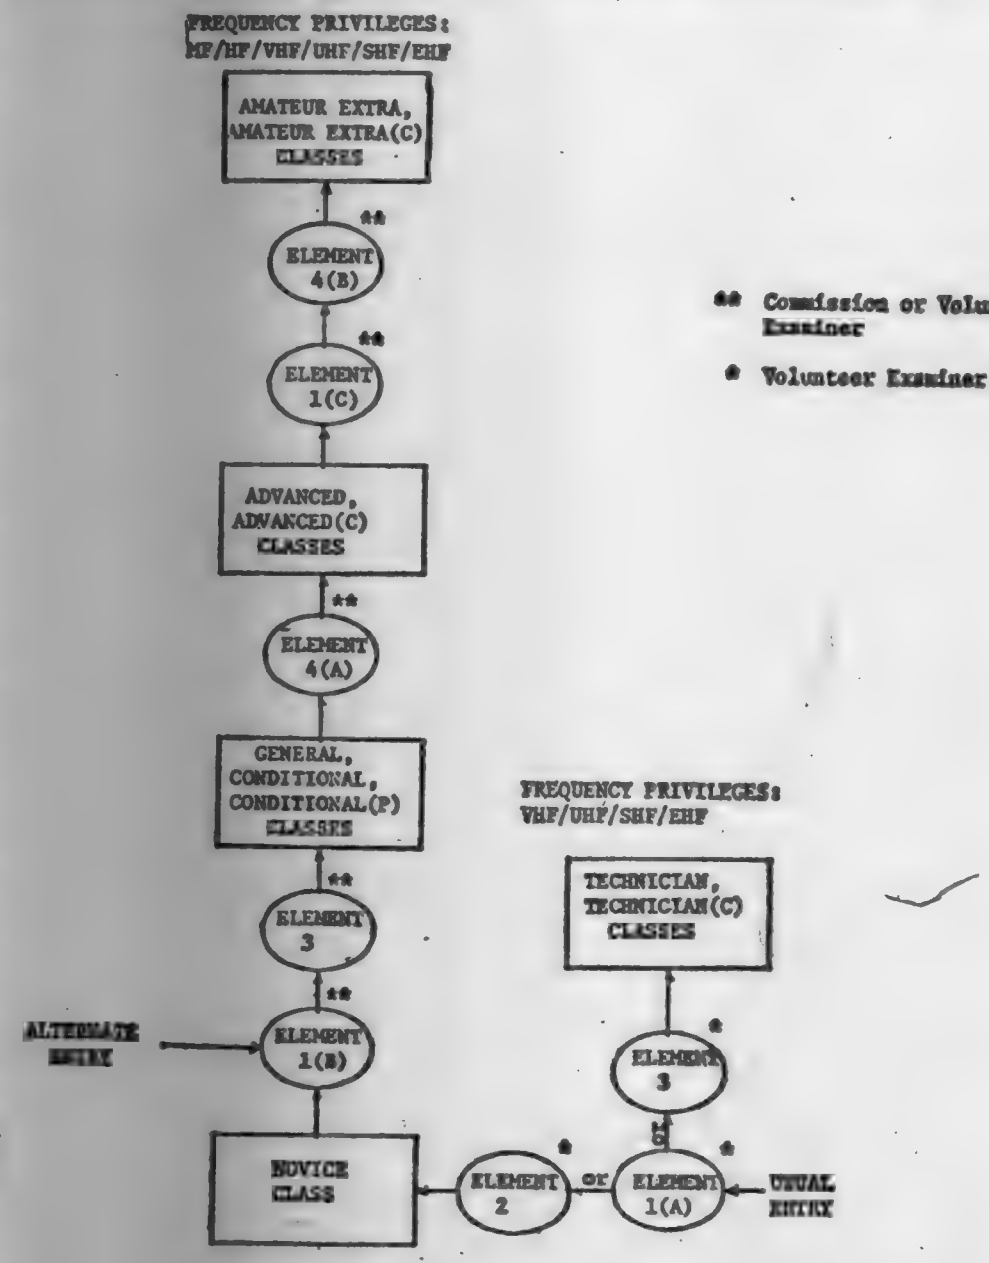

FIGURE 1. PRESENT STRUCTURE OF OPERATOR LICENSE CLASSES, EXAMINATION ELEMENTS AND FREQUENCY PRIVILEGES.

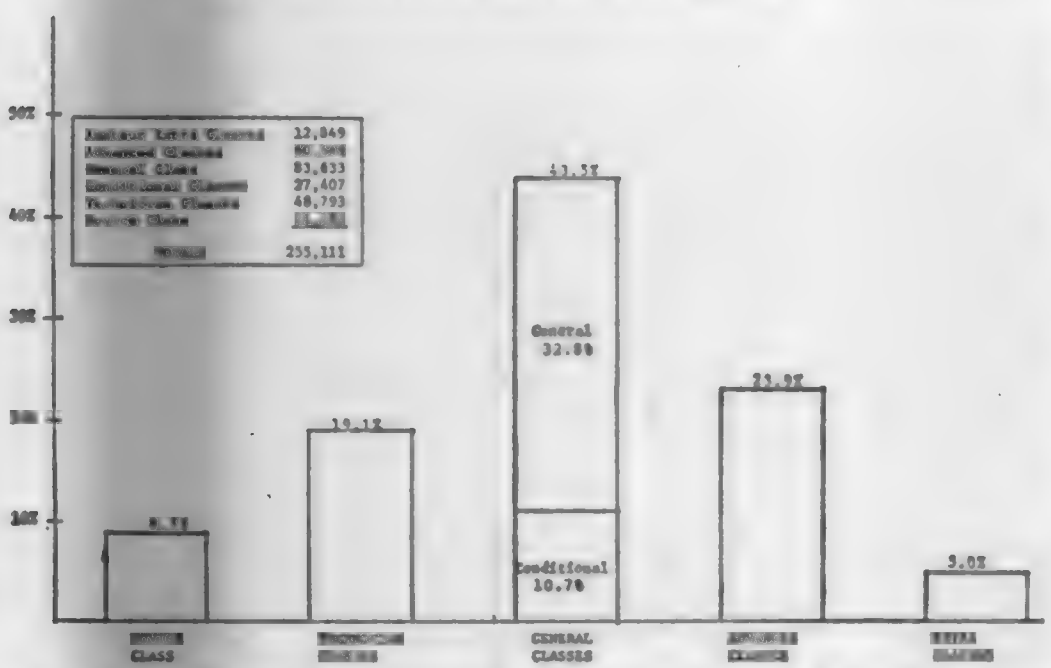
license would be offered, Series A and the Communications Act of 1934 does



11. Under the proposed license class

6. The privileges associated with each operator license class are intended to provide the necessary incentives for amateurs to upgrade their skills. This system has been largely responsible for thousands of amateurs to upgrade, particularly to Advanced Class and to Amateur Extra Class. The current number of operators in each license class is shown in Figure 2. While it is gratifying to see even the limited success of this system toward fulfilling the basis and purpose of the Amateur Radio Service, it is a desirable goal for most amateurs to reach a higher operator class, say the Advanced Class, or even the Amateur Extra Class.[1]

7. An inherent principle in arriving at any new licensing system is a logical relationship between the qualification requirements and the operator privileges authorized at each license class level. For instance, it would not be rational to require an applicant to demonstrate a certain specific proficiency in order to qualify for a particular operator license class which authorized no corresponding privileges requiring that proficiency. Conversely, an operator license class should not authorize significantly more privileges than the requirements for that license class reasonably justify. While we believe there are the means available within the Amateur Service to satisfy the reasonable needs of most United States citizens having a genuine interest in pursuing radio activities within the basis and purpose of the Service, there are basic limitations brought about by practical realities. For example, the vast array of interests and levels of ability among amateurs must be provided for within a fixed number of different operator license classes. The resources available to the Commission for regulating the Service are not unlimited. Issuing licenses, preparing and conducting examinations, monitoring the frequencies, enforcing the regulations, etc., are all activities that must be provided by the Commission. In this proceeding, we are moving on the assumption the amateurs' record of cooperation and assistance will continue in the future, and an unduly large increase in the Commission's workload will not be necessary.

[1] Section 97.1(c) states as one of the principles expressing a fundamental purpose of the Amateur Radio Service: "Encouragement and improvement of the Amateur Radio Service through the rules which provide for advancing skills in both the communication and technical phases of the art."

FIGURE 2. PERCENTAGE OF AMATEUR LICENSEES IN EACH CLASS, May, 1974

8. We are proposing in this proceeding to establish a new Communicator Class operator license, having no telegraphy requirements nor privileges. Operation under this license would be limited in a manner similar to that of the current Novice Class, except frequency privileges would be above 144 MHz. The objective would be to enable beginners to enter the Amateur Radio Service and, through the experience gained by operation of a low-power radiotelephony station, develop the necessary interest and skill to qualify for higher class operator licenses.

9. Those petitions calling for another new operator license class above the current Technician Class raise significant questions regarding the scope of the Technician Class as presently constituted. For example, in RM-1535, the American Radio Relay League (ARRL) states:

> It is readily apparent from the various pronouncements of the Commission over the years and from the present interests and operations of Technician Class licenses that the purposes for which the Technician Class was established * * * require review. It is respectfully suggested that any Notice of Proposed Rule Making invite comments and suggestions for major revisions of the Technician Class license * * * In numerous disasters * * * including the Alaskan earthquake in 1964 and the recent Hurricane Camille, the contributions of Technicians in providing internal communications have been valuable beyond estimation. Participation by Technicians in the League's Amateur Radio Emergency Corps (AREC) has grown over the years. The evolution of Technicians as communicators as well as experimenters * * * since the class was established must be recognized.

Although interest in the communication aspects of amateur radio has emerged among the some 49,000 Technician Class licensees, apparently they are not sufficiently persuaded by the additional communication privileges in the High Frequency (HF) and Medium Frequency (MF) amateur bands afforded to General Class licensees to the extent of increasing their telegraphy skill from 5 words to 13 words per minute, the only real difference in qualification between the two license classes. The needs and interests of this group probably are fully satisfied by the operation of an amateur radio station in the VHF (Very-high Frequency) regions and above. Accordingly, we can conclude technological and operational developments by amateurs in the VHF, and possibly in the UHF (Ultra-high Frequency) bands, have reached the point where the interest to amateurs is comparable to, if not already exceeding, that in the MF and HF "shortwave" bands. Therefore, in order provide meaningful incentives for amateurs interested in this part of the radio spectrum to upgrade their skills, the incentive principles should also be applied for these bands similar to those now in effect in the shortwave bands. A new higher class operator license comparable in requirements and privileges to the Advanced Class, except based upon operation above 29 MHz, may be desirable. Obviously, for this new higher class license, any additional telegraphy skill is not meaningful since telegraphy is not a major communication mode in these frequency bands. However, other modes, such as television, remote control, facsimile, repeaters etc., are very meaningful, and need to be emphasized. Therefore, we are proposing another new operator class license, the Experimenter Class, as the means toward fulfilling these needs.

10. We have examined several possible revised operator license class structures in a search for the best way to incorporate the proposed Communicator Class and the proposed Experimenter Class licenses. As broad objectives, we desire to (1) preclude, or at least minimize, any adverse impact upon presently licensed amateurs, (2) closely relate requirements to privileges for each license class, (3) provide realistic upgrading steps and incentives, (4) provide the opportunity and flexibility for persons interested only in shortwave radio, or only in VHF and above, of interested in both, to obtain a license and pursue their particular interests. As a result, the structure we are proposing is shown in Figure 3, and the specific proposed rule amendments are given in the regulations below. In general, we favor this structure because it seems to more fully reflect our objectives and to satisfy most of the objectives of the petitioners. Two series of operator

license would be offered, Series A and Series B. Amateurs would be permitted to hold one operator license permitting privileges in one or both series. For example, an amateur could hold an operator license authorizing Novice Class privileges in Series A and also Technician Class privileges in Series B, a request asked for by several petitioners. Operator licenses in Series A would authorize only privileges on amateur frequencies below 29 MHz, and operator licenses in Series B would authorize only privileges on amateur frequencies above 29 MHz. Operator licenses would normally be issued for a 5 year renewable term, including the Communicator Class and the Novice Class in order to compensate for any increased administrative burdens resulting from the proposed amendments. (Novice Class licensees are currently issued on a 2 year, non-renewable basis, no filing fee). Section 303(L)(1) of the Communications Act of 1934 does allow us to issue operator licenses for life, as requested for the Amateur Extra Class in RM-2030. Under our current rules, the operator license[5] is always combined with the Primary station license which cannot be granted for a term longer than 5 years, a requirement of section 307(d) of the Act. We are proposing to adopt the request. Our records indicate very few amateurs drop out of amateur radio after they have attained the Amateur Extra Class. The licensee would still be required to renew his station license(s) every five years, so in effect, this proposed rule would amount to eliminating the need to retake the examinations should the amateur neglect to renew his license.

[5] Although large certificates are awarded to Amateur Extra Class licensees upon request, the certificates do not satisfy the availability requirements of § 97.83.

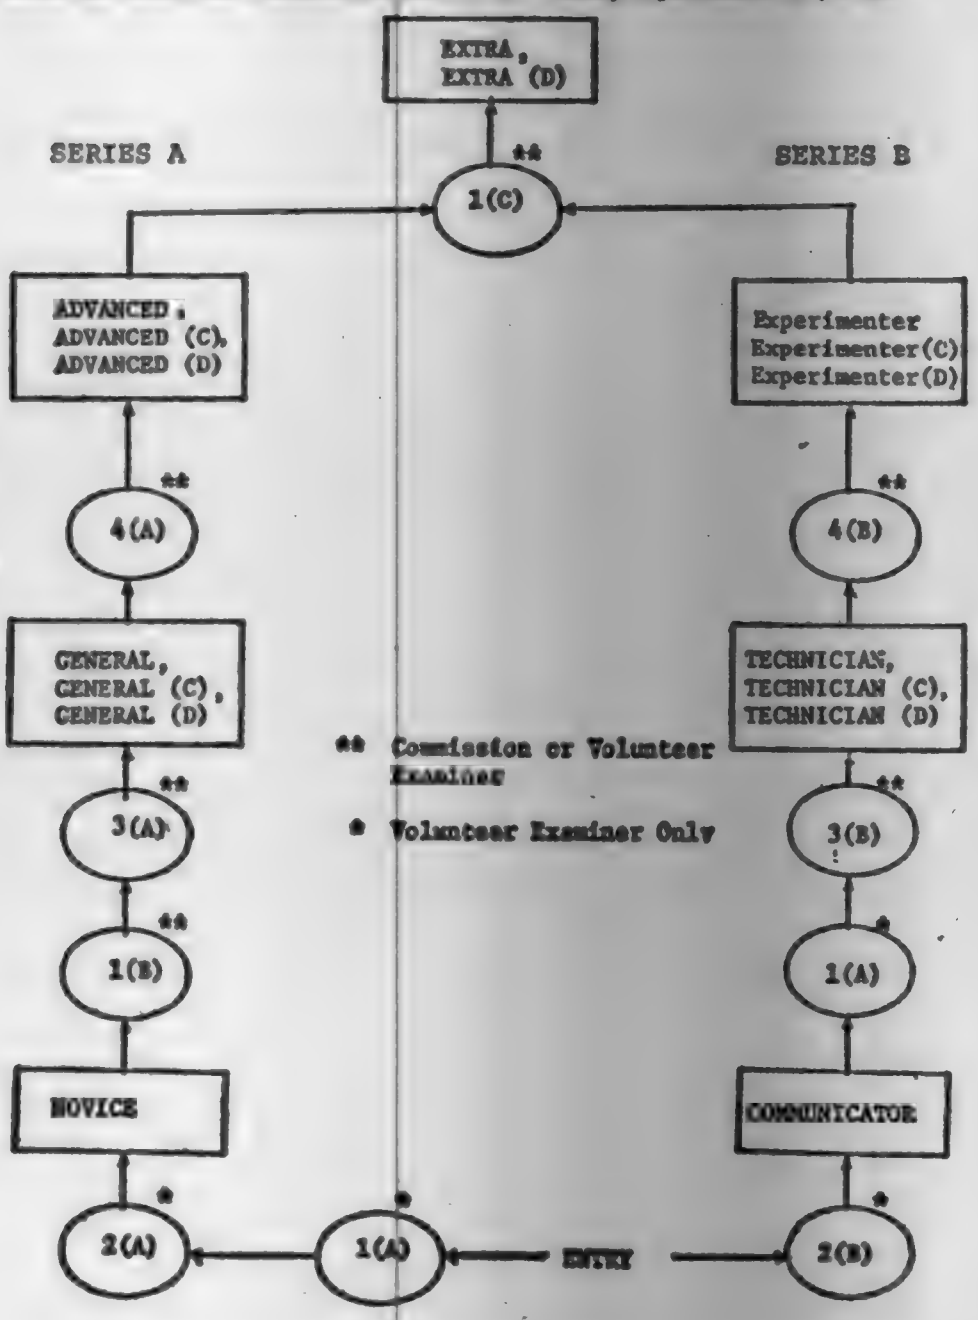


FIGURE 3. PROPOSED REVISED STRUCTURE OF OPERATOR LICENSE CLASSES AND EXAMINATION ELEMENTS

11. Under the proposed license class structure, new Advanced Class licenses and General Class licenses would no longer carry requirements and privileges above 29 MHz. The Experimenter Class and the Technician Class would be the counterpart operator licenses in Series B, and would not carry any requirements and privileges in Series A frequency bands. The current Amateur Extra Class would be shortened in name to Extra Class, and would authorize full amateur privileges in both series. We are proposing to discontinue the written examination and the exclusive telephony segments available only to this class. The material in the current Element 4(B) examination required for Amateur Extra Class would be combined with the material for the current Advanced Class Element 4(A) and, together with other new material, be used in new examination Elements 4(A) and 4(B) for the Advanced Class and Experimenter Class respectively. Material related to the shortwave domain would be used in 4(A) and material related to the other domains would be used in 4(B). After obtaining both the Advanced Class and Experimenter Class, an amateur would then only need pass the Element 1(C) 20 word per minute telegraphy examination to qualify for the Extra Class. Because of this additional telegraphy requirement, the Extra Class would continue to have exclusive telegraphy subband privileges.

12. Under the proposed license structure, every currently licensed amateur radio operator would automatically be eligible to renew upon application, his current operator license to include privileges in at least one, and in most cases both series without further examination. Table 1 illustrates the highest class, or classes, of operator license that could be obtained without further examination.

13. Both of the proposed license series would be based upon three levels of difficulty: a beginner level, an intermediate level, and an advanced level. Ideally, this type of system would offer a newcomer the opportunity to enter the Amateur Radio Service at the beginner level with a minimum of proficiency, gain the experience and practical knowledge necessary to qualify for the intermediate level, and then move on to the advanced level. The privileges authorized at both the beginner and intermediate levels would be only those necessary to provide the desired experience for upgrading. Similarly, the related qualification requirements would be only the minimum necessary to insure that the licensee understands the privileges, limitations, and responsibilities associated with the license, with particular emphasis on methods for properly evaluating emissions of the type(s) authorized by the license.

14. We are proposing three principal areas of operator privileges: operating frequencies, emissions, and maximum transmitter power. For Series A, the authorized frequency bands would be basically the same as at the present be-

low 29 MHz, except the exclusive telephony segments reserved to the Amateur Extra Class would be also available to the Advanced Class. In Series B, the Technician Class would be authorized all amateur frequencies above 50 MHz, thus gaining additional frequencies 50.0–50.1 MHz and 144–145 MHz. The Experimenter Class would be authorized all above 29 MHz, and the Communicator Class all above 144 MHz. The Extra Class and Experimenter Class would be authorized all amateur emissions. The Advanced Class would be authorized all amateur emissions permitted below 29 MHz. The General and Technician Classes would be authorized emimions A1, A3, and F3. The Novice Class would continue with A1 only, while the new Communicator Class would be permitted emission F3. Related examination elements would contain questions concerning the technical and operational aspects of the emissions authorized.

TABLE 1. Eligibility of currently licensed amateur radio operators for proposed new operator licenses, without further examination.

CURRENT OPERATOR CLASSES / PROPOSED OPERATOR CLASSES	Amateur Extra Class	Amateur Extra (C) Class	Advanced Class	Advanced (C) Class	General Class	Conditional Class	Conditional (P) Class	Technician Class	Technician (C) Class	Novice Class

15. In proposing maximum transmitter power levels, we have taken into consideration a number of factors. Amateur transmitters have not been a significant source of interference to other services, and where there has been a problem, amateurs have been very cooperative. Also, amateurs, by and large, do use the minimum transmitter power necessary to conduct their communications. Therefore, there should be no real problem if the limits were to be increased in some instances. We would like to improve the technique specified in the rules for determining power. Modern communications requires better methods for determining transmitter power than the "plate voltage times current" method. We are proposing to specify the maximum transmitter output in terms of peak envelope power (PEP), except at the beginner level where the emissions authorized do permit a fairly accurate measurement to be made of the input power using the method now specified. Under current rules and practices, the maximum output peak envelope power that could be developed would be on the order of 2000 watts (100 percent modulated, full carrier, double sideband A3). Specifying this level as advanced amateur practice, and 6 dB (approximately one "S" unit) as intermediate amateur practice (500 watts PEP output) is the method used to establish these proposals. An additional 6 dB lower step (250 watts input approximates 125 watts output PEP for A1 and F3 emissions) would be the beginner level.

16. The requirements for a new license, as shown in the regulations below, are similar to those now in effect, except the content of the various examination elements would be adjusted to more closely correlate with the privileges for each particular license class. While we are not proposing to lower, or increase, the telegraphy speed requirements, we are proposing a modification in the manner of testing. In RM–1724, the petitioner claims most operators must pass through a "code hump" between the speeds of 11 and 13 words per minute. Possibly the 5 wpm rate and the 10 wpm rate require the same skill level. In any event, the 13 wpm rate does require a skill level above that required for a 5 wpm rate. Otherwise, there would be no point to have both a Technician Class and a General Class under the present rules, since the two skill levels are the only difference between the requirements. Therefore, we are not proposing any changes in the telegraphy examination speeds.

17. Under the proposed system, the operator license for an amateur qualifying by means of a mail examination on the basis of a protracted physical disability would have the letter (D) inserted following the operator class [example: Advanced (D) class]. A license of this type would be renewable without re-examination upon satisfactory showing the disability continued, and they could not appear for a regular Commission supervised examination. Otherwise, they would be required to demonstrate their proficiency through re-examination. The operator license of an amateur qualifying by means of a mail examination on the basis of difficulty in traveling to a regular Commission examination point, would have the letter (C) inserted following the operator class (example: General (C) class). The only purpose of this conditionally issued type of license would be to provide a temporary authorization until the person could qualify before a Commission examiner. Hence, these licenses would not be renewable, since it would not be unreasonable to expect a conditionally licensed amateur to travel to one of the many Commission examining points sometime within the five year period. He would then have to successfully complete a regular Commission su-

[1] See § 97.27.

pervised examination in order to continue as an amateur radio operator.

18. In the best interests of the Amateur Radio Service, and to be fair to all amateurs, we believe that every applicant should clearly establish his qualifications for the privileges authorized by an amateur radio operator license. Overall, our experience indicates mail examinations are not as effective as Commission supervised examinations in establishing qualifications. Because of our experience in re-examining amateur radio operators, and considering the proposed amendments may place additional demands upon a mail examination system, we are proposing some amendments in the regulations below intended to improve the system. Only an Extra Class licensee would be eligible to serve as a volunteer examiner for all examination elements. Advanced Class licensees would be eligible to administer examination elements for the General (C) and (D), and Novice Classes. Experimenter Class licensees would be eligible to administer examination elements for the Technician (C) and (D), and the Communicator Classes. Another proposal is to increase the required number of persons administering a volunteer examination. The second person may be the holder of any class of amateur operator license.

19. A specific call sign proposal is not included in this proceeding. However, because of the ramifications of this proposal, some relative comments are appropriate. Existing licensees will be able to retain current call signs if desired, and if authorized for both privileges, the same call sign may be used in both Series A and B. Licensees in Series B entering amateur radio as a result of this proceeding, will be issued a distinctive call sign for operation in that Series. If a later authorization for Series A privileges is granted, the single resulting call sign will reflect the dual Series authorization. Under this proposal, Technician Class licensees could obtain Novice privileges in Series A without examination, and therefore could retain their present call signs if desired. Further details will be contained in the call sign proceeding to be issued.

20. In view of the extensive amendments to the rules requested by the petitioners, and those proposed herein, it is imperative those submitting comments carefully consider the future needs of the Amateur Radio Service. To this end, we are allowing more than the normal amount of time for suggestions and comments to be filed. These proposals represent our best thoughts in these important matters. We are interested in receiving comments from informed amateurs in these areas.

21. Authority for the proposed rule changes herein is contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

22. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before June 16, 1975, and reply comments on or before July 16, 1975. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision on the rules which are proposed herein, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

23. In accordance with the provision of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, pleadings, briefs, or other documents shall be furnished the Commission.

24. All filings in this proceeding will be available for examination by interested parties during regular business hours in the Commission's public reference room at its headquarters in Washington, D.C. (1919 M Street NW.).

Adopted: December 4, 1974.

Released: December 16, 1974.

Part 97, of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 97.5 is revised to read:

§ 97.5 Classes of operator licenses.

(a) The following Series A operator licenses authorize operations in the amateur radio frequency bands below 29 MHz:

(1) *Advanced Class, Advanced(C) Class, Advanced(D) Class.* Licenses to conduct amateur radio communications using advanced level amateur practices.

(2) *General Class, General(C) Class, General(D) Class.* Intermediate grade licenses to conduct amateur radio communication for the purpose of developing individual proficiency toward qualifying for the Advanced Class license.

(3) *Novice Class.* Introductory grade license to conduct amateur radio operation for the purpose of developing proficiency toward qualifying for the General Class license.

(b) The following Series B operator licenses authorize operations in the amateur radio frequency bands above 29 MHz:

(1) *Experimenter Class, Experimeter (C) Class, Experimenter(D) Class.* Licenses to conduct amateur radio communication using advanced level practices.

(2) *Technician Class, Technician(C) Class, Technician (D) Class.* Intermediate grade licenses to conduct amateur radio communication for the purpose of developing individual proficiency toward qualifying for the Experimenter Class license.

(3) *Communicator Class.* Introductory grade license to conduct amateur radio communication for the purpose of developing individual proficiency toward qualifying for the Technician Class and Novice Class licenses.

(c) The Extra Class and Extra(D) Class licenses authorize amateur radio operation using all authorized privileges, including certain exclusive privileges.

(d) The designator (C) following the type of operator license class indicates the license is conditionally issued because the licensee qualified under the provisions of § 97.26.

(e) The designator (D) following the type of operator license class indicates the license is conditionally issued because the licensee qualified under the provisions of § 97.27.

2. Section 97.7 is revised to read as follows:

[1] Commissioner Quello absent.

§ 97.7 Privileges of operator license.

The following operating privileges are authorized by the class of operator license indicated for all new amateur licenses issued after (effective date of new rules). Amateurs licensed prior to the date will receive a new license upon the first renewal after (effective date of new rules):

(a) *Extra Classes.* All amateur radio operator privileges.

(b) *Advanced Classes.* All amateur radio operator privileges below 29 MHz, except for frequencies 3500–3525 kHz, 7000–7025 kHz 14000–14025 kHz, and 21.000–21.025 MHz.

(c) *General Classes.* (1) Frequencies 1800–2000 kHz, 3525–3775 kHz, 3890–4000 kHz, 7.025–7.150 MHz, 7.225–7.300 MHz, 14.025–14.200 kHz, 14.275–14.350 kHz, 21.025–21.250 MHz, 21.350–21.450 MHz and 28.0–29.0 MHz within the limitations of § 97.61.

(2) Emissions A1, A3, and F3.

(3) Except for power limitations set forth in § 97.61, the maximum transmitter output power shall not exceed 500 watts peak envelope power.

(d) *Novice Class.* (1) Frequencies 3700–3750 kHz, 7100–7150 kHz, (7050–7075 kHz when the amateur radio operation is not within Region 2), 21.100–21.200 MHz, and 28.100–28.200 MHz.

(2) Emission A1.

(3) 250 watts input power to the transmitter final amplifying stage supplying radio frequency energy to the antenna, exclusive of power for heating the cathode of a vacuum tube(s), within the limitations of § 97.67.

(e) *Experimenter Classes.* All amateur radio operator privileges above 29 MHz.

(f) *Technician Classes.* (1) All amateur frequencies above 50 MHz.

(2) Emissions A1, A3, and F3.

(3) Except for power limitations set forth in § 97.61, the maximum transmitter output power shall not exceed 500 watts peak envelope power.

(g) *Communicator Class.* (1) All amateur frequencies above 144 MHz.

(2) Emission F3.

(3) 250 watts input power to the transmitter final amplifying stage supplying radio frequency energy to the antenna, exclusive of power for heating the cathode of a vacuum tube(s), within the limitations of § 97.67.

3. Section 97.9 is revised to read as follows:

§ 97.9 Eligibility for a new operator license.

Any citizen[1] or national of the United States is eligible to apply for an amateur radio operator license. A person may be issued no more than one operator license in Series A, and no more than one in Series B. A holder of an Extra Class operator license may not hold any other amateur radio operator license issued by the Commission. The requirements for each operator class are:

[1] Senate Bill 2457 if enacted; would delete citizenship requirement.

(a) *Extra Class.* Applicant shall have successfully completed examination elements 1(C), 2(A), 2(B), 3(A), 3(B), 4(A), and 4(B).

(b) *Advanced Class.* Applicant shall have successfully completed examination elements 1(B), 2(A), 3(A), and 4(A).

(c) *General Class.* Applicant shall have successfully completed examination elements 1(B), 2(A), and 3(A).

(d) *Novice Class.* Applicant shall have successfully completed examination elements 1(A) and 2(A).

(e) *Experimenter Class.* Applicant shall have successfully completed examination elements 1(A), 2(B), 3(B), and 4(B).

(f) *Technician Class.* Applicant shall have successfuly completed examination elements 1(A), 2(B), and 3(B).

(g) *Communicator Class.* Applicant shall have successfully completed examination element 2(B).

4. Section 97.13 and headnote are revised to read as follows:

§ 97.13 Eligibility for renewal of operator license.

(a) An amateur radio operator license, other than a conditionally issued license, may be renewed upon proper application, in which it is stated that the applicant is fully qualified in the requirements for the original license of the class being renewed. If the applicant is not fully qualified, the license will not be renewed, and the applicant may apply for a new operator license if and when he qualifies by examination at a later date.

(b) If a license, other than a conditionally issued license, is allowed to expire, application for renewal may be made during a period of grace of 1 year after the expiration date. During this 1 year period of grace, an expired license is not valid. A license renewed during the grace period will be dated currently and will not be backdated to the date of its expiration.

(c) Application for renewal of an amateur radio operator license shall be submitted on FCC Form 610 and shall be accompanied by the applicant's operator license or photocopy thereof. Application for renewal of unexpired licenses must be made during the license term. In any case in which the licensee has, in accordance with the provisions of this section, made timely and sufficient application for renewal of an unexpired license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined.

(d) Operator licenses obtained on the basis of § 97.26 are not renewable.

(e) Operator licenses obtained on the basis of § 97.27 are not renewable unless the application is accompanied by a current physician's affidavit.

(f) Extra Class operator licenses are issued for the life of the licensee, and do not have to be renewed.

5. Section 97.15 is added new to read as follows:

§ 97.15 Modification of operator license.

(a) Application for modification of an amateur radio operator license shall be submitted on FCC Form 610 and shall be accompanied by the applicant's operator license(s) or photocopy(s) thereof.

(b) When only the name of the licensee is changed, or when only the mailing address is changed, a formal application for modification of license is not required. However, the licensee shall notify the Commission promptly of these changes. The notice, which may be in letter form, shall contain the name and address of the licensee as they appear in the Commission's records, the new name and/or address, as the case may be, the primary station call sign and class of operator license. The notice shall be sent to Federal Communications Commission, Gettysburg, Pennsylvania 17325, and a copy shall be kept by the licensee until a new license is issued.

6. Section 97.21 is revised to read as follows:

§ 97.21 Examination elements.

Examination for amateur radio operator privileges will comprise one or more of the following elements:

(a) *Element 1(A).* Slow speed telegraphy test in International Morse Code at 5 words per minute.

(b) *Element 1(B).* Intermediate speed telegraphy test in International Morse code at 13 words per minute.

(c) *Element 1(C).* High speed telegraphy test in International Morse code at 20 words per minute.

(d) *Element 2(A).* Rules, basic principles, and amateur practices essential to beginners' amateur radiotelegraphy operation using the privileges authorized in the Novice Class.

(e) *Element 2(B).* Rules, basic principles, and amateur practices essential to beginners' amateur radiotelegraphy operation using the privileges authorized to the Communicator Class.

(f) *Element 3(A).* Rules, intermediate level principles, and amateur practices essential to amateur radio operation using the privileges authorized to the General Class.

(g) *Element 3(B).* Rules, intermediate level principles, and amateur practices essential to amateur radio operation using the privileges authorized to the Technician Classes.

(h) *Element 4(A).* Advanced level principles and amateur practices essential to amateur radio operation using the privileges authorized to the Advanced Class.

(i) *Element 4(B).* Advanced level principles and amateur practices essential to amateur radio operation using the privileges authorized to the Experimenter Class.

7. Section 97.23 is revised to read as follows:

§ 97.23 Examination requirements.

(a) The telegraphy test required of an applicant for an amateur radio operator license shall determine the applicant's ability to send correctly by hand

using a hand key (or, if supplied by the applicant, a semi-automatic or electronic, hand operated key, other than keyboard type) and to receive correctly by ear, in plain language, messages in the International Morse code at not less than the prescribed speed, counting 5 characters to the word, each numeral or each punctuation mark counting as 2 characters.

(b) All written examinations for an amateur radio operator license shall be completed by the applicant in legible handwriting or hand printing by means of ink or pencil. Whenever the applicant's signature is required, his normal signature shall be used. Applicants unable to comply with these requirements, because of a physical disability, may dictate their answers to the examination questions and to the receiving code test. If the examination, or any part thereof, is dictated by the applicant, the examiner shall certify the nature of the applicant's disability and the name and address of the person(s) taking and transcribing the dictation.

8. Section 97.25 is revised to read as follows:

§ 97.25 Examination credit.

(a) An applicant for an amateur radio operator license will be given credit for those examination elements required for any other class or operator license held when the application is filed. However, credit will not be given for examination elements 1(B), 3(A), 3(B), 4(A), and 4(B) given under the provisions of § 97.30 for a class of operator license other than that being applied for, except for holders of Advanced (D) Class, Experimenter (D) Class, General (D) Class, and Technician (D) Class when qualifying for a license under the provisions of § 97.27.

NOTE.—Credit for examination elements will be given to applicants holding a valid operator license at the time of the adoption of this rule, in accord with the following schedule, during a period not exceeding one year following the expiration date on the current license:

(1) *Amateur Extra Class.* All examination elements.

(2) *Amateur Extra (C) Class.* Elements 1(A), 2(A), and 2(B). Also all other examination elements as if passed on the basis of § 97.27.

(3) *Advanced Class.* Elements 1(A), 1(B), 2(A), 2(B), 3(A), 3(B), 4(A), and 4(B).

(4) *Advanced (C) Class.* Elements 1(A), 2(A), and 2(B). Also elements 1(B), 3(A), 3(B), 4(A), and 4(B) as if passed on the basis of § 97.27.

(5) *General Class.* Elements 1(A), 1(B), 2(A), 2(B), 3(A), and 3(B).

(6) *Conditional Class.* Elements 1(A), 2(A), and 2(B). Also elements 1(B), 3(A), and 3(B) if passed on the basis of § 97.28.

(7) *Conditional Class (P) Class.* Elements 1(A), 2(A), and 2(B). Also elements 1(B), 3(A), and 3(B) as if passed on the basis of § 97.27.

(8) *Technician Class.* Elements 1(A), 2(B), 3(A), and 3(B).

(9) *Technician (C) Class.* Elements 1(A), 2(A), and 2(B). Also elements 3(A) and 3(B) as if passed on the basis of § 97.28.

(10) *Novice Class.* Elements 1(A) and 2(A).

(b) Upon request, an applicant for an amateur radio license will be given credit for element 1(A) and 1(B) if within 5 years prior to the receipt of his application by the Commission, he held a commercial radiotelegraph operator license or permit issued by the Federal Communications Commission.

(c) Upon request, an applicant for an amateur radio operator license will be given credit for elements 1(A), 1(B), and 1(C), if he holds a valid First Class commercial radiotelegraph operator license or holds any commercial radiotelegraph operator license or permit issued by the Commission containing aircraft radiotelegraph endorsement.

(d) Applicant submitting evidence of having held the Amateur Extra First Class operator license and having held its successor license will be given credit for examination element 1(C) if he so requests. An applicant must present his proof in advance of the desired examination time to the Amateur and Citizens Division, Washington, D.C., 20554 and receive a letter of certification for presentation to the Commission Field Office where the examination will be taken. No credit for the telegraphy requirement will be given without the letter of certification.

9. Section 97.27 and headnote are revised to read as follows:

§ 97.27 Availability of operator license to physically disabled persons.

If it is shown by physician's certificate an applicant is unable to travel to any regular Commission examination point because of a protracted physical disability, a new or renewed Extra (D) Class, Advanced (D) Class, Experimenter (D) Class, General (D) Class, or Technician (D) Class operator license may be issued on the basis of examinations successfully passed under the provisions of § 97.30. These licenses may not be renewed without a current physician's affidavit.

10. Section 97.28 and headnote are revised to read as follows:

§ 97.28 Availability of operator license to persons residing at great distances from Commission examination points.

(a) A new Advanced (C) Class, Experimenter (C) Class, General (C) Class, or Technician (c) Class license may be issued on the basis of examinations successfully passed under the provisions of § 97.30 under one of the following conditions:

(1) If the applicant's legal residence, mailing address, and/or any station location or proposed station location are more than 175 miles actual distance from the nearest Commission examining point.

(2) If the applicant is shown by certificate of the commanding officer to be in the armed forces of the United States at an Army, Navy, Air Force, or Coast Guard station and, for that reason, to be unable to appear for examination at a Commission examination point.

(3) If the applicant demonstrates by sufficient evidence that he is unable to appear at a Commission examination point because his current temporary residence, for the 12 coming months is outside the continental limits of the United States, its teritories or possessions.

(b) Operator licenses obtained under the provisions of these rules are not renewable.

11. Section 97.29 and headnote are revised to read as follows:

§ 97.29 Manner of conducting Commission supervised examinations.

(a) Except as provided by § 97.27 and § 97.28, examination elements 1(B), 1(C), 3(A), 3(B), 4(A), and 4(B) may only be administered by an authorized Commission employee or representative at locations and at times specified by the Commission.

(b) Examination element 4(A) may only be administered to a person having successfully passed element 3(A).

(c) Examination element 4(B) may only be administered to a person having successfully passed element 3(B).

(d) Examination element 3(A) may only be administred to a person having successfully passed element 2(A).

(e) Examination element 3(B) may only be administered to a person having successfully passed examination elements 2(B).

12. Section 97.30 is added new to read as follows:

§ 97.30 Manner of conducting mail examinations.

(a) Unless otherwise prescribed by the Commission, examination elements 1(A), 2(A), 2(B), and any elements administered under the provisions of § 97.27 and § 97.28 will be conducted and supervised by two proxy volunteer examiners proposed by the applicant and approved by the Commission. The volunteer examiners shall be at least 21 years of age, shall be unrelated to the applicant, and at least one shall hold the proper class of license to administer examinations in accordance with the following schedule:

(1) *Extra Class.* All examination elements.

(2) *Advanced Class.* Examination elements 1(A), 1(B), 2(A), and 3(A).

(3) *Experimenter Class.* Examination elements 1(A), 2(B), and 3(B).

(b) Written examinations shall be obtained, administered, and submitted in accordance with the following procedure:

(1) Within 10 days after successfully passing any required telegraphy examination element, an applicant shall submit an application (FCC Form 610), together with any filing fee prescribed, to the Commission's office in Gettysburg, Pennsylvania 17325. The application shall include a written request from the volunteer examiners for the appropriate examination papers. The examiners' written request shall include (1) the name and mailing address of the volun-

teer examiners, (2) the name of the applicant, (3) a statement by the volunteer examiners that the applicant has passed the telegraphy examination element for the class of operator license, if required, under their supervision within the 10 days prior to the submission of the request, and (4) the volunteer examiners' signatures. Examination papers will be forwarded to one of the volunteer examiners.

NOTE.—When the applicant is entitled to credit for any telegraphy examination element under the provisions of § 97.28, an application may be submitted without regard to the 10 day limitation. The examiners' request should then state that a telegraphy examination was not administered for that reason. The applicant should furnish details as to the class, number, and expiration date of any license involved.

(2) The proxy volunteer examiners shall be responsible for the proper conduct and necessary supervisions of the examination. Administration of the examination shall be in accordance with the instructions included with the examination papers.

(3) The examination papers, either completed, or unopened in the event the examination if not administered for whatever reason, shall be returned by the volunteer examiner to the Commission's office at Gettysburg, Pennsylvania, no later than 30 days after the date the papers are mailed by the Commission (the date of mailing is normally stamped by the Commission on the outside of the examination envelope).

13. Section 97.33 is revised to read as follows:

§ 97.33 Eligibility for re-examination.

An applicant who fails an examination for an amateur radio operator license may not take another examination for the same or higher class license in the same series within 30 days.

14. Section 97.35 and headnote are revised to read as follows:

§ 97.35 Additional requirements for licensees holding licenses on the basis of mail examinations.

(a) A licensee holding an amateur radio operator license obtained by a mail examination administered by proxy volunteer examiners may be required to appear for a Commission supervised examination, the amateur radio license(s) the Commission. If the licensee fails to appear for this examination when directed to do so, or fails to pass such examination, the amteur radio license(s) involved shall be subject to cancellation. When a license is cancelled under this provision, a new license will not be issued for the same class of operator license as that cancelled.

(b) A holder of an amateur radio operator license obtained on the basis of a mail examination under the provisions of § 97.27 shall make application for re-examination within one-year upon becoming able to travel to any Commission examination point.

(c) A holder of an amateur radio operator license obtained on the basis of mail examination under the provisions of § 97.28 shall apply for re-examination within one-year of when the licensee changes his legal residence, or mailing address, and/or any station or proposed station location within 175 miles actual distance to the nearest Commission examination point, or when a new examination point is established within 175 actual miles distance to the licensee's legal residence, mailing address, or station location.

15. Section 97.38 is added new to read as follows:

§ 97.38 Types of station licenses and eligibility.

(a) The following types of station licenses are available to properly licensed amateur radio operators.

Type of station	*Eligible licensees*
Series A Primary station.	Extra Class, any Series A Class operator.
Series A Secondary station.	-Do-
Series B Primary station.	Extra Class, any Series B Class operator.
Series B Secondary station.	-Do-
Series A Club station.	Extra Class, Advanced Class operator.
Series B Club station.	Extra Class, Experimenter Class operator.
Repeater station, Control station, Auxiliary Link station, Space station.	Extra Class Experimenter Class operator.
Military Recreation station.	Individual, whether or not a licensed amateur radio operator, who is in charge of a proposed Military Recreation station.

16. Section 97.67 (a) and (b) are revised and paragraph (d) added to read as follows:

§ 97.67 Maximum authorized power.

(a) Within all other limitations specified herein, amateur radio stations shall use the minimum amount of transmitter power necessary to carry out the desired communications.

(b) Except for power limitations set forth in §§ 97.7 and 97.61, the maximum transmitter output power shall not exceed 2000 watts peak envelope power.[1]

• • • • •

[1] This is one proposal under consideration. The Commission is also considering alternatives such as PEP input, average power input, ratios of peak to average power output and limitations on dissipation ratings of final power amplifier devices or a combination of these. Specific comments on the practicality of these proposals, alternate proposals and the practicality of attendant power measuring techniques by amateur stations are requested.

We request comments on the need for rules limiting the use of techniques which increase the average power in A3 single sideband suppressed carrier transmissions, without increasing the peak envelope power. The comments should discuss the various techniques utilized for the purpose in the Amateur Radio Service, the engineering standards that must be observed for good amateur practice when using these techniques, the nature of any unnecessary interference that can be caused by the improper use of these techniques, and the capabilities of amateurs to make measurements necessary to proper usage.

(d) Any transmitter capable of exceeding the power limitations specified herein shall not be operated in the Amateur Radio Service unless there is incorporated adequate measures to insure the limitations will not be exceeded.

[Docket No. RM75-13]

ACCOUNTS AND REPORTS

Construction Work in Progress

DECEMBER 13, 1974.

Amendments to Uniform Systems of Accounts for Public Utilities and Licensees and for Natural Gas Companies (Classes A, B, C and D) and to regulations under the Federal Power Act and the Natural Gas Act, to provide for inclusion of construction work in progress in rate base.

On November 27, 1974, the American Public Power Association filed a motion to extend the time for filing comments to the above-designated rulemaking noticed November 14, 1974. Similar motions were filed by the Power Section, Georgia Municipal Association on November 29, 1974, the North Carolina Electric Membership Corporation on December 4, 1974, and the Edison Electric Institute on December 10, 1974.

Upon consideration, notice is hereby given that the time for filing comments in the above matter is extended to and including March 31, 1975.

KENNETH F. PLUMB,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 231 and 271]

[Release No. 33-5546, IC-8009; File No. S7-507]

SALES LITERATURE FOR INVESTMENT COMPANIES

Proposed Amendments of Statement of Policy; Extension of Comment Period

The Securities and Exchange Commission has received requests for an extension of the due date for comments upon its proposal to amend the Statement of Policy under the Securities Act of 1933. These proposed amendments would permit certain sample charts portraying investment results on a total return basis to be set forth in the sales literature employed in the sale of investment company securities. Notice of the proposed amendments was published on November 4, 1974 in Release Nos. 33-5537 and IC-8571

and in the FEDERAL REGISTER on November 20, 1974, 39 FR 40789.

The Commission desires a prompt determination with respect to adoption of the proposed amendments but has determined that an extension until February 14, 1975, is appropriate and will not result in undue delay.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

1139	Lake Mead, Nev.	AO 274-A2.

A public hearing was held upon proposed amendments to the marketing agreements and the orders regulating the handling of milk in the aforesaid marketing areas. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Rosemont, Illinois, October 8-10, 1974, pursuant to notice thereof issued on September 18, 1974 (39 FR 34295).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Secretary for Marketing and Consumer Services, on November 13, 1974, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein subject to the following changes:

Under Issue No. 1, paragraphs 8 through 13 are revised into paragraphs 8 through 15.

The material issues on the record relate to:

1. Revising the basic formula floor price for Class I pricing purposes during the next few months; and

2. Whether an emergency exists to warrant the omission of a recommended decision.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Class I price level.* No action should be taken at this time to raise the minimum "floor" price for Class I milk in the Federal milk orders.

Presently, Class I prices under all orders are determined by adding a specified differential to a basic formula price, which is the average of prices paid during the second preceding month for manufacturing grade milk in Minnesota and Wisconsin. The basic formula price provisions of the orders specify that for the purpose of computing Class I prices such basic formula price shall be not less than $4.33. (The Red River Valley order does not have a basic formula price provision. Class prices under this order are tied to the Oklahoma Metropolitan order that uses the basic formula price.)

As stated in the hearing notice, the purpose of the hearing was to receive evidence with respect to the economic and emergency marketing conditions that relate to the minimum level of Class I price to be established for the forthcoming fall and winter months under each order. The specific proposal considered was to "amend each of the respective orders to provide immediately for a minimum basic formula price of up to $7.50 and for each of the months through March 1975."

Producer cooperative representatives in all markets testified in support of a basic formula "floor" price of $7.50 for computing Class I prices November 1974 through March 1975. Such witnesses stated that a $7.50 basic formula "floor" price is the minimum amount needed to help maintain an adequate supply of milk this fall and winter because recent large increases in the price of feed and other production items (notably fuel, fertilizer, machinery, electricity, hardware, and supplies) in the face of a drastic drop in milk prices last summer has placed dairy farmers in a severe cost-price squeeze which threatens the continued production of milk.

Milk producers from all regions of the country testified on the cost and returns situation on their farms. They cited rising production costs and the recent decline in the prices received for the milk, cattle, and calves they ship to market, and stated that they could not continue in milk production without significant improvement in the price received for their milk.

Cooperative association and producer witnesses were supported in their request for emergency price action by several members of Congress; state officials; representatives of national, state and local farm organizations; as well as certain proprietary handlers and associations of handlers. Other handler witnesses and a consumer witness gave proponents qualified support in that they do not expect dairy farmers to produce at a loss.

Certain handler witnesses expressed concern that immediate adoption of a $7.50 basic formula "floor" price would force handlers to increase resale prices too rapidly and would result in some loss in fluid milk sales volume. In this regard one handler proposed that any basic formula "floor" price be not more than $7.25 and not be made effective before December 1974. Handlers also expressed their concern that it takes some time to adjust their resale prices and therefore urged that they be afforded 25 days of advance notice of any Class I price increase.

Although the record amply demonstrates that the price decline in the second quarter of 1974 placed dairy farmers in a difficult cost-price situation, the current level of milk production continues to exceed demand, and thus there is no basis for modifying the present Class I price formulas at this time.

Milk and dairy product prices, which declined sharply in the second quarter of this year, have since increased rather

XUM
V 39 N 246 DEC 20 74
XUM

significantly. As indicated in the record, the Minnesota-Wisconsin price increased from the seasonal low of $6.29 per hundredweight in July to $6.69 in September. Official notice was taken in the recommended decision of the Minnesota-Wisconsin price of $6.82 for October. Prices substantially above the July level are expected to prevail through early 1975.

Wholesale prices for butter and cheese likewise strengthened significantly by the time of the hearing. Average prices in September for these products were 6.5 to 7 cents per pound higher than during the summer months when these prices were at a low point this year. It is expected that such prices will remain above the earlier low levels through early 1975.

The decline in milk production experienced for an extended period has slackened. Milk production was up almost 3 percent over a year ago in September, the sharpest increase in almost a decade. This followed production gains during July and August. Monthly milk production is expected to be close to corresponding months of the prior year through early 1975, since dairy farmers are likely to retain their cows and feed supplies of roughage stored for this barn feeding season. Increased milk production in the third quarter accompanied by lower fluid milk sales pushed more milk into manufacturing uses, particularly into butter and nonfat dry milk.

On the demand side, during the first six months of 1974, Class I prices averaged about $2.50 above the prior year and Class I sales were about 5 percent lower for the corresponding period. This sales decline nearly stopped in September 1974 when Class I prices were $1.65 less than what they averaged during the first six months of the year.

The Commodity Credit Corporation has removed over one billion pounds of milk equivalent from the commercial market this year under the price support program. Purchases of nonfat dry milk continue to be sizable during the seasonally low milk production period, and some cheese is still being purchased. CCC inventories of nonfat dry milk are rising at a rapid rate, reaching about 135 million pounds at the end of October; a year ago CCC had no stocks. Commercial stocks of butter, cheese, and nonfat dry milk are at record levels, reflecting in substantial measure the excess of domestic production over domestic consumption.

The 2-month advance announcement of Class I prices under milk orders affords a measure of price assurance from now until action is required to be taken under the price support program. The October Minnesota-Wisconsin price of $6.82 is the basic formula price for computing December Class I prices. As indicated, it is expected that the Minnesota-Wisconsin price will remain near this level into early 1975. Under the circumstances, dairy farmers have reasonable assurance of Class I price levels through the remainder of the period through March 1975.

Further price assurance to dairy farmers is provided under the dairy price support program. The level of support required is that which will attract the production of adequate supplies of milk to meet the nation's needs. The support level for the 1975–76 marketing year must be established by April 1, 1975, and may not be less than 75 percent of parity. Even if the support price is established at the statutory minimum, the level of support will exceed the current level of manufacturing milk prices. Dairy farmers will benefit from this higher level of price assurance.

2. *Need for omitting recommended decision.* This proceeding included the issuance of a recommended decision and the opportunity to file exceptions thereto.

Consideration was given at the hearing to the need for omitting certain customary procedural steps to expedite the effectuation of any pricing amendments that might result from the hearing. For reasons set forth earlier, it was concluded that the orders should not be amended. Thus, no emergency was found that necessitated the omission of a recommended decision and the opportunity for interested parties to file exceptions to the proposed findings and conclusions.

Ruling on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Termination Order

In view of the foregoing, it is hereby determined that the proceeding with respect to proposed amendments to the tentative marketing agreements and to the orders should be and is hereby terminated.

Signed at Washington, D.C., on: December 16, 1974.

Richard L. Feltner,
Assistant Secretary.

Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

[Public Notice 438]

ERIE COUNTY, NEW YORK

Application for Presidential Permit for a Pipeline at Erie County, New York

With reference to Executive Order 11423, the Secretary of State has received an application from the Lakehead Pipe Line Company, Inc., a Delaware Corporation and a wholly-owned subsidiary of Interprovincial Pipe Line Company, a Canadian corporation, for a permit for the construction, connection, operation and maintenance of a pipeline across the U.S.–Canadian boundary at a point on the boundary approximately 535 feet west of Lot 39, Town of Grand Island, Erie County, State of New York.

The pipeline will carry liquid hydrocarbons, and is an integral part of the proposed expansion of that part of the Interprovincial-Lakehead pipeline system between Westover, Ontario and Buffalo, New York.

The applicant has advised that it has applied to the Corps of Engineers for a permit in respect of the proposed crossing of the Niagara River.

Public comments on the application are invited. Anyone wishing to review the application and associated documents may do so in Room 6420, Department of State, Washington, D.C.

For the Secretary of State.

[SEAL] TERRY L. LEITZELL,
Acting Assistant Legal Adviser for Ocean, Environment and Scientific Affairs.

GOVERNMENT ADVISORY COMMITTEE ON INTERNATIONAL BOOK AND LIBRARY PROGRAMS

Notice of Meeting

The Government Advisory Committee on International Book and Library Programs will meet in open session in Room 1406 in the Department of State, 2201 C Street, NW., Washington, D.C. from 9:00 a.m. to 5:00 p.m. on January 16, 1975.

The Committee will re-examine its role and establish priorities for its 1975 program. It will also begin discussions on improving techniques to teach the reading of English to non-native speakers.

For purposes of fulfilling building security requirements, anyone wishing to attend the meeting must advise the Executive Secretary by telephone in advance of the meeting. Telephone: 632-2841.

Dated: December 16, 1974.

CAROL M. OWENS,
Executive Secretary.

Office of the Secretary

PORTABLE ELECTRIC TYPEWRITERS FROM JAPAN

Antidumping; Withholding of Appraisement Notice

Information was received on February 14, 1974, that portable electric typewriters from Japan were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (refered to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the Federal Register of March 20, 1974, on page 10456. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price or exporter's sales price, as applicable (sections 203 and 204 of the Act; 19 U.S.C 162 and 163) of portable electric typewriters from Japan is less, or is likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

STATEMENT OF REASONS

The information currently before the U.S. Customs Service tends to indicate that the probable basis of comparison for fair value purposes will be between purchase price or exporter's sales price, and third country prices of such or similar merchandise.

Purchase price will probably be calculated on the basis of the f.o.b. packed, Japanese port price, with deductions for freight and shipping charges.

Exporter's sales price will probably be calculated on the basis of the resale price in the United States, with deductions for the applicable transportation and insurance costs, selling expenses in the United States, commissions, warranty costs, and brokerage charges.

Third country price will probably be calculated on the basis of both delivered and resale prices in Canada. Deductions from these prices will probably be made for the applicable transportation costs, and various direct and indirect costs incurred in sales of the merchandise.

Using these criteria, there are reasonable grounds to believe or suspect that the purchase price or exporter's sales price, as applicable, will be lower than the adjusted third country price.

Customs officers are being directed to withhold appraisement of portable electric typewriters from Japan in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20229, in time to be received by his office not later than December 30, 1974. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by this office not later than January 20, 1975.

This notice, which is published pursuant to § 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective on December 20, 1974. It shall cease to be effective at the expiration of 6 months from the date of this publication, unless previously revoked.

Dated: December 19, 1974.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[INT DES 74-110]

OUTER CONTINENTAL SHELF OFFSHORE CENTRAL GULF OF MEXICO

Notice of Availability of Draft Environmental Impact Statement and of Public Hearing Regarding Possible Oil and Gas Lease Sale

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental impact statement relating to a possible Outer Continental Shelf general oil and gas lease sale of 594 tracts of submerged lands on the Outer Continental Shelf in the Central Gulf of Mexico.

Single copies of the draft environmental statement can be obtained from the Office of the Manager, Gulf of Mexico Outer Continental Shelf Office, Bureau of Land Management, Suite 3200, The Plaza Tower, 1001 Howard Avenue, New Orleans, Louisiana 70113, and from the Office of Public Affairs, Bureau of Land Management (130), Washington, D.C. 20240.

Copies of the draft environmental statement will also be available for public review in the main libraries in the following cities: New Orleans, Lafayette, and Baton Rouge, Louisiana; and Galveston and Houston, Texas.

Maps of the area of the Central Gulf of Mexico upon which tracts being considered for leasing have been depicted and a listing of these tracts may also be obtained from either the Bureau of Land Management's Gulf of Mexico Outer Continental Shelf Office or the Office of Public Affairs, Bureau of Land Management at the above listed addresses.

In accordance with 43 CFR 3301.4, a public hearing will be held beginning at 9 a.m. on January 21, 1975, in the St. Maxent Room, Downtown Howard Johnson, 330 Loyola, New Orleans, Louisiana 70112, for the purpose of receiving comments and suggestions relating to the possible lease sale. If necessary, the hearing will extend through January 22, 1975.

The hearing will provide the Secretary with additional information from both the public and private sectors to help evaluate fully the potential effects of the possible offering of the 594 tracts on the total environment, aquatic resources, aesthetics, recreation and other resources in the entire area during the exploration, development, and operation phases of the leasing program.

The hearing will also provide the Secretary, under section 102(2)(C) of the National Environmental Policy Act of 1969, with the opportunity to receive additional comments and views of interested State and local agencies.

Interested individuals, representatives of organizations and public officials wishing to testify at the hearing are requested to contact the Manager, Gulf of Mexico Outer Continental Shelf Office, Bureau of Land Management, at the above listed address by 4:15 p.m., e.s.t., January 15, 1975. Written comments from those unable to attend the hearing should be addressed to the Director (Attn: 732), Bureau of Land Management, U.S. Department of the Interior, Washington, D.C. 20240. The Department will accept written testimony and comments on the draft environmental statement until February 12, 1975. This should allow ample time for those unable to testify at the hearing to make their views known and for the submission of supplemental materials by those presenting oral testimony. Time limitations make it necessary to limit the length of oral presentations to ten minutes. An oral statement may be supplemented, however, by a more complete written statement which may be submitted to the hearing officer at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the hearing record. To the extent that time is available after presentation of oral statements by those who have given advance notice, the hearing officer will give others present an opportunity to be heard.

After all testimony and comments have been received and analyzed a final environmental statement will be prepared.

CURT BERKLUND,
Director, Bureau of Land Management.

Approved:

STANLEY D. DOREMUS
Deputy Assistant Secretary of the Interior.

104 Nash Hall
Oregon State University
Corvallis, Oregon 97331

Howard M. Wight, Leader
E. Charles Meslow, Assistant Leader

APPLICATION FOR ENDANGERED WILDLIFE RESEARCH PERMIT

Director, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240.

Attention: Chief, Division of Law Enforcement

Numbering corresponds to 50 CFR Part 13. Section 13.12(a):

(1-3) Oregon Cooperative Wildlife Research Unit, 104 Nash Hall, Oregon State University, Corvallis, Oregon 97331, 503/754-1531.

Howard M. Wight, Leader
E. Charles Meslow, Assistant Leader
Thomas Gavin, Graduate Research Assistant
Field Technicians as required

(4) Activity to be conducted principally on lands of the Columbian White-tailed Deer National Wildlife Refuge. Activities may extend to a lesser degree on any habitat of the species in Oregon and Washington.

(5) 13.12(b) and reference to § 17.23 do not apply because we are not involved with importation of foreign wildlife.

(6) Not applicable.

(7) We hereby certify that we have read and are familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50; and we further certify that the information submitted in this application for a permit is complete and accurate to the best of our knowledge and belief. We understand that any false statement hereon may subject us to the criminal penalties of 18 U.S.C. 1001.

(8) Desired effective date: December 1, 1974.

(9) Application date: October 23, 1974.

(10) Signatures:

Howard M. Wight,
Unit Leader.
E. Charles Meslow,
Assistant Unit Leader.

The following information is of the sort requested in § 17.23(a)(1)-(7), but we are not dealing with imported endangered foreign wildlife.

Numbering corresponds to 50 CFR Part 13. Sec. 17.23 (a):

(1) Columbian White-tailed Deer (*Odocoileus virginianus leucurus*).

We wish to capture and mark up to approximately 30 percent of the estimated 250 deer on the Washington mainland portion of the Columbian White-tailed Deer National Wildlife Refuge. All sex and age groups are involved.

(2) Not applicable.
(3) Research contract attached.
(4-7) Not applicable.

[Amendment No. 1—Contract No. 14-16-0008-752]

JUNE 21, 1974.

OREGON STATE UNIVERSITY,
Corvallis, Oregon 97331

GENTLEMEN: Contract No. 14-16-0008-752, for research studies on the ecology of the Columbian white-tailed deer, along the lower Columbia River in Washington and Oregon, is hereby amended by extending the performance time to June 30, 1976, and by the addition of $7,000 to the contract to cover fiscal year 1975.

This amendment is necessary to carry out the second year's study under the original contract.

All other terms and conditions of the contract remain unchanged.

Please indicate your acceptance of this amendment by signing and returning the original to this office.

Sincerely yours,

LELAND H. BARRINEAU,
Chief, Division of Contracting and General Services (Contracting Officer).

The above amendment and all conditions relating thereto are hereby accepted.

Oregon State University:

Date: July 1, 1974.

CONTRACT—RESEARCH ON ECOLOGY OF THE COLUMBIAN WHITE-TAILED DEER ALONG THE LOWER COLUMBIA RIVER IN WASHINGTON AND OREGON

This contract entered into pursuant to the authority under the Federal Property and Administrative Services Act of 1949 as amended, section 302(c)(5), and the Fish and Wildlife Act of 1956, 70 Stat. 1119, (16 USC-742 d and f), this 4th day of June 1973, between the United States of America, acting through the authorized Contracting Officer of the Bureau of Sport Fisheries and Wildlife, of the Fish and Wildlife Service, Department of the Interior (hereinafter called the Bureau) and the Oregon State University (hereinafter called the Contractor).

Witnesseth: The Parties hereto do mutually agree to the conduct of the work pursuant to the General Provisions attached hereto and made a part hereof as follows:

1. Description of Work: The Contractor will conduct research on the Ecology of the Columbian White-tailed Deer, along the Lower Columbia River in Washington and Oregon, as more particularly set forth in the Contractor's proposal attached hereto and made a part hereof.
2. Cost: $7,000.00.
3. OPE: 10 percent Salaries and Wages.
4. Period of Performance: June 1, 1973, through June 30, 1974. Contract will be renewed for two (2) additional years, provided funds are appropriated.
5. Project Leader: Howard M. Wight, Leader, Oregon Cooperative Wildlife Research Unit, Oregon State University.
6. Equal Employment Opportunity: The attached Form 3-178, entitled Equal Employment Opportunity Clause, is made a part of this contract.

In witness thereof, the Parties hereto have executed this contract as of the day and month and year first above written.

Oregon State University:

By: Wilson H. Foote.
Title: Associate Director, Agri. Exper. Sta.

Contracting Officer Bureau of Sport Fisheries and Wildlife.

A PROPOSED REFUGE MANAGEMENT STUDY OUTLINE; OFFICE OF ENDANGERED SPECIES

TITLE OF STUDY

Ecology of the Columbian White-tailed Deer along the Lower Columbia River in Washington and Oregon, Phase II.

The purpose of this statement is to present information concerning the second phase of the study. It is assumed that the reader will be aware of previous statements concerning the justification for the study.

OBJECTIVES

1. To determine the effect of the experimental pasture management plan to be initiated in spring 1973 on utilization of habitat by the Columbian white-tailed deer on the Washington mainland.

H_0—uniform pattern of utilization of all pastures by white-tailed deer in relation to climatic seasons.

H_0—uniform pattern of utilization of all pastures by white-tailed deer in relation to utilization by cattle.

H_0—uniform pattern of utilization of all pastures by white-tailed deer in relation to cultivation practices and phenology of height of herbaceous vegetation.

TECHNIQUES TO BE USED

Sight observations and pellet group counts.

Enclosures and clip quadrants to estimate production and differential utilization of forage by cattle and deer.

METHODS OF ANALYSIS

Chi-square, linear regression, and correlation.

RELATIONSHIP TO MARSHALL MEMO OF 10-72

Objective 1 will assist in gathering biological information useful in categories and subcategories 1112, 11121, 111211, 111212, 113, 121, 1211, 12111, 12112, 12113, 1213, 12131, 12132, 12133, 12211, 123, 128, 129, 131.

SIGNIFICANCE OF OBJECTIVE TO MANAGEMENT

Knowledge of the relationship of intensity of grazing by cattle to utilization of existing plant communities by white-tailed deer is essential to formulating an effective management plan. The dispersion of the deer on the study area is believed related to the vegetative pattern on the study areas. A grazing plan for cattle has been agreed upon by the Refuge Division and a leasee. This plan provides for differential grazing of cattle in relation to the plant communities represented on the Washington mainland. The differential grazing will permit the examination of the three hypotheses listed under Objective 1.

2. To determine changes in population parameters that reflect changes in density of white-tailed deer on the Island in relation to reduction in grazing pressure.

H_0—the density of whitetailed deer will remain the same.

TECHNIQUES TO BE USED

Diurnal and nocturnal (spotlight) observations that include notation of sex and age distribution, fawn-doe ratios and trends in indices.

Observations of marked and unmarked animals.

Pellet group counts as appropriate.

Analysis of composition of vegetation within communities.

METHODS OF ANALYSIS

Chi-square and qualitative appraisal.

RELATIONSHIP TO MARSHALL MEMO OF 10–72

Objective 2 will assist in gathering biological information useful in categories and subcategories 11, 111, 1112, 11121, 1113, 1114, 121, 1213, 128, 129, and 131.

SIGNIFICANCE OF OBJECTIVE TO MANAGEMENT

The opportunity to allow the population of white-tailed deer on the mainland portion of the Columbian white-tailed deer refuge to expand in numbers appears limited. However, the population on Tenasillahe Island portion of the refuge is sufficiently isolated and sufficiently low in density, to attempt an increase in density. Thus, the Island population may be utilized as an experimental population to determine potential for increase, for trapping and transplating of deer, and application of other techniques that might detract from public enjoyment of the subspecies on the mainland. It is recognized that the Island is not yet under Bureau control, and the timing of the exchange of property to the Bureau is unknown. However, it is essential to have a plan of approach for determining whether a competitive relationship exists between grazing of cattle and the deer. Changes in the rate of increase of the Island population will assist in that determination. The current population level on the Island is approximately 20 animals. This is far below the density of the mainland population. The exploitation of the Island through heavy grazing by the corporation currently controlling the Island may have affected the ability of the Island to sustain a more dense population of white-tailed deer. Therefore, it is important to determine changes in population parameters that may occur following the exchange of land ownership. It is essential that this potential be recognized so that preliminary research may be conducted prior to the exchange of land ownership. Otherwise, the information desired to define the situation prior to the exchange of land ownership would be wanting. It is further recognized that the land transfer may not occur during the period of the research project. If that were the case, the objective would not be activated.

3. To determine the social groupings of the white-tailed deer in relation to various climatic seasons of the year.

Ho_1—no difference between seasons in the sex and age groupings of the white-tailed deer.

Ho_2—no exchange of individuals occurs between social groups in relation to climatic seasons.

TECHNIQUES TO BE USED

Marked and unmarked animals and sight observations.

METHODS OF ANALYSIS

Chi-square and association tables.

RELATIONSHIP TO MARSHALL MEMO OF 10–72

Objective 3 will assist in gathering biological information useful in categories and subcategories 12, 121, 1214, 122, 1221, 12211, 12212, 122121, 122122, 122123, and 123.

SIGNIFICANCE OF OBJECTIVE TO MANAGEMENT

It is essential to detail the social grouping of white-tailed deer as the seasons change. Social changes that may occur during fawning and raising young, during rut, and during winter, need to be quantified. Examination of the social groupings of the deer will allow predictions concerning the maximum probable densities that the population will withstand. There appears to be an increase in the deer numbers on the Washington mainland during the January–February period of the current study. Examination of the social groupings and changes of social groupings will help us to describe this population change. In addition, the information gathered under Objective 3 will be of great value in interpreting reactions of the individuals to changing densities as they may occur. This will be particularly important with the island population if and when it begins to increase. The information gained under this objective will be of value in informing the general public concerning the basic life history and behavior of this subspecies. Persons visiting the Refuge can be presented with ideas concerning specific things to look for in the interactions between individual deer on the Refuge and, thus, heighten their interest in basic biology.

4. To determine the home range of white-tailed deer on the Washington mainland and the Island.

Ho_1—that home range does not differ between sex and age groupings.

Ho_2—that home range does not differ between seasons.

Ho_3—that home range does not differ between animals living on the mainland and on the Island (possibly a density comparison).

Ho_4—that home range remains the same as the cattle are introduced and removed as well as during the duration of stay.

Ho_5—that home range remains unaffected by changes in the number of visitor days to the Washington mainland.

TECHNIQUES TO BE USED

Marked animals and sight observations.

METHODS OF ANALYSIS

Several methods of describing home range will be evaluated. The one providing the most realistic pattern will be chosen as the standard for comparison and testing of the several hypotheses. The repetitiveness of ability to make observations will determine the final choice of techniques.

RELATIONSHIP TO MARSHALL MEMO OF 10–72

Objective 4 will assist in gathering biological information useful in categories and subcategories 12, 121, 1214, 122, 1221, 12211, 12212, 122121, 122122, 122123, and 123.

SIGNIFICANCE OF OBJECTIVE TO MANAGEMENT

The home range of many ungulent species is known to vary with the population density. It is important to know the home range of the individuals within the population during the years of the study in order to relate possible changes in home range to manipulation of vegetation and cattle. Knowledge of home range size is essential to determining where and how techniques designed for habitat improvement can be applied, and to evaluate these techniques when they are applied. Evaluation of home ranges in relation to season will provide information concerning tolerance of individuals during various times of the year. Evaluation of differences in home range size between the mainland and the Island may give us a possible comparison of the relationship of density since the mainland population is greater than the insular population. Evaluation of home range size in relation to the presence or absence of cattle on the area assist in evaluating the inter-relationships between these two species. In addition, the concepts of home range and dispersion may allow us to evaluate the effect of increasing numbers of visitors to the Washington mainland. Animals marked for this phase of the study will be useful for two other phases of the study.

5. To determine movement of white-tailed deer in relation to season, sex, and age.

Ho_1—that there is no differential movement of deer in relation to season.

Ho_2—that there is no differential movement of deer in relation to sex.

Ho_3—that there is no differential movement of deer in relation to age.

TECHNIQUES TO BE USED

Marked animals and sight observations.

METHODS OF ANALYSIS

All movement (significant shift in home range) will be plotted and evaluated in relation to season, sex, and age. Timing and distances of movement will be compared between groupings using appropriate statistical methods.

RELATIONSHIP TO MARSHALL MEMO OF 10–72

Objective 5 will assist in gathering biological information useful in categories and subcategories 1112, 11121, 121, 1214, 122, 123, 125, and 128.

SIGNIFICANCE OF OBJECTIVE TO MANAGEMENT

Information concerning seasonal movements in relation to sex and age, are important in determining how the species might adapt to other areas where introductions might occur. Information on movement will allow determination of the relationship of ingress and egress and how to account for it in any popu-

lation model we devise to assist in management. Marked animals will allow evaluation of the potential of ingress and egress that appears to occur in late winter. Exchange of animals between the Washington and Oregon mainlands and the Island can be quantified.

OTHER DATA TO BE GATHERED

Social behavior in relation to season and density (if possible).

Listing of foods identified as being consumed by white-tailed deer.

Interspecific behavior with any and all species where interaction occurs, (cattle, waterfowl, black-tailed deer, canids, and other carnivores).

Reaction to "disturbance" factors in relation to sex, age, season, (slamming doors, sonic booms, firearms, barking dogs, voices).

BREADTH OF THE RESEARCH

It is recognized that five objectives and fourteen hypotheses are proposed for study during the next phase of the project. The design will provide the opportunity for the observer to gather information useful for testing more than a single hypothesis. Differential techniques for testing each of the hypotheses is not required. The investigator will describe changes in the vegetation, make observations of animals under a systematic scheme, make pellet counts over established transects, and capture and mark animals to provide for individual recognition essential to Objectives 3, 4, and 5. The plant communities have been evaluated, and equipment and facilities will be on hand. I see no reason why a Ph. D. candidate cannot adequately perform the tasks stated in this document.

DATA ANALYSIS AND INTERPRETATION

Analysis of the data will be accomplished on a continuing basis. A graduate research assistant will be responsible for initial accumulation and analysis of the data. Statistical analysis and interpretation will be accomplished with guidance of statistical consultants on the University campus and the principal investigator. The ultimate responsibility for the content and preparation of reports lies with the principal investigator, Dr. Paul A. Vohs, Jr.

COOPERATORS

Refuge Division, Bureau of Sport Fisheries and Wildlife, Region 1
Oregon Cooperative Wildlife Research Unit, Oregon State University
Department of Fisheries and Wildlife, Oregon State University
Oregon State Game Commission
State of Washington Department of Game

RESPONSIBILITY

Supervision of graduate research assistants and temporary assistance in conducting the research project will be the responsibility of the principal investigator. Supervision of the personnel while in residence on the study area and when using refuge facilities and equipment will be the responsibility of the Refuge Division.

The Division of Refuges will provide the study area, boats and motors as needed, adequate on-refuge transportation including an all-terrain vehicle for movement on Tenasillahe Island, and housing on the study area. The Oregon Cooperative Wildlife Research Unit will provide binoculars, spotting scope, rocket net traps, reference library, scales and balances, and other laboratory equipment. The University will provide secretarial assistance, laboratory space, statistical consulting services, library services, veterinary diagnosis, project overhead, and the services of the principal investigator.

TIME TABLE

Personnel. Graduate Research Assistant (Ph. D. candidate) 1 July 1973 to 30 June 1976.

PROJECT OBJECTIVES

1. Continuous from 1 July 1973 to 1 January 1977 with limited data obtained from 15 September 1973 to 15 June 1974.
2. As appropriate as control of Island permits.
3. 15 June 1974–30 June 1976.
4. 15 June 1974–30 June 1976.
5. 15 June 1974–30 June 1976.

PROJECT COSTS

$7,000 annually for fiscal years 1974, 1975, 1976.

Proposed budget, fiscal year 1974:

Graduate stipend (Ph.D. level) 1974	[1] $3,648
Student assistance wages	500
Other payroll expense (10% S&W)	415
Off-Refuge transportation and per diem (assistant and principal investigator)	750
Services and supplies:	
Computer programming and operation	400
Film and film processing	200
Darts, bait, cartridges	300
Supplies	500
Miscellaneous and contingency	287
Total	7,000

[1] These will increase each year according to the following scale: Year 1975—$3,792, Year 1976—$3,886 (Other areas of the budget will be reduced accordingly).

REPORTS

Reports of progress will be made on a quarterly basis and included in the quarterly report of the Oregon Cooperative Wildlife Research Unit. The final report will be due 1 January 1977 and will be comprised of a thesis accepted by the Department of Fisheries and Wildlife, Oregon State University. Additional written material as appropriate to the project will be provided to the Refuge Division. In the event of the absence of a thesis, the principal investigator shall prepare an appropriate report. The Division of Wildlife Refuges will receive three copies of all reports.

PUBLICATIONS

Manuscripts reporting completed work will be submitted to scientific journals as appropriate following review by cooperators.

SUBMITTED BY

Paul A. Vohs, Jr., *Associate Professor of Wildlife Ecology*, Department of Fisheries and Wildlife, Oregon State University.
Date: seventeenth of April, 1973.

APPROVED BY

———— H. Toole, Associate Director, Agricultural Experiment Station, April 26, 1973.

COOPERATORS ENDORSEMENTS

Howard M. Wight, Leader, Oregon Cooperative Wildlife Research Unit April 20, 1973.

Charles E. Warren, Acting Head, Department of Fisheries and Wildlife April 26, 1973.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW, Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before January 20, 1975 will be considered.

Dated: December 16, 1974.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

Office of Hearings and Appeals

[Docket No. M 75-69]

BEAR COAL CO., INC.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861 (c) (1970), Bear Coal Co., Inc., has filed a petition to modify the application of 30 CFR § 75.1405 to its Bear Mine, Somerset, Colorado.

30 CFR § 75.1405 provides:

• • • All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970. • • •

Petitioner's reasons for obtaining a waiver of § 75.1405 may be summarized as follows:

(1) The subject mine cars are small and of early design. As a result, it would be impractical to purchase automatic couplers which the cars could not accommodate.

(2) The cars enter the mine in trips comprised of 18 cars. These trips remain intact

DEC 20 1974 V 39
XUM

and there is no coupling or uncoupling of the cars except between the car linked to the locomotive and the locomotive.

(3) When the cars are brought to the surface, they are dumped individually. During the dumping procedure, the cars are held stationary by brakes and wedges. At no time is coupling or uncoupling accomplished while the car is in motion.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 20, 1975. Such requests or comments must be filed with the Departmental Hearings Branch—OHA, U.S. Department of the Interior, 6432 Federal Building, Salt Lake City, Utah 84138. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

DECEMBER 12, 1974.

[Docket No. M75-71]

LONE MOUNTAIN COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861 (c) (1970), Lone Mountain Coal Company has filed a petition to modify the application of 30 CFR § 77.1605(k) to its No. 1 Mine, Scott County, Tennessee.

30 CFR § 77.1605(k) reads as follows:

• • • Berms or guards shall be provided on the outer bank of elevated roadways. • • •

In support of its petition, Petitioner states:

The modification of the subsection of the Code of Federal Regulations, referred to above, is necessary to the safe and confident operation of Petitioner's mine. Furthermore, the alternate methods hereinafter suggested and specified will at all times guarantee no less than the same measure of safety and protection afforded to the miners, as does the regulation sought to be modified.

The alternate methods of accomplishing the purpose of the regulation sought to be modified are:

1. A daily inspection of all coal-hauling vehicles shall be made and any defects detected shall be corrected before the vehicle is put into service. A record of the inspection and repair on each vehicle shall be kept and maintained by a supervisory employee.
2. All rules of the road (traffic system) shall be posted on the bulletin boards throughout the mine area, and such rules of the road shall be made part of the training and retraining programs.
3. Roadway surfaces shall be kept free of debris, excessive water, snow and ice, and maintained as free as practicable of small ditches (washboard effects).
4. A traffic system shall be put into use requiring that loaded vehicles have the right-of-way on the highwall side of the roads regardless of their direction of travel.
5. Warning signs shall be posted designating curves, steep grades where trucks should shift to a lower gear, and where roadways are reduced to one-lane traffic. Stop signs shall be posted where one road intersects another, giving main haulage road traffic the right-of-way. Signs shall also be posted designating passing points.
6. All equipment operators shall be trained in the use of haulage equipment and the safety of vehicles on haulage roads.
7. All haulage vehicles shall have:
(A) original manufacturers brakes and
(B) emergency (parking) braking systems.
8. Adequate supplies of crushed stone or other suitable materials shall be stored at strategic locations along the haulage roads for use when the road surface becomes slippery.
9. On roads that afford only one traffic lane, a minimum width of 12 feet shall be maintained, with passing points provided at intervals of not more than 1,000 feet.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 20, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

[Docket No. M75-70]

NEW RIVER COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), New River Coal Company has filed a petition to modify the application of 30 CFR § 77.1605(k) to its No. 2 Mine, Scott County, Tennessee.

30 CFR § 77.1605(k) reads as follows:

• • • Berms or guards shall be provided on the outer bank of elevated roadways. • • •

In support of its petition, Petitioner states:

The modification of the subsection of the Code of Federal Regulations, referred to above, is necessary to the safe and confident operation of Petitioner's mine. Furthermore, the alternate methods hereinafter suggested and specified will at all times guarantee no less than the same measure of safety and protection afforded to the miners, as does the regulation sought to be modified.

The alternate methods of accomplishing the purpose of the regulation sought to be modified are:

1. A daily inspection of all coal-hauling vehicles shall be made and any defects detected shall be corrected before the vehicle is put into service. A record of the inspection and repair on each vehicle shall be kept and maintained by a supervisory employee.
2. All rules of the road (traffic system) shall be posted on the bulletin boards throughout the mine area, and such rules of the road shall be made part of the training and retraining programs.
3. Roadway surfaces shall be kept free of debris, excessive water, snow and ice, and maintained as free as practicable of small ditches (washboard effects).
4. A traffic system shall be put into use requiring that loaded vehicles have the right-of-way on the highwall side of the roads regardless of their direction of travel.
5. Warning signs shall be posted designating curves, steep grades where trucks should shift to a lower gear, and where roadways are reduced to one-lane traffic. Stop signs shall be posted where one road intersects another, giving main haulage road traffic the right-of-way. Signs shall also be posted designating passing points.
6. All equipment operators shall be trained in the use of haulage equipment and the safety of vehicles on haulage roads.
7. All haulage vehicles shall have:
(A) original manufacturers brakes and
(B) emergency (parking) braking systems.
8. Adequate supplies of crushed stone or other suitable materials shall be stored at strategic locations along the haulage roads for use when the road surface becomes slippery.
9. On roads that afford only one traffic lane, a minimum width of 12 feet shall be maintained, with passing points provided at intervals of not more than 1,000 feet.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 20, 1975. Such requests or comments must be file dwith the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

[Docket No. M 75-67]

RONCCO COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861 (c) (1970), Roncco Coal Company has filed a petition to modify the application of 30 CFR § 75.313 to its Roncco Mine, Thermopolis, Wyoming.

30 CFR § 75.313 reads in pertinent part:

• • • The Secretary or his authorized representative shall require, as an additional device for detecting concentrations of methane, that a methane monitor, approved as reliable by the Secretary after March 30, 1970, be installed, when available, on any electric face cutting equipment, continuous miner, longwall face equipment, and loading machine. • • •

In support of its petition, Petitioner states:

1. The subject mine is above the water table.
2. No mining is being carried on in virgin coal.
3. There has never been any gas detected in this mine.
4. It would be unreasonable and impractical to mount a methane monitor on the cutting machine.

3. The methane monitor would be exposed to loose particles of coal since the machine is situated near an area which is constantly being blasted.

4. Presently, pillars are being pulled down and Petitioner plans to close down the mine in the coming year.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 20, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

[DFT. DES. 74-108]

PROPOSED MASTER PLAN; GUADALUPE MOUNTAINS NATIONAL PARK, TEXAS

Availability of Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for a proposed Master Plan for Guadalupe Mountains National Park, Texas, and invites written comment by February 3, 1975. Written comment should be addressed to the Superintendent, Guadalupe Mountains National Park, at the address given below.

The draft environmental statement considers the extent and kind of physical development needed to accommodate the types and levels of public use that can be allowed within the widely varying environmental conditions of the park area. Proposed master plan concepts include park operations headquarters, transportation system, management facilities, interpretive facilities, access roads, wilderness-use facilities and land classification.

Copies are available from or for inspection at the following locations:

Correction

In FR Doc. 74-29190, appearing on page 43562, in the issue for Monday, December 16, 1974, the signature "John C. Whitaker, Secretary of the Interior", should be "John C. Whitaker, Acting Secretary of the Interior".

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Designation Number A108]

MISSOURI

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in 16 counties in Missouri. The Secretary has found that this need exists as a result of natural disasters shown on the attached chart which also lists the 16 counties.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Christopher S. Bond that such designation be made.

Applications for Emergency loans must be received by this Department no later than February 6, 1975, for physical losses and September 9, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 13th day of December, 1974.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Soil Conservation Service

BELLE CREEK WATERSHED PROJECT, MINN.

Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973, and § 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Belle Creek Watershed Project, Goodhue County, Minnesota.

Recent environmental studies and consultation of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Harry M. Major, State Conservationist, Soil Conservation Service, USDA, 200 Federal Building, 316 North Robert Street, St. Paul, Minnesota 55101, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection, trout stream improvement and flood prevention. The planned works of improvement include conservation land treatment supplemented by five single purpose floodwater retarding

XUM
V 39 N 246 DEC 20 74
XUM

structures, two grade stabilization structures and two miles of trout stream improvement.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, 200 Federal Building, 316 North Robert Street, St. Paul, Minnesota 55101

No administrative action of implementation of the proposal will be taken until January 6, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

DECEMBER 11, 1974.

CANE CREEK WATERSHED PROJECT, NORTH CAROLINA AND SOUTH CAROLINA

Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Cane Creek Watershed Project, Union County, North Carolina and Lancaster County, South Carolina.

The environmental assessment of this Federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. G. E. Huey, State Conservationist, Soil Conservation Service, USDA, 601 Federal Building, 901 Sumter Street, Columbia, South Carolina 29201, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection, flood prevention, municipal and industrial water supply, and basic recreational facilities. The remaining planned works of improvement include conservation land treatment measures supplemented by five single purpose floodwater retarding structures, two multiple purpose structures for flood prevention and municipal and industrial water supply, and basic recreational facilities.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, 601 Federal Building, 901 Sumter Street, Columbia, South Carolina 29201

No administrative action on implementation of the proposal will be taken until January 6, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

DECEMBER 11, 1974.

[FR Doc.74-29611 Filed 12-19-74;8:45 am]

LEONA RIVER WATERSHED PROJECT, TEX.

Availability of Final Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement for the Leona River Watershed Project, Uvalde County, Texas, USDA-SCS-EIS-WS-(ADM)-74-13(F).

The environmental impact statement concerns a plan for watershed protection and flood prevention. The planned works of improvement provide for conservation land treatment, 4 floodwater retarding structures, and channel work consisting of about 3.5 miles of enlargement to an existing ephemeral stream channel through an urban area.

The final environmental impact statement has been filed with the Council on Environmental Quality.

A limited supply is available at the following location to fill singe copy requests;

Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501

LOWER PINE CREEK WATERSHED PROJECT, CALIF.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1970; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and § 650.7(e) of the Soil Conservation Service Guidelines (39 FR 19651, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Lower Pine Creek Watershed Project, Contra Costa County, California, USDA-SCS-EIS-WS-(ADM)-75-1-(D)-CA.

The environmental impact statement concerns a plan for watershed protection, flood prevention and recreation. The planned works of improvement include water control structures and recreational development. The water control structures involve two earthfill dams connected through a saddle to create a single flood retarding and recreation reservoir. Total area to be occupied by the dams and reservoir is 56 acres. The recreational development planned will occupy 151 acres including the dams and reservoir. Facilities will include provisions for swimming, boating, picnicking and hiking. A park with capacity to handle 3600 visitors daily is planned. Local average annual demand for the recreation development is estimated to be 193,800 visitor days per year.

A limited supply of copies is available at the following location:

Soil Conservation Service, USDA, 2828 Chiles Road, Davis, California 95616

Copies of the draft environmental impact statement have been sent for comment to various federal, state and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action should be addressed to George H. Stone, State Conservationist, Soil Conservation Service, P.O. Box 1019, Davis, California 95616.

Comments must be received on or before February 28, 1975, in order to be considered in the preparation of the final environmental impact statement.

ROCK CREEK WATERSHED PROJECT, OREG.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and § 650.7(e) of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Rock Creek Watershed Project, Gilliam

and Morrow Counties, Oregon, USDA–SCS–EIS–WS–(ADM)–75–2–(D)–OR.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and irrigation. The planned works of improvement will include conservation land treatment measures on 38,200 acres of cropland, 45,000 acres of rangeland, and 15,000 acres of forest land; a multiple-purpose dam and reservoir with 14,430 acre-feet of storage and a surface area of 264 acres. Other structural measures include a check dam and diversion plus a multistage pumping plant and 44,400 feet of pressurized pipeline ranging in size from 10 to 30 inches in diameter with a 36 c.f.s. capacity for the irrigation water distribution system.

A limited supply of copies is available at the following location to fill single copy requests:

(Soil Conservation Service, USDA, 1218 S.W. Washington Street, Portland, Oregon 97205

Copies of the draft environmental impact statement have been sent for comment to various Federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to James W. Mitchell, State Conservationist, Soil Conservation Service, 1218 SW. Washington Street, Portland, Oregon 97205.

Comments must be received on or before February 10, 1975, in order to be considered in the preparation of the final environmental impact statement.

Domestic and International Business Administration

[File No. 23/64; Case No. 250]

GEORG EIGLER

Conditional Restoration of Export Privileges

In the matter of Georg Eigler, Parkstrasse 10, Salzburg, Austria; Respondent.

By order effective August 4, 1958, the above-named respondent was denied U.S. export privileges for the duration of export controls, after having been temporarily denied those privileges on December 17, 1957. In a letter of March 5, 1974, the respondent requested that he be removed from the Table of Denial and Probation Orders. The request was referred to the Hearing Commissioner and was duly considered by him. He has reported that it appears from representations made by the respondent and otherwise from information in possession of the Compliance Division, Office of Export Administration, that conditional restoration of the respondent's export privileges is consistent with the purposes of the export administration program. The Hearing Commissioner has recommended that an order be entered to restore conditionally the export privileges of said respondent and to place him on probation for the duration of export controls.

The undersigned has considered the record herein and concurs with the Hearing Commissioner that conditional restoration of Georg Eigler's export privileges and placing him on probation for the duration of export controls is consistent with the purposes of the U.S. Export Administration Act of 1969, as amended, and the regulations issued thereunder.

Accordingly, it is hereby ordered: That the export privileges of Georg Eigler be and hereby are restored conditionally, and the respondent is placed on probation for the duration of export controls. The conditions of probation are that the respondent: (1) Shall fully comply with all the requirements of the Export Administration Act of 1969, as amended, and all regulations, licenses, and orders issued thereunder; (2) shall on request of the Office of Export Administration, or a representative of the U.S. Government acting on its behalf, promptly and fully disclose the details of respondent's participation in any and all transactions involving U.S.-origin commodities or technical data, including information as to the disposition or intended disposition of those commodities or technical data and on request shall also furnish all records and documents relating to such matters. Further, on request, the respondent shall promptly disclose the names and addresses of his partners, agents, representatives, employees, and other persons associated with him in trade or commerce.

Upon a finding by the Director, Office of Export Administration, or any other official as may be exercising the duties now exercised by the Director, that the respondent has failed to comply with any of the conditions of probation, the Director, or any other official as may be exercising the duties now exercised by the Director, may by supplemental order, with or without prior notice to the respondent, revoke the probation of the respondent and thereby deny him all export privileges for such period as the Director or the other official may deem appropriate. This order shall not preclude the Bureau of East-West Trade from taking further action as may be warranted for any violation.

This order shall become effective immediately and supersedes the denial order issued against the respondent on August 4, 1958, to the extent that the new order is inconsistent therewith.

RAUER H. MEYER,
Director, Office of Export Administration.

Social and Economic Statistics Administration

SURVEY OF RETAIL SALES, PURCHASES, AND INVENTORY

Notice of Determination

In accordance with Title 13, United States Code, sections 181, 224, and 225, and due notice of consideration having been published November 8, 1974 (39 FR 39590) I have determined that certain 1974 annual data for retail trade are needed to provide a sound statistical basis for the formation of policy by various governmental agencies and are also applicable to a variety of public and business needs. This annual survey is a continuation of similar surveys conducted each year since 1951, and makes available on a comparable classification basis, data covering 1974 year-end inventories, annual sales and purchases. These data are not publicly available on a timely basis from nongovernmental or other governmental sources.

Reports will be required only from a selected sample of retail firms in the United States. The sample will provide, with measurable reliability, statistics on the subjects specified above. Reports will be requested from sample stores on the basis of their sales size, selection in census list sample mail panel, and location in census sample areas. A group of the largest firms, in terms of number of retail stores, will be requested to report their sales and number of stores by county; but those firms which are participants in the Bureau's monthly survey will be asked to report in total only.

Report forms will be furnished to the firms covered by the survey and will be due 15 days after receipt. Copies of the forms are available on request to the Director, Bureau of the Census, Washington, D.C. 20233.

I have, therefore, directed that an annual survey be conducted for the purpose of collecting these data.

Dated: December 7, 1974.

VINCENT P. BARABBA,
Director, Bureau of the Census.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control

SAFETY AND OCCUPATIONAL HEALTH STUDY SECTION

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), the Director, Center for Disease Control, announces the meeting dates and other required information for the following National Advisory body of the National Institute for Occupational Safety and Health which is scheduled to assemble during the month of January 1975.

Committee Name	Date/Time/Place	Type of Meeting and/or Contact Person
Safety and Occupational Health Study Section.	Jan. 23 to 24, 1975, 9 a.m., Conference Room G Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. 20852.	Open Jan. 23, 1975, 9 a.m. to 10 a.m. Closed remainder of meeting. Contact Dr. John F. Bester, Parklawn Bldg., 5600 Fishers Lane, Rooms 9-44, Rockville, Md. 20852. Code: 301-443-4452.

Purpose: The committee is charged with the initial review of research, training, demonstration, and fellowship grant applications for Federal assistance in program areas administered by the National Institute for Occupational Safety and Health, and with advising the Institute staff on training and research needs.

Agenda: From 9 a.m. to 10 a.m. on January 23, the Study Section will be open for administrative and staff reports. From 10 a.m. on January 23 through the end of the meeting, the Study Section will be reviewing research and demonstration grant applications and will not be open to the public, in accordance with the determination by the Director, Center for Disease Control, pursuant to the provisions of Public Law 92-463, section 10(d).

Agenda items are subject to change as priorities dictate.

A portion of the meeting is open to the public for observation and participation. A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: December 11, 1974.

WILLIAM C. WATSON, JR.,
Director,
Center for Disease Control.

Office of Education

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION RULES, REGULATIONS AND PROPOSAL COMMITTEE

Meeting

Notice is hereby given pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that the next meeting of the National Advisory Council on Indian Education Rules, Regulation and Proposal Committee will be held on January 4, 1975, 9 am-5 pm and January 5, 1975, 9 am-5 pm at the Newton Sands Motel, 3320 East Van Buren Street, Phoenix, Arizona 85007.

The National Advisory Council on Indian Education is established under section 401 of the Indian Education Act (Pub. L. 92-318, Title IV). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under Section 318 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering Indian Education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other federal laws relating to Indian Education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The proposed agenda includes:

1. Developing procedures for the reading process of Title IV, Part B and C Proposals.
2. Recommendations of Reader Review.
3. Other Committee Business.

This meeting is open to the public. Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Indian Education located at 425 13th St., NW Room 326, Washington, D.C. 20004.

Signed at Washington, D.C. on December 18, 1974.

DWIGHT A. BILLEDEAUX,
Executive Director, National Advisory Council on Indian Education.

[FR Doc.74-29761 Filed 12-19-74;8:45 am]

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION RESEARCH AND PUBLICATIONS COMMITTEE

Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that the next meeting of the National Advisory Council on Indian Education (Research and Publication Committee) will be held on January 3, 1975, 9 a.m.-5 p.m., at the Newton Sands Motel, 3320 East Van Buren Street, Phoenix, Arizona 85007.

The National Advisory Council on Indian Education is established under section 401 of the Indian Education Act (Pub. L. 92-318, Title IV). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the arministration of this title, including policies and procedures governing the approval of State plans under Section 318 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering Indian Education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other federal laws relating to Indian Education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The proposed agenda includes:

1. Preparation for National Advisory Council on Indian Education's Second Annual Report to Congress.
2. Other Committee Business.

This meeting is open to the public. Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Indian Education located at 425 13th St., NW Room 326, Washington, D.C. 20004.

Signed at Washington, D.C. on December 18, 1974.

DWIGHT A. BILLEDEAUX,
Executive Director, National Advisory Council on Indian Education.

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON RIVER BEND STATION, UNITS 1 & 2

Rescheduling of Meeting

The meeting of the Advisory Committee on Reactor Safeguards' Subcommittee on River Bend Station, Units 1 & 2, originally scheduled for December 17, 1974, notice of which was published at 39 FR 41759, December 2, 1974, has been rescheduled for January 6, 1975. The time and place for the meeting remain unchanged from the original notice.

The following additional changes are made concerning the original meeting notice:

(a) Written statements submitted on the agenda item should be postmarked no later than December 30, 1974.

(b) The time set aside for oral statements will be January 6, 1975.

(c) Calls to the Advisory Committee on Reactor Safeguards regarding cancellation or rescheduling should be made by prepaid telephone call on January 3, 1975.

(d) Copies of the transcript of the open portion of the meeting will be available after January 7, 1975.

(e) Copies of the minutes of the meeting will be available after April 7, 1975.

All other aspects of the original notice for the meeting remain unchanged, and the determination made to close specific portions of the meeting is applicable to the rescheduled meeting.

JOE B. LA GRONE,
Acting Advisory Committee, Management Officer.

[Docket Nos. 50-524, 50-525, 50-526, and 50-527]

ALABAMA POWER CO.

Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Environmental Report; Time for Submission of Views on Antitrust Matters

The Alabama Power Company (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed September 27, 1974, for authorization to construct and operate four generating units utilizing four boiling water reactors. The application was tendered on August 16, 1974. Following a preliminary review for completeness, the application (the preliminary safety analysis report and antitrust information) was found to be acceptable for docketing. Docket Nos. 50-524, 50-525, 50-526, and 50-527 have been assigned to the application and they should be referenced in any correspondence relating to the application. The environmental report, which was also tendered on August 16, 1974 and supplemented on October 14, 1974, was accepted for a detailed review on November 15, 1974.

The proposed nuclear facilities, designated by the applicant as the Alan R. Barton Nuclear Plant, Units 1, 2, 3, and 4 are to be located in Chilton and Elmore Counties, Alabama, approximately 15 miles southeast of Clanton, along the west side of the Coosa River. Each unit is designed for initial operation at approximately 3579 megawatts (thermal), with a net electrical output of approximately 1159 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before January 28, 1975. The request should be filed in connection with Docket Nos. 50-524-A, 50-525-A, 50-526-A, and 50-527-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and at the Clanton Public Library, 100 First Avenue, Clanton, Alabama 35045.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, an environmental report dated November 11, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facilities is being made available for public inspection at the aforementioned locations and at the Alabama Development Office, State Office Building, Montgomery, Alabama 36104; Birmingham Regional Planning Commission, 2121 Building, Room 1524, Eighth Avenue North, Birmingham, Alabama 35203; Central Alabama Regional Planning Commission, 210 Washington Building, Montgomery, Alabama 36104.

After the environmental report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 15th day of November 1974.

For the Atomic Energy Commission.

[SEAL] JOHN F. STOLZ,
Chief, Light Water Reactors Project Branch 2-1, Directorate of Licensing.

[FR Doc.74-27691 Filed 11-29-74;8:45 am]

[Docket Nos. 50-514, 50-515]

PORTLAND GENERAL ELECTRIC CO.

Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Environmental Report; Time for Submission of Views on Antitrust Matters

Portland General Electric Company (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed August 6, 1974 for authorization to construct and operate two generating units utilizing two pressurized water reactors. The Environmental Report and Site Suitability Report were tendered on June 7, 1974. Following a preliminary review for completeness, the Environmental Report and Site Suitability Report were, on August 6, 1974, found to be acceptable for docketing. The applicant submitted the PSAR August 6, 1974 and it was found to be acceptable on October 18, 1974. Docket Nos. 50-514 and 50-515 have been assigned to the application and should be referenced in any correspondence relating to the application.

The proposed nuclear facilities, designated by the applicant as the Pebble Springs Nuclear Plant, Units 1 and 2 are located in Gilliam County, Oregon. Each unit is designed for initial operation at 3600 megawatts (thermal), with a net electrical output of 1260 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before February 7, 1975. The request should be filed in connection with Docket Nos. 50-514-A and 50-515-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Arlington Public School, District 3, P.O. Box 10, Arlington, Oregon 97812.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, an environmental report dated June 7, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facility is being made available for public inspection at the aforementioned locations and at the Federal Aid Coordination Section, Local Government Relations Division, Executive Department 301 Public Service Building, Salem, Oregon 97310 and the East Central Oregon Association of Counties, Umatilla County Court House, Pendleton, Oregon 97801.

After the environmental report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER, a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the

availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 22 day of November, 1974.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Light Water Reactors Branch 2-3, Directorate of Licensing.

[FR Doc.74-28371 Filed 12-6-74;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON REGULATORY GUIDES

Meeting

DECEMBER 17, 1974.

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Regulatory Guides will hold a meeting on January 8, 1975 in Room 1046, 1717 H Street, NW, Washington, D.C. This meeting will have both open and closed sessions.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

WEDNESDAY, JANUARY 8, 1975, 9:30 A.M. UNTIL ABOUT 11 A.M.

The Subcommittee will hear presentations from the Regulatory Staff and will hold discussions with this group pertinent to its review of existing seismic requirements in Regulatory Guides 1.26 and 1.29 in regard to individual systems and to discuss changes to Draft 1 of Revision 1 to Regulatory Guide 1.88 on Collection, Storage, and Maintenance of Nuclear Power Plant Quality Assurance Records.

In connection with the above agenda items, the Subcommittee may hold one or more Executive Sessions, not open to the public, at approximately 9 a.m. and 11 a.m. on January 8 to consider matters related to the above review. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee members and internal deliberations for the purpose of formulating recommendations to the ACRS.

After the above portion of the meeting is concluded, the Subcommittee will meet in closed session with the AEC Regulatory Staff and any consultants at about 11:15 a.m. until the close of business to discuss the following working papers:

1. Emergency Plans for Nuclear Power Plants.
2. Instrument Span and Trip Setting.
3. Overhead Crane Handling Systems for Nuclear Power Plants.
4. Effects of Residual Elements on Predicted Radiation Damage.

This portion of the meeting may include Executive Sessions both before and after the closed session with the Regulatory Staff:

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that other closed sessions will be held to discuss and exchange views on working papers which fall within exemption (5) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views and to avoid undue interference with agency or Subcommittee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting concerning existing seismic requirements in Regulatory Guides 1.26 and 1.29 in regard to individual systems and Draft 1 of Revision 1 to Regulatory Guide 1.88 on Collection, Storage, and Maintenance of Nuclear Power Plant Quality Assurance Records, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the above documents may do so by mailing 25 copies thereof, postmarked no later than January 2, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 9:30 a.m. and 10:30 a.m. on January 8, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on January 7, 1975 to the Advisory Committee on Reactor Safeguards (telephone 202-634-1413) between 8:30 a.m. and 5:15 p.m., Eastern Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) A copy of the transcript of the open portion of the meeting will be available for inspection on or after January 9, 1975 at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE, Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(i) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545 after April 8, 1975. Copies may be obtained upon payment of appropriate charges.

ROBERT A. KOHLER,
Acting Advisory Committee Management Officer.

[FR Doc.74-28719 Filed 12-19-74;8:45 am]

[Docket Nos. STN 50-522 and STN 50-523]

PUGET SOUND POWER AND LIGHT CO. ET AL.

Receipt of Application for Construction Permits and Licenses

Notice of receipt of application for construction permits and facility licenses and availability of applicants' environmental report and certain site suitability information; time for submission of views on antitrust matters.

The Puget Sound Power and Light Company, acting for itself and as agent for the Pacific Power and Light Company, The Washington Water Power Company, the Idaho Power Company, and the Washington Public Power Supply System (the applicants), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, have filed an application, which was docketed September 30, 1974, for authorization to construct and operate two generating units utilizing two boiling water reactors. The application was tendered on August 6, 1974. Following a preliminary review for completeness, the application [environmental report and site suitability information required for an authorization to conduct certain on-site work in accordance with 10 CFR § 50.10(e)] was found to be acceptable for docketing. Docket Nos. STN 50-522 and STN 50-523 have been

assigned to the application and they should be referenced in any correspondence relating to the application. The Preliminary Safety Analysis Report, which was tendered on November 27, 1974, is undergoing a preliminary review to determine its acceptability for a detailed review.

The proposed nuclear facilities, designated by the applicants as the Skagit Nuclear Power Project, Units 1 and 2, are to be located in Skagit County, Washington, approximately 5 miles northeast of Sedro Woolley. Each unit is designed for initial operation at approximately 3800 megawatts (thermal), with a net electrical output of approximately 1300 megawatts.

A notice of hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before February 19, 1975. The request should be filed in connection with Docket Nos. STN 50-522-A and STN 50-523-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545, and at the Sedro Woolley Library, 802 Ball Avenue, Sedro Woolley, Washington 98284.

The applicants have filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, an environmental report dated September 18, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facilities is being made available for public inspection at the aforementioned locations and at the Office of the Governor, State Planning and Community Affairs Agency, Olympia, Washington 98504.

After the environmental report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 11th day of December, 1974.

For the Atomic Energy Commission.

JOHN F. STOLZ,
Chief, Light Water Reactors Project Branch 2-1, Directorate of Licensing.

[FR Doc.74-29398 Filed 12-19-74;8:45 am]

[Docket Nos. STN 50-522 and STN 50-523]

PUGET SOUND POWER AND LIGHT CO., ET AL.

Hearing on Application for Construction Permits

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities", Part 51 "Licensing and Regulatory Policy and Procedures for Environmental Protection", and Part 2, "Rules of Practice", notice is hereby given that a hearing will be held before an Atomic Safety and Licensing Board (Board), to consider the application filed under the Act by the Puget Sound Power and Light Company, acting for itself and as agent for the Pacific Power and Light Company, The Washington Water Power Company, Idaho Power Company, and the Washington Public Power Supply System (the applicants), for construction permits for two boiling water nuclear reactors designated as the Skagit Nuclear Power Project, Units 1 and 2 (the facilities), each of which will be designed for operation at 3800 thermal megawatts with a net electrical output of approximately 1300 megawatts. The proposed facilities are to be located 5 miles northeast of Sedro Woolley in Skagit County, Washington.

The hearing, which will be scheduled to begin in the vicinity of the site of the proposed facilities, will be conducted by an Atomic Safety and Licensing Board (Board) which has been designated by the Chairman of the Atomic Safety and Licensing Board Panel, consisting of Dr. Frank F. Hooper, Mr. Gustave A. Linenberger, and Samuel W. Jensch, Esq., Chairman.

Pursuant to 10 CFR § 2.785, an Atomic Safety and Licensing Appeal Board will exercise the authority and the review function which would otherwise be exercised and performed by the Commission. Notice as to the membership of the Appeal Board will be published in the FEDERAL REGISTER at a later date.

Upon completion by the Commission's Regulatory staff of a favorable safety evaluation of the application and an environmental review, and upon receipt of a report by the Advisory Committee on Reactor Safeguards, the Director of Regulation will consider making affirmative findings on Items 1-3, a negative finding on Item 4, and an affirmative finding on Item 5 specified below as a basis for the issuance of construction permits to the applicants. In the event that a separate hearing is held with respect to a Limited Work Authorization, Item 6 below describes the matters for consideration.

ISSUES PURSUANT TO THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

1. Whether in accordance with the provisions of 10 CFR § 50.35(a):

(a) The applicants have described the proposed design of the facilities including, but not limited to, the principal architectural and engineering criteria for the design, and have identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design information as may be required to complete the safety analysis and which can reasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicants and the applicants have identified, and there will be conducted a research and development program reasonably designed to resolve any safety questions associated with such features or components; and

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest date stated in the application for completion of construction of the proposed facilities, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facilities can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the applicants are technically qualified to design and construct the proposed facilities,

3. Whether the applicants are financially qualified to design and construct the proposed facilities; and

4. Whether the issuance of permits for construction of the facilities will be inimical to the common defense and security or to the health and safety of the public.

ISSUE PURSUANT TO NATIONAL ENVIRONMENTAL POLICY ACT OF 1969 (NEPA)

5. Whether, in accordance with the requirements of 10 CFR Part 51, the construction permits should be issued as proposed.

ISSUES PURSUANT TO 10 CFR § 2.761a (LIMITED WORK AUTHORIZATION)

6. Pursuant to 10 CFR § 2.761a, a separate hearing and partial decision by the Board on issues pursuant to NEPA and general site suitability and certain other possible issues may be held and issued prior to and separate from the hearing and decision on other issues. In the event the Board, after the separate hearing, makes favorable findings on such issues, the Director of Regulation may, pursuant to 10 CFR § 50.10(e) authorize the applicants to conduct certain onsite work entirely at their own risk prior to completion of the remainder of the proceeding.

In the event that this proceeding is not a contested proceeding, as defined by

XUM 74 0 DEC 1939 V

10 CFR § 2.4(n), the Board will determine without conducting a de novo evaluation of the application: (1) whether the application and the record of the proceeding contain sufficient information, the review of the application by the Commission's Regulatory staff has been adequate to support the proposed findings to be made by the Director of Regulation on Items 1–4 above, and to support, insofar as the Commission's licensing requirements under the Act are concerned, the issuance of the construction permits proposed by the Director of Regulation; and (2) whether the NEPA review conducted by the Commission's Regulatory staff has been adequate.

In the event that this proceeding becomes a contested proceeding, the Board will consider and initially decide, as issues in this proceeding, Items 1–5 above as a basis for determining whether construction permits should be issued to the applicants.

With respect to the Commission's responsibilities under NEPA, and regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with § 51.52(c) of 10 CFR Part 51: (1) determine whether the requirements of section 102(2)(A), (C), and (D) of NEPA and Part 51 have been complied with in this proceeding; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding for the permits with a view to determining the appropriate action to be taken; and (3) determine after weighing the environmental, economic, technical and other benefits against environmental and other costs, and considering available alternatives whether construction permits should be issued, denied, or appropriately conditioned to protect environmental values.

The Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held within sixty (60) days after the notice of hearing is published or at such other time as the Board deems appropriate, for the purpose of dealing with the matters specified in 10 CFR 2.751a.

The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent to any required special prehearing conference, and within sixty (60) days after discovery has been completed or at such other time as the Board may specify, for the purpose of dealing with the matters specified in 10 CFR 2.752.

The Board will set the time and place for any special prehearing conference, prehearing conference and evidentiary hearing, and the respective notices will be published in the FEDERAL REGISTER.

Any person who does not wish, or is not qualified, to become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may make an oral or written statement on the record. He does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of Items 1–5 above. Limited appearances will be permitted at the time of the hearing at the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission by February 19, 1975. The presiding Atomic Safety and Licensing Board may make further provision with respect to limited appearances subsequently during the course of this proceeding.

Any person whose interest may be affected by the proceeding, who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR 2.714. A petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have all rights of the applicants to participate fully in the conduct of the hearing, such as the examination and cross-examination of witnesses, with respect to their contentions related to the matters at issue in the proceeding.

A petition for leave to intervene must be filed with the Secretary of the Commission and others as specified below by January 20, 1975. A petition for leave to intervene which is not timely will not be granted unless the Board determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Board has considered those factors specified in 10 CFR 2.714(a) (1)–(4) and 2.714(d).

Pursuant to 10 CFR 2.101, the application was filed without the full Preliminary Safety Analysis Report (PSAR) covering the matters in 10 CFR 50.34(a) and 50.34a, but with certain site suitability information required for an authorization to conduct certain on-site work in accordance with 10 CFR 50.10 (e). Under 10 CFR 2.101, the omitted material can be filed by the applicants within six months. The full PSAR, which was tendered on November 27, 1974, is undergoing a preliminary review by the Commission's Regulatory staff to determine its acceptability for a detailed review. In view of this, any person who wishes to participate as a party in this proceeding pursuant to 10 CFR 2.714 need not set forth in any petition for leave to intervene required to be filed by January 20, 1975, any contentions related to matter covered by the PSAR except for contentions related to matter covered by the site suitability information which has already been docketed. A deadline for filing of other contentions related to matter covered by the PSAR will be established by the Board subsequent to the acceptance of the full PSAR for a detailed review. In all other aspects, said petition must meet the requirements of 10 CFR 2.714, namely, setting forth the interest of the petitioner in the proceeding, facts and reasons why intervention should be permitted, and a general statement as to the subject matter in the proceeding as to which intervention is sought.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705, must be filed by the applicants by January 10, 1975.

Papers required to be filed in this proceeding shall be filed by mail or telegram addressed to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Docketing and Service Section, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission. A copy of any petition for intervention should also be sent to the Chief Hearing Counsel, Office of the General Counsel, Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545, and to Mr. Robert Lowenstein, Lowenstein, Newman, Reis and Axelrad, Suite 1214, 1025 Connecticut Avenue, NW., Washington, D.C. 20036, attorney for the applicants.

For further details, see the application for construction permits dated September 18, 1974, and amendments thereto, and the applicants' environmental report dated September 18, 1974, and site suitability information which are available as noted above for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., between the hours of 8:30 a.m. and 5 p.m. on weekdays. Copies of those documents are also available at the Sedro Woolley Library, 802 Ball Avenue, Sedro Woolley, Washington 98284, for inspection by members of the public between the hours of: 2 p.m. and 5 p.m. and 7 p.m. and 9 p.m. on Monday through Thursday; 2 p.m. and

5 p.m. on Friday; and 10 a.m. and 12 p.m. on Saturday. As they become available, copies of the safety evaluation report by the Commission's Directorate of Licensing, the Commission's draft and final environmental statements, the report of the Advisory Committee on Reactor Safeguards (ACRS), the proposed construction permits, the transcripts of the prehearing conferences and of the hearing, and other relevant documents, will also be available at the above locations. Copies of the Directorate of Licensing's Safety Evaluation Report, the Commission's Final Environmental Statement, the proposed construction permits, and the ACRS report may be obtained, when available, by request to the Deputy Director for Reactor Projects, Directorate of Licensing United States Atomic Energy Commission—Regulation, Washington, D.C. 20545.

Dated at Washington, D.C. this 12th day of December.

UNITED STATES ATOMIC ENERGY COMMISSION,
GORDAN M. GRANT,
Assistant Secretary of the Commission.

COMMISSION ON CIVIL RIGHTS

DELAWARE STATE ADVISORY COMMITTEE

Notice and Agenda of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Delaware State Advisory Committee (SAC) to this Commission will convene at 12 noon, on January 10, 1975, YMCA Building, 11th and Washington Streets, Wilmington, Delaware.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Mid-Atlantic Regional Office of the Commission, Room 510, 2120 L Street, NW., Washington, D.C. 20037.

The purpose of this meeting to plan a conference on equal employment opportunity in Wilmington, Delaware, during March 1975.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., December 17, 1974.

ISAIAH T. CRESWELL, Jr.,
Advisory Committee Management Officer.

COUNCIL ON WAGE AND PRICE STABILITY

DIRECTOR OF THE COUNCIL ON WAGE AND PRICE STABILITY

Delegation of Authority

DECEMBER 12, 1974.

Delegation of authority by the Chairman to the Director of the Council on Wage and Price Stability to request data from any Department or Agency of the United States which collects, generates or otherwise prepares or maintains data or information pertaining to the economy.

Pursuant to the authority vested in me as Chairman of the Council on Wage and Price Stability (hereinafter "the Chairman") by the Council on Wage and Price Stability Act (hereinafter "the Act"), Public Law 93-387, it is hereby ordered as follows:

1. The Director of the Council on Wage and Price Stability (hereinafter "the Director") is hereby directed and authorized to exercise all of the authorities vested in the Chairman by section 4(a) of the Act.

2. Significant policy decisions under section 4(a) of the Act shall be made under the general guidance and pursuant to any general policies which might be developed by the Chairman.

3. The Director is authorized to redelegate any or all of the authorities vested in him by this Order.

4. This Order shall be effective immediately.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-32000/157; FRL 307-6]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW, Washington, D.C. 20460.

On or before February 18, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW, Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after February 18, 1975.

APPLICATIONS RECEIVED

EPA File Symbol 496-RNA. Chase Products Co., 19th & Gardner Rd., Broadview IL 60153. SPICE GLYCOLIZED AIR SANITIZER DEODORIZER NO. 2. Active Ingredients: Triethylene Glycol 6.00%; Isopropyl Alcohol 10.00%; Methyl Dodecyl Benzyl Trimethyl Ammonium Chloride 0.008%; Methyl Dodecyl Xylene bis (Trimethyl ammonium chloride) 0.002%; Essential oils 0.29%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 496-RNG. Chase Products Co. MINT GLYCOLIZED AIR SANITIZER DEODORIZER NO. 2. Active Ingredients: Triethylene Glycol 6.00%; Isopropyl Alcohol 10.00%; Methyl Dodecyl Benzyl Trimethyl Ammonium Chloride 0.008%; Methyl Dodecyl Xylene bis (Trimethyl ammonium chlorides) 0.002%; Essential Oils 0.31%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 496-RNU. Chase Products Co. EVERGREEN GLYCOLIZED AIR SANITIZER DEODORIZER. Active Ingredients: Triethylene Glycol 6.00%; Isopropyl Alcohol 10.00%; Methyl Dodecyl Benzyl Trimethyl Ammonium Chloride 0.008%; Methyl Dodecyl Xylene bis (Trimethyl ammonium chloride) 0.002%; Essential Oils 0.24%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 15300-T. Chemical Treatment Co., Hanover Ind. Air Park, 500 Lickinghole Rd., Ashland VA 23005. CHEMICAL TREATMENT COMPANY CL-212. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N-methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34973-R. Down East Chemical Corp., 233 Oxford St., Portland ME 04111. D.E. FOOD PLANT CLEANER, CLEANER-DEODORANT-DISINFECTANT-FUNGICIDE. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 1.6%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 1.6%; Sodium Carbonate 3.0%; Tetrasodium ethylenediamine tetraacetate 1.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 35045-R. Durbal Industries, 247 Oakwood Ave., Staten Island NY 10301. SEA GUARD ANTIFOULING PAINT WITH TEFLON. Active Ingredients: Cuprous Oxide 40.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 6621-LL. Eagle Chem. Co., 2819 W. Lake St., Chicago IL 60612. CLEAN BOWL. Active Ingredients: Hydrogen Chloride 7.5%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 34624-R. Ecometics Inc., 4 Wilton Ave., Norwalk CT 06851. THE AMAZING NEW ECOMETICS FLEA & TICK SHAMPOO & CONDITIONER. Active Ingredients: Pyrethrins 0.045%; Piperonyl Butoxide, Technical 0.090%; N-Octyl bicycloheptenedicarboximide 0.150%; Petroleum Distillate 0.215%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11497-RE. Enviro Chem. Corp., PO Box 29113, Dallas TX 75229. SUPER FOGICIDE CONTROLS MOSQUITOES, FLIES, GNATS. Active Ingredients: Petroleum distillate 93.3%; Piperonyl Butoxide Technical 5.02%; Pyrethrins 0.502%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 13442-A. Environment Engineering, Inc., 1310 Headquarters Dr., Greensboro NC 27405. ENCOR M-28. Active Ingredients: Disodium cyanodithioimidocarbonate 4.2%; Potassium N-methyldithiocarbamate 5.8%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 1598-EGL. FCX, Inc., PO Box 2419, Raleigh NC 27602. FCX TOXAPHENE 8 EMULSIFIABLE INSECTICIDE. Active Ingredients: Toxaphene 71%; Xylene 24%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11529-I. Farris Chem. Co., Inc., PO Box 10126, Knoxville TN 37919. BAF-60. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N-methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 11529-O. Farris Chem. Co., Inc., PO Box 10126, Knoxville TN 37919. BAF-60. Active Ingredients: Disodium cyanodithioimidocarbonate 7.35%; Potassium N-methyldithiocarbamate 10.15%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 824-RN. Givaudan Corp., Sindar Div., 321 W. 44th St., New York NY 10036. GIVAUDAN GIV-GARD BNS 25%-AF. Active Ingredients: B-Bromo-B-nitrostyrene 25%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 32461-G. Jamestown Chem. Co., PO Box 68, Trumbull CT 06611. B-105. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N-methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(d) of interim policy.

EPA File Symbol 4822-RUE. S. C. Johnson & Son, Inc., 1525 Howe St., Racine WI 53403. DEEP WOODS FORMULA OFF! FLY AND MOSQUITO REPELLENT TOWELETTES. Active Ingredients: N,N-Diethyl-meta-toluamide 30.69%; related isomers 1.62%; 2,3:4,5-bis(2-butylene) tetrahydro-2-Furaldehyde 1.08%; N-octyl bicycloheptenedicarboximide 4.31%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 635-ATU. E-Z-Flo Chem. Co., Div. of Kirsto Co., PO Box 808, Lansing MI 48903. E-Z-FLO MANEB 80 W. Active Ingredients: Maneb (Manganese ethylenebisdithiocarbamate) 80.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 10778-U. Metropolitan Refining Co., Inc., 50-23 23rd St., Long Island City NY 11101. VAPORENE L. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N-methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20277; File No. BP-19564 etc.]

BRONCO BROADCASTING COMPANY, INC. ET AL.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing

In the matter of Applications of Bronco Broadcasting Company, Inc., St. Louis, Missouri; Norman Broadcasting Co., (WGNU) (Docket No. 20277; File No. BP-19564), Granite City, Illinois; Curtis L. Mann, Trustee in bankruptcy (KWK) (Docket No. 20278; File No. BP-19648), St. Louis, Missouri; construction permits for Curtis L. Mann, Trustee in bankruptcy (KWK) (Docket No. 20279; File No. BR-4884), St. Louis, Missouri; for renewal of license, Curtis L. Mann, Trustee in bankruptcy (Assignor) Docket No. 20280; File No. BAL-8127), and Doubleday Broadcasting Company, Inc. (Assignee) for Commission consent to assignment of license for radio station KWK, St. Louis, Missouri.

1. The Commission has before it for consideration the above-described applications, two of which have been accepted for filing. Among those which have not been accepted for filing is the application of Norman Broadcasting Company (hereinafter WGNU), licensee of standard broadcast station WGNU, 920 kHz, Granite City, Illinois, which was tendered for filing December 28, 1973, requesting a construction permit to change frequency to 1380 kHz, 5 kW, DA-2, U. The application of Bronco Broadcasting Company, Inc. (Bronco), which has not been accepted for filing, was tendered for filing on June 12, 1974. Bronco requests the facilities formerly authorized to Vic-Way Broadcasting, Inc., bankrupt former licensee of station KWK, St. Louis, Missouri. The question which we must resolve initially in this proceeding is whether either or both of these applications are acceptable for filing. An understanding of the sequence of events preceding the filing of these applications is necessary in placing our decision in this proceeding in proper perspective.

2. Vic-Way Broadcasting, Inc., licensee of station KWK, encountered serious and, as it turned out, fatal financial difficulties in its operation of station KWK and, on September 21, 1973, ceased operations. On October 10, 1973, Mr. Curtis L. Mann was appointed Receiver to take over the assets of Vic-Way, including the facilities of station KWK. On November 5, 1973, the Receiver filed an application (BR-4884) for renewal of the license of station KWK. The "cut-off" date for filing competing applications against this application was January 1, 1974. On December 17, 1973, Vic-Way was adjudicated a bankrupt and Mr. Mann was appointed Trustee in Bankruptcy. On December 28, 1973, the WGNU application was tendered for filing and purported to be mutually exclusive with the KWK application for renewal. In the meantime, however, offers to purchase the assets of station KWK from the bankrupt estate were made by Doubleday Broadcasting Company, Inc., and Bronco. On January 14, 1974, the bankruptcy court issued an order authorizing the Trustee to accept the offer of Doubleday and the following week, on January 21, 1974, the Trustee filed an application (BAL-8077) to assign the license of station KWK from the Receiver to the Trustee. This application was granted on February 26, 1974. In the meantime, however, Bronco, on January 24, 1974, filed a notice of appeal from the bankruptcy court's order authorizing acceptance of Doubleday's offer. On March 26, 1974, the United States District Court for the Eastern District of Missouri, Eastern Division, filed a Memorandum and Order (Vic-Way Broadcasting Company, et al. v Curtis L. Mann, No. 73E-1629), denying Bronco's appeal.

3. Following the District Court's action, an application (BAL-8127) was filed on April 5, 1974, requesting the Commission's consent to the assignment of the license of station KWK from Curtis L. Mann, Trustee, to Doubleday. Three days later, on April 8, 1974, an application was tendered by the Trustee and Doubleday, jointly, requesting modification of the facilities of station KWK.[1] This application, which has not been accepted for filing, requests a change in nighttime transmitter location to Davis Street, 0.8 miles south of the city limits of Carondelet, Illinois, reduction of nighttime power to 1 kW, and equipment changes. This application for modification and the co-pending application for assignment to Doubleday are, admittedly, mutually contingent in that the Trustee indicates that, because he will not operate the station, he does not want a grant of the modification application unless the assignment application is granted; Doubleday indicates that it does not want the assignment unless it can have the modification. The applications are, in substance, "accommodation" applications filed by the Trustee for the benefit of his proposed assignee. With matters in this posture, Bronco tendered an application, on June 12, 1974, requesting the same facilities as those authorized for station KWK. These various events, however, did not escape the filing of opposing pleadings at each step along the way.

4. We treat first with the WGNU application, for it presents fewer difficulties. The WGNU application was tendered for filing on December 28,

[1] See paragraph 18, infra.

1973, specifying the present site of station WGNU, approximately 2½ miles northeast of the site where the KWK facilities had been located,[2] and proposing to change frequency to KWK's frequency (1380 kHz) and to increase power to 5 kW. On February 1, 1974, Doubleday filed a Motion to Dismiss the WGNU application.[3] Basically, Doubleday's attack is bottomed on WGNU's alleged failure to comply with the provisions of § 73.37 of the Commission's rules. It is said that WGNU made no showing that the proposed operation would comply with § 73.37(a) of the rules regarding prohibited overlap with existing stations. In addition, it is alleged that WGNU did not show that its proposal would comply with § 73.37(e) of the rules, which requires that the proposed operation serve 25 percent unserved area, day or night, or that there is no FM channel available for use in the community and that 20 percent of the principal city receives less than two aural services. The failure to make the showing, it is said, renders the WGNU application incomplete and not acceptable for filing under the provisions of § 1.227(b)(6) of the rules. There is no question that WGNU proposes a major change in its facilities. WGNU maintains that the provisions of § 73.37 (a) and (e) are inapplicable to an application which specifies substantially the same facilities as those specified in a co-pending application for renewal, but, in the event that the Commission determines otherwise, requests a waiver of the rule.

5. Unquestionably, there would be a substantial increase in the service area of station WGNU operating as proposed compared to its present service area. There would, however, be no significant difference between the proposed service area and that authorized to station KWK as set forth in the renewal application. With the exception of a difference in site of approximately 2.4 miles, the requested facilities are virtually identical to the KWK facilities proposed in the application for renewal. This being so, there is no requirement that a timely filed application specifying the same facilities as those specified in the application for renewal of the license of an authorized station make any of the showings required by § 73.37 of the rules. To find otherwise would be to require a fruitless and unproductive act on the part of such applicants. Doubleday also alleged, in its petition for dismissal of the WGNU application, that the proposed WGNU predicted 2 mV/m contour would completely encompass the predicted 25 mV/m contour of station KJCF, 1400 kHz, Festus, Missouri. In response to this allegation, WGNU made field intensity measurements from its present (and proposed) site and demonstrated that such overlap would not occur. Doubleday did not pursue the point. The Commission's own computations support the WGNU showing. We hold, on the basis of the foregoing, that WGNU has met those parts of § 73.37 which, under our rules and policies, it was required to meet and that the application is substantially complete, acceptable for filing, and timely filed. We are, therefore, accepting the WGNU application for filing. We further find that the application is mutually exclusive with the application of the Trustee for renewal of the license of station KWK.

6. The time element in connection with the Bronco application is essential in understanding our action with respect to that application. According to information contained in the pleadings, Bronco first manifested an interest in acquiring the facilities of station KWK from the Receiver in October 1973, when its principals contacted counsel for the Receiver. Following the filing of the application[4] (BR–4884) for renewal by the Receiver in November 1973, Bronco, on December 4, 1973, submitted a bid of $750,000 conditioned upon its ability to obtain necessary financing and approval of its board of directors. The offer was to be valid until February 1, 1974. On December 17, 1973, a hearing was held in the bankruptcy court at which Vic-Way was adjudicated a bankrupt and the Receiver was appointed Trustee in Bankruptcy. All interested parties were advised that 10 percent of the offered purchase price must be deposited with the Trustee. Bronco indicated that it would furnish the deposit ($75,000) in ten days. On December 28, 1973, another hearing was held with respect to the Bronco offer and Bronco deposited with the Trustee $15,000 and promised to provide the balance of the deposit before January 2, 1974. Bronco's attorney indicated that, if the balance of the deposit were not provided by that date, the court could proceed without regard to Bronco's offer. This offer was also made contingent on the availability of financing by January 10, 1974, after which Bronco would expect to receive no further consideration if it did not furnish the balance of the purchase price. The date for filing an application mutually exclusive with the renewal application was January 1, 1974, and by that date only the WGNU application had been submitted. By January 10, 1974, the date which Bronco itself had established as the date by which it would consider itself out of contention if the money had not been deposited, Bronco was unable to provide the full amount of deposit, but offered only an additional $20,000. On January 11, 1974, Bronco's deposit ($35,000) was returned to it.

7. On January 14, 1974, the Bankruptcy Court issued an order authorizing the Trustee to accept Doubleday's offer of $660,000. The following week, on January 21, 1974, an application (BAL–8077) was filed by the Receiver seeking the Commission's consent to the involuntary assignment of KWK's license to himself as Trustee. This application was granted February 26, 1974. In the meantime, however, on January 24, 1974, Bronco filed a notice of appeal from the Bankruptcy Court's decision. On January 28, 1974, Bronco submitted an alternative offer of $670,000, subject to Bronco's ability to obtain satisfactory financing. On February 28, 1974, oral argument was held in the United States District Court for the Eastern District of Missouri, Eastern Division, on Bronco's appeal and at that argument, Bronco conceded that it had not yet been able to obtain the necessary financing. On March 26, 1974, the District Court denied Bronco's appeal, noting that Bronco had expressly conditioned its offer on the procurement of the offered amount by January 10, 1974, a condition it did not meet. The March 26 date is critical, for at this time, Bronco knew that it could not acquire KWK's assets by assignment. On April 5, 1974, the application (BAL–8127) for assignment from the Trustee to Doubleday was filed and, three days later, on April 8, 1974, the application for modification of the facilities of KWK was filed jointly by the Trustee and Doubleday.[4] Nothing further of significance transpired until Bronco tendered its application on June 12, 1974. This application was accompanied by a request for waiver of § 1.516(e)(1) of the rules, relating to the time within which a competing application must be on file.[5] The question now is whether Bronco is "cut off" and, if so, whether a waiver is warranted.

8. Bronco argues that the public interest would be served by grant of a waiver because the "cut-off" rule is inapplicable where a Trustee does not propose to operate the station and for this reason he is in a different posture than a regular renewal applicant. Moreover, Bronco argues, orderly processing and action or the renewal application would not be impeded because the Trustee's modification application and the WGNU application have not been accepted for filing and no hearing is under way. In any event, it is said, the renewal application cannot be granted except in conjunction with the assignment application. Finally, Bronco argues that the public interest is an overriding consideration in this case where the Commission may have a choice among a greater number of applicants. Bronco insists that it acted diligently throughout this entire sequence of events.

9. It is true that Commission policy favors a wide choice of qualified applicants, but there are other considerations of equal or transcendent importance. In the first place, despite Bronco's insistence that time is not of the essence, an argument it unsuccessfully urged on the District Court, early resolution of this pro-

---

[2] The Commission understands that at least the six-tower array of station KWK has been dismantled. The state of other equipment is not known.

[3] WGNU filed an opposition thereto on March 1, 1974, Doubleday filed its reply on March 22, 1974.

[4] See paragraph 13, infra.

[5] WGNU filed an opposition to the petition for waiver on June 24, 1974, and Doubleday filed its opposition on July 12, 1974. Bronco replied to both on August 9, 1974.

XUM

ceeding is necessary for the protection of innocent creditors. It is unrealistic to argue that a third applicant in this case would not complicate and prolong the hearing. Standing alone, the interests of the creditors may not be sufficient to preclude acceptance of the Bronco application, but there are other factors. The Commission's cut-off rules have a purpose and are necessary in order to conduct proceedings in an orderly and efficient manner. Prairie Broadcasting Company, 47 FCC 2d 373, 30 RR 2d 613. The cut-off procedures were adopted in order to promote the orderly and timely processing of renewal applications and this requires that there be a date certain, prior to the expiration of the current license term, by which the Commission and the license renewal applicant may be informed as to the filing of mutually exclusive applications. Broadcast License Renewal Applications, 16 FCC 2d 858 (1969). These cut-off procedures are observed in all cases except where unusual and compelling circumstances require otherwise. We have concluded, for the reasons discussed below, that Bronco has not shown the existence of compelling or unusual reasons. We note, at this point, that to accept Bronco's late-filed application would adversely affect the rights of WGNU as well as those of Doubleday and the Trustee because WGNU timely filed and, as of the cut-off date, was entitled to prepare for a contest only with the renewal applicant.

10. The question of whether Bronco was diligent in its pursuit of an authorization for KWK's facilities is dispositive of the acceptability of its application. Assuming, without deciding, that Bronco could not reasonably have been expected to file a competing application while it sought the facilities of KWK by assignment, we start from March 26, 1974, the date the District Court denied Bronco's appeal. At that point, certainly, Bronco knew that, if it were to have a chance at the KWK facilities, it must file a competing application. In fact, it did not do so until nearly three months later. When Doubleday questioned this lapse of nearly three months, Bronco responded:

> Bronco submits that the period between March 26, 1974, and the filing of its application on June 12, 1974, is reasonable and necessary for conducting an ascertainment of community needs survey, and for the preparation of an application for a new broadcast radio station in a large city such as St. Louis.

The facts show that Bronco conducted its ascertainment survey in two parts: The first being a survey of leaders, the second being a survey of the general public. The community leaders survey consisted of participation in the joint effort of a group of St. Louis broadcasters conducted by the St. Louis Broadcasters Association in July 1973. Bronco, along with the other St. Louis broadcasters, employed Media Statistics, Inc. (Mediastat) in June 1973 to conduct the survey of the general public. The latter was completed and a report submitted dated July 12, 1973. It is apparent, therefore, that the ascertainment survey was accomplished nearly one year before Bronco filed its application. Bronco did not attempt to explain its alleged need for an additional three months, nor did it file a supplement indicating that it did more than the Association survey. Its engineering was signed April 29, 1974, and its equipment proposal was dated May 1, 1974. Its letter from Commerce Bank of University City, purporting to be a financial proposal, was dated May 28, 1974. We know that its efforts to obtain financing began long before May 28, 1974. In summary, it is clear that Bronco's survey was complete in July 1973, and its application was complete and could have been filed, at the latest, at the end of May 1974. We think, however, that Bronco was bound to prepare its application long before March 26, 1974.

11. The acceptance of Doubleday's offer, by order of the Bankruptcy Court, on January 14, 1974, was an event which should have alerted Bronco to the likelihood that it could not acquire KWK by assignment. Bronco chose to pursue its appeal, but it did not, at the same time, prepare an application for submission in the event that it did not succeed on appeal. But, "• • • the burden • • • is, and properly should be, upon an interested person to act affirmatively to protect himself." Red River Broadcasting Co. v. Federal Communications Commission, 98 U.S. App. D.C. 1, 98 F 2d. 282, cert. denied, 305 U.S. 625 (1938); Spanish International Broadcasting Company v. Federal Communications Commission, 128 U.S. App. D.C. 93, 385 F 2d. 615, 9 RR 2d 2053. A "hard look" at the bona fides of Bronco's efforts leaves much to be desired. Bronco claims that the public interest requires that the Commission have as wide a choice of qualified applicants as possible, but, while we agree with the proposition, we cannot number Bronco among the qualified. There can be no doubt that the heart of the problem is Bronco's ability to finance its proposal; this failure led to its rejection by the bankruptcy court in the first place. Bronco's financial proposal is totally unacceptable, even at this late date. It consists of a letter from Commerce Bank of University City stating:

> As you know, we are considering a $400,000 line of credit to this Company. We are impressed by the quality and abilities of the Investor Group and wish to investigate this situation further.

The final paragraph states:

> We appreciate your cooperation in this matter and should be in a position to give to you the results of our loan committee decision in three or four weeks.

This is a letter, dated May 28, 1974, to Bronco's attorneys. Nothing further from the bank has been filed. Certainly, this is far from a commitment to lend funds. Bronco did submit further amendments to its financial proposal consisting of changes in stockholdings and guarantees by these stockholders of the amount of any bank loan. These were dated prior to the letter from the bank, yet nothing was filed to indicate either that these guarantors were financially qualified to meet their commitments, nor that such commitments were acceptable to the bank. We do not here pass upon Bronco's financial qualifications, but where a prospective applicant urges on us the existence of unusual and compelling circumstances warranting a waiver of our cut-off rules and acceptance of its application, we think that a far greater degree of perfection is required. Bronco, after all, asks for a waiver of a rule and the principle is well established that the burden of justifying a waiver is on the party requesting the waiver. United States v. Storer Broadcasting Company, 351 U.S. 192, 76 S. Ct. 763, 13 RR 2151. It is hardly arguable, moreover, that a question of candor is raised by Bronco's assertion that additional time was needed to make a community survey. We are simply unable to discern any justification for Bronco's failure to file a timely application. We are also acutely aware of the danger to our procedures which a waiver under these circumstances would represent. It could well destroy the value of the cut-off rules and would undoubtably constitute an invitation to numerous requests for similar waivers. Where, as here, we can find no justification for the delay in filing, we would be hard pressed to distinguish this case from others which must inevitably follow.

12. For the reasons stated, we will deny Bronco's request for waiver and return its application. At the same time, we are accepting the WGNU application and the Trustee's application for modification. We will simultaneously designate all of the pending applications for hearing in a consolidated proceeding. The pendency of mutually contingent applications for assignment and modification is not unusual and, because they are realistically "accommodation" applications, they are often routinely granted; e.g. KTRB Broadcasting, Inc., 48 FCC 2d 635, 31 RR 2d 306.

13. As mentioned in paragraph 3, supra, an application for modification of the facilities of KWK was filed jointly by the Trustee in Bankruptcy and Doubleday. Since Doubleday has no present interest in the facilities of station KWK and has nothing which could be modified, we are accepting this application as an application filed by the Trustee in Bankruptcy. We have before us, then, the above-captioned application of WGNU for a construction permit to make changes in the facilities of station WGNU, the application of the Trustee in Bankruptcy for modification of the facilities of station KWK, the application of the Trustee for renewal of the license of station KWK, and the application for assignment. The question arises as to what proposals are to be compared in this proceeding. It is obviously unrealistic to compare the WGNU proposal with the Trustee's application for renewal for, as we have pointed out, the Trustee has no intention of operating the station, either as presently licensed or as proposed. In fact, WGNU will be competing against the application of the Trustee for operation of sta-

tion KWK as it is proposed to modify that operation. The comparison will, therefore, be between the WGNU proposal and the application for renewal taken in conjunction with the applications for assignment and modification of KWK. Doubleday will, of course be made a party to the proceeding. The applications for renewal, modification, and assignment must stand or fall together. Doubleday is involved in pending antitrust litigation. In the event of grant of the renewal, modification and assignment applications, therefore, the authorization will be subject to an appropriate condition.

14. The Trustee in Bankruptcy proposes to serve St. Louis, Missouri, and Norman Broadcasting Co. proposes to serve Granite City, Illinois. It is apparent, therefore, that a determination must be made as to whether a decision in this matter will be based upon the criteria set forth in section 307(b) of the Communications Act of 1934, as amended, with respect to a fair, efficient and equitable distribution of radio service. Accordingly, appropriate issues are being specified. Since the proposals contemplate service of substantial areas in common, if a choice cannot be made between them on the basis of the criteria of section 307(b), it will be necessary to determine, on a comparative basis, which of the applicants is better qualified. A contingent comparative issue is, therefore, being specified. Because there is a significant disparity in the areas and populations to be served by the proposed nighttime operations, the data adduced with respect to the areas and populations to be served nighttime will be relevant to a determination on a comparative basis if this is the basis upon which the choice between the applicants is to be made.

15. We find that the applicants are qualified to construct, own and operate as proposed. Because the applications are mutually exclusive, the Commission is unable to make the statutory finding that a grant of the applications would serve the public interest, convenience and necessity, and is of the opinion that the applications must be designated for hearing in a consolidated proceeding on the issues set forth below.

Accordingly, for the reasons stated, *It is ordered*, That the request of Bronco Broadcasting Company, Inc., for waiver of § 1.516(e)(1) of the Commission's rules is denied, and its application is returned as unacceptable for filing; the above-described application of Norman Broadcasting Co. is accepted for filing, and the above-described application of Curtis L. Mann, Trustee in Bankruptcy, for modification of the facilities of station KWK, is accepted for filing.

It is further ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications of Norman Broadcasting Co. and Curtis L. Mann, Trustee, for construction permits; of Curtis L. Mann, Trustee, for renewal of license; and of Curtis L. Mann, Trustee, for assignment of license to Doubleday Broadcasting Company, Inc., are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operations and the availability of other primary aural (1 mV/m or greater in the case of FM) service to such areas and populations.

2. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service.

3. To determine, in the event that it is concluded that a choice between the applicants should not be based solely upon considerations relating to section 307(b), which of the proposals would better serve the public interest.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

It is further ordered, That Doubleday Broadcasting Company, Inc., is made a party to this proceeding.

It is further ordered, That, in the event of grant of the applications of the Trustee in Bankruptcy for renewal, modification and assignment, the authorization issued pursuant to the grants will be subject to the following condition:

This grant is subject to the condition that it is without prejudice to whatever action, if any, the Commission may deem appropriate as the result of final action in the civil antitrust actions now pending in which either Doubleday Broadcasting Company, Inc., or its parent corporation, is a party, and subject also to the condition that the Commission shall be notified immediately of the final disposition of each of the cases.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rules, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

By the Commission Commissioner Hooks dissenting; Commissioner Quello absent.

Adopted: December 4, 1974.

Released: December 16, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-29696 Filed 12-19-74;8:45 am]

[Docket Nos. 19892, 19894; File Nos. BPH-8240, BPH-8327; FCC 74R-441]

GREAT SOUTHWEST MEDIA CORP. AND ARKADELPHIA BROADCASTING CO.

Memorandum Opinion and Order Enlarging Issues

In the matter of applications of Great Southwest Media Corp., Arkadelphia, Arkansas (Docket No. 19892; File No. BPH-8240) and Arkadelphia Broadcasting Co. Arkadelphia, Arkansas (Docket No. 19894; File No. BPH-8327) for construction permits.

1. Before the Review Board is a motion to enlarge issues, filed August 27, 1974, and a motion to reopen record, filed October 4, 1974, by Arkadelphia Broadcasting Company (Arkadelphia), requesting the addition of § 1.65 and/or § 1.514 and misrepresentation issues against Great Southwest Media Corporation (Southwest).[1]

2. In support of its requests, Arkadelphia alleges that on February 19, 1974, the Secretary of State of Arkansas revoked Southwest's corporate charter because of Southwest's failure to pay its required state franchise tax.[2] As a consequence, movant avers, since Southwest has lost its corporate charter, it no longer has the necessary legal status to further prosecute the instant application.[3] In addition, petitioner asserts that Southwest, in violation of the Commission's disclosure rules, failed to inform the Commission of either the loss of its state charter or that the control of its FM application has been transfered to an unincorporated association of individuals. In light of the above, Arkadelphia requests the addition of legal qualifications and § 1.65 and/or § 1.514 issues against Southwest. Arkadelphia also alleges that Southwest, in contravention of § 1.65 and/or § 1.514, failed to notify the Commission that on March 21, 1974, the City of Gurdon, Arkansas, granted Southwest a franchise for the establishment of a cable television system in Gurdon, and also that Southwest, on February 25, 1974, paid $500 to the City of Gurdon as binding consideration for the issuance of

[1] Also before the Review Board for consideration are: (a) The Broadcast Bureau's comments, filed September 11, 1974; (b) opposition, filed September 20, 1974, by Southwest; and (c) reply, filed October 2, 1974, by Arkadelphia.

[2] To support this allegation, Arkadelphia submits the affidavit of John M. Riggle, a principal of Arkadelphia, and a certificate from the Arkansas Secretary of State which reveals that Southwest's charter was revoked by Governor's Proclamation on February 19, 1974, under Act 304 of 1953, for non-payment of franchise taxes and had not been reinstated as of July 25, 1974.

[3] Petitioner, in support, attaches an affidavit by Mr. Jack Files, an attorney for Arkadelphia, in which Files states that in his legal opinion, Southwest is not a legal entity or a corporate body and "is not authorized to do business, hold property, or to act in any legal way in the State of Arkansas."

the franchise.[6] Moreover, Arkadelphia argues that Southwest's failure to disclose to the Commission the franchise award and the $500 payment is inconsistent with Southwest's pledge to keep the Commission informed of all its business transactions, and requires the addition of a misrepresentation issue against the applicant.[8]

3. Opposing enlargement, Southwest asserts that on August 29, 1974, the Secretary of State of Arkansas restored Southwest's corporate charter.[9] Consequently, the applicant maintains that its reinstatement moots any possible question regarding its legal capacity to prosecute its application. Turning to the corporate charter—§ 1.65 issue, Southwest submits an affidavit from Wayne Duncan, its President, who states that neither he nor any other Southwest stockholder had received notice of the franchise tax due or of the charter revocation until August 27, 1974, when Duncan read the instant motion during the hearing.[7] Moreover, Southwest states that immediately upon learning of the revocation, it took the steps necessary to have its charter restored. Therefore, Southwest claims, it had no intention of withholding pertinent information from the Commission, and urges the Board to deny Arkadelphia's § 1.65 and § 1.514 requests. With regard to the CATV franchise question, Southwest contends that, contrary to petitioner's assertions, the franchise awarded by the City of Gurdon does not obligate Southwest to construct the cable television system, but merely grants the applicant an option to establish the system. Accordingly, Southwest argues that it does not have a binding commitment with Gurdon to construct the CATV system and, thus, is under no obligation to report the award and payment to the Commission, either under § 1.65, § 1.514, or pursuant to Southwest's prior representations (see footnote 5, supra). In light of the foregoing, Southwest requests that the misrepresentation and failure to disclose issues be denied.

4. The Review Board will add a § 1.65 issue against Southwest for its failure to inform the Commission of the award of the CATV franchise and will deny the motion in all other respects. As noted in its petition to reopen record, the record in this proceeding was closed on August 27, 1974, the day on which the instant pleading was filed. A decision to reopen the record is an action that we are ordinarily reluctant to take in light of the "doctrine of administrative finality and the important public policy of orderliness, expedition and finality in the adjudicating process." Athens Broadcasting Co., 27 FCC 2d 374, 25 RR 2d 483 (1972). However, the doctrine of administrative finality is not a bar to a reopening of the record where the need for further hearing to make reasonably certain that the prospective licensee will operate the facility responsibly and in the public interest outweighs the need for finality. See DuPage County Broadcasting, Inc., 23 FCC 2d 22, 19 RR 2d 568 (1970). Here, the Board is of the view that Southwest's failure to inform the Commission of both the awarding of the CATV franchise and the $500 payment could be such a serious violation of § 1.65 as to cast doubt upon its qualifications to be a broadcast licensee. In this regard, we note that the CATV franchise could have a substantial impact on the comparative criterion of diversification of mass media, and that the Commission has clearly held that a CATV franchise is an interest which must be reported under § 1.65 of the rules. See Media, Inc., 22 FCC 2d 875, 18 RR 2d 1175 (1970), and TV Signal Company of Aberdeen, 23 FCC 2d 603, 19 RR 2d 298 (1970). Moreover, Southwest had previously conceded to the Commission that it had a CATV proposal pending before the Gurdon City Council and also pledged to inform the Commission of all its business transactions, including any new developments as to the Gurdon CATV franchise—a pledge Southwest has apparently breached.[9] Accordingly, a § 1.65 issue will be added.[9]

As to the remaining allegations, the Board is of the opinion that they are not sufficient to warrant a reopening of the record. Thus, it is clear that the reinstatement of Southwest's corporate charter "seemingly moots any question concerning its prospective corporate activity in prosecuting its application," Intercast, Inc., 43 FCC 2d 658, 28 RR 2d 367 (1973), and consequently a legal qualifications issue will not be added. In addition, although § 1.65 required the disclosure of the revocation of Southwest's corporate charter,[10] we have no reason to doubt the veracity of Southwest in asserting that it did not receive notification of a required tax payment or the revocation of the corporate charter; therefore, it could not be expected to report this information. Cf. RKO General, Inc. (WOR–TV), 47 FCC 2d 939, 30 RR 2d 1355 (1974).

5. Accordingly, *It is ordered*, That the motion to enlarge issues, filed August 27, 1974, and the petition to reopen record, filed October 4, 1974, by Arkadelphia Broadcasting Company, are granted to the extent herein indicated, and are denied in all other respects; and

6. *It is further ordered*, That the record herein is reopened and the issues are enlarged by the addition of the following issue:

To determine whether Great Southwest Media Corporation failed to amend its application as required by § 1.65 of the Commission's rules and, if so, to determine the effect thereof upon the applicant's basic and/or comparative qualifications to be a Commission licensee.

7. *It is further ordered*, That the burden of proceeding with the introduction of evidence under the issue added herein shall be upon Arkadelphia Broadcasting Company, and the burden of proof thereunder shall be upon Great Southwest Media Corporation.

Adopted: December 4, 1974.

Released: December 16, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[11]

[SEAL] VINCENT J. MULLINS, *Secretary.*

[FR Doc.74-29697 Filed 12-19-74;8:45 am]

[Docket Nos. 20010, 20011; File Nos. BRCT-10; 4540; FCC 74R-444]

CBS, INC. AND FIRST DELAWARE VALLEY CITIZENS TELEVISION, INC.

Applications for Renewal of Broadcast License and Construction Permit

1. This proceeding involves the mutually exclusive applications of CBS, Inc. (WCAU–TV) (CBS) for renewal of broadcast license and First Delaware

---

[6] In support, movant attaches the affidavits of Riggle (see footnote 2, supra), and Dick Jackson, Mayor of Gurdon. Jackson, in his sworn statement, declares that prior to the franchise award and the $500 payment by Southwest, a written presentation was made before the Gurdon City Council by representatives of Southwest (including its President, Wayne Duncan), on December 11, 1973, in their attempt to obtain a CATV franchise.

[8] According to petitioner, Southwest, in response to an earlier motion to enlarge filed by Arkadelphia on January 4, 1974, conceded to the Commission that it had a CATV franchise proposal pending before the City Council of Gurdon, but, that it had not reported the proposal to the Commission. Moreover, petitioner asserts, Southwest specifically pledged to keep the Commission informed of all of its business interests, and this pledge was noted by the Review Board in its Memorandum Opinion and Order, 46 FCC 2d 1142, 30 RR 2d 378 (1974). It is movant's position that the failure of the applicant to report the franchise award and the $500 payment demonstrates that its prior representations were false.

[9] Southwest attaches to its pleading a copy of a certificate from the Secretary of State of Arkansas indicating that as of August 29, 1974, Southwest's corporate charter had been reinstated.

[7] Southwest also submits an affidavit from B. W. Sanders, its attorney, in which the affiant states that the applicant never received the required notification of the tax due and the charter revocation, due to a failure of the State's Franchise Tax Division to follow its normal procedures.

[9] In this connection, we note that Southwest's obligation to report developments in its attempts to acquire a CATV franchise arises regardless of whether or not the applicant is contractually bound to construct the system.

[9] With respect to the requested misrepresentation issue sought concerning Southwest's alleged failure to abide by its earlier representations to the Commission regarding the reporting of its business transactions, the Board notes that an inquiry into the § 1.65 allegation may encompass an examination of Southwest's possible intent in withholding the information, thereby rendering a separate misrepresentation issue unnecessary.

[10] The Board notes that according to the information now before it, the non-payment of the franchise tax and the revocation of Southwest's corporate charter both occurred subsequent to the filing of Southwest's application and therefore § 1.514 is inapplicable.

[11] Concurring statement of Board Member Kessler filed as part of the original document.

Valley Citizens Television, Inc. (First Delaware) for authority to construct a new television broadcast station at Philadelphia, Pennsylvania. Presently before the Review Board are two motions to enlarge issues, filed May 16 and July 9, 1974, by CBS, requesting addition of numerous issues against First Delaware.[1]

SUBURBAN ISSUE

2. In support of its request for a Suburban issue, CBS first states that it contacted 102 of the 788 persons listed in First Delaware's community leader survey, and that of this group 11 have sworn that to the best of their recollection they have had no contact with First Delaware representatives and 13 have sworn that to the best of their recollection, while they may have had contact with a First Delaware representative, they were not asked for and did not give their views on the comunity's needs, interests or problems.[2] With respect to this latter contention, CBS also asserts that the manner in which First Delaware conducted its community leader interviews distorted the survey's results; thus, CBS refers to 19 affidavits of community leaders contacted by First Delaware, which, in CBS's opinion, demonstrate that First Delaware asked questions primarily designed to elicit views about the adequacy of local television service (including that of WCAU-TV), rather than the community's needs and interests. CBS argues that evidence of distortion in the survey results is revealed by the fact that "mass media" is the fifth ranked problem in First Delaware's community leader survey, but that, in contrast, its general public survey produced no adverse comments about the media, whatsoever. In this regard, CBS also urges that First Delaware sought to mislead the Commission as to the reason for the frequency of community leader comments regarding the media by stating that such frequency was due to the interviewer's identification with the proposed new broadcast facility. Finally, CBS contends that its contacts with 102 of the community leaders listed by First Delaware reveal several other Primer[3] violations; specifically, petitioner alleges that four leaders' views were obtained by written questionnaries rather than personal contact, that at least six of the leaders contacted by First Delaware were not informed of the nature or purpose of the group making the contact and that three leaders discussed their views with a secretary, rather than principals or prospective management-level employees. Relevant supporting affidavits are submitted. In sum, CBS urges that all of the above requires addition of Suburban and misrepresentation issues, citing Belo Broadcasting Corporation 42 FCC 2d 1011, 28 RR 2d 732 (1973), reconsideration granted on other grounds, 44 FCC 2d 707, 29 RR 2d 323 (1974).

3. As an initial matter, First Delaware states that all community leaders it listed as being contacted were interviewed in order to ascertain the needs and interests of the community. In support of these assurances, First Delaware supplies affidavits from principals who conducted the interviews in question, avering that the interviews had taken place, that they had subsequently recontacted the interviewees wherever possible, and describing the results of the recontacts.[4] Also supplied by First Delaware are a number of memoranda taken by its principals during the initial interviews, including descriptions of the interviewees' comments, as well as curative affidavits from five of the CBS affiants who, upon being recontacted by First Delaware, now recall the interview. In any event, First Delaware argues that the affidavits submitted by CBS do not support its allegations; rather, contends opposer, these affidavits are more properly characterized as equivocal, since they employ such terms as "to the best of my recollection", "I do not remember", "I do not recall", etc., when referring to the contact by First Delaware; and, moreover, in view of the substantial lapse of time since the contacts were made (one to two years), it is not surprising that memories have dimmed. As to the alleged "distortion" of the survey, First Delaware maintains that its principals did, in fact, fully identify themselves,[5] but submits that even if they had not, the ascertainment involved would not have been inconsistent with the Primer's injunction because the pertinent issue is whether the community leaders were interviewed. Moreover, argues First Delaware, although explaining the purpose of the interview often prompted comments about local programming, such discussion was discounted unless it was specifically raised by the interviewee. As to the other alleged deficiencies, First Delaware points to the affidavits from its principals avering that each interview was conducted by them either in person or by telephone[6] and contends that any indication of support for CBS' allegations is due to the faulty memory of the interviewees. Finally, concludes First Delaware, even assuming, arguendo, that the 35 community leaders in question were to be totally discounted, CBS has not presented sufficient evidence to warrant addition of a Suburban issue, citing Radio Dinuba Co., 36 FCC 2d 573, 25 RR 2d 1190 (1972). The Broadcast Bureau agrees with First Delaware that the affidavits supplied by CBS do not adequately demonstrate either that the community leaders were not interviewed or that the questions posed by First Delaware distorted the survey's results. The Bureau also considers any other shortcomings alleged by CBS to be de minimis.

4. In reply, CBS asserts that First Delaware has unfairly characterized the averments of the CBS affiants since six of them have stated positively that they were not contacted or were not asked their views on community problems. Moreover, petitioner continues, even though First Delaware has recontacted many of the affiants to "aid their recollection",[7] most have refused to retract their earlier averments. However, CBS contends even allowing for First Delaware's contentions in this regard, the Commission has held that affidavits of persons who do not recall being interviewed are sufficient to raise a misrepresentation issue, citing, inter alia, RKO General, Inc. (WOR-TV), 47 FCC 2d 827, 30RR 2d 1155 (1974); and Itawamba County Broadcasting Co., 46 FCC 2d 60, 29 RR 2d 1154 (1974). Furthermore, urges CBS, where, as here, the number of controverting affiants is significant, the Commission has rejected the argument that the passage of time provides an excuse for the failure to recall the contact. CBS also argues that the affidavits of the First Delaware principals cannot defeat addition of appropriate issues because, to the extent that they contradict the CBS affiants, they simply

---

[1] Also before the Board are the following related pleadings: (a) opposition to May 16, 1974, motion to enlarge, filed July 11, 1974, by First Delaware; (b) Broadcast Bureau's comments on May 16, 1974, motion to enlarge; (c) errata to (a), filed July 15, 1974, by First Delaware; (d) Broadcast Bureau's comments on July 9, 1974, motion to enlarge; (e) opposition to July 9, 1974, motion to enlarge, filed July 24, 1974, by First Delaware; (f) reply to (a), filed July 31, 1974, by CBS; (g) reply to (e), filed August 5, 1974, by CBS; (h) errata to (f), filed August 7, 1974, by CBS; (i) petition for leave to file a supplement and supplement to the first motion of CBS, filed September 19, 1974, by CBS; (j) comments to (i), filed September 24, 1974, by First Delaware; (k) comments to (i), filed September 26, 1974, by the Broadcast Bureau; (l) petition for leave to file reply and reply, filed October 8, 1974, by CBS; (m) petition for leave to file second supplement to motion to enlarge and supplement thereto, filed October 24, 1974, by CBS; (n) opposition to (m), filed November 5, 1974, by First Delaware; and (o) comments on (m), filed November 5, 1974, by First Delaware.

[2] CBS attaches the affidavits of these interviewees to its petition and also asserts that 11 other leaders listed by First Delaware indicated that they were not contacted but declined to execute affidavits.

[3] Primer on Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650, 21 RR 2d 1507 (1971) (hereinafter the Primer).

[4] In most cases of recontact, the principals aver that the interviewees were simply not certain as to whether the previous contact occurred, rather than adamant that it had not; however, most declined to sign further affidavits.

[5] In support, First Delaware supplies copies of the form used in conducting the interviews.

[6] In support of its position that telephone contacts are permissible, First Delaware cites Lexington County Broadcasters, Inc., 40 FCC 2d 694, 27 RR 2d 416 (1973), rev. den. FCC 73-1295; and California Stereo, Inc., 39 FCC 2d 401, 26 RR 2d 887 (1973).

[7] In this regard, CBS submits a further affidavit from one of its affiants averring that the First Delaware principal who contacted him used "highly questionable techniques" in an effort to force him to change his position. CBS also believes this casts doubt on the reliability of other modifications obtained by First Delaware.

raise a factual question and, to the extent that they discuss statements of the CBS affiants, they are hearsay. CBS next contends that First Delaware has failed to refute CBS's allegations that the primary focus of First Delaware's community leader survey was local television service rather than the community's needs and interests. As to the other alleged deficiencies, CBS argues that the only rebuttal supplied by First Delaware is, in the main, composed of self-serving affidavits from its own principals, rather than rehabilitating statements from those CBS affiants who reported the deficiencies.

5. The Review Board will deny the requested misrepresentation and Suburban issues. After a careful study of all the material submitted by the parties, we have concluded that CBS has not raised a substantial question of misrepresentation. By CBS' own admission,[8] only four of its affiants have stated unequivocally that they were not contacted by First Delaware and only two others state that they were not asked about the community's needs and interests.[9] The remainder of the CBS affiants, five of whom now recall the prior First Delaware contact after being recontacted,[10] indicate only that they do not recall the First Delaware interview. Thus, of the 788 community leaders listed in First Delaware's survey, CBS has supplied affidavits challenging less than 1 percent. In such circumstances, the Commission has consistently held that a misrepresentation issue is not warranted. See, *e.g.*, Lake Radio, Inc., 42 FCC 2d 737, 28 RR 2d 587 (1973), (two challenged out of 45); Childress Broadcasting Corp. of West Jefferson, FCC 70-1032, 20 RR 2d 335 (two out of 50); Home Service Broadcasting Corp., 24 FCC 2d 192, 19 RR 2d 347 (1970) (one out of 120). See also, Radio Dinuba Co., supra.[11]

[8] CBS' reply, pp. 12–13.

[9] Moreover, we note that the Bureau is of the view that the wording of the CBS affidavits indicates that only one of the four unequivocally denies being interviewed. While we believe that there is room for legitimate disagreement in this regard, we do not believe that, in the total context of First Delaware's Suburban showing, either number is sufficient to require further inquiry.

[10] Both the statements by CBS that several First Delaware interviewees declined to execute affidavits and the averments of First Delaware principals that CBS affiants, when recontacted, indicated that they now 'remember the first contact must be discounted as hearsay. See, e.g., Eastern Broadcasting Corp., 29 FCC 2d 472, 21 RR 2d 1147 (1971).

[11] In the cases relied upon by CBS either the percentage of possibly improper contacts was significantly higher or there were other, substantiating evidence of misrepresentation. Thus, in RKO General, Inc. (WOR–TV), supra, as many as 68 community leaders were not, or did not recall being, contacted and in Itawamba County Broadcasting Co., Inc., supra, 17 of 150 were apparently not contacted, three of whom may have been deceased at the time of the survey. Finally, we believe Belo Broadcasting Corporation, supra, is distinguishable on the grounds that in the present situation opposer has supplied affidavits of its own principals and contemporaneous notes regularly taken during the interviews in question as well as numerous uncontroverted affidavits from the interviewees in retraction of earlier affidavits.

[12] Although the use of telephone contacts could bear on the question of whether a dialogue with community leaders has been achieved, the use of telephone contacts is not specifically prohibited and it appears that this method was used only on a few occasions. We therefore do not believe that a substantial question in this regard has been raised. Cf. Lexington County Broadcasters, Inc., supra.

And, in contradiction of these affidavits, First Delaware has supplied both the averments of its principals that the CBS affiants were, in fact, contacted and copies of the notes made during the interviews. Compare RKO General, Inc. (WOR–TV), supra. Moreover, we believe that the relatively insignificant amount of contradictions shown by CBS could well be accounted for by the passage of time and/or the cursory nature of the contact. See, e.g., Home Service Broadcasting Corp., supra. For these reasons, combined with the fact that we are unable to find any apparent motive for the alleged falsification of such a low percentage of interviews, the misrepresentation issue will be denied. Nor do we believe that a Suburban issue is warranted. We cannot agree with CBS that its affidavits support its allegations of "distortion" of First Delaware's community leader survey. Thus, as noted by the Bureau, in only one instance did an interviewee categorically deny being asked about the problems, needs and interests of his community and, while certain interviewees state that they also discussed how present television service relates to these problems, we can perceive no basis for concluding that the inclusion of this line of questioning necessarily invalidates the survey. Also, upon being recontacted by First Delaware, various interviewees have supplied new affidavits indicating that they now recall making the statements attributed to them concerning the community's needs and interests. The likelihood of this is, in our view, borne out since the form used by First Delaware clearly directs that the appropriate questions be asked, compare WPIX, Inc. (WPIX), 34 FCC 2d 419, 24 RR 2d 58 (1972). Finally, aside from the fact that First Delaware has supplied further affidavits which substantially mitigate CBS' remaining charges of First Delaware's total ascertainment effort, we agree with the Bureau that they are de minimis[13] and that the public interest quiry.

Misrepresentation Issue re Edward P. Morgan

6. Next, CBS requests an issue to determine whether Edward P. Morgan, a 5 percent shareholder in First Delaware and a senior partner of a law firm which regularly practices before the Commission, has participated in making serious and material misrepresentations to the Commission in another nonrelated proceeding presently pending before the Commission.[14, 15] Noting that the Review Board had added an issue in the Belo Broadcasting proceeding to determine whether the applicant WADECO, Inc. had made misrepresentations to the Commission regarding the availability of a $2,500,000 bank loan,[16] and that WADECO had been represented during the pertinent period by the law firm of Welch and Morgan of which Morgan is the senior partner, CBS alleges that Morgan was involved in or had knowledge of the alleged misrepresentations. Thus, CBS asserts that while Morgan was not directly in charge of the case, he did receive copies of memoranda and correspondence pertaining to problems concerning the availability of the Castle Trust loan commitment letter,[17] and, in one instance, was the recipient of a letter from WADECO's president informing him of the unsuitability of the loan commitment.[18] This letter, quite aside from other indicia of knowledge, CBS reasons, clearly served to put Morgan on notice that reliance on the bank loan commitment was misplaced and therefore that continuing to represent its availability to the Commission constituted an affirmative misrepresentation.[19]

[13] The proceeding to which CBS refers is the Dallas, Texas, TV broadcast proceeding (Docket Nos. 19744–19745), which involves the mutually-exclusive application of Belo Broadcasting Corp. (WFAA–TV) and WADECO, Inc.

[14] CBS has twice petitioned for leave to file supplements to its motion to enlarge issues with respect to this issue in order to submit information which was obtained during the taking of depositions in the Belo Broadcasting proceeding. Since this information was promptly brought to the Board's attention and is relevant to our disposition of the requested issue, the Board will grant both petitions.

[15] Belo Broadcasting Corp. (WFAA–TV), FCC 2d 520, 28 RR 2d 325 (1973).

[16] In this connection, Mr. Wade, the president of WADECO has testified and deposed that he had advised the attorney in charge of the case, Thomas M. P. Christensen, repeatedly during the period beginning shortly after the filing of the commitment letter until over a year later that the letter was invalid and should be withdrawn.

[17] This letter, dated June 30, 1972, reads in pertinent part:

As you know I have tried diligently for almost a year to secure a suitable letter of credit for our FCC application and have met with nothing but disappointment—I must reluctantly say I have lost all hope of securing such a letter before we are granted the franchise. Likewise I am convinced—and have been verbally assured repeatedly—that we will have no trouble at that time securing the operating capital. Therefore, I am requesting you to do whatever you can to get an early designation for hearing notwithstanding our financial vulnerability.

[18] In a deposition session held during October 1974, Wade stated that Morgan may have been informed of the fact that the loan commitment was invalid prior to that time; Wade relates that he may have informed Morgan of this fact during a meeting in Detroit in the early spring of 1972; however, Wade also explains that he became aware of problems with the bank letter after receiving an inquiry from the Commission which was sent subsequent to the time his Detroit meeting with Morgan was held.

7. In opposition, First Delaware submits an affidavit executed by Morgan in which the affiant denies any personal knowledge or involvement with the circumstances surrounding the alleged misrepresentation. Morgan explains that the Belo case was assigned to Christensen, and that, with one exception,[19] the correspondence referred to by CBS which was directed to Christensen was dealt with by Christensen. With respect to his own role in the proceeding, Morgan explains that he did not follow the day-to-day developments of the case, and, as a result, he did not give close attention to the copies of correspondence pertaining to the proceeding which he regularly received. And, as to the June 30, 1972, letter from Wade, see note 17, supra, Morgan avers that he placed a wholly reasonable, albeit different, interpretation upon it than CBS. Morgan avers that he interpreted the letter to mean that Wade's continuing efforts to secure local financing had met with no success and that this was Wade's reason for using the term "suitable letter of credit", rather than a reference to the Castle Trust letter. Nor, continues Morgan, did he interpret Wade's stated desire to go to hearing "notwithstanding our financial vulnerability" to refer to the validity of the Castle Trust letter; rather, avers Morgan, the only problems he was aware of concerning the Castle Trust letter were about its suitability, i.e., whether or not it was adequate to meet Commission requirements. As indication of what his interpretation of Wade's letter had been at the time of receipt, Morgan submits his letter of reply, which Morgan contends, demonstrates that he was not aware of the necessity of withdrawing the Castle Trust letter.[20] Moreover, avers Morgan, he never had oral discussions with Wade concerning Wade's June 30, 1972, letter. Finally, First Delaware also supplies an affidavit of Thomas Christensen in which he avers that, to the best of his recollection, "Mr. Morgan was neither involved in negotiations relating to the bank letter written by the Castle Trust, nor the author of correspondence or pleadings relating to that matter." The Broadcast Bureau agrees that CBS has failed to adequately demonstrate that Morgan was involved in or aware of any misrepresentation which may have been committed. Thus, the Bureau accepts both Morgan's interpretation of Wade's letter and Morgan's statement concerning the one Castle Trust letter addressed to him as reasonable.

8. In reply, CBS contends that Morgan's affidavits do not deny that he received copies of all relevant documents and correspondence between the bank and Christensen and between Christensen and Wade, and that because a misrepresentation issue was added in the Belo proceeding an issue is required here to determine the extent of Mr. Morgan's involvement in any misrepresentation. CBS also rejects Morgan's interpretation of Wade's letter, arguing that the Wade-Morgan exchange of letters only makes sense if both parties were referring to the difficulties with the loan commitment which had led to the Commission letter of inquiry.

9. The Board will deny the requested misrepresentation issue against Morgan. In order to add the requested issue it would be necessary for CBS to show that Morgan either had some connection with the filing of a possibly invalid financial commitment letter or, subsequent to filing, Morgan become aware that a possibly invalid letter had been filed and failed to so inform the Commission. This, in the Board's view, CBS has failed to do. Stripped of conjecture and speculation, CBS' allegations are based on the one Castle Trust letter addressed to Morgan, the June 30, 1972, letter from Wade to Morgan, and the deposition testimony of Wade. However, as to the Castle Trust letter, we find reasonable Mr. Morgan's explanation that it was addressed to him because of the absence of Mr. Christensen, and that, in light of customary mail room practices and the presence of Christensen's, rather than his, initials on the letter, he did not even see it. Moreover, we have both Morgan's and Christensen's sworn affidavits that Morgan did not participate in the arrangements resulting in the Castle Trust commitment letter. And, with respect to the June 30, 1972, letter from Wade to Morgan, we agree with the Bureau that Morgan's construction of the letter is reasonable[21] and this construction is fully supported by Morgan's reply, see note 20, supra. In this regard, we have also reviewed the available letters and memoranda which may have gone across Morgan's desk concerning the Castle Trust loan commitment and we do not believe that any of these would necessarily indicate the existence of a possible or potential misrepresentation. Finally, we have reviewed the entire relevant deposition testimony of Mr. Wade and find it fails to support CBS' theory that Morgan had knowledge of the alleged misrepresentation. With the exception of the June 30, 1972, letter discussed above, nowhere does Wade unequivocally state that he communicated to Morgan, either in writing or orally, his opinion that the letter was invalid or that the letter should be withdrawn. Accordingly, the requested issue will be denied.

Alleged Violations of Federal Securities Law

10. CBS next requests an issue to determine whether First Delaware engaged in misrepresentations and other unlawful conduct in the offer and sale of its stock. Specifically, CBS initially charges that First Delaware principals made serious misstatements and failed to disclose material facts in soliciting investments, thereby violating the Securities Act of 1933. In support of these assertions, CBS supplies an affidavit from a Mr. Barry Nemcoff[22] in which he avers that the president of First Delaware, Mr. Barnhouse, in asking Nemcoff to convey an offer to invest to his superior (Mr. Segel) had informed him that the law firm representing First Delaware had represented a successful challenger in another, nonrelated proceeding in Boston, Massachusetts, that this proceeding could be resolved "fairly quickly, perhaps within a year or two", and that CBS was in violation of Commission regulations relating to "overlap".[23] CBS charges that the statements of Barnhouse are incorrect and that such misstatements clearly would mislead potential investors. CBS also alleges that similar misrepresentations were made by Mr. Barnhouse in public statements and in support of this contention CBS quotes articles in two newspapers and a magazine. Petitioner also submits an affidavit from Geogory M. Harvey, who avers that he attended a meeting of a private club in Philadelphia at which Mr. Barnhouse, as speaker, made similar misstatements. Therefore, concludes CBS, the misrepresentations made in the solicitations of stock offers are a violtaion of federal securities law and clearly could reflect on First Delaware's character qualifications. CBS also alleges that federal securities law requires First Delaware to register its stock and provide each offeree with a detailed prospectus, but that First Delaware has not done so and therefore an issue is required to determine the effect of this fail-

---

[19] Morgan avers that a letter from Castle Trust was addressed to him because of the absence of Christensen for medical reasons, that he (Morgan) has no recollection of seeing this letter, and that Christensen, rather than Morgan, initiated it, indicating that the office employee who opens the mail, knowing that the case was assigned to Christensen, routed it directly to Christensen.

[20] The text of this letter to Wade, dated July 5, 1972, reads as follows:

Your letter of June 30, raises two matters: i.e., (1) the thought that a suitable bank letter will not be forthcoming until WADECO's application is granted; and (2) a request that we secure an early hearing designation.

Apropos (1), above, we can never be found financially qualified and thereby secure a grant ['franchise'] absent a satisfactory bank letter covering the cost of construction and initial [3 months] operations. Hopefully, this can be secured before the hearing is concluded. However, it is simply not in the cards to obtain a grant until such time as an applicant is found to be financially qualified.

In the case of (2), the only thing holding up hearing designation is our own amendments. Once these cease, we will be designated for hearing.

[21] As further noted by the Bureau, what Wade intended to communicate is not directly relevant to the question of what Morgan knew.

[22] Nemcoff, in his affidavit, states that until mid-May, 1972, he was news director at WCAU-TV but that at the time of the relevant communications with Barnhouse, he was vice president for communications for Franklin Mint Corporation, Philadelphia, Pennsylvania.

[23] An affidavit from a Mr. John Facenda, an employee of WCAU-TV, is also submitted by CBS in which the affiant states that his participation in the applicant had been solicited.

V 39 N 246 DEC 20 1974
XUM

ure on First Delaware's character and basic qualifications.

11. In opposition, First Delaware contends that CBS' allegations of fraud and misrepresentation are insufficient to warrant the addition of the requested issue.[8] Aside from this lack of sufficiency, First Delaware submits affidavits, which, in its view, serve to counter CBS' more particular allegations. In an affidavit executed by Barnhouse, the affiant avers that there was never an offer or intention to offer either of the CBS affiants an opportunity to invest in or associate with First Delaware and, in fact, asserts Barnhouse, he had not even heard of First Delaware at the time of his initial conversations with Nemcoff and Fecundal.[9] Moreover, as a rebuttal of the Harvey affidavit, First Delaware again refers to the Barnhouse affidavit in which the affiant denies that he made the statements attributed to him by Harvey, as well as to corroborative affidavits executed by two members of the audience.[10] In any event, First Delaware continues, the actual composition of the present group of stockholders belies the suggestion that Barnhouse engaged in solicitation of its members; thus, the applicant notes that the present stockholders were the friends and acquaintances of the members of the organizing groups, and that each investor had the opportunity to meet with the company's attorneys and discuss the full circumstances of his proposed participation. Finally, as to CBS' allegation that federal law requires First Delaware to file a registration statement, First Delaware argues that it is exempt since it extended only a private offering, but that even if it had not, no issue should be added because this area of securities law is complex, confusing and in a state of flux and, because there is clearly no intent to misrepresent or deceive, no purpose would be served by further inquiry by the Commission. The Broadcast Bureau basically supports First Delaware's position, arguing that CBS has not shown that Barnhouse was soliciting investments, that violation of federal securities law is, at best, doubtful, that it does not appear that any of the First Delaware stockholders were misled and, finally, that this matter should be left to the Securities and Exchange Commission.

12. In reply, CBS attempts to distinguish the cases relied on by First Delaware on the grounds that in those cases, as opposed to the instant situation, the alleged securities violations were either wholly unrelated to the broadcast activities of the applicants or related only to the failure to register its stock. Second, CBS urges that the existence of conflicting affidavits is a sufficient basis for adding the requested issue. But in any event, CBS contends, the affidavits submitted by First Delaware tend to confirm rather than refute the existence of the alleged misrepresentations. For example, CBS argues, Barnhouse's affidavit does not categorically deny the possibility of a solicitation of Fecunda and Nemcoff and, in CBS' opinion, the affidavits therefore do not allay the question of whether the conversations held constitute an "offering" under the federal securities law. Moreover, First Delaware's unreliability in this regard is demonstrated by the varying representations made to the Commission, CBS argues; thus, CBS contends that contrary to the applicant's statement, that it did not solicit investments after July 1972, in September of 1972 First Delaware reported to the Commission that it had increased the number of shareholders thereby indicating that it must have been continually soliciting offers.

13. The Board will deny the requested issue. In our view, CBS has supplied no reason to deviate from our usual practice of nonintervention in matters of alleged violations of local or federal law where, as here, the forum entrusted with the enforcement of those laws has not been initially consulted. RKO General, Inc. (WOR–TV), 47 FCC 2d 827, 30 RR 2d 1155 (1974); Northeast Oklahoma Broadcasting, Inc. supra; Bangor Broadcasting Corp., supra; and Lamar Life Broadcasting Company, supra. CBS' attempt to distinguish these cases on the grounds that they dealt with alleged violations involving non-broadcast related activities is not sufficient to relieve the Board of this injunction, since the threshold question remains the same, namely, whether there has been a violation of particular federal laws, the enforcement of which has been entrusted to another federal agency. Thus, while the violation of federal securities laws could reflect upon an applicant's qualifications to be a Commission licensee, we believe that the type of allegations supplied by CBS would more appropriately be dealt with by the agency directly charged with enforcement and interpretation of those laws. Moreover, we agree with the Bureau that the affidavits supplied by CBS do not adequately support its contention that Barnhouse made misrepresentations in the solicitation of stock sales, or that he made the alleged misrepresentations in an attempt to induce the affiants to join the group. Nemcoff, Fecenda and Segel cannot be deemed ignorant bystanders in the broadcasting field who could have been duped into investing without obtaining all informative financial data. In any event, the affidavits of Nemcoff and Fecenda indicate on their face that they had no interest in this group. And CBS' showing is devoid of any indication that these purported representations were made by Barnhouse to any of the persons who are now First Delaware stockholders. In sum, two of the three statements attributed to Barnhouse appear to be statements of opinion, one of which, regarding the overlap question, was the subject of a petition to enlarge issues. In our view, the third misstatement attributed to Barnhouse, concerning the past record of the applicant's counsel, even if shown to have occurred, would not be sufficient basis for adding a misrepresentation issue. It is of critical significance that, absent a showing of solicitation, petitioner has shown no intent to deceive, a sine qua non of a misrepresentation issue. Finally, with respect to the other exhibits supplied by CBS, we note that the newspaper and magazine articles are clearly unacceptable hearsay (Commission Rule 1.239) and the contents of the Barnhouse speech as reported in the Harvey affidavit are adequately rebutted by extrinsic evidence.[11] Accordingly, the requested issue will be denied.

ALLEGED VIOLATION OF THE LABOR-MANAGEMENT REPORTING AND DISCLOSURE ACT

14. CBS next requests an issue to determine whether two First Delaware principals, Soloman Katz and Matthew O. Adams, have violated the Labor-Management Reporting and Disclosure Act (hereinafter Act), by entering into a loan agreement in the course of preparing the First Delaware application. Specifically, CBS notes that Katz has agreed to lend Adams the amount necessary to meet his First Delaware stock subscription; however, according to the petitioner, Adams is an "organizer" in a union which represents employees in another nonrelated corporation of which Katz is Chairman of the Board and a 20 percent stockholder. Such a loan agreement, contends CBS, violates section 186 of the Act and an issue is required to determine the effect of the violation on First Delaware's qualifications. The Review Board agrees with First Delaware and the Broadcast Bureau that the above allegations do not warrant addition of an issue. As discussed above,[12] it is our usual practice to refrain from initially intervening in matters concerning alleged violations of local or federal law when the matters raised are clearly within the province and expertise of another government agency, and CBS

---

[8] In any event, First Delaware notes that the Commission has traditionally been reluctant to intervene in situations such as this when it appears that none of the agencies primarily entrusted with enforcement of the law in question, i.e., Federal securities law, has taken any action or, indeed, even been consulted as to the possibility of violations. Northeast Oklahoma Broadcasting, Inc., 40 FCC 2d 543, 27 RR 2d 144 (1973); Bangor Broadcasting Corp., 23 FCC 2d 687, 23 RR 2d 883 (1972); and Lamar Life Broadcasting Company, 26 FCC 2d 112, 20 RR 2d 509 (1970).

[9] With respect to CBS' allegations concerning the overlap rules, First Delaware notes that on May 16, 1974, it filed a petition to enlarge issues alleging that CBS was in violation of Rule 73.635.

[10] As a related matter, First Delaware notes that the quotes from newspapers and a magazine are hearsay and stresses that they could in no sense be regarded as being a stock solicitation.

[11] First Delaware has supplied affidavits of two other members of the audience which are in agreement with Barnhouse's denial of the misstatements attributed to him by the Harvey affidavit.

[12] See paragraph 13, supra, and cases cited therein.

has provided no basis for departure from our usual practice.

ALLEGED BREACH OF FIDUCIARY DUTY BY DONALD BARNHOUSE

15. Next, CBS contends that Donald Barnhouse, First Delaware's president and a former employee of the present licensee (WCAU–TV), violated his fiduciary duty to WCAU–TV by his surreptitious participation in the preparation of First Delaware's application while at the same time maintaining the employment at WCAU–TV. Although this association allegedly breaches the fiduciary relationship customarily inherent in an employee-employer relationship, CBS emphasizes that it was also a breach of the agreement entitled "Report on Conflicts of Interest" which Barnhouse was required to sign as a condition of employment and which clearly prohibited Barnhouse's participation in a competing application. In sum, concludes CBS, Barnhouse's conduct in this regard has a bearing on his possible future conduct as a principal in First Delaware and an appropriate issue is required. The Review Board will deny the requested issue. As noted by the Broadcast Bureau, even assuming that there is a private contractual dispute between CBS and Barnhouse arising from Barnhouse's obligations under the "Report on Conflicts of Interest" the Commission is clearly an inappropriate forum for settling that dispute in the first instance.[23] In any event, petitioner has not alleged any specific conduct on the part of Barnhouse, i.e., theft of confidential information, etc. which might reflect on his or First Delaware's character qualifications. In our view, it is important to note that Barnhouse readily and promptly revealed his association with First Delaware; thus according to independent and unchallenged affidavits submitted with First Delaware's opposition, within less than one month from the time Barnhouse was initially contacted with regard to his possible participation in the First Delaware application he informed his supervisor at CBS of such participation. Accordingly, no issue will be added.

TRANSMITTER SITE AVAILABILITY AND RELATED ENGINEERING AND COST ISSUES[24]

16. In support of its request for a transmitter site availability issue, CBS first notes that First Delaware proposed to operate from the present CBS site in its initial application. However, alleging not only that First Delaware has never approached the existing licensee to discuss the site's possible future availability, CBS unequivocally states that it "will not, under any circumstances," enter into a lease agreement with First Delaware.[25] Moreover, as indication of the unavailability of any site, CBS directs the Board's attention to the deposition of First Delaware's president, Donald Barnhouse, in which he admits that First Delaware is now proceeding on the assumption that CBS will not lease its site, but that it has not yet adopted firm plans to acquire another site from an alternate source. In addition, CBS argues that because First Delaware's site is clearly unavailable, its contingent financial, engineering and equipment proposals are no longer accurate and appropriate issues are required to determine whether First Delaware can operate as proposed. Finally, CBS requests a § 1.514 and/or § 1.65 issue to determine whether First Delaware has failed to timely inform the Commission of the unavailability of its proposed antenna site. The Broadcast Bureau supports the addition of site availability and § 1.65 issues.

17. In opposition, First Delaware asserts that it "continues to propose the originally specified site" and that Mr. Barnhouse's deposition testimony indicates only that alternatives are under consideration. Moreover, the applicant continues, CBS has stated that it will not lease the site but has not indicated that it would not sell and thus Belo Broadcasting Corp., 44 FCC 2d 707, 29 RR 2d 323 (1974), upon which petitioner relies, is readily distinguishable. Next, First Delaware suggests that the refusal of a former licensee to make its site available to a winning applicant especially when as here the use to which the land can be put is limited, frustrates the public interest and arguably constitutes a violation of § 73.635 of the Commission's Rules. Finally, First Delaware contends that the equitable doctrine of laches must be applied against CBS because the licensee has known for almost two years that First Delaware proposed to lease the existing facilities.

18. The Review Board will add the requested site availability and § 1.65 issues but will deny the related engineering and financial issues. CBS has unequivocally averred that it will not, "under any circumstances" lease its site to First Delaware,[26] thereby raising a substantial question as to whether First Delaware has reasonable assurance of the availability of its proposed site. Belo Broadcasting Corp., supra.[27] However, we believe that the addition of contingent financial qualifications and effectuation of proposal issues, as well as expansion of the standard site availability issue, would be both premature and hypothetical in nature, particularly in view of Mr. Barnhouse's deposition testimony indicating that alternative sites are presently being explored. Should a future First Delaware amendment specify a definite site, and/or a different engineering proposal, thereby substantially affecting First Delaware's financial, engineering or equipment proposals, an appropriate request for additional issues would be entertained. We do, however, believe a § 1.65 issue should be added. Although First Delaware states that it continues to propose the original site now owned by CBS, it is apparent that, based upon the Schneider affidavit denying its availability, First Delaware knew or should have known since May 16, 1974, that it no longer had reasonable assurance of its proposed site and should have reported this circumstance to the Commission. The deposition of Mr. Barnhouse buttresses our conclusion in this regard since he contradicts First Delaware's statement by admitting that the applicant is now proceeding on the assumption that CBS will not make its site available.[28] Accordingly, site availability and § 1.65 issues will be added.

FINANCIAL AND COST ESTIMATES ISSUES

19. CBS contends that First Delaware's financial showing is deficient in three areas.[29] First, CBS alleges that the proposed $4,000,000 bank loan from Lincoln Bank of Philadelphia to First Delaware is in question because the Pennsylvania Banking Code prohibits a loan to any one customer which "would exceed ten percent of the capital, surplus, undivided profits and capital securities of the institution * * *." Moreover, argues CBS, the wording of the "commitment" letter is inadequate because the terms are too indefinite.[30] Specifically, CBS asserts that the letter fails to define its "customary and reasonable credit criteria", that the

---

[23] In this regard, see also our discussion at paragraphs 13 and 15, supra.

[24] Both CBS' first and second motions contain a request for a transmitter site availability issue. The second motion which is based on depositions taken of First Delaware's president, also requests an expansion of the traditional issue to include the availability of any site, rather than the proposed site, as well as related engineering and cost issues. Since the second motion is in support of the first motion and was filed within ten days of the taking of depositions upon which it is based, it will be regarded as timely filed.

[25] This position was declared in the attached affidavit of John A. Schneider, president of the CBS Broadcast Group and a vice president and director of CBS, Inc., which was served on First Delaware on May 16, 1974.

[26] First Delaware's application states that it will lease (rather than purchase) the proposed site and therefore we attach no significance to the fact that CBS did not address itself to a possible sale of the site.

[27] Also in this regard, we have recently rejected the contention that section 73.635 requires a losing applicant for renewal of license to make its facilities available to its competitor. RKO General, Inc. (WOR–TV), — FCC 2d —, 21 RR 2d 883 (1974).

[28] Because there is no basis for concluding that prior to receipt of the Schneider affidavit First Delaware could reasonably assume that its site would be unavailable, United Television Co., Inc., 18 FCC 2d 363, 16 RR 2d 621 (1969), we will not specify a Rule 1.514 issue.

[29] A limited financial issue was previously specified against First Delaware in the Commission's designation Order, FCC 74–363, 39 FR 15158, published May 1, 1974.

[30] Relevant portions of the letter state that the loan will be made on the conditions that First Delaware meets all "customary and reasonable credit criteria" of the Bank, that three stockholders (Morgan, Kohn and Katz) remain with the corporation and supply personal guarantees, that the terms of repayment are contingent upon the exact credit conditions prevailing at the time of the cash advance but that the Bank currently contemplates calculating interest on any loan made at the rate of 2 percent above the prime rate, and that the loan will be repaid, after a one-year moratorium, in eight semi-annual installments "or as otherwise reasonable in line with financial projections received prior to the time of borrowing * * *."

XUM V 39 2246 DEC 20 0074 4 XUM

precise rate of interest is not specified and that the repayment schedule is indefinite. Second, CBS contends that the stock subscription agreements upon which First Delaware relies are not legally binding or enforceable and that "numerous subscribers" have failed to demonstrate the capacity to meet their subscriptions. Asserting that various of the stock subscriptions are void, because First Delaware has violated Federal and state securities law (see paragraph 10, supra), CBS argues that each of its subscribers is therefore free to demand recision. With respect to the second assertion, CBS lists eleven First Delaware subscribers whom it contends have failed to show their ability to meet their subscriptions in one or more of the following respects: (a) Reliance on an unenforceable loan which is in violation of labor law provisions (see paragraph 14, supra); (b) failure to submit a balance sheet and/or statement of subscriber's income during the relevant past two-year period; (c) failure to disclose the nature of the security when the subscriber is relying on loan; (d) listing of jointly held rather than individual property (with spouse); and (e) lack of current liquid assets.[28] Third, CBS urges that First Delaware has substantially underestimated the minimum, necessary costs to construct and operate its proposed station for three months. Specifically, CBS alleges that First Delaware's proposed cost of program origination equipment of $1,485,000 is $36,641 below the minimum necessary provision[29] and, additionally, that it also failed to account for substantial first-year principal and interest payments owed to its equipment supplier in the amount of $96,187. CBS also argues that the bank commitment letter allows a one-year moratorium on principal only and therefore interest payments for the first year of operation should have been included. Finally, CBS argues that First Delaware has substantially underestimated minimum preoperating expenses, sales and salary costs, program and production costs, engineering and technical costs, general and administrative costs and numerous other expenses.

20. In opposition, First Delaware initially notes that CBS has erred in assuming that an applicant must demonstrate that it has a contractually binding commitment with a lending institution. Rather, First Delaware asserts, it is required to demonstrate reasonable assurance of the availability of a proposed loan; and the bank letter it is relying upon sufficiently sets forth the terms and conditions of the loan to satisfy Commission standards in this respect, the applicant concludes. As a related matter, First Delaware states that the Bank has made loans in the past which were in excess of its statutory limit by participating with other banks, but argues that this is not presently a subject for Commission inquiry so long as there is reasonable assurance that the funds are available. However, in an effort to rebut any doubt as to the availability of funds, First Delaware states, one of its principals, Sol Katz, has set up an escrow account in the amount of $4,000,000 which will be available to First Delaware in the event bank financing is not available. This agreement provides a one-year moratorium on principal and interest payments and, therefore, First Delaware contends, any question of interest payments is allayed. With respect to its subscription agreements, First Delaware argues that since no violation of law has been shown, these obligations must be regarded as valid and binding. Moreover, asserts First Delaware, its subscribers have shown either liquid assets or loan commitments sufficient to meet their subscriptions, and CBS has failed to impeach these showings with any specific, factual evidence to the contrary.[30] Next, as to the alleged cost underestimates, First Delaware states that CBS' predictions are based on its own expenses, but that First Delaware, as a new applicant, cannot be expected to run its facility from the outset as if it had the funds and resources of CBS. Furthermore, based upon the affidavits of two persons with relevant television operation experience who question the basis of CBS' calculations and affirm First Delaware's projected costs, First Delaware reasserts that its costs are both reasonable and realistic. The Broadcast Bureau also opposes CBS' request for additional financial issues against First Delaware, asserting that most of the matters raised by petitioner were considered by the Commission prior to designation and found to be satisfactory. Moreover, in the Bureau's opinion, the existing flow of revenue which will become available to First Delaware, fully covers any possible deficiencies in the applicant's proposal.

21. In reply, CBS contends that, in the absence of a substantiating letter from the lending bank, there is no support for First Delaware's suggestion that the participation of other lending institutions would ensure the availability of the proposed loan. CBS also attacks the reliability of the Katz escrow agreement, stating that two of the required guarantors have not indicated a willingness to so obligate themselves, that no representative of the Bank holding the escrow account has signed the agreement and that the First Delaware application has not been amended to reflect the agreement. In response to the argument that the Commission has already reviewed and approved First Delaware's financial data, CBS contends that a large amount of relevant information was not before the Commission at the time of designation, such as the allegations concerning securities violations, the Lincoln Bank's legal lending limit, the interest and principal payments due during the first year of operation and First Delaware's underestimated costs. Finally, CBS attacks the affidavits supplied by First Delaware concerning its cost estimates, arguing that aside from being conclusory and nonresponsive, they are not based on independent analysis by persons with experience in operating a VHF television station in a major market.

22. Generally, when a bank letter expresses a firm agreement to extend a line of credit to a broadcast applicant, the Review Board will not question the availability of the loan commitment. But, when, as here, it is undisputed that the proposed loan would violate statutory limitations governing the amount a bank may lend, it is incumbent upon an applicant to make a further showing of availability. First Delaware's statement that it is customary for banks to participate in meeting loan commitments in excess of the statutory limitation does not, however, constitute a sufficient or proper showing in this regard. Thus, there is no indication either that the Lincoln Bank contemplates and is willing to arrange to have other banks share in the loan, or that other banks would be willing to participate in extending funds to the full extent necessary to satisfy the commitment to First Delaware. Absent further assurances of this nature,[31] the Board cannot conclude that First Delaware has reasonable assurance of the availability of its proposed loan.[32] Alternatively, we cannot conclude that First Delaware has reasonable assurance of the availability of the Katz

---

[28] CBS' second motion, see note 30, supra, also alleges that, based upon the deposition of Donald Barnhouse, Lisa A. Richetti, another First Delaware subscriber not mentioned in CBS' first motion, appears to be unwilling to meet her stock subscription agreement because, although requested to do so, she has not yet paid any amount pursuant to the stock subscription agreement.

[29] In support, CBS supplies the affidavits of four individuals, three of whom are employed by CBS, stating their criticisms of various aspects of First Delaware's cost proposals.

[30] In any event, the applicant asserts that any Commission concern about stock subscriptions, has been resolved; thus, First Delaware notes that although the Commission did raise certain questions as to some of the First Delaware stockholders prior to designation, the Commission stated that the stock subscribers could meet their commitments to the applicant in the designation Order, FCC 74-363, released April 24, 1974.

[31] Compare Lamar Life Broadcasting Co., 36 FCC 2d 112, 20 RR 2d 500 (1970); and TVUE Associates, Inc., 5 FCC 2d 419, 8 RR 2d 264 (1966), in which the applicant submitted the following—an affidavit from the president of the lending bank stating that he had signed the loan commitment with full knowledge of state banking limitations; an affidavit from the commissioner of the state's department of banking attending that consistent with state law, a bank could commit itself to extend a loan in excess of the statutory limit and seek participation from other banks; and letters from other banks confirming that they would share in the loan to the extent necessary to meet the commitment.

[32] We do not, however, agree that the terms set out in the bank letter are not sufficiently definite for Commission purposes; thus, it is readily apparent that the loan will be personally guaranteed by three principals, that the interest rate will be 2 percent above the prevailing prime interest rate, and that the repayment schedule provides that after a one-year moratorium, payment of principal will be made in eight equal installments.

escrow fund,[46] since the applicant has not demonstrated the willingness of its principals, Harold E. Kohn and Edward P. Morgan, to personally guarantee repayment of the escrow fund, a condition precedent of the arrangement. Similarly, First Delaware has failed to clearly and fully document the capacity of its stock subscribers to meet their commitments.[47] The chief deficiency in this regard, which affects six subscribers who are relying on loans to satisfy their obligations,[48] is the failure to indicate what, if any, security will be required for their enabling loans. See Viking Television, Inc., 16 FCC 2d 1018, 15 RR 2d 954 (1969); and Form 301, Section III. Additionally, the showings with respect to two subscribers fail to include either balance sheets or statements of income, both of which are specifically called for in the application form.[49] And third, in three instances,[50] First Delaware has not sought to ascertain whether the spouses of subscribers agree to utilize jointly-held assets for the purchase of the applicant's stock.[51] Finally, the first-year cost estimates appearing in First Delaware's application are not unreasonable on their face and, in our view, petitioner has failed to raise any sufficiently substantiated and/or specific question as to these projected costs. In essence, the relevant affidavits supplied by CBS in this regard assume the need for either additional or different types of equipment or salaries,[52] or assume the application of the Ultravision Broadcasting Co.[53] standard, rather than First Delaware has supplied affidavits from persons with experience in broadcasting, averring that the cost estimates are realistic. In sum, we do not believe that CBS has adequately demonstrated that First Delaware cannot meet all its necessary expenses with the sum projected. Accordingly, this request will also be denied.

SECTION 1.65 AND/OR SECTION 1.514 ISSUES

23. In support of its request for a § 1.65 and/or § 1.514 issue, CBS initially alleges that First Delaware has failed to disclose information concerning business interests and occupations of four of its principals, who, in the aggregate, own 44.5 percent of the applicant. Specifically, CBS charges First Delaware with the failure to report the following in its application:[54] (a) that its president, Donald Barnhouse, is presently engaged in three occupations—as a salaried officer of the "Committee of Seventy", an agency involved in Philadelphia civic affairs, as a contributor of a regular weekly column to the Camden, New Jersey Courier Post newspaper, and as a news commentator on Philadelphia radio Stations WFLN and WFLN-FM; (b) that Soloman Katz, a director and 25.5 percent owner of First Delaware, became a director of the First Pennsylvania Banking and Trust Co. in March 1973, that Katz, as late as December 1960 (and well within the five-year period at the time of the filing of First Delaware's original application) owned more than 25 percent of the stock in Transport Pool Corporation, a business engaged in the rental of trucking equipment, and that, while First Delaware has reported Katz's position as president and Chairman of Strick Corporation, it has never reported his position as chairman and director of Strick Corporation's corporate parent, Strick, Inc.; (c) that William Meehan, a First Delaware director and 5 percent owner is also a salaried member and vice chairman of the Pennsylvania Turnpike Commission and that within the last five years Meehan was an officer and director of Supply Company of Central City, Inc., a Pennsylvania Corporation; and (d) that Joseph M. Rodriquez, a First Delaware director and 3 percent owner, is the salaried chairman of the State Commission of Investigation of New Jersey. CBS contends that the above information was clearly required to be reported and could affect First Delaware's integration proposal. Next, CBS charges that First Delaware has also violated Rule 1.514 by failing to submit balance sheets and after-tax income statements[55] for another four of its principals and has also failed to reveal the market or exchange on which certain securities listed in various balance sheets are traded. Finally, CBS alleges that in violation of Section IV-B, Question 21 of Form 301, First Delaware has failed to submit the names of the individuals who will manage the proposed station.

24. In opposition, First Delaware concedes that it failed in some four[56] instances to inform the Commission of information called for by Form 301, but stresses that the omissions, all of which have little significance, were inadvertent. Turning to CBS' remaining allegations, First Delaware contends that Form 301 requires information as to the principal occupations of parties, rather than part-time, or clearly limited forms of association. Thus, First Delaware alleges that Barnhouse is not regularly employed by the Courier Post, but rather is paid $50 per column purchased and published, and that, rather than being an employee of radio Stations WFLN and WFLN-FM, Barnhouse's commentaries on those stations are presented as a "public service." Similarly, First Delaware asserts, Meehan's position on the Pennsylvania Turnpike Commission and Rodriquez's position on the State Commission of Investigation of New Jersey are neither business enterprises nor, given the demands of the positions, "principal occupations". First Delaware argues that, although it did not supply balance sheets and after-tax income statements for certain of its principals, adequate financial information concerning each of the principals has been submitted to demonstrate that each can meet its subscription obligations and therefore further inquiry would be useless. Moreover, failure to identify the exchange on which certain stocks of subscribers are traded is not significant, First Delaware notes, since none of the individuals listing the stocks are relying on them to meet his obligation to the applicant. Finally, First Delaware contends that there is no Commission requirement that an applicant include the names of prospective managing personnel at the time of the filing of the application.

25. The Broadcast Bureau supports CBS' request to the extent that Barnhouse's integration proposal. Next, CBS charges that First Delaware has also violated Rule 1.514 by failing to submit balance sheets and after-tax income statements[55] for another four of its principals and has also failed to reveal the market or exchange on which certain securities listed in various balance sheets are traded. Finally, CBS alleges that in violation of Section IV-B, Question 21 of Form 301, First Delaware has failed to submit the names of the individuals who will manage the proposed station.

24. In opposition, First Delaware concedes that it failed in some four[56] instances to inform the Commission of information called for by Form 301, but stresses that the omissions, all of which have little significance, were inadvertent. Turning to CBS' remaining allegations, First Delaware contends that Form 301 requires information as to the principal occupations of parties, rather than part-time, or clearly limited forms of association. Thus, First Delaware alleges that Barnhouse is not regularly employed by the Courier Post, but rather is paid $50 per column purchased and published, and that, rather than being an employee of radio Stations WFLN and WFLN-FM, Barnhouse's commentaries on those stations are presented as a "public service." Similarly, First Delaware asserts, Meehan's position on the Pennsylvania Turnpike Commission and Rodriquez's position on the State Commission of Investigation of New Jersey are neither business enterprises nor, given the demands of the positions, "principal occupations". First Delaware argues that, although it did not supply balance sheets and after-tax income statements for certain of its principals, adequate financial information concerning each of the principals has been submitted to demonstrate that each can meet its subscription obligations and therefore further inquiry would be useless. Moreover, failure to identify the exchange on which certain stocks of subscribers are traded is not significant, First Delaware notes, since none of the individuals listing the stocks are relying on them to meet his obligation to the applicant. Finally, First Delaware contends that there is no Commission requirement that an applicant include the names of prospective managing personnel at the time of the filing of the application.

25. The Broadcast Bureau supports CBS' request to the extent that Barn-

---

[46] A First Delaware amendment containing the escrow agreement was accepted by the Presiding Judge in an Order, FCC 74M-1078, released August 29, 1974.

[47] As indicated in paras. 13 and 14, *supra*, however, the Board will not substitute its judgment for that of state and federal authorities as a means of assessing the validity of contractual agreements.

[48] Matthew O. Adams, Sadie T. M. Alexander, Donald Barnhouse, Edward P. Morgan, Joseph Rodriquez and Regina Ryan.

[49] Sadie T. M. Alexander and Helen Dickens Henderson.

[50] Richard Gilmore, Nettie Taylor and Clifford Brenner.

[51] Three of CBS' remaining contentions may be readily dismissed. Thus, stock subscribers, as distinguished from applicants, are not required to show the terms of repayment for loans obtained for this purpose (Western Communications, Inc., 39 FCC 2d 1077, 26 RR 2d 1456 (1973)), and the Commission will not call upon a subscriber to make a detailed showing of liquidity of assets when assets are vastly in excess of the amount committed to the applicant. Finally, with respect to the subscription agreement of Lisa A. Richette, we note the following: Richette's total obligation to First Delaware is $4,000 and her current balance sheet shows assets of $28,000 and no current liabilities. Therefore, as noted by the Bureau, absent a showing that her balance sheet is inaccurate or that she has sought to withdraw her commitment, there is no basis for questioning her capacity to meet her obligation to First Delaware.

[52] Moreover, the CBS affidavits are for the most part supplied by its own employees and it appears that estimates contained therein were to some extent based upon the licensee's actual costs; however, we have previously held that such a comparison is invalid. See Radio Geneva, Inc., 42 FCC 2d 254, 27 RR 2d 1080 (1973); Dowric Broadcasting Co., Inc., 37 FCC 2d 40, 25 RR 2d 92 (1972); Eastern Broadcasting Corp., 26 FCC 2d 26, 21 RR 2d 417 (1971).

[53] 1 FCC 2d 544, — RR 2d — (1965).

[54] Citing Orange Nine, Inc., 7 FCC 2d 786, 9 RR 2d 1157 (1967), rev. den. FCC 67-960.

[55] FCC Form 301, Section II, Table II requires, inter alia, that the applicant "state the principal occupations and businesses in which each [principal] is engaged at the present time or has been engaged at any time within the past 5 years, and, in addition, state any other business or financial enterprise in which such [principal] has now or within the past 5 years has had either a 25 percent or greater interest or any official relationships."

[56] Section III, Question 4 of Form 301.

[57] First Delaware explains that it submitted a copy of a letter dated July 3, 1973, from Barnhouse to the law firm representing First Delaware in this proceeding informing the firm of his participation in the "Committee of Seventy", a Philadelphia civic organization, but that firm inadvertently failed to relay this information to the Commission. The applicant also alleges that the failure to report Katz's involvement with the First Banking and Trust Co. and Strick, Inc. as well as Meehan's involvement with the Supply Company of Cental City, Inc., which ended over four and one-half years prior to the initial filing of First Delaware's application, was inadvertent.

house, Katz, Meehan and Rodriques have failed to disclose pertinent business interests. However, the Bureau opposes the remainder of CBS' request arguing that neither the balance sheet of the First Delaware principals in question nor the stocks listed on certain other balance sheets are required to establish the subscribers' financial qualifications. Finally, the Bureau notes that First Delaware's staffing proposal has not been shown to be either incomplete or misleading since there is no showing that First Delaware has selected a station manager or program director.

26. In reply, CBS notes that on July 11, 1974, First Delaware filed a petition to amend[24] which reflects much of the information alleged lacking in CBS' motion to enlarge, as well as additional new information relating to some nine other occupations and business interests of various First Delaware principals. CBS also attacks First Delaware's assertions that certain of the activities of First Delaware principals need not be reported. Rather, CBS urges, Barnhouse's regular and substantial involvement in the print and broadcast media are possibly decisionally relevant and, while Katz does not own 25 percent or more of all stock in Transport Corporation, he does own more than 25 percent of the voting stock. CBS also argues that the alleged violations are too numerous to be excused as inadvertent and, because some of the information reflects on First Delaware's integration proposal, the failure to disclose is too serious to be overlooked. CBS also reiterates its claim that balance sheets are necessary when a stock subscriber is relying on a loan from other individuals, citing Jimmie H. Howell, 46 FCC 2d 50, 29 RR 2d 1317 (1974); and Calojay Enterprises, Inc., FCC 71-1262, 33 FCC 2d 690. Finally, CBS argues that specification of the exchange on which securities are traded and the identity of proposed management personnel are relevant to an applicant's basic and comparative qualifications and should have been reported.

27. The Board will deny the requested Rules 1.514 and 1.65 issues. Although it may be argued that First Delaware was remiss in failing to disclose more complete information concerning the business interests and associations of its principals and the financial status of its stock subscribers,[25] there is no basis for concluding that the applicant withheld or had a motive to withhold material information.[26] Compare Brindlee Broadcasting Co., 46 FCC 2d 721, 30 RR 2d 207 (1974). In addition, with one exception, we fail to see how the changes alleged by CBS and now reported in First Delaware's recent amendment could have any material effect on the outcome of this proceeding.[27] The one exception is Mr. Barnhouse's involvement with the Committee of Seventy, which might potentially interfere with Barnhouse's full time commitment to First Delaware, and therefore, its integration proposal;[28] however, in view of the letter from Barnhouse to the applicant's counsel disclosing such participation, it appears that there was no intent to conceal this information. We also believe that in this complex comparative proceeding this omission would not be of decisional significance, causing decisional authorities to act differently had they known the true facts; nor has CBS made any threshold showing in this respect except a conclusory one that the omission could "possibly" be of decisional importance. Moreover, it is our view that First Delaware's other omissions—Katz's association with the First Banking and Trust Co. and Strick, Inc. and Meehan's involvement in Supply Company four years prior to the filing of the initial application—do not provide sufficient additional justification for the specification of issues. Rather, two of the instances appear to be clearly the result of inadvertence, since they either involved an association with an enterprise which went out of business over four years prior to filing First Delaware's application or a failure to report an association with a parent corporation, even though the principal's position in a subsidiary company had been fully revealed. In sum, we do not believe that the allegations raise a substantial question sufficient to specify additional issues since they do not indicate that the omissions shown can be regarded as decisionally significant in the ultimate resolution of this proceeding; nor can it reasonably be stated that they form a pattern of conduct with respect to the applicant's dealings with the Commission. RKO General, Inc. WNAC-TV), 41 FCC 2d 772, 27 RR 2d 1537 (1973); Auburn Publishing Co., 34 FCC 2d 134, 24 RR 2d 29 (1972); and Harvit Broadcasting Corp, 32 FCC 2d 656, 23 RR 2d 328 (1971). See also, Chapman Broadcasting Company, 25 FCC 2d 855, 20 RR 2d 411 (1970).

INEPTNESS ISSUE

28. CBS' final request is for an ineptness issue against First Delaware. This request is based upon the presently requested issues, the issues designated against First Delaware and "many other omissions and inadequacies which, while perhaps not individual grounds for adding §§ 1.514(a) or 1.65 issues, further demonstrate a pattern of ineptness • • •." The Board has thoroughly reviewed these allegations and determined that CBS has not met the standards necessary for addition of an ineptness issue. As we stated in Edward G. Atsinger, III, 29 FCC 2d 443, 447, 21 RR 2d 1039, 1045 (1971), "[I]t is well established that diligence or ineptness issues will be added only where an applicant's conduct has concerned relevant matters of major significance, *and* where the conduct has disclosed a pattern of carelessness • • •". In our view, CBS' allegations satisfy neither standard. Thus, the issues added against First Delaware in the designation Order and those added herein are limited in scope and do not reflect any pattern of carelessness or inadvertence on the part of the applicant. Alvin L. Korngold, 40 FCC 2d 536, 27 RR 2d 78 (1973); Lexington County Broadcasters, Inc., 40 FCC 2d 320, 26 RR 2d 1716 (1973), and Southern Broadcasting Co., 38 FCC 2d 943, 26 RR 2d 458 (1973).

29. Accordingly, *it is ordered*, That the petitions for leave to file supplements to the first motion to enlarge issues, filed September 19 and October 24, 1974, by CBS, Inc., are granted and the supplements are accepted; and

30. *It is further ordered*, That the petition for leave to file reply to comments on supplement to first motion of CBS, Inc., to enlarge issues, filed October 8, 1974, by CBS, Inc., is granted; and

31. *It is further ordered*, That the first motion to CBS, Inc. to enlarge issues and the second motion of CBS, Inc. to enlarge issues, filed on May 16, 1974, and

---

[24] This amendment was accepted by Order, FCC 74M-892, released July 24, 1974.

[25] CBS' allegations concerning the financial showings of certain of First Delaware's subscribers relate to inadequate documentation of the applicant's overall financial qualifications, rather than non-disclosure *per se*, and, thus, may more appropriately be considered under the financial issue added herein.

[26] With respect to the Rule 1.65 aspect of CBS' request, we note that while Commission Rules require an applicant to notify the Commission within 30 days of any event which may be of decisional significance, Rule 1.65 was intended to apply only when there has been a substantial change and only when that change may be significant to the Commission's determination of the public interest. See Report and Order in Docket 14867 (Reporting of Changed Circumstances), 29 FR 15516, 3 RR 2d 1622 (1964).

[27] For this reason we also believe that those cases principally relied upon by CBS are inapposite. Thus, in Southern Broadcasting Co., 38 FCC 2d 461, 25 RR 2d 1138 (1972), the failure to report antitrust suits against a principal of the applicant could clearly reflect on its character qualifications. In Charles W. Holt, 38 FCC 2d 536, 25 RR 2d 1180 (1972), the failure to report a principal's ownership in certain businesses had a direct bearing under a specifically specified contingent comparative issue. In United Television Co., Inc., 33 FCC 2d 424, 23 RR 2d 644 (1972), the applicant failed to report a principal's association with the bank supplying the applicant's entire financing as well as two other principals' ownership in a corporation which had applied for a CATV franchise, all of which were clearly and directly relevant to the standard comparative issue. Finally, in Lamar Life Broadcasting Co., 26 FCC 2d 940, 20 RR 2d 1014 (1970), the applicant failed to report a principal's ownership interest in a corporation which held 40% of the applicant's stock, a matter which clearly should have been brought to the Commission's attention.

[28] In contrast, the Board believes that Barnhouse's other activities—as well as those of Katz, Meehan and Rodriques—are sufficiently limited in scope so as to fall outside any reasonable definition of "principal occupations". See Northeast Oklahoma Broadcasting, Inc., 40 FCC 2d 543, 27 RR 2d 144 (1973). Additionally, we note that First Delaware has rebutted CBS' allegations concerning Katz's interest in Transport Pool by submitting a letter from that company's executive vice president stating that Katz has never owned a 25% interest in the company.

July 9, 1974, respectively, are granted, to the extent indicated herein, and are denied in all other respects, and that the issues in this proceeding are enlarged to include the following:

(a) To determine whether First Delaware Valley Citizens Television, Inc. has reasonable assurance of the availability of its proposed transmitter site.

(b) To determine whether First Delaware Valley Citizens Television, Inc. has kept the Commission fully informed of significant and material changes in conditions and circumstances relating to its proposed transmitter site and, if not, the effect thereof on the basic and/or comparative qualifications of the applicant to be a Commission licensee.

32. *It is further ordered,* That existing issue 1(f) is renumbered as 1(g) and that the following subpart 1(f) is added:

1(f) To determine whether First Delaware Valley Citizens Television, Inc. has a bank loan commitment in the amount of $4,000,000 available to it and whether Matthew O. Adams, Sadie T. M. Alexander, Donald Barnhouse, Edward P. Morgan, Joseph Rodriques, Regina Ryan, Helen Dickens Henderson, Richard Gilmore, Nettie Taylor and Clifford Brenner have demonstrated their ability to meet their stock subscription commitments to the applicant, and, if not, whether First Delaware Valley Citizens Television, Inc., is financially qualified to construct and operate its proposed television station.

33. *It is further ordered,* That the burden of proceeding with the introduction of evidence under issue (a), and the burden of proof under issues (a) and (b) shall be on First Delaware Valley Citizens Television, Inc.; and the burden of proceeding with the introduction of evidence under issue (b) added herein shall be on CBS, Inc.

Adopted: December 11, 1974.

Released: December 18, 1974.

FEDERAL COMMUNICATIONS COMMISSION,*

[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-29695 Filed 12-19-74;8:45 am]

[FCC 74-1283; Docket No. 20122]

FISHING VESSELS

International Radiotelephone and Radiotelegraph Regulations

In the Matter of International radiotelephone and radiotelegraph regulations for fishing vessels. Draft of [IMCO] Convention on Safety of Fishing Vessels.

1. In this second Notice of Inquiry the Commission is providing additional information and seeks comments into the matter of preparation for a conference to be convened by the Inter-Governmental Maritime Consultative Organization (IMCO), possibly in 1976, on radio regulations to be included in a new Convention on Safety of Fishing Vessels.[1]

2. A Notice of Inquiry in the above-captioned matter was released on August 2, 1974 (FCC 74-819) and was published in the FEDERAL REGISTER on August 7, 1974 (39 FR 28457), as a means of obtaining information preparatory to the convening of IMCO meetings to be held in London, England, during the period September 9-27, 1974. The dates for filing comments and reply comments have passed.

3. Comments were filed by: American Tunaboat Association, Marine Electric Company, North Pacific Marine Radio Council, National Fish Mean & Oil Association, Standard Products Co., Inc., Southern California Marine Radio Council, and Zapata Haynie Corporation. These comments were studied and, with due attention to existing national statutes, paraphrased in a letter to the Department of State, with copies to the United States Delegation to the IMCO Sub-Committee on Radiocommunications, in session at London, England. The Commission was represented on the United States Delegations to the IMCO Sub-Committee on Radiocommunications meeting (September 9-13, 1974) and to the Sub-Committee on Safety of Fishing Vessels (September 16-27, 1974).

4. The results of these IMCO meetings relative to Chapter X of the Draft Convention on Safety of Fishing Vessels are set forth in IMCO Document PFV XVI/WP.2 dated September 18, 1974, which is attached as an Appendix to this Notice. It will be noted that major changes have been made from the Draft Convention attached to the Notice of Inquiry released August 2, 1974, in the instant proceeding.

5. With regard to regulation 1, Application, appearing in the attached Appendix, it will be noted that there has been a major change from Regulation 1 as it appears in Appendix 2 to the August 2, 1974, Notice of Inquiry. As revised, the regulations in the Draft Convention would apply to "all fishing vessels of 24 meters in length, or 100 gross tonnage, and upwards to which the Convention applies". At both IMCO Sub-Committee meetings there were administrations which favored increasing the gross tonnage upwards from 100 gross tons, while a considerable number favored reducing that value to 50 gross tons. At the meetings, the United States Delegation pressed to delete vessel length as an application criteria.

6. The next meeting of the IMCO Sub-Committee on Radio communications will be held in London, England, during the period March 3-7, 1975, and the information obtained in response to the instant Notice will be used by the Commission in preparation for that meeting.

7. To the extent it has been practical to do so, a concerted effort has been made to bring Chapter X into conformity with the parallel provisions which appear in the Safety of Life at Sea (SOLAS) Convention. We believe this will facilitate reference to regulations of interest, as well as assist in administration of the Draft Convention as ultimately adopted. While these changes represent, in our opinion, substantial improvement over the initial draft (August 2, 1974), they do not conform the draft convention to our National Statutes. The Communications Act (47 U.S.C. 351), for example, requires that cargo ships of 300 gross tons and upward, other than passenger vessels, to be mandatorily equipped with certain specified radio installations without regard to the length of vessel. In addition, it will be noted that starting in regulation 8(g), fifth line, square brackets ([ ]) appear in regulations 8, 9, 11, 12, 13, 15 and 16. These brackets designate unresolved provisions on which the IMCO meetings were unable to reach agreement, due to the shortness of time, desire of administrations to give them more mature consideration at home, or for some other reason. Additional comments are, therefore requested with regard to these matters.

8. In view of the foregoing, a Second Notice of Inquiry is hereby adopted. Authority for this action is contained in section 4(i), 303 and 403 of the Communications Act of 1934, as amended.

9. Interested persons may file comments on or before January 6, 1975, and reply comments on or before January 17, 1975. Comments and reply comments shall be filed pursuant to § 1.419(b) which requires, among other things, an original and 14 copies of all filings. All relevant and timely comments and reply comments filed in this Docket will be considered by the Commission before further action is taken. The Commission may also take into account other pertinent information before it in addition to specific comments elicited by the Second Notice in this proceeding.

10. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

Adopted: November 27, 1974.

Released: August 2, 1974.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-29686 Filed 12-19-74;8:45 am]

[FCC 74-1329; Docket Nos. 20275 and 20276
File Nos. BPH-8404 and BPH-8465]

JECO INC. AND BIG VALLEY BROADCASTING, INC.

Applications for Construction Permits

In re Applications of JECO, INC. (KCTY-FM) Salinas, California (Has: 103.9 MHz, #280; 3 kW (H&V); 300 feet Requests: 103.9 MHz, #280; 3kW (H&V); 120 feet) and BIG VALLEY BROADCASTING, INC. (KTRB-FM) Modesto, California (Has: 104.1 MHz, #281; 4.7 kW (H&V); 260 feet Requests: 104.1 MHz, #281; 1.725 kW (H&V); 1,923.8 feet) for construction permits.

1. The Commission has before it the above-captioned applications for major

* Board Members Kessler and Emerson filed a concurring and dissenting statement (in part) with the original.

[1] Appendix filed with original document.

changes to the existing facilities of stations (KCTY(FM), Salinas, California, and KTRB(FM), Modesto, California, and a petition filed by JECO, Inc. [JECO], licensee of KCTY, to dismiss the application of Big Valley Broadcasting, Inc. [Big Valley].

2. Both applicants seek to change their transmitter sites. Each proposed site meets the minimum mileage separation requirements of § 73.207 of the rules in that the distance between each applicant's proposal and the authorized site of the other complies with the rules. However, the distance between the proposed sites is itself 8.3 miles less than required to determine whether either or mutually exclusive, and a hearing is required to determine whether either or both of the applications should be granted.[1]

3. Although JECO in its petition has failed to indicate the basis for its standing to object to the Big Valley proposal, it is apparent that its standing derives from its status as a potential interferee. See FCC v. NBC, Inc. (KOA), 319 U.S. 239 (1942).

4. In its petition, JECO asserts that the Big Valley application violates section 73.207 of the rules, and therefore that it should not have been accepted for filing by the Commission. JECO argues that the appropriate reference point by which to determine short-spacing for the purposes of § 73.207 is the Salinas post office, since the site presently authorized for the Salinas transmitter is unavailable to JECO, the site owner having donated it to an educational institution. Thus, JECO reasons, the authorized site is "unavailable for use as a reference point" within the meaning of § 73.208(b)(1), and the post office reference point must be used as required by § 73.208(b)(3). However, site unavailability for the applicant's purposes is not necessarily the same as site unavailability for the purposes of § 73.208. Since the continuing development of the FM allocation structure depends on the use of authorized as well as theoretical sites, the Commission must retain control over the location of such sites. Therefore, once a site has been authorized by Commission action, it is deemed available for the purposes of the allocation system until deleted by later Commission action. In other words, § 73.208 requires that an existing site be used as the reference point as long as it continues to be authorized by the Commission. In this way the Commission will always have a definite, known distribution of authorized reference points on which to base future allocation determinations. Thus, inasmuch as the original Salinas site retains its authorization, it is "available" for use as a reference point within the meaning of § 73.208(b). And since Big Valley's proposal, at the time it was tendered for filing, met the spacing requirements with regard to the existing Salinas site, it is acceptable and will not be dismissed.

5. JECO also argues that the explicit language of § 73.207 requires that an applicant demonstrate that its proposal is not short-spaced to any pending proposals as well as existing sites and reference points. As noted above, this is inconsistent with existing policy, which dictates that short-spaced proposals be designated for hearing. Carolina Broadcasting Co., 18 FCC 2d 482 (1969), cited by JECO, does not support petitioner's position. There, no existing authorization was available as a reference point, and the application in question was short-spaced to both the community reference point and a proposed transmitter site. Since the applicant [Carolina] failed to supply sufficient justification to warrant a waiver of its short-spacing vis-a-vis the community reference point, the application was dismissed. Despite the short-spacing to the proposed site, the Commission noted that Carolina would have been entitled to comparative status with the earlier applicant if Carolina had not been short-spaced to the community reference point or if a waiver for that short-spacing has been justified.[2] Here, an authorized site is available, and Big Valley is not short-spaced to it. Thus, Big Valley's proposal is acceptable for filing and entitled to comparative consideration with JECO's application.[3]

6. JECO also alleges that the Big Valley application, originally filed by Big Valley's assignor, KTRB Broadcasting, Inc. (KTRB), is a form of strike application intended to impede and delay the JECO application. In addition, the petitioner asserts that Big Valley and KTRB are engaged in "a novel form of trafficking." JECO raised both of these issues in a previously filed petition in the Big Valley-KTRB assignment proceeding. In a Memorandum Opinion and Order,[4] the opinion, no useful purpose would be served by repeating them. In view of the foregoing, JECO's petition will be denied.

7. The respective proposals, which are for different communities, would serve substantially different areas and populations. Consequently, it will be necessary to determine pursuant to section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service.

8. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

9. *Accordingly, it is ordered,* That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the respective proposals and the availability of other primary aural (1 mV/m or greater in the case of FM) service to such areas and populations.

2. To determine, in light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

10. *It is further ordered,* That the Petition to Dismiss filed by JECO, Inc., is denied.

11. *It is further ordered,* That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issue specified in this Order.

12. *It is further ordered,* That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: December 3, 1974.

Released: December 16, 1974.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS, *Secretary.*

[FR Doc.74-29698 Filed 12-19-74;8:45 am]

---

[1] JECO correctly notes that, while section 1.572(e) of the television processing rules expressly requires a comparative hearing in circumstances such as these, there is no analogous provision in the FM rules. However, Ashbacker Radio Corp. v. FCC, 326 U.S. 327 (1945), requires that a comparative hearing be held when two bona fide applications are mutually exclusive. The Commission has previously followed this policy in a similar FM proceeding. King and King Broadcasters, FCC 69-831, released August 4, 1969.

[2] Atlantic Video Corp., 25 FCC 687 (1970), recon. denied, 32 FCC 2d 519 (1971), cited by JECO in a footnote, presents the same basic facts as Carolina, and thus is similarly not in point.

[3] It should also be noted that the notion, raised obliquely by JECO, that JECO's earlier filing should affect Big Valley's acceptability, is incorrect. If a prior application could render a later one unacceptable, the rule assuring comparative status to such applications would be applicable only to applications filed simultaneously. It is clear that, where two proposals are short-spaced only with regard to their proposed sites, the prior filing of one should give it no advantage over the other.

[4] *KTRB, Inc.*, FCC 74-625, released September 6, 1974, 31 RR 2d 306.

CABLE TELEVISION TECHNICAL ADVISORY COMMITTEE (CTAC)

Steering Committee Meeting

Pursuant to section 10 of the Federal Advisory Committee Act, 5 U.S.C. App. I § 10 (Supp. II, 1972), notice is hereby given of a meeting of the CTAC Steering Committee on January 8 and 9, 1975, to be held at 2025 M St., NW., Washington, D.C.—Room 6331. The meeting is scheduled to commence at 10 a.m.

The agenda is as follows:

(1) Report on November 14 Meeting.

(2) Review of Final Individual Panel Reports (Copies for Distribution).

(3) Review of Material for Final Steering Committee Report.

(4) Recent FCC Activities Relevant to CTAC.

(5) Plans for closing Present Phase of CTAC Activities.

(6) New Business.

(7) Adjournment.

Any member of the public may attend or file a written statement with the Committee either before or after the meeting. Any member of the public wishing to make an oral statement must consult with the Committee prior to the meeting. Inquiries may be directed to Mr. A. M. Rutkowski, FCC, 1919 M St., NW., Washington, D.C. 20554—(202) 632-9797.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20291; RM-2254]

TABLE OF ASSIGNMENTS; FM BROADCAST STATIONS

Notice of Proposed Rule Making

In the Matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Sharpesville, Pennsylvania).

1. Notice of Proposed Rule Making is hereby given concerning amendment of the FM Table of Assignments (§ 73.202 (b) of the Commission's Rules and Regulations) with respect to the petition of Sanford A. Schafitz, licensee of fulltime AM station WFAR, Farrell, Pennsylvania, proposing the assignment of Channel 240A to Sharpsville, Pennsylvania, as its first local broadcast outlet.

2. Sharpsville (population 6,126), located on the Shenango River in Mercer County (population 127,175), is approximately 2.5 miles from the Pennsylvania-Ohio boundary, 19 miles north of New Castle, Pennsylvania and 15 miles northeast of Youngstown, Ohio. It is part of the Shenango Valley business and residential community. Since its incorporation in 1874, Sharpsville's population has steadily increased. Petitioner states that the 1980 Sharpsville population is forecast at 7,000 persons.

3. Sharpsville has no newspaper of its own and is, therefore, serviced by the Sharon Herald, which is circulated in the Sharpsville - Farrell-Sharon-Wheatland, Pennsylvania area. The community is also serviced by two banks: a branch office of both the McDowell National Bank and the National Bank of Mercer County. Transportation facilities are available to the community, since it is located on state and federal interstate roads and is serviced by both the Erie Lackawanna and Penn Central Railroads. Petitioner avers that, as a result of the community's comprehensive land use plan and urban renewal program, Sharpsville has experienced a vast improvement in modern moderately priced housing and rental units. The community's labor force, estimated at 1,600 persons, is primarily engaged in manufacturing, professional services and wholesale and retail businesses. Petitioner avers that the Sharpsville market area will undergo considerable economic growth because of a predicted 50 percent increase in the populations of its adjacent areas. Petitioner also states that the average Sharpsville family, about 3 persons in size, earns a median income of $6,600 which is in excess of the Mercer County average income. The median of the community's educational attainment level is 11.4 years of completed schooling. This is 0.8 years more schooling than the national median.

4. As mentioned above, Sharpsville presently does not have a local broadcast service. Sharon (population 22,653), the largest community in Mercer County and 2 miles southwest of Sharpsville, however, has a daytime-only AM station and a Class B FM station. Another community contiguous with Sharpsville is Farrell (population 11,022), located some 4 miles southwest of it and serviced by petitioner's fulltime AM station, WFAR.

5. With respect to the technical feasibility of a Sharpsville FM channel assignment, adoption of petitioner's proposal would not affect any of the existing FM assignments. Sharpsville, however, is short-spaced 26 miles as to co-channel Canadian station CFPL-FM (Class C_1) at London, Ontario. The Canada-United States agreement on border spacings requires a separation of 150 miles. This Commission has been advised in a May 24, 1973, letter from the Canadian Department of Telecommunications that there would be no objection to the assignment of Channel 240A to Sharpsville.

6. The petitioner's preclusion study indicates that preclusion would occur only as to the requested channel. Use of the adjacent channels is already precluded by existing stations. The areas which would be precluded from using Channel 240A if that channel is assigned to Sharpsville are those areas (1) also short-spaced 26 miles as to Canadian Station CFPL-FM and (2) meeting FCC and Canadian spacing requirements. Two areas are in the short-spaced group of precluded areas. The first is a 93 square mile area which is west of Sharpsville, located between Warren, Ohio and Sharon, Pennsylvania, and contains no communities. The second area contains two communities which presently have FM channel assignments: Oil City, Pennsylvania (WDJR, Channel 253) and Franklin, Pennsylvania (WVEN, Channel 257A). According to the information supplied by petitioner, the precluded area that meets all spacing requirements is small and rural and contains no communities.

7. The Commission notes that petitioner states that he is a "prospective applicant for a new FM broadcast station at Sharpsville, Pennsylvania." Commission policy requires that a petitioner for an FM channel assignment express a commitment to apply for a construction permit for use of a channel if it is assigned. The Commission trusts that petitioner will make this commitment in his comments filed pursuant to this Notice.

8. As petitioner mentions, Sharpsville is located less than 20 miles from Youngstown, Ohio. In this respect, the Commission notes the potential existence of a Berwick issue.[1] Although Berwick issues are usually dealt with at the application stage, we wish to make note of the issue in this Notice. The Commission trusts that petitioner will express his commitment to serve the needs and interests of the Sharpsville community, the community of assignment, and not those of the community of Youngstown.

9. Accordingly, in view of the foregoing and pursuant to authority contained in sections 4(i), 5(d)(1), 303 and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules and Regulations, we propose for consideration the following revision in our FM Table of Assignments (§ 73.202(b) of the rules and regulations) with respect to Sharpsville, Pennsylvania, as follows:

§ 73.202 Table of assignments.

City	Channel No.	
	Present	Proposed
Sharpsville, Pa.		240A

* * * * *

10. *Showings required.* Comments are invited on the proposal discussed above. Proponent will be expected to answer whatever questions that may be presented in initial comments. The proponent of the proposed assignment is also expected to file comments even if he only resubmits or incorporates by reference his former pleading. He should also state his intention to apply for the channel if it is assigned, and if authorized, to build the station promptly. Failure to file com-

ments or address the issues raised may lead to denial of the request.

11. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

12. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before January 24, 1975, and reply comments on or before February 13, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

13. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Adopted: December 11, 1974.

Released: December 17, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

FEDERAL ENERGY ADMINISTRATION

WHOLESALE PETROLEUM ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Wholesale Petroleum Advisory Committee will meet Tuesday, January 7, 1975, at 9 a.m. at the Regency Hyatt House, 265 Peachtree Street, NE., Atlanta, Georgia.

The Committee was established to advise the Administrator, Federal Energy Administration, with expert and technical advice concerning the wholesale trade of selling heating oil, residual fuel, and gasoline.

The agenda for the meeting is as follows:

A. Old Business:
1. Review of Conservation Measures.
2. Discussion of Unleaded Gasoline Pricing and Octane.
3. Review of Crude Equalization Program.
B. New Business:
1. Discussion of Compliance Problems.
2. Review of Problems Associated with Suppliers' Distribution.
3. Review of New FEA Forms.
4. Discussion of Product Cost Increases and the Banking Provision for Costs.
5. Discussion of Two-Tier Pricing.
6. Remarks from the Floor (10 Minute Rule).

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Office, (202) 961-7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on December 16, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

FEDERAL POWER COMMISSION

[Docket No. ID-1747]

ALLAN K. HAMER

Initial Application

DECEMBER 13, 1974.

Take notice that on November 29, 1974, Allan K. Hamer (Applicant) filed an initial application with the Federal Power Commission, pursuant to section 305 (b) of the Federal Power Act to hold the following positions:

Director and president.	Fall River Electric Light Co.	Public utility.
Director	Mantaup Electric Co.	Do.

Fall River Electric Light Company ("Fall River"), a Massachusetts corporation having its principal place of business at 85 North Main Street, Fall River, Massachusetts, owns and operates facilities for the distribution of electric energy at retail in the city of Fall River and in neighboring towns of Swansea, Somerset, the major part of Dighton, and a part of Westport, all in Massachusetts. Fall River also supplies electric energy to The Narragansett Electric Company for resale. Most of the energy sold by Fall River is purchased from Mantaup Electric Company.

Mantaup Electric Company ("Mantaup"), a Massachusetts corporation having its principal place of business in Somerset, Massachusetts, owns and operates facilities in that town for the generation of electric energy and facilities in Somerset and elsewhere in Massachusetts for the transmission of such energy. Most of the electric energy which it generates, together with additional energy which it purchases, is sold to Blackstone Valley Electric Company ("Blackstone"), Brockton Edison Company ("Brockton") and Fall River which companies together own all of Mantaup's outstanding securities except short-term notes.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 31, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29667 Filed 12-19-74;8:45 am]

[Docket No. E-7775]

APPALACHIAN POWER CO.

Extension of Time

DECEMBER 13, 1974.

On December 12, 1974, Appalachian Power Co., filed a motion to extend the time for filing briefs on exceptions and briefs opposing exceptions to the Administrative Law Judge's Decision issued November 1, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the date for filing briefs on exceptions is extended to January 6, 1975, and the date for filing briefs opposing exceptions is extended to February 5, 1975.

KENNETH F. PLUMB,
Secretary.

APPALACHIAN POWER CO. ET AL.

Changes in Rates and Charges

DECEMBER 12, 1974.

Take notice that American Electric Power Service Corporation (AEP) on November 29, 1974, tendered for filing on behalf of its affiliates, Appalachian Power Company (Appalachian), Ohio Power Company (Ohio), and Wheeling Electric Company (Wheeling), Modification No. 3 dated January 1, 1975 to the Operating Agreement dated June 1, 1971 among

Appalachian, Ohio, Wheeling, Monongahela Power Company and West Penn Power Company, designated Appalachian Rate Schedule FPC No. 55, Ohio Rate Schedule FPC No. 73 and Wheeling Rate Schedule FPC No. 5.

AEP states that Section 1 of Modification No. 3 provides for an increase in the Demand Charge for Short Term Power from $0.45 to $0.50 per kilowatt per week and Section 2 provides for an increase in the Demand Charge for Limited Term Power from $2.50 to $2.75 per kilowatt per month, both schedules proposed to become effective January 1, 1975. Applicant states that since the use of Short Term and Limited Term Power cannot be accurately estimated, it is impossible to estimate the increases in revenues resulting from the Modification.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. E-8855, E-9037]

BOSTON EDISON CO.

Extension of Procedural Dates

DECEMBER 13, 1974.

On December 6, 1974, Staff Counsel filed a motion to extend the procedural dates fixed by order issued July 12, 1974, as most recently modified by notice issued October 10, 1974, in the above designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, December 24, 1974.
Service of Intervenor's Testimony, January 20, 1975.
Service of Company Rebuttal, February 4, 1975.
Hearing, February 18, 1975.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8712]

CAROLINA POWER & LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Increase and Establishing Procedures

DECEMBER 12, 1974.

On April 1, 1974,[1] Carolina Power & Light Company (CP&L) tendered for filing, as a proposed change in its rates, a contract dated March 30, 1973, between CP&L and the United States Department of Interior, Southeastern Power Administration (SEPA)[2].

The March 30, 1973, contract provides for the sale, purchase and transmission of electric power and energy generated at the John H. Kerr Project, a multipurpose Federal reservoir project operated by the Corps of Engineers. Electric power and energy generated at the project and not required in the operation thereof is sold for the Department of Interior by SEPA pursuant to its Wholesale Power Rate K8-2-A[3] to its preference customers and to CP&L.

CP&L submitted the March 30, 1973, contract pursuant to section 205 of the Federal Power Act for the purpose of superseding a contract dated December 7, 1955, as amended, between SEPA and CP&L which is on file with the Commission as CP&L's Rate Schedule FPC No. 42. The March 30, 1973, contract would increase CP&L's rates to SEPA for transmitting power and energy from the Kerr Project to SEPA's preference customers (municipalities and electric cooperatives) located in CP&L's service territory through certain changes in the number and boundaries of the geographical zones wherein the power and energy is wheeled and delivered by CP&L together with other changes in the wheeling charges of CP&L. The December 3, 1973, contract states that Zone 1 will continue to include all preference customer delivery points within 100 miles of the Kerr Project but the wheeling charge for Zone 1 will be changed from 0.93 mills per kwh to 1 mill per kwh. Zone 2 will include delivery points between 100 and 150 miles of the Kerr Project instead of between 100 and 165 miles of the Project as at present and the wheeling charge for Zone 2 will be increased from 1.73 mills per kwh to 1.75 mills per kwh. Additionally, Zone 3 will be established to include all delivery points located more than 150 miles from the Kerr Project, with a wheeling charge of 2.50 mills per kwh to be applicable to the deliveries in this zone. Our investigation indicates that CP&L will deliver an aggregate of approximately 122,000 megawatt-hours each year to SEPA's preference customers in the three zones and that CP&L's total charges to SEPA under the March 30, 1973, contract for this transmission service will be approximately $195,000 annually. The March 30, 1973 contract provides for payment of this amount by specifying a monthly transmission service charge of $16,250.

The March 30, 1973 contract also provides for continuation of the existing arrangement whereby CP&L sells deficiency energy to SEPA's preference customers whenever energy is not available to said customers from the Kerr Project. It is also provided that such sales are to be made at the same rate charged by SEPA for energy sold to its preference customers (currently 4.50 mills per kwh), but not less than 4.50 mills per kwh. Similar provisions for CP&L's sales of deficiency energy to preference customers are contained in CP&L's Rate Schedule FPC No. 42. The March 30, 1973, contract does not, therefore, change CP&L's deficiency energy rate to preference customers.

Notice of the CP&L's April 1, 1974, filing was issued on April 17, 1974, with comments, protests or petitions to intervene due on or before April 25, 1974. To date, this Commission has received no pleadings in response to this notice.

Our review of the March 30, 1973, contract indicates that CP&L's proposed increased rates and charges to SEPA for wheeling power and energy may be excessive under the applicable ratemaking standards of the Commission and therefore, may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful within the meaning of the Federal Power Act. Accordingly, we will accept CP&L's April 1, 1974, filing as completed on November 12, 1974, for filing, suspend for one day and permit the rates to go into effect subject to refund. Furthermore, we shall direct that a hearing be held to determine the lawfulness of CP&L's proposed Rate Schedule FPC No. 103. It is our intention that this hearing should concern CP&L's increased wheeling charges to SEPA, but need not concern CP&L's charges for deficiency energy sales to SEPA's preference customers.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act, particularly sections 205, 206, 307, 308 and 309 thereof, that the Commission enter upon a hearing concerning the lawfulness of the proposed rates and charges contained in CP&L's proposed Rate Schedule FPC No. 103 and that said tariff sheet be suspended as hereinafter ordered.

[1] The April 1, 1974, filing was completed on November 12, 1974. Therefore, November 12, 1974, is assigned as the filing date for this filing.

[2] Designated as: Carolina Power & Light Company, Rate Schedule FPC No. 103.

[3] Accepted by Commission order dated January 7, 1974, in Docket No. E-7002 to become effective on that date.

(2) Good cause exists to suspend CP&L's proposed Rate Schedule FPC No. 103 for one day, to become effective December 13, 1974, subject to refund.

(3) Good cause exists to accept for filing CP&L's proposed Rate Schedule FPC No. 103.

(4) The disposition of this proceeding should be expedited in accordance with the procedures set forth below.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held on May 28, 1975, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning the lawfulness of CP&L's proposed tariff sheet.

(B) Pending a hearing and final decision thereon, CP&L's proposed tariff sheet designated as Rate Schedule FPC No. 103 is hereby suspended for one day and the use thereof deferred until December 13, 1974, subject to refund.

(C) On or before February 14, 1975, CP&L shall serve its case-in-chief, including testimony and exhibits in support of its proposed increased wheeling charges to SEPA. The Commission Staff shall serve its prepared testimony and exhibits on or before May 16, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) CP&L's proposed Rate Schedule FPC No. 103 is hereby accepted for filing and permitted to become affective December 13, 1974, subject to refund.

(G) Nothing contained herein should be construed as limiting the rights of the parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.8 of the Commission's rules of practice and procedure.

(H) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-29664 Filed 12-19-74;8:45 am]

[Docket No. RP75-14]

CONSOLIDATED GAS SUPPLY CORP.

Order Rejecting Without Prejudice Proposed Tariff Sheets and Permitting Intervention

DECEMBER 13, 1974.

On September 9, 1974, Consolidated Gas Supply Corporation (Consolidated) tendered for filing "Pro Forma" tariff sheets which would permit Consolidated to include in rate base amounts expended for construction work in progress (CWIP). Such treatment would be accorded to any gas supply or gas supply-related project exceeding $10 million in cost and requiring a construction period of more than twelve months. Acceptance by the Commission of Consolidated's proposal would permit the Company to recover in its current rates the cost of capital associated with such construction work. Present Commission practice permits only the capitalization of the cost of money used during construction.

Consolidated does not seek to make the proposed tariff sheets effective prior to approval by the Commission. The Company does request, however, that a hearing be convened to consider the proposed sheets.

In support of its filing, Consolidated states that acceptance of the proposed tariff sheets would increase the Company's cash flow and improve the quality of its securities, thereby enhancing its ability to finance major new construction.

Notice of Consolidated's filing was issued on September 18, 1974, with comments, protests or petitions to intervene due on or before October 1, 1974. Timely petitions to intervene were filed by thirteen companies.[1] An untimely petition to intervene was received from Southern Tier Gas Corporation. Each petitioner generally alleged that it has a direct interest in this proceeding which is not adequately represented by existing parties.

On November 14, 1974, the Commission issued[2] a "Notice of Proposed Rulemaking" which would amend the Uniform Systems of Accounts for Public Utilities and Licensees and for Natural Gas Companies (Classes A, B, C and D), as well as the regulations under the Federal Power Act and Natural Gas Act, to permit inclusion of CWIP in rate base. If the "Proposed Rulemaking" were adopted, amounts that could be included, pursuant to this amendment, in the rate bases of natural gas companies would be those amounts expended and recorded in Account 107, "Construction Work in Progress—Gas". The Commission has stated that any interested person may submit, in writing and not later than December 30, 1974, any data, views, comments or suggestions concerning said "Proposed Rulemaking."

Our review of Consolidated's filing, in light of the "Proposed Rulemaking" issued in Docket No. RM75-13, indicates that acceptance of or a hearing on the tendered "Pro Forma" tariff sheets would be premature at this time. Accordingly, we shall reject these tariff sheets without prejudice to Consolidated's right to file data, views, comments or suggestions concerning said "Proposed Rulemaking", and without prejudice to Consolidated's right to file such new tariff sheets, if any, as may be appropriate after the Commission has acted on said "Proposed Rulemaking".

The Commission finds:

(1) Participation in this proceeding of the above-named petitioners to intervene may be in the public interest.

(2) Good cause exists to reject Consolidated's filing as hereinafter ordered and conditioned.

The Commission orders:

(A) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene, and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that it may be aggrieved because of any order or orders issued by the Commission in this proceeding.

(B) Consolidated's "Pro Forma" tariff sheets, tendered for filing on September 9, 1974, are hereby rejected without prejudice to Consolidated's right to file data, views, comments or suggestions concerning the "Proposed Rulemaking" in Docket No. RM75-13, and without prejudice to Consolidated's right to file such new tariff sheets, if any, as may be appropriate after the Commission has acted on said "Proposed Rulemaking".

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[Docket No. ID-1723]

FRANK N. BIEN

Supplemental Application

DECEMBER 13, 1974.

Take notice that on November 19, 1974, Frank N. Bien (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following positions:

Executive Vice President & Director, Ohio Electric Company, Public Utility.

Ohio Electric Company, whose principal office is located at 301 Cleveland Avenue, SW., Canton, Ohio 44702 owns and operates the General James M. Gavin Plant at Gallipolis, Ohio which, when completed, will have two 1300 megawatt generating units. All of Ohio

[1] These petitioners are Rochester Gas and Electric Corporation, Public Service Commission of the State of New York, Public Service Commission of West Virginia, Michigan Wisconsin Pipe Line Company, The Peoples Natural Gas Company, Texas Eastern Transmission Corporation, Columbia Gas Transmission Corporation, Colorado Interstate Gas Company, New York State Electric and Gas Corporation, Tennessee Gas Pipeline Company, Algonquin Gas Transmission Company, Niagara Mohawk Power Corporation, and Transcontinental Gas Pipe Line Corporation.

[2] Docket No. RM75-13.

Electric Company's available electric energy is sold to Ohio Power Company, of which it is a wholly owned subsidiary.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protest filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29661 Filed 12-19-74;8:45 am]

GERALD P. MALONEY

Supplemental Application

[Docket No. ID-1549]

DECEMBER 13, 1974.

Take notice that on November 19, 1974, Gerald P. Maloney (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

Vice President & Director, Ohio Electric Co., Public Utility.

Ohio Electric Company, whose principal office is located at 301 Cleveland Avenue, SW., Canton, Ohio 44702, owns and operates the General James M. Gavin Plant at Gallipolis, Ohio which when completed, will have two 1300 megawatt generating units. All of Ohio Electric Company's available electrical energy is sold to Ohio Power Company, of which it is a wholly owned subsidiary.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29670 Filed 12-19-74;8:45 am]

[Docket No. E-9153]

GULF STATES UTILITIES CO.

Application

DECEMBER 13, 1974.

Take notice that on December 2, 1974, Gulf States Utilities Company (Applicant), filed an application with the Federal Power Commission, pursuant to Section 204 of the Federal Power Act seeking authorization to negotiate with at least three underwriters regarding the proposed issuance and sale of Common Stock by negotiated underwriting.

Applicant seeks permission to negotiate with underwriters regarding the terms upon which the securities might be issued, in order to determine whether application for exemption from competitive bidding requirements of § 34.1a (a) (b) and (c) of the Commission's regulations under the Federal Power Act should be made. Applicant represents that it has not engaged in any negotiations for the sale or underwriting of securities.

Applicant is incorporated under the laws of the state of Texas, with its principal business office at Beaumont, Texas and is engaged in the electric utility business in portions of Louisiana and Texas.

Any person desiring to be heard or to make any protest with reference to the application should on or before December 31, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29666 Filed 12-19-74;8:45 am]

[Docket No. E-8967]

INDIANA AND MICHIGAN ELECTRIC CO.

Order Denying Petition for Rehearing

DECEMBER 13, 1974.

On August 21, 1974, Indiana and Michigan Electric Company (I&M) tendered for filing an unsigned agreement with the City of Auburn, Indiana (Auburn), which would provide service for Auburn under I&M's FPC Tariff WS. The new rate schedule was filed to cancel and supersede I&M's FPC Rate Schedule No. 29, pursuant to which Auburn has been served under Tariff IP for the duration of its 1964 contract with I&M.

By order of October 18, 1974, we conditionally accepted the proposed service agreement for filing and ordered I&M and Auburn to file briefs on the limited issue of contract interpretation of certain provisions of their Service Agreement. In our October 18 order we did dispose of one issue of contention between the parties, that of the date on which the ten-year term of the Service Agreement commenced. In its pleadings Auburn argued that, assuming it did not have the right to elect to continue service under Tariff IP according to the terms of the contract, the earliest date it could be served under Tariff WS would be November 17, 1974, since the ten-year contract was signed on November 16, 1964. I&M, on the other hand, argued that the 1964 contract actually began to run on October 21, 1974, since service to Auburn actually commenced on that date. After a review of the pleadings and the contract in question, we determined that the ten-year term of the I&M-Auburn Service Agreement actually began to run on October 21, 1964, even though the contract was not formally signed until November 16, 1964. For the purposes of assigning an effective date to our conditional acceptance of I&M's filing in our October 18, 1974 order, we therefore determined that the ten year term of the 1964 contract would expire at 11.59 p.m. on October 20, 1974. Our finding was premised on the following contract language in the 1964 I&M-Auburn Service Agreement:

> The Company is to furnish and the Customer is to take electric energy under the terms of this Agreement for a period of ten (10) years from the time such service is commenced * * *

This clear and unambiguous language establishing the commencement of the ten-year period to be the initiation of service to Auburn and the fact that I&M's billing records indicate service commenced on October 21, 1964, dictated our conclusion.

On November 18, 1974, Auburn filed a petition for rehearing of that part of our October 18, 1974 order which determined the date on which the ten-year term of the I&M-Auburn contract commenced and which therefore concluded the expiration date to be October 20, 1974. Auburn argues that the Commission failed to give weight to other provisions of the contract which, according to Auburn, support the proposition that the ten-year term did not commence until the contract was formally signed. For this proposition Auburn cites the following contract language: (a) I&M has agreed to furnish service to Auburn under Tariff IP "* * * during the term of this Agreement * * *"; (b) "There are no unwritten understandings or agreements relating to the service hereinabove provided"; (c) "This Agreement cancels and supersedes all previous agreements relating to the purchase by Customer and sale by Company of electric energy * * *"; and (d) "This Agreement shall be in full force and effect when signed by the authorized representatives of the parties hereto." Auburn argues that these contractual phrases

provide that the contract did not come into full force and effect until November 16, 1964, the date it was signed by the parties, and I&M did not commence service to Auburn *under the written agreement* until that date (italics by Auburn). Auburn concludes therefore, that the Commission erred in conditionally accepting I&M's filing to be effective October 21, 1974.

Contrary to the assumption made by Auburn, service to Auburn prior to the date of the actual signing of the contract could indeed be the point of reference agreed to by the parties from which the ten year term of the contract began to run. The provision in the contract providing for a ten year term expressly provided that the term of ten years began from the date of commencement of service and not from the date of the signing of the contract. Moreover, if the parties had intended that the ten-year term run from the date of the signing of the contract or even a later date they had the express opportunity to so provide. The contract provides the following: "The date that service shall be deemed to have commenced under this Agreement shall be ——— ." To insure that the ten-year term commenced from another date than that of October 21, 1964, the parties had merely to fill in a date on this blank. They did not do so, even though both were assuredly cognizant that I&M had been serving Auburn under Tariff IP for nearly a month prior to the signing of the formal contracts.

Although, as Auburn alleges, the contract provides that it be in full force and effect upon its signing, there is nothing in contract law to preclude the parties from adopting as the date from which a ten-year term is to commence a date prior to the signing of the contract. Indeed it is a solid premise of contract law that the parties may agree and contract to any term so long as that term is lawful. This contract is a clear instance in which the parties agreed to adopt as the beginning of their ten-year term for contractual service a date prior to the actual signing of the contract. This conclusion proceeds logically and reasonably from the existence of the separate provision giving the parties the opportunity to fill in any date they chose to consider as the date service commenced under the contract (regardless of when actual service began). The conclusion that the parties considered a past date as appropriate for the commencement of the ten-year term is inherent also in the phraseology of the provision which allows the parties to fill in a date that they deemed service "to have commenced under this Agreement". From the fact that the parties had full knowledge that service had already commenced to Auburn, the unambiguous language in the contract providing that the ten year term begin to run from the commencement of service to Auburn, and the by-passed opportunity in the contract for the parties to stipulate another date service was deemed to have been commenced under the contract, it is clear that the ten year term for the I&M-Auburn service agreement began to run on October 21, 1964.

None of the four contract terms cited by Auburn in its Petition for Rehearing leads us to a different conclusion since those provisions do not preclude the parties from adopting a date prior to the signing of the contract as the commencement of the ten-year term. It is clear from the language of the contract that the parties intended the term of the Agreement to relate back to the date upon which service to Auburn commenced. Moreover, this is not an instance where any unwritten understanding or agreement is involved since the parties reduced to writing, in clear and unambiguous language, their intent to commence the ten-year term of the Agreement with the already past initiation of service to Auburn. Nor, as Auburn insinuates, does the question of the date the ten-year term of service involve any cancelled or superseded previous agreement. There is only one agreement for service and the contract reduced those terms to writing, including the provision relating to the date upon which service was to have begun under the Agreement. As to the phrase providing that the Agreement shall be in full force and effect when signed, Auburn is quite correct in stating that the signing of the Agreement performed that function. What Auburn has apparently neglected to consider is that the signing of the Agreement gave full force and effect to every provision in the contract, including the provision that the ten year term shall have begun when service to Auburn commenced.

For these above reasons we shall affirm our prior finding in our October 18, 1974 order regarding the date on which the 1964 I&M-Auburn contract began to run and deny Auburn's petition for rehearing of that part of our order. We note, however, that our finding in the prior order was for the purpose of establishing a date upon which I&M could place into effect its tendered filing pursuant to our conditional acceptance of it, pending our final determination of the merits of the case.

The Commission finds:

Auburn's Petition for Rehearing of part of our order of October 18, 1974, in Docket No. E-8967 raises no new issues of fact or law that have not been fully considered by the Commission that would justify the granting of the petition for rehearing.

The Commission orders:

(A) Auburn's Petition for Rehearing of our order of October 18, 1974, in Docket No. E-8967 is hereby denied.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. ID-1794]

JOHN R. BURTON

Supplemental Application

DECEMBER 12, 1974.

Take notice that on November 19, 1974, John R. Burton (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

Secretary, Ohio Electric Co., Public Utility.

Ohio Electric Company, whose principal office is located at 301 Cleveland Avenue, SW., Canton, Ohio 44702, owns and operates the General James M. Gavin Plant at Gallipolis, Ohio which, when completed, will have two 1300 megawatt generating units. All of Ohio Electric Company's available electrical energy is sold to Ohio Power Company, of which it is a wholly owned subsidiary.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and prodcedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29068 Filed 12-19-74;8:45 am]

[Docket No. RP71-16; PGA75-3A]

MIDWESTERN GAS TRANSMISSION CO.

Alternate PGA Filing

DECEMBER 13, 1974.

Take notice that on December 9, 1974, Midwestern Gas Transmission Company (Midwestern) tendered for filing Second Substitute Seventh Revised Sheet No. 5 and Substitute First Revised Sheet No. 85 to Third Revised Volume No. 1 of its FPC Gas Tariff, to be effective on January 1, 1975.

Midwestern states that on November 15, 1974, it made a PGA filing which increased its Northern System Base Tariff Rates to reflect a Canadian supplier rate increase to $1.00 (Canadian) per MMbtu and made certain related technical changes in Midwestern's Northern System PGA provisions. Such increased Base Tariff Rates were also reflected, according to Midwestern, in its filing of November 22, 1974, to reflect a reduction in its Northern System rates pursuant to

a Commission-approved settlement affecting a reduction in the depreciation rate for the Northern System.

Midwestern states that the substitute sheets filed on December 9, 1974, remove the Canadian increase from its Northern System Base Tariff Rates and reflect such increase as a Current Purchased Gas Cost Rate Adjustment, should the Commission determine that such a revision is necessary. Midwestern requests that the Commission, if it should decline to accept the tariff sheets as filed on November 15 and 22, 1974, accept such alternative tariff sheets along with the other tariff sheets filed November 15, 1974, which are unaffected by this adjustment, to be effective as of January 1, 1975. In such event, Midwestern requests that the Commission grant such waivers of its regulations as may be necessary.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29671 Filed 12-19-74;8:45 am]

[Docket No. RP72-140; PGA75-4A]

MISSISSIPPI RIVER TRANSMISSION CORP.

Proposed Change in Rates

DECEMBER 12, 1974.

Take notice that Mississippi River Transmission Corporation (Mississippi) on November 25, 1974, tendered for filing Alternate Twenty-Fourth Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1 to become effective December 1, 1974.

Mississippi states that the instant filing was made pursuant to the purchased gas cost adjustment provisions of Mississippi's tariff to supplement Mississippi's purchased gas cost adjustment filing of October 16, 1974, in order to reflect the applicable rate under Rate Schedule CD-1 to Mississippi's tariff on December 1, 1974, excluding the effect of United Gas Pipe Line Company's (United) National Rate Surcharge.

Mississippi requested that Alternate Twenty-Fourth Revised Sheet No. 3A be accepted for filing effective December 1, 1974, if, and only if, the Commission should not approve United's National Rate Surcharge. In the event the Commission should approve such surcharge, Mississippi renews its request of October 16, 1974 that Twenty-Fourth Revised Sheet No. 3A be made effective December 1, 1974.

Mississippi submitted schedules containing computations supporting the rate changes to be effective December 1, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission to determine appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP75-166]

MONTANA-DAKOTA UTILITIES CO.

Application

DECEMBER 13, 1974.

Take notice that on December 5, 1975, Montana-Dakota Utilities Co. (Applicant), 400 North Fourth Street, Bismark, North Dakota 58501, filed in Docket No. CP75-166 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the regulations under the Act (18 CFR 157.7(b)), for a certificate of public convenience and necessity authorizing the construction during the 12-month period commencing August 1, 1975, and operation of natural gas purchase facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in various producing areas generally coextensive with said system.

Applicant states that the total cost of the proposed facilities will not exceed $2,680,000 with no single project to exceed $670,000. Applicant proposes to finance the proposed facilities with internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 8, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7942]

NANTAHALA POWER AND LIGHT CO.

Further Extension of Procedural Dates

DECEMBER 13, 1974.

On December 10, 1974, Nantahala Power and Light Company filed a motion to extend the procedural dates fixed by order issued September 26, 1974, as modified by notice issued October 18, 1974, in the above-designate matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Testimony, December 16, 1974.
Service of Staff and Intervenor's Testimony, January 10, 1975.
Service of Company Rebuttal, January 24, 1975.
Hearing, February 3, 1975 (10 a.m. e.s.t.).

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-317]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Petition To Amend

DECEMBER 13, 1974.

Take notice that on November 19, 1974, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP73-317 a petition to amend the order issued in said docket on August 29, 1973 (50 FPC 602), as amended November 16, 1973 (50 FPC ——), pursuant to section 7(c) of the Natural Gas Act by authorizing the extension to October 31, 1977, of the period during which redeliveries may be made by Applicant to Iowa-Illinois Gas and Electric Company (Iowa-Illinois) from Northern Illinois Gas Company (NI-Gas) and the rescheduling of said deliveries so as to enable NI-Gas to retain a portion of the gas previously delivered by Petitioner from Iowa-Illinois under the authorization granted in the August 29, 1973, order, all as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection.

By the August 29, 1973, order, as amended, the Commission authorized rescheduling of deliveries under which Petitioner states it delivered approximately 3 million additional Mcf of natural gas to NI-Gas during the period ending December 1, 1973. Said gas was released by Iowa-Illinois. By the August 29, 1973, order Petitioner was further authorized to redeliver equivalent volumes to Iowa-Illinois during the period April 1974 through October 1976 to be provided by release of gas by NI-Gas. Petitioner states that delivery to NI-Gas was completed on November 3, 1973.

Petitioner states that Iowa-Illinois has determined that there exists a substantial possibility that it will be unable to supply the requirements of its firm consumers under certain severe weather conditions subsequent to the 1974-1975 winter heating season and is, therefore, interested in making the necessary arrangements which will minimize the development of an emergency situation during the winter heating seasons of 1975-1976 and 1976-1977, by means of increasing deliveries to it during said periods. Petitioner further states that NI-Gas is interested in retaining as much as possible of the approximately 3 million Mcf of natural gas it received under the terms of the rescheduling agreement.

In view of these circumstances, Petitioner proposes, at the request of NI-Gas and Iowa-Illinois, to extend the term of redeliveries to Iowa-Illinois to October 31, 1977, and to make redeliveries as follows:

(1) From November 1, 1975, to April 1, 1976, 420,000 Mcf at a maximum daily rate of 5,000 Mcf;
(2) From November 1, 1976, to April 1, 1977, 420,000 Mcf at a maximum daily rate of 12,000 Mcf.

In addition Petitioner proposes that any portion of the 420,000 Mcf not used by Iowa-Illinois during the 1975-1976 winter period shall be available during the following winter period and that any portion of the total 840,000 Mcf not used during the 1976-1977 winter period shall be delivered to Iowa-Illinois during the period April 1, through October 31, 1977. In consideration of the rescheduled winter redeliveries of 840,000 Mcf of gas, NI-Gas would retain the remaining 2,160,000 Mcf of gas previously received by it.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before January 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7690 (PTP Cost-Rules)]

NEW ENGLAND POWER POOL AGREEMENT (NEPOOL)

Extension of Procedural Dates

DECEMBER 12, 1974.

On December 9, 1974, New England Power Pool filed a motion to extend the procedural dates fixed by order issued July 23, 1974, as most recently modified by notice issued October 29, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Rebuttal Evidence, January 17, 1975.
Hearing, January 22, 1975 (10 a.m. e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29678 Filed 12-19-74;8:45 am]

[Docket No. CP74-290]

NORTHERN BORDER PIPELINE CO.

Supplement to Application

DECEMBER 13, 1974.

Take notice that on November 15, 1974, Northern Border Pipeline Company, a partnership (Applicant), 20 Montchanin Road, Wilmington, Delaware 19807, filed in Docket No. CP74-290 a supplement to its application filed in said docket pursuant to section 7(c) of the Natural Gas Act by submitting Exhibit P, its proposed tariff, in compliance with § 157.14(a)(13)(i) of the Commission's regulations under the Natural Gas Act (18 CFR 157.14(a)(13)(i)), all as more fully set forth in the supplement which is on file with the Commission and open to public inspection.

By its application in the subject docket filed May 14, 1974,[1] Applicant seeks a certificate of public convenience and necessity authorizing the construction and operation of facilities to transport as a contract carrier natural gas in interstate commerce from the international border near Monchy, Saskatchewan, Canada, across approximately 1,619 miles to a point near Delmont, Pennsylvania, for the account of various contract shippers. Applicant did not accompany said application with certain exhibits, including Exhibit P. Applicant now submits as Exhibit P its proposed tariff which contains a cost-of-service form of rate schedule for firm transportation service.

Applicant states that it shall transport gas only pursuant to written contracts in the form of service agreements as set out in its proposed tariff and that Applicant will, to the extent possible, provide the same contract for each shipper. Applicant further states that its tariff generally contemplates that Applicant will transport gas owned by shippers, rather than purchase and sell the gas. According to the provisions of the proposed tariff:

Each shipper may tender any amount up to its contractual maximum daily quantity (MDQ), and Applicant is obligated to accept all of such tendered gas within the separate contractual quantities for each delivery point. Deliveries by a shipper in excess of its MDQ, which excess Applicant may refuse to receive, are subject to an overrun transportation charge pursuant to Applicant's proposed Rate Schedule OT-1. Applicant will redeliver thermally equivalent volumes to each shipper reduced by each shipper's share of gas necessary to run Applicant's compressors, for line pack and for other uses and losses associated with gas transportation. In return for the transportation of its gas, each shipper must pay its allocable share of Applicant's cost-of-service.[2] Pursuant to Ap-

[1] The application was noticed in the FEDERAL REGISTER on June 14, 1974 (39 FR 20919).

[2] Applicant states that it has not yet determined the rate of return on common equity that it will propose but that it will do so at a later time.

become a party to a proceeding or to par-

plicant's proposed Rate Schedule T–1, each shipper will pay to Applicant an amount equal to the proportion that its contract Mcf-miles bears to the total contract Mcf-miles of all shippers[*] (so that all shippers together must pay 100 percent of Applicant's cost-of-service). The return component (rate-of-return x rate base) of Applicant's cost-of-service will be computed monthly. Working capital, a component of the rate base, will include 150 percent of monthly gas operating and maintenance expenses, plus prepayments, materials and supplies, and required deposits. Amounts actually billed each month to the shippers will be based on advanced estimates, with adjustments to later charges for the difference between estimates and actual cost to each shipper. If Applicant takes less than 80 percent of gas tendered (within the MDQ) by a shipper, that shipper shall be entitled to a reduction equal to the proportion the volume tendered but not received bears to that shipper's MDQ multiplied by return on common equity, plus applicable taxes.

Applicant states that the proposed tariff, based on the concept of a cost-of-service charge, is designed to furnish security for prospective investors. Applicant also states that it will not build or contribute to the cost of building any lateral pipelines to shippers or other persons.

Any person desiring to be heard or to make any protest with reference to said supplement should on or before January 2, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Any person who has heretofore filed a protest or petition to intervene need not file again.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–29679 Filed 12–19–74;8:45 am]

[Docket No. E–9155]

NORTHERN STATES POWER CO.

Proposed Changes in Rates and Charges

DECEMBER 13, 1974.

Take notice that Northern States Power Company (Wisconsin), Eau Claire, Wisconsin, on December 6, 1974, tendered for filing First Revised Schedule A to their contracts with the following eleven wholesale customers.

	FPC Rate Schedule No.
Bangor	37, Supplement No. 2
Cadott	42, Supplement No. 2
Bloomer	45, Supplement No. 2
Cornell	47, Supplement No. 2
New Richmond	48, Supplement No. 2
Spooner	49, Supplement No. 2
Whitehall	51, Supplement No. 2
Trempealeau	52, Supplement No. 2
Black River Falls	54, Supplement No. 2
Westby	55, Supplement No. 4
Rice Lake	56, Supplement No. 1

The rate schedule is proposed to be effective for deliveries of power and energy on and after February 6, 1975.

Northern States Power Company (Wisconsin) states that the proposed rate schedule will increase revenues from their wholesale customers by $944,151, based on sales for the test year ended September 30, 1974. The Company says that it realized an operating loss before income taxes on its wholesale business in the test period and that rising financing and operating costs necessitate an increase in its rates which have not been changed since 1937 except for a decrease in 1947 and a subsequent addition of a fuel adjustment clause. The filing also proposes modifications in rate design, and fuel cost base in the fuel adjustment clause.

A copy of the filing has been mailed to each of Northern States Power Company (Wisconsin) customers affected by the proposed change and to the Public Service Commission of Wisconsin.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–29680 Filed 12–19–74;8:45 am]

[Docket No. CI75–355]

PENNZOIL PRODUCING CO.

Application

DECEMBER 13, 1974.

Take notice that on November 29, 1974, Pennzoil Producing Company (Applicant), 900 Southwest Tower, Houston, Texas 77002, filed in Docket No. CI75–355 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to United Gas Pipe Line Company (United) from the Walker Creek Field, Columbia County, Arkansas, and delivery of said gas to Beacon Gasoline Company for redelivery to United at a point on United's pipeline in Webster Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell to United from the subject acreage estimated monthly volumes of 60,000 Mcf of natural gas for a term of one year from January 13, 1975, or until recycling operations are fully implemented in the Walker Creek Field, whichever comes first, at 60 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Initial upward Btu adjustment is estimated to be 1.8 cents per Mcf. Applicant states that it expects recycling operations, as a result of the unitizing of its interests in the Walker Creek Field with interests of other owners in said field, to be implemented fully within six to eight months from the date the instant application was filed. Applicant asserts that prior to that time the subject gas will be available to the interstate market.

The application indicates that the gas which is the subject of the instant application was previously sold to United by Applicant pursuant to a certificate of public convenience and necessity with pre-granted abandonment authorization in Docket No. CI73–573 and that last deliveries were made on July 3, 1974. The application further indicates that deliveries of gas recommenced on November 14, 1974, pursuant to § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29). Applicant states that said sale of gas at the contract rate of 60 cents per Mcf, adjusted for Btu content, is expected to continue for 60 days, and that in the event the instant application has not been acted upon by the Commission by the expiration of the 60-day period, deliveries are expected to continue pursuant to Opinion No. 699–B for not more than 12 months.

Applicant further states that it is willing to accept a certificate conditioned to a price equal to the national ceiling rate established by Opinion No. 699, issued June 21, 1974, in Docket No. R–389–B, including price adjustments and fixed price escalations provided therein or afterwards established on rehearing of Opinion No. 699.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 3, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to

[*] The tariff provides for adjusting cost-of-service during the early period of service to prevent costs from being overly onerous on those shippers which are first to attach to Applicant's line.

RP75–17–1 are hereby dismissed without

Applicant asserts that Panhandle has

Notice of the application, affording op-

become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP75-16-1; RP75-17-1]

TRANSCONTINENTAL GAS PIPE LINE CORP. AND EASTERN SHORE NATURAL GAS CO.

Order Granting Interventions and Dismissing Without Prejudice Petition for Extraordinary Relief

DECEMBER 13, 1974.

On September 6, 1974, Stauffer Chemical Company (Stauffer) filed a petition for permanent and interim extraordinary relief pursuant to § 1.7(b) of the Commission's rules of practice and procedure, in Docket No. RP75-17-1, from the curtailment provisions of its supplier of natural gas, Eastern Shore Natural Gas Company (Eastern Shore). Notice of Stauffer's petition was issued on October 8, 1974 (39 FR 37013). On October 10, 1974, Eastern Shore filed a petition for extraordinary relief from the curtailment provisions of its sole supplier, Transcontinental Gas Pipe Line Corporation (Transco), in Docket No. RP75-16-1. Stauffer seeks an order directing Eastern Shore to deliver to Stauffer at its Delaware City, Delaware plant not less than 1,823,852 Mcf annually, with provision for monthly peak requirements of not less than 178,000 Mcf and daily peak requirements of not less than 6,800 Mcf. Eastern Shore requests that its daily volume entitlement from Transco commencing November 16, 1974, be fixed at an amount sufficient to provide Eastern Shore with a winter season total delivery volume of 2,267 MMcf and a summer season total delivery volume of 3,060 MMcf.

Since the two above docketed proceedings may involve common issues of fact and law they shall be consolidated for purposes of hearing and decision thereon.

Stauffer states that it requires the above-mentioned gas volumes in order to enable continuance of its carbon disulfide manufacturing operations by the use of natural gas as a feedstock, for which no other raw material may be technologically substituted, and as a process fuel, for which there is no alternate nongaseous fuel. Stauffer states that in order to forestall irreparable injury to Stauffer, its customers, its employees, the national supply of rayon, cellophane, carbon tetrachloride, fluorocarbon propellants and refrigerants, and agricultural chemicals, and other employees and businesses involved, it requests that interim relief be granted during the pendency of the above petition.

Stauffer states that its contract with Eastern Shore, which was entered into in 1960, provides for the firm delivery of 7,050 Mcf of natural gas a day. Stauffer states that under Eastern Shore's estimated curtailments, Stauffer would be curtailed up to 62 percent of its daily contract demand. Stauffer claims that curtailments of this severity would compel the shutdown of Stauffer's Delaware City plant for "prolonged periods of time."

Eastern Shore states that it was advised by Transco that its deliveries during the 1975–1976 winter season would be curtailed by some 26–34 percent. Based on this information, Eastern Shore states that it notified its firm industrial customers that it did not expect to meet their firm requirements and, in the case of Stauffer, Eastern Shore estimated that curtailments would range up to 63 percent of daily contract demand.

By telegram issued November 13, 1974, the Secretary of the Commission informed Eastern Shore that its petition for extraordinary relief filed October 10, 1974, did not contain the minimal information required by § 2.78(a)(11)(k) of the Commission's rules.

Eastern Shore responded on November 18, 1974. Eastern Shore concludes that it lacks the ability to serve Stauffer's entire feedstock, plant protection and process requirements during the coming year from its present estimated gas supply, unless it curtails human needs requirements or other industrial feedstock plant protection or process requirements. However, Eastern Shore fails to demonstrate this lack of flexibility with specific data. Additionally, Eastern Shore admits that a firm disposition of its estimated supply of available natural gas is extremely speculative at this time due to the uncertainty surrounding the nature of the curtailment plan to be implemented on Transco's system and the uncertainty of Transco's supply situation. Such response does not comply with § 2.78(a)(11)(k) of the Commission's Rules which requires Eastern Shore to provide details regarding any flexibility available by effectuating additional curtailment to existing industrial customers.

On December 4, 1974, "An Amendment of Stauffer Chemical Company to Petition for Interim and Permanent Extraordinary Relief from Pipeline Curtailment Plan" was filed. In said amendment, Stauffer asks that its request for interim relief be suspended and, at the same time, urges the Commission to enter on a hearing on Stauffer's request for permanent relief so that the Commission will have a developed record on which to respond to any renewed request for interim relief filed by Stauffer. Stauffer states that it is withdrawing its request for interim relief in light of recently developing circumstances, which include the reduced demand for carbon disulfide of Stauffer's customers and the ability of Transco to meet Stauffer's requirements under the Interim Settlement Agreement, which went into effect as a result of the D.C. Circuit's November 27, 1974, Order in Consolidated Edison Co., et al. v. FPC, No. 73-1999. Stauffer states, however, that "the volatile economic situation in which Stauffer's customer presently find themselves" (sic) may necessitate a resurgence of demand for carbon disulfide and a corresponding need for extraordinary relief.

Therefore, Stauffer would have the Commission enter on a hearing in order to prospectively determine a request for relief while the need for "interim relief is not now necessary." Such a request would open the floodgates to similar petitions which are designed to secure relief under circumstances which have not yet transpired. The speculative nature of such requests cannot support a conclusion that extraordinary circumstances exist which entitle the petitioner to extraordinary relief. In view of deepening curtailments, the Commission must closely scrutinize requests for extraordinary relief, and accordingly, must dismiss petitions which do not present a material and genuine immediate need for extraordinary relief. Such dismissal does not preclude the petitioner from filing a proper request when the circumstances warrant an extraordinary remedy.

Pursuant to the notice of the instant petition, issued October 8, 1974 (39 FR 37013), timely petitions to intervene have been filed by Columbia Gas Transmission Corporation (Columbia), General Motors Corporation (General Motors) and the Brick Institute of America (BIA), Farmers Chemical Association (FCA), and Transcontinental Gas Pipe Line Corporation (Transco). Untimely petitions to intervene were filed by Philadelphia Electric Company (PEC), Long Island Lighting Company (Long Island), and Philadelphia Gas Works (PGW). Columbia, General Motors and BIA, FCA, Transco, PEC, Long Island, and PGW each state that any relief granted to Stauffer would effect Transco's many other customers and their consumers whose needs and priorities may be equal to or greater than those of Eastern Shore or Stauffer. All of the above-named petitioners will be permitted to intervene in this proceeding.

The Commission finds:

(1) The petitions filed by Eastern Shore and Stauffer should be dismissed without prejudice to being refiled as as hereinbefore noted.

(2) Participation of the above-named petitioners for intervention may be in the public interest.

The Commission orders:

(A) The petitions for extraordinary relief filed in Docket Nos. RP75-16-1 and

RP75–17–1 are hereby dismissed without prejudice.

(B) The above-named petitioners are hereby permitted to become interveners in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* that the participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene; and *Provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they might be aggrieved because of any order of the Commission entered in these proceedings.

By the Commission.

[Docket No. C175–360]

W. V. HARLOW

Application

DECEMBER 13, 1974.

On December 5, 1974, W. V. Harlow, Jr., d/b/a W. V. Harlow, et al. (Applicant), 501 Amarillo Petroleum Building, Amarillo, Texas 79101, filed in Docket No. C175–360 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company (Panhandle) from acreage in Meade County, Kansas, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that he commenced the sale of natural gas to Panhandle from the subject acreage on November 22, 1974, within the contemplation of § 157.29 of the Commission's regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue to sell said gas for one year from the expiration of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell, commencing January 22, 1975, approximately 15,000 Mcf of gas per month at 55 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot with an upward adjustment limitation of 1,200 Btu per cubic foot. Initial adjustment is expected to be 6.18 cents per Mcf.

Applicant further states that he is filing this application for a limited-term certificate, rather than acting under his small producer certificate, so as to secure pre-granted abandonment authorization and to be certain that upon the expiration of the limited-term contract under which the subject sale is to be made that Applicant and his facilities or properties would not be subject to the jurisdiction under the Natural Gas Act on and after the expiration of the sales contract.

Applicant asserts that Panhandle has encountered firm service deficiencies on its system and has contracted with Applicant in a good faith attempt to help alleviate Panhandle's gas supply shortage. Applicant further asserts that the price provided in the instant application was arrived at by arm's length negotiation and presents the low end of the current range of prices for sales from producers in intrastate, industrial and city gate markets and that the gas to be delivered under the instant proposal is not otherwise available at a price less than provided in the contract or for a term longer than the period in the contract.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 8, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74–29668 Filed 12–19–74;8:45 am]

FEDERAL RESERVE SYSTEM

AMERIBANC, INC.

Order Approving Acquisition of Bank

Ameribanc, Inc., St. Joseph, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire up to 100 percent of the voting shares of the First National Bank of Tarkio, Tarkio, Missouri ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fourteenth largest banking organization in Missouri, controls three banks with aggregate deposits of approximately $133 million, representing less than 1 percent of the total deposits in commercial banks in the State.[1] The proposed acquisition of Bank would increase Applicant's share of state deposits only slightly and would not alter Applicant's ranking among the State's banking organizations. Moreover, consummation of the proposal would not significantly affect the concentration of banking resources in Missouri.[2]

Bank ($9.8 million in deposits) is the third largest of the five commercial banks in the relevant banking market (approximated by Atchison County, Missouri), and holds approximately 20 percent of the deposits in the market. Applicant's banking subsidiary nearest Bank is located in St. Joseph, Missouri, 64 miles south of Tarkio.[3] It appears that no meaningful competition between Bank and Applicant's subsidiary banks would be eliminated as a result of the proposed acquisition. Furthermore, on the basis of the facts of record, particularly the distances separating Bank and Applicant's subsidiary banks and Missouri's branching laws, it does not appear that any significant potential competition would develop between Applicant and Bank. In addition, it appears unlikely Applicant would enter the Atchison County banking market de novo as the population per banking office and deposits per banking office ratios for the market are below the statewide averages. On the basis of the foregoing, the Board concludes that consummation of the proposal would not have significantly adverse effects on competition in any relevant area.

The financial and managerial resources and future prospects of Applicant and its subsidiaries are considered satisfactory. The financial and managerial resources and future prospects of Bank

---

[1] All banking data are as of December 31, 1973, and reflect bank holding company formations and acquisitions approved through October 31, 1974.

[2] In a related matter, Applicant has pending an application filed under section 3(a)(5) of the Bank Holding Company Act for the Board's prior approval to merge with First American Bancshares, Inc., St. Joseph, Missouri, which controls five banks with total deposits of approximately $25 million, representing .18 percent of the commercial bank deposits in the State.

[3] The closest banking subsidiary of First American Bancshares, Inc., to Bank is located in Skidmore, Missouri, approximately, 30 miles southeast of Tarkio and outside Bank's market area.

are generally satisfactory. Applicant has indicated a willingness to maintain the capital of its subsidiary banks at acceptable levels. In light of the above, the Board regards the banking factors as being consistent with approval of the application. Applicant proposes to expand the range of services presently offered by Bank. In particular, affiliation with Applicant will enable Bank to offer investment and estate planning services and expanded agricultural lending. These considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[4] effective December 11, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-29618 Filed 12-19-74;8:45 am]

MANUFACTURERS HANOVER CORP.

Order Approving Acquisition of Ritter Financial Corporation

Manufacturers Hanover Corporation, New York, New York, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Ritter Financial Corporation, Wyncote, Pennsylvania ("Ritter"), a company which, directly and through subsidiaries,[1] engages in the activities of a consumer finance company by making, acquiring or servicing for its own account or the account of other loans or other extensions of credit; acting as agent or broker for the sale of credit life and credit accident and health insurance and consumer credit related property insurance directly related to its extensions of credit by Ritter or its credit-granting subsidiaries; and acting as reinsurer of credit related life and credit accident and health insurance. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a) (1), (3), (9), and (10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 18161). The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those of the Virginia Association of Insurance Agents, Inc., the Brunswick Insurance Agency, and The National Association of Casualty and Surety Agents, in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant, a multi-bank holding company, is the third largest banking organization in New York State, and the fourth largest nationally. Applicant controls Manufacturers Hanover Trust Company, New York, New York ("Bank"), and five other commercial banks which, collectively, hold domestic deposits of $11.7 billion,[2] representing approximately 10 per cent of the total deposits in commercial banks in New York State. Applicant also controls nonbanking companies engaged in leasing and mortgage banking.

Ritter is a relatively small, regional consumer finance company with total assets of $83 million and net consumer finance receivables of $72 million. Ritter is primarily engaged in providing personal installment loans and consumer installment credit. It maintains 125 offices in Connecticut, New Jersey, North Carolina, Pennsylvania, Virginia and West Virginia. Ritter's two offices in Connecticut compete in the Metropolitan New York market[3] in providing personal installment loans. Applicant, through Bank and Manufacturers Hanover Suffolk Trust Company, Suffolk, N.A. ("Suffolk Bank") also competes for such business in the market. The nearest office of Applicant and Ritter are 12 miles apart. Applicant's two subsidiaries in the market account for approximately 6 percent of the personal instalment loans outstanding, while Ritter's offices in the market account for less than one-tenth of one percent of the personal instalment loans outstanding. The competition existing between Applicant and Ritter that would be eliminated upon consummation of the proposed transaction would be only slight.

With respect to the question of whether consummation of the proposal would eliminate any significant competition in the future, Ritter opened 14 new offices in 1973 and purchased three others and has the resources to continue independently to expand de novo. Applicant, through Bank and Suffolk Bank, operates more than 180 branch offices in the New York metropolitan market. In the past few years Applicant has indicated its desire to expand in banking and nonbanking activities by acquiring several firms including commercial banks, a leasing company and a mortgage banking company. However, like many other large bank holding companies, Applicant's capital and liquidity positions have not kept pace with its recent growth in assets. Thus, although Applicant appears to possess the resources to compete more actively with Ritter, by de novo expansion in the consumer finance company business or by accelerated growth in consumer lending, it appears questionable at this time whether this would occur on a scale large enough to result in substantial future competition with Ritter. On the basis of these facts, the Board concludes that the only significant competition that would be foreclosed upon approval of this application would be some distance in the future.

In order for the Board to approve an acquisition under section 4(c)(8) of the Bank Holding Company Act it must determine that approval can reasonably be expected to produce benefits to the public such as greater convenience, increased competition, or gains in efficiency that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests or unsound banking practices.

In several recent cases the Board has expressed its general concern with the rapid expansion of some U.S. banking organizations in both domestic and foreign markets, and the implications of such expansion for their capital and liquidity positions. In this connection the Board has encouraged a slower rate of expansion in recent months by these banking organizations. In cases where the asset growth of a banking organization has been rapid relative to capital, and has been funded to an appreciable degree by potentially volatile sources of funds, the Board, under current economic and financial conditions, must consider on a case-by-case basis, whether proposals that would utilize funds for further expansion rather than for improvement of the organization's capital and liquidity positions are consistent with the public interest standard of section 4(c)(8) of the Act.

In accordance with above-described policy, the Board would have reservations about further expansion by Applicant. However, the proposal which Applicant has placed before the Board contains a number of factors which, in the Board's view, overcome these reservations. Foremost among these is the fact that the proposal does not constitute a utilization of funds for expansion, which funds could be used elsewhere to strengthen Applicant's organization. The proposal involves a stock-for-stock acquisition and Ritter appears to be adequately capitalized in relation to the risk involved in its business. In addition, a reasonable projection of Ritter's earnings indicates that such earnings will be

---

[4] Voting for this action: Governors Sheehan, Bucher, Holland, Wallich and Coldwell. Absent and not voting: Chairman Burns and Governor Mitchell.

[1] Realty Advisory Services, Inc. ("RAS"), one of Ritter's subsidiaries, has an interest in a condominium real estate venture. Applicant has committed that upon approval of this application it would not acquire RAS nor engage in this activity.

[2] Unless otherwise noted, all financial data are as of December 31, 1973.

[3] The Metropolitan New York market consists of all New York City, Nassau, Putnam, Rockland and Westchester Counties and western Suffolk County in New York State, the southwestern half of Fairfield County in Connecticut; and the northeastern two-thirds of Bergen County and eastern Hudson County in New Jersey.

well in excess of the dividend requirements on the preferred and common stock to be issued by Applicant in the exchange. Thus, Applicant's consolidated capital base would not in any way be diluted.

Another factor which has entered into the Board's decision is that Applicant intends to maintain Ritter's present independent short-term bank financing and to continue the independent issuance by Ritter of commercial paper until such time and under such circumstances as the Board may deem appropriate. Thus, it will not be necessary, at least for the time being, for Applicant to enter the debt market to support Ritter's activities. Ritter's present commercial paper rating is such that this program seems feasible. Furthermore, Applicant intends to defer its original plans for de novo expansion of Ritter by opening 85 new offices and for financing Ritter's entry into new product lines and further market penetration until such time and under such circumstances as the Board may deem appropriate. The Board concludes that consummation of the proposal would not require Applicant to divert any significant amount of its financial or managerial resources to assure continuation of Ritter's successful operations.

An additional consideration which the Board has taken into account is that the proposal constitutes Applicant's initial and relatively small entry into the consumer finance company business. The application is considered to be a foothold acquisition which will give Applicant the expertise and market position to successfully compete in this business.

The normal public benefits which can be expected to accrue from the entry of bank holding companies into the finance company business would be expected to accrue in this case. The ultimate de novo expansion of Ritter and entry into new product lines can also be expected to result in additional benefits to the public. Furthermore, Applicant is committed to lower interest rates by 4 percent to all borrowers without being more restrictive in its credit standards.

As discussed hereinafter, Applicant will lower credit insurance premium rates in the three States where policies are reinsured by a Ritter subsidiary. These public benefits lend weight for approval and, in view of the other characteristics of the proposal, the Board finds that approval of the acquisition is warranted.

Upon acquisition of Ritter Applicant also proposes to engage in certain credit-related insurance activities. Through offices of Ritter Applicant would sell credit life and credit accident and health insurance, credit casualty insurance and nonfiling insurance.[4] In view of the limited nature of these insurance activities, the Board finds that no significant existing or potential competition would be eliminated upon consummation of this proposal.

Incident to this application, Applicant has also applied for authority to act, through a subsidiary of Ritter, as reinsurer of group credit life and credit accident and health insurance sold in connection with extensions of credit by Ritter's offices in Virginia, West Virginia, and New Jersey. Such insurance is underwritten by an insurer qualified to underwrite such insurance in these States and is assigned or ceded to Ritter's subsidiary. Credit life and disability insurance is generally made available by banks and other lenders, and such insurance is designed to assure repayment of a loan in the event of the death or disability of the borrower.

In connection with its addition of credit life underwriting to the list of permissible activities for bank holding companies, the Board stated that:

> To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally such a showing would be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service.

Applicant has stated that it would reduce the rates charged by Ritter's lending subsidiaries for credit life insurance from 1.8 percent to 7.8 percent in these States. Such reductions are in addition to the recently lowered regulatory maximum rates in Virginia, and West Virginia. The Board finds that the proposed rate changes provide reduced costs to customers and are procompetitive and in the public interest. The Board concludes that such benefits outweigh any possible adverse effects that could result from providing such insurance services.

In deciding that approval of the proposed acquisition would be consistent with the public interest standard of section 4(c)(8) of the Act and, in particular, with the Board's policy of slower growth in significant bank holding company expansion, the Board took into account the following facts, in addition to the circumstances previously enumerated. Bank, which had experienced considerable expansion prior to mid-1974, has in recent months curtailed its loan and investment activities; and Applicant has committed not to undertake new acquisitions of existing firms or ventures into new activities over the months immediately ahead. Applicant also plans a significant addition to Bank's capital from external sources during 1975.

On the basis of all the facts of record, including the Board's view that Applicant's commitments are assurance that the acquisition will neither result in any significant increased demand upon Applicant's financial or managerial resources nor cause any immediate alteration or expansion of Ritter's present operations, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved, subject to the condition that during 1975 Applicant maintains its dividend payment per share in an amount not to exceed, on an annual basis, the dividend payment per share in effect for the third quarter of 1974. The Board's approval determination is also subject to the conditions set forth in section 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of New York, pursuant to delegated authority.

By order of the Board of Governors,[5] effective December 10, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-29617 Filed 12-19-74;8:45 am]

[4] Nonfiling insurance is insurance that protects Ritter's security interest in personal property against security interests which might be perfected by third parties.

[5] Voting for this action: Chairman Burns and Governors Mitchell, Sheehan, Bucher, Holland, Wallich, and Coldwell.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 13, 1974. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202–376–5425.

INTERSTATE COMMERCE COMMISSION

Request for approval of reinstatement of ICC Form BOp 102, Notice of Intent to Perform Interstate Transportation for Certain Nonmembers Under section 203(b)(5) of the I.C. Act. Potential respondents are 8000 motor carriers of agricultural commodities intending to transport goods for compensation. Approximately 30 reports are filed annually.

The average respondent burden is ½ man hour per response.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

NATIONAL SCIENCE FOUNDATION

TASK GROUP NO. 10 ADVISORY COMMITTEE FOR RESEARCH

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of Task Group No. 10 of the Advisory Committee for Research to be held at 9 a.m. on January 10 and 11, 1975, in room 511 at 1800 G Street, NW, Washington, D.C.

The purpose of the Task Groups (which are composed of Advisory Committee for Research members) is to provide the Committee with a mechanism to consider numerous issues of interest to the full committee.

The agenda for the meeting of Task Group 10 will be to discuss the prospective contents of its report to the Advisory Committee for Research on, "The Social Science as a Research Area in the National Interest."

This meeting shall be open to the public. Individuals who wish to attend should inform Mr. Leonard F. Gardner, Special Assistant, Directorate for Research (202/632-4278) Rm. 320, National Science Foundation, Washington, D.C. 20550, prior to the meeting.

Persons requiring further information concerning this Task Group should contact Mr. Gardner at the above address. Summary minutes relative to this meeting will be in the form of the Task Group Report and will be available after it has been presented to the full committee at its next meeting which is tentatively scheduled for November 1975. Please send all requests for the Task Group Report to the Management Analysis Office, Rm. 720-K, 1800 G Street, NW, Washington, D.C. 20550.

FRED K. MURAKAMI,
Committee Management Officer.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500–1]

GREATER WASHINGTON INVESTORS, INC.

Suspension of Trading

DECEMBER 16, 1974.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Greater Washington Investors, Inc. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15 (c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from December 17, 1974 through December 26, 1974.

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc. 74–29658 Filed 12–19–74;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Nondisapproval of Amendments to Constitution

Notice is hereby given that on December 12, 1974, the Commission considered and did not disapprove proposed amendments to the Constitution of the Chicago Board Options Exchange, Inc. (CBOE) pursuant to rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.-9b–1). The CBOE had proposed to amend sections 4.3, 5.3, and 6.1 which govern the manner in which members are elected to the Exchange's Board of Directors. These proposed changes were originally published at 39 FR 42723 on December 6, 1974.

The amendment to section 6.1 requires that at least three of the directors elected to the Exchange's Board of Directors be elected from members whose ordinary place of business is located outside the Chicago metropolitan area; one such non-resident director is to be elected each year. This amendment defines a non-resident director as a member whose ordinary place of business is located more than 50 miles from the Exchange's trading floor.

Section 4.3 is amended to require the Exchange's Nominating Committee to select nominees in conformance with the above amendment. Also, section 5.3 is amended to indicate that where nominations are made by petitions, as permitted by section 4.5 of the Exchange's Constitution, and as a result a non-resident member does not receive a plurality of votes, the non-resident candidate receiving the largest vote among all non-resident candidates would be elected director in lieu of the resident candidate receiving the lowest winning plurality.

All interested persons are invited to submit their views and comments on the proposed amendments to CBOE's plan either before or after it has become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10–54. The proposed amendments are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 12, 1974.

[FR Doc.74–29650 Filed 12–19–74;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Non-disapproval of Amendments to Option Plan

Notice is hereby given that on December 12, 1974, the Commission considered and did not disapprove proposed amendments to the Option Plan of the Chicago Board Options Exchange, Inc. (CBOE) pursuant to rule 9b–1 under the Securi-

XUM
V 39 N 246 DEC 20 74 XUM

ties Exchange Act of 1934 (17 CFR 240.9b–1). The CBOE proposed to amend rules 1.1(d), 1.1(m), 4.9, 4.11, 4.12, 4.14, 4.15, 4.16, 5.2, 5.3, 5.5, 5.6, 5.7, 6.40, 6.50, 6.51(d), 9.7(c), 9.17, 10.2, 11.1, 13.4, 15.2, 15.3; add new rules 6.55, 6.56, 6.57, 6.58, and 6.59; and delete rule 11.4.

The amendment to rule 1.1(d) is simply to reflect name changes of the Clearing Corporation.

The amendment to rule 1.1(m) makes it clear that options which are the subject of transactions that are rejected by the Clearing Corporation are still "option contracts" under CBOE's Rules.

Rule 4.9 has been amended to add the words "clearing corporation."

Rules 4.11, 4.12, 4.14, 4.15, 4.16, 9.7(c), 9.17 and 15.3 have been amended to reflect the possibility of multiple trading in options. In addition, rule 4.11 has been further amended to remove the 500 contracts per expiration month limit insofar as it pertains to covered short positions and certain spread positions. Such limits appeared to be too restrictive on customers having large positions in the underlying stock or spread positions and to be unnecessary for such positions in light of the continued applicability of the 1,000 contracts per class limit. Rule 4.16 has also been amended to delete the last sentence thereof (the subject matter of which is being added to the Clearing Corporation's by-laws).

Rules 5.2, 5.6, 5.7, 11.1 and 11.4 have been amended to reflect the fact that portions of the subject matter thereof will be added to the by-laws of the Clearing Corporation. Rule 5.3 has been amended to refer to the proposed Participant Exchange Agreement. In addition, these rules and rule 5.5 have been amended in minor respects to improve the drafting and to eliminate some obsolete references.

Rule 6.40 has been amended to reflect the proposed amendment to rule 5.6.

The amendments to rules 6.50, 6.51(d) and 15.2 and new rules 6.55–6.59 were necessary as a result of the Exchange's taking over the responsibility for trade comparison.

The amendment to rule 13.4 is simply a drafting "clean up" made necessary by the recent amendment to rule 13.2.

All interested persons are invited to submit their views and comments on the proposed new rules and rules amendments and deletions to CBOE's plan either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10–54. The proposed new rules and rules amendments and deletions are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW, Washington, D.C.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 18, 1974.

[FR Doc.74–29657 Filed 12–19–74;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Proposed Amendments to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed proposed amendments to its Option Plan pursuant to rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.9b–1). The CBOE proposes to amend rules 2.8, 18.1, 18.4, 18.5, 18.7 and 18.13.

The principal change sought by the proposed amendments is to reduce the number of arbitrators serving on arbitration panels in controversies arising out of Exchange business between members or between Exchange members and non-members. In disputes arising between members, the proposed amendments to Exchange rule 18.5(a) would reduce the number of members serving on arbitration panels, where the amount involved in the controversy is more than $5,000 (exclusive of interest and costs), from five to three members. In controversies between a member and a non-member of the Exchange, the proposed amendments to Exchange rule 18.5(b), similarly would reduce the number of arbitrators from five to three in controversies involving amounts in excess of $500; in non-member disputes involving less than $500, the non-member could elect to have a single arbitrator resolve the dispute.

The proposed amendments also effect changes in the qualifications required for non-member arbitrators serving on arbitration panels in controversies between members and non-members of the Exchange; in controversies involving only members, the arbitrators will continue to be members of the Exchange's Arbitration Committee. Exchange rule 2.8 presently provides that non-member arbitrators are not to be engaged in the securities or commodities business. The proposed amendments to rule 2.8 would allow non-member arbitrators to be engaged in those businesses, but such persons could not be affiliated or associated with members of the Exchange. This amendment is designed to provided required needed expertise for complex arbitration proceedings, while at the same time assuring independent arbitrators. The proposed amendments to rule 2.8 would also allow the President of the Exchange to appoint non-member arbitrators, rather than the Chairman of the Exchange, with the approval of the Board of Directors, as is presently required. This will allow needed flexibility in appointing non-member arbitrators where, for example, an unusual number of arbitration proceedings require additional arbitrators.

Exchange rule 18.1 would be amended to provide that the arbitration provisions of the Exchange's rules do not constitute a waiver of any right of action that may arise under the Securities Act of 1933 or the Securities Exchange Act of 1934. This amendment is to make clear the effect of the Supreme Court's decision in Wilko v. Swan, 346 U.S. 427 (1953). That decision declared as invalid an arbitration agreement which purported to waive judicial remedies under the Securities Act of 1933, where such waiver was made before any controversy arose. The proposed amendment to Exchange rule 18.1 (c) would also extend the effect of that decision to claims under the Securities Exchange Act of 1934.

The proposed amendments to Exchange rules 18.4 are technical amendments that will allow an expedited and simplified method for processing arbitration claims. Also, rule 18.13 would be eliminated and its provisions incorporated in rule 18.5(a).

Finally, Exchange rule 18.7 would be amended to authorize arbitration panels to require the parties to an arbitration proceeding to post with the Exchange a bond or other security for expenses of the proceeding. This proposal is designed to assure that the parties will pay expenses associated with arbitration proceedings.

The proposed amendments will become effective on January 20, 1975, or upon such earlier date as the Commission may allow unless the Commission shall disapprove the change in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the proposed amendments to CBOE's plan either before or after it has become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, NW, Washington, D.C. 20549. Reference should be made to File No. 10–54. The proposed amendments are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW, Washington, D.C.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 12, 1974.

[FR Doc.74–29663 Filed 12–19–74;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Proposed Amendments to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed amendments to its Option Plan pursuant to rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.9b–1). The CBOE proposes to amend rule 2.6 and add a new rule 6.6.

The proposed amendments would modify rule 2.6 in two ways: First, the definition of a quorum for the Floor Procedure Committee would be changed from "three" to a "majority" to reflect the growth in the size of the committee. Second, the Floor Procedure Committee would be empowered to appoint additional Floor Officials from among those members who are regularly engaged in business on the Exchange floor. These additional Floor Officials would assist the Floor Procedure Committee in overseeing activity on the floor and in maintaining a fair and orderly market. The additional Floor Officials would not be members of the Floor Procedure Committee and would not have the authority to halt

trading under rule 6.3, to declare a fast market and take related action under proposed rule 6.6 or to impose fines under rule 6.20.

Proposed rule 6.6 is new and would grant the Floor Procedure Committee and its members authority to adopt special procedures to deal with unusual market conditions. Whenever a large influx of orders in a particular class of option contracts impairs the maintenance of a fair and orderly market under normal trading procedures, it is proposed that a Floor Official may declare the market in that class to be "fast." Under a "fast market" declaration, a Floor Official would be authorized to do one or more of the following with respect to the class or classes involved:

(i) Assign one or more classes or series of options traded at the post to Board Brokers at other posts.

(ii) Authorize Board Broker clerks to execute transactions.

(iii) Assign brokerage responsibilities for particular series to specific Floor Brokers in the trading crowd.

(iv) Authorize one or more Market-Makers to act as Floor Brokers.

(v) Direct that one or more trading rotations be employed pursuant to rule 6.2.

(vi) Restrict the entry of new orders into the book.

(vii) Take such other actions as are deemed necessary in the interest of maintaining a fair and orderly market.

The fast market would be terminated as soon as conditions would permit. This proposal is intended to provide an alternative to halting trading under existing rule 6.3.

Proposed rule 6.6 would also empower the Floor Procedure Committee to place restrictions on the entry of certain types of orders in one or more classes or series of option contracts if deemed necessary for the maintenance of a fair and orderly market. Any such restriction would require approval by the Exchange's Board of Directors if it were to remain in effect for longer than two consecutive business days.

The proposed amendments will become effective on January 20, 1975, or upon such earlier date as the Commission may allow unless the Commission shall disapprove the change in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the proposed amendments to CBOE's plan either before or after they become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, NW., Washington, D.C. 20549. Reference should be made to File No. 10–54. The proposed amendments are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 70–5596]

MISSISSIPPI POWER CO.

Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

Notice is hereby given that Mississippi Power Company ("Mississippi"), 2992 West Beach, Gulfport, Mississippi 39501, a public-utility subsidiary company of The Southern Company, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Mississippi proposes to issue and sell, subject to the competitive bidding requirements of rule 50, up to $14,000,000 principal amount of its First Mortgage Bonds, ____ percent Series ("New Bonds") to mature not more than 30 years and not less than 5 years, such maturity date to be determined and prospective bidders notified not less than 72 hours prior to the time of bidding. The price of the New Bonds (which will be not less than 99% nor more than 102¾% of the principal amount thereof) will be determined by competitive bidding. The New Bonds will be issued under an Indenture dated as of September 1, 1941, between Mississippi and Morgan Guaranty Trust Company of New York, as Trustee, as heretofore supplemented and to be further supplemented by a Supplemental Indenture ("Indenture") to be dated as of January 1, 1975, which contains a prohibition until January 1, 1980, against refunding the issue with the proceeds of funds borrowed at a lower effective interest cost.

Mississippi proposes in 1975 to use the proceeds from the sale of the New Bonds together with (1) cash contributions to capital of $17,000,000 by The Southern Company during 1975 ($3,000,000 of which is authorized in Commission's order in File No. 70–5471 and the remainder to be the subject of a subsequent statement on Form U–1, (2) funds to be provided through the issuance of tax exempt revenue bonds by various governmental authorities for construction of certain pollution control facilities (A portion of these securities was authorized in Commission's orders in File Nos. 70–5389 and 70–5489, and the remainder will be the subject of subsequent statements on Form U–1), and (3) cash on hand in excess of operating requirements and interest and dividends, to finance its 1975 construction program, to pay notes payable in the form of bank notes and commercial paper notes incurred for such purpose, and for other lawful purposes.

A statement as to the fees and expenses to be paid by Mississippi in connection with the proposed issuance and sale of the New Bonds is to be supplied by amendment. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed tranaction.

Notice is further given that any interested person may, not later than January 9, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

INVESTCAL SMALL BUSINESS INVESTMENT CO.

Filing of Application for Transfer of Control of Licensed Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the Regulations governing small business investment companies (13 CFR 107.701 (1974)) for the transfer of control of Investcal Small Business Investment Company (Investcal), 9171 Wilshire Boulevard, Suite 310, Beverly Hills, California 90210, a Federal licensee under the Small Business Investment Act of 1958, as amended (Act), License No. 09/14–0012.

Investcal was licensed on September 20, 1960. Its present combined paid-in capital and paid-in surplus is $402,000. This proposed transfer of control is subject to and contingent upon approval by SBA.

Mr. I. Morton Haas plans to purchase all of the common stock of Investcal which is presently owned by Saraphen Investment Company. This constitutes 88.2 percent of the outstanding stock of Investcal. After the acquisition, the office will be moved to 1888 Century Park East, 17th Floor, Los Angeles, California 90067.

The new officers and directors of Investcal will be:

Mr. I. Morton Haas, President, Director
1929 West Pico Boulevard
Los Angeles, California 90006
Mr. Herbert Slavin, Secretary-Treasurer, Director
10480 West Pico Boulevard
Los Angeles, California 90064
Mr. Donald Barr, Director
10,000 Santa Monica Boulevard
Suite 208
Los Angeles, California 90067

Matters involved in SBA's consideration of the application include the general business reputation and character of the new owner and the probability of successful operation of Investcal under the new officers' control and management (including adequate profitability and financial soundness) in accordance with the Act and regulations.

Notice is hereby given that any interested person may, not later than Jan. 6, 1975, submit to SBA, in writing, relevant comments on the transfer of control. Any such comments should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW, Washington, D.C. 20416.

A copy of this Notice shall be published by the transferee in a newspaper of general circulation in Los Angeles, California.

Dated: December 16, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

TARIFF COMMISSION

[TEA-W-255]

GENERAL ELECTRIC CO.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of the Syracuse New York plant of General Electric Co., New York, New York, the United States Tariff Commission, on December 17, 1974, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with transistors and diodes (of the type provided for in item 687.60 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

The petition filed in this case is available for inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets, NW., Washington, D.C., and at the New York City office of the Tariff Commission located at 6 World Trade Center.

By order of the Commission.

Issued: December 17, 1974.

[SEAL] KENNETH R. MASON,
Secretary.

[AB 7 (Sub-No. 7)]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD

Proposed Abandonment of Portion of Line

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in newspapers of general circulation in Fergus County, Montana, on or before December 29, 1974, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 5th day of December, 1974.

By the Commission, Commissioner Tuggle.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[AB 7 (Sub-No. 7)]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY ABANDONMENT BETWEEN HEATH AND GRASS RANGE, IN FERGUS COUNTY, MONTANA

The Interstate Commerce Commission hereby gives notice that by order dated December 5, 1974, it has been determined that the proposed abandonment by the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (Milwaukee Road) of its line of railroad or of operations over such line between Heath and Grass Range, Fergus County, Montana, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality

of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq. and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed action are considered insignificant because (1) nearby rail service will continue to be available upon abandonment at Lewistown over existing rail lines of the Milwaukee Road and the Burlington Northern, Inc., (2) diversion of rail traffic will not be significant because of the fairly minimal volume of freight movements, (3) degradation of the area's environment will be minimal, and (4) there are no definitive local economic development plans for the area dependent upon the continuation of direct rail access.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-3066.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before January 16, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[No. MC-127954 (Sub-No. 3G)]

MARSH MOTOR HAULAGE, INC.

Extension—Gateway Elimination

At a Session of the Interstate Commerce Commission, Operating Rights Board, held at its office in Washington, D.C., on the 12th day of November, 1974.

It appearing, that by application filed June 4, 1974, Marsh Motor Haulage, Inc., of Port Newark, N.J., seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of the commodities and between the points indicated below in order to eliminate the gateway of Port Newark, N.J.;

It further appearing, that the application is unopposed, has not involved the taking of testimony at a public hearing, or the submission of evidence by opposing parties in the form of affidavits, and the public interest will best be served by disposition of the matter without issuance of a report and recommended order;

It further appearing, that in publishing notice of this application in the FEDERAL REGISTER, the State of Delaware was inadvertently omitted from the destination description; that since it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application as originally published may have an interest in and would be prejudiced by the lack of proper notice of the grant of authority in our findings herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of the certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in the proceeding setting forth in detail the precise manner in which it has been prejudiced;

It further appearing, that since the authority granted herein will encompass all of applicant's authority in its lead certificate, we shall condition the grant of authority herein so that applicant can request in writing the coincidental cancellation of that certificate;

And it further appearing, that the evidence submitted in the form of verified statements in support of the application amply warrants the grant of authority set forth below; therefore:

We find, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of household goods, as defined by the Commission, between points in New York, New Jersey, Connecticut, Delaware, Pennsylvania, Massachusetts, Maine, New Hampshire, Vermont, Rhode Island, Maryland, Virginia, North Carolina, Ohio, Indiana, Illinois, Michigan, and the District of Columbia; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that an appropriate certificate should be issued; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; and that the application in all other respects should be denied.

It is ordered, That said application, except to the extent granted herein, be, and it is hereby, denied.

It is further ordered, That upon compliance by applicant with the requirements of sections 215, 217, and 221(c) of the Interstate Commerce Act, and with the Commission's rules and regulations thereunder, a certificate be issued to applicant authorizing operations, in interstate or foreign commerce, as a common carrier by motor vehicle of the commodities described, and in the manner described in the second preceding paragraph, subject (1) to the prior publication in the FEDERAL REGISTER of a notice of the authority actually granted by this order, and (2) to receipt by the Commission of a request in writing by applicant for the coincidental cancellation of its Certificate No. MC 127954.

It is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

And it is further ordered, That this order shall be effective on the date hereof.

By the Commission, Operating Rights Board.

[SEAL] ROBERT L. OSWALD, *Secretary*.

[Notice No. 205]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 17, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75513. By order entered 12-6-74, the Motor Carrier Board approved the transfer to Frozen Food Express, Inc., Bedford, Mass., of that portion of the operating rights set forth in Certificate No. MC 125403, issued January 2, 1964, to S. T. L. Transport, Inc., Rochester, N.Y., authorizing the transportation of frozen fruit in containers, from a specified area in New York to points in Connecticut and Massachusetts; frozen foods, from points in Erie, Niagara, Monroe, and Wayne Counties, N.Y., to points in Maine, New Hampshire, and Vermont; and from points in Genesee, Livingston, Ontario, Oswego, and Orleans Counties, N.Y., to points in Maine, New Hampshire, and Vermont; and frozen fruits, frozen berries, and frozen vegetables, from points in a described area in New York to specified points in Connecticut, Maine, Massachusetts, and New Hampshire. S. Michael Richards, P.O. Box 225, 44 North Ave., Webster, N.Y. 14580, attorney for transferor, and Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043, attorney for transferee.

No. MC-FC-75515. By order of December 6, 1974, the Motor Carrier Board approved the transfer to Morrison-Knudson Company, Inc., Boise, Idaho, of the operating rights in Permit No. MC 103390 issued June 16, 1949, to F & S Contracting Company, a corporation, Butte, Mont., authorizing the transportation of various commodities from and to specified points in Montana. Arthur J. Schlanger,

P.O. Box 7808, Boise, Idaho 83729, attorney for applicants.

No. MC–FC–75522. By order entered 12–6–74, the Motor Carrier Board approved the transfer to Fine Truck Line, Inc., Fort Smith, Ark., of the operating rights set forth in Certifictaes Nos. MC 96881 (Sub-No. 2), MC 96881 (Sub-No. 5), MC 96881 (Sub-No. 6), MC 96881 (Sub-No. 7), MC 96881 (Sub-No. 10), MC 96881 (Sub-No. 11), and MC 96881 (Sub-No. 12), issued by the Commission December 23, 1958, October 4, 1960, July 26, 1968, March 19, 1970, May 17, 1971, September 18, 1972, June 1, 1973, respectively, to Orville M. Fine, doing business as Fine Truck Line, Fort Smith, Ark., authorizing the transportation of general commodities, with the usual exceptions, between specified points in Arkansas, Louisiana, Oklahoma, and Texas, over specified routes. Don A. Smith, P.O. Box 43, 14 North 7th St., Fort Smith, Ark. 72901, attorney for applicants.

No. MC–FC–75537. By order entered 12–6–74, the Motor Carrier Board approved the transfer to James Elwood Quinn, Inc., Beulaville, North Carolina, of the operating rights set forth in Certificates Nos. MC 116048, MC 116048 (Sub-No. 2), MC 116048 (Sub-No. 6), MC 116048 (Sub-No. 10), MC 116048 (Sub-No. 12), MC 116048 (Sub-No. 14), MC 116048 (Sub-No. 16), MC 116048 (Sub-No. 17), MC 116048 (Sub-No. 18), and MC 116048 (Sub-No. 19), issued by the Commission, August 20, 1957, January 19, 1961, October 10, 1963, October 22, 1963, June 26, 1963, June 8, 1964, March 13, 1967, April 6, 1967, March 17, 1967, and March 15, 1967, respectively, to Mangum Trucking Company, Inc. (Richard T. Meek, Trustee in Bankruptcy), Charlotte, N.C., authorizing transportation of lumber, bananas, animal feed ingredients, animal and poultry feed and supplements, frozen french fried potatoes, reconditioned steel drums, frozen foods, and frozen potato products, from, to, or between points in Alabama, Florida, Georgia, Illinois, Kentucky, Louisiana, Maine, New York, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia. Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301, attorney for applicants.

No. MC–FC–75443. By order of December 6, 1974, the Motor Carrier Board approved the transfer to J. D. Lewis Corporation, Cordele, Ga., of the operating rights in Certificate No. MC 115558 (Sub-No. 1), issued September 24, 1957, to E. D. Towson, Ocilla, Ga., authorizing the transportation of various commodities from specified points in Georgia to points in Florida. George M. Mixon, 202 Twelfth Ave. East, Cordele, Ga. 31015, attorney for applicants.

No. MC–FC–75550. By order of December 9, 1974, the Motor Carrier Board approved the transfer to Deron, Inc., Milwaukie, Oreg., of the operating rights in Permit No. MC 136283 (Sub-No. 1), issued June 7, 1973, to Egon Mascher, doing business as Egon Mascher Trucking, Milwaukie, Oreg., authorizing the transportation of floor covering from Marcus Hook, Pa., to points in Oregon and Idaho. Lawrence V. Smart, Jr., 419 NW. 23rd Ave., Portland, Oreg. 97210, attorney for applicants.

FOREIGN PORTFOLIO INVESTMENT STUDY REGULATIONS AND FINAL FORMS

XUM

V 39 N 246 DEC 20 1974

XUM

Title 31—Money and Finance: Treasury

CHAPTER I—MONETARY OFFICES, DEPARTMENT OF THE TREASURY

PART 129—FOREIGN PORTFOLIO INVESTMENT STUDY REGULATIONS

Notice is hereby given of the promulgation in final form by the Department of the Treasury of a new Part 129 of Title 31 of the Code of Federal Regulations to include the Foreign Portfolio Investment Regulations.

On November 1, 1974, a notice of proposed rulemaking regarding these regulations was published in the FEDERAL REGISTER (39 FR 38771). The public was given until November 22, 1974 to submit in writing comments, data, views, arguments or suggestions pertaining to the proposed regulations prior to their publication in final form. A number of public comments were received in response to the foregoing notice. In addition, a public hearing on the proposed regulations was held at the Office of Management and Budget on November 26, 1974. Suggestions and comments have been carefully considered and taken into account in the revision of the regulations which is herewith published in final form. The changes reflected in the final regulations are simplifying and clarifying in nature.

The proposed regulations are promulgated under the authority of the Foreign Investment Study Act (Pub. L. 93-479) which directs the Secretary of the Treasury "to conduct a comprehensive, overall study" of foreign portfolio investment and authorizes the Secretary to issue such rules as he deems necessary to carry out his functions under the Act. The study, which will be the first complete survey of foreign portfolio investment in the United States since 1941, will provide complete statistics on such investment as of year-end 1974 and supply a data base from which estimates of annual balance-of-payments figures for later years may be extrapolated.

The reporting requirements prescribed under 31 CFR Part 128 are not affected by these provisions.

In that it is important that persons subject to the regulations be able to rely thereon in advance of the December 31, 1974 "benchmark" date for collection of the foreign investment data that are the subject of the study, there is good cause to make these regulations effective immediately. Accordingly, the regulations become effective upon publication in the FEDERAL REGISTER.

The regulations are as follows:

Subpart A—Definitions

Sec.
129.1 United States.
129.2 Person.
129.3 United States person.
129.4 United States issuer.
129.5 United States holder of record.
129.6 Foreign person.
129.7 Foreign official institution.
129.8 The Act.
129.9 The Secretary.

Subpart B—Recordkeeping and Reporting Requirements

Sec.
129.10 Determination by the Secretary.
129.11 Reports.
129.12 Exemptions.
129.13 Records.
129.14 Protection of information.

Subpart C—Description of Forms Prescribed Under this Part

129.20 Copies.
129.21 Form FPI-1. Reporting form for United States issuers.
129.22 Form FPI-2. Reporting form for United States holders of record.
129.23 Special reports.

Subpart D—Penalties

129.30 Civil and criminal penalties.
129.31 Fraudulent reporting.

AUTHORITY: Sec. 7, 88 Stat. 1450.

Subpart A—Definitions

§ 129.1 United States.

The term "United States" means the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Panama Canal Zone, and all territories and possessions of the United States.

§ 129.2 Person.

The term "person" means an individual, partnership, association, trust, corporation, or other organization, including the Federal, State, and local governments and any agencies, corporations, financing institutions, or other instrumentalities thereof, including Federally-sponsored agencies.

§ 129.3 United States person.

The term "United States person" means any individual resident in the United States or any other person organized or created under the laws of the United States, including the Federal, State, and local governments and any instrumentalities thereof, including Federally-sponsored agencies.

§ 129.4 United States issuer.

The term "United States issuer" means any United States person who issues, through public or private distribution, any security or other evidence of ownership, participation, or indebtedness, including the following:

(a) Stocks or investment company shares, including rights, warrants, and scrip;

(b) Debt obligations having an original maturity of more than one year, including such obligations as bonds, debentures, notes, mortgages, bank and other long-term loans and other obligations, certificates of deposit, and certificates of participation;

(c) Business or investment trust certificates or shares;

(d) Limited partnership interests; transferable shares in a business venture, association, or syndicate; or any fractional interest in oil and gas, real estate, crops, or other investment property.

§ 129.5 United States holder of record.

The term "United States holder of record" means any person subject to the jurisdiction of the United States who is carried on stock transfer records or other ownership records as having title to any security or other evidence of ownership, participation, or indebtedness of a United States person which he is holding on behalf of another person. The term "United States holder of record" may include such persons as nominees, custodians, agents, trustees, other fiduciaries, banks, brokers, or other intermediaries, who hold title to investments on behalf of another person: *Provided*, That the term also extends to a person acting as a custodian for bearer securities of private issuers or for bearer or registered securities issued by Federal, State, or local governments or their instrumentalities, including Federally-sponsored agencies, even though such person is not carried on ownership records as holding title to such securities.

§ 129.6 Foreign person.

The term "foreign person" includes:

(a) Any individual, including a citizen of the United States, resident outside the United States.

(b) Any partnership, association, corporation, or other organization created or organized under the laws of a foreign country, excepting branches and agencies thereof located in the United States.

(c) Any branch, subsidiary, or other allied organization within a foreign country of a partnership, association, corporation, or other organization, created or organized under the laws of a foreign country or of the United States. For example, a branch of an American broker or dealer located outside the United States, including a branch of a person subject to the reporting requirements of these regulations, should be regarded as a foreign person. In addition, overseas head offices of branches, subsidiaries, and agencies which are located in the United States, as well as other branches of such head offices which are located outside the United States, should be regarded as foreign persons.

(d) Any government of a foreign country and any subdivision, agency, or instrumentality thereof, including all foreign official institutions, even if located in the United States.

(e) Any official international or regional organization, or subordinate or affiliated agency thereof, created by treaty or convention between sovereign states, even though located in the United States; and any private relief, philanthropic or other organization of an international or regional character with headquarters abroad.

(f) Any person in the United States to the extent such person is acting on behalf of, for the account of, or for the benefit of, a foreign person, except for a holder of record as defined in § 129.5 of this part.

§ 129.7 Foreign official institution.

The term "foreign official institution" includes central governments of foreign countries and their possessions and recognized central banks of issue, including the following:

(a) The treasuries, including ministries of finance, or corresponding departments of national governments; central banks, including all departments thereof; stabilization funds, exchange control offices, or other governmental exchange authorities; and fiscal agents of the national governments which have as an important part of their functions, activities similar to those of a treasury, central bank, or stabilization fund: *Provided*, That branches or agencies of foreign official banking institutions which are located in the United States shall not be regarded as foreign official institutions for purposes of these regulations.

(b) Diplomatic and consular establishments and other departments and agencies of national governments, such as army and navy departments, purchasing commissions, and state trading organizations.

(c) Any international or regional organization, or subordinate or affiliated agency thereof, created by treaty or convention between sovereign states: *Provided*, That the term "foreign official institution" shall not include the following: (1) Nationalized or other government-owned banks or corporations (Nationalized or other government-owned banks should be regarded as "foreign banks" and nationalized or other government-owned corporations should be included in the category "other foreign holders" unless such banks or corporations fall within one of the categories set forth in paragraph (a) of this section), and (2) personal accounts of foreign diplomatic and other official representatives of foreign countries.

§ 129.8 The Act.

For the purposes of this part, "the Act" means the Foreign Investment Study Act of 1974 (Pub. L. 93-479, 88 Stat. 1450).

§ 129.9 The Secretary.

The term "the Secretary" means the Secretary of the Treasury.

Subpart B—Recordkeeping and Reporting Requirements

§ 129.10 Determination by the Secretary.

The Secretary hereby determines that the recordkeeping and reporting provisions of this subpart are necessary to enable him to carry out his functions under the Act.

§ 129.11 Reports.

(a) *United States issuers.* A report is required on Form FPI-1 (described in § 129.21 of this part) from United States issuers as follows:

(1) *Routine large issuer reporters; assets test.* A report is required on Form FPI-1 from every United States issuer, irrespective of whether it has evidence of foreign investment, which, as of the latest available closing date of its books had:

(i) Total consolidated assets of more than $20 million, if it is a nonbanking organization;

(ii) Total consolidated assets of more than $50 million, if it is a banking organization;

(2) *Selective small issuer reporters; foreign ownership test.* Except as provided in section 129.12(a) of this part, a report on Form FPI-1 is required from every United States issuer which is not a routine reporter under paragraph (a)(1) of this section, which has evidence of foreign ownership of any of its securities or other evidences of ownership or indebtedness. This requirement applies without regard to the size of the issuer's assets determined under paragraphs a(1) (i) or (ii) of this section.

(3) *Consolidated reports.* Where several domestic corporations or other business enterprises are affiliated with or under the common control of a single parent enterprise, such parent shall submit a consolidated form FPI-1 on behalf of all its domestic affiliates or subsidiaries.

(4) *Acknowledgement required.* Copies of Form FPI-1 and general and special instructions will be mailed to certain issuers. These issuers will be selected on the basis of information indicating that they have or have had foreign ownership, or may be of special interest to foreign investors on account of size, industry, international operations, or other factors. Each such issuer is required to submit an acknowledgment of receipt as provided in special instructions pertaining to Form FPI-1, even if it is not required to submit a report under paragraph (a)(2) of this section, or if it falls within the exemption of § 129.12(a) of this part. This requirement is necessary to insure compliance with the reporting requirements and efficient administration of the study.

(b) *United States holders of record.* Except as provided in § 129.12(b) of this part, a report is required on Form FPI-2 (described in paragraph 129.22 of this part) from every United States holder of record who holds on behalf of a foreign person any security or any other evidence of ownership, participation, or indebtedness of a United States issuer. Included among holders of record who must report are trustees holding investments for revocable trusts organized under the laws of the United States where the trustor is a foreign person.

(1) *Consolidated reports.* Where several nominees, trustees, or other holders of record are affiliated with or under the common control of a single bank, broker, or other institution, such parent institution shall submit a consolidated Form FPI-2 on behalf of all such holders of record.

(2) *Acknowledgment required.* Copies of Form FPI-2 and general and special instructions will be mailed to certain nominees and other holders of record or their parent institutions. These holders of record will be selected based on the 1974 Nominee List published by the American Society of Corporate Secretaries, Inc. and other information indicating that such institutions either offer their services to the public as nominees or may be acting on behalf of foreign investors. Each such holder of record is required to submit an acknowledgment of receipt as provided in special instructions pertaining to Form FPI-2 even if it is not required to file a report under paragraph (b) of this section or if it falls within the exemption of § 129.12 (b) of this part. This requirement is necessary to insure compliance with the reporting requirements and the efficient administration of the study.

(c) *Time and place of filing reports.* Reports on Forms FPI-1 and FPI-2 should be filed not later than March 1, 1975 with the Foreign Portfolio Investment Project, Office of the Assistant Secretary for International Affairs, Department of the Treasury, Washington, D.C. 20220.

§ 129.12 Exemptions.

(a) *United States issuers.* A report on Form FPI-1 is not required from any United States issuer, irrespective of whether it has knowledge of foreign ownership, which, as of the latest available closing date of its books, had total consolidated assets of less than $1,000,000.

(b) *United States holders of record.* A report on Form FPI-2 is not required from the following holders of record:

(1) Holders of record which held for foreign customers investments in United States issuers aggregating $25,000 or less based on market value of stocks or face value for debt obligations as of December 31, 1974. This exemption does not apply to holders of record under management or control of a single bank, broker, or other parent institution, except where the aggregate holdings of holders of record under a single parent institution total $25,000 or less.

(2) Parents or guardians acting as custodians for minors.

(3) Estates or trusts where the foreign heirs, legatees, or beneficiaries do not have full control of the management of the assets of the estate or trust.

(c) *Special exemption.* The Secretary or his delegate may by written order or authorization grant additional exemptions, in whole or in part, from the requirements of this part, which may apply to particular persons or classes of persons, and which shall be revocable in the discretion of the Secretary or his delegate.

§ 129.13 Records.

(a) Every person subject to the provisions of this part, whether or not such person is exempt from the reporting requirements of this part, shall maintain a full record of any information which the Secretary directs (including worksheets, journals or other books of original entry, minute books, stock transfer records, lists of shareholders, or financial statements) as being germane to his functions

in carrying out the foreign portfolio investment study.

(b) Such information shall be maintained for such period as the Secretary directs, but shall not be required to be maintained beyond the date fixed by section 10 of the Act for final submission of the study to Congress.

§ 129.14 Protection of information.

(a) *Confidentiality.* In addition to the Secretary, the only individuals who may have access to information furnished under the provisions of this part are those sworn employees, including consultants, of the Department of the Treasury designated by the Secretary. Neither the Secretary nor any such employee may—

(1) Use any information furnished under this part except for analytical or statistical purposes within the United States government; or

(2) Publish, or make available to any other person in any manner, any such information in a manner that the information furnished under this part by any person can be specifically identified with such person except for purposes of an enforcement proceeding under the Act: *Provided,* That the Secretary may exchange information furnished under the provisions of this part with the Secretary of Commerce in order to prevent any duplication or omission in the studies conducted by each Secretary pursuant to the Act.

(b) *Notification of customers.* (1) Section 7(b)(2) of the Act provides that:

> Whenever an order under clause (2) of this subsection requires a person to produce information which can be specifically identified as being part of the records of its customers, the Secretary shall, upon being provided the names and addresses of such customers, send a notice to such customers that information from their records will be disclosed pursuant to this Act; • • •

Notice to customers is not required under the Act where a reporter is "directly involved in the ownership or management of assets for the customer as nominee, agent, partner, fiduciary, trustee, or in a similar relationship."

(2) Should any person be required to submit, pursuant to the provisions of the Act or any amendment to this part, information which can be specifically identified as being part of the records of its customers where such person is not directly involved in the ownership or management of assets for the customers as a nominee, agent, partner, fiduciary, trustee, or in a similar relationship, the Secretary, upon being provided the names and addresses of such customers, shall send a notice to such customers that information from their records will be disclosed pursuant to the Act. Any reporter having submitted names of customers pursuant to the provisions of this paragraph shall be required to submit a report on its due date or within 10 days of being notified by the Secretary that notice to such customers has been given, whichever is later.

Subpart C—Description of Forms Prescribed Under this Part

§ 129.20 Copies.

Copies of the forms described in this subpart may be obtained from the Foreign Portfolio Investment Project, Office of the Assistant Secretary for International Affairs, Department of the Tdeasury, Washington, D.C. 20220.

§ 129.21 Form FPI–1. Reporting form for United States issuers.

On this form, United States issuers of securities or other evidences of ownership, participation, or indebtedness are required to report foreign ownership, by country and issue, of stocks and debt obligations issued by them which were held by foreign persons as of December 31, 1974, and to supply certain information relating to the ownership distribution of outstanding issues, and information regarding foreign placement of securities, stock-for-stock or stock-for-assets exchanges with foreign persons.

§ 129.22 Form FPI–2. Reporting form for United States holders of record.

On this form, United States holders of record are required to report foreign ownership, by country and issue, of those stocks and debt obligations which they held on behalf of foreign persons as of December 31, 1974.

§ 129.23 Special reports.

Any person subject to the provisions of this part may be required to submit a special report which the Secretary deems necessary to supplement information supplied by such person on Forms FPI–1 or FPI–2 or which may otherwise be necessary to enable the Secretary to carry out his functions under the Act.

Subpart D—Penalties

§ 129.30 Civil and criminal penalties.

In accordance with section 8 of the Act, the penalties and enforcement procedures described in paragraphs (a), (b), and (c) of this section shall apply to violations of this part and any reporting requirement imposed hereunder or any other rule, regulation, order, or instruction promulgated by the Secretary under the authority of the Act.

(a) *Civil penalty.* Attention is directed to section 8(a) of the Act which provides:

> Whoever fails to furnish any information required pursuant to the authority of this Act, whether required to be furnished in the form of a report or otherwise, or to comply with any rule, regulation, order, or instructions promulgated pursuant to the authority of this Act may be assessed a civil penalty not exceeding $10,000 in a proceeding brought under subsection (b) of this section. (88 Stat. 1458).

(b) *Civil proceeding; injunction.* Attention is directed to section 8(b) of the Act which provides:

> Whenever it appears to either the Secretary of the Treasury or the Secretary of Commerce that any person has failed to furnish any information required pursuant to the provisions of this Act, whether required to be furnished in the form of a report or otherwise, or has failed to comply with any rule, regulation, order, or instruction promulgated pursuant to the authority of this Act, such Secretary may in his discretion bring an action, in the proper district court of the United States or the proper United States court of any territory or other place subject to the jurisdiction of the United States, seeking a mandatory injunction commanding such person to comply with such rule, regulation, order, or instruction, and upon a proper showing by such Secretary of the relevance to the purposes of the Act of such rule, regulation, order, or instructions, a permanent or temporary injunction or restraining order shall be granted without bond, and such person shall also be subject to the civil penalty provided in subsection (a) of this section if the judge finds that such penalty is necessary to obtain compliance with such injunction or restraining order. (88 Stat. 1453).

(c) *Criminal penalties.* Attention is directed to section 8(c) of the Act which provides:

> Whoever willfully fails to submit any information required pursuant to this Act, whether required to be furnished in the form of a report or otherwise, or willfully violates any rule, regulation, order, or instruction promulgated pursuant to the authority of this Act shall, upon conviction, be fined not more than $10,000 or, if a natural person, may be imprisoned for not more than one year or both; and any officer, director, or agent of any corporation who knowingly participates in such violation may be punished by a like fine, imprisonment, or both. (88 Stat. 1453).

§ 129.31 Fraudulent reporting.

Attention is also directed to section 1001 of the United States Criminal Code which provides:

> Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than 5 years, or both. (18 U.S.C. 1001)

Dated: October 16, 1974.

CHARLES A. COOPER,
Assistant Secretary.

DEPARTMENT OF THE TREASURY

Monetary Offices

FOREIGN PORTFOLIO INVESTMENT STUDY

Final Forms

Notice is hereby given of the promulgation in final form by the Department of the Treasury of forms and instructions to implement the Foreign Portfolio Investment Study Regulations (see today's FEDERAL REGISTER, p. 44120).

On November 1, 1974, a notice of proposed forms was published in the FEDERAL REGISTER (39 FR 38771). The public was given until November 22, 1974 to submit in writing comments, data, views, arguments or suggestions pertaining to the proposed forms and instructions prior to their publication in final form. A number of public comments were received in response to the foregoing notice. In addition, a public hearing on the proposed forms and instructions was held at the Office of Management and Budget on November 26, 1974. Suggestions and comments have been carefully considered and taken into account in the revision of the forms and instructions which is herewith published in final form. The changes reflected in the final forms and instructions are simplifying and clarifying in nature.

The forms and instructions are promulgated under the authority of the Foreign Investment Study Act of 1974 (Pub. L. 93-479) which directs the Secretary of the Treasury "to conduct a comprehensive, overall study" of foreign portfolio investment, and which authorizes the Secretary to require from any person the submission of reports which he determines are necessary to carry out the study. The forms include Form FPI-1, which is required of United States issuers, and Form FPI-2, which is required of United States holders of record. Also promulgated herewith are general instructions and special instructions applicable to both forms.

In that it is important that reporters who will be utilizing the forms and instructions be able to rely thereon in advance of the December 31, 1974 "benchmark" date for collection of the foreign investment data that are the subject of the study, there is good cause to make these forms and instructions effective immediately. Accordingly, the forms and instructions become effective upon publication in the FEDERAL REGISTER.

Dated: December 16, 1974.

[SEAL] CHARLES A. COOPER,
Assistant Secretary.

SURVEY OF FOREIGN PORTFOLIO INVESTMENTS IN THE UNITED STATES AS OF DECEMBER 31, 1974

GENERAL INSTRUCTIONS

PART I. INTRODUCTION

This survey is being conducted by the Department of the Treasury pursuant to the Foreign Investment Study Act of 1974 (Public Law 93-479, October 26, 1974), which directs the Secretary of the Treasury "to conduct a comprehensive, overall study" of foreign portfolio investments in the United States. A parallel study of foreign direct investment in the United States is being conducted by the Secretary of Commerce under the same law.

Section 7 of the Foreign Investment Study Act authorizes the Secretary of the Treasury to establish by regulation whatever rules he deems necessary to carry out his functions under the Act. The Secretary of the Treasury, having published regulations governing the study, as well as the following instructions and forms, in the FEDERAL REGISTER on December 20, 1974 (39 FR 44131), and having consulted with the Director of the Office of Management and Budget, has determined that the following instructions and forms are necessary to carry out the foreign portfolio investment study authorized and directed by Congress in the Act. The filing of these forms is therefore mandatory under section 7 of the Act.

Information furnished in these forms will be held in confidence by the Secretary of the Treasury in accordance with section 7(c) of the Act which states:

In addition to the Secretary of Commerce and the Secretary of the Treasury, the only individuals who may have access to information furnished under subsection (b) (2) are those sworn employees, including consultants, of the Department of Commerce or Department of the Treasury designated by the Secretary of either such Department. Neither such Secretary nor any such employee may—

(1) Use any information furnished under subsection (b) (2) except for statistical or analytical purposes provided by this Act; or

(2) Publish, or make available to any other person in any manner, any such information in a manner that the information furnished under subsection (b) (2) by any person can be specifically identified, except for the purposes of a proceeding under section 8 [an enforcement proceeding under the Act].

Such Secretaries may exchange any such information furnished under subsection (b) (2) in order to prevent any duplication or omission in the studies compiled by each such Secretary.

PART II. GENERAL INSTRUCTIONS

A. *Who must report.*

1. *United States issuers.* The reporting obligations of United States corporations, partnerships, investment companies, joint stock associations, joint ventures, and other organizations or groups of persons subject to the jurisdiction of the United States, which issue shares, certificates, or other evidence of ownership, participation, or indebtedness, are governed by the following classifications:

a. *Routine large issuer reporters—assets test.* A report is required on Form FPI-1 from every United States issuer, irrespective of whether it has evidence of foreign investment which, as of the latest available closing date of its books, had:

(1) Total consolidated assets of more than $20 million, if it is a nonbanking organization;

(2) Total consolidated assets of more than $50 million, if it is a banking organization;

b. *Selective small issuer reporters—foreign ownership test.* Except as otherwise provided in these instructions, a report on Form FPI-1 is required from every United States issuer which is not a routine reporter under subparagraph a. above, which has evidence of foreign ownership of any of its securities or other evidences of ownership, participation, or indebtedness. This requirement applies without regard to the size of the issuer's assets determined under subparagraph a. (1) or (2) above.

c. *Exempted issuers—Assets test.* A report on Form FPI-1 is not required from any United States issuer, irrespective of whether it has knowledge of foreign ownership, which, as of the latest available closing date of its books, had total consolidated assets of less than $1,000,000.

d. *Consolidated reports.* Where several domestic corporations or other business enterprises are affiliated with or under the common control of a single parent enterprise, such parent shall submit a consolidated Form FPI-1 on behalf of all its domestic affiliates or subsidiaries. A list of these subsidiaries and affiliates should be attached to Form FPI-1.

e. *Acknowledgment required.* The Treasury will mail copies of Form FPI-1 and general and special instructions to certain issuers. These issuers will be selected on the basis of information indicating that they have or have had foreign ownership, or may be of special interest to foreign investors on account of size, industry, international operations, or other factors. Each such issuer is required to submit an acknowledgment of receipt as provided in specific instructions pertaining to Form FPI-1, even if it is not required to submit a report under subparagraphs (b) and (c) above. This requirement is deemed necessary to insure the completeness and accuracy of reporting and efficient administration of the study.

2. *United States holders of record.* Except as otherwise provided by these instructions, a report is required on Form FPI-2 from any person subject to the jurisdiction of the United States who acts on behalf of a foreign person as a holder of record of any security or any other evidence of ownership, participation or indebtedness of a United States issuer. Included among holders of record who must report are trustees holding investments for a revocable trust organized under the laws of any jurisdiction within the United States where the trustor is a foreign person.

a. *Consolidated reports.* Where several nominees, trustees, or other holders of record are affiliated with or under the common control of a single bank, broker, or other institution, such parent institution should file a consolidated Form FPI-2 on behalf of all such holders of record.

b. *Exempted holders of record.* A report on Form FPI-2 is not required from the following holders of record:

(1) Holders of record which held for foreign customers investments in United States issuers aggregating $25,000 or less based on fair market value as of December 31, 1974. This exemption does not apply to holders of record under common management or control as described in subparagraph (a) above, except where aggregate holdings of holders of record under a single parent institution total $25,000 or less.

(2) Parents or guardians acting as custodians for minors.

(3) Estates or trusts where the foreign heirs, legatees, or beneficiaries do not have full control of the management of the assets of the estate or trust.

(c) *Acknowledgment required.* The Treasury will mail copies of Form FPI-2 and general and special instructions to certain nominees and other holders of record or their parent institutions. These holders will be selected based on the 1974 Nominee List published by the American Society of Corporate Secretaries, Inc. and other information indicating that such institutions either offer their services to the public as nominees or may be acting on behalf of foreign investors. Each such holder is required to submit an acknowledgment of receipt as provided in specific instructions pertaining to Form FPI-2 even if it is not required to submit a report under Paragraph 2.b. above. This requirement is deemed necessary to insure

XUM
V 39 1974 DEC 20
XUM

compliance with the reporting requirements and efficient administration of the study.

B. *What must be reported?*

1. *Inclusions.* Except as otherwise provided in these instructions, reporters must report on both Forms FPI–1 and Form FPI–2 ownership by a foreign person as of December 31, 1974 of any of the following interests in a United States issuer:

a. Stocks or investment company shares, including rights, warrants, and scrip, or other evidence of equity ownership. (See the direct investment exclusion, paragraph 2.b.(2)(i) below).

b. Debt obligations having an original maturity of more than one year. (Portions of obligations having an original maturity of more than one year which will fall due in 1975 must be reported even if carried on an issuer's books as current obligations.) Include such obligations as bonds, debentures, notes, mortgages, bank and other long-term loans, and, in the case of financial institutions, certificates of deposit, and certificates of participation. In addition to private obligations, the survey also covers foreign holdings of debt obligations of the Federal, State and local governments including any agencies, corporations, financing institutions, or other instrumentalities thereof, including Federally-sponsored agencies.

c. Business or investment trust certificates or shares.

d. Limited partnership interests; transferable shares in a business venture, association, or syndicate; or any fractional interest in oil and gas, real estate, crops, or other investment property.

2. *Exclusions:* Certain foreign investments should be excluded from reports as follows:

a. *Form FPI–1 and Form FPI–2:*

Mutual insurance companies. Equity interests in mutual insurance companies arising from insurance policies.

b. Form FPI–1 only:

(i) *Capital structure of issuer.*

(ii) *Intercompany holdings.* Form FPI–1 should exclude from the listing and description of the issuer's securities and long-term debt, all issues held entirely within the reporter's company system. For example, if a domestic subsidiary has one issue of securities held entirely by its parent as well as other publicly-held issues, only the latter should be listed and described in the appropriate items on Form FPI–1.

(iii) *Issues of foreign subsidiaries.* Issues of securities and long-term debt of subsidiaries or affiliates incorporated under the laws of a foreign jurisdiction should not be listed and described as issues of the reporter on Form FPI–1.

(2) *Certain foreign investment in issuer.*

(i) *Direct investment.* Data should not be filed on Schedules A or B of Form FPI–1 on investment by a foreign person in a United States issuer, if the holdings of such foreign person amount to 10 percent or more of the total voting power of the United States issuer. A foreign person who owns such a 10 percent or greater interest is defined as a "direct investor" in the issuer. In such a case, holdings by the direct investor in that issuer should be reported to the Bureau of Economic Analysis, Department of Commerce.

(ii) *Investment by foreign affiliates.* Investment in the equity or debt of a United States parent company by a foreign subsidiary should not be reported. For purposes of the survey, a foreign subsidiary is defined as a foreign enterprise in which a United States corporation owns at least 10 percent of the voting stock or equivalent ownership interest.

c. *Form FPI–2 only:*

Certain United States trusts. Assets of a revocable or irrevocable personal inter vivos or testamentary trust, where the trustor is a United States person, even if a beneficiary is a foreign person; or of an irrevocable personal inter vivos or testamentary trust, even if the trustor is a foreign person should not be reported.

C. *Space on form insufficient.*

When space does not permit a full answer to any question on the form, the information required should be submitted on supplementary sheets appropriately labeled and incorporated by reference under the question. All supplementary sheets, including continuation sheets, should be attached to the form to which they pertain.

D. *Industry classification of reporter.*

The Enterprise Standard Industrial Classification (SIC) will be used to identify reporters by the kind of economic activity in which they are engaged. The code for use in this survey consists of two digits, which breaks economic activity down into seventy-five major groups. The code is reproduced in Annex A of these instructions and the appropriate code number for the reporter should be entered in item 1.e of Part I in reporting Form FPI–1 or FPI–2. For those companies involved in several different types of economic activity, use the code number that describes the principal activity of the company as measured by sales (or revenues if the reporter does not have sales).

E. *Country detail.*

Information on Schedules A and B has to be prepared in accordance with the country list shown in Annex B. For convenience of use, countries are listed in alphabetical sequence. Please note that the country identification to be used in the report should include both the name of the country and the code number provided for each country.

F. *CUSIP number.*

Each stock, debt obligation, and instrument reportable in Parts II and III, and on Schedules A and B of Form FPI–1, or on Schedule C of Form FPI–2, must be identified by its CUSIP number in the space provided. (The CUSIP number was developed by the Committee on Uniform Security Identification Procedures of the American Bankers Association. It is assigned to long-term securities by the CUSIP Service Bureau, Standard & Poor's Corporation, 34 Hudson Street, New York, New York 10014). If a particular stock or debt obligation does not have a CUSIP number, no entry should be made in the space for a CUSIP number.

G. *Foreign currency securities.*

All amounts requested for security issues denominated in foreign currency should be given in that foreign currency only and should not be converted into U.S. dollars. This applies particularly to items 12 and 14 and to Schedule B of Form FPI–1, and to Schedule C of Form FPI–2.

H. *Required information not available.*

All reasonable efforts should be made to obtain the required information. When actual information cannot be obtained, estimates will be acceptable but should be so marked with the notation "Est." whenever used. If any information not available at the time of reporting is obtained thereafter, a supplementary report should be filed promptly with a full explanation. Reporters must answer every question on the appropriate reporting form. However, lines and columns on attached schedules which are not applicable to a particular reporter should be left entirely blank.

I. *Number of copies.*

A single original copy of the report shall be filed. In addition, each person reporting shall retain a copy of his report.

J. *Time and place of filing reports.*

Reports shall be filed no later than March 1, 1975. Reports shall be mailed to: Foreign Portfolio Investment Project, Office of the Assistant Secretary for International Affairs, U.S. Department of the Treasury, Washington, D.C. 20220.

K. *Method of filing reports.*

The requested data may be reported using the following methods.

1. *Typewritten.* All data are to be typed on the report forms using continuation sheets and supplemental sheets as necessary, as described in paragraph C.

2. *Computer printout.* Printed output produced by data processing equipment may be submitted for Schedules A and B of Form FPI–1, and Schedule C of Form FPI–2. The data must be printed in the same sequence shown in the schedules and not contain any extraneous information. The printout must show all headings and column identifications in each page (either computer produced or original schedule forms attached). All printing should be double-spaced.

3. *Magnetic tape.* Magnetic tape output produced by data processing equipment may be submitted for Schedules A and B of Form FPI–1, and Schedule C of Form FPI–2 when accompanied by a printout of the tape. Physical specifications, label and format detail for both tape and print will be available after January 15, 1975 from the address shown in paragraph "J" of the General Instructions. Reporting specifications will be mailed as soon as available. Only tapes which meet these specifications, will be acceptable as part of the report due in this survey.

A combination of the above methods may be used, e.g. typewritten Schedules A and B and computed produced Schedule C.

L. *Extension of the reporting deadline.*

If a report cannot be filed within the time allotted, an application for an extension of the filing date should be submitted to the Treasury at least one week prior to the original filing date (see Paragraph J. above) stating the reason for the anticipated delay and the time required to submit a report. Upon receipt of an application, additional time for filing may be granted for good cause shown.

M. *Information regarding preparation of reports.*

Anyone desiring information concerning preparation of reports or copies of forms or instructions, or requiring an extension of the reporting period (see Paragraph L above) should direct inquiries to the above address or he may call Area Code (202) 634–5099.

PART III. DEFINITIONS

1. "United States" means the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Panama Canal Zone, and all territories and possessions of the United States.

2. "Person" means an individual, partnership, association, trust, corporation, or other organization, including the Federal, State, and local governments and any agencies, corporations, financing institutions, or other instrumentalities thereof, including Federally-sponsored agencies.

3. "United States person" means any individual resident in the United States or any other person organized or created under the laws of the Federal, State, and local governments and any instrumentalities, thereof, including Federally-sponsored agencies.

4. "United States issuer" means any United States person who issues, through public or private distribution, any security or other evidence of ownership, participation, or indebtedness, including the following:

(a) Stocks or investment company shares, including rights, warrants, and scrip;

(b) Debt obligations having an original maturity of more than one year, including such obligations as bonds, debentures, notes, mortgages, bank and other long-term loans and other obligations, certificates of deposit, and certificates of participation;

(c) Business or investment trust certificates or shares;

(d) Limited partnership interests; transferable shares in a business venture, association, or syndicate; or any fractional interest in oil and gas, real estate, crops, or other investment property.

5. "United States holder of record" means any person subject to the jurisdiction of the United States who is carried on stock transfer records or other ownership records as having title to any security or other evidence of ownership, participation or indebtedness of a United States issuer which he is holding on behalf of another person. The term "United States holder of record" may include such persons as nominees, custodians, agents, trustees, other fiduciaries, banks, brokers, or other intermediaries, who hold title to investments on behalf of another person: *Provided*, That the term also extends to a person acting as a custodian for bearer securities of private issuers or for bearer or registered securities issued by Federal, State, or local governments or their instrumentalities, including Federally-sponsored agencies, even though such person is not carried on ownership records as holding title to such securities.[1]

6. "Foreign person" includes:

(a) Any individual, including a citizen of the United States, resident outside the United States.

(b) Any partnership, association, corporation, or other organization created or organized under the laws of a foreign country, excepting branches and agencies thereof located in the United States.

(c) Any branch, subsidiary or other allied organization within a foreign country of a partnership, association, corporation or other organization created or organized under the laws of a foreign country or of the United States. Thus, for example, branches of American brokers and dealers (including a reporter's own branches) located in foreign countries should be considered as foreign persons. Branches, subsidiaries, and agencies located in the United States of foreign brokers and dealers should consider their overseas head offices and other overseas branches of such head offices as foreign persons.

(d) Any government of a foreign country and any subdivision, agency or instrumentality thereof, including all foreign official institutions, even though located in the United States.

(e) Any official international or regional organization, or subordinate or affiliated agency thereof, created by treaty or convention between sovereign states, even though located in the United States; and any private relief, philanthropic or other organization of an international or regional character with headquarters abroad.

(f) Any person in the United States to the extent such person is acting on behalf of, or for the account of, or for the benefit of a foreign person except for a holder of record.

7. "Foreign official institution" (See Annex C) means central governments of foreign countries and their possessions and recognized central banks of issue, including the following:

(a) The treasuries, including ministries of finance, or corresponding departments of national governments; central banks, including all departments thereof; stabilization funds, including official exchange stabilization funds, exchange control offices, or other governmental exchange authorities; and fiscal agents of the national governments which have as an important part of their functions, activities similar to those of a treasury, central bank or stabilization fund. *Provided*, That branches or agencies of foreign official banking institutions which are located in the United States shall not be considered foreign official institutions for purposes of these instructions.

(b) Diplomatic and consular establishments and other departments and agencies of national governments, such as army and navy departments, purchasing commissions and state trading organizations.

(c) Any international or regional organization, or subordinate or affiliated agency thereof, created by treaty or convention between sovereign states.

Provided, That the term "foreign official institution" shall not include the following: (i) Nationalized or other government-owned banks or corporations (Nationalized or other government-owned banks should be regarded as "foreign banks" and nationalized or other government-owned corporations should be included in the category "other foreign holders" unless such banks or corporations fall within one of the categories set forth in subparagraph (a) above); and (ii) personal accounts of foreign diplomatic and other official representatives of foreign countries.

8. "Employer's identification number" means the unique taxpayer's identification number assigned to the employer by the Internal Revenue Service (This is the number which should be entered in Part I, Item 1 (Identification of Reporter) on Form FPI-1 and FPI-2).

9. "Consolidated financial data" means the financial data regarding an issuer, developed in accordance with standard accounting concepts used by the issuer, shown in its annual report to stockholders or included in its annual report to the Securities and Exchange Commission (SEC).

- 99—Nonclassifiable enterprises

ANNEX B. LISTING OF COUNTRIES AND COUNTRY CODES

The foreign holdings of U.S. securities are required to be reported in the country detail listed below. Insert in schedules A and B of Form FPI-1, on separate lines, the respective

[1] Section 7(b)(2) of the Act provides that whenever any person is required to submit information which may be specifically identified as having been obtained from the records of its customers, the Secretary, after having been provided names and addresses of such customers, shall send a notice to such customers that information from their records will be disclosed pursuant to the Act. This notification requirement does not apply where a reporter is "directly involved in the ownership or management of assets for the customer as nominee, agent, partner fiduciary, trustee, or in a similar relationship."

Form FPI-2 is required only of holders of record who stand in one of the foregoing named relationships to a foreign customer. While the regulations promulgated pursuant to the Act provide for notice to customers that information derived from their records will be reported in situations where notice is required by the Act, the survey does not, under the provisions of these regulations, extend to such situations.

XUM V 39 NO 246 DEC 20 1974 XUM

Specific Instructions Relating to Form FPI-1

1. *Who must report.* Form FPI-1 is required only of United States issuers. For information as to which types of issuers are required to submit Form FPI-1, as well as the exemption level for certain small issuers, please refer to Paragraph A.1. of Part II of the General Instructions.

2. *What must be reported.* General information as to what must be reported by United States issuers filing Form FPI-1 may be found in Paragraph B.1. of Part II of the General Instructions.

3. *Acknowledgement required.* The regulation and General Instructions require selected issuers receiving copies of Form FPI-1 from the Treasury to submit an acknowledgement of receipt. The package of reporting forms includes a reply card to be used for this purpose.

4. *Instructions pertaining to specific items on Form FPI-1:*

Item 1.a. For a definition of "Employer's Identification Number", refer to Paragraph 8 of Part III of the General Instructions.

Item 1.c. Enter both address and ZIP code. Make entry for ZIP code number in coding spaces provided.

Item 2. If a security is traded on more than one of the identified exchanges, check off all relevant boxes in Item 2.

Item 3. Consolidated financial data should be given for the latest available year-end or closest 12-month period. If the company operates on a calendar year basis and dates for 1974 are not yet available, information should be supplied for the year ending 12/31/73. Information should be based on consolidations used in reports to stockholders or to the Securities and Exchange Commission.

Amounts that have to be converted to U.S. dollars should be converted in agreement with standard accounting principles. If the company uses different conversion procedures, these may be used but a statement should be appended describing these procedures.

Item 3.f. If the reporter is not a corporation, enter here the closest equivalent of per-share earnings for other units of ownership.

Item 3.g. This item applies only to corporations.

Item 4. If a foreign person(s) holds an interest in the reporter's voting stock of 10 percent or more, enter the extent of combined foreign ownership by such foreign holder(s).

Items 5 through 12. If the columns provided for these items are not sufficient to describe all of your issues of securities and your long-term debt that have to be reported, you may reproduce the respective pages of the questionnaire for the purpose of including these items.

If this is a consolidated report, as provided for in paragraph A.1.d. of the General Instructions, list all subsidiaries and affiliates consolidated in this report, and append this list to the report.

Items 5(a)(b), 8(a)(b), and 12(a)(b). For a definition of the term holder of record as used in these items, refer to Paragraph 8 of Part III of the General Instructions.

Note: Securities held by parents or guardians acting as custodians for minors may be included in line (a) of these items.

Items 6(a), 9(a), and 11(c). Enter market value as of December 31, 1974. If no transactions in these securities occurred in the market on December 31, 1974, enter market value as of the latest available preceding date when such transactions occurred. If a security was not traded within 90 days prior to 12/31/74, an estimated market value (identified Est.) may be substituted in order to establish a reasonable valuation.

Items 6(b) and 9(b). This information should be supplied as of December 31, 1974. However, if the reporter does not ordinarily close its books as of that date, enter book value as of the nearest available closing date.

Item 7. Stock dividends or dividends in kind should not be included in this item.

Item 8 and 11. Make appropriate code entry in each column heading to identify the type of issue described below. Use Appendix D, code for Form FPI-1, for that purpose.

Items 11 and 12. Certificates of Deposit. Combine all certificates of deposit of an issuing company and show them as a single issue. In line 11(b) give range of maturities and in line 11(c) give range of interest for the total of all certificates covered by the group.

Item 11 (f). If an issue is denominated in a currency other than United States dollars, it must be reported in that currency. For purposes of making this entry use the code symbol of the country from Annex B of the General Instructions.

Schedule to Item 14, col. 5. State amounts at face value rather than market value.

Schedule to Item 14, col. 6. State amounts at market value at time of placement or sale.

Schedule to Item 15, cols. 4, 5, and 6. State amounts at market value at the time of the stock exchange.

Schedules A and B

Code number. Where an interest in an issuer, whether equity or debt, does not have a CUSIP number, leave "CUSIP No. " " but enter the appropriate issue code from Annex D of the General Instructions in the

Item 1.c. Enter both address and ZIP code

space provided. (For treatment of certificates of deposit, see specific instructions to items 11 and 12 above.)

Schedule B. Use country code from Annex B of the General Instructions to identify foreign currency of issue.

Country detail. For each country in which your issues are held list the name of the country and the country code as listed in Annex B of the General Instructions. Use reproduced continuation sheets if necessary.

Column 7. If a foreign holder engages in multiple activities, list it under the column representing its primary activity. Example: A foreign bank which operates an investment company should be listed as a bank.

General Note: Neither the number of holders nor the number of shares or amounts should be rounded. Enter actual figures, including fractional shares.

SPECIFIC INSTRUCTIONS RELATING TO FORM FPI-2

1. *Who must report:*

Form FPI-2 is required only of United States holders of record. For information as to which holders of record are required to submit Form FPI-2, as well as the exemption level, and the requirement of consolidated reports from multiple holders under a single parent institution, please refer to Paragraph A.2. of the General Instructions.

2. *What must be reported:*

General information as to what must be reported by United States holders of record filing Form FPI-2 may be found in Paragraphs B. 1. and 2. of the General Instructions.

3. *Acknowledgment required:*

The regulations and General Instructions require selected holders of record receiving copies of Form FPI-2 from the Treasury to submit an acknowledgment of receipt. The package of reporting forms, mailed to reporters, includes a reply card to be used for this purpose.

4. *Instructions pertaining to specific items on Form FPI-2:*

Item 1a. For a definition of "Employer's Identification Number" refer to Paragraph 8 of Part III of the General Instructions.

Item 1c. Enter both address and ZIP code. Make ZIP code entry in code space provided.

Item 1e. Enter the appropriate business code from Annex A of the General Instructions.

Schedule C

Submit Schedule C for each account held for a foreign person or for an aggregated group as defined below.

Item 2. Assign an arbitrary identifying number to each foreign account in sequential order from 1 to the total number of accounts reported. Do not use actual internal account numbers. Enter the appropriate identifying number in this item.

NOTE: Reporters may aggregate accounts for purposes of Schedule C provided that the accounts fall within a single country and a single category listed in Item 5. Reporters using this method are not obligated, however, to aggregate all accounts in a single country/category. Neither does an election to aggregate for one or more country/categories bind the reporter to use the aggregate method for all accounts reported on Schedule C. In item 2, aggregated accounts should be identified by inclusive sequential numbers (e.g. 16–20).

Item 4. Enter the appropriate country name and country code from Annex B of the General Instructions.

Item 5. If the foreign person is engaged in several activities enter only the category for its major activity. Example: A foreign bank which also operates an investment company should be identified as a bank.

Column 2. Enter code numbers only for issues for which you do not have CUSIP numbers. Use Annex D of the General Instruction, Code for Securities and Long-Term Debt for FPI-2.

Column 3. The CUSIP number must be listed for any security that has such a CUSIP number assigned to it (see Part II, F of the General Instructions).

Column 4. Enter the number of shares of stock certificates, or other units of ownership. Enter actual numbers; do not round.

Column 5. Enter face amount of debt obligations in Column 5a in the currency of issue. Do not convert foreign currency into U.S. dollars, and do not round.

Column 5b. If an entry involves a foreign currency issue, enter the appropriate country code in Annex B of the General Instructions.

Certificates of Deposit. Certificates of deposit should be totaled by issuing institutions and shown in separate lines of Schedule C.

DEPARTMENT OF LABOR

Wage and Hour Division

■

Employees of Public Agencies Engaged in Fire Protection or Law Enforcement Activities (Including Personnel in Correctional Institutions)

DEC 20 1974 XUM

DEC 20 1974 XUM

Title 29—Labor

CHAPTER V—WAGE AND HOUR DIVISION

PART 553—EMPLOYEES OF PUBLIC AGENCIES ENGAGED IN FIRE PROTECTION OR LAW ENFORCEMENT ACTIVITIES (INCLUDING SECURITY PERSONNEL IN CORRECTIONAL INSTITUTIONS)

The Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), as amended by the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259), 88 Stat. 55), extends the Act's minimum wage, overtime, equal pay and recordkeeping requirements to most public agency employees. In the case of certain public agencies (i.e., those having employees engaged in fire protection and law enforcement activities, including security personnel in correctional institutions), application of the Act's overtime provisions was delayed until January 1, 1975. This delay was accomplished by new section 13(b)(20) which provided an interim overtime exemption for all such employees regardless of the size of the employing public agency. Effective January 1, 1975, however, the section 13(b)(20) exemption will, by its express terms, be limited to fire protection and law enforcement employees who are employed by a public agency which has, during the workweek, less than five employees so engaged. For larger public agencies having such employees, the Act provides, in section 7(k), a partial overtime exemption which, by its express terms, becomes effective January 1, 1975. These two sections are self-executing and do not depend upon administrative rules or regulations.

On May 17, 1974, however, the Acting Administrator of the Wage and Hour Division, United States Department of Labor, recognizing the need for the issuance of guidelines for interpreting the new and unique overtime exemptions relating to these public agency employees, published in the FEDERAL REGISTER (39 FR 17596) notice of a hearing scheduled for June 3, 1974, to obtain evidence and receive comments regarding the duties, customs, practices, and working conditions of such employees.

The public hearing, which was held as scheduled on June 3, 1974, lasted two full days, during which time 11 individuals and organizations testified and 143 related exhibits were made a part of the hearing record.

Thereafter, on October 30, 1974, the Administrator of the Wage and Hour Division, after reviewing the hearing record in light of the express language and legislative history of the sections 7(k) and 13(b)(20) exemptions, issued proposed regulations (29 CFR Part 553), defining "employees engaged in fire protection and law enforcement activities" and prescribing tentative guidelines for determining hours worked, the work period and tour of duty, and caused the proposed regulations to be published in the FEDERAL REGISTER (39 FR 38663).

The proposed regulations as thus published invited interested persons to submit written comments, suggestions, data or arguments in regard to them on or before December 2, 1974, and, in addition, scheduled a further public hearing for November 18, 1974. In order to give as wide publicity as possible to all affected public agencies, copies of the proposed regulations were mailed directly to the governors of all 50 States, with informational copies going to every State Attorney General and State Fire Marshal, each of whom was requested to bring the proposed regulations to the attention of interested State and local government officials. In addition, approximately 800 copies of the proposed regulations were mailed to individuals, labor organizations, employer organizations, State and local government officials and agencies, as well as to members of the United States Congress.

The further public hearing, announced in the FEDERAL REGISTER on November 1, 1974, was held in Washington, D.C., on November 18-21, 1974, for the purpose of receiving oral suggestions, proposals and comments on the proposed Part 553 from interested persons. Thirty-eight individuals and organizations testified at this second hearing and approximately 300 related exhibits were made a part of the hearing record, which, along with the June 1974 hearing record, is on file with the Chief, Branch of Wage-Hour Standards, Wage and Hour Division, United States Department of Labor, Room 1107, 711 14th Street, NW., Washington, D.C. 20210.

A thorough analysis of all testimony and written material received in connection with the November 1974 hearing has been made, again in conjunction with the express statutory language and pertinent legislative history. This analysis indicated the desirability of making certain changes and additions in 29 CFR Part 553, as proposed, as well as adding new sections to it for the purpose of calling attention to the existence of other Fair Labor Standards Act exemptions which might be available to public agencies affected by new Part 553, as well as to the Act's recordkeeping requirements which are applicable to all covered employers. Other changes in proposed Part 553 expand the term "any employee in fire protection activities" to include employees of forestry conservation agencies who spot forest or brush fires and help in their extinguishment along with other individuals who are called upon to assist during periods of emergencies and high fire danger. Similarly, the term "any employee in law enforcement activities" has been expanded to include "border patrol agents," and modified to indicate that fish and game wardens and criminal investigative agents assigned to such offices as those of a district attorney may be engaged in such activities, depending upon the particular facts. Both of the foregoing terms have been further expanded to indicate that bona fide fire protection and law enforcement employees will not lose their exempt status when they perform "support activities" on a rotational assignment for training or familiarization purposes, or for other reasons due to illness, injury or infirmity; the requirement that law enforcement officers be sworn has been deleted, as has the requirement for completed training. The sections dealing with training (§ 553.7), secondary and joint employment (§ 553.9), volunteers (§ 553.11) and "comp time" (formerly § 553.17 and now § 553.18) have been further clarified, and a new section has been added to explain the general rules for determining compensable hours of work. Numerous other minor changes have been made but they are not discussed in this preamble since they can be readily discerned by comparing the proposed Part 553 with the version now to be issued. It was suggested that changes be made in the current definitions of executive, administrative or professional employees, and these suggestions, although not germane to the section 7(k) or 13(b)(20) exemptions, will be considered when 29 CFR Part 541 is reissued. The arguments criticizing the subsections dealing with mutual aid agreements (§ 553.10) and sleep and meal time (§ 553.15) were carefully considered. No substantive changes were made, however, because these subsections restate legal requirements which cannot be waived or altered by any official of the Department of Labor. Numerous other arguments were directed to the inflationary or cost impact of Part 553. Whatever impact there is, however, is the result of the 1974 Amendments, which, after Congress had considered these same arguments, expressly extended overtime protection to employees engaged in fire protection and law enforcement activities. Moreover, the extent to which the Act will have a cost impact on such public agencies depends, in large part, upon which of the several alternatives open to them the State and local jurisdictions elect to use. Assuming that all jurisdictions elect section 7(k), without any modification in the present tours of duty, the estimated cost impact of the extension of the Act's overtime requirement for calendar year 1975 is estimated to be $27 million for all such jurisdictions.

In issuing Part 553, it is recognized that the Secretary of Labor has been directed by the 1974 Amendments to conduct a study in calendar year 1976 of the hours ordinarily worked by fire protection and law enforcement employees, and to publish the results thereof in the FEDERAL REGISTER (88 Stat. 61). Now, therefore, pending completion of such study or studies, the final version of Part 553 is hereby adopted on an interim basis to read as follows:

Sec.

553.1 Statutory provisions.
553.2 Purpose and scope.

EMPLOYEES ENGAGED IN FIRE PROTECTION AND LAW ENFORCEMENT ACTIVITIES (INCLUDING SECURITY PERSONNEL IN CORRECTIONAL INSTITUTIONS)

Sec.

553.3 Fire protection activities.
553.4 Law enforcement activities.
553.5 20-percent limitation on nonexempt work.
553.6 Public agency employees engaged in both fire protection and law enforcement activities.

Sec.
553.7 Employees attending training facilities.
553.8 Ambulance and rescue service employees.
553.9 Fire protection or law enforcement employees who perform unrelated work for their own agency or for another public agency or private employer.
553.10 Mutual aid.
553.11 Fire protection and law enforcement volunteers.

RULES FOR DETERMINING THE TOUR OF DUTY, WORK PERIOD AND COMPENSABLE HOURS OF WORK

553.12 General statement.
553.13 Tour of duty.
553.14 General rules for determining compensable hours of work.
553.15 Sleeping and meal time as compensable hours of work.
553.16 Work period.
553.17 Early relief.
553.18 Trading time.
553.19 Time off for excess hours or so-called "comp time."
553.20 The "regular rate."
553.21 Records to be kept.

AUTHORITY: Secs. 1–19, 52 Stat. 1060, as amended; 88 Stat. 60; (29 U.S.C. 201–219).

§ 553.1 Statutory provisions.

(a) In extending coverage to certain public agency employees, the Fair Labor Standards Act (hereafter the Act), by virtue of section 13(b)(20), provided a complete overtime exemption for any employee of a public agency who is engaged in fire protection or law enforcement activities (including security personnel in correctional institutions) during the period between the effective date of the 1974 Amendments (May 1, 1974) to and through December 31, 1974. Beginning January 1, 1975, however, this complete overtime exemption may be claimed only with respect to "any employee of a public agency who in any workweek is employed in fire protection activities or any employee of a public agency who in any workweek is employed in law enforcement activities (including security personnel in correctional institutions), if the public agency employs during the workweek less than five employees in fire protection or law enforcement activities, as the case may be."

(b) Beginning January 1, 1975, public agencies not qualifying for the complete overtime exemption provided in section 13(b)(20) will be required to pay overtime compensation to their fire protection and law enforcement employees on a workweek basis as required by section 7(a) of the Act unless they elect to take advantage of the partial overtime exemption provided in section 7(k) which applies, not on a workweek basis, but on a work period basis, as follows:

> • • • No public agency shall be deemed to have violated subsection (a) with respect to the employment of any employee in fire protection activities or any employee in law enforcement activities (including security personnel in correctional institutions) if—
>
> (1) In a work period of 28 consecutive days the employee receives for tours of duty which in the aggregate exceed 240 hours; or
>
> (2) In the case of such an employee to whom a work period of at least 7 but less than 28 days applies, in his work period the employee receives for tours of duty which in the aggregate exceed a number of hours which bears the same ratio to the number of consecutive days in his work period as 240 hours bears to 28 days, compensation at a rate of not less than one and one-half times the regular rate at which he is employed.
>
> (B) Effective January 1, 1976, section 7(k) is amended by striking out "240 hours" each place it occurs and inserting in lieu thereof "232 hours".
>
> (C) Effective January 1, 1977, such section is amended by striking out "232 hours" each place it occurs and inserting in lieu thereof "216 hours".
>
> (D) Effective January 1, 1978, such section is amended—
>
> (i) By striking out "exceed 216 hours" in paragraph (1) and inserting in lieu thereof "exceed the lesser of (A) 216 hours, or (B) the average number of hours (as determined by the Secretary pursuant to section 6(c)(3) of the Fair Labor Standards Amendments of 1974) in tours of duty of employees engaged in such activities in work periods of 28 consecutive days in calendar year 1975"; and
>
> (ii) By striking out "as 216 hours bears to 28 days" in paragraph (2) and inserting in lieu thereof "as 216 hours (or if lower, the number of hours referred to in clause (B) of paragraph (1)) bears to 28 days • • •.

(c) These statutory provisions, as is apparent from their terms, are limited to public agencies and do not apply to any private organization engaged in furnishing fire protection or law enforcement services, and this is so even if the services are provided under contract with a public agency.

(d) In determining whether a public agency qualifies for the section 13(b)(20) exemption after January 1, 1975, the fire protection and law enforcement activities are considered separately. Thus, for example, if a public agency employs less than five employees in fire protection activities but five or more employees in law enforcement activities (including security personnel in a correctional institution), it may claim the exemption for the fire protection employees but not for the law enforcement employees. No distinction is made between full-time and part-time employees, and both must be counted in determining whether the exemption applies. Bona fide volunteers may be excluded. This determination of the number of employees engaged in each of the two named activities is made on a workweek basis.

(e) In addition to the special exemptions provided in sections 7(k) and 13(b)(20), which are the subject matter of Parts 53, the Act provides other exemptions which, depending upon the facts, may be claimed for certain employees in lieu of such special exemptions. For example, section 13(a)(1) provides a complete exemption for any employee employed in a bona fide executive, administrative or professional capacity, as those terms are defined and delimited in 29 CFR Part 541, and that exemption may be claimed for any fire protection or law enforcement employee who meets all of the tests specified in Part 541 relating to duties, responsibilities and salary. Thus, although police captains are clearly employees engaged in law enforcement activities, they may also, depending upon the facts, qualify for the section 13(a)(1) exemption, in which event the employing agency may claim that exemption for such employees in lieu of the section 7(k) or 13(b)(20) exemption. Similarly, certain criminal investigative agents may qualify as administrative employees, in which event the employing agency may elect which of the applicable exemptions it will claim for such employees. In no event, however will the election to take the section 13(a)(1) exemption for an employee who qualifies for it result in excluding that employee from the count that must be made under § 553.1(d) in determining whether the employer may claim for its other employees the section 13(b)(20) exemption.

§ 553.2 Purpose and scope.

The purpose of Part 553 is to define the pertinent statutory terms used in sections 7(k) and 13(b)(20) and to set forth the rules by which the Administrator of the Wage and Hour Division will determine the compensable hours of work, tour of duty and work period in applying the section 7(k) exemption.

EMPLOYEES ENGAGED IN FIRE PROTECTION AND LAW ENFORCEMENT ACTIVITIES (INCLUDING SECURITY PERSONNEL IN CORRECTIONAL INSTITUTIONS)

§ 553.3 Fire protection activities.

(a) As used in section 7(k) and 13(b)(20) of the Act, the term "any employee in fire protection activities" refers to any employee (1) who is employed by an organized fire department or fire protection district and who, pursuant to the extent required by State statute or local ordinance, has been trained and has the legal authority and responsibility to engage in the prevention, control or extinguishment of a fire of any type and (2) who performs activities which are required for, and directly concerned with the prevention, control or extinguishment of fires, including such incidental non-firefighting functions as housekeeping, equipment maintenance, lecturing, attending community fire drills and inspecting homes and schools for fire hazards. The term would include all such employees, regardless of their status as "trainee," "probationary," or "permanent" employee, or of their particular speciality or job title (e.g., firefighter, engineer, hose or ladder operator, fire specialist, fire inspector, lieutenant, captain, inspector, fire marshal, battalion chief, deputy chief, or chief), and regardless of their assignment to support activities of the type described in paragraph (d) of this section, whether or not such assignment is for training or familiarization purposes, or for reasons of illness, injury or infirmity. The term would also include rescue and ambulance service personnel if such personnel form an integral part of the public agency's fire protection activities. See § 553.7.

(b) The term "any employee in fire protection activities" also refers to employees who work for forest conservation agencies or other public agencies charged with forest fire fighting responsibilities, and who direct or engage in (1) fire spotting or lookout activities, or (2) fighting fires on the fireline or from aircraft or (3) operating tank trucks, bulldozers and tractors for the purpose of clearing fire

breaks. The term includes all persons so engaged, regardless of their status as full time or part time agency employees or as temporary or casual workers employed for a particular fire or for periods of high fire danger, including those who have had no prior training. It does not include such agency employees as biologists and office personnel who do not fight fires on a regular basis, except, of course, during those emergency situations when they are called upon to spend substantially all (i.e., 80 percent or more) of their time during the applicable work period in one or more of the activities described in paragraph (b) (1), (2) and (3) of this section. Additionally, for those persons who actually engage in these fire protection activities, the simultaneous performance of such related functions as housekeeping, equipment maintenance, tower repairs and/or the construction of fire roads, would also be within the section 7(k) or 13(b)(20) exemption.

(c) Not included in the term "employee in fire protection activities" are the so-called "civilian" employees of a fire department, fire district, or forestry service who engage in such support activities as those performed by dispatchers, alarm operators, apparatus and equipment repair and maintenance workers, camp cooks, clerks, stenographers, etc.

§ 553.4 Law enforcement activities.

(a) As used in sections 7(k) and 13(b)(20) of the Act, the term "any employee in law enforcement activities" refers to any employee (1) who is a uniformed or plainclothed member of a body of officers and subordinates who are empowered by statute or local ordinance to enforce laws designed to maintain public peace and order and to protect both life and property from accidental or willful injury, and to prevent and detect crimes, (2) who has the power of arrest, and (3) who is presently undergoing or has undergone or will undergo on-the-job training and/or a course of instruction and study which typically includes physical training, self-defense, firearm proficiency, criminal and civil law principles, investigative and law enforcement techniques, community relations, medical aid and ethics.

Employees who meet these tests are considered to be engaged in law enforcement activities regardless of their rank, or of their status as "trainee," "probationary" or "permanent" employee, and regardless of their assignment to duties incidental to the performance of their law enforcement activities such as equipment maintenance, and lecturing, or to support activities of the type described in paragraph (f) of this section, whether or not such assignment is for training or familiarization purposes, or for reasons of illness, injury or infirmity. The term would also include rescue and ambulance service personnel if such personnel form an integral part of the public agency's law enforcement activities. See § 553.8.

(b) Typically, employees engaged in law enforcement activities include city police; district or local police; sheriffs, under sheriffs or deputy sheriffs who are regularly employed and paid as such; court marshals or deputy marshals; constables and deputy constables who are regularly employed and paid as such; border control agents; state troopers and highway patrol officers. Other agency employees not specifically mentioned may, depending upon the particular facts and pertinent statutory provisions in that jurisdiction, meet the three tests described above. If so, they will also qualify as law enforcement officers. Such employees might include, for example, fish and game wardens or criminal investigative agents assigned to the office of a district attorney, an attorney general, a solicitor general or any other law enforcement agency concerned with keeping public peace and order and protecting life and property.

(c) Some of the law enforcement officers listed above, including but not limited to certain sheriffs, will not be covered by the Act if they are elected officials and if they are not subject to the civil service laws of their particular State or local jurisdition. Section 3(e)(2)(C) of the Act excludes from its definition of "employee" elected officials and their personal staff under the conditions therein prescribed. 29 U.S.C. 203(e)(2)(C). Such individuals, therefore, need not be counted in determining whether the public agency in question has less than five employees engaged in law enforcement activities for purposes of claiming the section 13(b)(20) exemption.

(d) Employees who do not meet each of the three tests described above are not engaged in "law enforcement activities," as that term is used in sections 7(k) and 13(b)(20). Such employees would typically include (1) building inspectors (other than those defined in § 553.3(a)), (2) health inspectors, (3) animal control personnel, (4) sanitarians, (5) civilian traffic employes who direct vehicular and pedestrian traffic at specified intersections or other control points, (6) civilian parking checkers who patrol assigned areas for the purpose of discovering parking violations and issuing appropriate warnings or appearance notices, (7) wage and hour compliance officers, (8) equal employment opportunity compliance officers, (9) tax compliance officers, (10) coal mining inspectors, and (11) building guards whose primary duty is to protect the lives and property of persons within the limited area of the building.

(e) The term "any employee in law enforcement activities" also includes, by express reference, "security personnel in correctional institutions." A correctional institution is any government facility maintained as part of a penal system for the incarceration or detention of persons suspected or convicted of having breached the peace or committed some other crime. Typically, such facilities include penitentiaries, prisons, prison farms, county, city and village jails, precinct house lockups and reformatories. Employees of correctional institutions who qualify as security personnel for purposes of the section 7(k) exemption are those who have responsibility for controlling and maintaining custody of inmates and of safeguarding them from other inmates or for supervising such functions, regardless of whether their duties are performed inside the correctional institution or outside the institution (as in the case of road gangs). These employees are considered to be engaged in law enforcement activities regardless of their rank (e.g., warden, assistant warden or guard) or of their status as "trainee," "probationary," or "permanent" employee, and regardless of their assignment to duties incidental to the performance of their law enforcement activities, or to support activities of the type described in paragraph (f) of this section, whether or not such assignment is for training or familiarization purposes or for reasons of illness, injury or infirmity.

(f) Not included in the term "employee in law enforcement activities" are the so-called "civilian" employees of law enforcement agencies or correctional institutions who engage in such support activities as those performed by dispatcher, radio operators, apparatus and equipment maintenance and repair workers, janitors, clerks and stenographers. Nor does the term include employees in correctional institutions who engage in building repair and maintenance, culinary services, teaching, or in psychological, medical and paramedical services. This is so even though such employees may, when assigned to correctional institutions, come into regular contact with the inmates in the performance of their duties.

§ 553.5 20-percent limitation on nonexempt work.

Employees engaged in fire protection or law enforcement activities, as described in §§ 553.3 and 553.4, may also engage in some nonexempt work which is not performed as an incident to or in conjunction with their firefighting activities. For example, those who work for forest conservation agencies may, during slack periods, plant trees and perform other conservation activities. The performance of such nonexempt work will not defeat either the section 7(k) or 13(b)(20) exemption unless it exceeds 20 percent of the total hours worked by the particular employee during the applicable work period.

§ 553.6 Public agency employees engaged in both fire protection and law enforcement activities.

Some public agencies have employees (sometimes referred to as public safety officers) who engage in both law enforcement activities and fire protection activities, depending upon the agency needs at the time. This dual assignment would not defeat either the section 7(k) or 13(b)(20) exemption, provided that each of the activities performed meets the appropriate tests set forth in §§ 553.3(a), 553.4(a) and (e). This is so regardless of how the employees divide their time between the two types of activities. If, however, either the fire protection or law enforcement activities do not meet the tests of § 553.3(a) or §§ 553.4(a) and (e), and if such nonqualifying activities, standing alone or in conjunction with

some other nonexempt activity, exceed 20 percent of the employee's total hours of work in the work period, neither exemption would apply.

§ 553.7 Employees attending training facilities.

The attendance at a bona fide fire or police academy or other training facility, when required by the employing public agency, does not constitute engagement in exempt activities, unless the employee in question meets all the tests described in § 553.3(a) or § 553.4(a), as the case may be, in which event such training or further training would be incidental to, and thus part of, the employee's fire protection or law enforcement activities. Only the time spent in actual training or retraining constitutes compensable hours of work. All other time, such as that spent in studying and other personal pursuits, is not compensable hours of work even in situations where the employee is confined to campus or to barracks 24 hours a day. See § 553.14. Attendance at training facilities and schools, which is not required but which may incidentally improve the employee's performance of his or her regular tasks or prepare the employee for further advancement, need not be counted as working time even though the public agency may pay for all or part of such training.

§ 553.8 Ambulance and rescue service employees.

(a) Ambulance and rescue service employees of a public agency other than a fire protection or law enforcement agency may be treated as employees engaged in fire protection or law enforcement activities of the type contemplated by sections 7(k) and 13(b)(20) if their services are substantially related to firefighting or law enforcement activities in that (1) the ambulance and rescue service employees have received special training in the rescue of fire and accident victims or firefighters injured in the performance of their firefighting duties, and (2) the ambulance and rescue service employees are regularly dispatched to fires, riots, natural disasters and accidents.

(b) Ambulance and rescue service employees of public agencies subject to the Act prior to the 1974 Amendments do not come within the section 7(k) or section 13(b)(20) exemptions, since it was not the purpose of those Amendments to deny the Act's protection of previously covered employees. This would include employees of public agencies engaged in the operation of a hospital; an institution primarily engaged in the care of the sick, the aged, the mentally ill or defective who reside on the premises of such institutions; a school for mentally or physically handicapped or gifted children; an elementary or secondary school; an institution of higher education; a street, suburban, or interurban electric railway; or local trolley or motor bus carrier.

(c) Ambulance and rescue service employees of private organizations do not come within the section 7(k) or section 13(b)(20) exemptions even if their activities are substantially related to the fire protection and law enforcement activities performed by a public agency.

§ 553.9 Fire protection or law enforcement employees who perform unrelated work for their own agency or for another public agency or private employer.

(a) If an employee regularly engaged in exempt fire protection or law enforcement activities also works for another department or agency of the same State or political subdivision, such employee will lose the exemption if the other work is unrelated to fire protection or law enforcement activities. For example, if a city police officer also works as a clerk in the city health department, which is clearly nonexempt work, the city could not claim the section 7(k) exemption for such employee and would have to pay overtime compensation for all hours worked for the two agencies in excess of 40 per week. See 29 CFR 778.117 for an explanation of how overtime compensation is computed in such a situation. If, however, such employee's other job for the city is also exempt work, as, for example lifeguarding at a seasonally operated city beach which work is exempt from both the Act's minimum wage and overtime provisions by virtue of section 13(a)(3), the city would be entitled to claim the lesser of the two exemptions which, in the example given would be the section 7(k) exemption, and it would have to pay overtime compensation only for the combined hours (if any) which are in excess of the employee's tour of duty.

(b) These same principles also apply where the fire protection or law enforcement employee works for another public or private employer who, although entirely separate from the employee's regular employer, is nonetheless a joint employer with the fire protection or law enforcement agency. Usually, of course, working for a separate employer does not affect the employee's status as an employee engaged in fire protection or law enforcement activities or the employing agency's right to claim the section 7(k) or 13(b)(20) exemption. In some limited circumstances, however, the relationship between the fire protection or law enforcement agency and the other employer is so closely related that they must be treated as joint employers. Such a joint employment relationship exists where the work done by the employee simultaneously benefits both employers and where it is done pursuant to an arrangement between the employers to share or interchange employees, or where one employer acts directly or indirectly in the interest of the other employer in relation to the same employee, or where the employers are so closely associated that they share control of the employee, directly or indirectly. See 29 CFR Part 791.

(c) To illustrate, if a police officer independently finds after-hours employment as a repair mechanic in a gas station or as a security guard in a department store, there would be no joint employment relationship between the police department and the second employer. This would be so even if the police officer wore his or her uniform at the second job and even if the police department engaged in such "brokering" functions as maintaining a list of officers available for extra outside work and referring employment requests to such officers. Nor would it matter whether the police department also established a wage scale for such extra outside work and approved it so as to avoid any conflict of interest problem. On the other hand, if the second employer is required by local ordinance or otherwise to hire a police officer to control crowds at a stadium or to direct traffic at a sports arena or during a parade, such employment benefits both the police department and the second employer, and, since both act in the interest of the other, a joint employment relationship is created.

§ 553.10 Mutual aid.

If employees engaged in fire protection activities voluntarily respond to a call for aid from a neighboring jurisdiction, they are volunteers in rendering such aid and their employer is not required to compensate them for the time spent in the neighboring jurisdiction. See § 553.10. If, however, the employees respond to such a call because their employer has a mutual aid agreement with a neighboring jurisdiction or if the employees are directed by their agency to respond, all hours worked by these employees in rendering such aid must be added to their regular hours of work for purposes of the section 7(k) exemption.

§ 553.11 Fire protection and law enforcement volunteers.

(a) Individuals who volunteer to perform fire protection or law enforcement activities, usually on a part-time basis and as a public service, are not considered to be employees of the public agency which receives their services. Such individuals do not lose their volunteer status because their tuition may have been paid or they may have been reimbursed for attending special classes or other training to learn about fire protection or law enforcement or because they are reimbursed for approximate out-of-pocket expenses incurred incidental to answering a call or to the cost of replacing clothing or other items of equipment which may have been consumed or damaged in responding to a call. Nor is the volunteer status of such individuals lost where the only material recognition afforded them is the holding of an annual party, the furnishing of a uniform and related equipment, or their inclusion in a retirement or relief fund, a workman's compensation plan or a life or health insurance program, or the payment of a nominal sum on a per call or other basis which may either be retained, in whole or in part, by the volunteer or donated to finance various social activities conducted by or under the auspices of the agency. Payments which average $2.50 per call will be considered nominal. Payments in excess of this amount may also qualify as nominal, depending upon the distances which must be traveled and other expenses incurred by the volunteer. For purposes of this paragraph, it is not necessary for the

agency to maintain an exact record of expenses.

(b) Where, however, individuals engaged in fire protection or law enforcement activities receive more than a nominal amount or payment on a basis which does not reasonably approximate the expenses incurred by them, they are employees rather than volunteers and must be paid in accordance with the Act's requirements.

(c) Volunteers engaged in fire protection or law enforcement activities may include individuals who are employed in some other capacity by the same public agency. For example, a civilian PBX operator of a public agency engaged in law enforcement activities may also be a volunteer member of the local police reserve force. Similarly, an employee of a village Department of Parks and Recreation may serve as a volunteer firefighter in his or her local community.

(d) Police officers or firefighters of one jurisdiction may engage in fire protection or law enforcement activities on a voluntary basis for another jurisdiction where there is no mutual aid agreement or other relationship between the two jurisdictions. Such employees cannot, however, perform fire protection or law enforcement activities on a voluntary basis for their own agency, although they can engage in other activities not directly related to these primary functions. For example, a paramedic employed by a city fire department could volunteer to give a course in first aid at the city hospital and a police officer could volunteer to counsel young juveniles who are members of a boy's club or other similar organizations.

RULES FOR DETERMINING THE TOUR OF DUTY, WORK PERIOD AND COMPENSABLE HOURS OF WORK

§ 553.12 General statement.

(a) In extending the Act's coverage to public agency employees engaged in fire protection and law enforcement activities, Congress, recognizing the uniqueness of these activities, established section 7(k) which permits the computation of hours worked on the basis of a work period (which can be longer than a workweek) and which bases the overtime requirements on a work period concept. In adding this provision, Congress made it clear that some adjustment would have to be made in the usual rules for determining compensable hours of work (Conf. Rept. 93–953, p. 27) and where the employer elects section 7(k), these rules must be used for purpose of both the Act's minimum wage and overtime requirements.

(b) If, however, any public agency chooses not to claim the partial overtime exemption provided in section 7(k), but elects to pay overtime compensation as required by section 7(a), it need not concern itself with the "tour of duty" or "work period" discussion which follows or with the special rules relating to the determination of what constitutes compensable hours of work since, in that event, overtime would be payable on a workweek basis and the regular method of computing "hours worked" as set forth in 29 CFR Part 785 would apply. Such an agency would not, however, be able to take advantage of the special provisions of Part 553 relating to the balancing of hours over an entire work period, trading time and early relief.

§ 553.13 Tour of duty.

The term "tour of duty," as used in section 7(k), means the period during which an employee is on duty. It may be a scheduled or unscheduled period. Scheduled periods refer to shifts, i.e., the period of time which elapses between scheduled arrival and departure times, or to scheduled periods outside the shift, as in the case of a special detail involving crowd control during a parade or other such event. Unscheduled periods refer to time spent in court by police officers, time spent handling emergency situations, or time spent after a shift in order to complete required work. When an employee actually works fewer hours than those scheduled, the employee's tour of duty is reduced accordingly. Nothing in section 7(k) precludes employers (acting pursuant to collective bargaining agreements or in accordance with their own authority) from establishing new tours of duty for their employees, provided, however, that the change is intended to be permanent at the time that it is made.

§ 553.14 General rules for determining compensable hours of work.

(a) Compensable hours of work generally include all of that time during which an employee is on duty or on the employer's premises or at a prescribed workplace, as well as all other time during which the employee is suffered or permitted to work for the employer. Such hours thus include all pre-shift and post-shift activities which are an integral part of the employee's principal activity or which are closely related and indispensable to its performance, such as attending roll call, writing up and completing reports or tickets, and washing and re-racking fire hose. It also includes time which an employee spends in attending required training classes. See § 553.7. Time spent away from the employer's premises under conditions so circumscribed that they restrict the employee from effectively using the time for personal pursuits, also constitutes compensable hours of work. For example, a police officer who is required to remain at home until summoned to testify in a pending court case and who must be in a constant state of instant readiness, is engaged in compensable hours of work. On the other hand, employees who are confined to barracks while attending police academies are not on duty during those times when they are not in class or at a training session since they are free to use such time for personal pursuits. This would also be true in a forest fire situation where employees, who have been relieved from duty and transported away from the fire line, are, for all practical purposes, required to remain at the fire camp because their homes are too far distant for commuting purposes. Also, a police officer who has completed his or her tour of duty but who is given a patrol car to drive home and use on private business, is not working simply because the radio must be left on so that the officer can respond to emergency calls. Of course, the time spent in responding to such calls would be compensable, except in those instances where it is miniscule and cannot, as an administrative matter, be recorded for payroll purposes.

(b) Additional examples of compensable and noncompensable hours of work are set forth in 29 CFR Part 785 which is fully applicable to employees for whom the section 7(k) exemption is claimed except to the extent that it has been modified below in § 553.15.

§ 553.15 Sleeping and meal time as compensable hours of work.

(a) Where the employer has elected to use the section 7(k) exemption, sleep and meal time cannot be excluded from compensable hours of work where (1) the employee is on duty for less than 24 hours, which is the general rule applicable to all employees (29 CFR 785.21) and (2) where the employee is on duty for exactly 24 hours, which represents a departure from 29 CFR 785.21.

(b) Sleep and meal time may, however, be excluded in the case of fire protection or law enforcement employees who are on duty for more than 24 hours, but only if there is an express or implied agreement between the employer and the employee to exclude such time. In the absence of any such agreement, sleep and meal time will constitute hours of work. If, on the other hand, the agreement provides for the exclusion of sleep time the amount of such time shall, in no event, exceed 8 hours, in a 24-hour period, which is also the amount of time permitted when the agreement fails to specify the duration of sleep time. If such sleep time is interrupted by a call to duty, the interruption must be counted as hours worked, and if the period is interrupted to such an extent that the employee cannot get a reasonable night's sleep (which, for enforcement purposes, means at least 5 hours), the entire time must be counted as hours of work.

§ 553.16 Work period.

(a) As used in section 7(k), the term "work period" refers to any established and regularly recurring period of work which, under the terms of the Act and legislative history, cannot be less than 7 consecutive days nor more than 28 consecutive days. Except for this limitation, the work period can be of any length, and it need not coincide with the pay period or with a particular day of the week or hour of the day. Once the beginning time of an employee's work period is established, however, it remains fixed regardless of how many hours are worked within that period. The beginning of the work period, may, of course, be changed, provided that the change is intended to be permanent at the time that it is made.

(b) An employer may have one work period applicable to all of its employees, or different work periods for different employees or groups of employees. Prior

approval from the Wage and Hour Division is not required. The employer must, however, make some notation in its records which shows the work period for each employee and which indicates the length of that period and its starting time.

(c) For those employees who have a work period of at least 7 but less than 28 consecutive days, no overtime compensation is required until the ratio between the number of days in the work period and the hours worked during such work period exceeds the ratio between a work period of 28 days and 240 hours, at which point all additional hours are paid for at one and one-half times the employee's regular rate of pay.

(d) The ratio of 240 hours to 28 days is 8.57143 hours per day (8.57 rounded). Accordingly, overtime compensation at a rate of not less than one and one-half times the employee's regular rate of pay must be paid during calendar year 1975 for all hours worked in excess of the following maximum hours standards:

Work period (days):	Maximum hours standard
28	240
27	231
26	223
25	214
24	206
23	197
22	189
21	180
20	171
19	163
18	154
17	146
16	137
15	129
14	120
13	111
12	103
11	94
10	86
9	77
8	69
7	60

§ 553.17 Early relief.

It is a common practice among employees engaged in fire protection activities to relieve employees on the previous shift or tour of duty prior to the scheduled starting time. Such early relief may occur pursuant to employee agreement, either expressed or implied. This practice will not have the effect of increasing the number of compensable hours of work where it is voluntary on the part of the employees and does not result, over a period of time, in their failure to receive proper compensation for all hours actually worked. On the other hand, if the practice is required by the employer the time involved must be added to the employee's tour of duty and treated as compensable time.

§ 553.18 Trading time.

Another common practice or agreement among employees engaged in fire protection or law enforcement activities is that of substituting for one another on regularly scheduled tours of duty (or for some part thereof) in order to permit an employee to absent himself or herself from work to attend to purely personal pursuits. This practice is commonly referred to as "trading time." Although the usual rules for determining hours of work would require that the additional hours worked by the substituting employee be counted in computing his or her total hours of work, the legislative history makes it clear that Congress intended the continued use of "trading time" "both within the tour of duty cycle * * * and from one cycle to another within the calendar or fiscal year without the employer being subject to [additional overtime compensation] by virtue of the voluntary trading of time by employees" (Congressional Record, March 28, 1974, Page S 4692). Accordingly, the practice of "trading time" will be deemed to have no effect on hours of work if the following criteria are met: (a) The trading of time is done voluntarily by the employees participating in the program and not at the behest of the employer; (b) the reason for trading time is due, not to the employer's business operations, but to the employee's desire or need to attend to personal matter; (c) a record is maintained by the employer of all time traded by his employees; (d) the period during which time is traded and paid back does not exceed 12 months.

§ 553.19 Time off for excess hours or so-called "comp time."

(a) As a general rule, all overtime hours must be paid for in cash and not in time off. Section 7(k) creates a partial exception to this general rule by allowing employers to balance the employee's hours over a work period, which, as indicated in § 553.16, may be longer than a workweek, and to pay the overtime compensation required by the Act only if the employee's hours exceed the total number of hours established by section 7(k) for that particular work period. Thus, for example, if the duration of the employee's work period is 28 consecutive days, and he or she works 80 hours in the first week, but only 60 in the second week and 50 in each of the next 2 weeks, no additional overtime compensation would be required, since the total number of hours worked does not exceed 240. Of course, there might be a State law requiring overtime compensation at some earlier point (e.g., for any hours worked in excess of 40 in a week), but that obligation could be met with "comp time," if comp time is permissible under State law and if the wages paid to the employee for all hours worked during the entire 28-day tour of duty equal at least the minimum wage set forth in section 6(b) of the Act (29 U.S.C. 206(b)). Similarly, an employee whose work period is 1 week could be paid in "comp time" for all excess hours up to 60, provided that comp time is a permissible form of payment under State law and provided, also, that the wages paid to the employee equal at least the statutory minimum wage. Such "comp time" could be taken at any time authorized by state law or local ordinance.

(b) If the employee in either of the examples given above works more than the stated number of hours for a 7-day or 28-day work period, overtime compensation must be paid at one and one-half times the employee's regular rate. In computing the employee's regular rate, the cash equivalent of any comp time must be included. See also § 553.20.

§ 553.20 The "regular rate".

The rules for computing an employee's "regular rate," for purposes of the Act's overtime requirements, are set forth in 29 CFR Part 778. These rules are fully applicable to employees for whom the section 7(k) exemption is claimed, except that wherever the word "workweek" is used the word "work period" should be substituted.

§ 553.21 Records to be kept.

The recordkeeping requirements of the Act are set forth in 29 CFR Part 516. These requirements are applicable to public agencies engaged in fire protection and law enforcement activities, except that where section 7(k) is claimed, the records for those employees can be kept on a work period, instead of a workweek, basis. In addition, the records must show, as indicated in § 553.16(b), the work period for each employee.

Signed at Washington, D.C. this 18th day of December 1974.

BETTY SOUTHARD MURPHY,
Administrator.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions, Modifications, and Supersedeas Decisions

V 39 I 246 DEC 20 74

XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions, Modifications, and Supersedeas Decisions

General wage determination decisions. General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 C.F.R. 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to general wage determination decisions. Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

New general wage determination decisions.

LABORERS

Group 1: Debris Handler; Dry Packing of Concrete and Filling of Form-bolt Holes; Dumpman; Gas and Oil Pipeline Laborers; Demolition Laborers; General or Construction Laborers; Spotter; Window Cleaner

Group 2: Cutting Torch Operator (Demolition); Tarman and Honorman

Group 3: Guinea Chaser

Group 4: Fine Grader, highway and street paving, airport, runways and similar type heavy construction; Landscape Gardener and Nursery-man

Group 5: Laborers - packing rod steel and pans

Group 6: Underground Laborers including Caisson Bellowers

Group 7: Chucktender (except tunnels); Scaler; Septic Tank Digger and Installer (leadman); Tank Scaler and Cleaner

Group 8: Cesspool Digger and Installer

Group 9: Concrete Curer-impervious Membrane and Oiler of all Materials; Making and Caulking of all non-metallic pipe joints; Riprap Stonepaver; Sandblaster (pot tender)

Group 10: Asphalt Ironer, Raker, Spreader, Buggymobile; Cement Dumper (on 1 yd. or larger mixers and handling bulk concrete); Cement Grinding Machine Operator; Concrete Core Cutter; Concrete Saw Man, excluding tractor type; Gas and Oil Pipeline Wrapper Pot Tender and Form Man; Tree Climber, faller, Chain Saw Operator; Pittsburgh Chipper and similar type; Vibrators and all pneumatic gas, electric, and similar mechanical tools not separately classified herein; Roto Scraper

Group 11: Rock Slinger; Scaler, using bosun chair, safety belt or power tools

Group 12: Driller and/or Pavement Breaker

Group 13: Laying of all Non-metallic Pipe (including sewer pipe, drain pipe and underground tile)

Group 14: Gas and Oil Pipeline Wrapper - 6 inch pipe and over

Group 15: Cribber or Shorer; Powderman

Group 16: Steel Headerboard Man

Group 17: Driller (Core, Diamond or Wagon) Joy Driller Model T.W.-M-2A Gardner-Denver Model DH-163 and similar drills; Sandblaster - Nozzleman

Group 18: Head Rock Slinger

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

GROUP 1: Brakeman; Compressor Op.; Engineer Oiler; Generator Op.; Heavy Duty Repairman Helper; Pump Op.; Signalman; Switchman

GROUP 2: Concrete Mixer Op., Skip Type; Conveyor Op.; Fireman; Generator, Pump or Compressor (2-5 inclusive) Portable units, over 5 units, 10c per hour for each additional unit up to nine units, Hydrostatic Pump Op.; Oiler Crusher (Asphalt or Concrete Plant); Plant Operator, Generator, Pump or Compressor; Rotary Drill Helper (oilfield); Skiploader - Wheel type up to 3/4 yd. without attachment; Soils Field Technician; Tar Pot Fireman; Temporary Heating Plant Operator; Trenching Machine Oiler; Truck Crane Oiler

GROUP 3: A-Frame or Winch Truck Operator; Chainman; Elevator Op. (inside); Equipment Greaser (rack); Ford Ferguson (with dragtype attachments); Helicopter Radioman (ground); Power Concrete Saw Op.; Power-driven Jumbo Form Setter Op.; Power Concrete Curing Machine Op.; Rose Carrier Op. (jobsite); Stationary Pipe Wrapping and Cleaning Machine Op.

GROUP 4: Asphalt Plant Fireman; Boring Machine Op.; Boxman or Mixerman (Asphalt or Concrete); Chip Spreading Machine Op.; Concrete Pump Op. (small portable); Bridge Type Unloader and Turntable Op.; Dinkey Locomotive or Motorman (up to and including 10 ton); Equipment Greaser (Grease Truck); Helicopter Hoist Op.; Highline Cableway Signalman; Hydra-hammer - Aero Stomper; Power Sweeper Op.; Roller Op. (compacting); Screed Op. (Asphalt or Concrete); Rodman; Trenching Machine Op. (up to 6 ft.);

GROUP 5: Asphalt Plant Engineer; Concrete Batch Plant Op.; Backhoe Op. (up to and including 3/4 yd.); Bit Sharpener, Concrete Joint Machine Op. (Canal and similar type); Concrete Planer Op.; Derrickman (oilfield type); Deck Engine Op.; Drilling Machine Op. (including water wells); Forklift Op. (under 5 ton capacity); Hydrographic Seeder Machine Op.; (straw, pulp, or seed); Instrumentman; Machine Tool Op.; Maginnis Internal Full Slab Vibrator; Mechanical Berm, curb or gutter (concrete or asphalt); Mechanical Finisher Op. (concrete - Clary-Johnson-Bidwell or similar); Pavement Breaker Op.; Road Oil Mixing Machine Op.; Roller Op. (asphalt or finish); Rubber-tired Earth Moving Equipment (single engine, up to and including 25 yd. struck); Self-propeller Tar Pipelining Machine Op.; Slip Form Pump Op. (power-driven hydraulic lifting device for concrete forms); Tugger Hoist (1 drum); Tunnel Locomotive Op. (over 10 and up to and including 30 tons); Stinger Crane (Austin-Western or similar type); Skiploader Operator (Crawler and Wheel type over 3/4 yds. and up to and including 1 1/2 yds.); Tractor Op. - Bulldozer, Tamper, Scraper (single engine, up to 100 h.p., flywheel and similar types, up to and including D-5 and similar types); Welder - General

GROUP 6: Asphalt or Concrete Spreading Operator (tamping or finishing); Asphalt Paving Machine Op. (Barber-Greene or similar type); BHL Lima Road Pactor, Wagner Pactor or similar, Op., Bridge Crane Op.; Cast in Place Pipe Laying Machine Op.; Combination Mixer and Compressor Op. (Gunite work); Concrete Pump Op. (truck mounted); Concrete Mixer Op. - Paving;

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Crane Op. (up to and including 25 ton capacity); Crushing Plant Op.; Drill Doctor; Elevating Grader Op.; Forklift Op. (over 5 tons); Grade Checker; Grade-All Op.; Grouting Machine Op.; Heading Shield Op.; Heavy Duty Repairman; Hoist Op. (Chicago Boom and similar type); Kolman Belt Loader and similar type; LeTourneau Blob Compactor or similar type; Lift Slab Machine Op. (Vagtborg and similar type); Lift Mobile Op.; Loader Op. (Athey, Euclid, Sierra and similar type); Material Hoist Op.; Mucking Machine Op. (1/4 yd. rubber-tired, rail or track type); Pneumatic Concrete Placing Machine Op. (Hackley-Presswell or similar type); Pneumatic Heading Shield (tunnel); Pumpcrete Gun Op.; Rotary Drill Op. (excluding Caisson Type); Rubber-tired Earth Moving Equipment Op. (single engine Caterpillar, Euclid, Athey Wagon and similar types with any and all attachments over 25 yds. and up to and including 50 cu. yds. struck); Rubber-tired Scraper Op. (self-loading - Paddel wheel type, John Deere, 1040 and similar single unit); Rubber-tired Earth Moving Equipment Op., multiple engine (up to and including 25 yds. struck); Skiploader Op. (Crawler and Wheel type - over 1 1/2 yds. up to and including 6 1/2 yds.); Surface Heaters and Planer Op.; Trenching Machine Op. (over 6 ft. depth capacity, manufacturers rating); Tower Crane Op.; Tractor Compressor Drill Combination Op.; Tractor Op. (any type larger than D-5 - 100 Flywheel h.p. and over, or similar); (Bull Dozer, Tamper, Scraper and Push Tractor, single engine); Tractor Op. (Boom Attachments), Traveling Pipe Wrapping, Cleaning and Bending Machine Op.; Tunnel Locomotive Op. (over 30 tons); Shovel, Backhoe, Dragline, Clamshell Op. (over 3/4 yds. and up to 5 cu. yd. M. R. C.)

GROUP 7: Crane Op. - over 25 ton up to and including 100 tons M. R. C.); Derrick Barge Op.; Dual Drum Mixer; Hoist Op., Stiff Legs, Guy Derrick, or similar type, up to and including 100 tons; Monorail Locomotive Op. (Diesel, gas or electric); Motor Patrol - Blade Op. (single engine); Multiple Engine Tractor Operator (Euclid and similar type, except Quad 9 Cat); Party Chief; Rubber-tired Earth Moving Equipment Op. (single engine over fifty (50) yds. struck); Rubber-tired Earth Moving Equipment Operator (multiple engine, Euclid, Caterpillar and similar) (over 25 yds. and up to 50 cu. yds. struck); Tractor Loader Op. (Crawler and wheel type over 6 1/2 yds.); Tower Crane Repairman; Shovel, Backhoe, Dragline, Clamshell Op. (over 5 cu. yds., M. R. C.); Welder - Certified; Woods Mixer Op. and similar Pugmill equipment; Heavy Duty Repairman - Welder combination

GROUP 8: Auto Grader Op.; Automatic Slip Form Op.; Crane Op. - over 100 tons; Hoist Op., Stiff Legs, Guy Derricks or similar types (capable of hoisting 100 tons or more); Mass Excavator Op.; Mechanical Finishing Machine Op.; Mobile Form Traveler Op.; Motor Patrol Op. (multi-engine); Pipe Mobile Machine Op.; Rubber-tired Earth Moving Equipment Op. (multiple engine, Euclid, Caterpillar and similar type over 50 cu. yds. struck); Rubber-tired Self-Loading Scraper Op. (Paddle Wheel - Auger type self-loading - 2 or more units); Rubber-tired Scraper Op. - pushing one another without Push Cat, Push-Pull (.50c per hour additional to base rate); Tandem Equipment Op. (2 units only), Tandem Tractor Op. (Quad 9 or similar type); Tunnel Mole Boring Machine

NOTICES

AR-1058 P. 7

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

GROUP 9: Canal Liner Op.; Canal Trimmer Op.; Helicopter Pilot; Highline Cableway Op.; Remote Controlled Earth Moving Equipment Op.; Wheel Excavator Op. (over 750 cu. yds.)

TRUCK DRIVERS

Group 1: Busses, job site, up to 25 passengers; Dump (less than 12 yds.); Pickups; Service Truck Driver, Teamster Equipment (Highest rate for dual craft operation); Truck Repairman Helper; Trucks (less than 15 tons); Warehouseman; Water and fuel (under 2,500 gals.)

Group 2: Bootman; Busses, job site more than 25 passengers; Dump (12 yds. but less than 16 yds.); Road Oil Spreader; Trucks (15 and 20 tons); Trucks working on gas and oil pipeline, including winch truck and all size trucks; Truck Greaser; Water and Fuel (2,500 gals. to 4,000 gals.)

Group 3: Dumpcrete (less than 6½ yds.); Tireman; Transit-mix (under 3 yds.)

Group 4: Dump (16 yds. up to and including 22 yds.); Dumpcrete (6½ yds. and over); Dumpster; Euclid Type Spreader; Fork Lift; Ross Carrier-Highway; Transit-mix (3 yds. but less than 6 yds.); Trucks (20 tons but less than 30 tons); Water and Fuel (4,000 gals. but less than 6,000 gals.)

Group 5: Dump (over 22 yds.); Transit-mix (6 yds. or more); Truck Repairman; Truck (30 tons and over); Water and Fuel (6,000 gals. and over)

Group 6: D.W., D.W. 10 and 20 Euclid type equipment; LeTorneau Pulls; Terra Cobra and similar; PB and similar, when performing work within Teamster jurisdiction, regardless of attachments including power units pulling off highway Belly Dumps in tandem

Group 6-B:	7.25	.50	.45		.10

LABORERS

Group 1: All cleanup work of debris, grounds, and buildings including windows and tile; Dumpman or Spotter (other than asphalt); General Laborer; Gardeners and Landscape Laborers; Limber, Brushloader and Piler

Group 2: Choker Setter or Rigger (clearing work only); Pittsburgh Chipper and similar type Brush Shredders; Concrete Worker (wet or dry) all concrete work not listed in Group 3; Crusher or Grizzly Tender; Gunnies Chaser (Stakeman); Panel Forms (wood or metal) handling, cleaning, and stripping of; Loading and unloading, carrying and handling of all rods and material for use in reinforcing concrete; Railroad Trackmen (maintenance, repair or builders); Sloper; Semi-skilled Wreckers (salvaging of building materials other than those listed in Group 3); Greasing Dowels

Group 3: Asphalt Workers (Ironers, Shoveler, Cutting Machine); Buggymobile; Chainsaw, faller, logloader and bucker; Compactor (all types); Concrete Mixer under 1/2 yds.; Concrete Pan Work (breadpan type), (handling, cleaning, stripping); Concrete Saw, Chipping, Grinding, Sanding, Vibrator; Cribbing, Shoring, Legging, Trench Jacking, hand-guided Lagging Hammer; Curbing or Divider Machine; Curb Setter (precast or cut); Ditching Machine (hand-guided); Drillers' Helper, Chuck Tender; Form Raiser, Slip Forms; Grouting of concrete walls; Windows and door jams; Headerboardman; Jackhammer, Pavement Breaker, Air Spade; Mastic Workers (wet or dry); Pipe Wrapper, Kettleman, Potman, and Men applying asphalt, creosote and similar type materials; All power tools (air, gas, or electric) not listed in Group 5; Pipejacking; Posthole Digger (air, gas, or electric) Post Driver; Riprap-stonepaver and Rock Slinger, incl. placing of sack concrete wet or dry; Rototiller; Rigging and Signaling in connection with Laborers' work; Sandblaster, Potman, Hunman or Nozzleman; Vibra-screed; Skilled Wrecker (removing and salvaging of sash, windows, doors, plumbing, and electrical fixtures)

Group 4: Burning and Welding in connection with Laborers' work; Joy Drill Model TWM-2A, Gardner Denver Model DH 143 and similar type drills; Track Drillers, Diamond Core Drillers, Wagon Drillers, Mechanical Drillers on multiple units; High Scalers; Concrete Pump; Heavy Duty Vibrators with stinger 5" diameter or over; Pipelayer, Caulker and Bander; Pipelayer - waterline, sewerline, gasline, or conduit; Asphalt Rakers

Group 5: Blasters and Powdermen, all work of loading, placing and blasting of all powder and explosives of any type, regardless of method used for such loading and placing.

Group 6-A: Nozzleman, Rodman

Group 6-B: Gunman, Materialman

Group 6-C: Kabomndman

AR-1059 P. 8

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Assistant to Engineer, including Brakeman, Deckhand, Fireman, Heavy Duty Repairman Helper, Oiler, Partsman (heavy duty repair shops parts room when needed), Switchman, Tar Pot Fireman

Group 2: Compressor; Material Loader and/or Conveyor (handling building materials); Pump; Tar Pot Fireman (power agitated)

Group 3: Box Operator (Bunker); Concrete Curing Machines (streets, highways, airports, canals); Conveyor Belt (tunnel); Engineer Generating Plant (500 K. W.); Fireman Hot Plant; Hydraulic Monitor; Lubrication and Service Engineer (mobile and grease rack); Mixer Box Operator (concrete Plant); Motorman; Rodman or Chainsman; Rotomist; Screedman (except asphaltic or concrete paving); Oiler (truck crane)

Group 4: Ballast Jack Tamper; Ballast Regulator; Ballast Tamper Multi-purpose; Boxman (asphalt plant); Concrete Mixer, Skip type; Dinky; Fork Lift (construction job site); Ross Carrier; Skip Loader (under 1 cu. yd.); Tie Spacer; Line Master

Group 5: Concrete Mixer (over 1 cu. yd.); Concrete Pumps or Pumpcrete Guns; Elevator and Material Hoist (1 drum); Screedman (Barber-Greene and similar) (asphaltic or concrete paving); Shuttle Car; Signalman

Group 6: Boom Truck or Dual Purpose "A" Frame Truck; B.L.H. Lima Road Pactor or similar; Chip Box Spreader (Flaherty type or similar); Concrete Batch Plant (wet or dry); Concrete Saws (highways, streets, airports, canals); Highline Cableway Signalman; Locomotive (over 30 tons); Maginnis International Full Slab Vibrator (airports, highways, canals, warehouses); Mechanical Burn, Curb and/or Curb Gutter Machine (concrete or asphalt); Power Jumbo (setting slip forms, etc., in tunnels); Roller (except asphalt); Self-propelled Compactor (single engine); Slip Form Pump (power driven by hydraulic, electric, air, gas, etc., lifting device for concrete forms); Stationary Pipe Wrapping, Cleaning and Bending Machine; Pavement Breaker or Tamper (with or without compressor combination); Pavement Breaker, truck mounted, with compressor combination; Small Rubber-tired Tractors; Self-propelled Tape Machine

Group 7: Compressor (over 2); Concrete Conveyor; Concrete Conveyor or Concrete Pump, truck or equipment mounted (boom length to apply); Crusher Plant Engineer; Deck Engineer; Drilling and Boring Machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); Generators; Grade Setters; Grade Checker; Instrument Man; Kolman Loader; Material Hoist (2 or more drums); Mechanical Finishers or Spreader Machine (asphalt, Barber-Greene and similar); Mine or Shaft Hoist; Pipe Bending Machines (pipelines only); Pipe Cleaning Machines (tractor propelled and supported); Pipe Wrapping Machines (tractor propelled and supported); Portable Crushing and Screening Plants; Pumps (over 2); Refrigeration Plant; Self-propelled Boom type Lifting Device (center mount) (10 ton capacity or less); Slusher; Soil Tester (certified); Surface Heater and Planer; Trenching Machine (maximum digging capacity 3 ft. depth) Truck type Loader; Welding Machines (gasoline or diesel); Roller (asphalt)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 8: Asphalt Plant Engineer; Car Passer; Cast-in-place Pipe Laying Machine; Combination Slusher and Motor; Dozer; Concrete Batch Plant (multiple units); Elevating Grader; Grooving and Grinding Machine (highways); Heavy Duty Repairman and/or Welder; Ken-seal; Loader (up to and including 2½ cu. yds.); Mechanical Trench Shield; Mixermobile; Push Cats; Road Oil Mixing Machine; Wood-mixer (and other similar pugmill equipment); Rubber-tired Earthmoving equipment (up to and including 35 cu. yds. "struck" M.R.C., Euclids, T-Pulls, DW's 10, 20, 21, and similar); Self-propelled Compactor with Dozer; Sheepfoot; Small Tractor (with boom); Soil Stabilizer (P & H or equal); Timber Skidder (rubber tire) or similar equipment; Tractor; Tractor drawn scraper; Tractor mounted Compressor Drill Combination; Trenching Machine (over 3 ft. depth); Tri-Batch Paver; Tunnel Badger or Tunnel Boring Machine; Tunnel Mole Boring Machine

Group 9: Canal Finger Drain Digger; Chicago Boom; Combination Backhoe and Loader (up to and including 3/8 yds.); Combination Mixer and Compressor (gunnite); Lull Hi-lift (20 ft. or over); Mucking Machine; Tractor with boom (D-6 or larger); Track Laying type Earth moving Machine (single engine with tandem scrapers); Sub-grader (Gurries or other types)

Group 10: Boom type Backfilling Machine; Bridge Crane; Cary-lift or similar; Chemical Grouting Machine; Chief of Party; Derricks; Derrick Barges (except excavation work); Euclid Loader and similar types; Heavy Duty Rotary Drill Rigs; Lift-slab (Vagtborg and similar types); Loader (over 2½ cu. yds. up to and including 4 cu. yds.); Locomotive (over 100 tons) (single or multiple units); Multiple Engine Earth Moving Machines (Euclid, Dozers, etc.); Pre-stress Wire Wrapping Machine; Rubber Tired Scraper, self-loading; Self-propelled Reservoir-debris equipment floating (200 HP and over); Shuttle Car (Reclaim Station); Single Engine Scraper (over 35 cu. yds.); Train Loading Station; Vacuum Cooling Plant; Whirley Crane (up to and including 25 tons); Trenching Machine; Multi-engine with sloping attachments (JEFFCO or similar)

Group 10-A: Backhoe (up to and including 1 cu. yd. hydraulic); Backhoe (up to and including 1 cu. yd.)(Cable); Cranes (not over 25 tons)(hammerhead and Gantry); Grade-alls (up to and including 1 cu. yd.); Motor Patrol; Power Shovels, Clamshells, Draglines, Cranes (up to and including 1 cu. yd.); Rubber-tired Scraper, self-loading (twin engine); Self-propelled Boom-type Lifting Device (center mount) (over 10 tons)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 11: Automatic Asphalt or Concrete Slip Form Paver; Automatic Railroad Car Dumper; Canal Finger Drain Backfiller; Canal Trimmer; Cranes (over 25 tons); Highline Cableway Operator; Loader (over 4 yds. up to and including 12 cu. yds.); Multi-engine Earthmoving Equipment (up to and including 75 cu. yds. "struck" M.R.C.); Power Shovels, Clamshells, Draglines, Backhoes, Gradeall (over 1 yd. and up to and including 7 cu. yds. M.R.C.); Self-propelled Compactor (with multiple propulsion power units); Single Engine Rubber Tired Earth-moving Machine (with tandem scraper); Slip Form Paver (concrete or asphalt); Tandem Cats and Scrapers; Tower Crane Mobile; Universal Liebher and Tower Cranes (and similar types); Wheel Excavator (up to and including 750 cu. yds. per hour); Whirley Cranes (over 25 tons)

Group 11-A: Hand Wagons (in conjunction with wheel excavators); Loader (over 12 cu. yds.); Multi-engine Earth Moving Equipment (over 75 cu. yds. "struck" M.R.C.); Operator of Helicopter (when used in construction work); Power Shovels and Draglines (over 7 cu. yds. M.R.C.); Remote Controlled Earth Moving Equipment; Wheel Excavator (over 750 cu. yds. per hour)

AR-1059 P. 11

NEVADA AREA DEFINITIONS for Power Equipment Operators

** AREA 2: All areas not included within Area 1 as defined below.
* AREA 1: All of Northern Nevada within the following lines:

Commencing at the N.W. corner of township 22N, range 18E, Mount Diablo Baseline and Meridian at the California-Nevada border;
Thence Easterly to the N.E. corner of township 22N, range 22E;
Thence Southerly to the N.E. corner of township 20N, range 22E;
Thence Easterly to the N.W. corner of township 20N, range 26E;
Thence Northerly to the N.W. corner of township 22N, range 26E;
Thence Easterly to the N.W. corner of towhnsip 22N, range 29E;
Thence Northerly to the N.W. corner of township 30N, range 29E;
Thence Easterly to the N.E. corner of township 30N, range 33E;
Thence Southerly to the S.E. corner of township 24N, range 33E;
Thence Westerly to the S.E. corner of township 24N, range 31E;
Thence Southerly to the S.E. corner of township 16N, range 31E;
Thence Westerly to the S.E. corner of township 16N, range 30E;
Thence Southerly to the S.E. corner of township 15N, range 30E;
Thence Westerly to the S.E. corner of township 15N, range 27E;
Thence Southerly to the S.E. corner of township 14N, range 27E;
Thence Westerly to the S.E. corner of township 14N, range [illegible]3E;
Thence Southerly to the S.E. corner of township 13N, range 23E;
Thence Westerly to the S.E. corner of township 13[illegible], range [illegible]E;
Thence Southerly to the N.E. corner of township 10N, range 22E;
Thence Easterly to the N.E. corner of township 10N, range 23E;
Thence Southerly along the Easterly line of range 23E to the intersection of the California-Nevada border;
Thence North-Westerly, then Northerly following the California-Nevada border to the point of beginning.

Area 1 also includes that portion of Northern Nevada included within the following line:

Commencing at the S.W. corner of township 37N, range 52E;
Thence Easterly to the S.E. corner of township 37N, range 52E;
Thence Northerly to the N.E. corner of township 37N, range 52E;
Thence Easterly to the N.W. corner of township 37N, range 58E;
Thence Southerly to the S.W. corner of township 37N, range 58E;
Thence Easterly to the S.E. corner of township 37N, range 58E;
Thence Southerly to the N.E. corner of township 31N, range 58E;
Thence Westerly to the N.W. corner of township 31N, range 58E;
Thence Southerly to the S.W. corner of township 31N, range 58E;
Thence Westerly to the S.E. corner of township 31N, range 52E;
Thence Northerly to the N.E. corner of township 31N, range 52E;
Thence Westerly to the S.E. corner of township 32N, range 51E;
Thence Northerly to the point of beginning.

SUPERSEDEAS DECISION

STATE: NEW YORK COUNTY: ERIE
DECISION NO. AR-2096 DATE: Date of Publication
Supersedes Decision No. AR-2051, dated September 13, 1974 in 39 FR 33155
DESCRIPTION OF WORK: Building Construction, (Excluding single family homes and garden type apartments up to and including 4 stories), Heavy and Highway construction.

15-New York-1-2-3-X 1 of 4

BUILDING, HEAVY & HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App Tr
Asbestos workers	$ 9.21	.67	.55		.04
Boilermakers	9.45	.50	.85		.02

BUILDING, HEAVY & HIGHWAY CONSTRUCTION (CONT'D)

Welders - receive rate prescribed for craft performing operation to which welding is incidental.

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Holidays: A through F.

b. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

c. Holidays: A through F; Washington's Birthday, Good Friday and Christmas Eve, providing employee has worked 45 full days during the 120 calendar days prior to the holiday and the regular scheduled work day immediately preceding and following the holiday.

d. Holidays; A through F; Washington's Birthday; Election Day for President of the United States and election of Governor of New York State, provided employee works the day before.

e. After one year, one weeks vacation; 2 years, 6 days vacation; 3 years, 7 days vacation; up to 2 weeks maximum vacation after completion of the 5th year, full vacations are earned by a driver who works 1040 hours or more in the calendar year, if an employee works less than 1040 hours in any calendar year, vacation will be prorated for either 1 or 2 weeks of vacation on the basis of using the number of hours worked as the numerator and 1040 as the denominator.

f. Paid Holidays, A through F, Friday after Thanksgiving Day except where the employee is laid off 2 or more weeks prior to the holiday, however employees laid off less than 2 weeks prior to election Day will automatically be eligible for the subsequent Friday after Thanksgiving as a paid holiday even though laid off.

g. Employer contributes $.40 per hour to Supplemental Unemployment Benefits fund.

h. Employer contributes $1.05 per hour to a combined Health, Welfare and Supplemental Unemployment Benefit fund.

FOOTNOTES: (Cont'd)

i. Employer contributes $1.00 per hour to a supplemental unemployment benefit fund.

j. Employer contributes $.45 per hour to a Supplement Unemployment Benefit fund.

BUILDING AND HEAVY CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP I: Crane with a main boom over 100 feet

GROUP II: all boom type equipment, all pan and carry-all operators, Archer hoist, back and pull hoe operator, blast or rotary drill, track or cat mounted, boiler (when used for power), boom trucks, cableway operator, concrete paver machine, crane operator, derrick operator, dragline operator, elevating grader (self-propelled), head tower operator, hot roller (finish course), hydraulic booms, hydro crane, maintenance engineer, mucking machine operator, multiple drum hoist, (more than 1 drum in use), Peine crane, pile driving machine operator, power grader machine operator, scoopmobile, shovel operator, skimmer operator, test core drill machine, tractor shovel operator, vertical caisson auger drill, well drilling machine

GROUP III: Back filling machine operator, Kolman loader, roller machine operator, snatch and pusher cats, stone crusher, towed or self-propelled rollers, trenching machine operator

GROUP IV: Air hoist operator, cage hoist operator, conveyor operator, conveyor system, (belt-crete or similar), hoisting engine op., house elevator, (when used for hoisting), industrial tractor, locomotive op., (irrespective of power), push button hoist op., Strato tower, tractors (when using winch power)

GROUP V: Concrete mixer op., (½ c.y. or over), gasoline driven boring machine, hydraulic system pumps, hydro hammer, finishing machine op., (asphalt spreader), finishing machine op., pump op., (4" or over), pump op., (2 or 3 in a battery)

GROUP VI: Air compressor operator, (under 160 cu. ft.), air compressor op., (over 160 cu. ft.), generator grount machine operator, heating boiler operator, (used for temporary heat), lubrication unit or truck, mechanical heaters, (when 9 are in a battery), mechanic or repairman, pneumatic mixer op., power plant (in excess of 10KW), welding machine operator, (to and including 3 machines) Bulldozer & tractor, (50 h.p., Monorail

GROUP VII: Bulldozer & tractor, (50 h.p., drawbar or under), jeep trench, mulchers, power brooms and rakes, seeders

GROUP VIII: Firemen

GROUP IX: Truck crane driver

GROUP X: Aggregate bin op., apprentice engineer or oiler, cement bin op., concrete mixer op., (under ½ c.y.), mechanical heaters, (when one or two are used), pump operators (one inch), pump op., (two inches), pump operators, (three inches), tractor machines

BUILDING AND HEAVY CONSTRUCTION POWER EQUIPMENT OPERATORS	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.

LABORERS

Group 1: General Construction Laborer (Chip Spreader Leverman, Fine Grader, Form Grader, Landscape Worker, Pump Operator (prewater) Tunnel Worker, Sign Erector); Reinforced Steel Setter; Sack Shaker (cement and mineral filler); Pipe Handler; Drill Runner Helper; Salamander Heater and Blower Tender

Group 2: Semi Skilled Laborer (Joint Filler Machine Operator, Chip Spreader Operator); Bulk Cement Handler; Conduit Layer, telephone or electrical; Form Setter (pavement); Gas, Electric or Pneumatic Tool Operator (chipping hammer, grinders and paving brakers, tamper (dirt), Concrete Vibrator Operator); Chain Saw Operator; Concrete Curing Man (not water); Bituminous Worker (Shoveler, Dumper, Raker and Floater); Kettleman (bituminous or lead); Concrete Bucket Signalman; Power Buggy Operator; Brick and Mason Tender; Multiplate Pipe Layer; Culvert Pipe Layer

Group 3: Caisson Work; Bottom Man, (sanitary sewer, storm sewer, water, and gas lines); Concrete Mixer Operator (one bag capacity); Mortar Mixer

Group 4: Pipe Layers (sanitary sewer, storm sewer, water, and gas lines); Drill Runner (including Wagon Churn or Air Track); Powderman, Gunite and SandBlast, Nozzleman

POWER EQUIPMENT OPERATORS

Group 1: Cableway Operator; Crane Operator with over 135' boom; Derrick (Guy and Stiff Leg), (power), (skids and stationary); Front End Loader over 10 cu. yds.; Gantry Crane Operator; Mole Operator, including power supply or tunnel mucking machine; Power Shovel and/or other equipment with shovel type controls 3½ cu. yds.

NOTICES

NOTICES

POWER EQUIPMENT OPERATORS (Cont'd)

Group 2: Concrete Mixer Stationary Plant Operator over 34E; Dredge Operator or Engineer, Dredge Operator (power) and Engineer; Elevator Grader Operator; Locomotive, Crane Operator; Master Mechanic; Mixer (paving) Concrete Paving Operator, road; Power Shovel and/or other equipment with shovels and/or other equipment with shovel type controls up to 3¼ cu. yds.; Scraper Tandem; Tandem Pusher Quad 9 or similar; Tractor Operator (pipeline); Side Boom; Truck Crane Operator; Hydrocrane Operator, 15 ton and over

Group 3: Dope Machine Operator (pipeline); Drill Rigs, Heavy Duty Rotary or Churn or Cable Drill; Front End Loader Operator, 6 cu. yds. and over; Locomotive, all types, Pipeline Wrapping, Cleaning and Bending Machine Operator; Power actuated Horizontal Boring Machine over 6" Operator (pipeline); Pumperete Operator; Refrigeration Plant Engineer; Slip Form Operator (power driven)(paving); Tandem Scraper-twin engine, 50 cu. yds. struck and over

Group 4: Asphalt Paving Machine Operator; Asphalt Plant Operator and Console Board Operator; CMI Grading Operator; Crushing Plant Operator (gravel and stone or gravel washing crushing and screening plant operator); Front End Loader Operator, 1 cu. yd. up to 6 cu. yds.; Grader or Motor Patrol, Finishing Earth Work and Bituminous; Mechanic or Welder (heavy duty); Rubber Tired Industrial Tractor with Backhoe attachment (water main sanitary sewer and storm sewer, trunk line construction); Scraper Operator; Tractor type Dozer D-6 and over; Trenching Machine Operator, sewer and water, (except Ditch Witch or similar use oiler rates); Turnapull Operator, (or similar type)

Group 5: Bituminous Spreader and Bituminous Finishing Operator (power); Concrete Distributor and Spreader Operator, Finishing Machine Longitudinal Float Operator, Pt. Machine Operator and Spray Operator; Concrete Mixer Operator on job site 16S or over; Paving Breaker or Tamping Machine Operator, including machine with power shovel attachments (power driven); Power actuated Augers and Boring Machine Operator; Power actuated Jacks Operator; Power Plant Engineer, 100 K.W.H. and over; Push Tractor; Self-propelled Traveling Soil Stabilizer; Soil Cement Stabilizer; Truck Mechanic

Group 6: Concrete Saw Operator (multiple blade)(power operated); Fine Grade Operator; Roller, steel and self-propelled rubber, on Hot Mix Asphalt Paving; Tractor Type Dozer under D-8 H.P.; Distributor Operator

POWER EQUIPMENT OPERATORS (Cont'd)

Group 7: Brakeman or Switchman; Concrete Batch Plant Operator (cement, rock, and sand) Electronic; Concrete Mixer Operator on job site under 16S; Crane Truck Oiler; Grader Operator (Motor Patrol) (haul road); Gravel Screening Plant Operator (portable not crushing or washing); Greaser (truck or tractor); Gunnite Operator Gunall; Hoist Engineer (power); Launchman (Tankerman or Pilot License); Pick-up Sweeper, 1 yd. and over hopper capacity; Shouldering Machine Operator (power) (Apsco or similar type) including Self-propelled Sand Chip Spreader Flaherty or similar; Sheepsfoot Roller or Compactor (self-propelled)

Group 8: Crawler Type Tractor Pulling Compaction or Aerating Equipment; Farm type Rubber Tired Tractor with Backhoe attachment; Self-propelled Vibrating Packer Operator Pad type (35 hp and over); Off road self-propelled watering equipment; Boom Truck Operator; Roller, steel and self-propelled rubber, on other than Hot Mix

Group 9: Bituminous Spreader and Bituminous Finishing Machine Operator (helper) (power); Concrete Batch Operator (cement, rock and sand) (manual); Form Trench Digger (power); Front End Loader Operator up to 1 cu. yd.; Hyster Carrier or Forklift; Leverman; Mechanics' Helper or Greaser Helper; Oiler (power shovel, crane dragline); Pugmill Operator; Pump Operator (well points); Self-propelled Broom

Group 10: Conveyor Operator; Curb Machine Operator (manual); Dredge Deck Hand; Farm Tractors, Rubber Tired for Compacting and Aerating; Front End Loader Operator (farm type rubber tired tractor); Stump Chipper Operator; Tie Tamper and Ballast Machine Operator

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

Health Insurance Benefits Advisory Council, 1–10–75 44268
OE: National Advisory Council on Developing Institutions, 1–27 and 1–28–75 44267

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 330, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period December 13–19, 1974. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 330 (39 FR 43293). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1)(i) and (iii) of § 907.630 (Navel Orange Regulation 330) (39 FR 43293) are hereby amended to read as follows:

§ 907.630 Navel Orange Regulation 330.

* * * * *

(b)(1) * * *

(i) District 1: 1,334,000 cartons;

(iii) District 3: 116,000 cartons:

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 18, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-29799 Filed 12-20-74;8:45 am]

PART 913—GRAPEFRUIT GROWN IN THE INTERIOR DISTRICT IN FLORIDA

Expenses and Rate of Assessment

This document authorizes expenses of $27,800 of the Interior Grapefruit Marketing Committee, under Marketing Order No. 913, for the 1974–75 fiscal period and fixes a rate of assessment of $0.0055 per standard packed box of grapefruit handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses.

On November 27, 1974, notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 41379) regarding proposed expenses and the related rate of assessment for the period August 1, 1974, through July 31, 1975, pursuant to the marketing agreement, as amended, and Order No. 913, as amended (7 CFR Part 913), regulating the handling of grapefruit grown in the Interior District in Florida. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice provided that all written data, views, or arguments in connection with said proposals be submitted by December 12, 1974. None were received. After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Interior Grapefruit Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 913.210 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Interior Grapefruit Marketing Committee during the period August 1, 1974, through July 31, 1975, will amount to $27,800.

(b) *Rate of Assessment.* The rate of assessment for said period, payable by each handler in accordance with § 913.31, is fixed at $0.0055 per standard packed box of grapefruit.

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of grapefruit are now being made, (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable grapefruit handled during the aforesaid period, and (3) such period began on August 1, 1974, and said rate of assessment will automatically apply to all such grapefruit beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: December 17, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—GENERAL REGULATIONS AND POLICIES

PART 1408—SETOFF, WITHHOLDING AND STOP PAYMENT POLICIES OF COMMODITY CREDIT CORPORATION

Carrier Debts; Correction

FR Doc. 74–28085, in the issue dated December 2, 1974, is corrected as follows.

On page 41733 in the heading in the second column "Debits" Due CCC should read "Debts" Due CCC. On the same page in § 1408.4(e)(2)(iii) the word "prescribe" should read "prescribed".

On page 41734 in § 1408.11(a) the word "bared" should read "barred", and in the same paragraph the reference to § 1408.4(d)(4) should be changed to 1408.4(e)(3). In § 1408.11(c) the reference to (d) of § 1408.4 should be changed to (e) of 1408.4.

Signed at Washington, D.C., on December 16, 1974.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 317—PRIORITY DELIVERY OF COAL UNDER DEPARTMENT OF DEFENSE CONTRACTS

On October 8, 1974 the Federal Energy Administration (FEA) issued a notice of proposed rulemaking to establish procedures for instituting priority coal supply contracts or priority treatment of coal supply contracts for the Department of Defense (DOD). Under the proposal, FEA would be authorized to issue written orders to suppliers requiring them to provide specific types and amounts of coal to DOD. Such orders would take precedence over all other existing contracts.

Comments were invited from all interested persons by October 21, 1974 and a total of eight written comments were received. The public hearing which was scheduled in the proceeding for October 21 and 22 was cancelled on October 18th after FEA failed to receive any requests to present oral presentations.

The final regulations published here reflect FEA's consideration of all comments received, including those received subsequent to the official closing date, as well as all other information available to FEA.

A number of changes have been made in the regulations, as proposed, in response to comments received. Several comments expressed concern over the possible adverse effects a priority system for the military might have on other end users of coal such as homeowners, hospitals, schools, and public utilities. Several suggestions were offered for alleviating this concern including granting all persons adversely affected by a priority order the right to appeal, providing public notice of all priority orders, and making FEA's intention to avoid unfair distributions of burdens and undue hardships explicit in the regulations.

In response to these suggestions and further analysis by FEA, the following changes have been made in the regulations, as proposed:

Section 317.3 has been amended to require FEA's actions in administering the priority program to be consistent with its general responsibility under section 7 of the Federal Energy Administration Act of 1974 to avoid unfair distribution of burdens and undue hardships whenever possible.

A new § 317.4 has been added to require that public notice be given of all written requests received from DOD for priority orders.

Section 317.5 has been amended to require a supplier who must reduce the amount of coal being delivered to non-DOD contractors in order to fulfill a priority order, to do so on a pro-rata basis except as otherwise provided in the order.

Section 317.6 has been amended to permit any person whose supply of coal will be directly reduced as a result of a priority order to file an appeal with FEA.

A number of minor revisions have also been made to the regulations, as proposed, in response to comments received. At the suggestion of the Environmental Protection Agency, § 317.3 has been amended to require FEA to specify the sulphur and ash content of coal to be delivered to DOD under priority orders. A minor change in the wording of § 317.3 has also been made to make it clear that a supplier will not be required to enter into a contract with another supplier in order to fulfill a priority order. Finally, § 317.9 has been amended to provide that all communications concerning Part 317 be addressed to the Federal Energy Administration, Code 55, Washington, D.C. 20461.

(Defense Production Act of 1950, as amended (50 U.S.C. App. 2071 et seq.); Federal Energy Administration Act of 1974 Pub. L. 93-275, 88 Stat. 96; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, Part 317 of Chapter II Title 10 of the Code of Federal Regulations, is established as set forth below, effective immediately.

Issued in Washington, D.C., December 17, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

Part 317 is added to Chapter II to read as follows:

Sec.
317.1 Purpose.
317.2 Definitions.
317.3 Order.
317.4 Notice.
317.5 Effect of order.
317.6 Appeal.
317.7 Other procedures.
317.8 Records and reports.
317.9 Address.
317.10 Violations and sanctions.

AUTHORITY: Defense Production Act of 1950, as amended, 50 U.S.C., App. 2071 et seq.; Federal Energy Administration Act of 1974, Pub. L. 93-275, 88 Stat. 96; E.O. 11790, 39 FR 23185.

§ 317.1 Purpose.

This part establishes the procedures to be utilized by FEA to implement the provisions of the Defense Production Act of 1950 (50 U.S.C. App. 2071 et seq.) whenever the interests of national defense require the priority delivery of coal under Department of Defense contracts. The regulation provides that FEA may require that, upon issuance of an order directing priority treatment, persons shall supply coal to the Department of Defense on a priority basis above all other contractual or other obligations.

§ 317.2 Definitions.

"DOD" means the Department of Defense, including Military Departments and Defense Agencies.

"FEA" means the Federal Energy Administration, acting either through the Administrator or the delegate of the Administrator.

"Order" means a written directive or verbal communication of a written directive, if promptly confirmed in writing, issued by FEA.

"Person" means any individual, firm, estate, trust, sole proprietorship, partnership, association, company, joint-venture, corporation, governmental unit or instrumentality thereof, or a charitable, education or other institution, and includes any officer, director, owner or duly authorized representative thereof.

§ 317.3 Order.

(a) *Issuance.* Upon receipt of written notification from DOD that a serious disruption will occur in the supply of coal necessary to meet a particular and essential military need, the FEA consistent with the responsibilities imposed under section 7 of the Federal Energy Administration Act of 1974 and the Defense Production Act of 1950, as amended, may order a person regardless of other existing contracts and orders, to perform fully its contractual obligations to provide DOD with coal meeting its specifications, or to enter into agreements with DOD to provide coal in excess of such requirements, or to enter into contracts with DOD to provide a specific quality and quantity of coal. Such order shall state the type, size, and sulphur and ash content of coal to be delivered, the maximum quantity of coal that the person is obligated to deliver, the delivery schedule, and any other terms necessary to ensure the timely receipt of the specified supply of coal.

(b) *Compliance.* Each person to whom an order is issued pursuant to this part shall deliver the specified supply of coal to DOD in accordance with the terms of the order.

§ 317.4 Notice.

Upon receipt of written notification from DOD pursuant to § 317.3, notice shall be given to the public either through publication in the FEDERAL REGISTER or through another appropriate method prior to the issuance of an order.

§ 317.5 Effect of order.

(a) *Defense against claims for damages.* No person shall be liable for damages or penalties for any act or failure to act resulting directly or indirectly from compliance with the provisions of any authorized order issued in accordance with this part.

(b) *Pro-rata reduction.* If, in order to fulfill a priority order for a specific type of coal, a supplier must reduce the amount of that type of coal being supplied to another non-DOD contractors, such reductions shall be made on a pro-rata basis except as otherwise provided in the order.

§ 317.6 Appeal.

Any person to whom an order is issued in accordance with this part or whose supply of coal will be directly reduced as a result of a priority order, may file an appeal of such order with FEA. The procedures that control the filing and the evaluation of such appeal are those stated in Subpart H of Part 205 of this chapter.

§ 317.7 Other procedures.

(a) *Stay.* An application for stay of an order issued in accordance with this part may be filed in accordance with Subpart I of Part 205 of this chapter.

(b) *Conferences or hearings.* A request for a conference or hearing regarding an order issued in accordance with this part may be filed in accordance with Subpart M of Part 205 of this chapter.

(c) *Computation of time; effective date of orders.* The computation of time with respect to any order issued in accordance with this part and the effective date of any such order shall be as stated in §§ 205.5 and 205.10, respectively, of Part 205 of this chapter.

(d) *Service.* The service of any order issued in accordance with this part shall be in accordance with § 205.7 of Part 205 of this chapter.

(e) *Subpoenas, Witness fees.* The issuance of subpoenas and the payment of witness fees shall be in accordance with § 205.8 of Part 205 of this chapter.

§ 317.8 Records and reports.

(a) Each person to whom an order is issued in accordance with this part shall make and preserve for at least two years thereafter accurate and complete records of deliveries in accordance with such order. Such records may be retained in the form of microfilm or photographic persons who, at the time such microfilm copies instead of the original by those or other photographic records are made, maintain such records in the regular and usual course of business.

(b) All records required by this part shall be made available upon request for inspection and audit by duly authorized representatives of the FEA.

(c) Persons to whom orders are issued in accordance with this part shall make such records and submit such reports to FEA as it may require.

§ 317.9 Address.

All written communications concerning this part shall be addressed to the Federal Energy Administration, Code 55, Washington, D.C. 20461.

§ 317.10 Violations and sanctions.

(a) Any practice that circumvents or contravenes or results in a circumvention or contravention of the requirements of this part or any order issued pursuant thereto is a violation of the regulations provided in this part.

(b) *Criminal Penalties.* Any person who wilfully violates any provision of this part, either by commission or omission, or any order issued pursuant thereto shall be subject to a fine of not more than $10,000 or imprisoned for not more than one year, or both.

[FR Doc.74-29850 Filed 12-18-74;4:13 pm]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74-SW-30; Amdt. 39-2048]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Model 205A and 205A-1 Helicopters

Amendment 39-1304 (36 FR 19360), AD 71-21-2, requires certain repetitive inspections of the vertical fin forward spar until the spar is modified for Bell Model 205A and 205A-1 helicopters equipped with certain tail booms. After issuing Amendment 39-1304, the agency found the daily inspection requirement needed clarification. In response to an air carrier operator's hardship, the AD is being amended to specify certain checks before the first flight of each day in place of certain inspections.

Since this amendment provides a relief from Amendment 39-1304 and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1304 (36 FR 19360), AD 71-21-2 is further amended as follows:

1. By amending paragraph (d) to read:

Before the first flight of each day after the inspection in paragraph (c) is accomplished, conduct a check as follows:

2. By amending paragraph (d)(4) to read:

The above check may be performed by the pilot.

This amendment becomes effective December 23, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a); 1421, and 1423); sec. 6(c) of the Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Fort Worth, Texas on December 6, 1974.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.74-29951 Filed 12-20-74;8:45 am]

[Docket No. 74-NE-45, Amdt. 39-2065]

PART 39—AIRWORTHINESS DIRECTIVES

Pratt & Whitney JT8D Aircraft Engines

On November 14, 1974, a proposal to amend Part 39 of the Federal Aviation Regulations to include an Airworthiness Directive applicable to Pratt & Whitney Aircraft Model JT8D-1, -1A, -7, and -7A turbofan engines due to failures of low turbine shafts was published in the FEDERAL REGISTER (39 FR 40167). These failures have been caused by excessive taper wear or plate peeling of the No. 2 compressor hub spline which imposes an uneven leading of the shaft spline surfaces resulting in fatigue failure of the shaft. Early investigations indicated that the shafts separated at the root of the last thread of the threaded forward section which mates with the No. 2 compressor hub coupling nut. To reduce the stress levels in the threaded area, Pratt & Whitney released a rework procedure to undercut the threads. Shafts reworked in accordance with this procedure have been found with the failures originating in the shaft spline. Since this condition is likely to exist in other JT8D engines, the following Airworthiness Directive will require the removal of low turbine shafts that have not been reworked and a repetitive inspection on shafts with reworked splines at intervals of 6700 cycles in service. The AD will also require an inspection of the No. 2 compressor hub spline.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Most of the comments suggested clarification of the Airworthiness Directive. These suggestions have been incorporated into the AD. One comment was concerned with the identification of reworked shafts and stated that some operators have complied with the intent of Pratt & Whitney Service Bulletin 2452, to rework the low turbine shaft, except for the reidentification. Accordingly, Paragraphs 1 and 2 have been changed to include these shafts. Another commentator suggested that since the eddy current inspection procedure introduced in Pratt & Whitney Service Bulletin 2452, Revision 5, had not been changed in subsequent revisions, Revision 5, instead of Revision 9, should be used to preclude confusion in the acceptable inspection procedure. This request has been incorporated.

Paragraph 2 of the proposed AD specified eddy current inspection of certain turbine shafts prior to the accumulation of 6700 cycles since last inspection or within the next 2000 cycles, whichever is later. A commentator questioned whether other methods of inspection were acceptable for previous inspections. Since no data has been submitted to justify the use of an alternate method, the AD has been changed to specify only the eddy current inspection procedure.

Paragraph 3 of the AD requires the inspection of the No. 2 compressor hub spline for taper wear or plate peeling when the low turbine shafts are removed or inspected in accordance with Paragraphs 1 and 2. A comment was received indicating this could cause unnecessary engine disassembly when shafts are removed for reasons other than for shaft inspections. Therefore, Paragraph 3 has been changed to specify that the No. 2 compressor hub spline inspection for taper wear need not coincide with shaft

removals. Plated No. 2 compressor hubs must be inspected for plate peeling at each shaft removal.

It has been requested that operators be allowed to submit data for adjustment in compliance times. To allow this, a new paragraph has been added.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulation is amended by adding the following new Airworthiness Directive:

PRATT & WHITNEY AIRCRAFT. Applies to all Pratt & Whitney JT8D-1, -1A, -7, and -7A model turbofan engines

Compliance required as indicated.

To prevent failure of the low turbine shaft spline accomplish the following:

1. Remove from service thin wall low turbine shafts not incorporating Pratt & Whitney Aircraft Service Bulletin 2452 (P/Ns 479796; 493412, 511215, 524958, 528365, 528566, 539961, 540354, 540355, 540452, 542500, 552504, 576306, 576312, 576313, 576314, and 587879) prior to the accumulation of 6700 cycles in service since new, or within the next 2000 cycles in service after the effective date of this AD, whichever is later.

2. Inspect thin wall low turbine shafts incorporating Pratt & Whitney Aircraft Service Bulletin 2452 (P/Ns 540354-S/B2452, 540355-S/B2452, 540452-S/B2452, 576276, 576277, 576278, 576279, 576280, 576283, 576284, 576285, 576286, and 576287) for cracked splines in accordance with the eddy current spline inspection procedure in Pratt & Whitney Service Bulletin 2452, Revision 5, or later FAA approved revision, or equivalent method approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region, prior to the accumulation of 6700 cycles in service since last eddy current spline inspection or within the next 2000 cycles in service after the effective date of this AD, whichever is later, unless already accomplished. Inspect thereafter at intervals not to exceed 6700 cycles in service from the last inspection. Remove shafts with cracks from service before further flight.

3. Inspect the No. 2 compressor hub spline for taper wear or plate peeling in accordance with Pratt & Whitney Aircraft Alert Service Bulletin 4357 or later FAA approved revision, Paragraph IV.D.1, IV.D.2, IV.D.3, and IV.D.4 as applicable, when the low turbine shafts are removed or inspected in accordance with Paragraph 1 and 2 above, or when inspecting for taper wear, at intervals not to exceed 6700 cycles in service from last hub inspection. Remove hubs with taper wear in excess of .010 inch or plate peeling from service before further flight.

The manufacturer's service bulletins identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Pratt & Whitney Aircraft, 400 Main Street, East Hartford, Connecticut 06108. These documents may also be examined at the Office of the Regional Counsel, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803, and at Federal Aviation Administration Headquarters, 800 Independence Avenue, SW., Washington, D.C. 20591. A historical file on this AD which includes the incorporated material in full is maintained by the Federal Aviation Administration at its headquarters in Washington, D.C., and at the New England Regional Office in Burlington, Massachusetts.

Upon submission of substantiating data through an FAA maintenance inspector by an owner or operator, the Chief, Engineering and Manufacturing Branch, FAA, New England Region, may adjust the compliance time.

NOTE: Pratt & Whitney Alert Service Bulletin 4357 pertains to this subject.

This amendment becomes effective January 8, 1975.

(Sec. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1345(a), 1420, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

NOTE.—The incorporation by reference provisions in this document was approved by the Director of the Federal Register on June 19, 1967.

Issued in Burlington, Mass., on December 16, 1974.

FERRIS J. HOWLAND,
Director, New England Region

[FR Doc. 74-29663; Filed 12-20-74;8:45 am]

[Docket No. 74-SO-113; Amdt. 39-2043]

PART 39—AIRWORTHINESS DIRECTIVES

Grumman American Model G-1159 Airplanes

Amendment 39-2027 (39 FR 41516) AD 74-25-03 requires the installation of a placard on the Flight Power Shut-off handle to prevent the actuation of the handle in flight until Grumman American Aircraft Service Change No. 186 has been incorporated. After issuing Amendment 39-2027 (39 FR 41516) the agency determined that compliance with Aircraft Service Change No. 186 should have been required in the AD, rather than assuming compliance would take place. Therefore, the AD is being amended to require the incorporation of Aircraft Service Change No. 186 in conjunction with the installation of the placard.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (37 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2027 (39 FR 41516) AD 74-25-03 is amended by deleting the second sentence and adding two sentences: "Incorporate Grumman American Aircraft Service Change No. 186. Upon compliance with this service change, remove the placard."

This amendment becomes effective immediately.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in East Point, Ga., on December 3, 1974.

DUANE W. FREER,
Deputy Director,
Southern Region.

[FR Doc.74-29660 Filed 12-20-74;8:45 am]

[Airspace Docket No. 74-AL-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Airway, Controlled Airspace and Reporting Point Changes

On November 20, 1974, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (39 FR 40784) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would change airways, control areas, reporting points and a control zone in the areas of King Salmon and Cold Bay, Alaska.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., February 27, 1975, as hereinafter set forth.

1. Section 71.103 (40 FR 305) is amended as follows:

a. In G-8 "20 AGL INT Fort Randall, Alaska, RBN 255° and Cape Sarichef, Alaska, RBN 344° bearings; 20 AGL Fort Randall RBN; 20 AGL Naknek River, Alaska, RBN;" is deleted and "20 AGL INT Cold Bay, Alaska, LOM 253° and Cape Sarichef, Alaska, NDB 344° bearings; 20 AGL Cold Bay LOM; King Salmon, Alaska, LOM;" is substituted therefor.

b. In G-11 "From INT Fort Randall, Alaska, RBN 041° and Port Moller, Alaska, RBN 313° bearings," is deleted and "From INT Cold Bay, Alaska, LOM 041° and Port Moller, Alaska, NDB 313° bearings," is substituted therefor.

2. Section 71.109 (40 FR 306) is amended as follows:

In B-27 "Naknek River, Alaska, RBN; " is deleted and "King Salmon, Alaska, LOM;" is substituted therefor.

3. Section 71.163 (40 FR 346) is amended as follows:

a. Control 1400 is amended to read as follows:

CONTROL 1400

That airspace within 5 miles each side of the 262° bearing from King Salmon, Alaska, LOM extending from the LOM to the Anchorage CTA/FIR boundary, and between lines diverging at an angle of 5° from the King Salmon LOM 262° bearing extending from the LOM to the Anchorage CTA/FIR boundary, excluding the airspace below 2,000 feet MSL outside the United States.

b. Control 1401 is amended to read as follows:

CONTROL 1401

That airspace within 5 miles each side of the 246° bearing from the King Salmon,

Alaska, LOM extending from the LOM to Long. 160°00'00" W., and between lines diverging at an angle of 5° from the King Salmon, LOM 246° bearing extending from the LOM to Long. 160°00'00" W., excluding the airspace below 2,000 feet MSL outside the United States.

4. Section 71.171 (40 FR 354) is amended as follows:

The Cold Bay, Alaska, Control Zone is amended to read as follows:

COLD BAY, ALASKA

Within a 5-mile radius of the Cold Bay Airport (Lat. 55°12'06" N., Long. 162°43'28" W.); within 8 miles each side of the 339° bearing from the Cold Bay LOM, extending from the 5-mile radius zone to 10.5 miles north of the LOM, and within 5 miles west and 2.5 miles east of the Cold Bay VORTAC 150° radial, extending from the 5-mile radius zone to 18 miles south of the VORTAC.

5. In § 71.211 (40 FR 634) the following reporting points are amended to read as follows:

a. CRACK Lat. 57°21'23" N., Long. 159° 23'14" W. (INT King Salmon, Alaska, LOM 226°, Port Heiden, Alaska, NDB 314° bearings).

b. GARRS Lat. 56°19'09" N., Long. 161° 20'25" W. (INT King Salmon, Alaska, LOM 262°, Cape Newenham, Alaska, NDB 131° bearings).

c. HERRY Lat. 57°50'30" N., Long. 160° 20'27" W. (INT King Salmon, Alaska, LOM 246°, Cape Newenham, Alaska, NDB 131° bearings).

d. DEPTH Lat. 56°19'17" N., Long. 161° 09'43" W. (INT Cold Bay, Alaska, LOM 041°, Port Moller, Alaska, NDB 313° bearings).

e. MORDI Lat. 54°52'39" N., Long. 165°03' 54" W. (INT Cold Bay, Alaska, LOM 253°, Cape Sarichef, Alaska, NDB 342° bearings).

f. WIDTH Lat. 57°21'18" N., Long. 155°59' 40" W. (INT King Salmon, Alaska, LOM 163°, Port Heiden, Alaska, NDB 074° bearings).

6. In § 71.213 (40 F.R. 637) the following reporting points are amended as follows:

a. GARRS Lat. 56°19'09" N. Long. 161°20' 25" W. (INT King Salmon, Alaska, LOM 262°, Cape Newenham, Alaska, NDB 131° bearings).

b. HERRY Lat. 57°50'30" N., Long. 160°20' 27" W. (INT King Salmon, Alaska, LOM 246°, Cape Newenham, Alaska, NDB 131° bearings).

(Sec. 307(a), 1110, Federal Aviation Act of 1958, (49 U.S.C. 1348(a), 1510), Executive Order 10854 (24 FR 9565); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655 (c))

Issued in Washington, D.C., on December 16, 1974.

EDWARD J. MALO,
Acting Chief, Airspace and Air Traffic Rules Division.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-880, Amdt. 7]

PART 250—PRIORITY RULES DENIED-BOARDING COMPENSATION TARIFFS AND REPORTS OF UNACCOMMODATED PASSENGERS

Inclusion of Foreign Air Carriers on a Limited Basis; Extending Effective Date

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., December 17, 1974.

By ER-880, published in the FEDERAL REGISTER on October 29, 1974,[1] the Board adopted an amendment to its "denied-boarding compensation" rule, as set forth in Part 250 of its Economic Regulations (14 CFR Part 250), so as to expand coverage of the rule to include foreign air carriers. The effective date of the amendment was stated to be December 28, 1974.

A number of foreign carriers have requested that the effectiveness of this amendment be stayed or substantially extended. Although the separate requests vary in particular details, they are generally grounded on the argument that the present effective date gives foreign carriers an insufficient amount of time in which to prepare themselves for compliance. The foreign carriers note that they face particular practical difficulties in preparing the requisite tariffs and priority boarding rules for filing with the Board, as well as in preparing company manuals for the instruction and guidance of their far-flung personnel, in various stations throughout the world, who will be responsible for administering these rules. Moreover, they note that some questions have arisen as to the proper interpretation of the precise scope of this rule,[2] the manner in which payments thereunder are to be affected by currency restrictions which may prevail in certain countries, and the extent to which the rule's reporting requirements and the prescribed reporting form are appropriate.

We are persuaded that the difficulties involved in carrying out the various intermediate procedural steps which are necessary to insure full compliance with ER-880 by the carriers, their agents and employees cannot reasonably be surmounted by the December 28th effective date. However, we do not believe that the effectiveness of a regulation which we have duly adopted for the protection of users of air transportation should be delayed, in its entirety, for a longer period than is absolutely essential.

Accordingly, we have determined to extend the effective date of ER-880 until March 1, 1975. As so extended, the foreign air carriers will have had an aggregate of approximately four months from the date of publication of this amendment until its effectiveness. This length of time should be entirely adequate to enable these carriers to prepare themselves for compliance with a rule which has applied to their U.S. competitors for more than seven years.[3] To the extent that a question has been raised as to the rule's precise applicability, we shall shortly issue our interpretation. However, pending such interpretation, we wish to emphasize that we fully expect foreign air carriers to proceed with implementation of their internal procedures to enable compliance to be achieved by March 1, 1975.

Accordingly, the effective date of ER-880 is hereby extended to March 1, 1975.[4]

(Sec. 204(a), Federal Aviation Act, as amended, 72 Stat. 743, (49 U.S.C. 1324))

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-29640 Filed 12-20-74;8:45 am]

[1] 39 FR 38057.

[2] The question arises under the provision of § 250.2 which states that the rule "applies to flights or portions of flights originating or terminating in the United States * * *."

[3] Part 250 was adopted by ER-503, dated August 8, 1967, and became effective on October 17, 1967.

[4] By PS-60, issued contemporaneously herewith, we are similarly extending the effective date of PS-58, which was issued contemporaneously with ER-880 so as to apply our policy on orally confirmed reservations to foreign air carriers.

SUBCHAPTER F—POLICY STATEMENTS

[Reg. PS-60, Amdt. 39]

PART 399—STATEMENTS OF GENERAL POLICY

Oral Confirmed Reservations To Include Foreign Air Carriers; Extending Effective Date

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., December 17, 1974.

By PS-58 (39 FR 38096, Oct. 29, 1974), we amended our Policy Statement § 399.83, on orally confirmed reservations, so as to apply to foreign air carriers. That amendment was adopted contemporaneously with ER-880, which amended our "denied-boarding compensation" rule so as to apply to foreign air carriers.

By ER-890, issued contemporaneously herewith, we are extending the effective date of ER-880 from December 28, 1974, until March 1, 1975. For the reasons stated therein, we are granting the same extension for the effective date of the related amendment to § 399.83, as made by PS-58.

Accordingly, the effective date of PS-58 is hereby extended to March 1, 1975.

(Sec. 204(a), Federal Aviation Act, as amended, 72 Stat. 743 (49 U.S.C. 1324))

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 376—SPECIAL COMMODITY POLICIES AND PROVISIONS

Modification of Fertilizer Monitoring Reports

The FEDERAL REGISTER of August 27, 1974 announced that beginning with the month of September 1974, Form DIB-661P, "Report by Fertilizer Exporter," would be required to be submitted on a monthly basis, rather than semi-monthly as previously. The present format of Form DIB-661P provides information on unfilled contracts for the export of fertilizer through the fourth quarter of 1974. Due to the continuing shortage of

fertilizer and the resultant need for statistics on existing export contracts through the 1975 crop year, fertilizer exporters are hereby required to report monthly all existing export contracts through the first half of 1975 on Form DIB–661P. In order to make the continuation of reporting as simple as possible, rather than introduce a new monthly form, Form DIB–661P will continue in use and exporters are requested to revise items 1, 2, and 5 to read "• • • for shipment through June 1975" instead of "• • • for shipment through 1974" and to provide information for this period. In addition, the column headings under "Unfilled Export Contracts" should be revised to read: "1st Quarter 1975" and "2nd Quarter 1975" with information provided accordingly and remaining columns left blank.

Accordingly, § 376.5(b) of the Export Administration Regulations is revised to read as follows:

§ 376.5 Monitoring of fertilizers.

• • • • • •

(b) *Monthly reports and deadlines.* The reporting period is monthly, and information is to be compiled for the period ending as of the close of business on the last business day of each calendar month. If the exporter has Forms DIB–661P that indicate the need for a semi-monthly report, he may alter the heading by removing the prefix "semi-" from the word "semi-monthly." In addition, Form DIB–661P should be altered by revising items 1, 2, and 5 to read "• • • for shipment through June 1975" instead of "• • • for shipment through 1974," and by revising the first two column headings under "Unfilled Export Contracts" to read: "1st Quarter 1975" and "2nd Quarter 1975"—the other columns remaining unused. Information supplied in accordance with these revised instructions will provide statistics as to future export contracts through the 1975 crop year. Reports must be physically received in the Office of Export Administration by the close of business on the eighth working day after the end of each calendar month. If an accounting system is used that is incompatible with the reporting periods and deadlines specified, the specific details should be reported promptly to the Office of Export Administration for a determination as to whether an exception from these requirements can be granted. If an eight day deadline has been satisfied through the use of a Telex or TWX submission, a confirmation form must be submitted to the Office of Export Administration within 24 hours (by mail as evidenced by a U.S. Postal Service postmark, or by actual delivery).

• • • • • •

Effective date of action: December 18, 1974.

RAUER H. MEYER,
Director, Office of Export Administration.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

[FD&C Red No. 40]

PART 8—COLOR ADDITIVES

Subpart G—Listing of Color Additives for Cosmetic Use Subject to Certification

The Commissioner of Food and Drugs, having evaluated data in a color additive petition (CAP 4C0111) filed by Allied Chemical Corp. Specialty Chemicals Division, c/o CFR Services, Reston, VA 22070, concludes that FD&C Red No. 40 and its lakes are safe and suitable for use in coloring cosmetics generally within the limitations prescribed by this order. It is further concluded that certification is necessary for the protection of the public health.

The provisions set forth in this order are for general use of the color in cosmetics which would include its currently regulated use in the coloring of dentifrices which are cosmetics. Accordingly, the specific use in coloring dentifrices is deleted from the regulation.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b), (c), and (d), 74 Stat. 399–403; 21 U.S.C. 376 (b), (c), and (d)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 8 is amended in § 8.7201 by revising paragraphs (a) and (b) to read as follows:

§ 8.7201 FD&C Red No. 40.

(a) *Identity and specifications.* (1) The color additive FD&C Red No. 40 shall conform in identity and specifications to the requirements of § 8.244(a) (1) and (b).

(2) The listing of this color additive includes lakes prepared as described in §§ 9.100 and 9.280 of this chapter, except that the color additive used is FD&C Red No. 40 and the resultant lakes meet the specification and labeling requirements prescribed by § 9.100 or § 9.280 of this chapter.

(b) *Uses and restrictions.* FD&C Red No. 40 may be safely used in coloring cosmetics generally subject to the following restrictions:

(1) The color additive may be used in amounts consistent with good manufacturing practice.

(2) The color additive shall not be exposed to oxidizing or reducing agents which may affect the integrity of the color or any other conditions which may affect the integrity of the color.

• • • • • •

Any person who will be adversely affected by the foregoing order may at any time on or before January 22, 1975 file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective February 21, 1975, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Sec. 706(b), (c), (d), 74 Stat. 399–403; 21 U.S.C. 376(b), (c), (d))

Dated: December 13, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Tennessee Plan; Level of Federal Enforcement

1. *Background.* Part 1954 of Title 29, Code of Federal Regulations, sets out procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for the evaluation and monitoring of State plans which have been approved under section 18(c) of the Act and 29 CFR Part 1902. Section 1954.3 of this chapter provides guidelines and procedures for the exercise of discretionary Federal enforcement authority under section 18(e) of the Act with regard to Federal standards in issues covered under an approved State plan. In accordance with § 1954.3(b) of this chapter, Federal enforcement authority will not be exercised as to occupational safety and health issues covered under a State plan where a State is operational. A State is determined to be operational under § 1954.3(b) of this chapter when it has provided for the following requirements: Enacted enabling legislation, approved State standards, a sufficient number of qualified enforcement personnel and provisions for the review of enforcement actions. In determining whether and to what extent a State plan meets the operational guidelines, the results of evaluations conducted under 29 CFR Part 1954 are taken into consideration. Once this determination has been made, under § 1954.3(f) of this chapter, a notice of the determination of the operational status of a State plan as described in an agreement setting forth the Federal-State responsibilities is to be published in the FEDERAL REGISTER.

2. *Notice of Tennessee operational agreement.* (a) In accordance with the provisions of § 1954.3 of this chapter, notice is hereby given that it has been determined that Tennessee has met the following conditions for operational status:

(1) Enactment of the Tennessee Occupational Safety and Health Act of 1972 (hereinafter referred to as TOSHA) (Title 50, chapter 5, TCA) which became effective on July 1, 1972; and was amended by chapter 513 Public Acts 1974 and House Bill 1407 which became effective July 1, 1974, in conformity with the requirements of § 1952.223(b) of this chapter;

(2) Promulgation under Tennessee Code Annotated, section 50–507 and 50–515 of the Tennessee Occupational Safety and Health Act of 1972, of general industry and construction standards by the Commissioner of Labor on July 2, 1973, January 9, 1974, and May 31, 1974, and of occupational health standards by the Commissioner of Health on July 18, 1973, May 2, 1974, and August 1, 1974. The maritime standards of 29 CFR 1910.13 through 1910.16 are excluded as Tennessee has not assumed jurisdiction over maritime or longshoring activities covered by those standards. The general industry and construction standards were found in the professional judgment of the Assistant Regional Director to be identical to the Federal standards in 29 CFR Part 1910 and 29 CFR Part 1926, and to provide overall protection equal to the comparable Federal standards in such issues;

(3) A sufficient number of qualified safety and health personnel employed under an approved merit system: namely nineteen (19) safety inspectors and nineteen (19) health inspectors as of September 1, 1974;

(4) Operation since May 5, 1974, of a review and appeals system before the Tennessee Occupational Safety and Health Review Commission providing the mechanism for employers and employees to contest enforcement actions and/or abatement dates. The appeals are processed in accordance with rules of procedure promulgated by the Commission and effective on May 5, 1974, Tennessee Plan Change Supplement I, p. V(c)(3).

(5) State enforcement since July 2, 1973, of the State standards described in (2) above, monitored under 29 CFR Part

1954, including two semi-annual evaluations, covering the period from July 1, 1973, to June 30, 1974.

(b) In addition, the State has provided under its plan for:

(1) Notification to employers and employees since October 1, 1974, of rights and responsibilities under TOSHA by requiring the display of a State poster in workplaces covered by the plan;

(2) Occupational accident and illness recordkeeping and reporting by employers covered under the Plan (TCA 50–552);

(3) Responding to complaints filed with the Tennessee Department of Labor or the Tennessee Department of Health for violations of the prohibition against discrimination by employers against employees for exercising their rights under TOSHA (TCA 50–542);

(4) Assurance of the rights of employers and employees and their representatives consistent with the provisions of the Federal Act and its implementing regulations.

(5) Coverage of State and local Government employees in a manner designed to be ultimately as effective as coverage provided for private employees.

Pursuant to this finding, an agreement effective November 11, 1974, and incorporated as part of the Tennessee plan has been entered into between Eugene Fowinkle, Commissioner of the Tennessee Department of Public Health, Ben O. Gibbs, Commissioner of the Tennessee Department of Labor, and Donald E. MacKenzie, Assistant Regional Director for Occupational Safety and Health of the U.S. Department of Labor providing that Federal enforcement activity under section 18(e) of the Act will not be initiated with regard to Federal occupational safety and health standards in issues covered under 29 CFR Part 1910 and 29 CFR Part 1926 wherever Tennessee occupational safety and health standards are in effect and operational.

Under the agreement, Federal responsibility under the Act will continue to be exercised, among other things, with regard to complaints about violations of the discrimination provisions of section 11(c) of the Act (29 U.S.C. 660(c)); enforcement of standards promulgated under the Act subsequent to the agreement where necessary to protect employees, as in the case of standards promulgated under section 6(c) of the Act (29 U.S.C. 665(c)), until such time as the State shall have adopted equivalent standards in accordance with Subpart C of 29 CFR Part 1953; enforcement of Federal standards in the maritime and longshoring issues covered by 29 CFR 1910.13 through 1910.16 which issues have been specifically excluded from coverage under the plan; and investigations and inspections for the purpose of evaluating the State plan under sections 18 (e) and (f) of the Act (29 U.S.C. 667 (e) and (f)).

The agreement is subject to revision or termination by the Assistant Secretary of Labor for Occupational Safety and Health upon substantial failure by the State to comply with any of its provisions, or when the results of evaluation under 29 CFR Part 1954 reveal that State operations covered by the agreement fail in a substantial manner to be at least as effective as the Federal program.

In accordance with this agreement and effective as of November 11, 1974, Subpart P of 29 CFR Part 1952 is hereby amended as set forth below.

Section 1952.222 is amended to read as follows:

§ 1952.222 Level of Federal enforcement.

Pursuant to § 1902.20(b)(1)(iii) and § 1954.3 of this chapter under which an agreement has been entered into with Tennessee, effective November 11, 1974, and based on a determination that Tennessee is operational in issues covered by the Tennessee occupational safety and health plan, discretionary Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(e)) will not be initiated with regard to Federal occupational safety and health standards in issues covered under Part 1910 and Part 1926 of this chapter. The U.S. Department of Labor will continue to exercise authority, among other things, with regard to: Complaints filed with the U.S. Department of Labor about violations of the discrimination provisions of section 11(c) of the Act (29 U.S.C. 660(c)); Federal standards promulgated subsequent to the agreement where necessary to protect employees, as in the case of temporary emergency standards promulgated under section 6(c) of the Act (29 U.S.C. 665(c)), in the issues covered under the plan and the agreement until such time as Tennessee shall have adopted equivalent standards in accordance with Subpart C of Part 1953 of this chapter; Standards in §§ 1910.13 through 1910.16 of this chapter which issues have been specifically excluded from coverage under the Tennessee plan; and investigations and inspections for the purpose of the evaluation of the Tennessee plan under section 18 (e) and (f) of the Act (29 U.S.C. 667(e) and (f)). The Assistant Regional Director for Occupational Safety and Health will make a prompt recommendation for resumption of exercise of Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(e)) whenever, and to the degree, necessary to assure occupational safety and health protection to employees in Tennessee.

(Secs. 6(g)(2), 18, 84 Stat. 1600, 1608 (29 U.S.C. 257(g)(2), 667)).

Signed at Washington, D.C., 16th day of December 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-29601 Filed 12-20-74;8:45 am]

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Vermont State Plan; Completion of Developmental Steps

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On October 16, 1973, notice was published in the FEDERAL REGISTER (38 FR 28658) of the approval of the Vermont Plan and of the adoption of Subpart U of Part 1952 containing the decision and describing the plan. On January 16, 1974, and on May 23, 1974, the State of Vermont submitted supplements to the plan involving developmental changes, and State initiated changes.

The supplements include legislation captioned S. 196 submitted to the State Legislature in accordance with the requirement of 29 CFR 1952.273(a) of the State's developmental schedule, enacted, and approved by the Governor on April 3, 1974, and administrative regulations, issued under section 230 of the Vermont Occupational Safety and Health Act, effective January 1974, governing the operation of the Vermont Occupational Safety and Health Review Board, in accordance with the requirement of 29 CFR 1952.273(c) of the State developmental schedule. The legislation provides for the following:

(a) Deletion of the provision permitting the granting of variances for premises other than a work place. (section 205(b)).

(b) Giving the Commissioner of Labor and Industry, pursuant to his authority to make inspections and investigations, the necessary legal authority to get a court order compelling an individual to testify in cases where such individual has refused to do so. (section 206(b)).

(c) Mandatory provision for employee participation during the inspection process. (section 206(e)).

(d) Provision for the right of an employee to request an inspection or register a complaint, coupled with the right of such employee to remain anonymous, and to receive written notice of determination that no violation exists. (section 206(f)).

(e) Provision for the right of employees or their representatives to notify the Commissioner in writing, before or during an inspection of any violation of the Act and have an informal review of any refusal to cite, with a written statement of the Commissioner's final disposition of the case. (section 206(g)).

(f) Provision for the right of employees to be informed of imminent danger situations. (section 208(b)).

(g) Deletion of the section dealing with penalties and employee sanctions and replacement with new penalty sections which are substantively identical to the penalty provisions of the Federal Act. (section 210).

(h) Clarification of the section on standards for products distributed or used in interstate commerce. (section 222(a)).

(i) Provision for both employers and employees to have twenty (20) days to

appeal a citation to the review board. (section 226(e)).

(j) Elimination of the de novo review procedure and substitution of a new judicial review procedure patterned after the Federal one. (section 227).

(k) Elimination of the requirement that at least one member of the occupational safety and health review board be qualified for membership in the American Society of Safety Engineers, and enumeration of the duties of the hearing judges employed by the board. (Section 230(a) and (b).)

(l) Authorization of the commissioner to set standards which assure that no employee will suffer material impairment of health or functional capacity even if such employee has regular exposure to the hazard dealt with by such standard for the period of his working life. (Section 224(e).)

(m) Provision of the right of employees to be informed of their protections and obligations under the Act and the right of employees to have access to information on their exposure to toxic materials or harmful physical agents and to receive prompt information when he has been or is being exposed to such materials at levels in excess of those prescribed by applicable health and safety standards. (Sections 228(c)(1) and (2).)

(n) Provision for handling employee discrimination complaints under the Act with the Commissioner of Labor and Industry Investigating complaints of discrimination and bringing appropriate court action. (Section 231(a), (b) and (c).)

(o) Repeal of 21 V.S.A. Section 1621 (f) which made it an unfair labor practice to discriminate against an employee because he has filed a complaint or instituted a proceeding under the Vermont Act.

The administrative regulations governing the operation of the Review Board are substantively identical to Part 2200 of this chapter.

2. *Location of the plan and its supplements for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations; Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room 850, 1726 M Street NW., Washington, D.C. 20210; Regional Administrator, Occupational Safety and Health Administration, 18 Oliver Street, Fifth Floor, Boston, Massachusetts 02110; and Department of Labor and Industry, State Office Building, Montpelier, Vermont 05602.

3. *Public participation.* Under 29 CFR 1953.2(c) the Assistant Secretary may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that good cause exists for not publishing Vermont's enacted legislation and regulations because both the legislation and the regulations substantively meet the assurances given by the State when the plan was approved and incorporate language essentially identical to the Federal Act. Therefore further public comment would be unnecessary.

4. *Decision.* Since the legislation and regulations, as passed, are in substantive compliance with the assurances given by the State when the plan was approved, and incorporate language identical to the Federal Act in all essential areas, it is determined that the legislation and regulations, incorporated as part of the approved plan, should be approved as completion of developmental steps in the Vermont plan.

Accordingly, Subpart U of 29 CFR Part 1952 is hereby amended, effective immediately, as set forth below.

A new § 1952.274 is added to Subpart U of Part 1952 to read as follows:

§ 1952.274 Completed developmental steps.

(a) In accordance with § 1952.273(a), amendments to the Vermont Occupational Safety and Health Act were passed by the legislature and signed by the Governor on April 3, 1974.

(b) In accordance with § 1952.273(c), rules governing the operation of the Occupational Safety and Health Review Board have been adopted, under section 230 of the Vermont Act, effective January, 1974.

(Secs. 8(g), 18, Pub. L. 91-596, 84 Stat. 1600, 1608, (29 U.S.C. 657(g), 667))

Signed at Washington, D.C., this 16th day of December 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-29800 Filed 12-20-74;8:45 am]

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Hawaii Plan Supplement

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) for review of changes and progress in the development and implementation of State plans which have been approved under section 18(c) of the Act and Part 1902 of this title. On January 4, 1974, a notice was published in the FEDERAL REGISTER of the approval of the Hawaii plan and of the adoption of Subpart Y of Part 1952 describing the plan. On October 22, 1974, the State of Hawaii submitted a supplement involving a developmental change (See Subpart B of 29 CFR Part 1953). This supplement consists of amendments, H.B. 2193, to the State's enabling legislation, H.R.S. section 396-1 et seq., which were enacted by the Hawaii Legislature and became effective on June 4, 1974.

2. *Issues.* The decision approving the Hawaii State plan, including its enabling legislation, incorporated several assurances from the State on amendments to the legislation to meet the requirements of the Act and 29 CFR Part 1902. These amendments provide for the following:

(a) Adequate protections for trade secrets;

(b) Posting of citations or orders at or near the place where a violation occurred;

(c) Removal of the provision providing for arrest powers;

(d) Mandatory relief under section 8(e)(4) of the Hawaii Occupational Safety and Health Act where there is a finding of discrimination for exercising rights provided for under the Act; and

(e) Sanctions which are in conformity with the Federal sanctions.

In addition, our review of the enabling legislation has revealed a potentially critical situation which must be resolved by the State. The Hawaii Administrative Procedure Act, H.R.S. 91-1 et seq., is applicable to review proceedings before the Appeals Board. It has become apparent that the designee, the Department of Labor and Industrial Relations, may not have the right to appeal an adverse decision of the Appeals Board to the courts. Access to the courts is provided for any person aggrieved by an order of an administrative agency. However, the definition of "person" under the Hawaii A.P.A. seems to specifically exclude a state agency. H.R.S. 91-1. If experience under plan operations indicates such a defect, the State may be required to amend its law to provide for such an agency right to appeal. (See Nevada Decision, 39 FR 1008).

3. *Location of supplements for inspection and copying.* A copy of this supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Room 850, 1726 M Street, NW., Washington, D.C. 20210; Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 9470, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94102; and the Department of Labor and Industrial Relations, Room 308, 825 Milani Street, Honolulu, Hawaii, 96813.

4. *Public participation.* Under § 1953.2 (c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that the amendments to the Hawaii enabling legislation are stated as they were in the plan as it was submitted and approved and do not constitute any change from the plan as approved. Accordingly, it is believed that further public comment is unnecessary.

5. *Decision.* After consideration, the Hawaii Plan Supplement outlined above

is approved under Part 1953. However, this decision is not to be interpreted as relieving Hawaii from seeking further legislative amendments if, during the continuing evaluation of the plan by the Assistant Secretary, it is found that such amendments may be necessary to render the Hawaii plan operations at least as effective as the Federal program. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. Accordingly Subpart Y of 29 CFR Part 1952 is amended by adding a new section, § 1952.314.

§ 1952.314 Completed developmental steps.

In accordance with § 1952.313(1), specific Legislative amendments were enacted by the State Legislature and signed by the Acting Governor on June 7, 1974.

(Secs. 8(g), Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 667(g) 667))

Signed at Washington, D.C., this 13th day of December 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-29802 Filed 12-20-74;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 4—DEPARTMENT OF AGRICULTURE

PART 4-50—DISPUTES AND APPEALS

Procurement; Miscellaneous Amendments

These amendments involve matters relating to agency management and to contracts and include rules interpreting and implementing existing regulations of other Federal agencies which are not subject to the notice and public procedure requirements for rule making under 5 U.S.C. 553. It is in the public interest that these provisions be made effective immediately. Accordingly, in accordance with the Secretary's Statement of Policy (36 FR 13804) it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest.

Subpart 4-50.2—Contract Appeals

1. Section 4-50.203 is revised to read as follows:

§ 4-50.203 Receipt and transmittal.

Upon receipt of the appeal, the officer receiving it shall certify the date of receipt, and such date shall be considered as the date of filing with the Board of Contract Appeals. The appeal shall be forwarded within 10 days after receipt through agency channels to the Board of Contract Appeals in care of the Hearing Clerk, Department of Agriculture, Washington, D.C. 20250.

A copy of the letter transmitting the appeal to the Board shall be furnished to the Office of Operations.

2. Section 4-50.204 is revised to read as follows:

§ 4-50.204 Board of Contract Appeals.

The organization, functions, and rules of procedure of the Board of Contract Appeals, Department of Agriculture, are set forth in Title 7, Code of Federal Regulations, Part 24. (See § 4-52.506.)

Effective date: December 23, 1975.

(5 USC 301, 40 USC 486(c))

Done at Washington, D.C., this 13th day of December 1974.

GEORGE C. KNAPP,
Acting Director,
Office of Operations.

Title 45—Public Welfare

CHAPTER XII—ACTION

PART 1217—VISTA VOLUNTEER LEADER

Adoption of Proposed Regulations

On September 23, 1974, there was published in the FEDERAL REGISTER (39 FR 34063) a notice of proposed rulemaking to Chapter XII, Title 45. The proposed regulations provide for the designation of volunteer leaders for the VISTA volunteer program. Such leaders are designated after at least one year of service on the basis of experience and special skills and a demonstrated leadership among volunteers.

Interested persons were given 30 days in which to submit comments.

No written comments have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These regulations are effective December 23, 1974.

Approved: December 18, 1974.

JOHN L. GANLEY,
Deputy Director, ACTION.

Sec.
1217.1 Introduction.
1217.2 Establishment of position.
1217.3 Qualifications.
1217.4 Selection procedure.
1217.5 Allowances and benefits.
1217.6 Roles of volunteers.

AUTHORITY: (Secs. 104(b) and 420 of Pub. L. 93-113, 87 Stat. 398 and 414.)

§ 1217.1 Introduction.

Section 105(a)(1), Part A, of the Domestic Volunteer Service Act of 1973, Pub. L. 93-113, 87 Stat. 398, authorizes the Director of ACTION to pay VISTA volunteers a stipend not to exceed $50 per month and a stipend not to exceed $75 a month in the case of VISTA volunteers who have served for at least a year and have been designated volunteer leaders. Section 105(a)(1) further provides that the selection of volunteer leaders shall be pursuant to standards, established in regulations which the Director shall prescribe, which shall be based upon the experience and special skills and the demonstrated leadership of such persons among volunteers.

§ 1217.2 Establishment of position.

A request for the proposed establishment of VISTA volunteer leader position for a specific project shall be submitted by a sponsor in writing in advance to the appropriate ACTION Regional Director. Specific tasks, responsibilities, qualifications, and the proposed supervisory structure are to be detailed in the request.

§ 1217.3 Qualifications.

A volunteer recommended for a VISTA volunteer leader position must have:

(a) completed a one-year term as a VISTA volunteer.

(b) demonstrated ability to work constructively and communicate with volunteers, supervisor/sponsor, and the target population.

(c) demonstrated ability to work well with and gain acceptance of other volunteers.

(d) demonstrated ability to provide self-motivation and self-direction, and maturity to accept supervision and direction from supervisor/sponsor.

(e) sensitivity to the needs and attitudes of others, and exhibit a sincere commitment to the mission of VISTA.

§ 1217.4 Selection procedure.

(a) *Nomination.* Candidates may be nominated in writing to the Regional Director by the Program Officer or the State Program Director in whose area the volunteer serves. The nomination shall include a copy of the completed ACTION Form V-95a, for the Regional Director's review.

(b) *Selection.* VISTA volunteer leaders will be selected by the Regional Director (or his designee). The criteria for selection shall include:

(1) The recommendation of the volunteer by the State Program Director or Program Officer.

(2) An overall rating by the supervisor/sponsor of above average on the ACTION Form V-95a.

(3) A description of specific tasks, responsibilities, qualifications, and the proposed supervisory structure, which justifies the establishment of the VISTA volunteer leader position. A selection decision is final.

(c) *Reenrollment.* VISTA volunteer leaders may be reenrolled in accordance with the VISTA reenrollment and extension policy.

§ 1217.5 Allowances and benefits.

The VISTA volunteer leader shall be entitled to all allowances and benefits of a VISTA volunteer at the level which is consistent with the level for all volunteers on his/her project, except that:

(a) The stipend will be increased from $50 to $75 per month effective on the date of selection of the VISTA volunteer leader.

(b) Support for on-the-job transportation may be increased, consistent with ACTION policy.

§ 1217.6 Roles of volunteers.

VISTA volunteer leaders may have the following roles:

(a) Primary contact with VISTA volunteers on personal and administrative matters.

(b) Aid in communication of VISTA policies to VISTA volunteers.

(c) Encourage and develop VISTA volunteer leadership and initiative on projects.

(d) Aid as a resource in development and conduct of training programs.

(e) Assist sponsor in preparation for arrival of VISTA volunteers, and assist new volunteers in settling-in, housing, orientation, etc.

(f) Aid in the development of meaningful relationship and understanding of individual program concepts with VISTA volunteers and supervisor/sponsor.

(g) Advise supervisor on potential problem areas, and needs of VISTA volunteers.

(h) Aid supervisor/sponsor in the redevelopment of projects to best meet goals and objectives addressing the community's problem(s).

[FR Doc.74-29824 Filed 12-20-74;8:45 am]

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER H—TRAINING

[General Order 97, Rev., Amdt. 5]

PART 310—MERCHANT MARINE TRAINING

Subpart C—Admission and Training of Midshipmen at the United States Merchant Marine Academy

PAY INCREASE

Part 310 of Title 46 of the Code of Federal Regulations is hereby amended. This amendment increases the pay that midshipmen of the United States Merchant Marine Academy receive while assigned to merchant vessels for sea year training.

The purpose of this amendment is to implement the Maritime Administration policy that midshipmen shall receive the same rate of pay from their steamship company employers for the sea year training as cadets receive at the Federal academies.

Since the rate of pay received by midshipmen while assigned to subsized merchant vessels is a matter of public contract with the owners of such vessels, this amendment to the Merchant Marine Training regulations is adopted without notice of proposed rule making.

Part 310 of Title 46 of the Code of Federal Regulations is amended by revising the first sentence of paragraph (c) of § 310.58 to read as follows:

§ 310.58 Training on subsidized vessels.

* * * * *

(c) *Pay.* Midshipmen shall receive pay, while attached to merchant vessels, at the rate of $317.10 per month from their steamship company employers.

* * * * *

Effective date. This amendment shall become effective January 1, 1975.

(Sec. 204(b), Merchant Marine Act, 1936, as amended (49 Stat. 1987, 46 U.S.C. 1114), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1961 (75 Stat. 842) as amended by Pub. L. 91-469 (84 Stat. 1036), Department of Commerce Order 10-8 (38 FR 19707, July 23, 1973))

(Catalog of Federal Domestic Assistance Program No. 11-507 U.S. Merchant Marine Academy (Kings Point))

Dated: December 17, 1974.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.74-29852 Filed 12-20-74;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19988]

PART 76—CABLE TELEVISION SERVICES

Program Origination Correction

The appendix to the report and order in Docket 19988, FCC 74-1279, released December 9, 1974 (39 FR 43303, December 12, 1974), is corrected to include amendment of §§ 76.13 (a), (b), and (c), to read as follows:

In § 76.13, paragraphs (a)(4), (b)(4) and (c)(3) are amended, as follows:

§ 76.13 Filing of applications.

* * * * * *

(a) * * *

(4) A statement that explains how the proposed system's franchise and its plans for availability and administration of access channels and other nonbroadcast cable services are consistent with the provisions of §§ 76.31, 76.251, and 76.253;

NOTE: If the proposed system's franchise was issued prior to March 31, 1972, only substantial consistency with the provisions of § 76.31 need be demonstrated in the statement required by subparagraph (4), until the end of the current franchise period, or March 31, 1977, whichever occurs first.

* * * * *

(b) * * *

(4) A statement that explains how the system's plans for availability and administration of access channels and other nonbroadcast cable services are consistent with the provisions of §§ 76.251 and 76.253;

* * * * *

(c) * * *

(3) A statement that explains how the system's plans for availability and administration of access channels and other nonbroadcast cable services are consistent with the provisions of §§ 76.251 and 76.253;

* * * * *

Released: December 12, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-29816 Filed 12-20-74;8:45 am]

[Docket No. 20109; FCC 74-1388]

NEW YORK AND LOS ANGELES URBANIZED AREAS

Reallocation of Land Mobile Channels

Report and order—Proceeding Terminated. In the matter of amendment of Parts 89, 91, and 93 of the rules to reallocate land mobile channels in the 470-512 MHz band in the New York and Los Angeles urbanized areas, Docket No. 20109.

1. On July 23, 1974, the Commission released a notice of proposed rulemaking in the above entitled matter which was published in the FEDERAL REGISTER of July 31, 1974 (39 FR 27702). Comments and reply comments were filed by the organizations listed below.

Comments

American Trucking Association (ATA)
Central Committee on Telecommunications of the American Petroleum Institute (API)
National Association of Business and Educational Radio (NABER)
National Association of Manufacturers (NAM)

Reply Comments

California Mobile Radio Assn. (CMRA)

2. Our proposal to reallocate frequencies in the 470-512 MHz band received support predictably from representatives of services which would benefit from the proposal and opposition from representatives of services which would lose frequencies. API and NAM opposed the reallocation proposal primarily because some of the frequencies now allocated jointly in the Petroleum, Forestry Products, and Manufacturers Radio Services would be reallocated to the Business Radio Service. API and NAM argued, in substance, that although the frequencies set aside in the 470-512 MHz band for these services are not used extensively, they will be required in the future, and the Commission should reserve them for this purpose in recognition of the importance of the activities in which petroleum and manufacturers licensees use radio facilities.

3. While we appreciate APT's and NAM's arguments, we do not believe they are persuasive in the context of this proceeding. As we have previously stated, the frequencies in the 470-512 MHz band were made available in order to accommodate immediate requirements in our most populous urban centers. The fact is that the frequencies allocated in the Petroleum/Forestry Products/Manufacturers pool are not being used while frequencies in the Business Radio Service are being rapidly exhausted and applications continue to be filed in the Business Radio Service at a rapid rate. Reallocation of those frequencies in the Business Radio Service will permit us to accommodate the increasing requirements in that service, as well as to provide for any immediate

needs of petroleum and manufacturers services who would continue to have access to them in the Business Radio Service. Accordingly, we will adopt the reallocation proposal. However, some changes will be made in accordance with the comments and other information that has come to our attention since the proposal was issued.

4. Thus, instead of allocating all of the frequencies in the reserve pool in New York City to the Business Radio Service, we will set aside six of those channel pairs for the Taxicab Radio Service. This is to accommodate recently developed requirements in that service brought about, in part, by changes in the rules governing taxicab operations in New York City. While six pairs of channels may not accommodate all of the immediate taxicab radio requirements in New York City, in view of the magnitude of the total frequency requirements in that industry,[1] they will afford substantial immediate relief. It is apparent, however, that the overall solution will have to be found on frequencies between 806 and 947 MHz recently made available for land mobile purposes in Docket No. 18262. As a further step in accommodating some of the immediate requirements in the taxicab industry under Taxicab Radio Service in that area, we are also amending the Rules to increase channel loading in the 470–512 MHz band from 150 to 200 mobiles per channel pair.

5. In Los Angeles, based on the comments, we have decided to make available for assignment the frequencies in reserve pool A, as well as those proposed in the notice of proposed rulemaking, but for those frequencies (reserve pool A) we will follow the assignment method we have developed for assigning frequencies in the 470–512 MHz band in the Dallas, Houston, and Miami urbanized areas. This assignment scheme will permit Public Safety Radio Service applicants, for example, to apply for the first channel in the reserve pool and when that channel is substantially filled, the next channel may be licensed, and so on. Conversely, the highest channel in reserve pool A will be made available to any user from any of the other service groups. In addition, those frequencies will be assigned only when the applicant shows that the frequencies in his service in this band are loaded to or near capacity. The rules in the attached appendix reflect the allocation and the method for assigning these frequencies.

6. The proposal to permit mobile relay frequencies in the Land Transportation Radio Service received no significant opposition. Therefore, we are amending the rules in Part 93 to permit mobile relay operations in the 470–512 MHz band. In this connection, we note that ATA expresses concern that, with this amendment, the Land Transportation Radio Service applicants might somehow be excluded from the Business Radio Service. This, obviously, was not our intention.

7. We have also modified our original proposal concerning frequency assignments for shared repeater operations, the so-called "community repeaters." We had proposed a certain maximum period of time (such as 18 months) during which we would not re-assign in the same area a frequency pair set aside for a particular community repeater. This was to allow such a facility to develop sufficient capacity to saturate the channel and avoid inherent interference problems. While this proposal was generally accepted, a number of suggestions for changes were made. For example, NABER indicated that the period of 18 months would be too long and urged that a 12 month period be designated instead. CMRA urged that the operator of a community repeater be required to complete construction of the facility within sixty days after the first license for its use was granted, that applications for at least three more users be filed with the Commission for the use of the same facility within six months, and that the channel be at least 50 percent loaded within nine months after the date of the first grant was made. We agree that some of CMRA's suggestions are worth while and we are incorporating them in the rules. However we will require construction of the facility within ninety days and that the frequency assigned to it be loaded to at least 50 percent within a nine month period. We are also adopting NABER's suggestion and will reduce the period during which a frequency will not be reassigned to twelve months. Thus, unless these requirements are substantially met, the frequency pair assigned to a community repeater will be made available for assignment to other systems as well.

8. Our proposal to reduce the maximum permissible power for stations situated on high sites in the Los Angeles area elicited opposition from API and CMRA. CMRA argued:

> • • • the power levels presently allowed under the rules that apply to the 470–512 MHz band are the minimum levels necessary to provide adequate signals, even within the 30 mile mobile operating area. Due to the hills within a 30 mile radius of Mt. Lukens, the most heavily used site serving the Los Angeles area, knife edge diffraction and reflection of signals play an important part in eliminating "dead areas" throughout the geographic vicinity. Any power reduction will only serve to reduce the effectiveness of the 470–512 MHz channels and make them greatly inferior to the lower UHF frequencies.[2]

9. We have considered CMRA's argument, and substantially similar arguments advanced by API, but we do not agree they justify retention of the power levels now permitted for stations on the high sites, such as Mt. Lukens or Sierra Peak. Neither CMRA nor API supplied engineering calculations to support their contention. Clearly, there will always be some locations where a mobile station will be unable to receive its base station, even with presently authorized power levels. This is due to the "shadowing" effect which most often occurs when the mobile unit is behind a high hill or tall building, and only an enormous increase in base station power could overcome many such obstruction losses. We do not believe that land mobile systems can or should be engineered to overcome all obstructions. Rather, systems should be engineered to provide a signal which will be useable in a reasonable percentage of the locations within the licensee's service area. To do otherwise would result in the rapid exhaustion of available land mobile frequencies because of congestion generated by excessive base station power. Nevertheless, we recognize the path losses caused by "shadowing" and we have made reasonable allowances in the power levels we will allow in order to overcome some of the obstruction or "shadowing" losses: Namely, we have built a 20 dB allowance into the formula we have used to calculate maximum permissible power levels at different site elevations and we believe this allowance is reasonable. Clearly, this will not provide coverage in all "shadow" areas, but, as we have just stated, this would require enormous power levels. The power levels now authorized provide a marginal benefit in this respect, but limit, generally, the possibility of re-use of the frequencies. In our view, the benefit of the higher power levels is not sufficient to warrant their continued authorization. Our objective here is to assure reasonable re-use of the frequencies in the Los Angeles area and, to accomplish this objective, curtailment of the power of stations at high elevations is necessary.

10. We want to emphasize that we are dealing here with a situation where many of the land mobile transmitters on frequencies in the 470–512 MHz band are located at high elevations. As we stated in the Notice, most of the mobile relay

---

[1] There are over 10,000 taxicabs in that city, most of which are not equipped with radio because of restrictions formerly placed on taxicab operation. Previously, a cab "on call" was required to stop and pick up any passenger desiring a ride without regard to the cab's original destination. Relaxation of this rule permits New York taxicab operators to use radio much more effectively than heretofore and cabs are being equipped with radio as rapidly as possible.

[2] CMRA also contended that power reduction in stations on high elevations will not achieve the desired result (that is it will not allow increased re-use of the frequencies at 40 mile or longer distances) because, even with reduced power, temperature inversions in the Los Angeles area can generate an increase in UHF signal level up to 30 dB. We are aware of this phenomenon, but we do not believe that this argument supports CMRA's position. Generally, for more than marginal increases, signal enhancement due to temperature inversion is not significant at line of sight distances. Substantial signal enhancements caused by temperature inversions occur at distances where refraction through the troposphere is the dominant mode of communications at UHF frequencies. These distances are generally much greater than the 40–50 miles with which we are concerned here.

stations in this band are situated on just three sites, Sierra Peak, elevation 3,045' above sea level (ASL), Mt. Lukens, elevation 5,040' ASL, and a peak eastward of Mt. Lukens, elevation 2,000' ASL. From these three sites there are virtually line-of-sight paths into much of the Los Angeles metropolitan area. Assuming a useable receiver threshold sensitivity of 0.5 μV/50 ohms, and allowing a 20 dB margin for overcoming shadowing and other location variability losses, the values in the following table will provide sufficient signal levels for coverage within the 30 mile operating radius of the mobile units in the Los Angeles area.

Antenna height (ASL) (feet)	*Power (ERP)*
5,000	25 W.
4,500	30 W.
4,000	40 W.
3,500	50 W.
3,000	70 W.
2,500	100 W.
2,000	155 W.

This table is derived from the formula:

R(dBw) = −113dB −40log(D) −20log(F) +20log(Ht) +20log(Hr) +10log(P) where R(dBw) = −123dBw; D=30 miles; F=500 MHz; Ht= Base Station Antenna height (ASL); Hr=6'; and P=Base Station Power (ERP)

This formula is derived from the information supplied in Report R-6602, released by the Office of the Chief Engineer on September 7, 1966.

11. We believe that the power levels shown above will allow a reasonable quality of service and expanded re-use of frequencies. The reduced power levels shown above will apply to new systems authorized in the 470–512 MHz band in the Los Angeles urbanized area. Existing systems will be required to comply within a period of five years, January 1, 1980.

12. The basic plan adopted by the Commission for the shared use of frequencies in the 470–512 MHz band requires, among other things, that land mobile systems be designed so that the mobile units operate within 30 miles of the associated base station. CMRA urged that this limitation should be eliminated and that mobile units should be permitted to operate within 80 miles of the center of the urbanized area involved. CMRA's request will be denied here. It is not within the scope of the notice in this proceeding and it is contrary to the basic plan designed to avoid interference to television stations and to assure re-use of the frequencies.[3]

[3] CMRA in its comments has stated that some licensees in the 470–512 MHz band use powers in mobile units in excess of the 200 watts ERP maximum permitted by the rules. While CMRA has not provided us with specific information, we are concerned about its allegations and enforcement effort will be directed to this problem. Also, we want to caution licensees that they may jeopardize their licenses if they operate their radio facilities in violation of the rules and the terms of their authorizations.

13. In view of the foregoing, the Commission concludes that the public interest will be served by amending the rules as proposed in Docket 20109.

14. *Accordingly, it is ordered,* Pursuant to the authority contained in Sections 4(i) and 303 of the Communications Act of 1934, as amended, That Parts 89, 91, and 93 of the Commission's Rules are amended effective January 27, 1975 as set forth below. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; (47 U.S.C. 154, 303)).

Adopted: December 10, 1974.

Released: December 19, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 89, 91, and 93 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

PART 89—PUBLIC SAFETY RADIO SERVICES

A. In § 89.123, paragraph (b) is amended by the addition of a new footnote to Figure "A", paragraph (e) is amended by the addition of a new footin the frequency tabulation, and new paragraphs (i) & (j) added to read as follows:

§ 89.123 Frequencies in the band 470–512 MHz.

* * * * * * *

(b) * * *

[2] For stations in the Los Angeles urbanized area with antenna elevations 1,500 or more feet above sea level, the maximum authorized effective radiated power (ERP) shall be in accordance with the following table:

Antenna height (ASL) (feet)	*Power (ERP)*
1,501–2,000	155 W.
2,001–2,500	100 W.
2,501–3,000	70 W.
3,001–3,500	50 W.
3,501–4,000	38 W.
4,001–4,500	31 W.
4,501–5,000	25 W.

Existing stations may continue to use presently authorized powers until January 1, 1980.

Base	*Mobile*
507.1625 to 507.3075	510.1625 to 510.3075

(j) Reserve pool frequencies are available for assignment to applicants in the Public Safety Radio Service in the Los Angeles urbanized area after all available Public Safety frequencies in the 470–512 MHz band have been assigned and are substantially loaded in accordance with the standard set forth in footnote 2, paragraph (c) of this section. Channels shall be assigned starting with the lowest frequency (471.1625 or 507.1625 MHz) and progressing upward from these points a channel at a time. Mobile station frequencies are 3 MHz higher than the corresponding base station frequencies. Normally, each channel shall be substantially filled before the next channel will be assigned.

PART 91—INDUSTRIAL RADIO SERVICES

B. 1. In § 91.58 a new paragraph (d) is added as follows:

§ 91.58 Supplemental information to be submitted with application.

* * * * * * *

(d) Each application for authority to operate on any frequency in the range 470–512 MHz shall be accompanied by a statement indicating whether or not the proposed base station frequency will be used by more than one licensee. When an applicant plans to share the use of such a facility, he must submit the names and call signs of all existing users.

2. In § 91.114, paragraph (b) is amended by the addition of a new footnote to Figure "A", footnote 2 in paragraph (f) is amended, the frequency tabulation under paragraph (h) is amended, and a

[2] For stations in the Los Angeles urbanized area with antenna elevations 1,500 or more feet above sea level, the maximum authorized effective radiated power (ERP) shall be in accordance with the following table:

Antenna Height (ASL) (feet)	*Power (ERP)*
1,501–2,000	155 W.
2,001–2,500	100 W.
2,501–3,000	70 W.
3,001–3,500	50 W.
3,501–4,000	38 W.
4,001–4,500	31 W.
4,501–5,000	25 W.

Existing stations may continue to use presently authorized powers until January 1, 1970.

new paragraph (j) is added to read as follows:

§ 91.114 Frequencies in the band 470–512 MHz.

* * * * *

(f) * * *

2. The channel loading is 90 units. A unit is defined as one vehicular mobile unit or three hand carried transmitter-receivers. Loading standards will be applied in terms of the number of units actually in use or to be placed in use within 8 months following authorization. A licensee will be required to show that an assigned frequency pair is at full capacity before it may be assigned a second or additional frequency. Channel capacity may be reached either by the requirements of a single licensee or by several users sharing a channel. Until a channel is loaded to capacity it will be available for assignment to other users in the same area. A frequency pair may be reassigned at distances 40 miles (20 miles for Channel 15, Chicago; Channel 20, Philadelphia; and Channel 17, Washington) or more from the location of base station authorized on that pair without reference to loading at the point of original installation. Following authorization, the licensee shall notify the Commission either during or at the close of the 8 month period of the number of units in operation. Notwithstanding the foregoing, if the base station facility is to be used by more than a single licensee, the frequency assigned to it will not be reassigned for use by another facility within 40 miles (or 20 miles where applicable) for a period of 12 months: *Provided*, That the facility is constructed within 90 days from the date of the first grant, meets the loading standards to at least 50 per cent within 8 months, and meets all loading standards within 12 months.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Rev. S.O. 1108-A]

PART 1033—CAR SERVICE

Reading Co. et al. Authorized To Operate Over Tracks of Lehigh Valley Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 16th day of December 1974.

Upon further consideration of Revised Service Order No. 1108 (37 FR 28634; 38 FR 5876, 23792; 39 FR 1851, 10591, 20799 and 40499), and good cause appearing therefor:

It is ordered, That: § 1033.1108 *Revised Service Order 1108-A* (Reading Company, Andrew L. Lewis, Jr., and Joseph L. Castle, trustees, authorized to operate over tracks of Lehigh Valley Railroad Company, John F. Nash and Robert C. Haldeman, trustees) be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), 17(2))

It is further ordered, That this order shall become effective at 11:59 p.m., December 18, 1974 and that a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary*.

[FR Doc.74-29658 Filed 12-20-74;8:45 am]

[S.O. 1125, Amdt. 4]

PART 1033—CAR SERVICE

St. Louis-San Francisco Railway Co. Authorized To Operate Over Tracks of the Kansas City Southern Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 16th day of December 1974.

Upon further consideration of Service Order No. 1125 (38 FR 6863, 19126, 33482, and 39 FR 18281), and good cause appearing therefor:

It is ordered, That: § 1033.1125 *Service Order No. 1125 St. Louis-San Francisco Railway Company authorized to operate over tracks of the Kansas City Southern Railway Company* be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

Expiration date. The provisions of this order shall expire at 11:59 p.m., June 1, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1974.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary*.

[FR Doc.74-29659 Filed 12-20-74;8:45 am]

[S.O. 1154, Amdt. 2]

PART 1033—CAR SERVICE

St. Louis-San Francisco Railway Co. Authorized To Operate Over Tracks of the Alabama Great Southern Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 16th day of December 1974.

Upon further consideration of Service Order No. 1154 (38 FR 28292 and 39 FR 12009), and good cause appearing therefor:

It is ordered, That: § 1033.1154 *Service Order No. 1154 St. Louis-San Francisco Railway Company authorized to operate over tracks of the Alabama Great Southern Railroad Company* be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., June 1, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1974.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies secs. 1(10-17), 15(4), 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary*.

[FR Doc.74-29660 Filed 12-20-74;8:45 am]

* Reserve pool frequencies are available for assignment to applicants in the Land Transportation Radio Services in the Los Angeles urbanized area after all available Public Safety frequencies in the 470-512 MHz band have been assigned and are substantially loaded in accordance with the standard set forth in footnote 2, paragraph (c) and (d) of this section. Channels shall be assigned starting with the highest frequency (471.2875 or 508.2875 MHz) and progressing downward from these points a channel at a time. Mobile station frequencies are 3MHz higher than the corresponding base station frequencies. Normally, each channel shall be substantially filled before the next channel will be assigned.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Blackwater National Wildlife Refuge, Maryland

The following special regulations are issued and are effective during the period January 1, 1975 through December 31, 1975.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

MARYLAND

BLACKWATER NATIONAL WILDLIFE REFUGE

Entry by foot or motor vehicle is permitted during daylight hours on designated travel routes for the purposes of nature study, photography, hiking, and sightseeing. Two-wheel motor vehicles (motorcycles, motorbikes, trail bikes, and mini-bikes) are not permitted on the auto drive. Visitors must remain in their vehicles while on the auto drive. Bicycles are permitted on a designated portion of the auto drive.

Pets are permitted on a leash not exceeding 10 feet in length in designated parking areas only.

Fires are prohibited for any purpose in the public use areas.

The refuge, comprising approximately 11,627 acres, is delineated on a map available from the Refuge Manager, Blackwater National Wildlife Refuge, Route 1, Box 121, Cambridge, Maryland 21613, or from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, U.S. Fish and Wildlife Service.

DECEMBER 13, 1974.

[FR Doc.74-29773 Filed 12-20-74;8:45 am]

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Montezuma National Wildlife Refuge, New York

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

NEW YORK

MONTEZUMA NATIONAL WILDLIFE REFUGE

Travel by motor vehicle or on foot is permitted on designated travel routes for the purpose of nature study, photography, and sight-seeing during daylight hours. Pets are permitted if on a leash not over 10 feet in length.

The refuge area, comprising 6,433 acres, is delineated on maps available from the Refuge Manager, Montezuma National Wildlife Refuge, R.D. #1, Box 1411, Seneca Falls, New York 13148 and from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, U.S. Fish and Wildlife Service.

DECEMBER 13, 1974.

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Supawna Meadows National Wildlife Refuge, New Jersey

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

NEW JERSEY

SUPAWANA MEADOWS NATIONAL WILDLIFE REFUGE

Travel by bicycle or on foot is permitted from sunrise to sunset unless prohibited by posting, for the purpose of nature study, photography, hiking, and sight-seeing. Pets are permitted if on a leash not over ten feet in length.

The refuge area, comprising 653 acres, is delineated on maps available at refuge headquarters, Brigantine National Wildlife Refuge, PO. Box 72, Great Creek Road, Oceanville, new Jersey 08231, or from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, U.S. Fish and Wildlife Service.

DECEMBER 13, 1974.

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Tinicum National Environmental Center, Pennsylvania

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

PENNSYLVANIA

TINICUM NATIONAL ENVIRONMENTAL CENTER

Entrance into the refuge is permitted for the purpose of bicycling, hiking, nature study, sightseeing and photography from dawn to dusk. Motorcycles, snowmobiles, all terrain, air cushion or other similar motor vehicles are prohibited on the refuge dikes. Pets are permitted if on a leash not exceeding 10 feet in length. Boats are not permitted in the refuge impoundments.

A map of the refuge is available at the refuge headquarters and from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse Building, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, Fish and Wildlife Service.

DECEMBER 13, 1974.

[FR Doc.74-29772 Filed 12-20-74;8:45 am]

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Trustom Pond National Wildlife Refuge, Rhode Island

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

RHODE ISLAND

TRUSTOM POND NATIONAL WILDLIFE REFUGE

Entry into and travel by bicycle or on foot is permitted from sunrise to sunset on designated routes unless prohibited by posting for the purpose of nature study, biking, photography, and sightseeing. Pets are permitted if on a leash not over 10 feet in length.

The entire refuge beach has no lifeguards. Swimming will be at the visitor's own risk. Year round access across the refuge for surf fishing is permitted.

Small cooking fires are permitted only on the ocean beach. No other fires are permitted at other locations on the refuge. Camping, tents, floating devices and nudity are not permitted on the refuge.

Over-the-sand vehicles, snowmobiles, air cushion, all terrain or other similar vehicles are not permitted on the refuge.

A map of the refuge is available from the Refuge Manager, Ninigret National Wildlife Refuge, Box 307, Charlestown, Rhode Island 02813 or from the Regional

Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations governing recreation on wildlife refuge areas generally, which are set forth in 50 CFR Part 28 and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, U.S. Fish and Wildlife Service.

DECEMBER 13, 1974.

PART 33—SPORT FISHING

Blackwater National Wildlife Refuge, Maryland

The following special regulations are issued and are effective during the period April 15, 1975 through October 31, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MARYLAND

BLACKWATER NATIONAL WILDLIFE REFUGE

Sport fishing and crabbing on the Blackwater National Wildlife Refuge, Route 1, Box 121, Cambridge, Maryland 21613, is permitted only on those areas designated by signs as open to fishing. These open areas, comprising, approximately 2,700 acres, are delineated on a map available at refuge headquarters or from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109. Sport fishing and crabbing shall be in accordance with all applicable State regulations except for the following special conditions.

(1) Season: April 15–October 31—daylight hours only.

(2) Boat launching from refuge lands is not permitted.

(3) All fish and crab lines must be attended. No set tackle may be used.

(4) Use of airboats is prohibited.

The provisions of this special regulation supplement the regulations which govern sport fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through October 31, 1975

RICHARD E. GRIFFITH,
Regional Director, U.S. Fish and Wildlife Service.

DECEMBER 13, 1974.

[FR Doc.74-29768 Filed 12-20-74;8:45 am]

PART 33—SPORT FISHING

Bombay Hook National Wildlife Refuge, Delaware

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

DELAWARE

BOMBAY HOOK NATIONAL WILDLIFE REFUGE

Sport fishing on the Bombay Hook National Wildlife Refuge, Smyrna, Delaware, is permitted in tidal waters. These open areas are delineated on maps available at refuge headquarters and from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse Building, Boston, Massachusetts 02109. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) Fishing from boats only is permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas, generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, U.S. Fish and Wildlife Service.

DECEMBER 13, 1974.

[FR Doc.74-29770 Filed 12-20-74;8:45 am]

PART 33—SPORT FISHING

Iroquois National Wildlife Refuge, New York

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 33.5 Special regulation; sport fishing; for individual wildlife refuge areas.

NEW YORK

IROQUOIS NATIONAL WILDLIFE REFUGE

Sport fishing on the Iroquois National Wildlife Refuge, Basom, New York is permitted on all waters designated by signs as open in accordance with specified dates. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions.

(1) All waters will be closed to fishing from April 1 through July 15 and October 1 through November 30 except those portions of the Feeder Canal and Oak Orchard Creek designated by signs as open.

(2) Boats without motors may be used on Oak Orchard Creek from the Knowlesville Road to a wire two miles westward.

(3) Firearms are not permitted in boats.

(4) Leaving boats, structures, or other equipment overnight on the refuge is not permitted.

All fishing areas are delineated on maps available at refuge headquarters or from the Regional Director, Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas, generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, Fish and Wildlife Service.

DECEMBER 13, 1974.

[FR Doc.74-29707 Filed 12-20-74;8:45 am]

PART 33—SPORT FISHING

Prime Hook National Wildlife Refuge

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

DELAWARE

PRIME HOOK NATIONAL WILDLIFE REFUGE

Sport fishing is permitted in accordance with all applicable State regulations. Boats, with or without motors, are permitted for fishing freshwater streams and ponds. Boats may be launched from designated access points or public roads.

The refuge is delineated on maps available at refuge headquarters or from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, U.S. Fish and Wildlife Service.

DECEMBER 13, 1974.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7334]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Special Rules for Determining Tax Credit for Foreign Income Taxes Paid by Controlled Foreign Corporations

By a notice of proposed rule making appearing in the FEDERAL REGISTER for December 23, 1971 (36 FR 24816), amendments to the Income Tax Regulations (26 CFR Part 1) were proposed in order to provide special rules for determining the tax credit of a domestic corporation for foreign income taxes paid by a controlled foreign corporation. After

consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, certain changes were made, and the proposed amendments of the regulations, subject to the changes indicated below, are adopted by this document.

Sections 1.960–1(c)(3) and 1.960–1(c)(2) have each been changed from the notice of proposed rule making by inserting a cross reference to the principles of paragraphs (b)(3)(iv) and (viii) and (c) of § 1.9541 for determining the effective foreign tax rate and by the addition of a simple example involving the dividends-received deduction.

This document also amends example (2) in § 1.963–3(h), which was amended by paragraph 9 of T.D. 7120, which was published in the FEDERAL REGISTER for June 4, 1971 (36 FR 10851). This amendment was not proposed with the notice of proposed rule making published on December 23, 1971. The penultimate sentence in example (2) provides that the foreign tax credit is determined in accordance with § 1.963–4. This is incorrect since the example does not involve a chain or group of controlled foreign corporations. Accordingly, the sentence has been corrected to refer to section 902 as modified by the regulations under section 963.

The proposed amendments of the regulations are hereby adopted, subject to the changes set forth below, effective for taxable years of foreign corporations beginning after December 31, 1962, and for taxable years of U.S. shareholders within which or with which such taxable years of such corporations end:

PARAGRAPH 1. The amendment of § 1.960–1, as set forth in paragraph 2 of the notice, is changed by revising so much of § 1.960–1 (c) (3) as follows subdivision (ii) thereof to read as set forth below.

PAR. 2. The amendment of § 1.960–2, as set forth in paragraph 3 of the notice, is changed by revising so much of § 1.960–2 (c) (2) as follows subdivision (ii) thereof to read as set forth below.

Par. 3. Section 1.963–3 is amended by revising example (2) in paragraph (h) to read as set forth below.

(Sec. 7805, Internal Revenue Code of 1954 (68A Stat. 917 (26 U.S.C. 7805)))

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: December 16, 1974.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

1. In § 1.959–3 paragraph (e) is amended to read as follows:

§ 1.959–3 Allocation of distributions to earnings and profits of foreign corporations.

* * * * *

(e) *Determination of foreign tax credit.* For purposes of applying section 902 and section 960 in determining the foreign tax credit allowable under section 901 in a case in which distributions are made by a second-tier corporation or a first-tier corporation, as the case may be, from its earnings and profits for a taxable year which are attributable to an amount included in the gross income of a U.S. shareholder under section 951(a) or which are attributable to amounts excluded from the gross income of such foreign corporation under section 959(b) and § 1.959–2 with respect to a U.S. shareholder, the rules of paragraph (b) of this section shall apply except that in applying subparagraph (1) or (2) of such paragraph—

(1) Distributions from the earnings and profits for such taxable year of the second-tier corporation shall be considered first attributable to its earnings and profits attributable to distributions from the earnings and profits of the foreign corporation, if any, next lower in the chain of ownership described in section 958(a), to the extent of such earnings and profits of the second-tier corporation, and then to the other earnings and profits of such second-tier corporation, and

(2) Distributions from the earnings and profits for such taxable year of the first-tier corporation shall be considered first attributable to its earnings and profits attributable to distributions from the earnings and profits of the second-tier corporation, to the extent of such earnings and profits of the first-tier corporation, and then to the other earnings and profits of such first-tier corporation. For purposes of this paragraph, a second-tier corporation is a foreign corporation referred to in section 960(a)(1)(B), and a first-tier corporation is a foreign corporation referred to in section 960(a)(1)(A). The application of this paragraph may be illustrated by the following examples:

Example (1). * * *

(c) During 1964, S Corporation distributes $100 to R Corporation, and R Corporation distributes $100 to A Corporation. Neither corporation has any earnings or profits or deficit in earnings and profits for such year. On December 31, 1964, R Corporation has earnings and profits (computed before distributions to A Corporation made for the year) of $200, consisting of $100 of section 959(c)(1) amounts of R Corporation for 1963 and of $100 of section 959(c)(1) amounts of S Corporation for 1963. For purposes of determining the foreign tax credit under section 960 and the regulations thereunder, the $100 distribution by R Corporation shall be considered attributable to S Corporation's earnings and profits for 1963 described in section 959(c)(1).

Example (2). * * *

(c) During 1965 neither T Corporation nor U Corporation has any earnings and profits or deficit in earnings and profits or investment of earnings in U.S. property, but T Corporation distributes $100 to A Corporation. For purposes of determining the foreign tax credit under section 960 and the regulations thereunder, the $100 distribution of T Corporation shall be considered attributable to T Corporation's earnings and profits for 1964 described in section 959(c)(1).

* * * * *

2. In § 1.960–1 paragraph (c) is amended to read as follows:

§ 1.960–1 Foreign tax credit with respect to taxes paid on earnings and profits of controlled foreign corporations.

* * * * *

(c) *Amount of foreign income taxes deemed paid by domestic corporation in respect of earnings and profits of foreign corporation attributable to amount included in income under section 951*—(1) *In general.* * * *

(iii) In applying subdivision (i) of this subparagraph to a first-tier corporation which for the taxable year has income excluded under section 959(b), subparagraph (3) of this paragraph shall apply for purposes of excluding certain earnings and profits of such corporation and foreign income taxes, if any, attributable to such excluded income.

* * * * *

(3) *Exclusion of earnings and profits and taxes of first-tier corporation having income excluded under section 959(b).* If in the case of a first-tier corporation to which subparagraph (1)(i) of this paragraph is applied—

(i) The earnings and profits of such first-tier corporation for its taxable year consist of (*a*) earnings and profits attributable to dividends received from a second-tier corporation to which, in accordance with paragraph (b) of § 1.960–2, section 902(b) does not apply and (*b*) other earnings and profits, and

(ii) The effective rate of foreign income taxes paid or accrued by such first-tier corporation in respect to the dividends to which its earnings and profits described in subdivision (i)(*a*) of this subparagraph are attributable is higher or lower than the effective rate of foreign income taxes paid or accrued by such first-tier corporation in respect to the income to which its earnings and profits described in subdivision (i)(*b*) of this subparagraph are attributable, then, for purposes of applying subparagraph (1)(i) of this paragraph to the foreign income taxes paid, accrued, or deemed to be paid, by such first-tier corporation on or with respect to its earnings and profits for such taxable year, the earnings and profits of such first-tier corporation for such taxable year shall be considered not to include the earnings and profits described in subdivision (i)(*a*) of this subparagraph and only the foreign income taxes paid, accrued, or deemed to be paid, by such first-tier corporation in respect to the income to which its earnings and profits described in subdivision (i)(*b*) of this subparagraph are attributable shall be taken into account. For purposes of applying this subparagraph, the effective rate of foreign income taxes paid or accrued in respect to income shall be determined consistently with the principles of paragraphs (b)(3)(iv) and (viii) and (c) of

§ 1.964–1. Thus, for example, the effective rate of foreign income taxes paid or accrued in respect to dividends received by such first-tier corporation shall be determined by taking into account any intercorporate dividends received deduction allowed to such corporation for such dividends.

(4) *Illustrations.* • • •

Example (6). Domestic corporation N owns all the one class of stock of controlled foreign corporation A, not a less developed country corporation, which owns all one class of stock of controlled foreign corporation B. All such corporations use the calendar year as the taxable year. For 1965, N Corporation is required under section 951 to include in gross income $175 attributable to the earnings and profits of A Corporation for such year. For 1965, B Corporation has earnings and profits of $225, on which it pays foreign income taxes of $75. In 1965, B Corporation distributes $150, which, under paragraph (b) of § 1.960–2, consists of $100 to which section 902(b) does not apply (from B Corporation's earnings and profits attributable to an amount required under section 951 to be included in N Corporation's gross income with respect to B Corporation) and $50 to which section 902(b)(1) applies (from B Corporation's other earnings and profits). The country under the laws of which A Corporation is incorporated imposes an income tax of 40 percent on all income but exempts from tax dividends received from a subsidiary corporation. A Corporation makes no distribution for 1965. Under paragraph (b) of § 1.960–2, A Corporation is deemed to have paid $25 ($50/$150×$75) of the $75 foreign income taxes paid by B Corporation on its pretax earnings and profits of $225. The foreign income taxes deemed paid by N Corporation for 1965 under section 960(a)(1)(C) with respect to A Corporation are determined as follows upon the basis of the following assumed facts:

Pretax earnings and profits of A corporation:	
Dividends received from B corporation	$150.00
Other income	250.00
Total pretax earnings and profits	400.00
Foreign income taxes:	
On dividends received from B corporation	None
On other income ($250×0.40)	100.00
Total foreign income taxes	100.00
Earnings and profits:	
Attributable to dividends received from B corporation to which sec. 902(b) does not apply	100.00
Attributable to other income:	
Attributable to dividends received from B corporation to which section 902(b)(1) applies	50.00
Attributable to other income ($250—$100 [$250×0.40])	150.00
Subtotal	200.00
Total earnings and profits	300.00
Foreign income taxes deemed paid by N corporation under sec. 960(a)(1)(C) with respect to A corporation:	
Tax paid by A corporation in respect to its income other than dividends received from B corporation to which sec. 902(b) does not apply ($175/$200×$200)	87.50
Tax of B corporation deemed paid by A corporation under sec. 902(b)(1) in respect to such income ($175/$200×$25)	21.88
Total foreign income taxes deemed paid by N corporation under sec. 960(a)(1)(C) with respect to A corporation	109.38

2. In § 1.960–2 paragraphs (c) and (e) are amended to read as follows:

§ 1.960–2 Interrelation of section 902 and section 960 when dividends are paid by second-tier corporation or by first-tier corporation.

• • • • •

(c) *Application of section 902(a) to dividends received by domestic corporation from first-tier corporation.* • • •

(2) *Separate determinations under section 902(a) in case of first-tier corporation having income excluded under section 959(b).* If in the case of a first-tier corporation to which subparagraph (1) of this paragraph is applied—

(i) The earnings and profits of such first-tier corporation for its taxable year consist of (a) earnings and profits attributable to dividends received from a second-tier corporation to which, in accordance with paragraph (b) of this section, section 902(b) does not apply and (b) other earnings and profits, and

(ii) The effective rate of foreign income taxes paid or accrued by such first-tier corporation in respect to the dividends to which its earnings and profits described in subdivision (i)(a) of this subparagraph are attributable is higher or lower than the effective rate of foreign income taxes paid or accrued by such first-tier corporation in respect to the income to which its earnings and profits described in subdivision (i)(b) of this subparagraph are attributable, then, for purposes of applying subparagraph (1) of this paragraph to dividends received by the domestic corporation from the first-tier corporation, section 902(a) shall be applied separately to the portion of the dividends which is attributable to the earnings and profits described in subdivision (i)(a) of this subparagraph and separately to the portion of the dividends which is attributable to the earnings and profits described in subdivision (i)(b) of this subparagraph. For this purpose, in making each such separate determination, only the foreign income taxes paid, accrued, or, in the case of earnings and profits described in subdivision (i)(b) of this subparagraph, deemed to be paid, by such first-tier corporation in respect to the income to which the earnings and profits are attributable in respect of which the separate determination is being made shall be taken into account. For purposes of applying this subparagraph, no part of the foreign income taxes paid, accrued, or deemed to be paid, by such first-tier corporation for such taxable year in respect to the income to which its earnings and profits described in subdivision (i)(b) of this subparagraph are attributable shall be attributed to its earnings and profits described in subdivision (i)(a) of this subparagraph; and no part of the foreign income taxes paid or accrued by such first-tier corporation for such taxable year in respect to the dividends to which its earnings and profits described in subdivision (i)(a) of this subparagraph are attributable shall be attributed to its earnings and profits described in subdivision (i)(b) of this subparagraph. Furthermore, the effective rate of foreign income taxes paid or accrued in respect to income shall be determined consistently with the principles of paragraphs (b)(3) (iv) and (viii) and (c) of § 1.964–1. Thus, for example, the effective rate of foreign income taxes paid or accrued in respect to dividends received by such first-tier corporation shall be determined by taking into account any intercorporate dividends received deduction allowed to such corporation for such dividends.

• • • • •

(e) *Illustrations.* The application of this section may be illustrated by the following examples, in all of which, other than examples (7) and (8), it is assumed that the effective rate of foreign income taxes paid or accrued by the first-tier corporation in respect to dividends received from the second-tier corporation is the same as the effective rate of foreign income taxes paid or accrued by the first-tier corporation in respect to its other income:

• • • • •

Example (7). Domestic corporation N owns all the one class of stock of controlled foreign corporation A, not a less developed country corporation, which owns all the one class of stock of controlled foreign corporation B. All such corporations use the calendar year as the taxable year. For 1965, N Corporation is required under section 951 to include in gross income $100 attributable to the earnings and profits of B Corporation for such year. For 1965, B Corporation distributes $150 consisting of $100 from its earnings and profits attributable to the amount required under section 951 to be included in N Corporation's gross income with respect to B Corporation and $50 from its other earnings and profits. The country under the laws of which A Corporation is incorporated imposes an income tax of 10 percent on all income but exempts from tax dividends received from a subsidiary corporation. For 1965, A Corporation distributes $175, consisting of $100 from its earnings and profits attributable to the amount required under section 951 to be included in N Corporation's gross income with respect to B Corporation, and $75 from its other earnings and profits. The foreign income taxes deemed paid by N Corporation for 1965 under section 960(a)(1)(C) and section 902(a)(1) are determined as follows on the basis of the facts assumed:

B corporation (3d-tier corporation):	
Pretax earnings and profits	$200.00
Foreign income taxes (20%)	40.00
Earnings and profits	160.00
Amount required to be included in N corporation's gross income for 1965 under sec. 951 with respect to B corporation	100.00
Dividends paid by B corporation:	
Dividends to which sec. 902(b) does not apply (from B corporation's earnings and profits in respect of which an amount is required under sec. 951 to be included in N corporation's gross income with respect to B corporation)	100.00
Dividends to which sec. 902(b)(1) applies (from B corporation's other earnings and profits)	50.00
Total dividends paid to A corporation	150.00
Foreign income taxes of B corporation deemed paid by A corporation for 1965 under sec. 902(b)(1) ($50/$100×$40)	12.50
A corporation (1st-tier corporation):	
Pretax earnings and profits:	
Dividends received from B corporation	150.00
Other income	100.00
Total pretax earnings and profits	250.00
Foreign income taxes:	
On dividends received from B corporation	None
On other income ($100×0.10)	10.00
Total foreign income taxes	10.00
Earnings and profits:	
Attributable to dividends received from B corporation to which sec. 902(b) does not apply	100.00
Attributable to other income:	
Attributable to dividends received from B corporation to which sec. 902(b)(1) applies	50.00
Attributable to other income ($100−$10)	90.00
Subtotal	140.00
Total earnings and profits	240.00
Earnings and profits after exclusion of amounts attributable to dividends to which sec. 902(b) does not apply ($240−$100)	140.00
Amount required to be included in N corporation's gross income for 1965 under sec. 951 with respect to A corporation	None
Dividends paid by A corporation:	
Dividends to which sec. 902(a) does not apply (from A corporation's earnings and profits in respect of which an amount is required under sec. 951 to be included in N corporation's gross income with respect to A corporation)	None
Dividends to which sec. 902(a)(1) applies (from A corporation's other earnings and profits)	175.00
Total dividends paid to N corporation	175.00
N corporation (domestic corporation):	
Foreign income taxes deemed paid by N corporation under sec. 960(a)(1)(C) with respect to B corporation ($100/$160×$40)	25.00
Foreign income taxes deemed paid by N corporation under sec. 902(a)(1) with respect to A corporation (allocation of earnings and profits being made under pars. (c)(2) and (d) of this section):	
Tax paid by A corporation in respect to dividends received from B corporation to which sec. 902(b) does not apply ($100/$100×$0)	None
Tax paid by A corporation in respect to its other income ($75/$140×$10)	5.36
Tax of B corporation deemed paid by A corporation in respect to such other income ($75/$140×$12.50)	6.70
Total taxes deemed paid under sec. 902(a)(1)	12.06
Total foreign income taxes deemed paid by N corporation under sec. 901	37.06

Example (8). Domestic corporation N owns all the one class of stock of controlled foreign corporation A, not a less developed country corporation, which owns all the one class of stock of controlled foreign corporation B. All such corporations use the calendar year as the taxable year. For 1965, N Corporation is required under section 951 to include in gross income $150 attributable to the earnings and profits of B Corporation for such year and $47.50 attributable to the earnings and profits of A Corporation for such year. For 1965, B Corporation distributes $200, consisting of $150 from its earnings and profits attributable to the amount required under section 951 to be included in N Corporation's gross income with respect to B Corporation and $50 from its other earnings and profits. The country under the laws of which A Corporation is incorporated imposes an income tax of 5 percent on dividends received from a subsidiary corporation and 20 percent on other income. For 1965, A Corporation distributes $100 from its earnings and profits to N Corporation, such amount being attributable under paragraph (e) of § 1.959-3 to the amount required under section 951 to be included in N Corporation's gross income with respect to B Corporation. The foreign income taxes deemed paid by N Corporation for 1965 under section 960(a)(1)(C) and section 902(a)(1) are determined as follows on the basis of the facts assumed:

B corporation (2d-tier corporation):	
Pretax earnings and profits	[illegible]
Foreign income taxes (20 percent)	50.00
Earnings and profits	[illegible]
Amount required to be included in N corporation's gross income for 1965 under sec. 951 with respect to B corporation	150.00
Dividends paid by B corporation:	
Dividends to which sec. 902(b) does not apply (from B corporation's earnings and profits in respect of which an amount is required under sec. 951 to be included in N corporation's gross income with respect to B corporation)	[illegible]
Dividends to which sec. 902(b)(1) applies (from B corporation's other earnings and profits)	[illegible]
Total dividends paid to A corporation	[illegible]
Foreign income taxes of B corporation deemed paid by A corporation for 1965 under sec. 960(b)(1) ($60 × $200/$50)	[illegible]
A corporation (1st-tier corporation):	
Pretax earnings and profits:	
Dividends received from B corporation	200.00
Other income	100.00
Total pretax earnings and profits	300.00
Foreign income taxes:	
On dividends received from B corporation to which sec. 902(b) does not apply ($150×0.05)	7.50
On other income:	
Dividends received from B corporation which to sec. 902(b)(1) applies ($50×0.05)	2.50
Other income of A corporation ($100×0.20)	20.00
Total	22.50
Total foreign income taxes	30.00
Earnings and profits:	
Attributable to dividends received from B corporation to which sec. 902(b) does not apply ($150—$7.50)	142.50
Attributable to other income:	
Attributable to dividends received from B corporation to which sec. 902(b)(1) applies ($50—$2.50)	47.50
Attributable to other income ($100—$20)	80.00
Total	127.50
Total earnings and profits	270.00
Earnings and profits after exclusion of amounts attributable to dividends to which sec. 902(b) does not apply ($270 less $142.50)	127.50
Amount required to be included in N corporation's gross income for 1965 under sec. 951 with respect to A corporation	47.50
Dividends paid by A corporation:	
Dividends to which sec. 902(a) does not apply (from A corporation's earnings and profits in respect of which an amount is required under sec. 951 to be included in N corporation's gross income with respect to A corporation)	None
Dividends to which sec. 902(a)(1) applies (from A corporation's other earnings and profits)	100.00
Total dividends paid to N corporation	100.00
N Corporation (domestic corporation):	
Foreign income taxes deemed paid by N corporation under sec. 960(a)(1)(C) with respect to—	
B corporation ($150/$200×$50)	37.50
A corporation (allocation of earnings and profits being made under § 1.960-1(b) (3) and par. (d) of this sec.):	
Tax paid by A corporation ($47.50/$127.50×$22.50)	8.38
Tax of B corporation deemed paid by A corporation under sec. 902(b)(1) ($47.50/$127.50×$30.00)	11.18
Total	19.56
Total taxes deemed paid under sec. 960(a)(1)(C)	57.06
Foreign income taxes deemed paid by N corporation under sec. 960(a)(1) with respect to A corporation (allocation of earnings and profits being made under par. (c)(2) and (d) of this sec.) ($142.50/$270.00×$7.50)	3.96
Total foreign income taxes deemed paid by N Corporation under sec. 901	61.02

4. In § 1.963–3 paragraph (h) is amended to read as follows:

§ 1.963–3 Distributions counting toward a minimum distribution.

• • • • • •

(h) *Illustrations.* The application of this section may be illustrated by the following examples:

• • • • • •

Example (2). Domestic corporation M directly owns all of the one class of stock of controlled foreign corporation A. Both corporations use the calendar year as the taxable year, and A Corporation's taxable year and its distribution period for 1963 coincide. For 1963, $50 is included in the gross income of M Corporation under section 951(a)(1)(B) as A Corporation's increase in earnings invested for such year in United States property. For 1964, M Corporation makes a first-tier election with respect to A Corporation. For 1964, A Corporation has earnings and profits of $100, including $10 attributable to an increase in earnings invested for such year in United States property. During 1964, A Corporation distributes earnings and profits of $80 to M Corporation. Without regard to paragraph (e) of this section, $10 of this distribution is attributable under section 959(c)(1) to A Corporation's 1964 earnings and profits required to be included in M Corporation's gross income under section 951(a)(1)(D). Pursuant to paragraph (e) of this section, however, the entire distribution of $80 counts toward a minimum distribution for 1964 and is considered to be from earnings and profits of A Corporation for 1964 described in section 959(c)(3). Thus the entire distribution of $80 is included in M Corporation's gross income as a dividend and the foreign tax credit in respect of such amount is determined in accordance with section 902 as modified by the regulations under section 963. On the other hand, if A Corporation made no distributions for 1964, no part of the $10 of A Corporation's increase in earnings invested in United States property for such year would count toward a minimum distribution for any other year but would be included in the gross income for M Corporation for 1964 under section 951(a)(1)(B), and the foreign tax credit in respect of such amount would be determined in accordance with § 1.960–1.

[TD 7332]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

PART 301—PROCEDURE AND ADMINISTRATION

Imposition of Tax on Nonresident Alien Individuals; Return Requirements; Declarations of Estimated Income Tax

By a notice of proposed rule making appearing in the FEDERAL REGISTER for October 5, 1971 (36 FR 19371), amendments to the Income Tax Regulations (26 CFR Part 1) and the regulations on procedure and administration (26 CFR Part 301) were proposed in order to conform such regulations to the amendments of the Internal Revenue Code of 1954 made by subsections (a), (b), (f), (g), (j), (l), and (m) of section 103 of the Foreign Investors Tax Act of 1966 (80 Stat. 1547, 1550, 1551, 1552, and 1554). The amendments made by such subsections are effective for taxable years beginning after December 31, 1966.

Section 103(a) of the Act amends section 871 of the Code to substantially revise the income tax treatment of nonresident alien individuals. Under the new provisions the income of a nonresident alien individual which is effectively connected with the conduct of a U.S. business is taxed at the regular graduated rates applicable to individuals, and certain income from U.S. sources which is not so connected is taxed at a flat 30-percent rate. U.S. source capital gains of a nonresident alien individual not engaged in business in the United States are taxed at a flat rate of 30 percent, but only if the alien was in the United States for 183 days or more during the taxable year. An election is also provided which allows a nonresident alien individual to treat income from real property as income which is effectively connected with the conduct of a U.S. business. Moreover, a new rule provides for an exclusion from gross income of certain annuities received under qualified stock bonus, pension, profit-sharing, or annuity plans in certain circumstances.

Section 103(b) of the Act adds a new rule in section 872 of the Code that the gross income of a nonresident alien individual includes only that income from U.S. sources which is not effectively connected with the conduct of a U.S. business and all income (whether or not derived from U.S. sources) which is effectively connected with the conduct of a U.S. business. A new section 872(b)(4) excludes from gross income certain bond income of residents of certain Pacific Islands.

Section 103(f) of the Act adds to the Code a new section 877, which provides

in certain cases for a special income tax in the case of an individual who at any time after March 8, 1965, and within the 10-year period preceding the close of the taxable year made a tax-motivated expatriation from the United States.

Section 103(g) of the Act amends 116 of the Code to provide that, in the case of a nonresident alien individual, the $100 dividend exclusion applies as a general rule only in determining the graduated tax and only if the dividends are effectively connected with the conduct of a U.S. business.

Section 103(j) of the Act adds a new section 6015(i) to the Code. Under new section 6015(i) a declaration of estimated tax is required of a nonresident alien individual only if he is subject to withholding of tax on wages, or has certain income which is effectively connected with the conduct of a U.S. business, or is a resident of Puerto Rico for the entire taxable year.

Section 103(l) of the Act makes what is essentially a conforming amendment in 7701(a)(31) of the Code, relating to the definition of a foreign estate or trust.

Section 103(m) of the Act makes a conforming amendment in section 932 of the Code, relating to citizens of possessions of the United States who are not otherwise citizens of the United States.

In addition to conforming the regulations to the changes made by the Foreign Investors Tax Act of 1966 certain other changes are made in the Income Tax Regulations. Thus, new § 1.871–13 provides rules for the taxation of an alien individual for a taxable year in which he becomes a citizen or resident of the United States or of an individual for a taxable year in which he gives up his U.S. citizenship or becomes a nonresident alien. An amendment to § 1.932–1(a)(1) incorporates a rule, taken in principle form I.T. 3788, 1946–1 C.B. 153, that the term "naturalization", as used in such section, means only naturalization in a State, Territory, or the District of Columbia. Section 1.6012–1(b) contains revised return requirements of nonresident alien individuals. One significant change is that with certain exceptions every nonresident alien individual who is engaged in trade or business in the United States is required to make a return of income. Another change consists of return requirements in the case of an individual who becomes a citizen or resident of the United States, or abandons his U.S. citizenship or residence, during the taxable year.

In order to avoid confusion by making such amendments in the Income Tax Regulations as were necessary to conform to the significant changes made by the 1966 Act, the decision was reached to replace the pertinent regulations with completely new regulations applicable only to taxable years beginning after December 31, 1966, and to refer to those sections in the Code of Federal Regulations (revised as of January 1, 1971) where the corresponding rules for taxable years beginning before January 1, 1967, may be found.

After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed on October 8, 1971, the amendments of the regulations as so proposed are hereby adopted, subject to the changes set forth below:

INCOME TAX REGULATIONS

PARAGRAPH 1. The amendment to § 1.1–1, as set forth in paragraph 2 of the notice of proposed rule making, is changed by adding thereto an amendment of so much of paragraph (a)(2) as precedes the table therein and by adding a new paragraph (a)(2)(ii), to read as set forth below.

PAR. 2. Section 1.871–1, as set forth in paragraph 10 of the notice of proposed rule making, is changed by revising paragraph (a) to read as set forth below.

PAR. 3. Section 1.871–7, as set forth in paragraph 12 of the notice of proposed rule making, is changed by revising paragraph (d)(3)(i) to read as set forth below.

PAR. 4. Section 1.871–8, as set forth in paragraph 12 of the notice of proposed rule making, is changed by revising paragraph (b)(1), example (2) in paragraph (c)(2), and paragraph (d) to read as set forth below.

PAR. 5. Section 1.871–10, as set forth in paragraph 12 of the notice of proposed rule making, is changed by revising paragraph (b)(3), and by adding a new subparagraph (3) to paragraph (d), to read as set forth below.

PAR. 6. Section 1.871–11, as set forth in paragraph 12 of the notice of proposed rule making, is changed by revising paragraphs (a), (c), and (e), and example (2)(a) in paragraph (f), to read as set forth below.

PAR. 7. Section 1.871–12, as set forth in paragraph 12 of the notice of proposed rule making, is changed by revising paragraph (c)(2) and example (2) in paragraph (d) to read as set forth below.

PAR. 8. Section 1.871–13, as set forth in paragraph 12 of the notice of proposed rule making, is changed by revising the heading of such section, by revising paragraphs (a), (b), (c), and (d), and by revising example (3) in paragraph (e), to read as set forth below.

PAR. 9. Section 1.872–2, as set forth in paragraph 16 of the notice of proposed rule making, is changed by revising paragraph (e)(2) to read as set forth below.

PAR. 10. Section 1.876–1, as set forth in paragraph 17 of the notice of proposed rule making, is changed by revising paragraph (c) to read as set forth below.

PAR 11. Section 1.878, as set forth in paragraph 18 of the notice of proposed rulemaking, is changed to read as set forth below.

PAR. 12. The amendment of § 1.932–1(a)(1), as set forth in paragraph 21 of the notice of proposed rulemaking, is changed to read as set forth below.

PAR. 13. The amendment of § 1.6012–1, as set forth in paragraph 24 of the notice of proposed rulemaking, is changed by deleting the amendment of paragraph (a)(5) and by revising subparagraphs (1)(i), (2)(ii), (3)(ii), and (5) of paragraph (b) to read as set forth below.

PAR. 14. The amendment of § 1.6012–3, as set forth in paragraph 25 of the notice of proposed rulemaking, is changed by revising paragraph (b)(2)(i)(c) to read as set forth below.

PAR. 15. The amendment of § 1.6015(a), as set forth in paragraph 27 of the notice of proposed rule making, is deleted.

PAR. 16. The amendment of § 1.6015(a)–1, as set forth in paragraph 28 of the notice of proposed rule making, is changed by striking out the deletion of paragraph (c).

PAR. 17. Section 1.6015(i)–1, as set forth in paragraph 31 of the notice of proposed rule making, is changed by revising paragraph (b)(1) to read as set forth below.

PAR. 18. Section 1.703–1 is amended by adding at the end of paragraph (b)(2) the following new subdivision to read as set forth below.

PAR. 19. Section 1.864–4 is amended by revising paragraph (c)(3)(i) to read as set forth below.

PAR. 20. The following new section is added immediately after § 1.875–1 to read as set forth below.

PAR. 21. Section 1.912 is amended to read as set forth below.

PAR. 22. Section 1.6012–2 is amended by revising paragraph (g)(5) to read as set forth below.

REGULATIONS ON PROCEDURE AND ADMINISTRATION

PAR. 23. Section 301.6015 is amended by revising subsection (c) of section 6015, by redesignating subsection (i) of section 6015 as subsection (j), by adding a new subsection (i) to section 6015 immediately after subsection (h), and by revising the historical note, as set forth below.

PAR. 24. Section 301.6015–1 is amended to read as set forth below.

PAR. 25. Section 301.7701, as set forth in paragraph 33 of the notice of proposed rulemaking, is amended by revising paragraph (34)(B) of section 7701(a) and the historical note to read as set forth below.

(Sec. 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: December 16, 1974.

Frederic W. Hickman,
Assistant Secretary of the Treasury.

PARAGRAPH 1. Section 1.1 is amended by redesignating subsection (d) of section 1 (as amended by section 111 of the Revenue Act of 1964) as subsection (e), by adding a new subsection (d) to such section 1, and by revising the first historical note, as follows:

§ 1.1 Statutory provisions; tax imposed.

SECTION 1. *Tax imposed.* * * *

(d) *Nonresident aliens.* In the case of a nonresident alien individual, the tax imposed by subsection (a) shall apply only as provided by section 871 or 877.

(e) *Cross reference.* For definition of taxable income, see section 63.

[Sec. 1 as amended by sec. 111, Rev. Act 1964 (78 Stat. 19); sec. 103(a)(2), Foreign Investors Tax Act 1966 (80 Stat. 1560)]

* * * * *

PAR. 2. Section 1.1–1 is amended by revising paragraphs (a)(1), (b), and (c) to read as follows:

§ 1.1–1 Income tax on individuals.

(a) *General rule.* (1) Section 1 of the Code imposes an income tax on the income of every individual who is a citizen or resident of the United States and, to the extent provided by section 871(b) or 877(b), on the income of a nonresident alien individual. For optional tax in the case of taxpayers with adjusted gross income of less than $10,000 (less than $5,000 for taxable years beginning before January 1, 1970) see section 3. The tax imposed, is upon taxable income (determined by subtracting the allowable deductions from gross income). The tax is determined in accordance with the table contained in section 1. See subparagraph (2) of this paragraph for reference guides to the appropriate table for taxable years beginning on or after January 1, 1964, and before January 1, 1965, taxable years beginning after December 31, 1964, and before January 1, 1971, and taxable years beginning after December 31, 1970. In certain cases credits are allowed against the amount of the tax. See part IV (section 31 and following), subchapter A, chapter 1 of the Code. In general, the tax is payable upon the basis of returns rendered by persons liable therefor (subchapter A (sections 6001 and following), chapter 61 of the Code), or at the source of the income by withholding. For the computation of tax in the case of a joint return of a husband and wife, or a return of a surviving spouse, for taxable years beginning before January 1, 1971, see section 2. The computation of tax in such a case for taxable years beginning after December 31, 1970, is determined in accordance with the table contained in section 1(a) as amended by the Tax Reform Act of 1969. For other rates of tax on individuals, see section 5(a). For the imposition of an additional tax for the calendar years 1968, 1969, and 1970, see section 51(a).

(2)(i) For taxable years beginning on or after January 1, 1964, the tax imposed upon a single individual, a head of a household, a married individual filing a separate return, and estates and trusts is the tax imposed by section 1 determined in accordance with the appropriate table contained in the following subsection of section 1:

* * * * *

(ii) For taxable years beginning after December 31, 1970, the tax imposed by section 1(d), as amended by the Tax Reform Act of 1969, shall apply to the income effectively connected with the conduct of a trade or business in the United States by a married alien individual who is a nonresident of the United States for all or part of the taxable year or by a foreign estate or trust. For such years the tax imposed by section 1(c), as amended by such Act, shall apply to the income effectively connected with the conduct of a trade or business in the United States by an unmarried alien individual (other than a surviving spouse) who is a nonresident of the United States for all or part of the taxable year. See paragraph (b)(2) of § 1.871–8.

* * * * *

(b) *Citizens or residents of the United States liable to tax.* In general, all citizens of the United States, wherever resident, and all resident alien individuals are liable to the income taxes imposed by the Code whether the income is received from sources within or without the United States. Pursuant to section 876, a nonresident alien individual who is a bona fide resident of Puerto Rico during ing the entire taxable year is, except as provided in section 933 with respect to Puerto Rican source income, subject to taxation in the same manner as a resident alien individual. As to tax on nonresident alien individuals, see sections 871 and 877.

(c) *Who is a citizen.* Every person born or naturalized in the United States and subject to its jurisdiction is a citizen. For other rules governing the acquisition of citizenship, see chapters 1 and 2 of title III of the Immigration and Nationality Act (8 U.S.C. 1401–1459). For rules governing loss of citizenship, see sections 349 to 357, inclusive, of such Act (8 U.S.C. 1481–1489), Schneider v. Rusk, (1964) 377 U.S. 163, and Rev. Rul. 70–506, C.B. 1970–2, 1. For rules pertaining to persons who are nationals but not citizens at birth, e.g., a person born in American Samoa, see section 308 of such Act (8 U.S.C. 1408). For special rules applicable to certain expatriates who have lost citizenship with a principal purpose of avoiding certain taxes, see section 877. A foreigner who has filed his declaration of intention of becoming a citizen but who has not yet been admitted to citizenship by a final order of a naturalization court is an alien.

PAR. 3. Section 1.116 is amended by revising section 116(d) and by revising the historical note. These amended provisions read as follows:

§ 1.116 Statutory provisions; partial exclusion of dividends received by individuals.

SEC. 116. *Partial exclusion of dividends received by individuals.* * * *

(d) *Certain nonresident aliens ineligible for exclusion.* In the case of a nonresident alien individual, subsection (a) shall apply only—

(1) In determining the tax imposed for the taxable year pursuant to section 871(b)(1) and only in respect of dividends which are effectively connected with the conduct of a trade or business within the United States, or

(2) In determining the tax imposed for the taxable year pursuant to section 877(b).

[Sec. 116 as amended by sec. 8(a), Life Insurance Company Tax Act 1959 (73 Stat. 139); sec. 10(f), Act of Sept. 14, 1960 (Public Law 86–779, 74 Stat. 1009); secs. 201 (c) and (d)(6)(C), Rev. Act 1964 (78 Stat. 33); sec. 103(g), Foreign Investors Tax Act 1966 (80 Stat. 1553)]

PAR. 4. Section 1.116–1 is amended by revising paragraph (e)(1). This amended provision reads as follows:

§ 1.116–1 Partial exclusion of dividends.

* * * * *

(e) *Taxpayers not entitled to exclusion.* (1) For taxable years beginning after December 31, 1966, the exclusion allowed by section 116(a) and paragraph (a) of this section shall, in the case of a nonresident alien individual, apply only (i) in determining the tax imposed for the taxable year pursuant to section 871(b)(1), and the regulations thereunder, and only in respect of dividends which are effectively connected for the taxable year with the conduct of a trade or business in the United States by such individual, or (ii) in determining the tax imposed for the taxable year pursuant to section 877(b). For taxable years beginning before January 1, 1967, the exclusion is not available to nonresident alien individuals with respect to whom a tax is imposed for the taxable year under section 871(a).

* * * * *

PAR. 5. Section 1.154 is amended by revising section 154(3) and by adding a historical note. These amended and added provisions read as follows:

§ 1.154 Statutory provisions; cross references.

SEC. 154. *Cross references.* * * *

(3) For exemptions of nonresident aliens, see section 873(b)(3).

* * * * *

[Sec. 154 as amended by sec. 103(c)(2), Foreign Investors Tax Act 1966 (80 Stat. 1551)]

PAR. 6. Section 1.337–5 is amended by revising paragraph (d) to read as follows:

§ 1.337–5 Special rules for certain minority shareholders.

* * * * *

(d) *Claim for credit or refund.* Claim for credit or refund of the tax deemed to have been paid by a shareholder pursuant to section 337(d) and paragraph (b) of this section shall be made on the shareholder's income tax return (or in an amended return or claim for credit or refund) for the taxable year in which he receives the first distribution in complete liquidation. In the case of a shareholder which is a partnership, claim shall be made by the partners for credit or refund of their distributive shares of the tax deemed to have been paid by the partnership. In the case of a shareholder which is an electing small business corporation (within the meaning of section 1371(b)), claim shall be made by those persons who are shareholders of such corporation on the last day of the corporation's taxable year in which it received the first distribution in complete liquidation. In the case of a shareholder which is exempt from tax under section 501(a) and to which section 511 does not apply for the taxable year, claim for refund of the tax deemed to have been paid by such shareholder shall be made on Form 843. For other rules applicable to the filing

of claims for credit or refund of an overpayment of tax, see section 6402 and the regulations thereunder. For the limitations applicable to the credit or refund of an overpayment of tax, see section 6511 and the regulations thereunder.

• • • • • •

PAR. 7. Section 1.852–9 is amended by revising paragraph (c)(2)(ii) to read as follows:

§ 1.852–9 Special procedural requirements applicable to designation under section 852(b)(3)(D).

• • • • •

(c) *Shareholders.* • • •

(2) *Credit or refund.* • • •

(ii) *Form to be used.* Claim for refund or credit of the tax deemed to have been paid by a shareholder with respect to an amount of undistributed capital gains shall be made on the shareholder's income tax return for the taxable year in which such amount of undistributed capital gains is includable in gross income. In the case of a shareholder which is a partnership, claim shall be made by the partners on their income tax returns for refund or credit of their distributive shares of the tax deemed to have been paid by the partnership. In the case of a shareholder which is exempt from tax under section 501(a) and to which section 511 does not apply for the taxable year, claim for refund of the tax deemed to have been paid by such shareholder on an amount of undistributed capital gains for such year shall be made on Form 843 and copy B of Form 2439 furnished to such shareholder shall be attached to its claim. For other rules applicable to the filing of claims for credit or refund of an overpayment of tax, see § 301.6402–2 of this chapter (Regulations on Procedure and Administration), relating to claims for credit or refund, and § 301.6402–3 of this chapter, relating to special rules applicable to income tax.

• • • • • •

PAR. 8. Section 1.871 is amended by revising the heading thereof, by revising so much of section 871(a) as precedes paragraph (2) thereof, by revising section 871(b), and by revising the historical note, as follows:

§ 1.871A Statutory provisions; tax on nonresident alien individuals (before amendment by Foreign Investors Tax Act of 1966).

SEC. 871. *Tax on nonresident alien individuals*—(a) *No United States business—30 percent tax*—(1) *Imposition of tax.* Except as otherwise provided in subsection (b) there is hereby imposed for each taxable year, in lieu of the tax imposed by section 1, on the amount received, by every nonresident alien individual not engaged in trade or business within the United States, from sources within the United States, as interest (except interest on deposits with persons carrying on the banking business), dividends, rents, salaries, wages, premiums, annuities, compensations, remunerations, emoluments, or other fixed or determinable annual or periodical gains, profits, and income (including amounts described in section 402(a)(2), section 403(a)(2), section 631 (b) and (c), and section 1235, which are considered to be gains from the sale or exchange of capital assets), a tax of 30 percent of such amount.

• • • • • •

(b) *No United States business—regular tax.* A nonresident alien individual not engaged in trade or business within the United States shall be taxable without regard to subsection (a) if during the taxable year the sum of the aggregate amount received from the sources specified in subsection (a)(1), plus the amount by which gains from sales or exchanges of capital assets exceed losses from such sales or exchanges (determined in accordance with subsection (a)(2)) is more than $19,000 in the case of a taxable year beginning in 1964 or more than $21,200 in the case of a taxable year beginning after 1964, except that—

(1) The gross income shall include only income from the sources specified in subsection (a)(1) plus any gain (to the extent provided in subchapter P, sec. 1201 and following, relating to capital gains and losses) from a sale or exchange of a capital asset if such gain would be taken into account were the tax being determined under subsection (a)(2);

(2) The deductions (other than the deduction for charitable contributions and gifts provided in section 873(c)) shall be allowed only if and to the extent that they are property allocable to the gross income from the sources specified in subsection (a), except that any loss from the sale or exchange of a capital asset shall be allowed (to the extent provided in subchapter P without the benefit of the capital loss carryover provided in section 1212), if such loss would be taken into account were the tax being determined under subsection (a)(2).

If (without regard to this sentence) the amount of the taxes imposed is the base of such an individual under section 1 or under section 1201(b), minus the credit under section 35, is an amount which is less than 30 percent of the sum of—

(A) The aggregate amount received from the sources specified in subsection (a)(1), plus

(B) The amount, determined under subsection (a)(2), by which gains from sales or exchanges of capital assets exceed losses from such sales or exchanges,

then this subsection shall not apply and subsection (a) shall apply. For purposes of this subsection, the term "aggregate amount received from the sources specified in subsection (a)(1)" shall be applied without any exclusion under section 116.

• • • • • •

[Sec. 871 as amended by secs. 40(a) and 41(a), Technical Amendments Act 1958 (72 Stat. 1638, 1639); sec. 2(b), Act of April 22, 1960 (Pub. L. 86–437, 74 Stat. 79); sec. 110(b), Mutual Educational and Cultural Exchange Act 1961 (75 Stat. 535); secs. 113(b) and 201(d)(12), Rev. Act 1964 (78 Stat. 24, 32); as in effect before amendment by sec. 103(a), Foreign Investors Tax Act 1966 (80 Stat. 1547)]

PAR. 9. Immediately before § 1.871–1 the following new section is inserted:

§ 1.871 Statutory provisions; tax on nonresident alien individuals (after amendment by Foreign Investors Tax Act of 1966).

SEC. 871. *Tax on nonresident alien individuals*—(a) *Income not connected with United States business—30 percent tax*—(1) *Income other than capital gains.* There is hereby imposed for each taxable year a tax of 30 percent of the amount received from sources within the United States by a nonresident alien individual as—

(A) Interest, dividends, rents, salaries, wages, premiums, annuities, compensations, remunerations, emoluments, and other fixed or determinable annual or periodical gains, profits, and income,

(B) Gains described in section 402(a)(2), 403(a)(2), or 631 (b) or (c), and gains on transfers described in section 1235 made on or before October 4, 1966,

(C) In the case of bonds or other evidences of indebtedness issued after September 28, 1965, amounts which under section 1232 are considered as gains from the sale or exchange of property which is not a capital asset, and

(D) Gains from the sale or exchange after October 4, 1966, of patents, copyrights, secret processes and formulas, good will, trademarks, trade brands, franchises, and other like property, or of any interest in any such property, to the extent such gains are from payments which are contingent on the productivity, use, or disposition of the property or interest sold or exchanged, or from payments which are treated as being so contingent under subsection (e), but only to the extent the amount so received is not effectively connected with the conduct of a trade or business within the United States.

(2) *Capital gains of aliens present in the United States 183 days or more.* In the case of a nonresident alien individual present in the United States for a period or periods aggregating 183 days or more during the taxable year, there is hereby imposed for such year a tax of 30 percent of the amount by which his gains, derived from sources within the United States, from the sale or exchange at any time during such year of capital assets exceed his losses, allocable to sources within the United States, from the sale or exchange at any time during such year of capital assets. For purposes of this paragraph, gains and losses shall be taken into account only if, and to the extent that, they would be recognized and taken into account if such gains and losses were effectively connected with the conduct of a trade or business within the United States, except that such gains and losses shall be determined without regard to section 1202 (relating to deduction for capital gains) and such losses shall be determined without the benefits of the capital loss carryover provided in section 1212. Any gain or loss which is taken into account in determining the tax under paragraph (1) or subsection (b) shall not be taken into account in determining the tax under this paragraph. For purposes of the 183-day requirement of this paragraph, a nonresident alien individual not engaged in trade or business within the United States who has not established a taxable year for any prior period shall be treated as having a taxable year which is the calendar year.

(b) *Income connected with United States business—graduated rate of tax*—(1) *Imposition of tax.* A nonresident alien individual engaged in trade or business within the United States during the taxable year shall be taxable as provided in section 1 or 1201(b) on his taxable income which is effectively connected with the conduct of a trade or business within the United States.

(2) *Determination of taxable income.* In determining taxable income for purposes of paragraph (1), gross income includes only gross income which is effectively connected with the conduct of a trade or business within the United States.

(c) *Participants in certain exchange or training programs.* For purposes of this section, a nonresident alien individual who (without regard to this subsection) is not engaged in trade or business within the United States and who is temporarily present in the United States as a nonimmigrant under subparagraph (F) or (J) of section

XUM
V 39 N 247 DEC 23 1974
XUM

101(a)(15) of the Immigration and Nationality Act, as amended (8 U.S.C. 1101(a)(15)(F) or (J)), shall be treated as a nonresident alien individual engaged in trade or business within the United States, and any income described in section 1441(b) (1) or (2) which is received by such individual shall, to the extent derived from sources within the United States, be treated as effectively connected with the conduct of a trade or business within the United States.

(d) *Election to treat real property income as income connected with United States business*—(1) *In general.* A nonresident alien individual who during the taxable year derives any income—

(A) From real property held for the production of income and located in the United States, or from any interest in such real property, including (i) gains from the sale or exchange of such real property or an interest therein, (ii) rents or royalties from mines, wells, or other natural deposits, and (iii) gains described in section 631 (b) or (c), and

(B) Which, but for this subsection, would not be treated as income which is effectively connected with the conduct of a trade or business within the United States,

may elect for such taxable year to treat all such income as income which is effectively connected with the conduct of a trade or business within the United States. In such case, such income shall be taxable as provided in subsection (b)(1) whether or not such individual is engaged in trade or business within the United States during the taxable year. An election under this paragraph for any taxable year shall remain in effect for all subsequent taxable years, except that it may be revoked with the consent of the Secretary or his delegate with respect to any taxable year.

(2) *Election after revocation.* If an election has been made under paragraph (1) and such election has been revoked, a new election may not be made under such paragraph for any taxable year before the fifth taxable year which begins after the first taxable year for which such revocation is effective, unless the Secretary or his delegate consents to such new election.

(3) *Form and time of election and revocation.* An election under paragraph (1), and any revocation of such an election, may be made only in such manner and at such time as the Secretary or his delegate may by regulations prescribe.

(e) *Gains from sale or exchange of certain intangible property.* For purposes of subsection (a)(1)(D), and for purposes of sections 881(a)(4), 1441(b), and 1442(a)—

(1) *Payments treated as contingent on use, etc.* If more than 50 percent of the gain for any taxable year from the sale or exchange of any patent, copyright, secret process or formula, good will, trademark, trade brand, franchise, or other like property, or of any interest in any such property, is from payments which are contingent on the productivity, use, or disposition of such property or interest, all of the gain for the taxable year from the sale or exchange of such property or interest shall be treated as being from payments which are contingent on the productivity, use, or disposition of such property or interest.

(2) *Source rule.* In determining whether gains described in subsection (a)(1)(D) and section 881(a)(4) are received from sources within the United States, such gains shall be treated as rentals or royalties for the use of, or privilege of using, property or an interest in property.

(f) *Certain annuities received under qualified plans.* For purposes of this section, gross income does not include any amount received as an annuity under a qualified annuity plan described in section 403(a)(1), or from a qualified trust described in section 401(a) which is exempt from tax under section 501(a), if—

(1) All of the personal services by reason of which such annuity is payable were either (A) personal services performed outside the United States by an individual who, at the time of performance of such personal services, was a nonresident alien, or (B) personal services described in section 864(b)(1) performed within the United States by such individual, and

(2) At the time the first amount is paid as such annuity under such annuity plan, or by such trust, 90 percent or more of the employees for whom contributions or benefits are provided under such annuity plan, or under the plan or plans of which such trust is a part, are citizens or residents of the United States.

(g) *Cross references.* (1) For tax treatment of certain amounts distributed by the United States to nonresident alien individuals, see section 402(a)(4).

(2) For taxation of nonresident alien individuals who are expatriate U.S. citizens, see section 877.

(3) For doubling of tax on citizens of certain foreign countries, see section 891.

(4) For adjustment of tax in case of nationals or residents of certain foreign countries, see section 896.

(5) For withholding of tax at source on nonresident alien individuals, see section 1441.

(6) For the requirement of making a declaration of estimated tax by certain nonresident alien individuals, see section 6015(i).

[Sec. 871 as amended by secs. 40(a) and 41(a), Technical Amendments Act 1958 (72 Stat. 1638, 1639); sec. 2(b), Act of April 22, 1960 (Public Law 86-437, 74 Stat. 79); sec. 110(b), Mutual Educational and Cultural Exchange Act 1961 (75 Stat. 535); secs. 113(b) and 201(d)(12), Rev. Act 1964 (78 Stat. 24, 32); sec. 103(a), Foreign Investors Tax Act 1966 (80 Stat. 1547)]

PAR. 10. Section 1.871-1 is revised to read as follows:

§ 1.871-1 Classification and manner of taxing alien individuals.

(a) *Classes of aliens.* For purposes of the income tax, alien individuals are divided generally into two classes, namely, resident aliens and nonresident aliens. Resident alien individuals are, in general, taxable the same as citizens of the United States; that is, a resident alien is taxable on income derived from all sources, including sources without the United States. See § 1.1-1(b). Nonresident alien individuals are taxable only on certain income from sources within the United States and on the income described in section 864(c)(4) from sources without the United States which is effectively connected for the taxable year with the conduct of a trade or business in the United States.

(b) *Classes of nonresident aliens*—(1) *In general.* For purposes of the income tax, nonresident alien individuals are divided into the following three classes:

(i) Nonresident alien individuals who at no time during the taxable year are engaged in a trade or business in the United States.

(ii) Nonresident alien individuals who at any time during the taxable year are, or are deemed under § 1.871-9 to be, engaged in a trade or business in the United States, and

(iii) Nonresident alien individuals who are bona fide residents of Puerto Rico during the entire taxable year.

An individual described in subdivision (i) or (ii) of this subparagraph is subject to tax pursuant to the provisions of subpart A (section 871 and following), part II, subchapter N, chapter 1 of the Code, and the regulations thereunder. See §§ 1.871-7 and 1.871-8. The provisions of subpart A do not apply to individuals described in subdivision (iii) of this subparagraph, but such individuals, except as provided in section 933 with respect to Puerto Rican source income, are subject to the tax imposed by section 1 or section 1201(b). See § 1.876-1.

(2) *Treaty income.* If the gross income of a nonresident alien individual described in subparagraph (1) (i) or (ii) of this paragraph includes income on which the tax is limited by tax convention, see § 1.871-12.

(3) *Exclusions from gross income.* For rules relating to the exclusion of certain items from the gross income of a nonresident alien individual, including annuities excluded under section 871(f), see §§ 1.872-2 and 1.894-1.

(4) *Expatriation to avoid tax.* For special rules applicable in determining the tax of a nonresident alien individual who has lost U.S. citizenship with a principal purpose of avoiding certain taxes, see section 877.

(5) *Adjustment of tax of certain nonresident aliens.* For the application of pre-1967 income tax provisions to residents of a foreign country which imposes a more burdensome income tax than the United States, and for the adjustment of the income tax of a national or resident of a foreign country which imposes a discriminatory income tax on the income of citizens of the United States or domestic corporations, see section 896.

(6) *Citizens of certain U.S. possessions.* For rules for treating as nonresident alien individuals certain citizens of possessions of the United States who are not otherwise citizens of the United States, see section 932 and § 1.932-1.

(d) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.871-1 and 1.871-7(a) (Rev. as of Jan. 1, 1971).

PAR. 11. Section 1.871-6 is amended to read as follows:

§ 1.871-6 Duty of withholding agent to determine status of alien payee.

(a) *Proof of status required.* If income is paid to an alien individual without withholding the tax under chapter 3 of the Code, except insofar as the regulations thereunder permit exemption from withholding, then the withholding agent must be prepared to justify the failure to withhold.

(b) *Evidence of residence.* A withholding agent may rely upon the evidence of residence afforded by the fact that the alien individual has filed Form 1078 or an equivalent written statement. This statement or form shall be filed in the manner prescribed in § 1.1441-5.

(c) *Cross reference.* For definition of the term "withholding agent," see § 1.1465-1.

(d) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.871-6 (Rev. as of Jan. 1, 1971).

PAR. 12. Section 1.871-7 is deleted and the following new sections are inserted in lieu thereof:

§ 1.871-7 Taxation of nonresident alien individuals not engaged in U.S. business.

(a) *Imposition of tax.* (1) This section applies for purposes of determining the tax of a nonresident alien individual who at no time during the taxable year is engaged in trade or business in the United States. However, see also § 1.871-8 where such individual is a student or trainee deemed to be engaged in trade or business in the United States or where he has an election in effect for the taxable year in respect to real property income. Except as otherwise provided in § 1.871-12, a nonresident alien individual to whom this section applies is not subject to the tax imposed by section 1 or section 1201(b) but, pursuant to the provision of section 871(a), is liable to a flat tax of 30 percent upon the aggregate of the amounts determined under paragraphs (b), (c), and (d) of this section which are received during the taxable year from sources within the United States. Except as specifically provided in such paragraphs, such amounts do not include gains from the sale or exchange of property. To determine the source of such amounts, see sections 861 through 863, and the regulations thereunder.

(2) The tax of 30 percent is imposed by section 871(a) upon an amount only to the extent the amount constitutes gross income. Thus, for example, the amount of an annuity which is subject to such tax shall be determined in accordance with section 72.

(3) Deductions shall not be allowed in determining the amount subject to tax under this section except that losses from sales or exchanges of capital assets shall be allowed to the extent provided in section 871(a)(2) and paragraph (d) of this section.

(4) Except as provided in §§ 1.871-9 and 1.871-10, a nonresident alien individual not engaged in trade or business in the United States during the taxable year has no income, gain, or loss for the taxable year which is effectively connected for the taxable year with the conduct of a trade or business in the United States. See section 864(c)(1)(B) and § 1.864-3.

(5) Gains and losses which, by reason of section 871(d) and § 1.871-10, are treated as gains or losses which are effectively connected for the taxable year with the conduct of a trade or business in the United States by the nonresident alien individual shall not be taken into account in determining the tax under this section. See, for example, paragraph (c)(2) of § 1.871-10.

(6) For special rules applicable in determining the tax of certain nonresident alien individuals, see paragraph (b) of § 1.871-1.

(b) *Fixed or determinable annual or periodical income.* The tax of 30 percent imposed by section 871(a)(1) applies to the gross amount received from sources within the United States as fixed or determinable annual or periodical gains, profits, or income. Specific items of fixed or determinable annual or periodical income are enumerated in section 871(a)(1)(A) as interest, dividends, rents, salaries, wages, premiums, annuities, compensations, remunerations, and emoluments, but other items of fixed or determinable annual or periodical gains, profits, or income are also subject to the tax, as, for instance, royalties, including royalties for the use of patents, copyrights, secret processes and formulas, and other like property. As to the determination of fixed or determinable annual or periodical income, see paragraph (a) of § 1.1441-2. For special rules treating gain on the disposition of section 306 stock as fixed or determinable annual or periodical income for purposes of section 871(a), see section 306(f) and paragraph (h) of § 1.306-3.

(c) *Other income and gains*—(1) *Items subject to tax.* The tax of 30 percent imposed by section 871(a)(1) also applies to the following gains received during the taxable year from sources within the United States:

(i) Gains described in section 402(a)(2), relating to the treatment of total distributions from certain employees' trusts; section 403(a)(2), relating to treatment of certain payments under certain employee annuity plans; and section 631 (b) or (c), relating to treatment of gain on the disposal of timber, coal, or iron ore with a retained economic interest;

(ii) [Reserved]

(iii) Gains on transfers described in section 1235, relating to certain transfers of patent rights, made on or before October 4, 1966; and

(iv) Gains from the sale or exchange after October 4, 1966, of patents, copyrights, secret processes and formulas, good will, trademarks, trade brands, franchises, or other like property, or of any interest in any such property, to the extent the gains are from payments (whether in a lump sum or in installments) which are contingent on the productivity, use or disposition of the property or interest sold or exchanged, or from payments which are treated under section 871(e) and § 1.871-11 as being so contingent.

(2) *Nonapplication of 183-day rule.* The provisions of section 871(a)(2), relating to gains from the sale or exchange of capital assets, and paragraph (d)(2) of this section do not apply to the gains described in this paragraph; as a consequence, the taxpayer receiving gains described in subparagraph (1) of this paragraph during a taxable year is subject to the tax of 30 percent thereon without regard to the 183-day rule contained in such provisions.

(3) *Determination of amount of gain.* The tax of 30 percent imposed upon the gains described in subparagraph (1) of this paragraph applies to the full amount of the gains and is determined (i) without regard to the alternative tax imposed by section 1201(b) upon the excess of the net long-term capital gain over the net short-term capital loss; (ii) without regard to the deduction allowed by section 1202 in respect of capital gains; (iii) without regard to section 1231, relating to property used in the trade or business and involuntary conversions; and (iv), except in the case of gains described in subparagraph (1)(ii) of this paragraph, whether or not the gains are considered to be gains from the sale or exchange of property which is a capital asset.

(d) *Gains from sale or exchange of capital assets*—(1) *Gains subject to tax.* The tax of 30 percent imposed by section 871(a)(2) applies to the excess of gains derived from sources within the United States over losses allocable to sources within the United States, which are derived from the sale or exchange of capital assets, determined in accordance with the provisions of subparagraphs (2) through (4) of this paragraph.

(2) *Presence in the United States 183 days or more.* (i) If the nonresident alien individual has been present in the United States for a period or periods aggregating 183 days or more during the taxable year, he is liable to a tax of 30 percent upon the amount by which his gains, derived from sources within the United States, from sales or exchanges of capital assets effected at any time during the year exceed his losses, allocable to sources within the United States, from sales or exchanges of capital assets effected at any time during that year. Gains and losses from sales or exchanges effected at any time during such taxable year are to be taken into account for this purpose even though the nonresident alien individual is not present in the United States at the time the sales or exchanges are effected. In addition, if the nonresident alien individual has been present in the United States for a period or periods aggregating 183 days or more during the taxable year, gains and losses for such taxable year from sales or exchanges of capital assets effected during a previous taxable year beginning after December 31, 1966, are to be taken into account, but only if he was also present in the United States during such previous taxable year for a period or periods aggregating 183 days or more.

(ii) If the nonresident alien individual has not been present in the United States during the taxable year, or if he has been present in the United States for a period or periods aggregating less than 183 days during the taxable year, gains and losses

XUM
V 39 I 247 DEC 23 74 XUM

from sales or exchanges of capital assets effected during the year are not to be taken into account, except as required by paragraph (c) of this section, in determining the tax of such individual even though the sales or exchanges are effected during his presence in the United States. Moreover, gains and losses for such taxable year from sales or exchanges of capital assets effected during a previous taxable year beginning after December 31, 1966, are not to be taken into account, even though the nonresident alien individual was present in the United States during such previous year for a period or periods aggregating 183 days or more.

(iii) For purposes of this subparagraph, a nonresident alien individual is not considered to be present in the United States by reason of the presence in the United States of a person who is an agent or partner of such individual or who is a fiduciary of an estate or trust of which such individual is a beneficiary or a grantor-owner to whom section 671 applies.

(iv) The application of this subparagraph may be illustrated by the following examples:

Example (1). B, a nonresident alien individual not engaged in trade or business in the United States and using the calendar year as the taxable year, is present in the United States from May 1, 1971, to November 15, 1971, a period of more than 183 days. While present in the United States, B effects for his own account on various dates a number of transactions in stocks and securities on the stock exchange, as a result of which he has recognized capital gains of $10,000. During the period from January 1, 1971, to April 30, 1971, he carries out similar transactions through an agent in the United States, as a result of which B has recognized capital gains of $5,000. On December 15, 1971, through an agent in the United States B sells a capital asset on the installment plan, no payments being made by the purchaser in 1971. During 1972, B receives installment payments of $50,000 on the installment sale made in 1971, and the capital gain from sources within the United States for 1972 attributable to such payments is $12,500. In addition, during the period from January 1, 1972, to May 31, 1972, B effects for his own account, through an agent in the United States, a number of transactions in stocks and securities on the stock exchange, as a result of which B has recognized capital gains of $20,000. At no time during 1972 is B present in the United States or engaged in trade or business in the United States. Accordingly, for 1971, B is subject to tax under section 871(a)(2) on his capital gains of $15,000 from the transactions in that year on the stock exchange. For 1972, B is not subject to tax on the capital gain of $12,500 from the installment sale in 1971 or on the capital gains of $20,000 from the transactions in 1972 on the stock exchange.

Example (2). The facts are the same as in example (1) except that B is present in the United States from June 15, 1972, to December 31, 1972, a period of more than 183 days. Accordingly, B is subject to tax under section 871(a)(2) for 1971 on his capital gains of $15,000 from the transactions in that year on the stock exchange. He is also subject to tax under section 871(a)(2) for 1972 on his capital gains of $32,500 ($12,500 from the installment sale in 1971 plus $20,000 from the transactions in 1972 on the stock exchange).

Example (3). D, a nonresident alien individual not engaged in trade or business in the United States and using the calendar year as the taxable year, is present in the United States from April 1, 1971, to August 31, 1971, a period of less than 183 days. While present in the United States, D effects for his own account on various dates a number of transactions in stocks and securities on the stock exchange, as a result of which he has recognized capital gains of $15,000. During the period from January 1, 1971, to March 31, 1971, he carries out similar transactions through an agent in the United States, as a result of which D has recognized capital gains of $8,000. On December 20, 1971, through an agent in the United States D sells a capital asset on the installment plan, no payments being made by the purchaser in 1971. During 1972, D receives installment payments of $200,000 on the installment sale made in 1971, and the capital gain from sources within the United States for 1972 attributable to such payments is $50,000. In addition, during the period from Feburary 1, 1972, to August 15, 1972, a period of more than 183 days, D effects for his own account, through an agent in the United States, a number of transactions in stocks and securities on the stock exchange, as a result of which D has recognized capital gains of $25,000. At no time during 1972 is D present in the United States or engaged in trade or business in the United States. Accordingly, D is not subject to tax for 1971 or 1972 on any of his recognized capital gains.

Example (4). The facts are the same as in example (3) except that D is present in the United States from February 1, 1972, to August 15, 1972, a period of more than 183 days. Accordingly, D is not subject to tax for 1971 on his capital gains of $23,000 from the transactions in that year on the stock exchange. For 1972 he is subject to tax under section 871(a)(2) on his capital gains of $25,000 from the transactions in that year on the stock exchange, but he is not subject to the tax on the capital gain of $50,000 from the installment sale in 1971.

(3) *Determination of 183-day period*—(i) *In general.* In determining the total period of presence in the United States for a taxable year for purposes of subparagraph (2) of this paragraph, all separate periods of presence in the United States during the taxable year are to be aggregated. If the nonresident alien individual has not previously established a taxable year, as defined in section 441(b), he shall be treated as having a taxable year which is the calendar year, as defined in section 441(d). Subsequent adoption by such individual of a fiscal year as the taxable year will be treated as a change in the taxpayer's annual accounting period to which section 442 applies, and the change must be authorized under this part (Income Tax Regulations) or prior approval must be obtained by filing an application on Form 1128 in accordance with paragraph (b) of § 1.442–1. If in the course of his taxable year the nonresident alien individual changes his status from that of a citizen or resident of the United States to that of a nonresident alien individual, or vice versa, the determination of whether the individual has been present in the United States for 183 days or more during the taxable year shall be made by taking into account the entire taxable year, and not just that part of the taxable year during which he has the status of a nonresident alien individual.

(ii) *Definition of "day".* The term "day", as used in subparagraph (2) of this paragraph, means a calendar day during any portion of which the nonresident alien individual is physically present in the United States (within the meaning of sections 7701(a)(9) and 638) except that, in the case of an individual who is a resident of Canada or Mexico and, in the normal course of his employment in transportation service touching points within both Canada or Mexico and the United States, performs personal services in both the foreign country and the United States, the following rules shall apply:

(*a*) The performance of labor or personal services during 8 hours or more in any 1 day within the United States shall be considered as 1 day in the United States, except that if a period of more or less than 8 hours is considered a full workday in the transportation job involved, such period shall be considered as 1 day within the United States.

(*b*) The performance of labor or personal services during less than 8 hours in any day in the United States shall, except as provided in (*a*) of this subdivision, be considered as a fractional part of a day in the United States. The total number of hours during which such services are performed in the United States during the taxable year, when divided by eight, shall be the number of days during which such individual shall be considered present in the United States during the taxable year.

(*c*) The aggregate number of days determined under (*a*) and (*b*) of this subdivision shall be considered the total number of days during which such individual is present in the United States during the taxable year.

(4) *Determination of amount of excess gains*—(i) *In general.* For the purpose of determining the excess of gains over losses subject to tax under this paragraph, gains and losses shall be taken into account only if, and to the extent that, they would be recognized and taken into account if the nonresident alien individual were engaged in trade or business in the United States during the taxable year and such gains and losses were effectively connected for such year with the conduct of a trade or business in the United States by such individual. However, in determining such excess of gains over losses no deduction may be taken under section 1202, relating to the deduction for capital gains, or section 1212, relating to the capital loss carryover. Thus, for example, in determining such excess gains all amounts considered under chapter 1 of the Code as gains or losses from the sale or exchange of capital assets shall be taken into account, except those gains which are described in section 871(a)(1) (B) or (D) and taken into account under paragraph (c) of this section and are considered to be gains from the sale or exchange of capital assets. Also, for example, a loss described in section 631 (b) or (c) which is considered to be a loss from the sale of a

capital asset shall be taken into account in determining the excess gains which are subject to tax under this paragraph. In further illustration, in determining such excess gains no deduction shall be allowed, pursuant to the provisions of section 267, for losses from sales or exchanges of property between related taxpayers. Any gains which are taken into account under section 871(a)(1) and paragraph (c) of this section shall not be taken into account in applying section 1231 for purposes of this paragraph. Gains and losses are to be taken into account under this paragraph whether they are short-term or long-term capital gains or losses within the meaning of section 1222.

(ii) *Gains not included.* The provisions of this paragraph do not apply to any gains described in section 871(a)(1)(B) or (D), and in subdivision (i), (iii), or (iv) of paragraph (c)(1) of this section, which are considered to be gains from the sale or exchange of capital assets.

(iii) *Allowance of losses.* In determining the excess of gains over losses subject to tax under this paragraph losses shall be allowed only to the extent provided by section 165(c). Losses from sales or exchanges of capital assets in excess of gains from sales or exchanges of capital assets shall not be taken into account.

(e) *Credits against tax.* The credits allowed by section 31 (relating to tax withheld on wages), by section 32 (relating to tax withheld at source on nonresident aliens), by section 39 (relating to certain uses of gasoline and lubricating oil), and by section 6402 (relating to overpayments of tax) shall be allowed against the tax of a nonresident alien individual determined in accordance with this section.

(f) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.871-7 (b) and (c) (Rev. as of Jan. 1, 1971).

§ 1.871-8 Taxation of nonresident alien individuals engaged in U.S. business or treated as having effectively connected income.

(a) *Segregation of income.* This section applies for purposes of determining the tax of a nonresident alien individual who at any time during the taxable year is engaged in trade or business in the United States. It also applies for purposes of determining the tax of a nonresident alien student or trainee who is deemed under section 871(c) and § 1.871-9 to be engaged in trade or business in the United States or of a nonresident alien individual who at no time during the taxable year is engaged in trade or business in the United States but has an election in effect for the taxable year under section 871(d) and § 1.871-10 in respect to real property income. A nonresident alien individual to whom this section applies must segregate his gross income for the taxable year into two categories, namely (1) the income which is effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual, and (2) the income which is not effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual. A separate tax shall then be determined upon each such category of income, as provided in paragraph (b) of this section. The determination of whether income or gain is or is not effectively connected for the taxable year with the conduct of a trade or business in the United States by the nonresident alien individual shall be made in accordance with section 864(c) and §§ 1.864-3 through 1.864-7. For purposes of this section income which is effectively connected for the taxable year with the conduct of a trade or business in the United States includes all income which is treated under section 871 (c) or (d) and § 1.871-9 or § 1.871-10 as income which is effectively connected such year with the conduct of a trade or business in the United States by the nonresident alien individual.

(b) *Imposition of tax*—(1) *Income not effectively connected with the conduct of a trade or business in the United States.* If a nonresident alien individual who is engaged in trade or business in the United States at any time during the taxable year derives during such year from sources within the United States income or gains described in section 871(a)(1), and paragraph (b) or (c) of § 1.871-7 or gains from the sale or exchange of capital assets determined as provided in section 871(a)(2) and paragraph (d) of § 1.871-7, which are not effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual, such income or gains shall be subject to a flat tax of 30 percent of the aggregate amount of such items. This tax shall be determined in the manner, and subject to the same conditions, set forth in § 1.871-7 as though the income or gains were derived by a nonresident alien individual not engaged in trade or business in the United States during the taxable year, except that (i) the rule in paragraph (d)(3) of such section for treating the calendar year as the taxable year shall not apply and (ii) in applying paragraph (c) and (d)(4) of such section, there shall not be taken into account any gains or losses which are taken into account in determining the tax under section 871(b) and subparagraph (2) of this paragraph. A nonresident alien individual who has an election in effect for the taxable year under section 871(d) and § 1.871-10 and who at no time during the taxable year is engaged in trade or business in the United States must determine his tax under § 1.871-7 on his income which is not treated as effectively connected with the conduct of a trade or business in the United States, subject to the exception contained in subdivision (ii) of this subparagraph.

(2) *Income effectively connected with the conduct of a trade or business in the United States*—(i) *In general.* If a nonresident alien to whom this section applies derives income or gains which are effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual, the taxable income or gains shall, except as provided in § 1.871-12, be taxed in accordance with section 1 or, in the alternative, section 1201(b). See section 871(b)(1). Any income of the nonresident alien individual which is not effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual shall not be taken into account in determining either the rate or amount of such tax. See paragraph (b) of § 1.872-1.

(ii) *Determination of taxable income.* The taxable income for any taxable year for purposes of this subparagraph consists only of the nonresident alien individual's taxable income which is effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual; and, for this purpose, it is immaterial that the trade or business with which that income is effectively connected is not the same as the trade or business carried on in the United States by that individual during the taxable year. See example (2) in § 1.864-4(b). In determining such taxable income all amounts constituting, or considered to be, gains or losses for the taxable year from the sale or exchange of capital assets shall be taken into account if such gains or losses are effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual, and, for such purpose, the 183-day rule set forth in section 871(a)(2) and paragraph (d)(2) of § 1.871-7 shall not apply. Losses which are not effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual shall not be taken into account in determining taxable income under this subdivision, except as provided in section 873(b)(1).

(iii) *Cross references.* For rules for determining the gross income and deductions for the taxable year, see sections 872 and 873, and the regulations thereunder.

(c) *Change in trade or business status*—(1) *In general.* The determination as to whether a nonresident alien individual is engaged in trade or business within the United States during the taxable year is to be made for each taxable year. If at any time during the taxable year he is engaged in a trade or business in the United States, he is considered to be engaged in trade or business within the United States during the taxable year for purposes of sections 864(c)(1) and 871(b), and the regulations thereunder. Income, gain, or loss of a nonresident alien individual is not treated as being effectively connected for the taxable year with the conduct of a trade or business in the United States if he is not engaged in trade or business within the United States during such year, even though such income, gain, or loss may have been effectively connected for a previous taxable year with the conduct of a trade or business in the United

States. See § 1.864–3. However, income, gain, or loss which is treated as effectively connected for the taxable year with the conduct of a trade or business in the United States by a nonresident alien individual will generally be treated as effectively connected for a subsequent taxable year if he is engaged in a trade or business in the United States during such subsequent year, even though such income, gain, or loss is not effectively connected with the conduct of the trade or business carried on in the United States during such subsequent year. This subparagraph does not apply to income described in section 871 (c) or (d). It may not apply to a nonresident alien individual who for the taxable year uses an accrual method of accounting or to income which is constructively received in the taxable year within the meaning of § 1.451–2.

(2) *Illustrations.* The application of this paragraph may be illustrated by the following examples:

Example (1). B, a nonresident alien individual using the calendar year as the taxable year and the cash receipts and disbursements method of accounting, is engaged in business (business R) in the United States from January 1, 1971, to August 31, 1971. During the period of September 1, 1971, to December 31, 1971, B receives installment payments of $30,000 on sales made in the United States by business R during that year, and the income from sources within the United States for that year attributable to such payments is $7,500. On September 15, 1971, another business (business S), which is carried on by B only in a foreign country sells to U.S. customers on the installment plan several pieces of equipment from inventory. During the period of September 16, 1971, to December 31, 1971, B receives installment payments of $50,000 on these sales by business S, and the income from sources within the United States for that year attributable to such payments is $10,000. Under section 864(c)(3) and paragraph (b) of § 1.864–4 the entire income of $17,500 is effectively connected for 1971 with the conduct of a business in the United States by B. Accordingly, such income is taxable to B under paragraph (b)(2) of this section.

Example (2). Assume the same facts as in example (1), except that during 1972 B receives installment payments of $20,000 from the sales made during 1971 in the United States by business R, and of $80,000 from the sales made in 1971 to U.S. customers by business S, the total income from sources within the United States for 1972 attributable to such payments being $13,000. At no time during 1972 is B engaged in a trade or business in the United States. Under section 864(c)(1)(B) the income of $13,000 for 1972 is not effectively connected with the conduct of a trade or business in the United States by B. Moreover, such income is not fixed or determinable annual or periodical income. Accordingly, no amount of such income is taxable to B under section 871.

Example (3). Assume the same facts as in example (2), except that during 1972 B is engaged in a new business (business T) in the United States from July 1, 1972, to December 31, 1972. Under section 864(c)(3) and paragraph (b) of § 1.864–4, the income of $13,000 is effectively connected for 1972 with the conduct of a business in the United States by B. Accordingly, such income is taxable to B under paragraph (b)(2) of this section.

Example (4). Assume the same facts as in example (2), except that the installment payments of $20,000 from the sales made during 1971 in the United States by business R and not received by B until 1972 could have been received by B in 1971 if he had so desired. Under § 1.451–2, B is deemed to have constructively received the payments of $20,000 in 1971. Accordingly, the income attributable to such payments is effectively connected for 1971 with the conduct of a business in the United States by B and is taxable to B in 1971 under paragraph (b)(2) of this section.

(d) *Credits against tax.* The credits allowed by section 31 (relating to tax withheld on wages), section 32 (relating to tax withheld at source on nonresident aliens), section 33 (relating to the foreign tax credit), section 35 (relating to partially tax-exempt interest), section 38 (relating to investment in certain depreciable property), section 39 (relating to certain uses of gasoline and lubricating oil), section 40 (relating to expenses of work incentive programs), and section 6402 (relating to overpayments of tax) shall be allowed against the tax determined in accordance with this section. However, the credits allowed by sections 33, 38, and 40 shall not be allowed against the flat tax of 30 percent imposed by section 871(a) and paragraph (b)(1) of this section. Moreover, no credit shall be allowed under section 35 to a nonresident alien individual with respect to whom a tax is imposed for the taxable year under section 871(a) and paragraph (b)(1) of this section, even though such individual has income for such year upon which tax is imposed under section 871 (b) and paragraph (b)(2) of this section. For special rules applicable in determining the foreign tax credit, see section 906 (b) and the regulations thereunder. For the disallowance of certain credits where a return is not filed for the taxable year, see section 874 and § 1.874–1.

(e) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.871–7(d) (Rev. as of Jan. 1, 1971).

§ 1.871–9 Nonresident alien students or trainees deemed to be engaged in U.S. business.

(a) *Participants in certain exchange or training programs.* For purposes of §§ 1.871–7 and 1.871–8 a nonresident alien individual who is temporarily present in the United States during the taxable year as a nonimmigrant under subparagraph (F) (relating to the admission of students into the United States) or subparagraph (J) (relating to the admission of teachers, trainees, specialists, etc., into the United States) of section 101(a)(15) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15) (F) or (J)), and who without regard to this paragraph is not engaged in trade or business in the United States during such year, shall be deemed to be engaged in trade or business in the United States during the taxable year. For purposes of determining whether an alien who is present in the United States on an F visa or a J visa is a resident of the United States, see § 1.871–2.

(b) *Income treated as effectively connected with U.S. business.* Any income described in paragraph (1) (relating to the nonexcluded portion of certain scholarship or fellowship grants) or paragraph (2) (relating to certain nonexcluded expenses incident to such grants) of section 1441(b) which is received during the taxable year from sources within the United States by a nonresident alien individual described in paragraph (a) of this section is to be treated for purposes of §§ 1.871–7, 1.871–8, 1.872–1, and 1.873–1 as income which is effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual. However, such income is not to be treated as effectively connected for the taxable year with the conduct of a trade or business in the United States for purposes of section 1441(c)(1) and paragraph (a) of § 1.1441–4. For exclusion relating to compensation paid to such individual by a foreign employer, see paragraph (b) of § 1.872–2.

(c) *Exchange visitors.* For purposes of paragraph (a) of this section a nonresident alien individual who is temporarily present in the United States during the taxable year as a nonimmigrant under subparagraph (J) of section 101(a)(15) of the Immigration and Nationality Act includes a nonresident alien individual admitted to the United States as an "exchange visitor" under section 201 of the U.S. Information and Educational Exchange Act of 1948 (22 U.S.C. 1446), which section was repealed by section 111 of the Mutual Educational and Cultural Exchange Act of 1961 (75 Stat. 538).

(d) *Mandatory application of rule.* The application of this section is mandatory and not subject to an election by the taxpayer.

(e) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.871–7(a)(3) (Rev. as of Jan. 1, 1971).

§ 1.871–10 Election to treat real property income as effectively connected with U.S. business.

(a) *When election may be made.* A nonresident alien individual or foreign corporation which during the taxable year derives any income from real property which is located in the United States and, in the case of a nonresident alien individual, held for the production of income, or derives income from any interest in any such property, may elect, pursuant to section 871(d) or 882(d) and this section, to treat all such income as income which is effectively connected for the taxable year with the conduct of a trade or business in the United States by that taxpayer. The election may be made whether or not the taxpayer is engaged in trade or business in the United States during the taxable year for which the election is made or whether or not the taxpayer has income from real property

which for the taxable year is effectively connected with the conduct of a trade or business in the United States, but it may be made only with respect to that income from sources within the United States which, without regard to this section, is not effectively connected for the taxable year with the conduct of a trade or business in the United States by the taxpayer. If for the taxable year the taxpayer has no income from real property located in the United States, or from any interest in such property, which is subject to the tax imposed by section 871(a) or 881(a), the election may not be made. But if an election has been properly made under this section for a taxable year, the election remains in effect, unless properly revoked, for subsequent taxable years even though during any such subsequent taxable year there is no income from the real property, or interest therein, in respect of which the election applies.

(b) *Income to which the election applies*—(1) *Included income.* An election under this section shall apply to all income from real property which is located in the United States and, in the case of a nonresident alien individual, held for the production of income, and to all income derived from any interest in such property, including (i) gains from the sale or exchange of such property or an interest therein, (ii) rents or royalties from mines, oil or gas wells, or other natural resources, and (iii) gains described in section 631 (b) or (c), relating to treatment of gain on the disposal of timber, coal, or iron ore with a retained economic interest. The election may not be made with respect to only one class of such income. For purposes of the election, income from real property, or from any interest in real property, includes any amount included under section 652 or 662 in the gross income of a nonresident alien individual or foreign corporation that is the beneficiary of an estate or trust if, by reason of the application of section 652(b) or 662(b), and the regulations thereunder, such amount has the character in the hands of that beneficiary of income from real property, or from any interest in real property. It is immaterial that no tax would be imposed on the income by section 871(a) and paragraph (a) of § 1.871–7, or by section 881(a) and paragraph (a) of § 1.881–2, if the election were not in effect. Thus, for example, if an election under this section has been made by a nonresident alien individual not engaged in trade or business in the United States during the taxable year, the tax imposed by section 871(b)(1) and paragraph (b)(2) of § 1.871–8 applies to his gains derived from the sale of real property located in the United States and held for the production of income, even though such income would not be subject to tax under section 871(a) if the election had not been made. In further illustration, assume that a nonresident alien individual not engaged in trade or business, or present, in the United States during the taxable year has income from sources within the United States consisting of oil royalties, rentals from a former personal residence, and capital gain from the sale of another residence held for the production of income. If he makes an election under this section, it will apply with respect to his royalties, rentals, and capital gain, even though such capital gain would not be subject to tax under section 871(a) if the election had not been made.

(2) *Income not included.* For purposes of subparagraph (1) of this paragraph, income from real property, or from any interest in real property, does not include (i) interest on a debt obligation secured by a mortgage of real property, (ii) any portion of a dividend, within the meaning of section 316, which is paid by a corporation or a trust, such as a real estate investment trust described in section 857, which derives income from real property, (iii) in the case of a nonresident alien individual, income from real property, such as a personal residence, which is not held for the production of income or from any transaction in such property which was not entered into for profit, (iv) rentals from personal property, or royalties from intangible personal property, within the meaning of subparagraph (3) of this paragraph, or (v) income which, without regard to section 871(d) or 882(d) and this section, is treated as income which is effectively connected for the taxable year with the conduct of a trade or business in the United States.

(3) *Rules applicable to personal property.* For purposes of subparagraph (2) of this paragraph, in the case of a sales agreement, or rental or royalty agreement, affecting both real and personal property, the income from the transaction is to be allocated between the real property and the personal property in proportion to their respective fair market values unless the agreement specifically provides otherwise. In the case of such a rental or royalty agreement, the respective fair market values are to be determined as of the time the agreement is signed. In making determinations of this subparagraph, the principles of paragraph (c) of § 1.48–1, relating to the definition of "section 38 property," apply for purposes of determining whether property is tangible or intangible personal property and of paragraph (a)(5) of § 1.1245–1 apply for purposes of making the allocation of income between real and personal property.

(c) *Effect of the election*—(1) *Determination of tax.* The income to which, in accordance with paragraph (b) of this section, an election under this section applies shall be subject to tax in the manner, and subject to the same conditions, provided by section 871(b)(1) and paragraph (b)(2) of § 1.871–8, or by section 882(a)(1) and paragraph (b)(2) of § 1.882–1. For purposes of determining such tax for the taxable year, income to which the election applies shall be aggregated with all other income of the nonresident alien individual or foreign corporation which is effectively connected for the taxable year with the conduct of a trade or business in the United States by that taxpayer. To the extent that deductions are connected with income from real property to which the election applies, they shall be treated for purposes of section 873(a) or section 882(c)(1) as connected with income which is effectively connected for the taxable year with the conduct of a trade or business in the United States by the nonresident alien individual or foreign corporation. An election under this section does not cause a nonresident alien individual or foreign corporation, which is not engaged in trade or business in the United States during the taxable year, to be treated as though such taxpayer were engaged in trade or business in the United States during the taxable year. Thus, for example, the compensation received during the taxable year for services performed in the United States in a previous taxable year by a nonresident alien individual, who has an election in effect for the taxable year under this section but is engaged in trade or business in the United States at no time during the taxable year, is not effectively connected for the taxable year with the conduct of a trade or business in the United States. In further illustration, gain for the taxable year from the casual sale of personal property described in section 1221 (1) derived by a nonresident alien individual who is not engaged in trade or business in the United States during the taxable year but has an election in effect for such year under this section is not effectively connected with the conduct of a trade or business in the United States. See § 1.864–3. If an election under this section is in effect for the taxable year, the income to which the election applies shall be treated, for purposes of section 871(b)(1) or section 882(a)(1), section 1441(c)(1), and paragraph (a) of § 1.1441–4, as income which is effectively connected for the taxable year with the conduct of a trade or business in the United States by the taxpayer.

(2) *Treatment of property to which election applies.* Any real property, or interest in real property, with respect to which an election under this section applies shall be treated as a capital asset which, if depreciable, is subject to the allowance for depreciation provided in section 167 and the regulations thereunder. Such property, or interest in property, shall be treated as property not used in a trade or business for purposes of applying any provisions of the Code, such as section 172(d)(4)(A), relating to gain or loss attributable to a trade or business for purposes of determining a net operating loss; section 1221(2), relating to property not constituting a capital asset; or section 1231(b), relating to special rules for treatment of gains and losses. For example, if a nonresident alien individual makes the election under this section and, while the election is in effect, sells unimproved land which is located in the United States and held for investment

purposes, any gain or loss from the sale shall be considered gain or loss from the sale of a capital asset and shall be treated, for purposes of determining the tax under section 871(b)(1) and paragraph (b)(2) of § 1.871–8, as a gain or loss which is effectively connected for the taxable year with the conduct of a trade or business in the United States.

(d) *Manner of making or revoking an election*—(1) *Election, or revocation, without consent of Commissioner*—(i) *In general.* A nonresident alien individual or foreign corporation may, for the first taxable year for which the election under this section is to apply, make the initial election at any time before the expiration of the period prescribed by section 6511(a), or by section 6511(c) if the period for assessment is extended by agreement, for filing a claim for credit or refund of the tax imposed by chapter 1 of the Code for such taxable year. This election may be made without the consent of the Commissioner. Having made the initial election, the taxpayer may, within the time prescribed for making the election for such taxable year, revoke the election without the consent of the Commissioner. If the revocation is timely and properly made, the taxpayer may make his initial election under this section for a later taxable year without the consent of the Commissioner. If the taxpayer revokes the initial election without the consent of the Commissioner he must file amended income tax returns, or claims for credit or refund, where applicable, for the taxable years to which the revocation applies.

(ii) *Statement to be filed with return.* An election made under this section without the consent of the Commissioner shall be made for a taxable year by filing with the income tax return required under section 6012 and the regulations thereunder for such taxable year a statement to the effect that the election is being made. This statement shall include (*a*) a complete schedule of all real property, or any interest in real property, of which the taxpayer is titular or beneficial owner, which is located in the United States, (*b*) an indication of the extent to which the taxpayer has direct or beneficial ownership in each such item of real property, or interest in real property, (*c*) the location of the real property or interest therein, (*d*) a description of any substantial improvements on any such property, and (*e*) an identification of any taxable year or years in respect of which a revocation or new election under this section has previously occurred. This statement may not be filed with any return under section 6851 and the regulations thereunder.

(iii) *Exemption from withholding of tax.* For statement to be filed with a withholding agent at the beginning of a taxable year in respect of which an election under this section is to be made, see paragraph (a) of § 1.1441–4.

(2) *Revocation, or election, with consent of Commissioner*—(i) *In general.* If the nonresident alien individual or foreign corporation makes the initial election under this section for any taxable year and the period prescribed by subparagraph (1)(i) of this paragraph for making the election for such taxable year has expired, the election shall remain in effect for all subsequent taxable years, including taxable years for which the taxpayer realizes no income from real property, or from any interest therein, or for which he is not required under section 6012 and the regulations thereunder to file an income tax return. However, the election may be revoked in accordance with subdivision (iii) of this subparagraph for any subsequent taxable year with the consent of the Commissioner. If the election for any such taxable year is revoked with the consent of the Commissioner, the taxpayer may not make a new election before his fifth taxable year which begins after the first taxable year for which the revocation is effective unless consent is given to such new election by the Commissioner in accordance with subdivision (iii) of this subparagraph.

(ii) *Effect of new election.* A new election made for the fifth taxable year, or taxable year thereafter, without the consent of the Commissioner, and a new election made with the consent of the Commissioner, shall be treated as an initial election to which subparagraph (1) of this paragraph applies.

(iii) *Written request required.* A request to revoke an election made under this section when such revocation requires the consent of the Commissioner, or to make a new election when such election requires the consent of the Commissioner, shall be made in writing and shall be addressed to the Director of International Operations, Internal Revenue Service, Washington, D.C. 20225. The request shall include the name and address of the taxpayer and shall be signed by the taxpayer or his duly authorized representative. It must specify the taxable year for which the revocation or new election is to be effective and shall be filed within 75 days after the close of the first taxable year for which it is desired to make the change. The request must specify the grounds which are considered to justify the revocation or new election. The Director of International Operations may require such other information as may be necessary in order to determine whether the proposed change will be permitted. A copy of the consent by the Director of International Operations shall be attached to the taxpayer's return required under section 6012 and the regulations thereunder for the taxable year for which the revocation or new election is effective. A copy of such consent may not be filed with any return under section 6851 and the regulations thereunder.

(3) *Election by partnership.* If a nonresident alien individual or foreign corporation is a member of a partnership which has income described in paragraph (b)(1) of this section from real property, any election to be made under this section in respect of such income shall be made by the partners and not by the partnership.

(e) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. There are no corresponding rules in this part for taxable years beginning before January 1, 1967.

§ 1.871–11 Gains from sale or exchange of patents, copyrights, or similar property.

(a) *Contingent payment defined.* For purposes of section 871(a)(1)(D), section 881(a)(4), § 1.871–7(c)(1)(iv), § 1.881–2(c)(1)(iii), and this section, payments which are contingent on the productivity, use, or disposition of property or of an interest therein include continuing payments measured by a percentage of the selling price of the products marketed, or based on the number of units manufactured or sold, or based in a similar manner upon production, sale or use, or disposition of the property or interest transferred. A payment which is certain as to the amount to be received, but contingent as to the time of payment, or an installment payment of a principal sum agreed upon in a transfer agreement, shall not be treated as a contingent payment for purposes of this paragraph. For the inapplication of section 1253 to certain amounts described in this paragraph, see paragraph (a) of § 1.1253–1.

(b) *Payments treated as contingent on use.* Pursuant to section 871(e), if more than 50 percent of the gain of a nonresident alien individual or foreign corporation for any taxable year from the sale or exchange after October 4, 1966, of any patent, copyright, secret process or formula, goodwill, trademark, trade brand, franchise, or other like property, or of any interest in any such property, is from payments which are contingent on the productivity, use, or disposition of such property or interest, all of the gain of such individual or corporation for the taxable year from the sale or exchange of such property or interest are, for purposes of section 871(a)(1)(D), section 881(a)(4), section 1441(b), or section 1442(a), and the regulations thereunder, to be treated as being from payments which are contingent on the productivity, use, or disposition of such property or interest. This paragraph does not apply for purposes of determining under section 871(b)(1) or 882(a)(1) the tax of a nonresident alien individual or foreign corporation on income which is effectively connected for the taxable year with the conduct of a trade or business in the United States.

(c) *Sale or exchange.* A sale or exchange for purposes of this section includes, but is not limited to, a transfer by an individual which by reason of section 1235, relating to the sale or exchange of patents, is considered the sale or exchange of a capital asset. The provisions of section 1253, relating to transfers of franchises, trademarks, and trade names, do not apply in determining whether a transfer is a sale or exchange for purposes of this section.

(d) *Recovery of adjusted basis.* For purposes of determining for any taxable

year the amount of gains which are subject to tax under section 871(a)(1)(D) or 881(a)(4), payments received by the nonresident alien individual or foreign corporation during such year must be reduced by amounts representing recovery of the taxpayer's adjusted basis of the property or interest which is sold or exchanged. Where the taxpayer receives in the same taxable year payments which, without reference to section 871(e) and this section, are not contingent on the productivity, use, or disposition of the property or interest which is sold or exchanged and payments which are contingent on the productivity, use, or disposition of the property or interest which is sold or exchanged, the taxpayer's unrecovered adjusted basis in the property or interest which is sold or exchanged must be allocated for the taxable year between such payments on the basis of the gross amount of each such type of payments. Where the taxpayer receives in the taxable year only payments which are not so contingent or only payments which are so contingent, the taxpayer's unrecovered basis must be allocated in its entirety to such payments for the taxable year.

(e) *Source rule.* In determining whether gains described in section 871(a)(1)(D) or 881(a)(4) and paragraph (b) of this section are received from sources within the United States, such gains shall be treated, for purposes of section 871(a)(1)(D), section 881(a)(4), section 1441(b), and section 1442(a), as rentals or royalties for the use of, or privilege of using, property or an interest in property. See section 861(a)(4), § 1.861–5, and paragraph (a) of § 1.862–1.

(f) *Illustrations.* The application of this section may be illustrated by the following examples:

Example (1). (a) A, a nonresident alien individual who uses the cash receipts and disbursements method of accounting and the calendar year as the taxable year, holds a U.S. patent which he developed through his own effort. On December 15, 1967, A enters into an agreement of sale with M Corporation, a domestic corporation, whereby A assigns to M Corporation all of his U.S. rights in the patent. In consideration of the sale, M Corporation is obligated to pay a fixed sum of $60,000, $20,000 being payable on execution of the contract and the balance payable in four annual installments of $10,000 each. As additional consideration, M Corporation agrees to pay to A a royalty in the amount of 2 percent of the gross sales of the products manufactured by M Corporation under the patent. A is not engaged in trade or business in the United States at any time during 1967 and 1968. His adjusted basis in the patent at the time of sale is $28,800.

(b) In 1967, A receives only the $20,000 paid by M Corporation on the execution of the contract of sale. No gain is realized by A upon receipt of this amount, and his unrecovered adjusted basis in the patent is reduced to $8,800 ($28,800 less $20,000).

(c) In 1968, M Corporation has gross sales of $600,000 from products manufactured under the patent. Consequently, for 1968, M Corporation pays $22,000 to A, $10,000 being the annual installment on the fixed payments and $12,000 being payments under the terms of the royalty provision. A's recognized gain for 1968 is $13,200 ($22,000 reduced by the unrecovered adjusted basis of $8,800). Of the total gain of $13,200, gain in the amount of $6,000 ($10,000—[$8,800×$10,000/$22,000]) is considered to be from the fixed installment payment and of $7,200 ($12,000—[$8,800×$12,000/$22,000]) is considered to be from the royalty payment. Since 54.5 percent ($7,200/$13,200) of the gain recognized in 1968 from the sale of the patent is from payments which are contingent on the productivity, use, or disposition of the patent, all of the $13,200 gain recognized in 1968 is treated, for purposes of section 871(a)(1)(D) and section 1441(b), as being from payments which are contingent on the productivity, use, or disposition of the patent.

Example (2). (a) F, a foreign corporation using the calendar year as the taxable year and not engaged in trade or business in the United States, holds a U.S. patent on certain property which it developed through its own efforts. Corporation F uses the cash receipts and disbursements method of accounting. On December 1, 1966, F Corporation enters into an agreement of sale with D Corporation, a domestic corporation, whereby D Corporation purchases the exclusive right and license, and the right to sublicense to others, to manufacture, use, and/or sell certain devices under the patent in the United States during the term of the patent. The agreement grants D Corporation the right to dispose, anywhere in the world, of machinery manufactured in the United States and equipped with such devices. Corporation D is granted the right, at its own expense, to prosecute infringers in its own name or in the name of F Corporation, or both, and to retain any damages recovered.

(b) Corporation D agrees to pay to F Corporation annually $5 for each device manufactured under the patent during the year but in no case less than $5,000 per year. In 1967, D Corporation manufactures 2,500 devices under the patent; and, in 1968, 1,500 devices. Under the terms of the contract D Corporation pays to F Corporation in 1967 $12,500 with respect to production in that year and $7,500 in 1968 with respect to production in that year. F Corporation's basis in the patent at the time of the sale is $17,000.

(c) With respect to the payments received by F Corporation in 1967, no gain is realized by that corporation and its unrecovered adjusted basis in the patent is reduced to $4,500 ($17,000 less $12,500).

(d) With respect to the payments received by F Corporation in 1968, such corporation has recognized gain of $8,000 ($7,500 reduced by unrecovered adjusted basis of $4,500). Of the total gain of $8,000, gain in the amount of $2,000 ($5,000—[$4,500×$5,000/$7,500]) is considered to be from the fixed installment payment and of $1,000 ($2,500—[$4,500×$2,500/$7,500]) is considered to be from payments which are contingent on the productivity, use, or disposition of the patent. Since 33.3 percent ($1,000/$3,000) of the gain recognized in 1968 from the sale of the patent is from payments which are contingent on the productivity, use, or disposition of the patent, only $1,000 of the $8,000 gain for that year constitutes gains which, for purposes of section 881(a)(4) and section 1442(a), are from payments which are contingent on the productivity, use, or disposition of the patent. The balance of $2,000 is gain from the sale of property and is not subject to tax under section 881(a).

(g) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966, but only in respect of gains from sales or exchanges occurring after October 4, 1966. There are no corresponding rules in this part for taxable years beginning before January 1, 1967.

§ 1.871–12 Determination of tax on treaty income.

(a) *In general.* This section applies for purposes of determining under § 1.871–7 or § 1.871–8 the tax of a nonresident alien individual, or under § 1.881–2 or § 1.882–1 the tax of a foreign corporation, which for the taxable year has income described in section 872(a) or 882(b) upon which the tax is limited by an income tax convention to which the United States is a party. Income for such purposes does not include income of any kind which is exempt from tax under the provisions of an income tax convention to which the United States is a party. See §§ 1.872–2(c) and 1.883–1(b). This section shall not apply to a nonresident alien individual who is a bona fide resident of Puerto Rico during the entire taxable year.

(b) *Definition of treaty and nontreaty income—(1) In general.* (i) For purposes of this section the term "treaty income" shall be construed to mean the gross income of a nonresident alien individual or foreign corporation, as the case may be, the tax on which is limited by a tax convention. The term "nontreaty income" shall be construed, for such purposes, to mean the gross income of the nonresident alien individual or foreign corporation other than the treaty income. Neither term includes income of any kind which is exempt from the tax imposed by chapter 1 of the Code.

(ii) In determining either the treaty or nontreaty income the gross income shall be determined in accordance with §§ 1.872–1 and 1.872–2, or with §§ 1.882–3 and 1.883–1, except that in determining the treaty income the exclusion granted by section 116(a) for dividends shall not be taken into account. Thus, for example, treaty income includes the total amount of dividends paid by a domestic corporation not disqualified by section 116(b) and received from sources within the United States if, in accordance with a tax convention, the dividends are subject to the income tax at a rate not to exceed 15 percent but does not include interest which, in accordance with a tax convention, is exempt from the income tax. In further illustration, neither the treaty nor the nontreaty income includes interest on certain governmental obligations which by reason of section 103 is excluded from gross income, or interest which by reason of a tax convention is exempt from the tax imposed by chapter 1 of the Code.

(iii) For purposes of applying any income tax convention to which the United States is a party, original issue discount which is subject to tax under section 871(a)(1)(C) or 881(a)(3) is to be treated as interest, and gains which are subject to tax under section 871(a)(1)(D) or 881(a)(4) are to be treated as royalty income. This subdivision shall not apply, however, where its application would be contrary to any treaty obligation of the United States.

(2) *Application of permanent establishment rule of treaties.* In applying this section with respect to income which is not effectively connected for the taxable year with the conduct of a trade or business in the United States by a nonresident alien individual or foreign corporation, see section 894(b), which provides that with respect to such income the nonresident alien individual or foreign corporation shall be deemed not to have a permanent establishment in the United States at any time during the taxable year for purposes of applying any exemption from, or reduction in rate of, tax provided by any tax convention.

(c) *Determination of tax.*—(1) *In general.* If the gross income of a nonresident alien individual or foreign corporation, as the case may be, consists of both treaty and nontreaty income, the tax liability for the taxable year shall be the sum of the amounts determined in accordance with subparagraphs (2) and (3) of this paragraph. In no case, however, may the tax liability so determined exceed the tax liability (tax reduced by allowable credits) with respect to the taxpayer's entire income, determined in accordance with § 1.871–7 or § 1.871–8, or with § 1.881–2 or § 1.882–1, as though the tax convention had not come into effect and without reference to the provisions of this section. Determinations under this paragraph shall be made without taking into account any credits allowed by sections 31, 32, 39, and 6402, but such credits shall be allowed against the tax liability determined in accordance with this subparagraph.

(2) *Tax on nontreaty income.* For purposes of subparagraph (1) of this paragraph, compute a partial tax (determined without the allowance of any credit) upon only the nontreaty income in accordance with § 187–1 or § 1.871–8, or with § 1.881–2 or § 1.882–1, whichever applies, as though the tax convention had not come into effect. To the extent allowed by paragraph (d) of § 1.871–8, or paragraph (c) of § 1.882–1, the credits allowed by sections 33, 35, 38, and 40 shall then be allowed, without taking into account any item included in the treaty income, against the tax determined under this subparagraph.

(3) *Tax on treaty income.* For purposes of subparagraph (1) of this paragraph, compute a tax upon the gross amount, determined without the allowance of any deduction, of each separate item of treaty income at the reduced rate applicable to that item under the tax convention. No credits shall be allowed against the tax determined under this subparagraph.

(d) *Illustrations.* The application of this section may be illustrated by the following examples:

Example (1). (a) A nonresident alien individual who is a resident of a foreign country with which the United States has entered into a tax convention receives during the taxable year 1967 from sources within the United States total gross income of $4,100, consisting of the following items and determined without regard to the $100 exclusion granted by section 116(a):

Dividends the tax on which is limited by the tax convention to a rate not to exceed 15 percent	$2,100
Compensation for personal services, the tax on which is not limited by the tax convention	1,000
Total gross income	4,100

(b) The dividends are paid by a domestic corporation not disqualified by section 116(b). The taxpayer is engaged in business in the United States during the taxable year by reason of performing personal services in the United States for a period in excess of 90 days, but does not have a permanent establishment therein. Under paragraph (c)(6)(i) of § 1.864–4, the dividends are effectively connected for the taxable year with the conduct of a trade or business in the United States. Interest expense in the amount of $2,100 connected with the dividend income is paid by the taxpayer during the taxable year.

(c) The tax liability for the taxable year is $193, determined as follows:

Total gross income, determined by taking into account the exclusion granted by section 116(a)		$4,000
Less: Deduction for interest expense paid	$2,100	
Deduction for personal exemption	600	2,700
Taxable income		1,300
Tax under section 1 of the Code (determined as provided in § 1.871–8(b)(2) as though the tax convention had not come into effect) ($145 plus 16 percent of $300)		193

(d) If the tax had been determined as provided in paragraph (c)(2) and (3) of this section, the tax liability would have been $521, determined as follows:

Nontreaty gross income	$1,000
Less: Deduction for personal exemption	600
Nontreaty taxable income	400
Tax under section 1 of the Code on nontreaty taxable income (14% of $400)	56
Plus: Tax on treaty income (gross dividends) ($2,100×15 percent)	465
Total tax	521

Example (2). (a) A nonresident alien individual who is a resident of a foreign country with which the United States has entered into a tax convention receives during the taxable year 1967 from sources within the United States total gross income of $22,000, consisting of the following items:

Compensation for personal services the tax on which is not limited by the tax convention (effectively connected income under § 1.864–4(c)(5)(ii))	$20,000
Oil royalties the tax on which is limited by the tax convention to 15 percent of the gross amount thereof (effectively connected income by reason of election under § 1.871–10)	2,000
Total gross income	22,000

(b) The taxpayer is engaged in business in the United States during the taxable year but does not have a permanent establishment therein. There are no allowable deductions, other than the deductions allowed by sections 613 and 873(b)(3).

(c) The tax liability for the taxable year is $6,100, determined as follows:

Nontreaty gross income	$20,000
Less: Deduction for personal exemption	600
Nontreaty taxable income	19,400
Tax under section 1 of the Code on nontreaty taxable income ($5,170 plus 45 percent of $1,400)	5,800
Plus: Tax on treaty income (Gross oil royalties) ($2,000×15 percent)	300
Total tax (determined as provided in paragraph (c)(2) and (3) of this section)	6,100

(d) If the tax had been determined under paragraph (b)(2) of § 1.871–8 as though the tax liability would have been $6,478, determined as follows and by taking into account the election under § 1.871–10:

Total gross income		$22,000
Less: Deduction under section 613 for percentage depletion ($2000×27½ percent)	$550	
Deduction for personal exemption	600	1,150
Taxable income		20,850
Tax under section 1 of the Code on taxable income ($5,070 plus 48 percent of $850)		6,478

(e) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.871–7(e) (Rev. as of Jan. 1, 1971).

§ 1.871–13 Taxation of individuals for taxable year of change of U.S. citizenship or residence.

(a) *In general.* (1) An individual who is a citizen or resident of the United States at the beginning of the taxable year but a nonresident alien at the end of the taxable year, or a nonresident alien at the beginning of the taxable year but a citizen or resident of the United States at the end of the taxable year, is taxable for such year as though his taxable year were comprised of two separate periods, one consisting of the time during which he is a citizen or resident of the United States and the other consisting of the time during which he is not a citizen or resident of the United States. Thus, for example, the income tax liability of an alien individual under chapter 1 of the Code for the taxable year in which he changes his residence will be computed under two different sets of rules, one relating to resident aliens for the period of residence and the other relating to nonresident aliens for the period of nonresidence. However, in determining the taxable income for such year which is subject to the graduated rate of tax imposed by section 1 or 1201 of the Code, all income for the period of U.S. citizenship or residence must be aggregated with the income for the period of nonresidence which is effectively connected for such year with the conduct of a trade or business in the United States.

(2) For purposes of this section, an individual is deemed to be a citizen or resident of the United States for the day on which he becomes a citizen or resident of the United States, a nonresident of the United States for the day on which he abandons his U.S. residence, and an alien for the day on which he gives up his U.S. citizenship.

(b) *Acquisition of U.S. citizenship or residence.* Income from sources without the United States which is not effectively connected with the conduct by the taxpayer of a trade or business in the United States is not taxable if received by an alien individual while he is not a resident of the United States even though he becomes a citizen or resident of the United States after its receipt and before the close of the taxable year. However, income from sources without the United States which is not effectively connected with the conduct by the taxpayer of a trade or business in the United States is taxable if received by an individual while he is a citizen or resident of the United States, even though he earns the income earlier in the taxable year while he is neither a citizen nor resident of the United States.

(c) *Abandonment of U.S. citizenship or residence.* Income from sources without the United States which is not effectively connected with the conduct by the taxpayer of a trade or business in the United States is not taxable if received by an alien individual while he is not a resident of the United States, even though he earns the income earlier in the taxable year while he is a citizen or resident of the United States. However, income from sources without the United States which is not effectively connected with the conduct by the taxpayer of a trade or business in the United States is taxable if received by an individual while he is a citizen or resident of the United States, even though he abandons his U.S. citizenship or residence after its receipt and before the close of the taxable year.

(d) *Special rules*—(1) *Method of accounting.* Paragraphs (b) and (c) of this section may not apply to an individual who for the taxable year uses an accrual method of accounting.

(2) *Deductions for personal exemptions.* An alien individual to whom this section applies is entitled to deduct one personal exemption for the taxable year under section 151. In addition, he is entitled to such additional exemptions as are allowed as a deduction under section 151 but only to the extent the amount of such additional exemptions do not exceed his taxable income (determined without regard to any deduction for personal exemptions) for the period in the taxable year during which he is a citizen or resident of the United States. This subparagraph does not apply to the extent it is inconsistent with section 873, and the regulations thereunder, or with the provisions of an income tax convention to which the United States is a party.

(3) *Exclusion of dividends received.* In determining the $100 exclusion for the taxable year provided by section 116 in respect of certain dividends, only those dividends for the period during which the individual is neither a citizen nor resident of the United States may be taken into account as are effectively connected for the taxable year with the conduct of a trade or business in the United States. See § 1.116–1(c)(1).

(e) *Illustrations.* The application of this section may be illustrated by the following examples:

Example (1). A, a married alien individual who uses the calendar year as the taxable year and the cash receipts and disbursements method of accounting, becomes a resident of the United States on June 1, 1971. During the period of nonresidence from January 1, 1971, to May 31, 1971, inclusive, A receives $15,000 income from sources without the United States which is not effectively connected with the conduct of a trade or business in the United States. During the period of residence from June 1, 1971, to December 31, 1971, A receives wages of $10,000, dividends of $200 from a foreign corporation, and dividends of $75 from a domestic corporation qualifying under section 116(a). Of the amount of wages so received, $2,000 is for services performed by A outside the United States during the period of nonresidence. Total allowable deductions (other than for personal exemptions) amount to $700, none of which are deductible under section 62 in computing adjusted gross income. For 1971 A's spouse has no gross income and is not the dependent of another taxpayer. For 1971, A's taxable income is $8,200, all of which is subject to tax under section 1, as follows:

Wages		$10,000
Dividends from foreign corporation		200
Dividends from domestic corporation ($75 less $75 exclusion)		0
Adjusted gross income		10,200
Less deductions:		
Personal exemptions (2×$650)	$1,300	
Other allowable deductions	700	2,000
Taxable income		8,200

Example (2). The facts are the same as in example (1) except that during the period of nonresidence from January 1, 1971, to May 31, 1971, A receives from sources within the United States income of $1,850 which is effectively connected with the conduct by A of a business in the United States and $350 in dividends from domestic corporations qualifying under section 116(a). Only $50 of these dividends are effectively connected with the conduct by A of a business in the United States. The assumption is made that there are no allowable deductions connected with such effectively connected income. For 1971, A has taxable income of $10,075 subject to tax under section 1 and $300 income subject to tax under section 871(a)(1)(A), as follows:

Wages		$10,000
Business income		1,850
Dividends from foreign corporation		200
Dividends from domestic corporation ($125 less $100 exclusion)		25
Adjusted gross income		12,075
Less deductions:		
Personal exemptions (2×$650)	$1,300	
Other allowable deductions	700	2,000
Taxable income subject to tax under section 1		10,075
Income subject to tax under section 871(a)(1)(A)		300

Example (3). A, a married alien individual with three children, uses the calendar year as the taxable year and the cash receipts and disbursements method of accounting. On October 1, 1971, A and his family become residents of the United States. During the period of nonresidence from January 1, 1971, to September 30, 1971, A receives income of $18,000 from sources without the United States which is not effectively connected with the conduct of a trade or business in the United States and of $2,500 from sources within the United States which is effectively connected with the conduct of a business in the United States. It is assumed there are no allowable deductions connected with such effectively connected income. During the period of residence from October 1, 1971, to December 31, 1971, A receives wages of $2,000, of which $400 is for services performed outside the United States during the period of nonresidence. Total allowable deductions (other than for personal exemptions) amount to $250, none of which are deductible under section 62 in computing adjusted gross income. Neither the spouse nor any of the children has any gross income for 1971, and the spouse is not the dependent of another taxpayer for such year. For 1971, A's taxable income is $1,850, all of which is subject to tax under section 1, as follows:

Wages (residence period)		$2,000	
Less: Allowable deductions		250	
Taxable income (without deduction for personal exemptions) (residence period)			$1,750
Business income (nonresidence period)			2,500
Total taxable income (without deduction for personal exemptions)			4,250
Less deduction for personal exemptions:			
Taxpayer		650	
Wife and 3 children (4×$650, but not to exceed $1,750)		1,750	
			2,400
Taxable income			1,850

(f) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. There are no corresponding rules in this part for taxable years beginning before January 1, 1967.

§ 1.871–8 [Deleted]

PAR. 13. Section 1.871–8 is deleted.

PAR. 14 Section 1.872 is amended by revising sections 872 (a) and (b)(3)(B), by adding a new paragraph (4) at the end of section 872(b), and by revising the historical note. These amended and added provisions read as follows:

§ 1.872 Statutory provisions; gross income.

SEC. 872. *Gross income*—(a) *General rule.* In the case of a nonresident alien individual, gross income includes only—

(1) Gross income which is derived from sources within the United States and which is not effectively connected with the conduct of a trade or business within the United States, and

(2) Gross income which is effectively connected with the conduct of a trade or business within the United States.

(b) *Exclusions.* * * *

(3) *Compensation of participants in certain exchange or training programs.* * * *

(B) An office or place of business maintain in a foreign country or in a possession of the United States by a domestic corporation, a domestic partnership, or an individual who is a citizen or resident of the United States.

(4) *Certain bond income of residents of the Ryukyu Islands or the Trust Territory of the Pacific Islands.* Income derived by a nonresident alien individual from a series E or series H U.S. savings bond, if such individual acquired such bond while a resident of the Ryukyu Island or the Trust Territory of the Pacific Islands.

[Sec. 872 as amended by sec. 110(c), Mutual Educational and Cultural Exchange Act 1961 (75 Stat. 536); sec. 103(b), Foreign Investors Tax Act 1966 (80 Stat. 1560)]

PAR. 15. Section 1.872–1 is amended to read as follows:

§ 1.872–1 Gross income of nonresident alien individuals.

(a) *In general*—(1) *Inclusions.* The gross income of a nonresident alien individual for any taxable year includes only (i) the gross income which is derived from sources within the United States and which is not effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual and (ii) the gross income, irrespective of whether such income is derived from sources within or without the United States, which is effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual. For the determination of the sources of income, see sections 861 through 863 and the regulations thereunder. For the determination of whether income from sources within or without the United States is effectively connected for the taxable year with the conduct of a trade or business in the United States, see sections 864(c) and 871 (c) and (d), §§ 1.864–3 through 1.864–7, and §§ 1.871–9 and 1.871–10. For special rules for determining the income of an alien individual who changes his residence during the taxable year, see § 1.871–13.

(2) *Exchange transactions.* Even though a nonresident alien individual who effects certain transactions in the United States in stocks, securities, or commodities during the taxable year may not, by reason of section 864(b)(2) and paragraph (c) or (d) of § 1.864–2, be engaged in trade or business in the United States during the taxable year through the effecting of such transactions, nevertheless he shall be required to include in gross income for the taxable year the gains and profits from those transactions to the extent required by § 1.871–7 or § 1.871–8.

(3) *Exclusions.* For exclusions from gross income, see § 1.872–2.

(b) *Individuals not engaged in U.S. business.* In the case of a nonresident alien individual who at no time during the taxable year is engaged in trade or business in the United States, the gross income shall include only (1) the gross income from sources within the United States which is described in section 871 (a) and paragraphs (b), (c), and (d) of § 1.871–7, and (2) the gross income from sources within the United States which, by reason of section 871 (c) or (d) and § 1.871–9 or § 1.871–10, is treated as effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual.

(c) *Individuals engaged in U.S. business.* In the case of a nonresident alien individual who is engaged in trade or business in the United States at any time during the taxable year, the gross income shall include (1) the gross income from sources within and without the United States which is effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual, (2) the gross income from sources within the United States which, by reason of the election provided in section 871(d) and § 1.871–10, is treated as effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual, and (3) the gross income from sources within the United States which is described in section 871(a) and paragraphs (b), (c), and (d) of § 1.871–7 and is not effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual.

(d) *Special rules applicable to certain expatriates.* For special rules for determining the gross income of a nonresident alien individual who has lost U.S. citizenship with a principal purpose of avoiding certain taxes, see section 877 (b)(1).

(e) *Alien resident of Puerto Rico.* This section shall not apply in the case of a nonresident alien individual who is a bona fide resident of Puerto Rico during the entire taxable year. See section 876 and § 1.876–1.

(f) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.872–1 (Rev. as of Jan. 1, 1971).

PAR. 16. Section 1.872–2 is amended to read as follows:

§ 1.872–2 Exclusions from gross income of nonresident alien individuals.

(a) *Earnings of foreign ships or aircraft*—(1) *Basic rule.* So much of the income from sources within the United States of a nonresident alien individual as consists of earnings derived from the operation of a ship or ships documented, or of aircraft registered, under the laws of a foreign country which grants an equivalent exemption to citizens of the United States nonresident in that foreign country and to corporations organized in the United States shall not be included in gross income.

(2) *Equivalent exemption*—(i) *Ships.* A foreign country which either imposes no income tax, or, in imposing an income tax, exempts from taxation so much of the income of a citizen of the U.S. nonresident in that foreign country and of a corporation organized in the United States as consists of earnings derived from the operation of a ship or ships documented under the laws of the United States is considered as granting an equivalent exemption for purposes of the exclusion from gross income of the earnings of a foreign ship or ships.

(ii) *Aircraft.* A foreign country which either imposes no income tax, or, in imposing an income tax, exempts from taxation so much of the income of a citizen of the U.S. nonresident in that foreign country and of a corporation organized in the United States as consists of earnings derived from the operation of aircraft registered under the laws of the United States is considered as granting an equivalent exemption for purposes of the exclusion from gross income of the earnings of foreign aircraft.

(3) *Definition of earnings.* For purposes of subparagraphs (1) and (2) of this paragraph, compensation for personal services performed by an individual aboard a ship or aircraft does not constitute earnings derived by such individual from the operation of ships or aircraft.

(b) *Compensation paid by foreign employer to participants in certain exchange or training programs*—(1) *Exclusion from income.* Compensation paid to a nonresident alien individual for the period that the nonresident alien individual is temporarily present in the United States as a nonimmigrant under subparagraph (F) (relating to the admission of students into the United States) or subparagraph (J) (relating to the admission of teachers, trainees, specialists, etc., into the United States) of section 101(a)(15) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15) (F) or (J)) shall be excluded from gross income if the compensation is paid to such alien by his foreign employer. Compensation paid to a nonresident alien individual by the U.S. office of a domestic bank which is acting as paymaster on behalf of a foreign employer constitutes compensation paid by a foreign employer for purposes of this paragraph if the domestic bank is reimbursed by the foreign employer for such payment. A nonresident alien individual who is temporarily present in the United States as a nonimmigrant under such subparagraph (J) includes a nonresident alien individual admitted to the United States as an "exchange visitor" under section 201 of the U.S. Information and Educational Exchange Act of 1948 (22 U.S.C. 1446), which section was repealed by section 111 of the Mutual Education and Cultural Exchange Act of 1961 (75 Stat. 538).

(2) *Definition of foreign employer.* For purposes of this paragraph, the term "foreign employer" means a nonresident alien individual, a foreign partnership, a foreign corporation, or an office or place of business maintained in a foreign country or in a possession of the United States by a domestic corporation, a

domestic partnership, or an individual who is a citizen or resident of the United States. The term does not include a foreign government. However, see section 893 and § 1.893–1. Thus, if a French citizen employed in the Paris branch of a banking company incorporated in the State of New York were admitted to the United States under section 101(a)(15)(J) of the Immigration and Nationality Act to study monetary theory and continued to receive a salary from such foreign branch while studying in the United States, such salary would not be includable in his gross income.

(c) *Tax convention.* Income of any kind which is exempt from tax under the provisions of a tax convention or treaty to which the United States is a party shall not be included in the gross income of a nonresident alien individual. Income on which the tax is limited by tax convention shall be included in the gross income of a nonresident alien individual if it is not otherwise excluded from gross income. See §§ 1.871–12 and 1.894–1.

(d) *Certain bond income of residents of the Ryukyu Islands or the Trust Territory of the Pacific Islands.* Income derived by a nonresident alien individual from a series E or series H U.S. savings bond shall not be included in gross income if such individual acquired the bond while he was a resident of the Ryukyu Islands or the Trust Territory of the Pacific Islands. It is not necessary that the individual continue to be a resident of such Islands or Trust Territory for the period when, without regard to section 872(b)(4) and this paragraph, the income from the bond would otherwise be includible in his gross income under the provisions of section 446 or 454.

(e) *Certain annuities received under qualified plans.* Pursuant to section 871(f), income received by a nonresident alien individual as an annuity under a qualified annuity plan described in section 403(a)(1) (relating to taxation of employee annuities), or from a qualified trust described in section 401(a) (relating to qualified pension, profit-sharing, and stock bonus plans) which is exempt from tax under section 501(a) (relating to exemption from tax on corporations, certain trusts, etc.), shall not be included in gross income, and shall be exempt from tax, for purposes of section 871 and §§ 1.871–7 and 1.871–8, if—

(1) All of the personal services by reason of which the annuity is payable were either—

(i) Personal services performed outside the United States by an individual (whether or not the annuitant) who, at the time of performance of the services, was a nonresident alien individual, or

(ii) Personal services performed in the United States by a nonresident alien individual (whether or not the annuitant) which, by reason of section 864(b)(1) (or corresponding provision of any prior law), were not personal services causing such individual to be engaged in trade or business in the United States during the taxable year, and

(2) At the time the first amount is paid (even though paid in a taxable year beginning before January 1, 1967) as such annuity under such annuity plan, or by such trust, to (i) the individual described in subparagraph (1) of this paragraph, or (ii) his nonresident alien beneficiary if such beneficiary is entitled to receive such first amount, 90 percent or more of the employees or annuitants for whom contributions or benefits are provided under the annuity plan, or under the plan or plans of which the trust is a part, are citizens or residents of the United States.

This paragraph shall apply whether or not the taxpayer is engaged in trade or business in the United States at any time during the taxable year in which the annuity is received. This paragraph shall not apply to distributions by an employees' trust or from an annuity plan which give rise to gains described in section 402(a)(2) or 403(a)(2), whichever applies. See section 871(a)(1)(B) and paragraph (c)(1)(i) of § 1.871–7. For exemption from withholding of tax at source on an annuity which is exempt from tax under section 871(f) and this paragraph, see paragraph (g) of § 1.1441–4.

(f) *Other exclusions.* Income which is from sources without the United States, as determined under the provisions of sections 861 through 863, and the regulations thereunder, is not included in the gross income of a nonresident alien individual unless such income is effectively connected for the taxable year with the conduct of a trade or business in the United States by that individual. To determine specific exclusions in the case of other items which are from sources within the United States, see the applicable sections of the Code. For special rules under a tax convention for determining the sources of income and for excluding, from gross income, income from sources without the United States which is effectively connected with the conduct of a trade or business in the United States, see the applicable tax convention. For determining which income from sources without the United States is effectively connected with the conduct of a trade or business in the United States, see section 864(c)(4) and § 1.864–5.

(g) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 4, 1967 see 26 CFR 1.872–2 (Rev. as of Jan. 1, 1971).

PAR. 17. Section 1.876–1 is amended by revising paragraphs (b) and (c) and by adding a new paragraph (d). These amended and added provisions read as follows:

§ 1.876–1 Alien residents of Puerto Rico.

* * * * *

(b) *Exceptions.* Though subject to the tax imposed by section 1, a nonresident alien individual who is a bona fide resident of Puerto Rico during his entire taxable year shall nevertheless be treated as a nonresident alien individual for the purpose of many provisions of the Code relating to nonresident alien individuals. Thus, for example, such a resident of Puerto Rico is not allowed to determine his tax in accordance with the optional tax table (section 4(d)(1)); is not allowed the standard deduction (section 142(b)(1); is not allowed a deduction for a "dependent" who is a resident of Puerto Rico unless the dependent is a citizen of the United States (section 152(b)(3)); is subject to withholding of tax at source under chapter 3 of the Code (sections 1441(e) and 1451(e)); is generally excepted from the collection of income tax at source on wages (paragraph (d)(1) of § 31.3401(a)(6)–1 of this chapter (Employment Tax Regulations)); is not allowed to make a joint return or a joint declaration of estimated tax (sections 6013(a)(1) and 6015(b)); must pay his estimated income tax on or before the 15th day of the 4th month of the taxable year (sections 6015(i)(3), 6073(a), and 6153(a)(1)); and generally must pay his income tax on or before the 15th day of the 6th month following the close of the taxable year (sections 6072(c) and 6151(a)).

(c) *Credits against tax.* The credits allowed by section 31 (relating to tax withheld on wages), section 32 (relating to tax withheld at source on nonresident aliens), section 33 (relating to taxes of foreign countries), section 35 (relating to partially tax-exempt interest), section 38 (relating to investment in certain depreciable property), section 39 (relating to certain uses of gasoline and lubricating oil), and section 40 (relating to expenses of work incentive programs) shall be allowed against the tax determined in accordance with this section. No credit shall be allowed under section 37 in respect of retirement income.

(d) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.876–1 (Rev. as of Jan. 1, 1971).

PAR. 18. Section 1.877 is redesignated as § 1.878 and revised to read as follows:

§ 1.878 Statutory provisions; certain foreign exempt organizations.

SEC. 878. *Foreign educational, charitable, and certain other exempt organizations.* For special provisions relating to foreign educational, charitable, and other exempt organizations, see sections 512(a) and 4948.

[Sec. 878 as redesignated by sec. 103(f)(1), Foreign Investors Tax Act 1966 (80 Stat. 1551); as amended by sec. 101(j)(20), Tax Reform Act 1969 (83 Stat. 528)]

PAR. 19. The following new section is inserted immediately after § 1.876–1:

§ 1.877 Statutory provisions; expatriation to avoid tax.

SEC. 877. *Expatriation to avoid tax*—(a) *In general.* Every nonresident alien individual who at any time after March 8, 1965, and within the 10-year period immediately preceding the close of the taxable year lost U.S. citizenship, unless such loss did not have for one of its principal purposes the avoidance of taxes under this subtitle or subtitle B,

shall be taxable for such taxable year in the manner provided in subsection (b) if the tax imposed pursuant to such subsection exceeds the tax which, without regard to this section, is imposed pursuant to section 871.

(b) *Alternative tax.* A nonresident alien individual described in subsection (a) shall be taxable for the taxable year as provided in section 1 or section 1201(b), except that—

(1) The gross income shall include only the gross income described in section 872(a) (as modified by subsection (c) of this section), and

(2) The deductions shall be allowed if and to the extent that they are connected with the gross income included under this section except that the capital loss carryover provided by section 1212(b) shall not be allowed; and the proper allocation and apportionment of the deductions for this purpose shall be determined as provided under regulations prescribed by the Secretary or his delegate.

For purposes of paragraph (2), the deductions allowed by section 873(b) shall be allowed; and the deduction (for losses not connected with the trade or business if incurred in transactions entered into for profit) allowed by section 165(c)(2) shall be allowed, but only if the profit, if such transaction had resulted in a profit, would be included in gross income under this section.

(c) *Special rules of source.* For purposes of subsection (b), the following items of gross income shall be treated as income from sources within the United States:

(1) *Sale of property.* Gains on the sale or exchange of property (other than stock or debt obligations) located in the United States.

(2) *Stock or debt obligations.* Gains on the sale or exchange of stock issued by a domestic corporation or debt obligations of U.S. persons or of the United States, a State or political subdivision thereof, or the District of Columbia.

(d) *Exception for loss of citizenship for certain causes.* Subsection (a) shall not apply to a nonresident alien individual whose loss of U.S. citizenship resulted from the application of section 301(b), 350, or 355 of the Immigration and Nationality Act, as amended (8 U.S.C. 1401(b), 1482, or 1487).

(e) *Burden of proof.* If the Secretary or his delegate establishes that it is reasonable to believe that an individual's loss of U.S. citizenship would, but for this section, result in a substantial reduction for the taxable year in the taxes on his probable income for such year, the burden of proving for such taxable year that such loss of citizenship did not have for one of its principal purposes the avoidance of taxes under this subtitle or subtitle B shall be on such individual.

[Sec. 877 as added by sec. 103(f)(1), Foreign Investors Tax Act 1966 (80 Stat. 1551)]

PAR. 20. Section 1.932 is amended by revising section 932(a) and by adding a historical note as follows:

§ 1.932 Statutory provisions; taxation of citizens of possessions of the United States.

SEC. 932. *Citizens of possessions of the United States*—(a) *General rule.* Any individual who is a citizen of any possession of the United States (but not otherwise a citizen of the United States) and who is not a resident of the United States shall be subject to taxation under this subtitle in the same manner and subject to the same conditions as in the case of a nonresident alien individual. This section shall have no application in the case of a citizen of Puerto Rico.

• • • • •

[Sec. 932 as amended by sec. 103(m), Foreign Investors Tax Act 1966 (80 Stat. 1554)]

PAR. 21. Section 1.932–1 is amended by revising paragraph (a)(1) to read as follows:

§ 1.932–1 Status of citizens of U.S. possessions.

(a) *General rule*—(1) *Definition and treatment.* A citizen of a possession of the United States (except Puerto Rico), who is not otherwise a citizen or resident of the United States, including only the States and the District of Columbia, is treated for the purpose of the taxes imposed by Subtitle A of the Code (relating to income taxes) as if he were a nonresident alien individual. However, for purposes of the tax imposed on self-employment income by chapter 2 of the Code, the term "possession of the United States" as used in section 932 and the preceding sentence does not include American Samoa, Guam, or the Virgin Islands. See section 1402(a)(9). See subpart A (section 871 and following), part II, subchapter N, chapter 1 of the Code, and the regulations thereunder, for rules relating to imposition of tax on nonresident alien individuals. For Federal income tax purposes, a citizen of a possession of the United States who is not otherwise a citizen of the United States is a citizen of a possession of the United States who has not become a citizen of the United States by naturalization in a State, Territory, or the District of Columbia. The fixed or determinable annual or periodical income from sources within the United States of a citizen of a possession of the United States who is treated as if he was a nonresident alien individual is subject to withholding. See section 1441.

• • • • •

PAR. 22. Section 1.1493 is amended by adding a historical note to read as follows:

§ 1.1493 Statutory provisions; definition of foreign trust.

• • • • •

[Sec. 1493 as in effect before its repeal by sec. 103(1)(2), Foreign Investors Tax Act 1966 (80 Stat. 1544)]

PAR. 23. Section 1.1493–1 is revised to read as follows:

§ 1.1493–1 Definition of foreign trust.

For taxable years beginning before January 1, 1967, a trust is to be considered a "foreign trust" within the meaning of chapter 5 of the Code, if, assuming a subsequent sale by the trustee, outside the United States and for cash, of the property transferred to the trust, the profit, if any, from such sale (being income from sources without the United States under the provisions of part I (section 861 and following), subchapter N, chapter 1 of the Code), would not be included in the gross income of the trust under subtitle A of the Code. For taxable years beginning after December 31, 1966, the term "foreign trust," as used in chapter 5 of the Code, shall have the meaning prescribed by section 7701(a)(31).

PAR. 24. Section 1.6012–1 is amended by revising paragraph (b) to read as follows:

§ 1.6012–1 Individuals required to make returns of income.

• • • • •

(b) *Return of nonresident alien individual*—(1) *Requirement of return*—(i) *In general.* Except as otherwise provided in subparagraph (2) of this paragraph, every nonresident alien individual who is engaged in trade or business in the United States at any time during the taxable year or who has income which is subject to taxation under subtitle A of the Code shall make a return on Form 1040NR. For this purpose it is immaterial that the gross income for the taxable year is less than the minimum amount specified in section 6012(a) for making a return. Thus, a nonresident alien individual who is engaged in a trade or business in the United States at any time during the taxable year is required to file a return on Form 1040NR even though (*a*) he has no income which is effectively connected with the conduct of a trade or business in the United States, (*b*) he has no income from sources within the United States, or (*c*) his income is exempt from income tax by reason of an income tax convention or any section of the Code. However, if the nonresident alien individual has no gross income for the taxable year, he is not required to complete the return schedules but must attach a statement to the return indicating the nature of any exclusions claimed and the amount of such exclusions to the extent such amounts are readily determinable.

(ii) *Treaty income.* If the gross income of a nonresident alien individual includes treaty income, as defined in paragraph (b)(1) of § 1.871–12, a statement shall be attached to the return on Form 1040NR showing with respect to that income—

(*a*) The amounts of tax withheld,

(*b*) The names and post office addresses of withholding agents, and

(*c*) Such other information as may be required by the return form, or by the instructions issued with respect to the form, to show the taxpayer's entitlement to the reduced rate of tax under the tax convention.

(2) *Exceptions*—(i) *Return not required when tax is fully paid at source.* A nonresident alien individual who at no time during the taxable year is engaged in a trade or business in the United States is not required to make a return for the taxable year if his tax liability for the taxable year is fully satisfied by the withholding of tax at source under chapter 3 of the Code. This subdivision does not apply to a nonresident alien individual who has income for the taxable year which is treated under section 871 (c) or (d) and § 1.871–9 (relating to students or trainees) or § 1.871–10 (relating to real property income) as income which is effectively connected for the taxable year with the conduct of a trade or business in the

United States by that individual, or to a nonresident alien individual making a claim under § 301.6402–3 of this chapter (Procedure and Administration Regulations) for the refund of an overpayment of tax for the taxable year. For purposes of this subdivision, some of the items of income from sources within the United States upon which the tax liability will not have been fully satisfied by the withholding of tax at source under chapter 3 of the Code are:

(*a*) Interest upon so-called tax-free covenant bonds upon which, in accordance with section 1451 and § 1.1451–1, a tax of only 2 percent is required to be withheld at the source.

(*b*) In the case of bonds or other evidences of indebtedness issued after September 28, 1965, amounts described in section 871(a)(1)(C),

(*c*) Capital gains described in section 871(a)(2) and paragraph (*d*) of § 1.871–7, and

(*d*) Accrued interest received in connection with the sale of bonds between interest dates, which, in accordance with paragraph (h) of § 1.1441–4, is not subject to withholding of tax at the source.

(ii) *Return of individual for taxable year of change of U.S. citizenship or residence.* (*a*) If an alien individual becomes a citizen or resident of the United States during the taxable year and is a citizen or resident of the United States on the last day of such year, he must make a return on Form 1040 for the taxable year. However, a separate schedule is required to be attached to this return to show the income tax computation for the part of the taxable year during which the alien was neither a citizen nor resident of the United States. A Form 1040NR, clearly marked "Statement" across the top, may be used as such a separate schedule.

(*b*) If an individual abandons his U.S. citizenship or residence during the taxable year and is not a citizen or resident of the United States on the last day of such year, he must make a return on Form 1040NR for the taxable year. However, a separate schedule is required to be attached to this return to show the income tax computation for the part of the taxable year during which the individual was a citizen or resident of the United States. A Form 1040, clearly marked "Statement" across the top, may be used as such a separate schedule.

(*c*) A return is required under this subdivision (ii) only if the individual is otherwise required to make a return for the taxable year.

(iii) *Beneficiaries of estates or trusts.* A nonresident alien individual who is a beneficiary of an estate or trust which is engaged in trade or business in the United States is not required to make a return for the taxable year merely because he is deemed to be engaged in trade or business within the United States under section 875(2). However, such nonresident alien beneficiary will be required to make a return if he otherwise satisfies the conditions of subparagraph (1)(i) of this paragraph for making a return.

(iv) *Certain alien residents of Puerto Rico.* This paragraph does not apply to a nonresident alien individual who is a bona fide resident of Puerto Rico during the taxable year. See section 876 and paragraph (a)(1)(iii) of this section.

(3) *Representative or agent for nonresident alien individual*—(i) *Cases where power of attorney is not required.* The responsible representative or agent within the United States of a nonresident alien individual shall make on behalf of his nonresident alien principal a return of, and shall pay the tax on, all income coming within his control as representative or agent which is subject to the income tax under subtitle A of the Code. The agency appointment will determine how completely the agent is substituted for the principal for tax purposes. Any person who collects interest or dividends on deposited securities of a nonresident alien individual, executes ownership certificates in connection therewith, or sells such securities under special instructions shall not be deemed merely by reason of such acts to be the responsible representative or agent of the nonresident alien individual. If the responsible representative or agent does not have a specific power of attorney from the nonresident alien individual to file a return in his behalf, the return shall be accompanied by a statement to the effect that the representative or agent does not possess specific power of attorney to file a return for such individual but that the return is being filed in accordance with the provisions of this subdivision.

(ii) *Cases where power of attorney is required.* Whenever a return of income of a nonresident alien individual is made by an agent acting under a duly authorized power of attorney for that purpose, the return shall be accompanied by the power of attorney in proper form, or a copy thereof, specifically authorizing him to represent his principal in making, executing, and filing the income tax return. Form 2848 may be used for this purpose. The agent, as well as the taxpayer, may incur liability for the penalties provided for erroneous, false, or fraudulent returns. For the requirements regarding signing of returns, see § 1.6061–1. The rules of paragraph (e) of § 601.504 of this chapter (Statement of Procedural Rules) shall apply under this subparagraph in determining whether a copy of a power of attorney must be certified.

(iii) *Limitation.* A return of income shall be required under this subparagraph only if the nonresident alien individual is otherwise required to make a return in accordance with this paragraph.

(4) *Disallowance of deductions and credits.* For provisions disallowing deductions and credits when a return of income has not been filed by or on behalf of a nonresident alien individual, see section 874(a) and the regulations thereunder.

(5) *Effective date.* This paragraph shall apply for taxable years beginning after December 31, 1966, except that it shall not be applied to require (i) the filing of a return for any taxable year ending before January 1, 1974, which, pursuant to instructions applicable to the return, is not required to be filed or (ii) the amendment of a return for such a taxable year which, pursuant to such instructions, is required to be filed. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.6012–1(b) (Rev. as of Jan. 1, 1967).

* * * * *

PAR. 25. Section 1.6012–3 is amended by revising subparagraph (2) (i), (iii), and (v) of paragraph (b) to read as follows:

§ 1.6012–3 Returns by fiduciaries.

* * * * *

(b) *For other persons.* * * *

(2) *Nonresident alien individuals*—(i) *In general.* A resident or domestic fiduciary or other person charged with the care of the person or property of a nonresident alien individual shall make a return for that individual and pay the tax unless—

(*a*) The nonresident alien individual makes a return of, and pays the tax on, his income for the taxable year,

(*b*) A responsible representative or agent in the United States of the nonresident alien individual makes a return of, and pays the tax on, the income of such alien individual for the taxable year, or

(*c*) The nonresident alien individual has appointed a person in the United States to act as his agent for the purpose of making a return of income and, if such fiduciary is required to file a Form 1041 for an estate or trust of which such alien individual is a beneficiary, such fiduciary attaches a copy of the agency appointment to his return on Form 1041.

* * * * *

(iii) *Disallowance of deductions and credits.* For provisions disallowing deductions and credits when a return of income has not been filed by or on behalf of a nonresident alien individual, see section 874 and the regulations thereunder.

* * * * *

(v) *Cross reference.* For requirements of withholding tax at source on nonresident alien individuals and of returns with respect to such withheld taxes, see §§ 1.1441–1 to 1.1465–1, inclusive.

* * * * *

PAR. 26. Section 1.601a–4 is revised to read as follows:

§ 1.6012–4 Miscellaneous returns.

For returns by regulated investment companies of tax on undistributed capital gain designated for special treatment under section 852(b)(3)(D), see § 1.852–9. For returns with respect to tax withheld on nonresident aliens and foreign corporations and on tax-free covenant bonds, see §§ 1.1461–1 to 1.1465–1, inclusive. For returns of tax on transfers to avoid income tax, see § 1.1494–1. For the requirement of an annual report by persons completing a Government contract.

see 26 CFR (1939) 17.16 (Treasury Decision 4906, approved June 23, 1939), and 26 CFR (1939) 18.15 (Treasury Decision 4909, approved June 28, 1939), as made applicable to section 1471 of the 1954 Code by Treasury Decision 6091, approved August 16, 1954 (19 F.R. 5167, C.B. 1954–2, 47). See also § 1.1471–1.

• • • • •

PAR. 28. Section 1.6015(a)–1 is amended by revising paragraph (d), as follows:

§ 1.6015(a)–1 Declaration of estimated income tax by individuals.

• • • • •

(d) *Nonresident alien individuals.* For the rules exempting certain nonresident alien individuals from the requirement of making a declaration of estimated income tax, see § 1.6015(i)–1.

• • • • •

PAR. 29. Section 1.6015(i) is redesignated as § 1.6015(j) and revised to read as follows:

§ 1.6015(j) Statutory provisions; declaration of estimated income tax by individuals; applicability.

SEC. 6015. *Declaration of estimated income* tax by individuals. • • •

(j) *Applicability.* This section shall be applicable only with respect to taxable years beginning after December 31, 1954; and sections 56, 59, and 60 of the Internal Revenue Code of 1939 shall continue in force with respect to taxable years beginning before January 1, 1955.

[Sec. 6015(j) as redesignated by sec. 103(j)(2) Foreign Investors Tax Act (80 Stat. 1554)]

[(b) *Declarations of estimated tax.* In the case of a taxable year beginning before [December 30, 1969], if any taxpayer is required to make a declaration or amended declaration of estimated tax, or to pay any amount or additional amount of estimated tax, by reason of the amendments made by [the Tax Reform Act of 1969], such amount or additional amount shall be paid ratably on or before each of the remaining installment dates for the taxable year beginning with the first installment date on or after [January 29, 1970]. With respect to any declaration or payment of estimated tax before such first installment date, sections 6015 [and] 6654 • • • of the Internal Revenue Code of 1954 shall be applied without regard to the amendments made by [the Tax Reform Act of 1969]. For purposes of this subsection, the term "installment date" means any date on which, under section 6153 • • • of such Code • • •, an installment payment of estimated tax is required to be made by the taxpayer. (Sec. 946(b), Tax Reform Act 1969 (83 Stat. 729))]

§ 1.6015(j)–1 [Redesignated]

PAR. 30. Section 1.6015(i)–1 is redesignated as § 1.6015(j)–1.

PAR. 31. The following new sections are inserted immediately after § 1.6015(h)–1:

§ 1.6015(i) Statutory provisions; declaration of estimated income tax by individuals; nonresident alien individuals.

(1) *Nonresident alien individuals.* No declaration shall be required to be made under this section by a nonresident alien individual unless—

(i) Withholding under chapter 24 is made applicable to the wages, as defined in section 3401(a), of such individual,

(ii) Such individual has income (other than compensation for personal services subject to deduction and withholding under section 1441) which is effectively connected with the conduct of a trade or business within the United States, or

(iii) Such individual is a resident of Puerto Rico during the entire taxable year.

[Sec. 6015(i) as added by sec. 103(j)(3), Foreign Investors Tax Act 1966 (80 Stat. 1554)]

§ 1.6015(i)–1 Nonresident alien individuals.

(a) *Exception from requirement of making a declaration.* No declaration of estimated income tax is required to be made under section 6015(a) and § 1.6015(a)–1 by a nonresident alien individual unless—

(1) Such individual has wages, as defined in section 3401(a), and the regulations thereunder, upon which tax is required to be withheld under section 3402,

(2) Such individual has income (other than compensation for personal services upon which tax is required to be withheld at source under section 1441) which is effectively connected for the taxable year with the conduct of a trade or business in the United States by such individual, or

(3) Such individual has been, or expects to be, a resident of Puerto Rico during the entire taxable year.

(b) *Rules applicable to nonresident alien individuals required to make a declaration*—(1) *Tests to be applied.* A nonresident alien individual who is not excepted by paragraph (a) of this section from the requirement of making a declaration of income tax is required to file a declaration if his gross income meets the requirements of section 6015(a) and § 1.6015(a)–1. In making the determination under section 6015(a)(1) as to whether the amount of the gross income of a nonresident alien individual is such as to require making a declaration of estimated income tax, only the tests relating to a single individual (other than a head of household) or to a married individual not entitled to file a joint declaration with his spouse shall apply, since a nonresident alien individual may not make a joint declaration by reason of section 6015(b) and is not a head of household. Only in a rare case would a nonresident alien individual be a surviving spouse.

(2) *Determination of gross income.* To determine the gross income of a nonresident alien individual who is not, or does not expect to be, a resident of Puerto Rico during the entire taxable year, see section 872 and §§ 1.872–1 and 1.872–2. To determine the gross income of a nonresident alien individual who is, or expects to be, a resident of Puerto Rico during the entire taxable year, see section 876 and § 1.876–1. For purposes of applying paragraph (a)(2) of this section, income which is effectively connected for the taxable year with the conduct of a trade or business in the United States includes all income which is treated under section 871 (c) or (d) and § 1.871–9 (relating to students and trainees) or § 1.871–10 (relating to real property income) as income which is effectively connected for such year with the conduct of a trade or business in the United States.

(c) *Effective date.* This section shall apply for taxable years beginning after December 31, 1966. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.6015(a)–1(d) (Rev. as of Jan. 1, 1971).

PAR. 32. Section 1.6061–1 is amended to read as follows:

§ 1.6061–1 Signing of returns and other documents by individuals.

(a) *Requirement.* Each individual (including a fiduciary) shall sign the income tax return required to be made by him, except that the return may be signed for the taxpayer by an agent who is duly authorized in accordance with paragraph (a)(5) or (b) of § 1.6012–1 to make such return. Other returns, statements, or documents required under the provisions of subtitle A or F of the Code or of the regulations thereunder to be made by any person with respect to any tax imposed by subtitle A of the Code shall be signed in accordance with any regulations contained in this chapter, or any instructions, issued with respect to such returns, statements, or other documents.

(b) *Cross references.* For provisions relating to the signing of returns, statements, or other documents required to be made by corporations and partnerships with respect to any tax imposed by subtitle A of the Code, see §§ 1.6062–1 and 1.6063–1, respectively. For provisions relating to the making of returns by agents, see paragraphs (a)(5) and (b) of § 1.6012–1; and to the making of returns for minors and persons under a disability, see paragraph (a)(4) of § 1.6012–1 and paragraph (b) of § 1.6012–3.

PAR. 18. Section 1.703–1 is amended by adding at the end of paragraph (b)(2) the following new subdivision:

§ 1.703–1 Partnership computations.

• • • • •

(b) *Elections of the partnership.* • • •

(2) *Exceptions.* • • •

(iii) Each partner who is a nonresident alien individual or a foreign corporation shall add his distributive share of income derived by the partnership from real property located in the United States, as described in section 871(d)(1) or 882(d)(1), to any such income derived by him and may elect under § 1.871–10 to treat all such income as income which is effectively connected for the taxable year with the conduct of a trade or business in the United States.

PAR. 19. Section 1.864–4 is amended by revising paragraph (c)(3)(i) to read as follows:

§ 1.864–4 U.S. source income effectively connected with U.S. business.

• • • • •

(c) *Fixed or determinable income and capital gains.* • • •

(3) *Application of the business-activities test*—(i) *In general.* For purposes of subparagraph (1) of this paragraph, the business-activities test shall ordinarily apply in making a determination with respect to income, gain, or loss which, even though generally of the passive type, arises directly from the active conduct of the taxpayer's trade or business in the United States. The business-activities test is of primary significance, for example, where (*a*) dividends or interest are derived by a dealer in stocks or securities, (*b*) gain or loss is derived from the sale or exchange of capital assets in the active conduct of a trade or business by an investment company, (*c*) royalties are derived in the active conduct of a business consisting of the licensing of patents or similar intangible property, or (*d*) service fees are derived in the active conduct of a servicing business. In applying the business-activities test, activities relating to the management of investment portfolios shall not be treated as activities of the trade or business conducted in the United States unless the maintenance of the investments constitutes the principal activity of that trade or business. See also subparagraph (5) of this paragraph for rules applicable to taxpayers conducting a banking, financing, or similar business in the United States.

* * * * *

PAR. 20. The following new section is added immediately after § 1.875–1:

§ 1.875–2 Beneficiaries of estates or trusts.

(a) [Reserved]

(b) *Exception for certain taxable years.* Notwithstanding paragraph (a) of this section, for any taxable year beginning before January 1, 1975, the grantor of a trust, whether revocable or irrevocable, is not deemed to be engaged in trade or business within the United States merely because the trustee is engaged in trade or business within the United States.

(c) [Reserved]

PAR. 21. Section 1.912 is amended to read as follows:

§ 1.912 Statutory provisions; exemptions for certain allowances.

SEC. 912. *Exemptions for certain allowances.* The following items shall not be included in gross income, and shall be exempt from taxation under this subtitle:

(1) *Foreign areas allowances.* In the case of civilian officers and employees of the Government of the United States, amounts received as allowances or otherwise (but not amounts received as post differentials) under—

(A) Title IX of the Foreign Service Act of 1946, as amended (22 U.S.C., sec. 1131 and following),

(B) Section 4 of the Central Intelligence Agency Act of 1949, as amended (50 U.S.C., sec. 403e),

(C) Title II of the Overseas Differentials and Allowances Act, or

(D) Subsection (e) or (f) of the first section of the Administrative Expenses Act of 1946, as amended, or section 23 of such Act.

(2) *Cost-of-living allowances.* In the case of civilian officers or employees of the Government of the United States stationed outside the continental United States (other than Alaska), amounts (other than amounts received under title II of the Overseas Differentials and Allowances Act) received as cost-of-living allowances in accordance with regulations approved by the President.

(3) *Peace corps allowances.* In the case of an individual who is a volunteer or volunteer leader within the meaning of the Peace Corps Act and members of his family, amounts received as allowances under section 5 or 6 of the Peace Corps Act other than amounts received as—

(A) Termination payments under section 5(c) or section 6(1) of such Act,

(B) Leave allowances,

(C) If such individual is a volunteer leader training in the United States, allowances to members of his family, and

(D) Such portion of living allowances as the President may determine under the Peace Corps Act as constituting basic compensation.

[Sec. 912 as amended by sec. 523(a), Overseas Differentials and Allowances Act (74 Stat. 802); sec. 201(a), Peace Corps Act (76 Stat. 215)]

PAR. 22. Section 1.6012–2 is amended by revising paragraph (g)(5) to read as follows:

§ 1.6012–2 Corporations required to make returns of income.

* * * * *

(g) *Returns by foreign corporations.* * * *

(5) *Effective date.* This paragraph shall apply for taxable years beginning after December 31, 1966, except that it shall not be applied to require (i) the filing of a return for any taxable year ending before January 1, 1974, which, pursuant to instructions applicable to the return, is not required to be filed or (ii) the amendment of a return for such a taxable year which, pursuant to such instructions, is required to be filed. For corresponding rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.6012–2(g) (Rev. as of Jan. 1, 1967).

REGULATIONS ON PROCEDURE AND ADMINISTRATION

PAR. 23. Section 301.6015 is amended by revising subsection (c) of section 6015, by redesignating subsection (i) of section 6015 as subsection (j), by adding a new subsection (i) to section 6015 immediately after subsection (h), and by revising the historical note, as follows:

§ 301.6015 Statutory provisions; declaration of estimated income tax by individuals.

SEC. 6015. *Declaration of estimated income tax by individuals.* * * *

(c) *Estimated tax.* For purposes of this title, in the case of an individual, the term "estimated tax" means—

(1) The amount which the individual estimates as the amount of the income tax imposed by chapter 1 for the taxable year (other than the tax imposed by section 56) plus

(2) The amount which the individual estimates as the amount of the self-employment tax imposed by chapter 2 for the taxable year, minus

(3) The amount which the individual estimates as the sum of any credits against tax provided by part IV of subchapter A of chapter 1.

* * * * *

(i) *Nonresident alien individuals.* No declaration shall be required to be made under this section by a nonresident alien individual unless—

(1) Withholding under chapter 24 is made applicable to the wages, as defined in section 3401(a), of such individual,

(2) Such individual has income (other than compensation for personal services subject to deduction and withholding under section 1441) which is effectively connected with the conduct of a trade or business within the United States, or

(3) Such individual is a resident of Puerto Rico during the entire taxable year.

(j) *Applicability.* This section shall be applicable only with respect to taxable years beginning after December 31, 1954; and sections 58, 59, and 60 of the Internal Revenue Code of 1939 shall continue in force with respect to taxable years beginning before January 1, 1955.

[Sec. 6015 as amended by sec. 74, Technical Amendments Act 1958 (72 Stat. 1660); sec. 5(a), Act of Sept. 14, 1960 (Pub. Law 86–779, 74 Stat. 1000); sec. 1(a)(1), Act of Sept. 25, 1962 (Pub. Law 87–682, 76 Stat. 575); sec. 102(a) Tax Adjustment Act 1966 (80 Stat. 62); sec. 103(j), Foreign Investors Tax Act 1966 (80 Stat. 1554); secs. 201(b)(13), 803(d)(7) and 944, Tax Reform Act 1969 (83 Stat. 586, 684, 729); sec. 209, Rev. Act 1971 (85 Stat. 517)]

[(b) *Declarations of estimated tax.* In the case of a taxable year beginning before [December 30, 1969], if any taxpayer is required to make a declaration or amended declaration of estimated tax, or to pay any amount or additional amount of estimated tax, by reason of the amendments made by [the Tax Reform Act of 1969], such amount or additional amount shall be paid ratably on or before each of the remaining installment dates for the taxable year beginning with the first installment date on or after [January 29, 1970]. With respect to any declaration or payment of estimated tax before such first installment date, sections 6015 [and] 6654 * * * of the Internal Revenue Code of 1954 shall be applied without regard to the amendments made by [the Tax Reform Act of 1969]. For purposes of this subsection, the term "installment date" means any date on which, under section 6153 * * * of such Code * * *, an installment payment of estimated tax is required to be made by the taxpayer. (sec. 948(b), Tax Reform Act 1969 (83 Stat. 729))]

PAR. 24. Section 301.6015–1 is amended to read as follows:

§ 301.6015–1 Declaration of estimated income tax by individuals.

For provisions relating to requirement of declarations of estimated income tax by individuals, see §§ 1.6015(a)–1 to 1.6015(j)–1, inclusive, of this chapter (Income Tax Regulations).

* * * * *

PAR. 33. Section 301.7701 is amended by revising section 7701(a)(20), by adding paragraphs (30), (31), (33), and (34) to section 7701(a), and by revising the historical note. These amended and added provisions read as follows:

§ 301.7701 Statutory provisions; definitions.

Sec. 7701. *Definitions.* (a) When used in this title where not otherwise distinctly expressed or manifest incompatible with the intent thereof—

* * * * *

(20) *Employee.* For the purpose of applying the provisions of section 79 with respect to group-term life insurance purchased for employees, for the purpose of applying the provisions of sections 104, 105, and 106 with respect to accident and health insurance or accident and health plans, for the purpose of applying the provisions of section 101(b) with respect to employees' death benefits, and for the purpose of applying the provisions of subtitle A with respect to contributions to or under a stock bonus, pension, profit-sharing, or annuity plan, and with respect to distributions under such a plan, or by a trust forming part of such a plan, the term "employee" shall include a full-time life insurance salesman who is considered an employee for the purpose of chapter 21, or in the case of services performed before January 1, 1951, who would be considered an employee if his services were performed during 1951.

* * * * *

(30) *U.S. person.* The term "United States person" means—

(A) A citizen or resident of the United States,

(B) A domestic partnership,

(C) A domestic corporation, and

(D) Any estate or trust (other than a foreign estate or foreign trust, within the meaning of section 7701(a)(31)).

(31) *Foreign estate or trust.* The terms "foreign estate" and "foreign trust" mean an estate or trust, as the case may be, the income of which, from sources without the United States which is not effectively connected with the conduct of a trade or business within the United States, is not includible in gross income under subtitle A.

* * * * *

(33) *Regulated public utility.* The term "regulated public utility" means—

(A) A corporation engaged in the furnishing or sale of—

(i) Electric energy, gas, water, or sewerage disposal services, or

(ii) Transportation (not included in subparagraph (C)) on an intrastate, suburban, municipal, or interurban electric railroad, on an intrastate, municipal, or suburban trackless trolley system, or on a municipal or suburban bus system, or

(iii) Transportation (not included in clause (ii)) by motor vehicle—

if the rates for such furnishing or sale, as the case may be, have been established or approved by a State or political subdivision thereof, by an agency or instrumentality of the United States, by a public service or public utility commission or other similar body of the District of Columbia or of any State or political subdivision thereof, or by a foreign country or an agency or instrumentality or political subdivision thereof.

(B) A corporation engaged as a common carrier in the furnishing or sale of transportation of gas by pipeline, if subject to the jurisdiction of the Federal Power Commission.

(C) A corporation engaged as a common carrier (i) in the furnishing or sale of transportation by railroad, if subject to the jurisdiction of the Interstate Commerce Commission, or (ii) in the furnishing or sale of transportation of oil or other petroleum products (including shale oil) by pipeline, if subject to the jurisdiction of the Interstate Commerce Commission or if the rates for such furnishing or sale are subject to the jurisdiction of a public service or public utility commission or other similar body of the District of Columbia or of any State.

(D) A corporation engaged in the furnishing or sale of telephone or telegraph service, if the rates for such furnishing or sale meet the requirements of subparagraph (A).

(E) A corporation engaged in the furnishing or sale of transportation as a common carrier by air, subject to the jurisdiction of the Civil Aeronautics Board.

(F) A corporation engaged in the furnishing or sale of transportation by common carrier by water, subject to the jurisdiction of the Interstate Commerce Commission under part III of the Interstate Commerce Act, or subject to the jurisdiction of the Federal Maritime Board under the Intercoastal Shipping Act of 1933.

(G) A railroad corporation subject to part I of the Interstate Commerce Act, if (i) substantially all of its railroad properties have been leased to another such railroad corporation or corporations by an agreement or agreements entered into before January 1, 1954, (ii) each lease is for a term of more than 20 years, and (iii) at least 80 percent or more of its gross income (computed without regard to dividends and capital gains and losses) for the taxable year is derived from such leases and from sources described in subparagraphs (A) through (F), inclusive. For purposes of the preceding sentence, an agreement for lease of railroad properties entered into before January 1, 1954, shall be considered to be a lease including such term as the total number of years of such agreement may, unless sooner terminated, be renewed or continued under the terms of the agreement, and any such renewal or continuance under such agreement shall be considered part of the lease entered into before January 1, 1954.

(H) A common parent corporation which is a common carrier by railroad subject to part I of the Interstate Commerce Act if at least 80 percent of its gross income (computed without regard to capital gains or losses) is derived directly or indirectly from sources described in subparagraphs (A) through (F), inclusive. For purposes of the preceding sentence, dividends and interest, and income from leases described in subparagraph (G), received from a regulated public utility shall be considered as derived from sources described in subparagraphs (A) through (F), inclusive, if the regulated public utility is a member of an affiliated group (as defined in section 1504) which includes the common parent corporation.

The term "regulated public utility" does not (except as provided in subparagraphs (G) and (H)) include a corporation described in subparagraphs (A) through (F), inclusive, unless 80 percent or more of its gross income (computed without regard to dividends and capital gains and losses) for the taxable year is derived from sources described in subparagraphs (A) through (F), inclusive. If the taxpayer establishes to the satisfaction of the Secretary or his delegate that (I) its revenue from regulated rates described in subparagraph (A) or (D) and its revenue derived from unregulated rates are derived from the operation of a single interconnected and coordinated system or from the operation of more than one such system, and (II) the unregulated rates have been and are substantially as favorable to users and consumers as are the regulated rates, then such revenue from such unregulated rates shall be considered, for purposes of the preceding sentence, as income derived from sources described in subparagraph (A) or (D).

(34) *Estimated income tax.* The term "estimated income tax" means—

(A) In the case of an individual, the estimated tax as defined in section 6015(c), or

(B) In the case of a corporation, the estimated tax as defined in section 6154(c).

[Sec. 7701 as amended by sec. 22 (g) and (h), Alaska Omnibus Act (73 Stat. 140, 147); sec. 18 (i) and (j), Hawaii Omnibus Act (74 Stat. 416); sec. 108(t), Social Security Amendments 1960 (74 Stat. 941); secs. 6(c) and 7(h), Rev. Act 1962 (76 Stat. 982, 988); sec. 5, Act of Oct. 23, 1962 (Pub. Law 87-870, 76 Stat. 1161); secs. 204(a)(3) and 234 (b)(3), Rev. Act 1964 (78 Stat. 36, 114); sec. 102(b)(5), Tax Adjustment Act 1966 (80 Stat. 64); sec. 108(1)(1), Foreign Investors Tax Act 1966 (80 Stat. 1554); sec. 108 (e)(3), Revenue and Expenditure Control Act 1968 (82 Stat. 264)]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 280]

EASTERN PACIFIC TUNA FISHERIES

Proposed Continuation of Experimental Program

The resolution adopted by the Inter-American Tropical Tuna Commission for 1975 recommends to continue in 1975 the experimental fishing program in effect since 1969.

The Commission's resolution for 1975, as in 1974, allows vessels of 400 tons carrying capacity or less to fish for yellowfin tuna within the regulatory area during the closed season under such restrictions as may be necessary to limit the catch of yellowfin by such vessels to 6000 tons during 1975. Regarding this allotment, the National Marine Fisheries Service will entertain comments from the industry or interested persons on changes to the present distribution of the allotment to vessels under 400 short tons carrying capacity. The total allotment tonnage for distribution for 1975 is 6700 short tons. The additional 700 tons allotted to the vessels of 400 short tons carrying capacity or less is expected to be available from the unused portion of the overall country 15 percent incidental catch.

Experience gained since the last publication of amendments to the yellowfin tuna regulations on May 1, 1974, indicates a need for further amendments to the regulations to make them more effective in implementing the yellowfin conservation recommendations of the Commission.

An explanation of the proposed amendments follows:

1. In § 280.1(p) a new definition is added to eliminate certifications required by § 280.9(f-g) which are not necessary to the yellowfin conservation program.

2. Section 280.6(b) and § 280.7(d)(1) are amended in order to adopt a constant reporting time frame. This is especially important because some foreign countries may wish to utilize the United States reporting procedures as an aid to enforcement of their regulations in 1975. The time designation is felt to be universally used and understood.

3. Section 280.7(a)(1) is amended to immediately implement emergency measures for 1975 which may be communicated by the Director of Investigations. The Commission recognized in its Resolution for 1975 that any emergency measures adopted at a special meeting (tentatively scheduled for March 3, 1975) must be implemented promptly by the Contracting Governments if such measures are to have the conservation effects intended. Interested persons are therefore notified that publication of such emergency measures in accordance with normal rulemaking is expected to be impracticable and that good cause is expected to exist for making such measures effective less than 30 days from publication.

4. Section 280.7(a)(1) is amended to qualify vessels which are fishing off Africa when the open season for yellowfin tuna ends in 1975 for a last open season trip by eliminating the requirement that such vessels must be in an actual port on the closure date. The in-port requirement for such vessels is not necessary to the IATTC conservation program because the location of these vessels in the Atlantic or Caribbean at the closure precludes the potential for illegal fishing in the regulatory area prior to the departure of such vessels on their last open season trip. However, it should be noted that the proposed amendment does not eliminate the other requirements of § 280.7(a)(1-2), including the condition that the vessel must have completed a voyage in the regulatory area during the current open season or the previous year, and that departure from an actual port must be made within 30 days after the closure and under the conditions of § 280.7(a)(2).

5. Section 280.7(b)(3) is amended to better enable us to keep proper records of the yellowfin catches made against the bait and jig boat allotment. A large number of bait and jig boats are not members of any boat owner's association; and some have fished on the allotment without our knowledge, with the result that the bait boat allotment for 1974 was exceeded. Without notification prior to a vessel's leaving on such a trip, we would need to compensate for these unknown trips, with a possibility that the reversion to a 15 percent incidental catch would occur sooner than was actually necessary.

6. Section 280.7(f)(1) is amended to spell out a vessel's obligations and alleviate the problems resulting from the failure of vessels to provide NMFS with timely notification prior to unloading.

7. Section 280.7(h) is revised to stop the sale in a foreign country of yellowfin tuna which was taken in excess of the closed season restrictions.

Before final adoption of amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Regional Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, CA 90731, on or before January 15, 1975.

Interested persons will also be afforded an opportunity to comment orally on the proposed amendments at a public hearing to be held in the United Portuguese Club, 2818 Addison Street, San Diego, California, beginning at 9:30 a.m., January 10, 1975. Any person who intends to testify at this hearing is requested to furnish in writing prior to the hearing his name and the name of the organization he represents, if any, to the said Regional Director.

The proposed amendments are issued under the authority contained in subsection (c) of section 6 of the Tuna Conventions Act of 1950, as amended (16 U.S.C. 955(c)), as modified by Reorganization Plan No. 4, effective October 3, 1970 (35 FR15627).

Issued at Washington, D.C., and dated December 17, 1974.

JACK W. GEHRINGER,
Acting Director.

The proposed amendments are described below.

1. Section 280.1 is amended by adding a new definition, reading as follows:

§ 280.1 Definitions.

* * * * *

(p) Port facility in the Americas. All port facilities in North, South, and Central America, including all the Caribbean ports, but excluding ports in Argentina, Brazil, and Uruguay.

§ 280.6 [Amended.]

2. Section 280.6(b) is amended by changing the phrase "* * * between 0800 and 1000 hours local California time." to read "* * * between 1600 Greenwich Mean Time (G.m.t.) and 1800 G.m.t."

§ 280.7 [Amended]

3. Section 280.7(a)(1) is amended by the addition of a new section to the end of the existing language, to read as follows: ": *Provided, however,* That if the Director of Investigations, as a result of emergency measures adopted at a special meeting of the Commission, notifies the Contracting Governments to the Convention that further unrestricted fishing for yellowfin tuna shall cease, or that other measures must be taken to protect the stocks, every fishing vessel at sea, having yellowfin tuna aboard in excess of the incidental catch limitations provided in § 280.7(b), shall return directly without delay to its home port or port of departure to unload or to receive an inspection by a designated agent of the National Marine Fisheries Service. This

requirement shall take effect upon publication of notice in the FEDERAL REGISTER by the Service Director, or on a date to be specified in such notice. Any vessel failing to comply with the above requirements shall be restricted to the incidental catch limitations of § 280.7(b) for its entire fishing voyage; vessels in port on the effective date of such notice will not be allowed an additional unrestricted fishing voyage, but shall be subject to the incidental catch limitations of § 280.7(b). Other, less restrictive, measures may be specified, in the manner provided above, as necessary to implement the notification from the Director of Investigations."

4. Section 280.7(a)(1) is amended by the addition of a new sentence at the end of the paragraph as amended in (3) above, to read as follows: "A vessel which is in the Atlantic Ocean or the Caribbean Sea at the closure shall, for the purposes of this paragraph (a)(1) of § 280.7 only, be considered to be 'in port'."

5. Section 280.7(b)(3) is amended by the addition of a new sentence between the existing second and third sentences to read as follows: "During the period of the closed season that bait and jig boats are fishing for their allotments, all such boats must notify the Regional Director when they depart port on a fishing voyage."

6. Section 280.7(d)(1) is amended by changing the phrase "* * * between 0800 and 1000 hours local California time." to read "* * * between 1600 Greenwich Mean Time (G.m.t.) and 1800 G.m.t."

7. Section 280.7(f)(1) is amended by the addition of a new sentence before the last sentence of the paragraph, to read as follows: In addition, the Regional Director shall be notified not less than 48 hours in advance of the date and place of any unloadings from inspected vessels.

8. Section 280.7(h) is revised to read as follows: (h) All fishing vessels wishing to sell or deliver in a foreign country fish caught in the Pacific Ocean, either within or outside the regulatory area, must first obtain express permission from the Regional Director prior to unloading. Requests for such permission shall be made at least 48 hours prior to the desired date of such sale or delivery and shall include the tonnage by species to be unloaded, whether such fish were caught within or outside the regulatory area, and the desired date and place of unloading. The Regional Director may deny permission or set such conditions, including a different date or place of unloading, as are necessary to insure compliance with the provisions of these regulations.

CIVIL SERVICE COMMISSION

[5 CFR Part 890]

COMPREHENSIVE HEALTH BENEFITS PLAN NETWORKS

Proposed Approval Procedures

Notice is hereby given that under authority of section 8913 of title 5, United States Code, it is proposed to add § 890.204 to Subpart B of Part 890 of Chapter I of Title 5 of the Code of Federal Regulations to provide for the approval of comprehensive health benefits plan networks.

It is the opinion of the Civil Service Commission that the present health benefits statute (chapter 89 of title 5, United States Code) permits the Commission to enter into contracts for one or more networks of group-practice or individual-practice comprehensive health benefit plans. However, an amendment to the existing health benefits regulations is necessary, to establish the rules and procedures for such networks to be approved for participation in the Federal Employees Health Benefits Program, and to give public notice that the Civil Service Commission will entertain applications by organizations interested in offering such networks under this program.

Carriers and other interested persons may submit written comments, objections, or suggestions to the Bureau of Retirement, Insurance, and Occupational Health, U.S. Civil Service Commission, Washington, D.C. 20415, on or before January 22, 1974.

Accordingly, it is proposed to amend Part 890 by adding a new § 890.204 to Subpart B to read as follows:

§ 890.204 Comprehensive Plan Networks.

(a) *Discretionary approval.* The Commission may, in its discretion, approve the offering by a qualified carrier of a network of five or more group-practice plans or a network of five or more individual-practice plans when it determines that approval would afford employees and annuitants in the geographic areas to be served by the plans an additional choice in the method of obtaining health care. Letter application for approval may be made by the carrier to the Commission. Participation of an approved network becomes effective on the January 1st which is (1) at least nine months after the Commission receives the application and (2) at least six months after the Commission has received all evidence to demonstrate that the carrier and plans in the network have met all requirements for approval.

(b) *Qualified carriers.* For purposes of this section a carrier is a legal entity defined in section 8901(7) of title 5, United States Code, and which provides assurances satisfactory to the Commission that it has:

(1) At least five years recent successful experience in operating a health benefits plan of the indemnity, service, group- or individual-practice type.

(2) Financial resources sufficient to guarantee the solvency of each plan in the network it offers, and

(3) Arrangements in effect to monitor the operations, including the administration and prompt availability and quality of care, of each plan in the network it offers and the ability to promptly correct deficiencies in such operations.

(c) *Compliance with law and regulations.* Each carrier offering a network of plans must agree, in its own behalf and in behalf of each plan in the network, to comply with those provisions of chapter 89 of title 5, United States Code and of this Part which, in the judgment of the Commission, apply to their operation and are not inconsistent with provisions of this section.

(d) *Carrier certification.* No offering of a network of plans shall be approved and no new plan shall be added to an existing network unless the carrier certifies, in the form specified by the Commission, either that each plan is a "qualified health maintenance organization" as that term is defined in section 1310 (d) of the Health Maintenance Organization Act of 1973, or that, as of the date of certification, it has—

(1) Been in operation for at least one year,

(2) At least 5,000 enrollees, exclusive of family members,

(3) Contracts to provide prepaid health care with at least ten employers, and

(4) A formal procedure in effect for adjusting complaints from enrollees.

(e) *Additional requirements for group-practice networks.* No offering of a network of group-practice plans shall be approved and no plan shall be added to an existing network unless the carrier certifies, in the form specified by the Commission, that each such plan:

(1) Has physicians practicing as a group in a common center or centers,

(2) Includes physicians representing at least three major medical specialties who receive at least 75 percent of their professional income from prepaid funds,

(3) Provides a full range of medical care, including preventive care, and reasonable indemnities for emergency care obtained outside the area served by the plan, and

(4) Is community-rated.

(f) *Additional requirements for individual-practice networks.* No offering of a network of individual-practice plans shall be approved and no plan shall be added to an existing network unless the carrier certifies, in the form specified by the Commission, that each such plan:

(1) Has contracts or other binding agreements with participating physicians who constitute at least 50 percent of the physicians in the area served by the plan which require their acceptance of payments by the plan as full or substantially full payment for covered services,

(2) Provides a full range of medical care, including in-hospital services, general home and office care, out-of-hospital diagnostic procedures, preventive care, and reasonable indemnities for care, obtained from nonparticipating physicians.

(3) Pays its participating physicians on the same basis (e.g., fee-for-service, periodic per capita payment), as all other plans in the network, and

(4) Assumes 100 percent of the financial risk attributable to providing physician and related care (but not necessarily services and supplies provided and

billed for by nonphysician providers), except that the carrier may assume such risk for all plans in the network.

(g) *Uniform benefits and enrollment charges.* All plans in a network shall provide the same benefits at the same enrollment charges.

(h) *Enrollment charges for group-practice networks.* Under such formulae as may be agreed to by the carrier and the Commission, the enrollment charges for a group-practice network shall be community-rated and be developed by averaging the community rates of each of the plans in the network, adjusted by such increments and decrements as are appropriate to account for differences between the benefits and features offered Federal employees and those offered other subscribers in the community, with each such rate weighted by the number of self-only and self-and-family enrollees in each plan in the network as of June 30 preceding the year in which the enrollment charges apply. For a newly approved network, or for a plan newly added to a network, the plans', or plan's, weighted adjusted community rate shall be used in computing the average. An increment, as agreed upon by the carrier and the Commission, for the reasonable and necessary operating expenses of the carrier shall be included in the development of enrollment charges but increments for risk, service, or similar charges to be retained by the carrier or for capital expenditures or the accumulation of reserves (other than the contingency reserve) shall not be included.

(i) *Enrollment charges for individual-practice networks.* Enrollment charges for an individual-practice network may be community-rated and developed as provided in paragraph (h) of this section for a group-practice network if the plans in the network pay participating physicians on other than a fee-for-service basis, or they may be experience-rated so that any net gains, plus earnings from their investment, or losses on the operations of the network in one year are taken into account in developing the enrollment charges for the next year. For experience-rated networks, increments, as agreed upon by the carrier and the Commission, for maintaining reserves considered prudent by agreement of the Carrier and the Commission, and for the actual, reasonable, and necessary operating expenses of the carrier and the plans shall be included in the development of enrollment charges but increments for risk, service, or similar charges to be retained by the carrier or the plans shall not be included. Reserves shall be prudently invested by the carrier and earnings credited to the reserves. Upon termination of an experience-rated network any reserves or operating gains, plus earnings thereon, held by the carrier after all its liabilities attributable to the operation of the network have been paid shall revert to the contingency reserve for the network in the Employees Health Benefits Fund.

(j) *Move from the area served by network plan.* An employee or annuitant enrolled in a network plan who moves out of the area served by the plan into an area served by another plan in the same network continues the enrollment and is entitled to benefits from the other plan. If the move is to an area not served by another plan in the same network, he may change plans under § 890.301.

(k) *Plans added to network.* Each plan added to a network must be approved in advance by the Commission. Letter application for approval, may be made by the carrier to the Commission. Addition of an approved plan becomes effective on the January 1st which is (1) at least nine months after the Commission receives the application and (2) at least six months after the Commission receives all certifications required for approval.

(l) *Summary withdrawal of approval.* The Commissioners may, in their discretion, summarily withdraw approval of a plan (or plans) in a network if they find that the plan is not in compliance with the applicable provisions of chapter 89 of title 5, United States Code or of this part, or that the certifications mentioned in paragraph (d) and (e) or (f) of this section are unwarranted, or that the continued offering of the plan is inimical to Federal employees or annuitants or to the Federal Employees Health Benefits Program.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 310-3]

CALIFORNIA

Approval and Disapproval of Compliance Schedules

On May 31, 1972 (37 FR 10842), September 22, 1972 (37 FR 19812), and May 14, 1973 (38 FR 12702), pursuant to Section 110 of the Clean Air Act, as amended (42 U.S.C. § 1857c-5) and 40 CFR Part 51, the Administrator approved and promulgated portions of the California plan for the implementation of the national ambient air quality standards. On June 19, September 4 and 19, and October 18, 1974, after notice and public hearings, the Governor of California through his designee submitted to the Environmental Protection Agency (EPA) revisions to the state compliance schedule portion of the approved plan. This publication proposes that these revisions be approved, with specific exceptions discussed below, pursuant to section 110 of the Clean Air Act and 40 CFR 51.8.

Seventy-four compliance schedules were submitted. Two of the schedules are ambiguous regarding the specific regulations with which the subject sources are required to comply. Therefore no formal action will be taken by EPA regarding these schedules pending clarification by the State. One schedule requires compliance with a regulation for the control of pollutants for which the Administrator of EPA has not established national standards. Since EPA has no authority to promulgate or enforce such a regulation, it will take no formal action regarding the compliance schedule. However, the lack of such action by EPA in no way affects the ability of the state or local air pollution control agency to enforce the schedule.

It is proposed to disapprove 2 schedules, Monolith Portland Cement Company and Simpson Lee Paper Company, because the final compliance date in each schedule extends beyond the allowable attainment date as specified in 40 CFR 52.238.

The remaining 69 schedules have been found to satisfy the requirements of section 110 of the Clean Air Act and 40 CFR Part 51. However, 40 of these 64 schedules have expired and the affected sources are now required to be in compliance with the applicable air pollution control regulations. Therefore, EPA will take no action with regard to the compliance schedules submitted for these sources. It is proposed that the remaining 29 schedules listed below be approved as revisions to the State plan.

Each proposed compliance schedule revision establishes a new date by which an individual air pollution source must comply with an emission limitation specified by the implementation plan. This date is indicated in the table below, under the heading "Final Compliance Date." In some cases, the schedule includes incremental steps towards compliance with the specified regulations. While the table below does not include these interim dates, the actual compliance schedule does. The increments of progress, as well as the final compliance date, are legally enforceable by the Administrator pursuant to section 113 of the Clean Air Act, as amended.

The heading "Effective Date" in the table below refers to the date the compliance schedule becomes effective for purposes of federal enforcement. The entry "Immediately" under that heading indicates that the schedule will be federally enforceable when the final promulgation of the schedule becomes effective.

Proposed compliance schedule revisions listed below are available for public inspection at the California Air Resources Board, at the office of EPA, Region IX, and at EPA's Washington, D.C. office, at the addresses listed below. An evaluation report setting forth EPA's position on each of the 74 schedules is also available at the office of EPA, Region IX.

State of California Air Resources Board
1709 11th Street
Sacramento CA 95814

Environmental Protection Agency, Region IX
Enforcement Division
100 California Street
San Francisco CA 94111

Environmental Protection Agency
Division of Stationary Source Enforcement
Room 3304
401 M Street SW.
Washington DC 20460

Interested persons are encouraged to submit written comments on any proposed compliance schedule. All comments postmarked on or before January 22, 1974, will be considered by EPA prior to finalizing this proposed rulemaking. Comments should be addressed to: Director, Enforcement Division, EPA, Region IX, 100 California Street, San Francisco, California 94111. All comments will be available for public inspection during business hours at the above address.

This proposed rulemaking is issued under the authority of section 110(a) of the Clean Air Act, as amended (42 U.S.C. 1857c-5(a)).

Dated: December 11, 1974.

PAUL DEFALCO,
Regional Administrator.

It is proposed to amend Part 52 of Chapter I, Title 40 of the Code of Federal Regulations as follows:

Subpart F—California

1. In § 52.220, paragraph (c) is amended as follows:

§ 52.220 Identification of plan.

* * * * *

(c) * * *

(8) Supplemental information (compliance schedules) was submitted by the California Air Resources Board on December 27, 1973, February 19, April 22, June 7 and 19, September 4 and 19, and October 18, 1974.

2. In § 52.240, paragraph (g) is amended by adding the following schedules to the table in subparagraph (1):

§ 52.240 Compliance schedules.

[40 CFR Part 52]

[FRL 309-8]

GEORGIA

Approval and Promulgation of Implementation Plans

Section 110 of the Clean Air Act and the implementing regulations of 40 CFR Part 51 require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout its territory. Each such plan is to contain legally enforceable compliance schedules setting forth the dates by which all sources must be in compliance with any applicable requirements of the plan.

On February 13, 1974 (39 FR 5504), the Administrator published as proposed rulemaking a number of individual compliance schedules submitted by the State of Georgia pursuant to these requirements. Additional schedules were proposed on October 3, 1974 (39 FR 35681). At that time the Administrator noted that the State had, on August 2, 1974, submitted a number of schedules which had not received a public hearing. These schedules, in the form of temporary operating permits, were subsequently resubmitted on November 7, 1974 after notice and public hearing; additional temporary operating permits were submitted for the first time on the same date. On October 8, 1974, Georgia submitted a number of temporary operating permits for sources previously subject to consent orders. These schedules are now offered as proposed rulemaking, and the public is invited to comment on them.

Each of the proposed compliance schedules identified below establishes a date by which an individual air pollution source must attain compliance with an emission limitation of the State implementation plan. This date is indicated under the heading "Final Compliance Date". In most cases the schedule includes incremental steps toward compliance, with interim dates for achieving these steps. While the table below does not list these dates, the actual schedules do. The notation "Immediately" under the heading "Effective Date" means that the schedule will become Federally enforceable immediately upon its approval by the Administrator.

The compliance schedules listed below are available for public inspection at the following locations:

Freedom of Information Center
Environmental Protection Agency
401 M Street, SW.
Washington, D.C. 20460

An evaluation of any schedule may be obtained by consulting personnel of the Agency's Region IV Air Programs Office at the Atlanta address given above.

Each of the schedules was adopted by the State and submitted to the Agency after notice and public hearing as required by 40 CFR 51.4. Each also satisfies the substantive requirements of 40 CFR 51.6 and 51.15 pertaining respectively to plan revisions and compliance schedules, and is consistent with the approved control strategies of the Georgia plan. None of these schedules involves regulations now under litigation.

All interested parties are encouraged to submit written comments on these proposed compliance schedules. To be considered, such comments must be received on or before January 22, 1975. After carefully weighing the relevant comments received and all other available information in the light of requirements set forth in the Clean Air Act and in the implementing regulations of 40 CFR Part 51, the Administrator will take approval/disapproval action on the schedules. Comments should be addressed to the attention of John Eagles at the Agency's Region IV Air Programs Office (address given above).

(Sec. 110(a), Clean Air Act (42 U.S.C. 1857c-5(a)))

Dated: December 13, 1974.

JACK E. RAVAN,
Regional Administrator,
Region IV.

It is proposed to amend Part 52 of Chapter I, Title 40, Code of Federal Regulations, as follows:

Subpart L—Georgia

§ 52.570 [Amended]

1. Section 52.570(c) is amended by inserting in paragraph (4) the following dates in proper chronological order: October 8 and November 7 (1974).

2. Section 52.576 is added as follows:

§ 52.576 Compliance schedules.

(a) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.6 and § 51.15 of this chapter. All regulations cited are air pollution control regulations of the State.

[40 CFR Part 52]

[FRL 311-8]

GEORGIA

Approval and Promulgation of Implementation Plans

On May 31, 1972 (37 FR 10842), the Administrator approved portions of the Georgia plan to attain and maintain the national ambient air quality standards. The State has since adopted certain changes in its regulations and now proposes to make those changes part of its implementation plan. The State also proposes to remove one regulation from the plan as being unnecessary to attain and maintain the national ambient air quality standards. All proposed revisions have met the procedural requirements of 40 CFR Part 51, pertaining to public hearings and plan revisions, and were submitted for the Agency's approval on July 23, 1974. The purpose of this notice is to describe the proposed revisions and to invite public comment on them.

Subsection 391-3-1-.02(2)(a), *General Provisions*, is revised to include an explicit statement that whenever more than one section of the regulations can be applied to a source's emissions, the more stringent one will take precedence.

Subsection 391-3-1.02(2)(g), *Sulfur Dioxide*, is revised to state that no source is exempted from the emission limits defined in paragraph (g)(1), and further revised to explicitly state that sources subject to this regulation must also meet the sulfur-in-fuel limitation of paragraph (g)(3), which remains unchanged, in addition to the provisions of paragraphs (g)(1) and (g)(2). A new paragraph (g)(4) will, however, allow the sulfur-in-fuel limit to be exceeded provided that sulfur oxide removal technology is used to reduce sulfur oxide emissions to that level which would be achieved by burning fuel specified in paragraph (g)(3) without sulfur oxide removal.

The State also proposes to remove from its implementation plan subsection 391-3-1-.02(2)(l) which provides emission limitations for nitrogen dioxide from nitric acid plants. Analysis performed since the original classification of certain areas of the State as Priority I—air quality poor enough to produce health effects—for nitrogen dioxide has led the Administrator to reclassify them as Priority III—no damage to health or welfare—(39 FR 16344). Therefore, the Agency does not require a control strategy or supporting regulations for emission of this pollutant from stationary sources. These emission limits will remain a part of the State regulations and will continue to be enforceable by the State, but the Agency will not have the power to enforce them if the present proposal is approved.

Copies of the proposed changes may be examined at the following locations during normal business hours:

Air Programs Office
Environmental Protection Agency
1421 Peachtree Street, NE.
Atlanta, Georgia 30309

Air Quality Control Section
Environmental Protection Division
Georgia Department of Natural Resources
19 Hunter Street, SW.
Atlanta, Georgia 30334

An evaluation of these changes and their effects can be obtained by consulting personnel of the Agency's Region IV Air Programs Office at the above location.

Interested persons are encouraged to submit written comments on the proposed plan revisions. After carefully weighing relevant comments and all other available information in the light of requirements set forth in section 110 (a) of the Clean Air Act and in the implementing regulations of 40 CFR Part 51, the Administrator will take approval/disapproval action on the Georgia proposals. Comments will be accepted on or before January 22, 1975. They should be addressed to Air Programs Office, Environmental Protection Agency, Region IV, 1421 Peachtree Street, NE., Atlanta, Georgia 30309, Attention: John Eagles.

(Sec. 110(a), Clean Air Act, (42 U.S.C. 1857 c-5(a)))

Dated: December 13, 1974.

JACK E. RAVAN,
Regional Administrator,
Region IV.

[40 CFR Part 85]

[FRL 373-1]

COVERAGE OF MOTOR VEHICLE CERTIFICATE OF CONFORMITY

Notice of Proposed Rulemaking

I. *Introduction.* Since the beginning of the US EPA Motor Vehicle Certification Program there has been a series of apparent misunderstandings between EPA and the auto industry as to the degree of similarity that must exist between production vehicles and vehicles described in the application for certification before the certificate of conformity can be deemed to cover the production vehicles. Clearly, such similarity is of concern to the auto manufacturers because the regulations and the certificate of conformity currently provide that the certificate "covers only those new motor vehicles which conform, in all material respects, to the design specifications that applied to those vehicles described in the application for certification" (emphasis added). (Certificates of earlier model years contained language which was different, but was intended to mean the same thing.)[1] Section 203(a)(1) of the Clean Air Act provides a civil fine of up to $10,000 for each uncertified vehicle introduced into commerce.

The misunderstandings mentioned above generally involved "running changes" made by the vehicle manufacturer to production vehicles after certification and have in our opinion resulted, for the most part, from the lack of express guidance from EPA as to what is meant by the phrase "conform, in all material respects, to the design specifications."

One particular question has involved whether production vehicles which fall in a higher inertia weight class[2] than the prototype with respect to which the relevant certificate of conformity was issued are covered by that certificate.

Although we believe that in the vast majority of cases a manufacturer will be able to determine from its general experience with the certification program and EPA administration of it when a given vehicle departs too far from the design of the prototype to be considered covered by the certificate, there are obvious advantages to spelling out in a precise and definite manner exactly which production vehicles are covered by a certificate of conformity and which are not. The regulations proposed today attempt to do this.

II. *Background*—a. *Certification.* The theory of the certification process is: If prototype vehicles demonstrate compliance with the emission standards, then production vehicles which have essentially the same design as the tested vehicles should also meet the prescribed standards and are, therefore, covered by the certificate of conformity issued on the basis of the prototype testing. Then, to the extent that production vehicles are actually similar to certification prototypes, and to the extent that certification testing is representative of the actual use of production vehicles, the intent of the Act—that pollution from vehicles be controlled to the levels contemplated by the section 202 standards—is served.

The most comprehensive application of the certification theory would require that every configuration of production vehicles be represented in certification testing and that every production vehicle be exactly like its tested counterpart in all features that affect emission performance.

For several practical reasons, this comprehensive application is significantly different from either the optimum or the practiced application. First, there is a very large number of conceivable combinations of optional features (configurations) which would necessitate testing many more vehicles than the present regulations or Agency resources permit. Second, certification vehicles are constructed using processes which are different from the construction processes used in mass production, and the consequential differences in emission characteristics between prototype and production vehicles of identical configurations can be greater than the differences between configurations. Third, because of the inherent difference between certification testing and the way vehicles are actually used, the benefit of such extensive testing is questionable.

Fortunately, the drafters of the Clean Air Act apparently realized the limitations associated with the theory of certification and provided other means by which conformity with the regulations under which a certificate is issued could be determined and nonconformity remedied. Specifically, the other means are the assembly-line test of section 206 and the in-use warranty test and recall provisions of section 207.

Notwithstanding its inherent limitations, the certification process was intended to have meaning. To permit production vehicles to be different from the certification vehicles to any extent or degree that suits the manufacturers would render the entire certification process a sham. But the precise similarity between production vehicles and prototypes that is required could profitably be the subject of further clarification.

III. *Discussion.*—a. *Running change.* A running change is a design change made to production vehicles after a certificate of conformity covering such vehicles has been issued. Such changes are provided for in the regulations at 40 CFR 85.075–33 and –34.[3] These sections provide that any "change" in production vehicles in respect to certain parameters and systems specified elsewhere (§ 85.075–5(a)(3) and (b)(3)) in the regulations are to be reported to the Administrator in order to permit him "to determine, on the basis of testing that he may require or conduct, whether the production vehicle, as modified, would still be covered by the certificate of conformity then in effect."

There are at least three problems that exist in enforcing these regulations. First, the exact reference point from which a change is to be determined is not specified. This deficiency in the regulations gives rise to the question: Are change reports required when the change creates a difference between the changed production vehicle and (1) the preceeding production vehicles (as the language of § 85.075–33 suggests), the configuration of which may or may not have been tested as a prototype, (2) the certification vehicle which "represented" that production vehicle configuration according to § 85.075–30(b)(1), or (3) The description of that vehicle's configuration contained in the application for certification? Second, the degree of change to the referenced parameters allowed (1) Before reporting is required and (2) Before certification terminates is not clear. This has led to wide variety in the reporting practices of manufacturers. Third, the phrase "still be covered by a certificate of conformity" suggests that the degree (or effect) of a change which requires reporting is less than or different from that which causes certificate coverage to terminate. The implication is that the results of emission testing (or engineering evaluation with respect to probable emissions effect) will be determinative of certificate coverage.

Problems (1) and (2) are definitional shortcomings. We propose to resolve them by adding a new Appendix VII to Part 85 containing a list of vehicle parameters and specifications which may reasonably be expected to affect emissions. These parameters and specifications must currently be described in some detail in Part I of a manufacturer's certification application. The regulations would then specify that (1) "changes" will be determined by taking the specifications and parameters listed in Appendix VII, as described in the Part I application, as a starting point, and (2) that any change to a production vehicle which caused the description of these specifications and parameters contained in the corresponding Part I to be an inaccurate description as applied to that vehicle would both (i) trigger the reporting requirement and (ii) render that vehicle uncertified unless the Administrator took formal action to extend the coverage of the certificate.

This approach, we believe, has advantages both for the manufacturer and

---

[1] For a discussion of this change in language, see 39 FR 7545 (Feb. 27, 1974).

[2] Inertia weight class is a range of loaded vehicle weights which determine the setting on the dynamometer used in conducting the certification emissions tests. The dynamometer simulates the resistance which the vehicle must overcome during the emissions test. Generally speaking, the higher the inertia weight setting for a given vehicle, the higher the exhaust emissions and fuel consumption.

[3] All discussion in this preamble is keyed to the section numbers in Subpart A of 40 CFR Part 85. Identical changes are, of course, proposed for the six other parallel subparts of Part 85 setting standards for categories of vehicles and engines other than light duty vehicles (B, C, D, H, I, and J).

for EPA. The manufacturer is provided with an explicit and easily applicable "touchstone" which can be used in its production operations to ensure that the preconditions of certification are met. At the same time, EPA's enforcement task will be easier since the regulations will avoid the necessity of proving, on a case-by-case basis, whether the particular departure from the design of the prototype that is at issue is enough to support a finding that the certificate coverage does not extend to it. Though this approach does leave open the possibility that some design changes which cause standard to be exceeded may occur without voiding the coverage of the certificate, we believe that the list is comprehensive enough to minimize the possibilities of such an occurrence. However, comments on how the list in Appendix VII might be lengthened, shortened, modified, or redefined are particularly solicited.

Problem (3) demonstrates an inconsistency in the logic between what the certificate says it covers and the running change procedures of the present regulations. The regulation (§ 85.075–33) implies that a change in the design specifications ("parameters and systems") gives rise to a reporting requirement, and the Administrator will determine whether the vehicle can still be covered by a certificate. However, there is no reason within the program to require reporting of changes which would not cause termination of the certificate. A reason to require reporting of changes which would cause termination of certificate coverage is to allow the Administrator to determine if the changed vehicle can be covered by a certificate. Hence, the running change regulations should be revised to be consistent with the scope of certificate coverage.

This has been done by providing that any change in a production vehicle which causes it to cease to be accurately described by Part I application so far as the parameters and specifications enumerated in Appendix VII are concerned will have the effect of both triggering the reporting requirement and requiring an amended certificate to be obtained.

b. *Misbuilds.* A particularly difficult type of change to regulate is that of a misbuild. A misbuilt vehicle is one which, due to an error, differs in some material respect, from the intended design specifications applicable to that vehicle, and thus to the description contained in the application for Certification. In addition to causing vehicles not to be covered by a certificate of conformity, a misbuild may also pollute above prescribed standards and not perform in the hands of the user as intended by the manufacturer. A misbuild may result from clerical mistakes in the design/production system, poor communications (e.g., misunderstood instructions to assembly line workers), or other human errors which are not, by exercise of reasonable and prudent measures, detected. Regardless of the precise reason for a misbuild, it may result in uncertified vehicles being introduced into commerce.

Clearly, it is in the interest of the auto manufacturers, the general public and EPA to assure that the occurrence of misbuilds is minimized to the greatest extent possible. Although there is no specific provision in these regulations regarding misbuilds, the auto industry is specifically invited to comment on the policy EPA should adopt regarding misbuilds.

c. *Inertia weight class.* Another important aspect of the certificate coverage definition concerns inertia weight class. The existing regulations require that the manufacturers report in the application for certification either the actual or estimated inertia weight class of vehicles to be covered by the certificate. The question then arises as to whether production vehicles are covered by a certificate of conformity if they are in an inertia weight class different from that reported in the application.

Technical amendments to the regulations (38 FR 17130, June 28, 1973) permit a manufacturer to certify a vehicle in the next higher inertia weight class if his estimated weight is within 100 pounds of the next higher inertia weight class. The stated purpose of this provision was to give manufacturers flexibility in certification. It was not made clear that a good faith, but incorrect, estimate would result in production vehicles being uncertified.

Since (1) the inertia weight class is very important to emission performance, (2) whether a manufacturer acted in good faith in certifying in a lower inertia weight class than he should have is difficult to determine, and (3) the manufacturer has pronounced incentive to certify his prototype vehicles in as low an inertia weight class as possible (an incentive that should be guarded against), the regulations proposed today would provide that any production vehicles which fall in a different inertia weight class than that reported in the application for certification are not covered by the certificate.

These amendments are issued under the authority of the following sections of the Clean Air Act, as amended: 206 (Sec. 206, 79 Stat. 994, as amended by Section 8(a), 84 Stat. 1694, 42 U.S.C. 1857f–6); 206 (Sec. 207, 79 Stat. 994, 42 U.S.C. 1857f–6); and 301(a) (Sec. 301(a), 81 Stat. 504 as amended by Sec. 15(c), 84 Stat. 1713, 42 U.S.C. 1857g(a)).

Any comments concerning the amendments proposed today should be submitted in writing to:

Director
Mobile Source Enforcement Division (EG–340)
Environmental Protection Agency
401 M Street, SW.
Washington, D.C. 20460

Five copies of any such comments should be submitted on or before February 21, 1975. Comments received after such date may not be considered in the final rulemaking. Copies of all comments will be made available for public inspection during normal working hours at the Freedom of Information Center, Room 232, West Tower, EPA, 401 M Street, SW., Washington, D.C. Copies of an issue paper by N. D. Shutler of EPA which was relied on in drawing up this proposal are also in the comment file.

Dated: December 13, 1974.

JOHN QUARLES,
Acting Administrator.

1. Section 85.002(a)(31) is added to read as follows:

§ 85.002 Definitions.

(a) * * *

(31) As applied to any individual production vehicle, "Conforms, in all material respects, to the design specifications which applied to those vehicles described in the application for certification" means that the description in the appropriate application for certification of the parameters and specifications enumerated in Appendix VIIA is accurate in all respects as applied to that vehicle.

2. The first sentence of § 85.075–2(b)(1) is revised as follows:

§ 85.075–2 Application for certification.

* * * * *

(b) * * *

(1) Identification and description of the vehicles covered by the application and a description of their engine, emission control system and fuel system components including the applicable parameters and specifications of Appendix VIIA.

* * * * *

3. Section 85.075–5(b)(3) is revised as follows:

§ 85.075–5 Test vehicles.

* * * * *

(b) * * *

(3) The Administrator may select a maximum of four additional vehicles within each engine family based upon features indicating that they may have the highest emission levels of the vehicles in that engine family. In selecting these vehicles, the Administrator will consider those design specifications listed in the application for certification.

4. Section 85.075–33 is revised as follows:

§ 85.075–33 Changes to a vehicle covered by certification.

(a) The manufacturer shall notify the Administrator of any intended change in production vehicles that would cause such vehicles not to conform to any of the specifications and parameters of Appendix VIIA as described in the appropriate application for certification, giving a full description of the change. Such notification shall constitute a proposed amendment to the application on which certification of the original vehicle was based and shall be in advance of the change unless the manufacturer elects to follow the procedures described in § 85.075–34.

(b) Based upon the description of the change, and data derived from such

testing as the Administrator may require or conduct, the Administrator will determine whether the application for certification may be amended as proposed so that the changed vehicles will be covered by the certificate of conformity then in effect.

(c) If the Administrator determines that such an amendment to the outstanding certificate is justified, he shall notify the manufacturer in writing granting the amendment. Except as provided in § 85.075–34, the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified vehicles will not be covered by the certificate of conformity, he will notify the manufacturer in writing. The manufacturer may then, at his option, proceed with either of the following with respect to the disapproved change:

(1) Request a hearing as provided under § 85.075–30(b)(3); or

(2) In the event the failure can be shown to the satisfaction of the Administrator to be attributable to a vehicle malfunction, repair the test vehicle, and demonstrate by testing that the repaired vehicle meets applicable standards. Another vehicle which conforms in all material respects to the same design specifications that applied to the repaired vehicle, shall then be operated and tested in accordance with applicable test procedures.

5. Paragraphs (a), (b), (c), and (d) of § 85.075–34 are revised and paragraph (e) is added as follows:

§ 85.075–34 Alternative procedure for amending certificates of conformity.

(a) A manufacturer, in lieu of notifying the Administrator in advance of an addition of a vehicle under § 85.075–32 or a change in a vehicle under § 85.075–33, may notify him by appropriate amendment to the application for certification concurrently with the making of the change or addition if the manufacturer determines on the basis of emission data that the addition or change will not adversely affect (cause to increase above the applicable standards) emissions from the affected vehicles. Upon such notification, the manufacturer may proceed to put the addition or change into effect. The applicable certificate of conformity then in effect will be deemed amended as set forth in the amended application unless and until the amendment is rejected by the Administrator under paragraph (c) of this section.

(b) The manufacturer may continue to produce vehicles as described in the amendment to the application for certification for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon the description of the amendment to the application, that no additional test data will be required, he will notify the manufacturer in writing of the acceptability of the amended application. If the Administrator determines that additional test data will be required, he will so notify the manufacturer and proceed as in § 85.075–32(b) and (c), or § 85.075–33(b) and (c) as appropriate.

(d) Election to produce vehicles under this section will be deemed to be a consent to recall all vehicles which the Administrator determines under § 85.075–32 or § 85.075–33 do not meet applicable standards, and to cause such nonconformity to be remedied at no expense to the owner.

(e) Any changed or added vehicles produced after the manufacturer is notified of the rejected application amendment will not be covered by a certificate of conformity.

6. Section 85.102(a)(24) is added to read as follows:

§ 85.102 Definitions.

(a) * * *

(24) As applied to any individual production vehicle, "Conforms, in all material respects, to the design specifications which applied to those vehicles described in the application for certification" means that the description in the appropriate application for certification of the parameters and specifications enumerated in Appendix VIIA is accurate in all respects as applied to that vehicle.

7. The first sentence of § 85.175–2(b)(1) is revised as follow:

§ 85.175–2 Application for certification.

* * * * * *

(b) * * *

(1) Identification and description of the vehicles covered by the application and a description of their engine, emission control system and fuel system components including the applicable parameters and specifications of Appendix VIIA.

* * * * * *

8. Section 85.175–5(b)(3) is revised as follows:

§ 85.175–5 Test vehicles.

* * * * * *

(b) * * *

(3) The Administrator may select a maximum of four additional vehicles within each engine family based upon features indicating that they may have the highest emission levels of the vehicles in that engine family. In selecting these vehicles, the Administrator will consider those design specifications listed in the application for certification.

9. Section 85.175–33 is revised as follows:

§ 85.175–33 Changes to a vehicle covered by certification.

(a) The manufacturer shall notify the Administrator of any intended change in production vehicles that would cause such vehicles not to conform to any of the specifications and parameters of Appendix VIIA as described in the appropriate application for certification, giving a full description of the change. Such notification shall constitute a proposed amendment to the application on which certification of the original vehicle was based and shall be in advance of the change unless the manufacturer elects to follow the procedures described in § 85.175–34

(b) Based upon the description of the change, and data derived from such testing as the Administrator may require or conduct, the Administrator will determine whether the application for certification may be amended as proposed so that the changed vehicles will be covered by the certificate of conformity then in effect.

(c) If the Administrator determines that such an amendment to the outstanding certificate is justified, he shall notify the manufacturer in writing granting the amendment. Except as provided in § 85.175–34, the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified vehicles will not be covered by the certificate of conformity, he will notify the manufacturer in writing. The manufacturer may then, at his option, proceed with either of the following with respect to the disapproved change:

(1) Request a hearing as provided under § 85.175–30(b)(3); or

(2) In the event the failure can be shown, to the satisfaction of the Administrator, to be attributable to a vehicle malfunction, repair the test vehicle, and demonstrate by testing that the repaired vehicle meets applicable standards. Another vehicle which conforms in all material respects to the same design specifications that applied to the repaired vehicle, shall then be operated and tested in accordance with applicable test procedures.

10. Paragraphs (a), (b), (c), and (d) of § 85.175–34 are revised and paragraph (e) is added as follows:

§ 85.175–34 Alternative procedure for amending certificates of conformity.

(a) A manufacturer, in lieu of notifying the Administrator in advance of an addition of a vehicle under § 85.175–32 or a change in a vehicle under § 85.175–33, may notify him by appropriate amendment to the application for certification concurrently with the making of the change or addition if the manufacturer determines on the basis of emission data that the addition or change will not adversely affect (cause to increase above the applicable standards) emissions from the affected vehicles. Upon such notification, the manufacturer may proceed to put the addition or change into effect. The applicable certificate of conformity then in effect will be deemed amended as set forth in the amended application unless and until the amendment is rejected by the Administrator under paragraph (c) of this section.

(b) The manufacturer may continue to produce vehicles as described in the

amendment to the application for certification for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon the description of the amendment to the application, that no additional test data will be required, he will notify the manufacturer in writing of the acceptability of the amended application. If the Administrator determines that additional test data will be required, he will so notify the manufacturer and proceed as in § 85.175–32 (b) and (c), or § 85.175–33 (b) and (c) as appropriate.

(d) Election to produce vehicles under this section will be deemed to be a consent to recall all vehicles which the Administrator determines under § 85.175–32 or § 85.175–33 do not meet applicable standards, and to cause such nonconformity to be remedied at no expense to the owner.

(e) Any changed or added vehicles produced after the manufacturer is notified of the rejected application amendment will not be covered by a certificate of conformity.

11. Section 85.202(a)(29) is added to read as follows:

§ 85.202 Definitions.

(a) * * *

(29) As applied to any individual production vehicle, "Conforms, in all material respects, to the design specifications which applied to those vehicles described in the application for certification" means that the description in the appropriate application for certification of the parameters and specifications enumerated in Appendix VIIA is accurate in all respects as applied to that vehicle.

12. The first sentence of § 85.275–2(b)(1) is revised as follows:

§ 85.275–2 Application for certification.

* * * * *

(b) * * *

(1) Identification and description of the vehicles covered by the application and a description of their engine, emission control system and fuel system components including the applicable parameters and specifications of Appendix VIIA.

* * * * *

13. Section 85.275–5(b)(3) is revised as follows:

§ 85.275–5 Test vehicles.

* * * * *

(b) * * *

(3) The Administrator may select a maximum of four additional vehicles within each engine family based upon features indicating that they may have the highest emission levels of the vehicles in that engine family. In selecting these vehicles, the Administrator will consider those design specifications listed in the application for certification.

14. Section 85.275–33 is revised as follows:

§ 85.275–33 Changes to a vehicle covered by certification.

(a) The manufacturer shall notify the Administrator of any intended change in production vehicles that would cause such vehicles not to conform to any of the specifications and parameters of Appendix VIIA is described in the appropriate application for certification, giving a full description of the change. Such notification shall constitute a proposed amendment to the application on which certification of the original vehicle was based and shall be in advance of the change unless the manufacturer elects to follow the procedures described in § 85.275–34.

(b) Based upon the description of the change, and data derived from such testing as the Administrator may require or conduct, the Administrator will determine whether the application for certification may be amended as proposed so that the changed vehicles will be covered by the certificate of conformity then in effect.

(c) If the Administrator determines that such an amendment to the outstanding certificate is justified, he shall notify the manufacturer in writing granting the amendment. Except as provided in § 85.275–34, the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified vehicles will not be covered by the certificate of conformity, he will notify the manufacturer in writing. The manufacturer may then, at his option, proceed with either of the following with respect to the disapproved change:

(1) Request a hearing as provided under § 85.275–30(b)(3); or

(2) In the event the failure can be shown, to the satisfaction of the Administrator, to be attributable to a vehicle malfunction, repair the test vehicle, and demonstrate by testing that the repaired vehicle meets applicable standards. Another vehicle which conforms in all material respects to the same design specifications that applied to the repaired vehicle, shall then be operated and tested in accordance with applicable test procedures.

15. Paragraphs (a), (b), (c), and (d) of § 85.275–34 are revised and paragraph (e) is added as follows:

§ 85.275–34 Alternative procedure for amending certificates of conformity.

(a) A manufacturer, in lieu of notifying the Administrator in advance of an addition of a vehicle under § 85.275–32 or a change in a vehicle under § 85.275–33, may notify him by appropriate amendment to the application for certification concurrently with the making of the change or addition if the manufacturer determines on the basis of emission data that the addition or change will not adversely affect (cause to increase above the applicable standards) emissions from the affected vehicles. Upon such notification, the manufacturer may proceed to put the addition or change into effect. The applicable certificate of conformity then in effect will be deemed amended as set forth in the amended application unless and until the amendment is rejected by the Administrator under paragraph (c) of this section.

(b) The manufacturer may continue to produce vehicles as described in the amendment to the application for certification for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon the description of the amendment to the application, that no additional test data will be required, he will notify the manufacturer in writing of the acceptability of the amended application. If the Administrator determines that additional test data will be required, he will so notify the manufacturer and proceed as in §§ 85.275–32 (b) and (c), or § 85.275–33 (b) and (c) as appropriate.

(d) Election to produce vehicles under this section will be deemed to be a consent to recall all vehicles which the Administrator determines under § 85.275–32 or § 85.275–33 do not meet applicable standards, and to cause such nonconformity to be remedied at no expense to the owner.

(e) Any changed or added vehicles produced after the manufacturer is notified of the rejected application amendment will not be covered by a certificate of conformity.

16. Section 85.302 is amended by adding a new paragraph reading as follows:

§ 85.302 Definitions.

* * * * *

As applied to any individual production vehicle, "Conforms, in all material respects, to the design specifications which applied to those vehicles described in the application for certification" means that the description in the appropriate application for certification of the parameters and specifications enumerated in Appendix VIIA is accurate in all respects as applied to that vehicle.

17. The first sentence of § 85.376–2(b)(1) is revised as follows:

§ 85.376–2 Application for certification.

* * * * *

(b) * * *

(1) Identification and description of the vehicles covered by the application and a description of their engine, emission control system and fuel system components including the applicable parameters and specifications of Appendix VIIA.

* * * * *

18. Section 85.376–5(b)(3) is revised as follows:

§ 85.376–5 Test vehicles.

* * * * *

(b) * * *

(3) The Administrator may select a maximum of four additional vehicles within each engine family based upon features indicating that they may have the highest emission levels of the vehicles in that engine family. In selecting these vehicles, the Administrator will consider those design specifications listed in the application for certification.

• • • • •

19. Section 85.376–33 is revised as follows:

§ 85.376–33 Changes to a vehicle covered by certification.

(a) The manufacturer shall notify the Administrator of any intended change in production vehicles that would cause such vehicles not to conform to any of the specifications and parameters of Appendix VIIA is as described in the appropriate application for certification, giving a full description of the change. Such notification shall constitute a proposed amendment to the application on which certification of the original vehicle was based and shall be in advance of the change unless the manufacturer elects to follow the procedures described in § 85.376–34.

(b) Based upon the description of the change, and data derived from such testing as the Administrator may require or conduct, the Administrator will determine whether the application for certification may be amended as proposed so that the changed vehicles will be covered by the certificate of conformity then in effect.

(c) If the Administrator determines that such an amendment to the outstanding certificate is justified, he shall notify the manufacturer in writing granting the amendment. Except as provided in § 85.376–34, the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified vehicles will not be covered by the certificate of conformity, he will notify the manufacturer in writing. The manufacturer may then, at his option, proceed with either of the following with respect to the disapproved change:

(1) Request a hearing as provided under § 85.376–30(b)(4); or

(2) In the event the failure can be shown, to the satisfaction of the Administrator, to be attributable to a vehicle malfunction, repair the test vehicle, and demonstrate by testing that the repaired vehicle meets applicable standards. Another vehicle which conforms in all material respects to the same design specifications that applied to the repaired vehicle, shall then be operated and tested in accordance with applicable test procedures.

20. The heading and paragraphs (a), (b), (c), and (d) of § 85.376–34 are revised and paragraph (e) is added as follows:

§ 85.376–34 Alternative procedure for amending certificates of conformity.

(a) A manufacturer, in lieu of notifying the Administrator in advance of an addition of a vehicle under § 85.376–32 or a change in a vehicle under § 85.376–33 may notify him by appropriate amendment to the application for certification concurrently with the making of the change or addition if the manufacturer determines on the basis of emission data that the addition or change will not adversely affect (cause to increase above the applicable standards) emissions from the affected vehicles. Upon such notification, the manufacturer may proceed to put the addition or change into effect. The applicable certificate of conformity then in effect will be deemed amended as set forth in the amended application unless and until the amendment is rejected by the Administrator under paragraph (c) of this section.

(b) The manufacturer may continue to produce vehicles as described in the amendment to the application for certification for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon the description of the amendment to the application, that no additional test data will be required, he will notify the manufacturer in writing of the acceptability of the amended application. If the Administrator determines that additional test data will be required, he will so notify the manufacturer and proceed as in § 85.376–32 (b) and (c), or § 85.376–33(b) and (c) as appropriate.

(d) Election to produce vehicles under this section will be deemed to be a consent to recall all vehicles which the Administrator determines under § 85.376–32 or § 85.376–33 do not meet applicable standards, and to cause such non conformity to be remedied at no expense to the owner.

(e) Any changed or added vehicles produced after the manufacturer is notified of the rejected application amendment will not be covered by a certificate of conformity.

21. Section 85.702(a)(23) is added to read as follows:

§ 85.702 Definitions.

(a) • • •

(23) As applied to any individual production engine, "Conforms, in all material respects, to the design specifications which applied to those engines described in the application for certification" means that the description in the appropriate application for certification of the parameters and specifications enumerated in Appendix VIIB is accurate in all respects as applied to that engine.

22. The first sentence of § 85.774–2(b)(1) is revised as follows:

§ 85.774–2 Application for certification.

• • • • •

(b) • • •

(1) Identification and description of the engines covered by the application and a description of their emission control systems, including the applicable parameters and specifications of Appendix VIIB.

• • • • •

23. Section 85.774–5(b)(3) is revised as follows:

§ 85.774–5 Test engines.

(b) • • •

(3) The Administrator may select a maximum of two additional engines within each engine family based upon features indicating that they may have the highest emission levels of the engines in that engine family. In selecting these engines, the Administrator will consider those design specifications listed in the application for certification.

• • • • •

24. Section 85.774–33 is revised to read as follows:

§ 85.774–33 Changes to an engine covered by certification.

(a) The manufacturer shall notify the Administrator of any intended change in production engines that would cause such engines not to conform to any of the specifications and parameters of Appendix VIIB as described in the appropriate application for certification, giving a full description of the change. Such notification shall constitute a proposed amendment to the application on which certification of the original engine was based and shall be in advance of the change unless the manufacturer elects to follow the procedures described in § 85.774–34.

(b) Based upon the description of the change, and data derived from such testing as the Administrator may require or conduct, the Administrator will determine whether the application for certification may be amended as proposed so that the changed engines will be covered by the certificate of conformity then in effect.

(c) If the Administrator determines that such an amendment to the outstanding certificate is justified, he shall notify the manufacturer in writing granting the amendment. Except as provided in § 85.774–34, the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified engines will not be covered by the certificate of conformity, he will notify the manufacturer in writing. The manufacturer may then, at his option, proceed with either of the following with respect to the disapproved change:

(1) Request a hearing as provided under § 85.774–30(b)(3); or

(2) In the event the failure can be shown, to the satisfaction of the Administrator, to be attributable to an engine malfunction, repair the test engine, and demonstrate by testing that the repaired engine meets applicable standards. Another engine which conforms in all material respects to the same design specifications that applied to the repaired engine, shall then be operated and tested in accordance with applicable test procedures.

25. Paragraphs (a), (b), (c), and (d) of § 85.774–34 are revised and paragraph (e) is added as follows:

§ 85.774–34 Alternative procedure for amending certificates of conformity.

(a) A manufacturer, in lieu of notifying the Administrator in advance of an addition of an engine under § 85.774–32 or a change in an engine under § 85.774–33, may notify him by appropriate amendment to the application for certification concurrently with the making of the change or addition if the manufacturer determines on the basis of emission data that the addition or change will not adversely affect (cause to increase above the applicable standards) emissions from the affected engines. Upon such notification, the manufacturer may proceed to put the addition or change into effect. The applicable certificate of conformity then in effect will be deemed amended as set forth in the amended application unless and until the amendment is rejected by the Administrator under paragraph (c) of this section.

(b) The manufacturer may continue to produce engines as described in the amendment to the application for certification for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon the description of the amendment to the application, that no additional test data will be required, he will notify the manufacturer in writing of the acceptability of the amended application. If the Administrator determines that additional test data will be required, he will so notify the manufacturer and proceed as in § 85.774–32 (b) and (c), or § 85.774–33 (b) and (c) as appropriate.

(d) Election to produce engines under this section will be deemed to be a consent to recall all engines which the Administrator determines under § 85.774–32 or § 85.774–33 do not meet applicable standards, and to cause such nonconformity to be remedied at no expense to the owner.

(e) Any changed or added engines produced after the manufacturer is notified of the rejected application amendment will not be covered by a certificate of conformity.

26. Section 85.802(a)(28) is added to read as follows:

§ 85.802 Definitions.

(a) • • •

(28) As applied to any individual production engine, "Conforms in all material respects, to the design specifications which applied to those engines described in the application for certification" means that the description in the appropriate application for certification of the parameters and specifications enumerated in Appendix VIIB is accurate in all respects as applied to that engine.

27. The first sentence of § 85.874–2(b)(1) is revised as follows:

§ 85.874–2 Application for certification.

• • • • • •

(b) • • •

(1) Identification and description of the engines covered by the application and a description of their emission control systems, including the applicable parameters and specifications of Appendix VIIB.

• • • • • •

28. Section 85.874–33 is revised to read as follows:

§ 85.874–33 Changes to an engine covered by certification.

(a) The manufacturer shall notify the Administrator of any intended change in production engines that would cause such engines not to conform to any of the specifications and parameters of Appendix VIIB as described in the appropriate application for certification, giving a full description of the change. Such notification shall constitute a proposed amendment to the application on which certification of the original engine was based and shall be in advance of the change unless the manufacturer elects to follow the procedures described in § 85.874–34.

(b) Based upon the description of the change, and data derived from such testing as the Administrator may require or conduct, the Administrator will determine whether the application for certification may be amended as proposed so that the changed engines will be covered by the certificate of conformity then in effect.

(c) If the Administrator determines that such an amendment to the outstanding certificate is justified, he shall notify the manufacturer in writing granting the amendment. Except as provided in § 84.874–34, the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified engines will not be covered by the certificate of conformity, he will notify the manufacturer in writing. The manufacturer may then, at his option, proceed with either of the following with respect to the disapproved change:

(1) Request a hearing as provided under § 85.874–30(b)(3); or

(2) In the event the failure can be shown, to the satisfaction of the Administrator, to be attributable to an engine malfunction, repair the test engine, and demonstrate by testing that the repaired engine meets applicable standards. Another engine which conforms in all material respects to the same design specifications that applied to the repaired engine, shall then be operated and tested in accordance with applicable test procedures.

29. The heading and text of § 85.874–34 is revised to read as follows:

§ 85.874–34 Alternative procedure for amending certificates of conformity.

(a) A manufacturer, in lieu of notifying the Administrator in advance of an addition of an engine under § 85.874–32 or a change in an engine under § 85.874–33 may notify him by appropriate amendment to the application for certification concurrently with the making of the change or addition if the manufacturer determines on the basis of emission data that the addition or change will not adversely affect (cause to increase above the applicable standards) emissions from the affected engines. Upon such notification, the manufacturer may proceed to put the addition or change into effect. The applicable certificate of conformity then in effect will be deemed amended as set forth in the amended application unless and until the amendment is rejected by the Administrator under paragraph (c) of this section.

(b) The manufacturer may continue to produce engines as described in the amendment to the application for certification for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon the description of the amendment to the application, that no additional test data will be required, he will notify the manufacturer in writing of the acceptability of the amended application. If the Administrator determines that additional test data will be required, he will so notify the manufacturer and proceed as in § 85.874–32 (b) and (c), or § 85.874–33 (b) and (c) as appropriate.

(d) Election to produce engines under this section will be deemed to be a consent to recall all engines which the Administrator determines under § 85.874–32 or § 85.874–33 do not meet applicable standards, and to cause such nonconformity to be remedied at no expense to the owner.

(e) Any changed or added engines produced after the manufacturer is notified of the rejected application amendment will not be covered by a certificate of conformity.

30. Section 85.902(a)(28) is added to read as follows:

§ 85.902 Definitions.

(a) • • •

(28) As applied to any individual production engine, "Conforms in all material respects, to the design specifications which applied to those engines described in the application for certification" means that the description in the appropriate application for certification of the parameters and specifications enumerated in Appendix VIIB is accurate in all respects as applied to that engine.

31. The first sentence § 85.974–2(b)(1) is revised as follows:

§ 85.974–2 Application for certification.

• • • • • •

(b) • • •

(1) Identification and description of the engines covered by the application and a description of their emission control systems, including the applicable parameters and specifications of Appendix VIIB.

• • • • • •

XUM

32. Section 85.974–33 is revised to read as follows:

§ 85.974–33 Changes to an engine covered by certification.

(a) The manufacturer shall notify the Administrator of any intended change in production engines that would cause such engines not to conform to any of the specifications and parameters of Appendix VIIB as described in the appropriate application for certification, giving a full description of the change. Such notification shall constitute a proposed amendment to the application on which certification of the original engine was based and shall be in advance of the change unless the manufacturer elects to follow the procedures described in § 85.974–34.

(b) Based upon the description of the change, and data derived from such testing as the Administrator may require or conduct, the Administrator will determine whether the application for certification may be amended as proposed so that the changed engines will be covered by the certificate of conformity then in effect.

(c) If the Administrator determines that such an amendment to the outstanding certificate is justified, he shall notify the manufacturer in writing granting the amendment. Except as provided in § 85.974–34, the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified engines will not be covered by the certificate of conformity, he will notify the manufacturer in writing. The manufacturer may then, at his option, proceed with either of the following with respect to the disapproved change:

(1) Request a hearing as provided under § 85.974–30(b)(3); or

(2) In the event the failure can be shown, to the satisfaction of the Administrator, to be attributable to an engine malfunction, repair the test engine, and demonstrate by testing that the repaired engine meets applicable standards. Another engine which conforms in all material respects to the same design specifications that applied to the repaired engine, shall then be operated and tested in accordance with applicable test procedures.

33. Section 85.974–34 is revised to read as follows:

§ 85.974–34 Alternative procedure for amending certificates of conformity.

(a) A manufacturer, in lieu of notifying the Administrator in advance of an addition of an engine under § 85.974–32 or a change in an engine under § 85.974–33, may notify him by appropriate amendment to the application for certification concurrently with the making of the change or addition if the manufacturer determines on the basis of emission data that the addition or change will not adversely affect (cause to increase above the applicable standards) emissions from the affected vehicles. Upon such notification, the manufacturer may proceed to put the addition or change into effect. The applicable certificate of conformity then in effect will be deemed amended as set forth in the amended application unless and until the amendment is rejected by the Administrator under paragraph (c) of this section.

(b) The manufacturer may continue to produce engines as described in the amendment to the application for certification for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon the description of the amendment to the application, that no additional test data will be required, he will notify the manufacturer in writing of the acceptability of the amended application. If the Administrator determines that additional test data will be required, he will so notify the manufacturer and proceed as in § 85.974–33 (b) and (c), or § 85.974–33 (b) and (c) as appropriate.

(d) Election to produce engines under this section will be deemed to be a consent to recall all engines which the Administrator determines under § 85.974–32 or § 85.974–33 do not meet applicable standards, and to cause such nonconformity to be remedied at no expense to the owner.

(e) Any changed or added engines produced after the manufacturer is notified of the rejected application amendment will not be covered by a certificate of conformity.

APPENDIX VII

A. Light duty vehicle parameters and specifications.

1. Cylinder bore center-to-center dimen-Cycle Reciprocating Engines.

f. Cylinder bore centre-to-center dimension.

2. Centerline of crankshaft to centerline of camshaft dimension.

3. Centerline of crankshaft to the top of the cylinder block head face dimension.

4. Cylinder block configuration and material (including liners if applicable).

5. Combustion cycle.

6. Method of aspiration.

7. Displacement.

8. Bore and stroke.

9. Number of cylinders.

10. Compression ratio.

11. Surface to volume ratio.

12. Type of cylinder head and material.

13. Combustion chamber configuration.

14. Intake port area and configuration at cylinder head and manifold mating surface.

15. Exhaust port area and configuration at cylinder head and manifold mating surface.

16. Valves.

a. Head diameter.

b. Type and material.

c. Seat angle and preparation.

d. Valve spring material and load.

e. Valve spring retainer and/or rotator configuration.

f. Valve stem seal type and material.

g. Location of valves.

h. Valve activation mechanism.

i. Number of valves per cylinder.

17. Intake manifold configuration and material.

18. Exhaust manifold configuration and material.

19. Piston and piston ring(s) configuration and material.

20. Exhaust system configuration and backpressure.

21. Camshaft timing.

a. Cam profile.

b. Valve overlap.

22. Advertised H.P. at RPM.

23. Advertised Torque at RPM.

24. Governor descriptions.

25. Supercharger description.

26. Precombustion chamber configuration and material.

II. Basic Engine Parameters—Two-Stroke Cycle Reciprocating Engines.

1–25. Same as section I.

26. Intake port(s).

a. Configuration.

b. Location.

c. Preparation.

d. Timing in combustion cycle.

27. Exhaust port(s).

a. Configuration.

b. Location.

c. Preparation.

d. Timing in combustion cycle.

28. Transfer port(s).

a. Configuration.

b. Location.

c. Preparation.

d. Timing in combustion cycle.

29. Crankcase volume.

30. Precombustion chamber configuration and material.

III. Basic Engine Parameters — Rotary Engines.

1. Major axis dimension.

2. Minor axis dimension.

3. Eccentricity dimension.

4. Width of rotor housing dimension.

5. Generating radius dimension.

6. Intake port(s).

a. Configuration.

b. Location.

c. Preparation.

d. Timing and overlap if exposed to combustion chamber.

7. Exhaust port(s).

a. Configuration.

b. Location.

c. Preparation.

d. Timing and overlap if exposed to combustion chamber.

8. Housing configuration and material.

9. Combustion cycle.

10. Method of aspiration.

11. Number of spark plugs per rotor.

12. Displacement.

13. Rotor and seals.

a. Number of rotors and seals per rotor.

b. Configuration and seal retention.

c. Materials.

14. Compression ratio.

15. Surface to volume ratio.

16. Combustion chamber configuration.

17. Intake manifold configuration and material.

18. Exhaust manifold configuration and material.

19. Advertised H.P. at RPM.

20. Advertised Torque at RPM.

21. Exhaust system configuration and backpressure.

22. Governor description.

23. Supercharger description.

24. Precombustion chamber configuration and material.

IV. Air Inlet System.

1. Air cleaner type and configuration.

2. Air inlet temperature control system.

3. Inlet fresh air pick up method.

4. Maximum allowable restriction.

V. Fuel System.
1. Carburetion.
a. Number of carburetors.
b. Type.
c. Number of venturis per carburetor.
d. Venturi diameter.
e. Maximum air flow.
f. Fuel metering system type and calibration.
g. Enrichment system type and calibration.
h. Idle stop mechanism.
i. Starting system (e.g. choke).
j. Altitude compensation type and calibration.
k. Air-fuel flow specification (flow curve).
l. General compensation system type and calibration.
m. Component material.
n. Part number(s).
2. Fuel injection.
a. Control parameters.
b. Basic type (mechanical, electronic, timed, continuous).
c. Point of injection.
d. Maximum air flow.
e. Throttle mechanism type and calibration if applicable.
f. Fuel shutoff system type and calibration.
g. Cold start enrichment system type and calibration.
h. Enrichment system type and calibration.
i. Air-fuel flow specification (flow curve).
j. Altitude compensations type and calibration.
k. General compensation systems type and calibration.
l. Injector configuration and material.
m. Operating pressures.
n. Basic injector timing and advance characteristics.
o. Part number(s).
3. General.
a. Fuel pump configuration and specifications.
b. Fuel control mechanisms and vents.
c. Altitude compensation type and calibration.
d. Idle speed specification and setting procedure.
e. Idle mixture specification and setting procedure.
f. Fuel rate at maximum horsepower (Diesel only).
g. Fuel rate at maximum torque (Diesel only).
VI. Ignition System.
1. General type and description of operation.
2. Basic initial timing.
3. Spark advance specifications.
4. Spark plug.
a. Heat range.
b. Gap.
c. Tip configuration.
5. Ignition wire material.
6. Dwell (if applicable).
7. Starting circuit description.
8. General compensating systems type and calibration.
9. Altitude compensating system.
10. Insulation and heat sink (if applicable) material.
11. Part number(s).
VII. Cooling System.
1. Thermostat calibration.
2. Capacity of coolant.
3. Water pump capacity.
VIII. Engine Accessories.
1. Air conditioning system description and usage.
2. Power steering system description and usage.
3. Power brakes system description and usage.
4. Power take-off component(s) description and usage.
5. Vacuum take-offs.
IX. Exhaust Emission Control System.
1. System type (air injection, smoke control, EGR, etc.) and method of operation.
2. Component design and materials.
3. Location of component on vehicle.
4. Calibration of components.
5. Part number(s).
X. Evaporative Emission Control System.
1. System type and method of operation.
2. Component design and materials.
3. Location of components on vehicle.
4. Calibration of components.
5. Part number(s).
XI. Crankcase Emission Control System.
1. System type and method of operation.
2. Component design and materials.
3. Location of components on vehicle.
4. Calibration of components.
5. Part number(s).
XII. Auxiliary Emission Control Devices.
1. System type and method of operation.
2. Component design and materials.
3. Location of components on vehicle.
4. Calibration of components.
5. Part number(s).
XIII. Emission Control Related Warning Systems.
1. System type and method of operation.
2. Component design and materials.
3. Location of components on vehicle.
4. Calibrations of components.
5. Part number(s).
XIV. Driveline Parameters.
1. Torque convertor or clutch configuration and torque transfer performance.
2. Transmission.
a. Automatic gear ratios and shift speeds.
b. Semiautomatic and manual gear ratios.
3. Differential and transfer case.
a. Number of wheels driving vehicle.
b. Axle ratio.
c. Special features that cause any changes to the torque transfer characteristics and quantifications of the additional horsepower requirements (e.g. overdrive).
4. Tires.
a. Size.
b. Type.
5. Engine speed to vehicle speed relationship (N/V).
XV. Vehicle Parameters.
1. Model.
2. Inertia weight class.
3. Curb weight average for model.
4. Roadload horsepower requirements.
5. Engine location in vehicle.
6. Fuel tank(s) configuration and material.
7. Fuel line(s) and hose size (including restrictors) and routing.

B. Heavy Duty Engine Parameters and Specifications.

I. Basic Engine Parameters-Four Stroke Cycle Reciprocating Engines.
1. Cylinder bore center-to-center dimension.
2. Centerline of crankshaft to centerline of camshaft dimension.
3. Centerline of crankshaft to the top of the cylinder block head face dimension.
4. Cylinder block configuration and material (including liners if applicable).
5. Combustion cycle.
6. Method of aspiration.
7. Displacement.
8. Bore and stroke.
9. Number of cylinders.
10. Compression ratio.
11. Surface to volume ratio.
12. Type of cylinder head and material.
13. Combustion chamber configuration.
14. Intake port area and configuration at cylinder head and manifold mating surface.
15. Exhaust port area and configuration at cylinder head and manifold mating surface.
16. Valves.
a. Head diameter.
b. Type and material.
c. Seat angle and preparation.
d. Valve spring material and load.
e. Valve spring retainer and/or rotator configuration.
f. Valve stem seal type and material.
g. Location of valves.
h. Valve activation mechanism.
i. Number of valves per cylinder.
17. Intake manifold configuration and material.
18. Exhaust manifold configuration and material.
19. Piston and piston ring(s) configuration and material.
20. Exhaust system configuration and backpressure.
21. Camshaft timing.
a. Cam profile.
b. Valve overlap.
22. Advertised H.P. at RPM.
23. Advertised Torque at RPM.
24. Governor descriptions.
25. Supercharger description.
26. Precombustion chamber configuration and material.

II. Basic Engine Parameters—Two-Stroke Cycle Reciprocating Engines.
1–25. Same as section I.
26. Intake port(s).
a. Configuration.
b. Location.
c. Preparation.
d. Timing in combustion cycle.
27. Exhaust port(s).
a. Configuration.
b. Location.
c. Preparation.
d. Timing in combustion cycle.
28. Transfer port(s).
a. Configuration.
b. Location.
c. Preparation.
d. Timing in combustion cycle.
29. Crankcase volume.
30. Precombustion chamber configuration and material.

III. Basic Engine Parameters—Rotary Engines.
1. Major axis dimension.
2. Minor axis dimension.
3. Eccentricity dimension.
4. Width of rotor housing dimension.
5. Generating radius dimension.
6. Intake port(s).
a. Configuration.
b. Location.
c. Preparation.
d. Timing and overlap if exposed to combustion chamber.
7. Exhaust port(s).
a. Configuration.
b. Location.
c. Preparation.
d. Timing and overlap if exposed to combustion chamber.
8. Housing configuration and material.
9. Combustion cycle.
10. Method of aspiration.
11. Number of spark plugs per rotor.
12. Displacement.
13. Rotor and seals.
a. Number of rotors and seals per rotor.
b. Configuration and seal retention.
c. Materials.
14. Compression ratio.
15. Surface to volume ratio.
16. Combustion chamber configuration.
17. Intake manifold configuration and material.
18. Exhaust manifold configuration and material.
19. Advertised H.P. at RPM.
20. Advertised Torque at RPM.
21. Exhaust system configuration and backpressure.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19828; RM-1910, RM-2282 and Docket No. 19823; RM-2283]

FM BROADCAST STATIONS IN CERTAIN CITIES IN MISSOURI

Order To Show Cause Table of Assignments

1. The Commission has under consideration comments and reply comments filed in response to the notice of proposed rulemaking issued in this proceeding.[1] In the notice the Commission proposed the substitution of Class C Channel 297 for Channel 292A which is licensed to KLEX, Inc. (KLEX), Lexington, Missouri. KLEX, the proponent of this proposal, stated in its comments of November 23, 1973, that it "waives the waiting period and hearing requirements of section 316 of the Communications Act and agrees to accept a modification of its license to specify operation of KBEK (FM) on Channel 293 in lieu of Channel 292A". S & M Investments, Inc. (S & M), Liberty, Missouri, submitted a counterproposal proposing assignment of Channel 293 to Liberty and assignment of Class C Channel 297 to Lexington. KLEX has objected to S & M's counterproposal.

2. S & M's counterproposal would also require channel changes at Eldorado Springs and Butler, Missouri. Daryl Predine, licensee of Station KEBM-FM, Eldorado Springs, has consented to this change on condition that he be reimbursed for the expenses involved. Daryl Predine has indicated that S & M has advised him that it will reimburse him for reasonable and necessary costs of this modification. The grant of a construction permit to Bates County Broadcasting Co. (Bates), Butler, Missouri, was made subject to the condition that Bates accept any modification requiring use of a channel other than the one presently assigned as a result of whatever action the Commission may take in the instant proceeding. As such, KLEX remains the only licensee whose channel may be changed by the S & M counterproposal who is due a formal notification of this possibility and its rights in this respect.

3. Although it is well settled Commission policy that the licensee of a station whose channel of operation is being modified is entitled to reimbursement for the actual cost of this modification from the party benefiting from it, this policy will not apply to KLEX in this proceeding because KLEX has petitioned for a Class C channel, and S & M's proposal would provide one even though different from the one requested.

4. *Accordingly, it is ordered*, That pursuant to section 316 of the Communications Act of 1934, as amended, KLEX Inc., licensee of Station KBEK(FM), Lexington, Missouri, shall show cause why its license should not be modified to specify operation on Channel 297 instead of Channel 292A if the Commission in this proceeding finds it in the public interest to delete Channel 292A from Lexington and to substitute Channel 297 in its place, and to modify the license of station KBEK(FM). KLEX Inc. would be entitled to no reimbursement for this change.

5. Pursuant to § 1.87 of the Commission's rules and regulations, the licensee of Station KBEK(FM), KLEX Inc., may, not later than January 22, 1975, request that a hearing be held on the proposed modification. Pursuant to § 1.87(f), if the right to request a hearing is waived, KLEX Inc., may, not later than January 22, 1975, file a written statement showing with particularity why its license should not be modified as proposed in this order to show cause. In this case, the Commission may call on KLEX Inc., to furnish additional information, designate the matter for hearing, or issue without further proceedings, an order modifying the license as provided in the order to show cause. If the right to request a hearing is waived and no written statement is filed by the date referred

[1] Notice of proposed rule making, adopted September 19, 1973 (FCC 73-961, 38 FR 27303). The Commission also has before it a petition for reconsideration of its decision assigning Channel 292A to Butler, Missouri (44 F.C.C. 2d 762) filed by S & M Investments, Inc.

to above, KLEX Inc. will be deemed to consent to modification as proposed in the order to show cause and a final order will be issued by the Commission if the channel changes mentioned above are found to be in the public interest.

6. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), 303(r), and 316 of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules and regulations.

7. It is directed, that the Secretary of the Commission send a copy of this order by certified mail, return receipt requested, to KLEX, Inc., Lexington, Missouri, the party to whom the order to show cause is directed.

Adopted: December 5, 1974.

Released: December 16, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

DEPARTMENT OF STATE

[Public Notice CM-5/2]

U.S. ADVISORY COMMISSION ON INTERNATIONAL EDUCATIONAL AND CULTURAL AFFAIRS

Meeting

The United States Advisory Commission on International Educational and Cultural Affairs will meet in open session on Tuesday, January 21, 1975, in Room 1205 of the Main State Department Building, 2201 C Street, NW., from 9:30 a.m. to 12 noon.

The agenda will include reports on:

1. The East-West Center;
2. The Government Advisory Committee on International Book and Library Programs;
3. The December 17–18 meeting of the Board of Foreign Scholarships;
4. The status of budget request of the Bureau of Educational and Cultural Affairs;
5. Discussion of a possible Commission initiative in the field of U.S.-Latin American educational and cultural exchanges;
6. Consideration of the report of the Panel on International Information, Education and Cultural Relations;
7. Consideration of the U.S. role in UNESCO, particularly as it relates to the Bureau of Educational and Cultural Affairs;
8. Discussion on subjects to be included in the Commission's annual report to Congress; and
9. Such new business that is brought to the attention of members.

For purposes of fulfilling building security requirements, anyone wishing to attend the open session must advise the Staff Director by telephone in advance of the meeting. Telephone: (202) 632–2764. Members of the public will be accommodated up to the seating capacity of the meeting room.

Dated: December 18, 1974.

WILLIAM E. WELD, Jr.,
Staff Director,
Commission Secretariat.

DEPARTMENT OF THE TREASURY

Customs Service

[T.D. 75-4]

FOREIGN CURRENCIES

Certification of Rates

DECEMBER 13, 1974.

The Federal Reserve Bank of New York, pursuant to section 522(c), Tariff Act of 1930, as amended (31 U.S.C. 372 (c)), has certified the following rates of exchange which varied by 5 per centum or more from the quarterly rate published in Treasury Decision 74-264 for the following countries. Therefore, as to entries covering merchandise exported on the dates listed, whenever it is necessary for Customs purposes to convert such currency into currency of the United States, conversion shall be at the following daily rates:

Austria schilling:

Dec. 4, 1974	$0.0562
Dec. 5, 1974	.0565
Dec. 6, 1974	.0566

Belgium franc:

Dec. 4, 1974	0.026850
Dec. 5, 1974	.026900
Dec. 6, 1974	.026875

Germany deutsche mark:

Dec. 2, 1974	0.4002
Dec. 3, 1974	.4000
Dec. 4, 1974	.4035
Dec. 5, 1974	.4050
Dec. 6, 1974	.4030

Netherlands guilder:

Dec. 4, 1974	0.3894
Dec. 5, 1974	.3902
Dec. 6, 1974	.3894

Switzerland franc:

Dec. 2, 1974	0.3645
Dec. 3, 1974	.3675
Dec. 4, 1974	.3733
Dec. 5, 1974	.3772
Dec. 6, 1974	.3750

[SEAL] JAMES D. COLEMAN,
Acting Director,
Duty Assessment Division.

Office of the Secretary

DEBT MANAGEMENT ADVISORY COMMITTEES

Meetings and Determination

Notice is hereby given, pursuant to section 10 of Pub. L. 92-463, that meetings will be held in Washington on January 21 and 22, 1975, of the following debt management advisory committees:

American Bankers Association, Government Borrowing Committee.
Securities Industry Association, Government Securities and Federal Agencies Committee.

The agenda for the meetings will include briefings for the advisory committees by Treasury staff on current debt management problems on January 21, separate deliberations by the two committees on January 21, and separate reports to the Secretary of the Treasury and Treasury staff on the morning of January 22.

Pursuant to the authority placed in Heads of Departments by section 10(d) of Pub. L. 92-463, and vested in me by Treasury Department Order 190, revised, I hereby determine that these meetings are concerned with information exempt from disclosure under section 552(b)(4) of Title 5 of the United States Code, and that the public interest requires that such meetings be closed to the public.

My reasons for this determination are as follows. The Treasury Department requires frank and full advice from representatives of the financial community prior to making its final decision on major financing operations. Historically, this advice has been offered by debt management advisory committees established by the several major segments of the financial community, which committees are utilized by this Department at meetings called by representatives of this office. When so utilized they are recognized to be advisory committees under Pub. L. 92-463. The advice provided consists of commercial and financial information given and received in confidence in order to avoid adverse effects of premature disclosure on the financial markets and the economy. As such these debt management advisory committee activities concern matters which fall within the exemption covered by section 552(b)(4) of Title 5 of the United States Code for matters which are "trade secrets and commercial or financial information obtained from a person and privileged or confidential".

The Special Assistant to the Secretary (Debt Management) shall be responsible for maintaining records of the meetings of these committees and for providing annual reports setting forth a summary of their activities and such other matters as may be informative to the public consistent with the provisions of 5 U.S.C. 552(b)(4).

Dated: December 17, 1974.

[SEAL] JACK F. BENNETT,
Under Secretary for
Monetary Affairs.

RADIAL BALL BEARINGS FROM JAPAN

Antidumping Proceeding

On November 20, 1974, information was received in proper form pursuant to § 153.26 and § 153.27, Customs regulations (19 CFR 153.26, 153.27), indicating a possibility that radial ball bearings, ex-

cluding those with integral shafts, with an outer diameter of 9 mm and over, but not over 180 mm, from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.). Radial ball bearings are used in various industrial equipment, including alternators and generators for cars, lawnmowers, various mechanical power transmission devices, electric motors, exhaust fans, transmissions for all types of civilian and military self-propelled vehicles, and other equipment.

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs regulations (19 CFR 153.30).

Dated: December 19, 1974.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DEPARTMENT OF DEFENSE

Department of the Army

CONTROL OF STARLINGS AND OTHER BLACKBIRDS AT ARMY INSTALLATIONS

Intent To Prepare Environmental Impact Statement

DECEMBER 16, 1974.

The previous notice in the FEDERAL REGISTER of October 21, 1974, (39 FR 37402 Oct. 21, 1974) concerning control of blackbirds, Fort Campbell, Kentucky, and Milan Army Ammunition Plant, Tennessee is hereby revoked. Although not regarded a major federal action having a significant impact on the environment under the provisions of the National Environmental Policy Act, the Department of the Army is proceeding with the preparation of a Draft Environmental Impact Statement (DEIS) due to the divergence of opinion expressed by various individuals and organizations on the proposed action. The DEIS is expected to be available about December 23, 1974.

The proposed control program involves large starling and blackbird roosts on Army installations. Various methods of control are being considered. The proposed control program should arrest damage to the local agricultural economy, help reduce a source of debilitating disease and improve aviation safety. Should it be concluded that an environmentally acceptable control measure is feasible and that such a measure should be employed prior to the blackbirds leaving their roosts for their spring migration, accelerated review of the DEIS will be requested from interested agencies and organizations.

Advance requests for copies of the DEIS and suggestions for consideration in preparing the statement may be sent to Mr. Henry L. T. Koren, Deputy Under Secretary of the Army, Department of the Army, Washington, D.C. 20310 prior to December 20, 1974.

HENRY L. T. KOREN,
Deputy Under Secretary of the Army.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKAN NATURAL GAS TRANSPORTATION SYSTEMS

Additional Meetings

Notice is hereby given that public meetings will be held to obtain suggestions and comments on impacts of proposed systems for transporting natural gas from Alaska North Slope to the lower United States. Information on impacts will be considered in preparing the environmental impact statement. These meetings are in addition to the meetings which were announced in the FEDERAL REGISTER on December 11, 1974.

These meetings will be conducted by the Joint Interagency Task Force which is responsible for preparing that statement and which is composed of the Department of the Interior and the staff of the Federal Power Commission.

Background. The transportation of natural gas resources from the Arctic regions of northeast Alaska to markets in the lower United States is an issue of increasing national importance. In this regard, applications for natural gas pipeline right-of-way permits across Federal lands and certificates of public convenience and necessity authorizing the construction of natural gas transmission facilities have been received by the Department of the Interior and the Federal Power Commission in connection with proposed systems to deliver gas from northeast Alaska to the lower United States.

The Alaskan Arctic Gas Pipeline Company requested Federal permits and certificates to construct a pipeline for transportation of natural gas from the Prudhoe Bay area of Alaska. The proposed pipeline would cross northeast Alaska through the Arctic National Wildlife Range before crossing the international border and going south through Canada. Additional certificate applications have been filed with the Federal Power Commission by Interstate Transmission Associations and Northern Border Pipeline Company requesting Commission approval of related natural gas transmission systems which may be required to distribute the Alaskan Arctic gas throughout the United States. In this regard, additional permit applications are expected to be filed with the Department of the Interior.

The proposed system will consist of a main trunk line of 48-inch diameter located generally from Prudhoe Bay, approximately 2,600 miles to Caroline, Alberta. The main trunk will fork in the vicinity of Caroline, with 42-inch fork lines going to the area of Kingsgate, British Columbia (to the west), and Monchy, Saskatchewan (to the east). From these points, pipelines are expected to be generally located as follows:

1. From Kingsgate through Idaho, Washington, Oregon, and California to San Francisco;
2. From Kingsgate through Idaho, Washington, Oregon, Nevada and California to Los Angeles; and
3. From northern Montana through North Dakota, South Dakota, Minnesota, Iowa, Illinois, Indiana, Ohio, West Virginia to Pennsylvania.

El Paso Natural Gas Company has filed for certificates of public convenience and necessity to construct a natural gas pipeline system from Prudhoe Bay across Alaska on a north-south route ultimately delivering gas to the lower United States by cryogenic oceangoing tankers. The system is a 42-inch diameter line that would run generally from Prudhoe Bay southward following the Alyeska oil pipeline corridor, but with a port location near Point Cravina rather than at Valdez. At the terminus, the gas is to be liquefied and transported by cryogenic tankers to the west coast of the lower United States.

In response to these applications, the Federal Power Commission has responsibility for the evaluation and jurisdiction for the certification of the proposed transportation systems. The FPC staff, with the assistance of the Department of the Interior and others, is required to conduct a detailed independent analysis and prepare a detailed environmental statement. Because any pipeline involved will cross the public lands and other areas of Department of the Interior jurisdiction, and because permits or concurrences will be required for such crossings, Interior is directly involved in the proposed action and required to prepare a detailed environmental impact statement. In view of these considerations, it was agreed (May 1974) that FPC and Interior will assume joint responsibility for preparation of an environmental impact statement in order to most effectively and expeditiously assess the impacts.

MEETINGS

Meetings will be conducted at 10–11:30 a.m., 1:30–4:30 p.m., and 7:30–9 p.m., local time in the following locations:

Spokane, Washington
Federal Building, Room 695
West 920 Riverside
January 13, 1975

Bismarck, North Dakota
Holiday Inn, Far West Room

Memorial Highway
January 15, 1975

Reno, Nevada
Pioneer Motor Inn
221 South Virginia Street
January 15, 1975

The meetings will be open to the public with any individual invited to present a statement directed at environmental impacts. All statements received will be considered in the analysis of the environmental impacts but written comments are encouraged. Since the meetings are "information seeking" rather than "debate of merits of the proposals," the presiding officer will not permit cross questioning at the meeting.

Formal applications for the proposed gas transportation facilities are available for public inspection at the Department of the Interior, Washington, D.C.; the Federal Power Commission, Washington, D.C.; Office of the Special Assistant to the Secretary of the Interior, Chicago, Illinois; or the Bureau of Land Management Eastern States Office, Silver Spring, Maryland; Bureau of Land Management District Office, West 920 Riverside, Spokane, Washington 99201; U.S. Fish and Wildlife Service, Room 316, Federal Building, Bismarck, North Dakota.

The applications are also on file at the Bureau of Land Management State Office in each of those states in which gas transportation facilities have been proposed and at the Alaskan Gas Transportation System—EIS Task Force Offices which are listed below:

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Notice of Application; Correction

On November 13, 1974, a notice was published in the FEDERAL REGISTER (39 FR 40044-48) that an application had been filed with the Fish and Wildlife Service, U.S. Department of the Interior, by the Patuxent Wildlife Research Center, U.S. Fish and Wildlife Service, Laurel, Maryland, for a permit relative to studies of endangered species.

Notice is hereby given that all references to Manatee, West Indian (Florida), (*Trichechus manatus*), are hereby deleted from this application.

Dated: December 17, 1974.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant:

Dr. James R. Dixon, Professor
Mark A. Staton, Ph.D., Graduate Student
Department of Wildlife and Fisheries Sciences
Texas A & M University
College Station, Texas 77843

INFORMATION SHEET

(1) Name and address:
Dr. James R. Dixon
Department of Wildlife and Fisheries Sciences
Texas A & M University
College Station, Texas 77843

(2) Institutional affiliation:
Chief Curator, Texas Cooperative Wildlife Collections; and
Professor of Wildlife and Fisheries Sciences
Texas A & M University

(3) We presently hope to conduct our research at the Murphree Wildlife Management Area, located adjacent to the southwest city limits of Port Arthur, Jefferson County, Texas; and, the Welder Wildlife Refuge, located seven miles NE of Sinton, San Patricio County, Texas.

(4) We are applying for this permit under Section 10(2)[?] (Exceptions; permits) of the Endangered Species Act of 1973 (Pub. L. 93-205, 93rd Congress) [Included in September 4, 1974 letter].

(5) As supporting documents from authorized authorities, we include a copy of our original grant proposal and a letter from the Endangered Species Office and International Affairs which shows that the grant has been funded by them.

(6) I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

(7) Desired effective date of permit: March 1, 1975 to March 1, 1977.

(8) Dated: September 4, 1974.

(9) Signature: James R. Dixon.

CONTRACTS FOR RESEARCH STUDIES ON SURVIVORSHIP OF ALLIGATORS THROUGH THEIR FIRST YEAR AND ONE-HALF OF LIFE

This contract entered into pursuant to the authority under the Federal Property and Administrative Services Act of 1949, as amended, section 302(c)(5) and the Fish and Wildlife Act of 1956, 70 Stat. 119 (16 U.S.C. 742 d and f), this 25th day of June 1974, between the United States of America, acting through the authorized Contracting Officer of the Fish and Wildlife Service, Department of the Interior (hereinafter called the Service) and the Texas A&M University (hereinafter called the Contractor).

Witnesseth: The Parties hereto do mutually agree to the conduct of the work pursuant to the General Provisions attached hereto and made a part hereof as follows:

1. *Description of Work.* The Contractor will undertake research studies on survivorship of Alligators through their first year and one-half of life, as more particularly set forth in the Contractor's proposal attached hereto and made a part hereof.

2. *Cost.* $12,684.
3. *Overhead.* (15%)
4. *Period of Performance.* June 26, 1974 through June 30, 1976.
5. *Project Officer.* Dr. Howard Campbell, National Fish and Wildlife Lab., 2620 East University Avenue, Gainesville, Florida.
6. *Equal Employment Opportunity.* The attached Form 3-176, entitled Equal Opportunity in Employment, is made a part of this contract.

In witness thereof, the Parties hereto have executed this contract as of the day and month and year first above written.

A PROPOSAL FOR A STUDY OF YOUNG ALLIGATORS

submitted to

Chief

Endangered Species Office and International Affairs

Washington, D.C.

proposed title:

SURVIVORSHIP OF ALLIGATORS THROUGH THEIR FIRST YEAR AND ONE-HALF OF LIFE

by

Dr. James R. Dixon

and

Mark A. Staton

Main objectives.

I. To determine the survivorship of young alligators through their first summer, first winter, and second summer of life;

II. To determine the overwintering habits of the first-year alligators.

Historical summary of the problem.

The American alligator, *Alligator mississipiensis,* is a rare and endangered species over most of its geographical range; this is so largely because of the commercial value of this reptile's hide, which has encouraged much poaching. Despite its commercial value, despite the fact that it is an endangered species, and despite the regrettable fact that it is among a small group of survivors of the subclass of reptiles that once ruled the face of the earth. Very little objective scientific information is available on the young of this animal to people who are trying to propagate this species and to prevent it from becoming extinct.

The literature available on alligators during their first year and one-half of life is confusing, clearly contradictory, and for all practical purposes, never quantitative. The food habits of the American alligator were studied by Kellogg (1929). However, the sample used by this researcher were severely biased since more than 95 percent of his animals were from the salt marshes of Louisiana where food is atypical for most other members of the species. Even more detrimental is the fact that no attention was paid to differential predation by size class; in addition, no attention was given to the fact that much of this food could have been secondarily ingested (Neill, 1971). Neill (1971) suggests crayfish as a food item for the young alligator, but does not volunteer other suggestions; needless to say, there is no quantitative information on the subject.

There is some useful information on predation on young alligators. Neill (1971) lists the great blue heron, raccoon, black bear, cottonmouth mocassin, and introduced wild hog as predators of the young alligator. Various hawks, eagles, snapping turtles, and frogs of the genus *Rana* were also mentioned by Neill as possible predators. LeBuff (1957) adds otters, skunks, and adult alligators from six to fourteen feet in length to this list. LeBuff states: "* * * undoubtedly the alligator should rank relatively high in the list of the hatchling's enemies." As will be noted below, this is in sharp contrast to what most other authors report. Undoubtedly, other predators of young alligators exist, such as largemouth bass, water snakes, and other carniforous vertebrates.

LeBuff's statement concerning cannibalism by alligators is contrary to the reports of other authors that the adult alligator (usually considered to be the mother of the young) actually protects them; some authors claim this period of maternal care to be up to three years long. Protection by the mother or by any adult of the species would of course be a great positive factor in the survivorship of the alligator during its first year of life, a very critical period of the life history of this animal. It is at this stage that alligators are most likely to undergo heavy predation, and the environmental extremes in temperature (especially during winter) would place a great stress on the species. Thus adult (parental or nonparental) care in the form of protection from predators, or in the form of providing an overwintering den site, would contribute greatly to the survivorship of the young and to the survival of the species as a whole. However, the literature concerning this aspect of the life history of this animal is totally confusing and chaotic. The following quotes from the literature will suffice to demonstrate this point.

From McIlhenny's (1935) book on the life history of the alligator, we get the following information:

"As soon as the young are hatched, they are led by the mother to her den, which is usually in a secluded pool in the wet prairie or the head of some small bayou. The young remain with, and are guarded by, the mother from the time of hatching all through the winter, and until the next spring's mating season. At this time the female wanders off in search of a mate, and the young, being then about sixteen or eighteen inches in length and well able to take care of themselves, spread over the surrounding marshes and bayous."

Others, such as Goin and Goin (1971) and Oliver (1955) have apparently cited McIlhenny. Viosca (1960) feels that the maternal care is even more longlasting:

"Young alligators seem to stay in the feeding area guarded by their mother for as long as three and a half years. I have evidence of a mother, father, and three generations of young hibernating together in a single water hole. Similar reports from professional alligator hunters seem to bear this out. Most of the young will have wandered away by the fourth year, when their length is between three and a half and four feet."

However, Neill's (1971) observations on the alligator are quite the opposite of those of McIlhenny and Viosca. Neill agrees that the adult alligator does protect the young of the species; however, Neill asserts that any adult will protect young which happens to be in its territory, and therefore, the protection is not necessarily maternal. According to Neill, such protection is given when the young sounds its "distress call"; McIlhenny does not mention the distress call, saying that the adult will respond to the regular "umph" of the young which it sounds in case of danger. Neill states:

"The adult's reaction to the distress call is the only direct interaction between adult and juvenile alligators. Except when reacting to the distress call, the adults ignore the juveniles competely, as far as one can judge from overt responses of the adult."

In contrast to this are the following observations by McIlhenny and by Kushlan (1973).

"I have seen mother alligators catch large fish, large snakes, and turtles in their jaws and crush them to a pulp, holding them at the surface of the water between their jaws, so that the young could gather bits of food from the crushed flesh." (McIhenny, 1935)

"On 16 August a number of juveniles still at the nest site were captured and used to test the response of the mother to the juvenile distress cry. While the female was floating in the water next to the roadbed, I held a juvenile 1 m above the ground and elicited distress cries by squeezing it. The mother moved quickly out of the water and climbed up the bank, a distance of 3 m. At this point I immediately released the juvenile. In direct and deliberate motions, the female then turned her head sideways, opened her jaws, picked up the juvenile with the side of her mouth, and with a jerk of her head positioned it on the bottom of her mouth in front of her tongue. The female remained on the roadbed for several minutes holding her mouth agape by about 3 cm and then backed down into the water. She remained there for several minutes more, then increased her gape slightly and the juvenile swam out." (Kushlan, 1973)

With regard to overwintering, Neill states that the adults do not provide an overwintering den site for the young. Instead,

"Dispersal takes place so soon after hatchling that, even in captivity, one rarely has a chance to see a brood while more than a few of its members are still together. * * * Ignoring aggregation that is forced by low water, in most areas the herpetologist will see an aggregation of hatchlings only if he is fortunate enough to be on hand in the first hour or two after hatching."

LeBuff (1957) agrees with Neill on this matter:

Upon emergence from their thin-shelled prison the young head directly toward the nearest water which is not a carefully planned "playground" but the shoreline of the pond, lake, or stream nearest their nest. They go immediately to the shallow waters bordering their possible future habitat.

However, Neill and LeBuff do not agree on the matter of predation by adults on young alligators.

Numerous other contradictions in the literature concerning the life history of these young alligators could be cited. The question of whether the female opens the nest for the young at the time of their emergence from that nest is a good example. Another serious fault of the information on young alligators is its total lack of quantitative data. Perhaps the most quantitative information available on any aspect of the life history of young alligators is the statement by Neill (1971) concerning survivorship:

"Studies in Georgia revealed that the number of hatchlings present in a lake or a sharply delimited expanse of low flatwoods was reduced by about nine-tenths between the end of the hatching season and the beginning of the following active season. These observations were made at fairly undisturbed localities, and at a time when hatchling alligators were not collected by man. The decimation of hatchlings was a result of natural hazards and perhaps innate defects."

Neill does not state if this information is published (and if so, where), and a rundown of the literature cited by Neill in this

XUM
V 39 N 247 DEC 23 1974
XUM
V

particular part of his text is equally unrevealing as to its source. However, Neill surely does not expect this statement to be of any value in describing the demography of these young alligators since no idea of the sample size involved is given; in addition, the localities involved are not given (which would allow an evaluation of how "undisturbed" the localities were). In stating that the study was done at a time when there was no predation by man on the young, Neill almost implies that there might have been hunting of the adults by man. If there is much parental care given to the young as claimed by many other authors, then the hunting of the adults would certainly have been detrimental to the first-year alligators.

Thus information on the survivorship (or mortality) of alligators during their hatching year is virtually nonexistent, and a study of the matter is merited. Ted Joanen of the Louisiana Wild Life and Fisheries Commission, who has for over ten years been doing research on these animals in order to propagate the alligator in captivity and manage their populations, has assured me that information on mortality during their hatching year is needed and would prove useful in the management scheme (pers. comm., August, 1973).

Thus, we offer a preliminary outline of the proposed study herein.

Methods and materials. The site for the study has not been selected and will be dependent upon the amount allocated for transportation and supplies. Ideally, the study area would be inhabited by a population of alligators large enough so that young from a minimum of ten to twenty nests could be studied. It would also be worthwhile to have two study areas with as great a latitudinal difference in location as possible so that differences in the overwintering habits due to differences in the severity of the winter might be discovered; again, this would be dependent upon allocations for travel and supplies.

A. *Survivorship.* To determine survivorship of young in the alligator population (or populations) studied, the alligators will be marked in two ways—by toe clipping and by color-coded markers. Various combinations of toes clipped will allow for marking of many more animals than will actually be involved in the study. Combinations of two markers of different color (as many different colors as necessary could be used) will also allow for marking and later identification of nest mates. These markers would consist of small, soft plastic strips, which would not stand out conspicuously and thereby possibly increase natural predation on the animals; in addition, the animals could be identified without being handled. This is the main purpose for having two marking systems. Most authors agree that the behavior of crocodilians can be changed by man's intereference with their activities (for example see McIlhenny, 1935, Bustard, 1968, and Neill, 1971). Since toe clipping will necessarily involve handling the animals, the color-coded marker system will allow an evaluation of the effect of handling on their behavior and, consequently, even their survivorship. If more than one population is studied, then both systems would be used at each study area.

Sampling of the population at different intervals of the first year and one-half will help to determine the numbers of alligators present, thus giving an idea of when predation is highest and of the losses incurred over winter.

B. *Overwintering Habits.* The literature is totally contradictory about the overwintering habits of young alligators, and the first winter could be a negative influence on the survivorship of young alligators, thus an examination of its overwintering activities is necessary. This will involve many field observations. The methods we propose in this portion of the study are: (1) Radioactive transmitters (tantalum); (2) radio transmitters (sonar). Radio transmitters will be placed on various mother alligators shortly before the hibernation period begins, thus allowing us to trace them to their dens, and be able to monitor her activities during the winter. The radioactive tracers placed in selected young from different nests will allow the field worker to know if there are young denning up with the mother for the winter. If such is the case, examination of the den and identification of the young by its mark (color-coded marker or toes clipped) will allow the determination of the overwintering relationships between adults and young of the population. In addition, observations of winter basking by the young would indicate whether the young use the same den after basking, the distance from the den they might move, and if indeed an adult's den site is always, sometimes, or never used.

Although a determination of survivorship and overwintering behavior will be the main objectives of this study, the field work will undoubtedly result in other observations on the life history and demography of the young as well as the adult alligators. For example, den site of the young and seasonal variations in density will be calculated. Observational data on predation, feeding, and behavior will also be taken. Thus, this study would provide essential information about this unique endangered species of reptile which will be useful in preventing it from becoming extinct.

Budget:

Item	1st year	2d year	Total
Salary for 1 MS Student ($350 per month)	$4,200.00	$4,200.00	$8,400.00
Equipment [1]	800.00	200.00	1,000.00
Transportation (summer and winter trips to study area and other alligator localities)	500.00	500.00	1,000.00
Subtotal	5,700.00	5,100.00	10,800.00
Overhead (15 percent)			1,670.00
Total			12,470.00

[1] Radio transmitters, receivers, and radioisotopes.

MARINE MAMMAL PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit has been received under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407).

Applicant:

Jack W. Lentfer
U.S. Fish and Wildlife Service
813 D Street
Anchorage, Alaska 99501

Date: November 7, 1974.

To: Director, U.S. Fish & Wildlife Service, Washington, D.C.

From: Leader, Polar Bear Project, Research Division, U.S. Fish and Wildlife Service, Anchorage, AK.

Subject: Permit Application.

Enclosed is an application for a polar bear research permit as required by the Marine Mammal Act.

JACK W. LENTFER.

APPLICATION FOR POLAR BEAR RESEARCH PERMIT AS REQUIRED BY MARINE MAMMAL PROTECTION ACT OF 1972

Information required by 50 CFR 13.12.

1. Applicant's name, address, and phone number: Jack W. Lentfer, U.S. Fish and Wildlife Service, 813 D Street, Anchorage, Alaska 99501, Phone 907-265-4506.

2. Date of birth: May 13, 1931. Height: 6'1". Weight: 170 lbs. Color of Hair: Light. Color of Eyes: Blue. Sex: Male. Affiliation: Leader, Polar Bear Project, U.S. Fish and Wildlife Service.

3. Agency Director: Lynn A. Greenwalt, Director, U.S. Fish and Wildlife Service, Washington, D.C.

4. Location of Activity: North and northwest Alaska coast, Beaufort and Chukchi Seas, and Wrangel Island.

5. Information required by 50 CFR 18.31 for marine mammal research permit:

(1) Purpose: To provide for immobilization of polar bears in order to examine for marks or mark, and obtain biological specimens and data.

Dates of taking: March 1, 1975 through February 28, 1978.

Location and manner of taking: Field operations will be conducted from Pt. Hope, Pt. Barrow, Oliktok, and Barter Island, Alaska; Wrangel Island, U.S.S.R.; and AID JEK drifting ice stations in the Beaufort Sea. Bears other than cubs will be immobilized by injecting 1.6 milligrams per kilogram body weight of the immobilizing drug Sernylan (phencyclidine hydrochloride) and .07–.11 milligram per kilogram body weight of the tranquilizing drug Acepromazine into a large rump muscle with a syringe gun. Cubs will be handled without drugs. Most bears will be immobilized from a helicopter; possibly a few will be immobilized from the ground. Bears become immobile within 7 to 20 minutes and remain immobile for 2 to 5 hours. Bears will be marked for long-term identification with ear tags and a lip tattoo and for short-term identification from a distance with a number dyed on the fur. A veterinary tooth extractor will be used to remove a rudimentary premolar tooth approximately 8 millimeters long. Vacutainer syringes will be used to obtain blood samples from the femoral vein. Milk will be obtained by manual extrusion of mammae. Techniques for immobilizing and handling animals are judged to be safe; the attempted temporary immobilization of 659 polar bears by Alaskan researchers has resulted in deaths of only 5 animals. Experience which has been gained will reduce the mortality rate in the future.

(2) Stocks, numbers and products to be taken, weights, ages, sizes, sex, and condition: Bears captured west and south of Point Lay, Alaska belong to one subpopulation, and bears captured north and east of Point Lay belong to another subpopulation. Relationships of these bears to Canadian and Siberian populations are not known. Sizes of Alaskan populations are not known. Up to 800 animals will be immobilized over a period of 3 years. A rudimentary premolar tooth and blood sample will be taken from most animals and a milk sample will be taken from lactating females. Both sexes and all age classes of bears will be immobilized. Ages will range from 4 months to 25 years. Weights will range from 15 to 1,400 pounds. No mortalities are expected, but to cover contingencies, authorization is requested to possess carcasses of any bears killed accidentally during immobilizing procedures.

(3) Methods of transport and holding: Not applicable.

(4) Description of research project: The Alaska polar bear research program includes studies of population discreteness, movement patterns, seasonal distribution and abundance, reproductive biology, and effects of human development on populations. Much of the information is obtained by immobilizing animals. Flights to locate animals for immobilization provide data on distribution and abundance of bears in relation to ice type and in relation to distribution of seals, their principal food. Examination of immobilized animals provides data on sex and age composition and reproductive biology. Marking and recovering animals provides data on movements. All studies contribute to a better understanding of life history and ecology and aid in evaluating effects of human development on populations. Studies are part of a cooperative program with Canada and Russia. The Alaska Department of Fish and Game and the U.S. Fish and Wildlife Service have now marked more than 650 bears. The Canadian Wildlife Service has marked approximately 300 bears adjacent to northwestern Canada, and the Russians are marking bears on Wrangel Island in northwestern Russia.

Cementum layering in premolar teeth will provide estimates of age for individual animals. Electrophoretic analysis of blood will aid in assessing population discreteness. Milk samples will aid in assessing population discreteness and determining levels of environmental contaminants in a top trophic level Arctic carnivore.

Data will be used for annual Department of Interior status reports required by the Marine Mammal Act, and for evaluation of a management program proposed by the State of Alaska. The studies are part of an international research effort coordinated by the Polar Bear Specialist Group associated with the International Union for the Conservation of Nature. Studies partially fulfill research obligations of the U.S.–U.S.S.R. Environmental Protection Agreement and the International Polar Bear Agreement prepared at Oslo, Norway in November 1973. Data will be made available to the Alaska Department of fish and game and polar bear management and research agencies in other countries.

6. Documentation for importation from foreign country: Not applicable.

7. Certification: I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

8. Desired effective date of permit: March 1, 1975–February 28, 1978.

9. Date of application: November 7, 1974.

10. Signature of applicant:

JACK W. LENTFER.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before January 22, 1975, will be considered.

Dated: December 17, 1974.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

National Park Service

ISLE ROYALE SEAPLANE SERVICE

Intention To Issue Concession Permit

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on or before January 22, 1975, the Department of the Interior, through the Superintendent, Isle Royale National Park, proposes to issue a concession permit to Clarence J. Grognet, doing business as Isle Royale Seaplane Service, authorizing it to provide air transportation of passengers and freight for the public, and to use certain Government-owned docks and fueling facilities located in Isle Royale National Park, for a period of five years from January 1, 1975 through December 31, 1979.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the human environment, and that it is not a major Federal action under the National Environmental Policy Act and the guidelines of the Council on Environmental Quality. The environmental assessment may be reviewed in the Midwest Regional Office, 1709 Jackson Street, Omaha, Nebraska 68102, and the Office of the Superintendent, 87 N. Ripley Street, Houghton, Michigan 49931.

The foregoing concessioner has performed its obligations under an existing permit to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the issuance of a new permit. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before January 22, 1975.

Interested parties should contact the Superintendent, Isle Royale National Park, 87 North Ripley Street, Houghton, Michigan 49931, for information as to the requirements of the proposed permit.

Dated: November 18, 1974.

HUGH P. BEATTIE,
Superintendent.

[FR Doc.74–29830 Filed 12–20–74;8:45 am]

NOAH RECTOR AND PHILLIP MOSS

Intention To Issue Concession Permit

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on January 22, 1975, the Department of the Interior, through the Superintendent, Ozark National Scenic Riverways, proposes to issue a concession permit to Noah Rector and Phillip Moss, authorizing them to provide concession facilities and service for the public at Ozark National Scenic Riverways for a period of two (2) years from December 31, 1974 through December 31, 1976.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the human environment, and that it is not a major Federal action under the National Environmental Policy Act and the guidelines of the Council on Environmental Quality. The environmental assessment may be reviewed in the Midwest Regional Office, National Park Service, 1709 Jackson Street, Omaha, Nebraska and the Headquarters of the Ozark National Scenic Riverways, Van Buren, Missouri.

The foregoing concessioner has performed its obligations under the expired permit to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be

XUM
V 39 I 247 DEC 23 74
XUM

given preference in the renewal of the permit and in negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before January 22, 1975.

Interested parties should contact the Superintendent, Ozark National Scenic Riverways, for information as to the requirements of the proposed permit.

RANDALL R. POPE,
Superintendent.

NOVEMBER 14, 1974.

INDEPENDENCE NATIONAL HISTORICAL PARK ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Independence National Historical Park Advisory Commission will be held at 10:30 a.m. on January 9, 1975, at 313 Walnut Street, Philadelphia, Pennsylvania.

The Commission was established by Pub. L. 80-795 to render advice on such matters relating to the park as may from time to time be referred to them for consideration.

The members of the Commission are as follows:

Mr. Arthur C. Kaufmann (Chairman)
Mr. John P. Bracken
Hon. Michael J. Bradley
Hon. James A. Byrne
Mr. Filindo B. Masinn
Mr. Frank C. P. McGlinn
Mr. John B. O'Hara
Mr. Howard D. Rosengarten
Mr. Charles B. Tyson

The matters to be considered at this meeting include:

1. Chestnut Street Mall project.
2. Independence Mall planning for Bicentennial.
3. Memorial for the late Judge Edwin O. Lewis.
4. Area F.
5. Superintendent's Report.

The meeting will be open to the public. Any person may file with the Commission a written statement concerning the matters to be discussed. Persons desiring further information concerning this meeting, or who wish to submit written statements, may contact Hobart G. Cawood, Superintendent, Independence National Historical Park, Philadelphia, Pennsylvania, at Area Code 215, 597-7120.

Minutes of the meeting shall be available for inspection two weeks after the meeting at the office of the Independence National Historical Park, 313 Walnut Street, Philadelphia, Pennsylvania.

Dated: December 10, 1974.

CHESTER L. BROOKS,
Regional Director, Mid-Atlantic Region, National Park Service.

[FR Doc.74-29787 Filed 12-20-74;8:45 am]

WESTERN REGIONAL ADVISORY COMMITTEE

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a field trip and public meeting of the Western Regional Advisory Committee will be held in Hawaii. The field trip will begin on January 13, 1975 in Hilo, Hawaii and end on January 17, 1975 in Honolulu, Hawaii. A public meeting will be held at 9:00 a.m. HST on January 18, 1975 in the conference room of the Waikiki Beachcomber Hotel, 2300 Kalakaua Avenue, Honolulu, Hawaii.

The purpose of the Western Regional Advisory Committee is to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on programs and problems pertinent to the Western Region of the National Park Service.

The members of the Advisory Committee are as follows:

Lewis S. Eaton, Fresno, California (Chairman)
Ben Avery, Phoenix, Arizona
David W. Ballio, Jr., Lihue, Kauai, Hawaii
Ed Fike, Las Vegas, Nevada
Bernard Fontana, Tucson, Arizona
Jean Ford, Las Vegas, Nevada
James Hooper, Crescent City, California
Jack Walston, San Francisco, California
Todd Watkins, Bishop, California

The matters of general discussion by the public and the committee will be the four currently established National Park Service areas in Hawaii:

(1) City of Refuge National Historical Park.
(2) Haleakala National Park.
(3) Hawaii Volcanoes National Park.
(4) Puukohola Heiau National Historic Site.

Other general discussion items will be on park studies:

(1) Honokohau.
(2) U.S.S. Arizona Memorial.

The field trip will provide the committee with an onsite orientation of the programs and problems pertinent to the above listed areas.

The meeting will be open to the public. Any member of the public will also be able to file, with the committee, a written statement concerning the matters to be discussed.

Due to a lack of space, only the Advisory Committee members and associated National Park Service personnel will be provided transportation for the field trip.

Persons wishing further information concerning this meeting or who wish to submit written statements may contact Ray C. Foust, Executive Assistant to the Regional Director, Western Regional Office at (415) 556-8227.

Minutes of the meeting will be available for public inspection eight weeks after the meeting at the Western Regional Office, National Park Service, 450 Golden Gate Avenue, San Francisco, California.

Dated: December 12, 1974.

HOWARD H. CHAPMAN,
Regional Director, Western Region, National Park Service.

Office of the Secretary

FEDERAL METAL AND NONMETAL MINE SAFETY ADVISORY COMMITTEE

Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the Federal Metal and Nonmetal Mine Safety Advisory Committee, authorized to be established under the Federal Metal and Nonmetallic Mine Safety Act (Pub. L. 89-577), will meet on Wednesday—January 29, Thursday—January 30, and Friday—January 31, 1975, starting at 8:30 a.m. each day until the Advisory Committee concludes its business, at the Braniff Place Tucson, 180 West Broadway, Tucson, Arizona 85701—Telephone Number: Area Code 602-624-9711.

The matters to be discussed at this meeting include suggested new and revised safety standards which are carried over from the October 30-31, 1974, and November 1, 1974, meeting of the Advisory Committee held in Denver, Colorado. These standards relate to the "second escapeway" standard, electricity, and gassy mines. A final review will be made of the actions taken by the Advisory Committee on safety standards relating to man hoisting and a definition and safety standard relating to kelly bars and the use of explosives. In addition the agenda will consist of suggested new and revised health and safety standards and definitions relating to fire prevention and control; air quality, ventilation, radiation and physical agents; personal protection; miscellaneous standards concerning housekeeping, protruding nails, caution signs and caution labels; and, the addition of a new section which will be designated "Sanitation" which includes four standards concerning change rooms, drinking water, food storage and receptacles, and expectorating. Copies of the agenda and the suggested standards are available for the public and may be obtained from or may be examined in the office of the Executive Secretary.

The meeting of the Advisory Committee is open to the public. Public attendance will be limited to seating available in the meeting room of the Braniff Place Tucson. Persons desiring to attend this meeting are requested to notify the Executive Secretary in writing of their intention to attend the meeting by Wednesday, January 22, 1975.

Written data, views or arguments concerning the subjects to be considered may be filed with the Executive Secretary by Wednesday, January 22, 1975. Any such submission, timely received, will be provided to the members of the Advisory Committee and will be included in the record of the meeting. Persons wishing to orally address the committee at the meeting should submit a written request to be heard to the Executive Secretary no later than Wednesday, January 22, 1975. The request must contain a short summary of the intended presentation and an estimate of the amount of time that will be needed. At the meeting the Chairman will announce whether oral presentations will be allowed and, if so, under what conditions.

All written notices and requests to the Executive Secretary should be addressed as follows:

Mr. Robin A. Van Meter
Executive Secretary
Federal Metal and Nonmetal Mine Safety Advisory Committee
Room 2517
U.S. Department of the Interior
Washington, D.C. 20240
Telephone Number: Area Code 202-343-4406

Dated: December 18, 1974.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

PROPOSED CRESCENT LAKE WILDERNESS AREA

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the Department of the Interior has prepared a Final Environmental Statement for the Proposed Crescent Lake Wilderness Area, Garden County, Nebraska.

The proposal recommends that approximately 24,502 acres of the Crescent Lake National Wildlife Refuge in Garden County, Nebraska be designated as wilderness within the National Wilderness Preservation System.

Copies of the Final Statement are available for inspection at the following locations:

Regional Director
Federal Building, Fort Snelling
Room 630
Twin Cities, Minnesota 55111

Refuge Manager
Star Route 69366
Ellsworth, Nebraska 69340

U.S. Fish and Wildlife Service
Office of Environmental Coordination
Department of the Interior
Room 2252
18th and C Streets, NW.
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Coordination, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Dated: December 17, 1974.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

PROPOSED VALENTINE WILDERNESS AREA

[INT FES 74-67]

Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the Department of the Interior has prepared a Final Environmental Statement for the Proposed Valentine Wilderness Area, Cherry County, Nebraska.

The proposal recommends that approximately 16,317 acres of the Valentine National Wildlife Refuge in Cherry County, Nebraska be designated as wilderness within the National Wilderness Preservation System.

Copies of the Final Statement are available for inspection at the following locations:

Regional Director
Federal Building, Fort Snelling
Room 630
Twin Cities, Minnesota 55111

Refuge Manager
Hidden Timber Star Route
Valentine, Nebraska 69201

U.S. Fish and Wildlife Service
Office of Environmental Coordination
Department of the Interior
Room 2252
18th and C Streets, NW.
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Coordination, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Dated: December 17, 1974.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

[INT FES 74-68]

PROPOSED YUKON FLATS NATIONAL WILDLIFE REFUGE, ALASKA

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Yukon Flats National Wildlife Refuge in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Yukon Flats National Wildlife Refuge and its management by the agency indicated below.

Proposal recommends that: Approximately 3.59 million acres of public lands and waters in northeast Alaska be designated by Congress as the Yukon Flats National Wildlife Refuge.

Management by: Fish and Wildlife Service.

The final environmental statement is available for inspection at the following locations:

Office of the Secretary

NATIONAL ADVISORY COMMITTEE ON SAFETY IN AGRICULTURE

Meeting

A meeting of the National Advisory Committee on Safety in Agriculture will be held at 9 a.m., February 26 and 27, 1975, in Room 218 Administration Building, U.S. Department of Agriculture, Washington, D.C. The meeting will adjourn at 3 p.m., February 27, 1975.

The purpose of the committee is to advise the Secretary of Agriculture and other officials on the development of the Department's safety program and ways the Department can work most effectively in farm and rural safety programs with other government agencies, farm organizations, the National Safety Council, and others.

The purpose of the meeting is to review program progress, problems, and recommended actions in the areas of education, standards, information, research, and surveys.

The meeting is open to the public; however, space and facilities are limited. Written statements may be filed with the committee before or after the meeting. Any member of the public who wishes to file a statement or has further questions may contact Robert O. Gilden, Executive Secretary of the Committee, U.S. Department of Agriculture, Room 5529, South Building, Washington, D.C. 20250, telephone number (202) 447-4946.

Dated: December 18, 1974.

ROBERT O. GILDEN,
Executive Secretary.

NAVAJO INDIANS

Feed Grain Donations

Pursuant to the authority set forth in section 407 of the Agricultural Act of 1949, as amended (7 U.S.C. 1427), and Executive Order 11336, I have determined that:

1. The chronic economic distress of the needy members of the Navajo Indian Lands in Arizona, New Mexico and Utah, and the Acoma, Isleta, Jemez, Laguna, Mescalero, Santa Ana, Santa Domingo and Zia Indian Lands in New Mexico has been materially increased and become acute because of severe and prolonged drought creating a serious shortage of livestock feeds. These lands are reservations or other lands designated for Indian use and are utilized by members of the Indian tribes for grazing purposes.

2. The use of feed grain or products thereof made available by the Commodity Credit Corporation for livestock feed for such needy members of the tribes will not displace or interfere with normal marketing of agricultural commodities.

Based on the above determinations, I hereby declare the reservations and grazing lands of these tribes to be acute distress areas and authorize the donation of feed grain owned by the Commodity Credit Corporation to livestockmen who are determined by the Bureau of Indian Affairs, Department of the Interior, to be needy members of the tribe utilizing such lands. These donations by the Commodity Credit Corporation may commence upon signature of this notice and shall be made available through the duration of the existing emergency or to such other time as may be stated in a notice issued by the Department of Agriculture.

Signed at Washington, D.C., on December 17, 1974.

EARL L. BUTZ,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776; 5 U.S.C. App.), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
1. Anti-Infective Agents, Advisory Committee.	Jan. 27 and 28, 9 a.m., Conference Room E, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open—Mary K. Bruch (HFD-140), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4310.

Purpose. Reviews and evaluates all available data on safety and effectiveness of presently marketed and new prescription drug products proposed for marketing for use in treating infectious diseases.

Agenda. "Pseudomembraneous Colitis as a Side Effect of Administration of Clindamycin"—presentation by Upjohn Co.; "Blood Levels of Erythromycin Salts"—presentation by Upjohn Co.; "Benefit/Risk Ratio of Cephalosporins with no Renal Toxicity"—presentation by FDA; and comments and presentations by interested persons.

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on Review of Cold, Cough, Allergy, Bronchodilator and Antiasthmatic Drugs.	Jan. 30 and 31, 9 a.m., Room 1409, FB-5, 200 C St. SW., Washington, D.C.	Closed January 30, 9 a.m. to 3:30 p.m., open January 30 after 3:30 p.m., closed January 31. Thomas D. DeCillis (HFD-109), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available data on safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing cold, cough, allergy, bronchodilator, and antiasthmatic drug products.

Agenda. Closed session: Continuing review of over-the-counter cold, cough, allergy, bronchodilator, and antiasthmatic drug products under investigation. Open session: Comments and presentations by interested persons.

Committee name	Date, time, place	Type of meeting and contact person
3. Panel on Review of Hemorrhoidal Drugs.	Jan. 31 and Feb. 1, 9 a.m., Conference Room K, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open January 31, 9 a.m. to 10 a.m., closed January 31 after 10 a.m., closed February 1. Thomas D. DeCillis (HFD-109), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available data on safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing hemorrhoidal drug products.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter hemorrhoidal drug products under investigation.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided for this type of discussion to remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which

XUM
V 42 1937 DEC 23 74 4 XUM

nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: December 17, 1974.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.74-29786 Filed 12-20-74;8:45 am]

[DESI 2811; Docket No. FDC-D-230; NDA 2-811]

CHORIONIC GONADOTROPIN

Follow-up Notice and Opportunity for Hearing

Correction

In FR Doc. 28409 appearing at page 42397 in the issue of Thursday, December 5, 1974, in the first line of the second paragraph in the first column on page 42402 the letters reading "HCC" should read "HCG".

DEL MONTE CORP.

Canned Peaches Deviating From Identity Standard; Extension of Temporary Permit for Market Testing

Pursuant to § 10.5 (21 CFR 10.5), concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated pursuant to section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), a temporary permit was issued to the Del Monte Corp., 215 Fremont St., PO Box 3575, San Francisco, CA 94119. Notice of this permit issuance was published in the FEDERAL REGISTER of October 18, 1973 (38 FR 28962). The permit covered limited interstate market tests of canned peaches of a style of pack designated "slices and pieces" that is not provided for by the standard of identity (21 CFR 27.2). The slices are more than 50 percent by weight of the product and the food is vacuum packed with a small amount of heavy sirup which is absorbed into the fruit.

The name "Yellow Cling Peaches" and the statements "Vacuum Packed" and "Slices and Pieces-Sweetened" are declared on the principal display panel of the label.

The Del Monte Corp. has submitted a petition, in conjunction with a request for extension of the temporary marketing permit, proposing to amend the standards of identity and quality for canned peaches to provide for the optional style of pack "slices and pieces." This petition is on file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, for review by interested persons.

Pursuant to the proposal published in the FEDERAL REGISTER of December 9, 1973 (37 FR 26340) to amend § 10.5 (21 CFR 10.5), the Commissioner concludes that it will be in the interest of consumers to extend the time period for market tests. As set forth in the proposed amendment to § 10.5, all interested persons may participate in the market tests under the conditions that apply to the Del Monte Corp., including the labeling requirements and the amount to be distributed (40,000 cases of 24/12½ oz. cans). The designated area of distribution does not necessarily apply to such interested persons. Any interested person who elects to participate in the extended market test shall notify the Commissioner in writing of that fact, the amount to be distributed, and the area of distribution. Along with such notification, he shall submit the labeling under which the food is to be distributed.

This permit, as issued to the Del Monte Corp. and such others who participate in accordance with the provisions set forth above, expires either on the effective date of an affirmative order ruling on the proposal to amend the standards of identity and quality for canned peaches or 30 days after a negative order ruling on the proposal, whichever comes first.

Dated: December 16, 1974.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

Health Resources Administration

NATIONAL ADVISORY BODIES

Announcement of Meetings

Pursuant to the Federal Advisory Act (Pub. L. 92-463), the Administrator, Health Resources Administration, announces the meeting dates and other required information for the following National Advisory bodies scheduled to assemble during the month of January 1975:

Committee name	Date/time/place	Type of meeting and/or contact person
Long-Term Care for the Elderly Research Review and Advisory Committee.	Jan. 9 and 10, 1975—9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. 20852.	Open—January 9—9 to 9:30 a.m. and January 10—9 a.m. to 4 p.m. Closed—remainder of meeting. Contact: David McFall, room 15-29, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2090. or Martha O. Greenspan, room 11A-33, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2340.

Purpose. The Committee serves to provide a coordinated professional technical review of proposals submitted to DHEW concerning long-term care for the elderly, to identify problems and issues and develop a tentative ordering of priorities in long-term care for consideration by the Division of Long-Term Care, Bureau of Health Services Research, Health Resources Administration.

Agenda. During the open portion of the meeting agenda items include administrative reports, minutes, establishment of future meeting dates, and discussion of other related general matters. During the closed session the committee will be reviewing project proposals concerning care for the elderly and therefore will not be open to the public, in accordance with the provisions set forth in section 552(b)(4), Title 5, U.S. Code and the Determination by the Administrator, Health Resources Administration pursuant to Pub. L. 92-463, section 10(d).

Committee name	Date/time/place	Type of meeting and/or contact person
Health Services Research Study Section.	January 13 and 14, 1975—9 a.m., Roosevelt Hotel, Madison Room, Madison and 45th St., New York, N.Y. 10017.	Open—January 13—9 to 10 a.m. Closed—remainder of meeting. Contact: Michael J. Enright, room 15-10, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2020.

Purpose. The Committee is charged with the review of grant applications for Federal assistance in the program areas administered by the Bureau of Health Services Research.

Agenda. During the open portion of the meeting agenda items include administrative reports, interim reports, and discussion of other general related items. During the closed session the committee will be reviewing grant applications and therefore will not be open to the public, in accordance with the provisions set forth in section 552(b)(4), Title 5, U.S. Code and the Determination by the Administrator, Health Resources Administration pursuant to Pub. L. 92–463, section 10(d).

Committee name	Date/time/place	Type of meeting and/or contact person
Joint meeting of Health Services Research Study Section and Health Services Developmental Grants Study Section.	January 15, 1975—8:30 a.m., Roosevelt Hotel, Madison Room, Madison and 45th St., New York, N.Y. 10017.	Open—Contact: Michael J. Enright, room 15–19, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301–443–2920. or David McFall, room 15–29, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301–443–2930.

Purpose. The Study Sections are charged with the review of grant applications for Federal assistance in the program areas administered by the Bureau of Health Services Research.

Agenda. The Study Sections will receive presentations from selected speakers under the theme "The methods of research in high density population areas and the use of the research product to inform policy development" and engage in topical discussions. Papers will be presented on Health Services Research in Urban Areas. Due to limited space available persons planning to attend should notify the contact person listed above.

Committee name	Date/time/place	Type of meeting and/or contact person
Health Services Developmental Grants Study Section.	January 16 and 17, 1975—8:30 a.m. Roosevelt Hotel, Madison Room, Madison and 45th St., New York, N.Y. 10017.	Open—January 16—8:30 to 9. Closed—remainder of meeting. Contact: David McFall, room 15–29, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. 20852. Code: 301–443–2930.

Purpose. The Study Section is charged with the review of grant applications for Federal assistance in the program areas administered by the Bureau of Health Services Research.

Agenda. During the open portion of the meeting agenda items include administrative reports, minutes, and discussion of other related general matters. During the closed session the committee will be reviewing grant applications and therefore will not be open to the public, in accordance with the provisions set forth in section 552(b)(4), Title 5 U.S. Code and the Determination by the Administrator, Health Resources Administration pursuant to Pub. L. 92–463, section 10(d).

Committee name	Date/time/place	Type of meeting and/or contact person
Health Care Technology Study Section.	January 20 and 21, 1975—9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. 20852.	Open—January 20—9 to 10. Closed—remainder of meeting. Contact: John R. Hall, room 15–19, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code: 301–443–2920.

Purpose. The Committee is charged with the review of grant applications for Federal assistance in the program areas administered by the Bureau of Health Services Research which relates to the use of systems analysis, operations research, management sciences, and computer sciences in the broad fields of community health services, hospital medicine and patient care.

Agenda. During the open session of the meeting agenda items include administrative reports, and discussion of other related general matters. During the closed session the committee will be reviewing grant applications and therefore will not be open to the public, in accordance with the provisions set forth in section 552(b)(4), Title 5 U.S. Code and the Determination by the Administrator, Health Resources Administration pursuant to Pub. L. 92–463, Section 10(d).

Agenda items are subject to change as priorities dictate.

Those portions of the meetings so indicated, are open to the public for observation and participation. Anyone wishing to participate, obtain a roster of members, or other relevant information, should contact the persons listed above.

Dated: December 13, 1974.

DANIEL F. WHITESIDE,
Associate Administrator for Operations and Management, Health Resources Administration.

Office of Education

ADVISORY COUNCIL ON DEVELOPING INSTITUTIONS

Public Meeting

Notice is hereby given, pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92–463), that the next meeting of the Advisory Council on Developing Institutions will be held on January 26–27, 1975, from 9 a.m. to 4 p.m. in Room 3000, at the Office of Education, 400 Maryland Avenue, SW, Washington, D.C.

The Advisory Council on Developing Institutions was established by Title III of the Higher Education Act of 1965, as amended. The Council is governed by the provisions of Part D of the General Education Provisions Act and of the Federal Advisory Committee Act. (P.L. 92–463). The Council shall assist the Commissioner in identifying the characteristics of developing institutions through which the purpose of Title III may be achieved, and in establishing the priorities and criteria to be used in making grants under section 304(a) of the Title.

The meeting of the Council shall be open to the public. The meeting will focus on the staffing capability of the Division of Institutional Development and plans for the next Annual Report of the Council.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the Director of the College and University Unit, BPE, located in Room 4682, ROB III, 7th and D Streets, SW.

Signed at Washington, D.C., on December 18, 1974.

PRESTON VALIEN,
Director, College and University Unit, BPE.

NATIONAL ADVISORY COMMITTEE ON THE HANDICAPPED

Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92–463), that the next meeting of the National Advisory Committee on the Handicapped will be held on January 20–22, 1975, at 8:30 a.m., in Room 1134, Federal Office Building 6, 400 Maryland Avenue, SW., Washington, D.C.

The National Advisory Committee on the Handicapped is established under (20 U.S.C. 123g) Section 448(b) of the General Education Provisions Act. The Committee is established to review the administration and operation of programs for the handicapped in the Office of Education, and make recommendations for their improvement.

XUM
V 39 I 247 DEC 23 74
XUM

The meeting of the Committee shall be open to the public. The proposed agenda includes discussion with Bureau of Education for the Handicapped personnel in regards to Early Childhood and Vocational Education Programs; the status of legislation and the handicapped; subcommittee reports; and format for the 1975 Annual Report. Records shall be kept of all Committee proceedings and shall be available for public inspection at the Office of the Deputy Commissioner, Bureau of Education for the Handicapped, located in Room 2100, Regional Office Building 3, 7th and D Streets, SW., Washington, D.C. 20202.

Signed at Washington, D.C., on December 16, 1974.

EDWIN W. MARTIN,
Acting Deputy Commissioner for the Handicapped, Bureau of Education for the Handicapped.

Office of the Secretary

HEALTH INSURANCE BENEFITS ADVISORY COUNCIL

Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the Health Insurance Benefits Advisory Council (HIBAC), established pursuant to section 1867 of the Social Security Act, as amended, which advises the Secretary of Health, Education, and Welfare on Medicare and Medicaid matters will meet on Friday, January 10, 1975, at 9:00 a.m. in Room 5051 of the Department of Health, Education, and Welfare's North Building, 330 Independence Avenue, SW., Washington, D.C. The Council will consider matters pertaining to the Medicare and Medicaid programs.

The Mental Health Subcommittee of HIBAC, which is considering expansion of coverage of mental health benefits under Medicare will meet on Thursday, January 9, 1975, at 1:00 p.m. in Room 5169 of Health, Education, and Welfare's North Building.

These meetings are open to the public.

Further information on the Council and the Committees may be obtained from Mr. Sherman Lazrus, Executive Secretary, Health Insurance Benefits Advisory Council, Room 17A-31, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, telephone (301) 443-1185.

Dated: December 3, 1974.

SHERMAN LAZRUS,
Executive Secretary, Health Insurance Benefits Advisory Council.

[FR Doc.74-29638 Filed 12-20-74;8:45 am]

PROTECTION OF HUMAN SUBJECTS OF BIOMEDICAL AND BEHAVIORAL RESEARCH NATIONAL COMMISSION

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research, in accordance with a schedule adopted on December 4, 1974, will meet on January 10 and 11, 1975, in Conference Room 6, Building 31, C Wing, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014. The meeting will convene at 9 a.m. and adjourn at 5 p.m. both days and will be open to the public, subject to the limitation of available space.

Issues relating to fetal research as covered by sections 202(b) and 213 of the National Research Act (Pub. L. 93-348) will comprise the agenda. Time permitting, other areas of the legislative mandate to the Commission will be discussed.

Members of the public will be given an opportunity to present their views on fetus research during the first day of the third meeting of the Commission, February 14, 1975. In accordance with procedures governing public participation at meetings of the Commission, any person wishing to speak at the third meeting must file a written request and receive prior approval from the Commission. Requests must include a detailed summary of the proposed presentation, which shall be limited to 10 minutes for each participant. In order to be considered for approval by the Commission at its next meeting, requests to speak at the February meeting must be received by the Commission not later than January 9, 1975. Requests should be addressed to: Staff Director, National Commission for the Protection of Human Subjects, Westwood Building, Room 125, 9000 Rockville Pike, Bethesda, Maryland 20014. Written materials of any length may be submitted to the Commission at any time.

Requests for information should be directed to Ms. Anne Ballard (301) 496-7526, Room 125, Westwood Building, 9000 Rockville Pike, Bethesda, Maryland 20014.

CHARLES U. LOWE,
Executive Director, National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research.

DECEMBER 17, 1974.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-463 and 50-464]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON FULTON GENERATING STATION

Notice of Meeting

DECEMBER 18, 1974.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on the Fulton Generating Station will hold a meeting on January 7, 1975 at the Sheraton-Conestoga Village, U.S. Route 222, Lancaster, Pennsylvania 17604.

The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the application by the Philadelphia Electric Company for a permit to construct the Fulton Generating Station, Units 1 and 2, located in Fulton and Drumore Townships, Lancaster County, Pennsylvania.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

TUESDAY, JANUARY 7, 1975, 9:00 A.M. UNTIL THE CONCLUSION OF BUSINESS (ABOUT 1:00 P.M.)

The Subcommittee will hear presentations by representatives of the Regulatory Staff and the Philadelphia Electric Company and will hold discussions with these groups pertinent to its review of matters related to the application for a construction permit for the Fulton Generating Station, Units 1 and 2.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at approximately 8:30 a.m. and at the end of the session to consider matters related to the above review. These will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold one or more closed sessions with representatives of the Regulatory Staff and Applicant for the purpose of discussing privileged information relating to the matters under review, if necessary.

I have determined, in accordance with Subsection 10(d) of Public Law 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552 (b) and that closed sessions may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than December 31, 1974 to the Executive Secretary, Advisory

Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 and at the Lancaster County Library, 125 North Duke Street, Lancaster, Pennsylvania 17602.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 9:00 a.m. and 11:00 a.m. on January 7, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on January 3, 1975 to the Advisory Committee on Reactor Safeguards (telephone 301-973-5651) between 8:30 a.m. and 5:15 p.m., E.T.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after January 9, 1975 at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545 and within approximately nine days at the Lancaster County Library, 125 North Duke Street, Lancaster, Pennsylvania 17602. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street NE., Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545 after April 7, 1975. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[FR Doc.74-29899 Filed 12-20-74;8:45 am]

[Docket No. 50-482A]

KANSAS GAS AND ELECTRIC CO. AND KANSAS CITY POWER & LIGHT CO.

Receipt of Attorney General's Advice and Time for Filing of Petitions To Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c. of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated December 10, 1974, a copy of which it attached as Appendix A below.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's rules of practice, 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by January 23, 1975 either (1) by delivery to the AEC Public Docketing and Service Section at 1717 H Street, NW., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, U.S. Atomic Energy Commission, Washington, D.C. 20545, ATTN: Docketing and Service Section.

For the Atomic Energy Commission.

ABRAHAM BRAITMAN,
Chief, Office of Antitrust & Indemnity, Directorate of Licensing.

APPENDIX A

[Docket No. 50-482A]

WOLF CREEK GENERATING STATION, UNIT 1

KANSAS GAS AND ELECTRIC COMPANY

KANSAS CITY POWER & LIGHT COMPANY

DECEMBER 10, 1974.

You have requested our advice pursuant to the provisions of Section 105 of the Atomic Energy Act, as amended, in regard to the above-cited application.

1. *The Facility involved.* The Wolf Creek Generating Station, Unit 1, will consist of one 1180 mw unit located approximately three and one-half miles northeast of the town of Burlington in Coffey County, Kansas. The plant will be owned jointly by two investor-owned utilities: Kansas Gas and Electric Company (50%) and Kansas City Power & Light Company (50%). The estimated cost of the unit at completion will be approximately $829 million. The unit is scheduled to go into operation between 1982 and 1983. Applicants intend to integrate the unit into their electric bulk power supply systems and to market the power therefrom as a portion of their respective system outputs. Kansas Gas and Electric Company has primary responsibility for construction and operation of the unit.

2. *The Applicants.* Kansas Gas and Electric Company ("KGE") is a privately-owned integrated electric utility which serves an 8100 square mile area in southeastern Kansas which has a population of approximately 587,000. KGE currently supplies the full bulk power requirements of twelve municipal systems and three rural electric cooperatives and the partial bulk power requirements of nine municipalities, five cooperatives and two investor-owned utilities. In 1973, KGE's total electric operating revenues were in excess of $79 million. Its 1973 peak load was 1201 mw; its generating capacity at that time was 1634 mw, consisting of 1564 mw of thermal generating capacity and 70 mw of net purchases. KGE maintains extra-high voltage interconnections with Kansas City Power & Light Company, Oklahoma Gas and Electric Company, Empire District Electric Company, Kansas Power and Light Company, Central Telephone and Utilities Corporation and Public Service Company of Oklahoma.

Kansas City Power & Light Company ("KCPL") is also a privately-owned integrated electric utility which serves a 5700 square mile area in northwest Missouri and northeast Kansas, including the Kansas City Metropolitan Area. KCPL provides the full bulk power requirements of six municipalities and one rural electric cooperative as well as the partial bulk power requirements of seven municipalities and two cooperatives. In 1973, KCPL had operating revenues in excess of $155 million. During the same year, KCPL had a peak load of 1757 mw and 2224 mw of the thermal generating capacity. KCPL has extra-high voltage interconnections with KGE, Kansas Power and Light Company, Union Electric Company, Iowa Power and Light Company, St. Joseph Light and Power Company, Missouri Public Service Company, the Southwestern Power Administration, and the municipal systems of Kansas City, Kansas, and Independence, Missouri.

Both Applicants are members of the Mo-Kan Power Pool which consists of seven companies in Kansas and western Missouri which engage in the coordinated development of generation and transmission facilities, reserve sharing and the interchange of power and energy. In addition, KGE and KCPL are partners in jointly-owned thermal generation.

3. *Competitive considerations.* In the course of the Department's review of this application, inquiries were made of all electric utilities smaller than the Applicants who were located in or adjacent to their service areas. These inquiries probed a wide range of competitive conduct by the Applicants and the market structure existing in their respective service areas.

In response to its initial inquiries, the Department received no complaints of serious anticompetitive conduct by KGE. Instead, the Department learned that, as early as January 1973, KGE had contacted neighboring utilities, informed them of the Wolf Creek project, and invited them to study the feasibility of joint participation in these facilities. Negotiations have progressed since then and, with the single exception discussed subsequently, no neighboring utility has complained of the contemplated terms or conditions of participation.

KGE's record of coordinated operation with neighboring utilities does not appear to reflect anticompetitive policies and practices. KGE has wheeled electric power and energy both to and between municipal utilities located within its service area; no occasion on

which the Company has refused to provide wheeling services has been disclosed. Similarly, the Company has entered into interconnection agreements with isolated utilities and has provided either full or partial bulk power requirements wholesale service upon request.[1]

Toward the end of its antitrust review of this application, the Department was contacted by Kansas Electric Cooperatives, Inc. ("KEC"), a nonprofit membership corporation authorized to plan and negotiate for long-range bulk power supplies for its members. KEC's membership consists of 27 rural electric cooperatives which distribute electricity at retail in Kansas, seven of which currently purchase power from KGE. (At an earlier date, KEC had indicated to the Department that it was not aware of any anticompetitive activity on the part of KGE but was then engaged in ongoing negotiations with the Company concerning participation in the Wolf Creek nuclear unit.) KEC alleged that it was being denied effective access to the Wolf Creek nuclear unit because KGE, after initially offering access, had refused to negotiate meaningfully concerning the terms and conditions which would be required to effectuate the offer.

In order to eliminate any possibility that KEC might be denied effective access to the Wolf Creek nuclear unit because of failure by KGE to enter into all necessary ancillary arrangements, the Department has secured from KGE the commitments set forth in the attached letter dated November 29, 1974. KGE has agreed that these commitments may be imposed as conditions on the Wolf Creek license.

Turning now to consideration of KCPL, we note that this Applicant has refused to enter into interconnection and coordination agreements with other utilities on reasonable terms and conditions. There have also been allegations that KCPL has repeatedly refused to wheel power on behalf of smaller utilities. In addition, some smaller utilities have maintained that they have been unable to secure any assurance of access to the Wolf Creek nuclear facilities on reasonable terms and conditions. Finally, KCPL's wholesale contracts appear to be unduly restrictive in that they contain restraints upon the end use of power purchased thereunder, and further restrict the purchaser from acquiring power from any alternative supplier. Such a range of anticompetitive activity, together with KCPL's dominance with respect to generation and transmission within its service area, would appear to constitute a *prima facie* indication of a "situation inconsistent with the antitrust laws."

While not admitting the validity of any of the allegations made to the Department, KCPL expressed a willingness to voluntarily accept the imposition of conditions on the Wolf Creek license which would guarantee the existence of an acceptable competitive atmosphere in its service area in the future. These conditions, which are set forth in a letter dated July 29, 1974, which is attached hereto, would compel KCPL to interconnect and coordinate operations with other electric utilities, purchase and sell bulk power in connection with coordinated planning of new facilities, offer access to Wolf Creek and any future nuclear generating facilities, wheel bulk power on behalf of others, and sell full and partial requirements bulk power at wholesale. In addition, KCPL has agreed to eliminate the restrictive provisions in its wholesale contracts.

[1] Our review indicated that KGE had included some potentially restrictive language in certain wholesale contracts. When this matter was raised by the Department, KGE agreed to delete the language.

Shortly after receipt of KCPL's July 29, 1974 letter, questions were raised whether acts by KCPL in purported implementation of the commitments might not, if fully implemented, frustrate the intent and substance of the conditions to which the Company had consented. This necessitated further lengthy discussions between the Department and KCPL. As a result of these discussions, KCPL substantially modified its course of conduct and agreed to accept the additional condition contained in the attached letter dated November 22, 1974.

4. *Conclusion.* The acceptance of the license conditions outlined above by KGE and KCPL, together with their elimination of restrictive provisions from their wholesale contracts, should go far toward assuring viable competition in their respective service areas. Under these circumstances, we conclude that an antitrust hearing concerning the Applicants' policies and practices will not be necessary if the requested license is conditioned in the manner agreed to by the Department and the Applicants.

[Docket No. 50-482A]

WOLF CREEK GENERATING STATION, UNIT 1

KANSAS GAS AND ELECTRIC COMPANY

KANSAS CITY POWER & LIGHT COMPANY

JULY 29, 1974.

Attached to this letter are Proposed Conditions which Kansas City Power & Light Company ("KCPL") agrees may be included as Conditions to the Construction Permit and Operating License to be issued by the Atomic Energy Commission ("AEC") in connection with the above referenced application. These Proposed Conditions are submitted with the understanding that the Department of Justice will advise the AEC that no antitrust hearing with reference to KCPL will be required.

These Conditions will be accepted by KCPL subject to the following understandings:

1. KCPL does not intend, by acceptance of these Conditions or by operations in accordance therewith, to become a common carrier or to hold itself out as a public utility ready, willing and able to sell electric power and energy at wholesale for resale to entities outside of its present or future service areas in Missouri and Kansas as defined in Section 1 (b) of the attached Proposed Conditions.

2. KCPL reserves all rights and protection as may be afforded to it by law with respect to any and all distribution and/or sale of retail electric service in its certificated service areas in Missouri and Kansas.

3. By acceptance of the attached Conditions, KCPL does not waive any, and hereby reserves all, rights that it may have to apply to any appropriate forum to seek such changes in the Conditions as may at the time be appropriate in accordance with the then existing laws and good industry practices.

4. All of KCPL's understandings and commitments, with the exception of commitments relating to the modification of language in KCPL's wholesale contracts, are contained in the attached Proposed Conditions and this cover letter.

5. Nothing herein or in any of the attached Proposed Conditions shall be construed as a waiver by KCPL of its rights to contest the application of any Condition to a particular factual situation.

Based on the above understandings, Kansas City Power & Light Company presently is willing to accept Conditions to the above referenced Construction Permit and Operating License, if and when issued by the AEC, which are identical to the Proposed Conditions attached to this cover letter.

WOLF CREEK, UNIT 1

PROPOSED CONDITIONS

I. As used herein:

(a) "Licensee" means Kansas City Power & Light Company.

(b) "Licensee's Service Area" means those portions of the States of Missouri and Kansas which are certificated to Licensee by the respective state regulatory commissions. An entity shall be deemed to be in the "Licensee's Service Area" if it has electric power generation, transmission or distribution facilities located in whole or in part in or adjacent to the above-described area or in counties served in part at retail by Licensees.

(c) "Bulk Power" means the electric power, and any attendant energy, supplied or made available at transmission or subtransmission voltage by one entity to another.

(d) "Entity" means person, a private or public corporation, a municipality, a cooperative, a joint stock association, business trust or a lawful association of any of the foregoing constituting a separate legal entity owning, operating or proposing to own or operate equipment or facilities for the generation, transmission or distribution of electricity, provided that, except for municipalities and cooperatives, an "entity" is restricted to those which are or will be a public utility under the laws of the state in which the entity transacts business or under the Federal Power Act and are or will be providing electric service under a contract or rate schedule on file with and subject to the regulation of a state regulatory commission or the Federal Power Commission.

(e) "Cost" means any and all operating, maintenance, general and administrative expenses, together with any and all ownership costs, which are reasonably allocable to the transaction consistent with industry practices. Cost shall include a reasonable return on Licensee's investment. The sale of a portion of the capacity of a generating unit shall be upon the basis of a rate that will recover to the seller the pro rata part of the fixed costs and operating, maintenance, general and administrative expenses of the unit, provided that, in circumstances in which Licensee and one or more entities in Licensee's Service Area each takes an undivided interest in a unit in fee, construction costs and operation, maintenance, general and administrative expenses shall be paid pro rata.

2. (a) Licensee shall interconnect with and coordinate operations (by means of reserve sharing and the sale and purchase of emergency and/or scheduled maintenance and/or other classes of bulk power) with any entity(ies) in Licensee's Service Area engaging in or proposing to engage in electric bulk power supply on terms that will fully compensate Licensee for its costs in connection therewith. Such coordination arrangements will allow the other party(ies) full access to the benefits of coordination.

(b) Emergency and/or scehduled maintenance bulk power service shall be provided by each party to the extent required by the system in need, and be furnished to the fullest extent available from the supplying system. Licensee and each party(ies) shall provide to the other emergency and/or scheduled maintenance bulk power service if and when available from its own generation and from generation of others to the extent it can do so without impairing service to its customers including other electric systems to whom it has firm commitments and the receiving party shall fully compensate the other party for its costs in connection therewith.

(c) Licensee and the other party(ies) to an interconnection and reserve sharing arrangement shall from time to time jointly establish the minimum reserves to be in-

stalled and/or provided under contractual arrangements as necessary to maintain in total a reserve margin sufficient to provide adequate reliability of power supply of the interconnected systems of the parties. Unless otherwise agreed upon, minimum reserves shall be calculated as a percentage of estimated peak load responsibility. No party to the arrangement shall be required to maintain greater reserves than such minimum, provided that, if the reserve requirements of a party are increased over the amount such party would be required to maintain or have available without such interconnection, then the other party(ies) to such interconnection shall be required to carry or provide for, in addition to such minimum reserves, the full amount in kilowatts of such increase. If in addition to sharing reserves, one party sells capacity to another in order for that other to meet its reserve responsibility, the seller shall be appropriately compensated for such sale in accordance with applicable filed rates.

(d) The parties to such a reserve sharing arrangement each shall provide such amounts of operating (ready and spinning) reserve capacity as may be adequate to avoid the imposition of unreasonable demands on the other in meeting the normal contingencies of operating its system. However, in no circumstances shall a party's operating reserve requirement exceed its minimum installed reserve requirement as determined in 2(c).

(e) Interconnections will not be limited to low voltages when higher voltages are available from Licensee's installed facilities in the area where interconnection is appropriate, if and when the proposed arrangement is found to be technically and economically feasible. Control and telemetering facilities shall be provided as required for safe and prudent operation of the interconnected systems.

(f) Interconnection and coordination agreements shall not embody any unreasonably restrictive provisions pertaining to intersystem coordination. Good industry practice as developed in the area from time to time (if not unreasonably restrictive) will satisfy this provision.

3. Licensee will sell bulk power from new generating capacity planned or under construction at its cost or purchase bulk power from any other entity(ies) in Licensee's Service Area engaging in or proposing to engage in generation of electric power when such transaction would serve to reduce the overall costs of new bulk power supply for itself or for the owner party(ies) to the transaction. This refers specifically to the opportunity to coordinate in the planning of new generation, transmission and related facilities. This provision shall not be construed to require Licensee to purchase or sell bulk power if it finds such purchase or sale infeasible or its costs in connection with such purchase or sale would exceed its benefits therefrom.

4. Licensee and any successor in title shall offer an opportunity to participate in Wolf Creek Nuclear Unit 1 to any entity(ies) in Licensee's Service Area which shall indicate its interest therein in writing delivered to Licensee prior to October 31, 1974, and in any other nuclear generating unit(s) which they or either of them, may construct, own and operate severally or jointly, during the term of the instant license, or any extension or renewal thereof, by either a reasonable ownership interest in such unit(s), or by a contractual rights to purchase a reasonable portion of the output of such unit(s) at the cost thereof if the entity(ies) so elects. Upon timely offer by Licensee, notice of intention to participate in future nuclear units must be given to Licensee in writing prior to the placement of orders for major equipment. In connection with such access, licensee will also offer transmission service as may be required for delivery of such power to such entity(ies) on a basis that will fully compensate Licensee for its cost.

5. (a) Licensee shall facilitate the exchange of bulk power by transmission over its transmission facilities to, from, between or among any entities in Licensee's Service Area with which it is at any time interconnected, and between any such interconnected entity(ies) and any other entity(ies) engaging in bulk power supply outside Licensee's Service Area between whose facilities Licensee's transmission lines and the transmission lines of others would form a continuous electrical path, provided that (1) the necessary rights to utilize such other transmission lines have been obtained, (2) the reliability of Licensee's bulk power system is not thereby impaired, and (3) the arrangements reasonably can be accommodated from a functional and technical standpoint. Such transmission shall be on terms that fully compensate Licensee for its cost, including transmission losses associated therewith. Any entity(ies) requesting such transmission arrangements shall give reasonable advance notice to Licensee of its (their) schedule and requirements for bulk power to be scheduled by Licensee over Licensee's transmission facilities.

(b) Licensee shall include in its planning and construction of facilities to be owned by Licensee sufficient transmission capacity as may be contractually reserved for the type of transactions referred to in subparagraph (a) of this paragraph, provided that the entity(ies) in Licensee's Service Area give Licensee sufficient advance notice as may be necessary to accommodate its (their) requirements from a functional and technical standpoint and provided that such entity (ies) fully compensates Licensee for the contractual reservation by Licensee of capacity in its transmission facilities.

6. Licensee will sell power for resale to any entity(ies) in Licensee's Service Area now engaging in or proposing to engage in retail distribution of electric power under contracts for its (their) full or partial requirements at Licensee's applicable filed rates to the extent Licensee can do so without impairing service to its retail customers.

7. The foregoing conditions shall be implemented in a manner not inconsistent with the provisions of, and as provided under, the Federal Power Act and all other applicable Federal and State laws and all rates, charges and practices in connection therewith are to be subject to the approval of regulatory agencies having jurisdiction over them.

[Docket No. 50-482A]

WOLF CREEK GENERATING STATION, UNIT 1

KANSAS GAS AND ELECTRIC COMPANY

KANSAS CITY POWER & LIGHT COMPANY

NOVEMBER 22, 1974.

Reference is made to my July 29, 1974, letter to you with respect to Proposed Conditions which Kansas City Power & Light Company (KCPL) agrees may be included as Conditions to the Construction Permit and Operating License to be issued by the Atomic Energy Commission (AEC) in connection with the above referenced application.

Pursuant to subsequent discussions between representatives of KCPL and Department of Justice, please be advised that KCPL hereby agrees to accept the following amendment and supplement to the Proposed Conditions as submitted with KCPL's cover letter dated July 29, 1974:

A. Amend section 4 of the Proposed Conditions by deleting the date "October 31, 1974" and substituting therefor the date "March 1, 1975".

B. Supplement section 7 of the Proposed Conditions by adding the following thereto at the end thereof:

"With respect to any initial rate schedule (including an initial contract submission) associated with these license conditions which Licensee files with any such regulatory agency having jurisdiction, Licensee shall include a provision that (1) if within thirty (30) days after such filing by the Licensee a protest or complaint with respect thereto is filed with such regulatory agency, and (2) if the submitted rates become effective prior to the resolution of any contested issues set forth in such protest or complaint, and (3) if such submitted rates are thereafter reduced in accordance with regulatory proceedings and findings, then, within thirty (30) days after issuance of a final and non-appealable order effecting such reduction, the Licensee shall make appropriate refunds (including interest) to retroactively reflect such reductions".

Except as amended and supplemented by the above, the Proposed Conditions and the understandings set forth in KCPL's cover letter dated July 29, 1974, remain unchanged.

[Docket No. 50-482A]

WOLF CREEK GENERATING STATION, UNIT 1

KANSAS GAS AND ELECTRIC COMPANY

KANSAS CITY POWER & LIGHT COMPANY

NOVEMBER 22, 1974.

Attached to this letter are Proposed Conditions which Kansas Gas and Electric Company (KG&E) agrees may be included as Conditions to the Construction Permit and Operating License to be issued by the Atomic Energy Commission (AEC) in connection with the above referenced application. These Proposed Conditions are submitted with the understanding that the Department of Justice will advise the AEC that no antitrust hearing with reference to KG&E will be required.

These Conditions will be accepted by KG&E subject to the following understandings:

1. KG&E does not intend, by acceptance of these Conditions or by operations in accordance therewith, to become a common carrier or to hold itself out as a public utility ready, willing and able to sell electric power and energy at wholesale for resale to entities outside of its present or future service areas in Kansas as defined in section 1(b) of the attached Proposed Conditions.

2. KG&E reserves all rights and protection as may be afforded to it by law with respect to any and all distribution and/or sale of retail electric service in its certificated service areas in Kansas.

3. By acceptance of the attached Conditions, KG&E does not waive any, and hereby reserves all, rights that it may have to apply to any appropriate forum to seek such changes in the Conditions as may at the time be appropriate in accordance with the then existing law and good industry practices.

4. All of KG&E's understandings and commitments are contained in the attached Proposed Conditions and this cover letter.

5. Nothing herein or in any of the attached Proposed Conditions shall be construed as a waiver by KG&E of its rights to contest the application of any Condition to a particular factual situation.

6. It is understood that if the parties to a reserve coordination agreement referred to in paragraph 4 cannot agree upon a minimum reserve requirement, the participating entities' minimum reserve requirement shall be neither less than nor greater than

Licensee's minimum system reserve requirement.

7. We further agree, predicated upon the above and referenced conditions, to not impose nor attempt to enforce any resale restrictions in both the municipal and cooperative wholesale contracts all within conditions and limitations imposed by regulatory authority.

Based on the above understandings, Kansas Gas and Electric Company presently is willing to accept Conditions to the above referenced Construction Permit and Operating License, if and when issued by the AEC, which are identical to the Proposed Conditions attached to this cover letter.

WOLF CREEK, UNIT 1

PROPOSED CONDITIONS FOR KANSAS GAS AND ELECTRIC COMPANY

1. As used herein:

(a) "Licensee" means Kansas Gas and Electric Company.

(b) "Licensee's Service Area" means those counties located in whole or in part within the area certificated to Licensee by the appropriate state regulatory commission.

(c) "Bulk Power" means the electric power, and any attendant energy, supplied or made available at transmission or subtransmission voltage by one entity to another.

(d) "Emergency support" is capacity and energy as available from one system, and as needed by another system to replace capacity and energy made unavailable due to forced outages of generating equipment or transmission facilities.

(e) "Maintenance support" is capacity and energy planned by one system to be made available to another system to replace capacity and energy made unavailable due to maintenance of generating equipment or transmission facilities.

(f) "Entity" means a financially responsible private or public corporation, governmental agency or authority, municipality, cooperative, or lawful association of any of the foregoing, owning, contractually controlling, or operating, or in good faith proposing to own, contractually control, or operate, facilities for the generation and transmission of electricity for bulk power supply which meets each of the following criteria: (1) Its existing or proposed facilities are technically feasible of interconnection with those of Licensee; (2) with the exception of municipalities, cooperatives, government agencies or authorities it is, or upon commencement of operations will be, a public utility subject to regulation with respect to rates and services under the laws of Kansas.

(g) "Participating entity" is an "entity" participating in the ownership of or power output from Wolf Creek Unit 1.

2. Licensee shall offer an opportunity to participate in the Wolf Creek Nuclear Unit Number 1 and any other nuclear generating unit(s) which it may construct, own and operate severally or jointly, during the term of the instant license or an extension or renewal thereof, to any entity(ies) in Licensee's Service Area. Such participation shall be in reasonable amounts, by an ownership interest, or at the option of the entity, by a contractual right to purchase a portion of the output of such units, or on any other mutually agreeable basis.

3. Licensee shall interconnect with any participating entity in Licensee's Service Area which requests such interconnection and provide for the following:

(a) Maintaining and coordinating of reserves, including, where applicable, the purchase and sale of reserve capacity and energy,

(b) Emergency support,

(c) Maintenance support,

(d) Delivery of "unit power" or other participation power out of Wolf Creek Unit 1 from the Licensee,

(e) transmission services for the above and as described subsequently.

4. (a) Licensee and the participating entities in Licensee's Service Area having a reserve coordination arrangement shall from time to time jointly establish the minimum reserve requirements to be installed and/or provided under contractual arrangements as necessary to maintain in total a reserve margin sufficient to provide adequate reliability of power supply to the interconnected systems of the parties. To have reserve coordination rights, other than reserves for Wolf Creek, with the Licensee, a participating entity must own or have contractual rights to generating capacity other than of Wolf Creek Nuclear Unit Number 1. Unless otherwise agreed upon, the minimum reserve requirement shall be calculated as a percentage of the projected annual peak load, adjusted for purchases and sales of firm power, including partial requirements firm power. The parties to such a reserve coordinating arrangement shall provide such amounts of operating (ready and spinning) reserve capacity as may be adequate to avoid the imposition of unreasonable demands on the others in meeting the normal contingencies of operating their systems. However, in no circumstances shall any party's spinning or operating reserve requirement exceed the minimum reserve requirement as provided above.

(b) Emergency and/or scheduled maintenance bulk power service shall be provided by each party to the extent required by the system in need, and be furnished to the fullest extent available from the supplying system. Licensee and each party(ies) within Licensee's Service Area shall provide to the other emergency and/or scheduled maintenance bulk power service if and when available from its own generation to the extent it can do so without impairing service to its customers including other electric systems to whom it has firm commitments.

5. (a) Licensee shall transmit the power from a participating entity's share of Wolf Creek Nuclear Unit Number 1 to the participating entity, or for the account of such participating entity, to delivery or interconnection points on Licensee's system and in amounts as specified by the participating entity. Such deliveries shall be reasonable as to the number of points, system adequacy and frequency of schedule changes.

(b) Licensee shall transmit power from an entity(ies) outside Licensee's Service Area to a participating entity within Licensee's Service Area in an amount at least equal to the share of Wolf Creek Nuclear Unit Number 1 of a participating entity within Licensee's Service Area when the output of this unit is reduced or unavailable because of maintenance or for other reasons.

(c) If capacity and energy from a participating entity's(ies') portion of Wolf Creek Nuclear Unit Number 1 are delivered to other entities, Licensee shall also provide transmission for a later scheduled return of such energy within the same calendar year, in an equal amount of mwhrs, from these other entities to the delivery point of the participating entity within Licensee's Service Area, provided that such transmission arrangements can be reasonably accommodated from a functional and technical standpoint.

6. Licensee shall sell power at its filed and effective rates (for total or partial requirements) to any entity in Licensee's Service Area now engaging or proposing to engage in the wholesale or retail sale of electric power.

[Docket No. 50-214]

LOS ANGELES DEPARTMENT OF WATER AND POWER

Withdrawal of Application for Utilization Facility License

Take notice that the Atomic Energy Commission, by Order dated July 18, 1974, has granted the request dated October 23, 1973, of the Department of Water and Power of the City of Los Angeles, 111 North Hope Sreet, Los Angeles, California 90051, for withdrawal of its application for license to construct and operate the Malibu Nuclear Plant, Unit 1, a pressurized water nuclear reactor at a site in Corral Canyon, Los Angeles County, California. A copy of the request for withdrawal is available for inspection at the AEC's Public Document Room, 1717 H Street, NW., Washington, D.C.

Notice of receipt of the application was published in the FEDERAL REGISTER on March 6, 1964, 29 FR 3114.

For the Atomic Energy Commission.

Dated at Bethesda, Md., this 16th day of December 1974.

KARL KNIEL,
Chief, Light Water Reactors Branch 2-2, Directorate of Licensing.

[FR Doc.74-29794 Filed 12-20-74;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Atomic Energy Commission has issued four new guides in its Regulatory Guide series. This series has been developed to describe and make available to the public methods acceptable to the AEC regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.70.11, "Information for Safety Analysis Reports—Quality Assurance During Operations Phase;" Regulatory Guide 1.70.12, "Information for Safety Analysis Reports—Reactor Materials;" Regulatory Guide 1.70.13, "Information for Safety Analysis Reports—Code Cases Applicable to Reactor Coolant Pressure Boundary Components;" and Regulatory Guide 1.70.14, "Information for Safety Analysis Reports—Emergency Planning," identify information that is needed in safety analysis reports at the construction permit and operating license stages of review.

These guides are four of a number being issued in the 1.70.X series to identify information that has often been missing from applicants' safety analysis reports or to present revisions necessary to make a portion of the "Standard Format and Content of Safety Analysis Reports for Nuclear Power Plants," Revision 1, October 1972 (Regulatory

Guide 1.70), consistent with the appropriate Standard Review Plan. Standard Review Plans (SRPs) are being prepared by the Regulatory staff for the guidance of staff reviewers who perform the detailed safety review of applications to construct or operate nuclear power plants. A primary purpose of SRPs is to improve the quality and uniformity of staff reviews and to provide a well-defined base from which to evaluate proposed changes in the scope and requirements of reviews. A complete Revision 2 of the Standard Format incorporating the changes presented in this 1.70.X series will be issued following completion of publication of the SRPs.

Comments and suggestions in connection with improvements in all published guides are encouraged at any time. Public comments on Regulatory Guides 1.70.11, 1.70.12, 1.70.13, and 1.70.14 will, however, be particularly useful in developing the forthcoming revision of the Standard Format if received by February 24, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Md., this 12th day of December 1974.

For the Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

[Docket Nos. STN 50-483, STN 50-486]

UNION ELECTRIC CO.

Special Prehearing Conference

The Atomic Safety and Licensing Board, after an inquiry respecting the convenience and availability of the parties for a special prehearing conference, has determined that January 16, 1975 in Saint Louis, Missouri is a convenient date and place.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, particularly § 2.751(a) thereof, that a special prehearing conference shall convene at 9:30 a.m. on Thursday, January 16, 1975 in U.S. District Court, First Floor, Judge Harper's Courtroom, at the U.S. Courthouse and Customhouse, 1114 Market Street, Saint Louis, Missouri 63101.

Issued: December 17, 1974, Germantown, Maryland.

ATOMIC SAFETY AND LICENSING BOARD,
SAMUEL W. JENSCH,
Chairman.

[FR Doc.74-29705 Filed 12-20-74;8:45 am]

[Docket Nos. 50-514, 50-515]

PORTLAND GENERAL ELECTRIC CO.

Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Environmental Report: Time for Submission of Views on Antitrust Matters

Portland General Electric Company (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed August 6, 1974 for authorization to construct and operate two generating units utilizing two pressurized water reactors. The Environmental Report and Site Suitability Report were tendered on June 7, 1974. Following a preliminary review for completeness, the Environmental Report and Site Suitability Report were, on August 6, 1974, found to be acceptable for docketing. The applicant submitted the PSAR August 6, 1974 and it was found to be acceptable on October 18, 1974. Docket Nos. 50-514 and 50-515 have been assigned to the application and should be referenced in any correspondence relating to the application.

The proposed nuclear facilities, designated by the applicant as the Pebble Springs Nuclear Plant, Units 1 and 2 are located in Gilliam County, Oregon. Each unit is designed for initial operation at 3600 megawatts (thermal), with a net electrical output of 1260 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before February 7, 1975. The request should be filed in connection with Docket Nos. 50-514-A and 50-515-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Arlington Public School, District 3, P.O. Box 10, Arlington, Oregon 97812.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, an environmental report dated June 7, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facility is being made available for public inspection at the aforementioned locations and at the Federal Aid Coordination Section, Local Government Relations Division, Executive Department, 301 Public Service Building, Salem, Oregon 97310 and the East Central Oregon Association of Counties, Umatilla County Court House, Pendleton, Oregon 97801.

After the environmental report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER, a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Md., this 22d day of November 1974.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Light Water Reactors Branch 2-3, Directorate of Licensing.

[Docket No. 25513, Agreement C.A.B. 24596, R-6; Docket No. 25280, Agreement C.A.B. 24597, R-8; Order 74-12-23]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Increased Fuel Costs

Correction

In FR Doc. 74-28859 appearing at page 43244 in the issue of Wednesday, December 11, 1974 in the table at the top of page 43245 the C.A.B. agreement number 24597 should be inserted between the R-6 and R-8 entries.

CONSUMER PRODUCT SAFETY COMMISSION

PEDAL-POWERED VEHICLES

Denial of Petition

Section 10 of the Consumer Product Safety Act (Pub. L. 92-573, 83 Stat. 1217; 15 U.S.C. 2059) provides that any interested person may petition the Consumer Product Safety Commission to commence a proceeding for the issuance of a consumer product safety rule. Section 10 of the Act also provides that if the Commission denies such petition, it shall publish in the FEDERAL REGISTER its reasons for such denial.

On November 29, 1973, Consumers Union of the United States, Inc. peti-

tioned the Consumer Product Safety Commission to begin a proceeding under the Consumer Product Safety Act to develop a consumer product safety standard applicable to pedal-powered vehicles. In this petition, Consumers Union described the design and performance characteristics of one specific pedal-powered vehicle, and expressed the opinion that the vehicle in question was unsuitable for use on public roads and demonstrated the need for a consumer product safety standard applicable to such vehicles.

Among defects alleged in the petition were an inadequate low gear which severely limited the ability of the vehicle to climb hills; the absence of a reverse gear; slippage and breakage of the transmission chain; inadequate brakes; and instability during sharp turns. The petition requested the Commission to promulgate a consumer product safety standard to improve safety-related performance characteristics of pedal-powered vehicles and to require labeling of those vehicles to indicate that they are not suitable for use on public roads.

At a public meeting with members of the Commission staff on June 13, 1974, attorneys representing Environmental Vehicles, Inc. of Sterling Heights, Michigan, manufacturer of the vehicle described in the petition, presented data and information to support the contention that pedal-powered vehicles do not pose an "unreasonable risk of injury," and therefore a proceeding under section 7 of the Consumer Product Safety Act to develop a consumer product safety standard applicable to pedal-powered vehicles is not warranted.

In a poll of 129 owners of pedal-powered vehicles, one injury was reported to an occupant of a pedal-powered vehicle who suffered a scraped shoulder when the vehicle overturned while making a sharp left turn. This injury and a statement in the petition that an unspecified number of persons on the Consumers Union staff suffered "skinned limbs" when a pedal-powered vehicle overturned on "several occasions" and "had their feet painfully trapped under the vehicle's pedals" are the only injuries associated with pedal-powered vehicles known to the Commission staff.

In the evaluation of this petition, members of the Commission staff inspected and operated a pedal-powered vehicle manufactured by Environmental Vehicles, Inc.

Information available to the Commission staff indicates that Environmental Vehicles, Inc. is the principal manufacturer of pedal-powered vehicles. An attorney representing that company at the public meeting of June 13, 1974, stated that the firm had sold more than 17,000 units during the preceding eighteen months. Other manufacturers of pedal-powered vehicles known to the Commission staff are Pedal Powered Inc., which reported sales of 100 units as of June 5, 1974; and Pedicar Inc., which reported that it had sold no vehicles to the public as of June 5, 1974.

After consideration of the allegations contained in the petition and the information developed by the Commission staff in this matter, the Consumer Product Safety Commission denies the petition because it finds that the limited number of reported injuries associated with pedal-powered vehicles and the small number of pedal-powered vehicles sold to consumers to date or likely to be sold to consumers in the foreseeable future do not constitute an unreasonable risk. The action taken by the Commission to deny the petition for a proceeding to develop a consumer product safety standard applicable to pedal-powered vehicles does not affect or limit the obligations of any manufacturer of pedal-powered vehicles to comply with provisions of section 15 of the Consumer Product Safety Act (15 U.S.C. 2064) applicable to reporting and correction of product defects which create a substantial risk of injury to the public.

Therefore, pursuant to section 10(d) of the Consumer Product Safety Act (Pub. L. 92-573, 86 Stat. 1217; 15 U.S.C. 2059(d)), notice is hereby given of the Commission's denial of the above-described Consumers Union petition.

A copy of the petition may be seen during working hours, Monday through Friday, in the Office of the Secretary, Consumer Product Safety Commission, 1750 K Street NW., Washington, D.C.

Dated: December 18, 1974.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

[FR Doc.74-29823 Filed 12-20-74;8:45 am]

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Receipt

Environmental impact statements received by the Council on Environmental Quality from December 9 through December 13, 1974. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the *minimum* period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (February 3, 1975) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Dr. Fred H. Tschirley, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, (202) 447-3965.

AGRICULTURAL RESEARCH SERVICE

Final

Sewage Treatment, Agri. Research Center, Prince Georges County, Maryland, December 9: The statement refers to the proposed provision of tertiary treatment for two existing sewage disposal plants at the Beltsville Agricultural Research Center, by the use of the land treatment approach of tertiary lagoons and spray irrigation. The overall effect of the action is to be the provision of adequate tertiary sewage treatment in order to eliminate sources of pollution for Beaver Dam Creek and Little Paint Branch. (20 pages). Comments made by: EPA, State and local agencies. (ELR Order No. 41837.)

FOREST SERVICE

Draft

Timber Management, Rio Grande N.F., Colorado, December 9: The statement refers to the proposed revision of the 1962 Timber Management Plan for the Rio Grande National Forest. Revision is for the ten years of 1975-1984. Annually, 9,500 acres, or 1.1% of the available commercial forest land will receive various timber management activities. Adverse impact are degradation of air quality, temporary increases in soil movement and stream sedimentation, and erosion of wilderness values on inventoried roadless areas not selected as new study areas. (ELR Order No. 41842.)

Bear Valley Planning Unit Land Use Plan, Idaho, December 9: The statement discusses the Bear Valley Planning Unit Land Use Plan. The Bear Valley Planning Unit contains a gross area of 192,965 acres, with 149,311 acres within the Boise National Forest and 41,304 acres within the Challis National Forest. In developing the plan, the planning unit was divided into six management areas. Of the inventoried roadless and undeveloped areas, 46,730 acres will remain roadless, with the remaining 94,041 acres being developed as the need arises. There will be temporary sedimentation and short periods of air pollution. (ELR Order No. 41843.)

Hebgen Lake Planning Unit, Gallatin N.F., Montana, December 9: The action consists of implementing land use allocations for 118,665 acres of National Forest lands and waters in the Hebgen Lake land use planning unit. The plan provides a reasonable mix of uses related to the land suitability. The mix of uses range from a wilderness resource to a highly developed recreation resource and mixtures of silvicultural opportunities. Additional roads would be constructed. Adverse impacts include the loss of some timber areas, possible change of the natural physical, social, cultural and economic environment of the area, loss of wildlife habitat, short-term degradation of water quality and soil disturbance due to construction operations. (ELR Order No. 41838.)

Final

Kaniksu National Forest, Washington, Montana, and Idaho, December 9: The statement refers to the implementation of the 10-year Timber Management Plan for the Forest. The plan involves the construction of roads and the harvesting of timber in the 1,600,000 acre Forest. Adverse impact will include effects upon soil, air and water, aesthetics, and wildlife (225 pages). Comments made by: DOI, State agencies. (ELR Order No. 41832.)

SOIL CONSERVATION SERVICE

Draft

Upper Muddy Boggy Creek Watershed, several counties, Oklahoma, December 9: The Upper Muddy Boggy Creek Watershed work plan proposes a project for watershed protection and flood prevention. The project measures include accelerated application of land treatment measures for the protection of 94,809 acres of agricultural upland and the installation of 86 floodwater structures for the reduction of floodwater, sediment,

and erosion damages on 8,876 acres of floodplain land in Pontotoc, Hughes, Coal, and Pittsburgh Counties. Adverse impacts are the inundation of land, decreased woody habitat, disruption of fish and wildlife, and short term increase in erosion, and turbidity (40 pages). (ELR Order No. 41846.)

ATOMIC ENERGY COMMISSION

Contact: For Non-Regulatory Matters: Mr. W. Herbert Pennington, Office of Assistant General Manager, E-201, AEC, Washington, D.C. 20545, (301) 973-4241. For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, F-722, AEC, Washington, D.C. 20545, (301) 973-7373.

Final

Seabrook Station, Units 1 and 2, Rockingham County, New Hampshire, December 11: The statement refers to the proposed granting of construction permits to the Public Service Company of New Hampshire. The Seabrook Station will employ identical pressurized-water reactors to produce 3411 MWt and 1194 MWe (net) each; future outputs of 3570 MWt and 1250 MWe are anticipated. Exhaust steam will be cooled by a once-through flow of water from the Gulf of Maine. The construction site is largely wooded; 1545 acres will be required for transmission line right-of-way. Marine biota will be adversely affected by thermal and mechanical shock. Comments made by: AMP, USDA, COT, DOC, EPA, FPC, HEW, HUD, DOI, USCG, State and local agencies, and concerned citizens. (ELR Order No. 41860.)

DEPARTMENT OF DEFENSE

ARMY CORPS.

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, (202) 693-7168.

Draft

Duplicate Locks, Illinois Waterway, December 9: The proposed project involves the construction of supplemental locks at Lockport, Dresden Island, Marseilles, Starve Rock, Peoria, and LaGrange. Several lift bridges in Joliet will be replaced with fixed bridges, and a new fixed bridge will be constructed at Caton Farm Rd. replacing 16th Street Bridge in Lockport. Adverse impacts include: temporary degradation of water, noise, and air quality during construction; disturbance to one historic site; change in land use patterns; some relocations; and the creation of spoil deposition sites (Chicago District). (ELR Order No. 41844.)

Missouri River Levee System, Mills and Pottawattamie Counties, Iowa, December 11: The proposed project will provide for the construction of levee unit L-611-614, the total length of which is 27.7 mile with 18.8 miles along the Missouri River and the remainder on tieback levees. Flood prevention has been designed to provide 1.8 times a 100-year period. Adverse impacts are the commitment of 302 acres of land, increased potential for damage within the minimum 3,000 ft. floodway, emissions, noise, and soil erosion during construction, and disturbance of fish and wildlife habitat (Omaha District). (ELR Order No. 41850.)

Ontanagon Harbor, Operation and Maintenance, Michigan, December 11: The action involves operation and maintenance of Ontonagon Harbor, Lake Superior, Michigan. Principal activities include breakwater repair, dredging, and dredge material disposal. Adverse impacts are increased turbidity, increased noise and congestion in the harbor, and land use alterations due to on-land placement of dredge material (St. Paul District) (35 pages). (ELR Order No. 41864.)

Cattaraugus Creek Harbor, Flood Control, Chautauqua and Erie Counties, New York, December 9: The statement refers to the proposed plan for navigation, flood control and related purposes in Cattaraugus Creek Harbor at Chautauqua and Erie Counties, NY. The plan calls for: breakwaters in southern Lake Erie; a bern extending from the inner end of the north breakwater northerly to high ground; a channel from deep water in the lake upstream to a maneuvering area; a maneuvering area about 300 ft. by 600 ft. with a depth of 6 ft.; and, 2 levees on the left bank. Adverse impacts include: temporary noise and dust during construction; permanent loss of approximately 13 acres of bottom habitat; and, land use changes caused by shoreline development (Buffalo District). (ELR Order No. 41834.)

Mud Creek Local Protection Project, Oklahoma, December 12: The statement refers to the construction of the Mud Creek Local Protection Project, Idabel, Oklahoma. The project involves the widening and straightening of 8,950 ft. of channel, removal of 10 bridges, and replacement of modification of 6 additional bridges. Adverse impacts include the acquisition of 16.4 acres of land, displacement of 14 houses, disturbance to flora and fauna, and increased dust and noise pollution due to construction (Tulsa District). (ELR Order No. 41866.)

Double Bayou, Maintenance Dredging, Chambers County, Texas, December 13: The statement refers to the maintenance dredging of Double Bayou in Chambers County, Texas. Maintenance will be accomplished by hydraulic pipeline dredge with dredged materials disposed of in open water and on land disposal areas. Adverse impacts include disturbance to swimming and bottom dwelling organisms, destruction of vegetation at disposal sites, degradation of water quality, and objectionable odors caused by proposed land disposal operations (Galveston District). (ELR Order No. 41867.)

Ashland Harbor, Operation and Maintenance, Wisconsin, December 9: The statement refers to the proposed operation and maintenance activities within Ashland Harbor, Lake Superior to maintain authorized channel and basin depths. Polluted material dredged from the harbor will be placed in an on-land disposal site. Adverse impacts are minor harbor congestion, air and water contamination, disturbance of bottom sediments and organic matter, and increased turbidity (St. Paul District). (ELR Order No. 41836.)

Final

Talofofo Bay, Guam, December 11: Proposed is a shore protection plan which would provide 900 feet of revetment between the right bank of the Talofofo River mouth and the existing revetment at Gayloup Point. There will be temporary water turbidity from construction, access to the shoreline would be impaired by the structure (Honolulu District) (42 pages). Comments made by: DOI, EPA, HEW, USCG, Guam agencies. (ELR Order No. 41857.)

Fly Creek, Baldwin County, Alabama, December 9: The proposed project is the maintenance dredging of the Fly Creek navigation channel to its authorized dimensions. Increased turbidity and siltation will occur in the vicinity of the dredge intake and spoil discharge area. Adverse impacts include loss of vegetation and wildlife on four land disposal areas and one open water disposal area; loss of benthic habitat; and disruption of approximately five acres of channel bottom (Mobile District) (37 pages). Comments made by: EPA, DOI, DOC, HUD, DOT, USDA, State agencies. (ELR Order No. 41839.)

Dauphin Island Bay, Alabama, December 9: The proposed project is the continuation of maintenance dredging of a two channel navigation project to its authorized dimensions. Adverse effects are reduction in water quality and disruption of 140 acres of bay bottom and 10 acres of grass dunes (36 pages). Comments made by: EPA, DOI, DOC, HEW, DOT, HUD, USDA, State agencies. (ELR Order No. 41840.)

Ouachita and Black Rivers, a 9-foot Navigation Project, Arkansas and Louisiana, December 11: The statement refers to a proposed navigation project which will include: completion of a channel with a minimum depth of 9 feet and a minimum bottom width of 100 feet, on the Ouachita River from the mouth of the Black River to Camden, Arkansas; the construction of new locks and dams at Felsenthal and Calion; the realignment of river bends; and the establishment of 2 National Wildlife Refuges, one of 65,000 acres in connection with the Felsenthal Lock and one of 18,000 acres in connection with the Columbia Lock. Adverse impact will include the inundation of 16,000 acres of lowland forest and wildlife habitat. There will be project induced navigation activity and industrial growth (117 p.). Comments made by: EPA, DOI, USDA, HEW, HUD, DOT, State and local agencies. (ELR Order No. 41856.)

Carters Dam and Lake, Murray, Gilmer, and Gordon Counties, Georgia, December 11: The statement refers to the complete construction and operation of a multipurpose (flood control, hydroelectric power, and recreation) reservoir project on the Coosawattee River. Approximately 8,000 acres have been acquired for the project. Of that amount 4,250 acres (mostly forest and agricultural lands), will be inundated (70 pages). Comments made by: DOI, USDA, DOT, HUD, EPA, State agencies. (ELR Order No. 41855.)

Rock Island Local Protection Project, Rock Island County, Illinois, December 12: The statement refers to a proposed local flood protection project for Rock Island. Project measures will include a earthen levee, floodwall with removable steel top section, access ramps, pumping stations and landscaping. The project would protect the city from a 200 year frequency flooding of the Mississippi. The project will adversely affect wildlife by acting as a barrier to river access (Rock Island District) (42 pages). Comments made by: EPA, DOI, DOT, State and local agencies. (ELR Order No. 41865.)

Paint Creek Lake, Ross and Highland Counties, Ohio, December 11: The statement refers to the on-going construction and operation of a dam, reservoir and other facilities, for purposes of flood control, water supply and quality control, fish and wildlife enhancement, and recreation. Adverse impacts of the project include the loss of agricultural land and historic and archeological sites (Huntington District). Comments made by: USCG, USDA, EPA, FPC, HUD, DOI, State agencies. (ELR Order No. 41859.)

Final

Colleton River, Dredging and Pier Construction, Beaufort County, South Carolina, December 9: The statement refers to the proposed dredging of the river and the construction of a pier and six dolphins on the north shore of Colleton Neck at Victoria Bluff. The action will provide needed facilities for the construction of a metal plate assembly yard which will produce large aluminum tanks for use in the shipboard transportation of liquified natural gas. Adverse impact of the project includes: the loss of 100 acres of wooded upland and 25 acres of bog; an increase in air pollution; and possible harm to three endangered species (Charleston District). Comments made by: DOC, DOI, USDA, HEW, DOT, State and local agencies, and concerned citizens. (ELR Order No. 41833.)

Waterway Dredging, Virginia, December 9: Proposed is the maintenance dredging of Waterway on the coast of Virginia between the barrier islands and the peninsula of the Eastern Shore. An inland channel 6' deep by 60' wide will be dredged for a distance of 85 miles. There will be adverse impact to marine biota (66 pages). Comments made by: EPA, DOC, DOI, State agencies. (ELR Order No. 41841.)

East Lynn Lake, Twelvepole Creek, Wayne County, West Virginia, December 11: The statement refers to the operation and maintenance of a dam and management of a 1,005-acre multiple-purpose lake (23,921 acres of land) and other facilities for flood-control, recreation, fish and wildlife conservation, and incidental redevelopment benefits. The project is located in the East Fork of Twelvepole Creek, about 6 miles southeast of the city of Wayne. Adverse impacts include the loss of land; conversion of natural stream reach with associated aquatic and terrestrial habitat to a lake environment; period fluctuation of pool levels; loss of nutrient recharge on lands previously flooded downstream; and, the disruption of the lives of the people living on the acquired land. Comments made by: EPA, DOI, USDA, USCG, DOT, State and local agencies. (ELR Order No. 41858.)

Red River Lake, Kentucky, December 9: This response has been prepared as the result of the questions and comments made by the Council on Environmental Quality, and consists of clarification, amplification, and response to such comments. This submission to the Council on Environmental Quality is made in accordance with current Corps of Engineers Policy and Guidelines (Paragraph 7c., Engineer Regulation No. 1105-2-507, 15 April 1974). No further administrative action will be taken by the Army in regard to this Project sooner than thirty (30) days after publication of this notice, in order to allow for agency and public review. Comments on this document should be sent during this period to the District Engineer, U.S. Army Corps of Engineers, P.O. Box 59, Louisville, Ky. 40201. (ELR Order No. 1847FS.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kaudera, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, (202) 343-4161.

Draft

Interagency Motor Pool, Dallas, Texas, December 10: The proposed action consists of leasing space for the GSA Interagency Motor Pool which will most likely result in new construction. The facility will consist of 3,500 sq. ft. of net usable office and storage for 8 employees, and 166,000 sq. ft. of net usable parking area or 550 parking spaces. The facility will provide a service area which will include two 10,000 gallon underground gasoline tanks and an automatic drive-through carwash. There will be short-term construction inconveniences caused by the project (96 pages). (ELR Order No. 41849.)

Final

Oxnard AFB, Camarillo, Ventura County, California, December 9: Proposed is the disposal of Oxnard Air Force Base by GSA. Included would be: the conveyance of 633 acres and 45 buildings to Ventura Co. for commercial airport use; the assignment of 16 acres and 15 buildings to HEW for conveyance to Regional Occupational Program School; assignment of 9 acres and 8 buildings to HEW for conveyance to Oxnard High School; assignment of 40 acres, 1 building to HEW for conveyance to Ventura Co. Commun. College; assignment of 36 acres and 18 buildings to BOR, DOI, for conveyance to local recreational entities; sale of the chapel to a religious organization; and conveyance of 1 building to Justice Dept. There will be local impact from airport operations. Comments made by: HEW, DOT, HUD, DOI, EPA, State and local agencies, and concerned citizens. (ELR Order No. 41845.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, Office of Community and Environmental Standards, Room 7206, 451 7th Street SW., Washington, D.C. 20410, (202) 755-5980.

Final

"The Seasons", Washington, D.C., December 10: Proposed is the construction of a ten story highrise apartment building at 1755 Que St. NW., Washington; Federal insurance has been applied for under Section 221(d)(4) of the National Housing Act. There will be visual impact from the project. The project may adversely affect (by blocking sun and air) adjacent Victorian-era townhouses. (180 pages). Comments made by: AHP, DOI, EPA, local agencies, and concerned citizens. (ELR Order No. 41848.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

BUREAU OF RECLAMATION

Draft

Coal Gasification Project, Navajo Mine, San Juan County, New Mexico, December 11: The Western Gasification Company proposes to construct and operate 4 gasification plants and the necessary support facilities in northwestern New Mexico on the Navajo Indian Reservation 35 miles southwest of Farmington. On an annual average the first plant would have an initial output of 250 million cu. ft. per day (MMCFD) of substitute natural gas (SNG) and would become operational in late 1977 or early 1978. The total production of 1,000 MMCFD would be achieved when all 4 plants become operational in 1983. Adverse impacts include emissions of sulphur dioxide, nitrogen oxides, and particulate degradation of water quality, use of 28,000 acres of land, and the displacement of 9 families. (ELR Order No. 41861.)

NATIONAL PARK SERVICE

Draft

Bandelier National Monument, Los Alamos, Sandoval, and Santa Fe Counties, New Mexico, December 11: The statement refers to a conceptual master plan for Bandelier National Monument in the counties of Los Alamos, Sandoval, and Santa Fe. The plan will set the development patterns and goals for administration of the area for at least 5 years. Also, proposed is a boundary adjustment involving the acquisition of private and state lands totaling approximately 7,310 acres both north and south of the existing boundaries. Master plan proposals will increase the propensity for minor human impact on vegetation in localized areas of the monument. (ELR Order No. 41854.)

INTERSTATE COMMERCE COMMISSION

Draft

Abingdon Branch Abandonment, Virginia and North Carolina, December 12: The Norfolk and Western Railway Company (N&W) proposes to abandon and completely dismantle their Abingdon Branch between Abingdon, Va. and West Jefferson, N.C., a distance of approximately 56.04 miles, all within Washington and Grayson Counties, Va., and Ashe County, N.C. Abandonment of rail service will increase the use of cars in the area. (ELR Order No. 41863.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

Taylor Highway, Alaska, December 9: The proposed project involves the reconstruction of the existing Taylor Highway from Tetlin Junction to the Eagle turnoff and the spur road from the turnoff to the Canadian Border. The facility will be a 2-lane, unpaved road designed to meet present and future recreation and commercial development over a 20-year period. Six bridges will be replaced. There will be disruptions normally associated with construction (147 pages). (ELR Order No. 41831.)

57th St. Improvement, Kansas City, Wyandotte County, Kansas, December 9: The proposed project requires the construction of 1.8 miles of 4-lane minor arterial roadway (57th Street) from Kew Drive to Parallel Drive, all within Kansas City, Kansas. Adverse impacts are the acquisition of right-of-way, displacement of 1 family and 1 church, and increased air and noise pollution (56 pages). (ELR Order No. 41835.)

FAS 426, Marion County, December 12: The statement refers to the improvement of 0.208 miles of FAS Route 426 in Marion County. The project includes a bridge and channel change. Lands required for right-of-way will be taken from agricultural production and wildlife habitat. (ELR Order No. 41862.)

U.S. 285, Rio Arriba County, New Mexico, December 9: The statement refers to the proposed construction of U.S. 285 in Rio Arriba County. The length of the new facility will be 7.2 miles. Adverse impacts are temporary noise and air pollution during construction, and the acquisition of land (mostly undeveloped rangeland) for right-of-way. (ELR Order No. 41829.)

Northwest County Highway, Shelby County, Tennessee, December 9: The proposed project involves the construction of Northwest County Highway between Millington and Arlington in north Shelby County, Tennessee. The project length is approximately 18 miles. Adverse impacts include the displacement of residences and businesses, loss of farmland and wildlife habitat, increased air and noise pollution, and temporary soil erosion and siltation during construction. (ELR Order No. 41828.)

Final

Iowa Freeway 561, Scott and Clinton Counties, Iowa, December 11: The proposed project is the construction of 14.6 miles of Freeway 561. The project will displace an unspecified number of families, businesses and amount of land acreage, primarily agricultural and timber. Major adverse effects will include loss and disruption of wildlife habitats, and increases in noise, air and water pollution (124 pages). Comments made by: HEW, HUD, USDA, DOI, EPA, COE, State and local agencies. (ELR Order No. 41851.)

Legislative Route 1033, Section A02, Mifflin and Juniata Counties, Pennsylvania, December 11: The statement refers to the proposed reconstruction of a section of existing 3-lane L.R. 1033 into a four lane limited access highway. Length of project is 6.4 miles. An unspecified number of businesses and low income families will be displaced. Temporary sedimentation and siltation of the Juniata River, dust and increased noise levels will occur during construction. Comments made by: USDA, DOI, EPA, HEW, State and local agencies, and concerned citizens. (ELR Order No. 41852.)

U.S. WATER RESOURCES COUNCIL

Contact: Mr. Don Maughan, Director, 2120 L Street NW., 8th Floor, Washington, D.C. 20037, (202) 254-6303.

Draft

Great Lakes Basin Framework Study, The Great Lakes Basin Comprehensive Framework Study evaluates the water and related land resources of the Great Lakes Basin, in an attempt to obtain a concensus among involved States and Federal agencies on the general rate at which future development of these resources should proceed, which types of development should be encouraged or discouraged, and which geographic areas should receive special consideration for development or preservation. (ELR Order No. 41690.)

On December 6, 1974, CEQ published notice of a final environmental impact statement for the Williams Creek and Cougar Bluffs Roadless Areas, Umpqua Creek National Forest. It has come to the attention of the Council that the summary which was included with the notice was incorrect.

The correct Final EIS summary concerns a proposal for management direction of two Roadless Areas within the Umpqua National Forest, Douglas County. This proposal is to manage the areas for a combination of resource values including water, wildlife and fish habitat, timber and outdoor recreation. Comments made by: COE, DOI, HUD, DPA, USDA, State and local agencies. (ELR Order No. 41784.)

The commenting period on this statement began on November 29, 1974 and will continue for a minimum of thirty (30) days.

In the December 6, 1974 issue of the FEDERAL REGISTER, CEQ published a notice of availability concerning the Relocation of New Hampshire Route 111, Rockingham County, New Hampshire. In the summary the statement is referred to as a revised draft. It has come to the attention of the Council that the statement is actually a Final Environmental Statement.

The commenting period for this EIS started on the date the statement was received by CEQ (November 27, 1974) and will continue for a minimum of thirty (30) days.

GARY L. WIDMAN,
General Counsel.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 307-7; OPP-32000/158]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before February 21, 1975, any person who (a) is or has been applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after February 21, 1975.

APPLICATIONS RECEIVED

EPA File Symbol 11515-LO. ABC Chemical Corp., 17000 W. Eight Mile Rd., Southfield MI 48075. ABC CHEMICAL CORPORATION SUPERKILL PLUS 2,4-D CRAB GRASS KILLER. Active Ingredients: Dodecyl Ammonium Methanearsonate 8.00%; Octyl Ammonium Methanearsonate 8.00%; Octyl Ammonium Salt of 2,4-Dichlorophenoxyacetic Acid 5.44%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 6233-RE. Amador Chemical Corp., 1640 N. Broadway St., Stockton CA 95205. FLAG GERMICIDE CLEANER. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 0.8%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 0.8%; Sodium Metasilicate 2.4%; Tetrasodium ethylenediamine tetraacetate 1.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 3866-RI. Arco Chemical Corp., 4871 N. 119th St., Milwaukee WI 53225. ARCO CHEMICAL CORP. GRANULAR SHOCK, SHOCK TREATMENT. Active Ingredients: Calcium Hypochlorite 65%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4313-UT. Carroll Co., 2900 W. Kingsley Rd., Garland TX 75041. WEED-GO WITH DRIFT CONTROL. Active Ingredients: Petroleum oil 94.94%; 2,4-Dichlorophenoxyacetic acid, isooctyl ester 1.09%; Bromacil (5-bromo-3-sec-butyl-6-methyluracil 0.96%; Pentachlorophenol 0.80%; Other cholorophenols 0.09%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 496-RNL. Chase Products Co., 19th & Gardner Rd., Broadview IL 60153. LEMON GLYCOLIZED AIR SANITIZER DEODORIZER NO. 2. Active Ingredients: Triethyl Glycol 6.00%; Isopropyl Alcohol 10.00%; Methyl Dodecyl Benzyl Trimethyl Ammonium Chloride 0.008%; Methyl Dodecyl Xylene bis (Trimethyl ammonium chloride) 0.002%; Essential Oils 0.20%. Method of Support: Application proceeds under 2(c) of interim policy.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 20256, 20257]

ALFA LEASING CORP. AND ISO AERO SERVICE INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In regards to applications of Alfa Leasing Corporation, Kinston, North Carolina, Docket No. 20256, File No. 49-A-L-74; ISO Aero Service, Inc., Kinston, North Carolina, Docket No. 20257, File No. 47-A-L-74; for an aeronautical advisory station to serve Stallings Field, Kinston, North Carolina.

1. Alfa Leasing Corporation (hereinafter called Alfa) has filed an application for a new aeronautical advisory station license at Stallings Field, North Carolina, and ISO Aero Service, Inc. (hereinafter called ISO) has also filed an application for new aeronautical advisory facilities at the same airport.[1] Section 87.251(a) of the Commission's rules provides that only one aeronautical advisory station may be authorized to operate at a landing area and, therefore, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate the applications for a comparative hearing in order to determine which application should be granted. Except for the issues specified herein, each applicant is otherwise qualified.

2. By letter, dated August 21, 1974, Alfa has alleged that ISO has been operating an aeronautical advisory station at Stallings Field for the past two years without a valid Commission license for such facilities.

3. In view of the foregoing: *It is ordered*, That, pursuant to the provisions of § 309(e) of the Communications Act of 1934, as amended, and § 0.331 (b)(21) of the Commission's rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent Order on the following issues: (a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications;

(5) Ability to provide information pertaining to primary and secondary communications as specified in Section 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other fixed-base operators;

(b) To determine whether ISO has operated, and under what circumstances, an aeronautical advisory radio station at Stallings Field without proper authorization from the Commission and, if so, the effect of such operation on ISO's qualifications to be a Commission licensee; and

(c) To determine in light of the evidence adduced on the foregoing issues which, if either, of the applications should be granted.

4. *It is further ordered*, That the burden of proof and the burden of proceeding with the introduction of evidence on issue (b) is on Alfa and on all other issues, the burdens are on each applicant with respect to its application except issue (c) which is conclusory.

5. *It is further ordered*, That to avail themselves of an opportunity to be heard, Alfa and ISO, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

Adopted, December 2, 1974.

Released, December 10, 1974.

[SEAL] CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special Radio Services Bureau.

[FR Doc.74-29217 Filed 12-20-74;8:45 am]

[1] ISO was the licensee of aeronautical advisory station KIK3 at Stallings Field, which expired on October 5, 1972, and the subject application was received by the Commission on July 8, 1974. Accordingly, a timely renewal was not filed, and the application is essentially a new application seeking reinstatement of its previously held authorization.

KOREA

International Amateur Third Party Radio Communications

DECEMBER 11, 1974.

Information has been received by the Commission indicating the Government of the Republic of Korea has authorized Amateur radio stations with call sign prefix HL9 to conduct third party communications with U.S. Amateur radio station licensees on a temporary basis for the period beginning December 22, 1974, 1500 G.m.t. and ending January 4, 1975, 1500 G.m.t.

Accordingly, the Commission has no objections to Amateur radio stations licensed by the Commission conducting Amateur third party radio communications with Republic of Korea Amateur radio stations (call sign prefix HL9) during the aforementioned time period.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

RADIO TECHNICAL COMMISSION FOR AERONAUTICS

Meeting

As a matter of public notice, members of the Executive Committee of the Radio Technical Commission for Aeronautics will meet on administrative matters on January 3, 1975, at the Goose Creek Country Club, Leesburg Pike, between Vienna and Leesburg, Virginia, commencing at 1:30 p.m.

The Agenda for the meeting is:

1. Approval of the Minutes of the November 1, 1974, meeting.
2. Special Committee Activities Report for November-December, 1974.
3. Chairman's Report of RTCA Activities.
4. Report of ad hoc Group on the William E. Jackson Memorial Award.
5. Other Business.
6. Date of next meeting.

The meeting is open to the public on a space available basis. Any members of the public may file a written statement with the Commission either before or after the meeting. Any member of the public wishing to make an oral statement must consult with the Commission prior to the meeting.

Those desiring to attend the meeting or more specific information should contact the RTCA Secretariat, Suite 655, 1717 H Street, NW., Washington, D.C. 20006, or phone area code 202/296-0484.

FEDERAL COMMUNICATIONS COMMISSION,

RADIO TECHNICAL COMMISSION FOR AERONAUTICS

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Radio Technical Commission for Aeronautics Special Committee 122—Planning for 50 Kiloherts VOR/ILS Channeling. It is to be held on January 8-9, 1975, in Conference Room 8 ABC, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C., commencing at 9 a.m.

The Agenda is as follows:

1. Opening comments and introduction.
2. Review of the Minutes of the previous meeting.
3. Technical discussion:

a. (1) Examination of the need for modifications to airborne equipment and procedures in order to preclude degradation of safety as a result of erroneous course information which may be displayed during inadvertent mistuning.

(2) Examination of the need for reduction of VOR harmonic radiation levels at additional facilities.

(3) Examine the potential of further (harmonic) reduction below the levels in ICAO Annex 10.

b. Development of recommendations concerning the steps necessary to insure that the airborne equipment utilized in a given area is capable of safe operation in the environment provided by the particular interference protection criteria applied in that area.

c. Development of proposals for amendments/revisions to the VOR/DME and ILS Minimum Performance Standards and Minimum Operational Characteristics as necessary, for airborne equipment designed to operate in a 50 kHz/Y channel environment.

4. New Business.

5. Assignment of Tasks.

The meeting is open to the public on a space available basis. Any members of the public may file a written statement with the Commission either before or after the meeting. Any member of the public wishing to make an oral statement must consult with the Commission prior to the meeting.

Those desiring to attend the meeting or more specific information should contact the RTCA Secretariat, Suite 655, 1717 H Street, NW., Washington, D.C., 20006, or phone area code 202/296-0484.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,
Secretary.

RADIO TECHNICAL COMMISSION FOR AERONAUTICS

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Radio Technical Commission for Aeronautics International Coordination Group 12—Airborne LORAN Receivers. It is to be held on January 16, 1975 in RTCA Conference Room 261, 1717 H Street, NW., Washington, D.C. 20006, commencing at 9 a.m.

A formal Agenda has not been published. The group will review work accomplished since its previous meeting on January 21, 1974. It will consider for formalization its Second Draft Report, Minimum Performance Standards—Airborne LORAN Receiving Equipment. The Document will update RTCA Document DO-92 for LORAN-A equipment issued in 1958 and additionally will incorporate Minimum Performance Standards for LORAN-C receivers.

The meeting is open to the public on a space available basis. Any member of the public may file a written statement with the Commission either before or after the meeting. Any member of the public wishing to make an oral statement must consult with the Commission prior to the meeting.

Those desiring to attend the meeting or more specific information should contact the RTCA Secretariat, Suite 655, 1717 H Street, NW., Washington, D.C. 20006, or phone area code 202/296-0484.

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Notice of agreement filed by:

Thomas W. Gleason, Counsel
International Longshoremen's Association
17 Battery Place
New York, New York 10004
and
C. P. Lambos, Counsel
New York Shipping Association, Inc.
Lorens, Finn, Giardino & Lambos
25 Broadway
New York, New York 10004

Agreement No. T-3017-2, between the International Longshoremen's Association, AFL-CIO (ILA) the New York Shipping Association, Inc. (NYSA), Sea-Land Service, Inc., Seatrain Lines, Inc., and Transamerican Trailer Transport, Inc. (Carriers), modifies the parties, basic agreement providing for the settlement of the parties' litigation in and the withdrawal of the Carriers from FMC Dockets Nos. 69-57 and 73-34. The purpose of the modification is to move the date by which the basic agreement must receive Commission approval or by its terms become null and void from December 15, 1974 to January 15, 1975.

Notice of the filing of Agreement No. T-3017 appeared in the FEDERAL REGISTER on November 8, 1974 (FR Doc. 74-26248, 39 FR 39602) and eleven days were granted for comments. Inasmuch as Agreement No. T-3017-2 only changes the date by which the Commission must approve Agreement No. T-3017 and does not in any way change the agreement's substance, no further time will be granted for comments. Comments filed in connection with Agreement No. T-3017 will, however, be taken into account by the Commission in its consideration of Agreement No. T-3017-2.

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Mari-

time Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico.

Dated: December 17, 1974.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

JAPAN/KOREA-ATLANTIC AND GULF FREIGHT CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW, Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before January 13, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Charles F. Warren, Esq.
1100 Connecticut Avenue, NW.
Washington, D.C. 20036

Agreement No. 3103-56 is an application on behalf of the member lines of the Japan/Korea-Atlantic and Gulf Freight Conference to extend the presently approved intermodal authority, as set forth in Article 1 of the conference agreement, for a period of eighteen (18) months beyond January 23, 1975. The presently approved intermodal authority expires July 22, 1975. Under the extended authority applied for, it is provided that if the conference does not exercise the intermodal tariff publishing authority granted within the first twelve (12) months of the said extended period, the member lines may publish their own intermodal tariffs. However, should the conference file its own intermodal tariff after the elapse of said twelve month period and the member lines do likewise, the conference tariff would supersede the member lines' intermodal tariffs only to the extent that origins, destinations and tariff commodity descriptions are the same.

Dated: December 16, 1974.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

PORT OF SEATTLE AND AMERICAN PRESIDENT LINE, LTD.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before January 13, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. Rosie Smith
Rental Management Specialist
Port of Seattle
P.O. Box 1209
Seattle, Washington 98111

Agreement No. T-2640-5, between the Port of Seattle (Port) and American President Line, Ltd. (APL), modifies the basic agreement between the parties providing for the 5-year lease to APL (formerly American Mail Line, Ltd.) of Terminal 25, Seattle, Washington. The purpose of Agreement No. T-2640-5 is to adjust rental payments in accordance with actual construction costs and amend the bonding provisions.

Dated: December 13, 1974.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. RM75-11]

CHANGE IN ANNUAL CHARGES FOR USE OF GOVERNMENT LANDS

Further Extension of Time

DECEMBER 16, 1974.

On November 29, 1974, Montana Power Company, Pacific Gas and Electric Co., Pacific Power and Light Co., Puget Sound Power and Light Co., Southern California Edison Co., Virginia Electric and Power Co. and Washington Water Power Co. jointly filed a motion to extend the procedural dates fixed by notice issued October 30, 1974, as most recently modified by notice issued December 2, 1974, in the above-designated matter.

Upon consideration, notice is hereby given that the time for filing comments in the above matter is extended to and including February 3, 1975.

KENNETH F. PLUMB,
Secretary.

COORDINATING COMMITTEE, TRANSMISSION-TECHNICAL ADVISORY COMMITTEE, AND TRANSMISSION-TECHNICAL ADVISORY TASK FORCES

Designation of Member

DECEMBER 16, 1974.

By Orders issued May 10, 1971, 36 FR 8910, December 21, 1971, 36 FR 25183, and December 28, 1973, 39 FR 1482, the Federal Power Commission established and renewed the Coordinating Committee, Transmission-Technical Advisory Committee and Transmission-Technical Advisory Task Forces of the National Gas Survey.

1. *Membership.* A new member to the Coordinating Committee, and the replacement of a member to the Transmission-Technical Advisory Committee and Transmission-Technical Advisory Task Forces-Economics, Facilities, Operations, and Regulation and Legislation, as selected by the Chairman of the Commission with the approval of the Commission, is as follows:

Edwin D. Goebel, Technical Director, National Gas Survey, Bureau of Natural Gas, Federal Power Commission.

The appointment of Dr. Goebel to the Coordinating Committee represents an additional member to that Committee. He is being added to the other aforementioned Committees to fill the vacancies created thereon by the resignation of Thomas H. Jenkins, former Director,

National Gas Survey, Federal Power Commission.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. RP75-6-1]

CITIES SERVICE GAS CO. AND CUSTOM RESINS, INC.

Application and Order Providing Hearing and Establishing Procedures

DECEMBER 12, 1974.

On July 23, 1974, Custom Resins, Inc. (Custom Resins) filed a petition for extraordinary relief pursuant to § 1.7(b) of the Commission's rules of practice and procedure and § 2.78 of the Commission's regulations. Custom Resins requested emergency relief from the curtailment plan of Cities Service Gas Co. (CITCO). Custom Resins is a manufacturing firm which produces various chemicals. It stated it had executed a letter of intent with Gulf Oil Company (Gulf) to acquire part of the Jayhawk Petrochemical plant near Columbus, Kansas, and to modify and modernize the plant for the production of ammonia to be used solely as fertilizer.

Custom Resins stated that the plant in the past utilized approximately 50,000 Mcf per day of natural gas, but that in recent years production had been cut back and that natural gas consumption only averaged 4000 Mcf per day, gas supplied to Gulf on an interruptible basis. Custom Resins planned to produce 70,000 tons of ammonia per year and stated a need for 8000 Mcf per day approximately ⅓ to be used for process purposes and the remaining ⅔ as feedstock.

By letter order dated August 9, 1974, the Commission dismissed the petition for extraordinary relief on the ground that the petition was actually a petition for certificate authorization and that the proper procedure would be an application under section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity.

On September 9, 1974, Custom Resins filed an application for rehearing alleging essentially that Custom Resins is the successor in interest to Gulf which in turn was a successor in interest to prior owners of the plant dating back to a "grandfather" certificate issued in Docket No. G-298, 4 FPC 471 (1943).

The Commission issued an order on October 4, 1974, granting a rehearing for the purpose of reconsideration and requiring a response by CITCO. The Order contained detailed questions to be answered by CITCO concerning the amount of gas it had supplied to Gulf and to Gulf's predecessors in interest at the Jayhawk plant.

On November 4, 1974, CITCO filed an answer to the petition for extraordinary relief and application for rehearing of Custom Resins. CITCO's answer denied that Custom Resins a successor in interest to Gulf for the reason that the Jayhawk plant has not been sold by Gulf, nor is there a contract requiring its sales, but only a letter of intent. As required by the Commission's order CITCO detailed the amount of gas it had supplied Gulf and other predecessors through the years. CITCO detailed its critical gas curtailment program and questioned whether the service requested by Custom Resins is within the jurisdiction of the Commission or in the public interest. CITCO also noted that notice of filing of Custom Resins petition has not been published in the FEDERAL REGISTER, and suggested that due to the nature of the requested relief and CITCO's supply shortage, many of its customers may have an interest which may be directly affected by the Commission's action in this proceeding, and who therefore are entitled to be permitted to intervene under section 1.8 of the rules of practice and procedure.

It appears that CITCO is correct in its contention that other parties affected are entitled to public notice and the right to intervene. It also appears that the question of whether or not Custom Resins is a successor in interest or an applicant for new service is both a legal and factual question which would be more fully explored in a formal hearing.

Therefore any person desiring to be heard to make any protest with reference to the said application should on or before December 19, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR § 1.8 or § 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

An examination of the application and of the data submitted in support thereof and of the response of CITCO presents a question of whether the application is in the public interest. Therefore, we deem a hearing to be in the public interest.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, a public hearing will be held commencing January 9, 1975, at 10:00 a.m., e.s.t., in a hearing room to be designated at the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(B) A presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(C) All parties desiring to testify in this proceeding shall file their direct testimony and evidence on or before December 27, 1974.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[FR Doc.74-29777 Filed 12-20-74;8:45 am]

[Docket No. E-7994]

CONSUMERS POWER CO. AND DETROIT EDISON CO.

Order Approving Settlement Agreement and Terminating Proceeding

DECEMBER 16, 1974.

On December 27, 1971 and March 6, 1972, Consumers Power Company (Consumers) and the Detroit Edison Company (Detroit) tendered for filing, two similar June 1, 1971 initial Sales Agreements, as amended August 15, 1971, with Commonwealth Edison Co. (Commonwealth) entitling Commonwealth to purchase up to ⅓ of the initial output of the Ludington Pumped Storage Plant for the first ten years of operation, and up to 1/6 of plant output for five years thereafter. The Ludington Pumped Storage Plant is a jointly-owned project of Consumers and Detroit, comprising six units of 312 MW generating and 323 MW pumping capacity each upon completion in 1974.

By order issued August 26, 1973, the Commission instituted a section 206 investigation and hearing herein to determine the justness and reasonableness of the terms of the filings in general, and the derivation of the return component of the proposed annual fixed charge factor in particular. Subsequent discussion among the parties resulted in the preparation and offer of a proposed settlement herein, which with the concurrence of all parties was offered and transcribed in the October 12, 1973 prehearing conference record and certified to the Commission by the Presiding Administrative Law Judge on October 12, 1973 along with a Staff Motion to accordingly terminate the proceeding. Written notice of the certification was issued by the Commission on October 23, 1974 (39 FR 38723), stating that any person desiring to make comments or suggestions thereupon should submit them in writing on or before November 1, 1974. No comments or suggestions have been received.

The offer of settlement tendered by Consumers, Detroit and Commonwealth explains that (1) the proposed compensation formula initially submitted excludes consideration of an additional investment of $33,234,000 for the construction of necessary transmission facilities within the State of Michigan apart from the capital costs of the Ludington Plant itself, and (2) inclusion of the additional transmission facilities investment in calculating the fixed charge level produced by the tendered compensation formula reduces the resultant annual fixed charge rate from 15.77 percent to 13.89 percent, and reduces the rate of return component from 10.32 percent to 9.05 percent.

Based upon our review of the offer of settlement certified to us by the Presiding Administrative Law Judge on October 12, 1973, as well as the entire record in this proceeding, we find that the offer of settlement provides a reasonable and appropriate resolution of the issues in this proceeding, and that the offer of settlement should be accepted for filing, approved and made effective as hereinafter ordered and conditioned. In light of this action, Staff's motion to terminate the proceedings is granted.

The Commission finds. The offer of settlement certified to the Commission on October 12, 1973, in this docket should be accepted for filing, approved, and made effective as hereinafter ordered and conditioned.

The Commission orders. (A) The offer of settlement certified to the Commission on October 12, 1973, is hereby accepted for filing, incorporated herein by reference, approved and made effective.

(B) Staff's motion to terminate the proceedings is hereby granted.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-29778 Filed 12-20-74;8:45 am]

[Docket No. ID-1744]

EBERT E. FOURNACE

Supplemental Application

DECEMBER 12, 1974.

Take notice that on November 19, 1974, Ebert E. Fournace (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

Vice President, Ohio Electric Company, Public Utility.

Ohio Electric Company, whose principal office is located at 301 Cleveland Avenue, SW., Canton, Ohio 44702 owns and operates the General James M. Gavin Plant at Gallipolis, Ohio which, when completed, will have two 1300 megawatt generating units. All of Ohio Electric Company's available electrical energy is sold to Ohio Power Co., of which it is a wholly owned subsidiary.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 31, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-29770 Filed 12-20-74;8:45 am]

[Docket Nos. CP74-322, CP75-3, CI74-738]

MICHIGAN GAS STORAGE CO. ET AL.

Order Setting Hearing, Prescribing Procedures, Granting Interventions and Consolidating Proceedings

DECEMBER 13, 1974.

Northern Michigan Exploration Company (NOMECO) proposes in Docket No. CI74-738 to sell natural gas to Consumers Power Company (Consumers) for resale from its working interest in leases from Offshore Louisiana to be transported through the facilities of Stingray Pipeline Company (Stingray), Natural Gas Pipeline Company of America (Natural), Trunkline Gas Company (Trunkline) and Michigan Gas Storage Company (MGS), and ultimately to Consumers in the State of Michigan.

NOMECO, a wholly owned subsidiary of Consumers is one of the working interest owners in Vermillion Block 320, East Cameron Block 338, and West Cameron Block 639 in the Federal Domain Offshore Louisiana, and proposes herein to sell 40,000 Mcf per day of natural gas from the above leases.

Trunkline seeks certificate authorization to transport NOMECO's gas on a firm basis up to 41,500 Mcf per day, less fuel used by Trunkline, from the point of production to the Consumers-Trunkline interconnection on the Indiana-Michigan border near Elkhart, Indiana. NOMECO's gas will be taken and measured by Trunkline in a common stream with gas purchased by Trunkline from other producers owning interests in the same leases, wells and platforms. The subject gas will be initially transported through the facilities of Stingray to the facilities of Natural which would transport the gas for a distance of approximately 54 miles, to Trunkline's facilities for delivery to Consumers for the credit of NOMECO. Michigan Gas Storage Company, a subsidiary of Consumers, in Docket No. CP74-322 seeks authority from the Commission to transport the gas within the State of Michigan on behalf of Consumers. No new facilities are proposed to be constructed. Transportation agreements between Stingray and Natural, it is stated, have been designed to accommodate the full wellhead streams of offshore production, including the volumes attributable here to NOMECO. A transportation contract dated October 2, 1973, between Stingray, Trunkline and Natural provides that Trunkline and Natural have the right to assign or otherwise permit the use of a portion of its share of capacity of Stingray's facilities, with the consent of the other, and Natural by letter dated June 21, 1974, has consented to allowing Trunkline to utilize a portion of its capacity for the transportation of the gas of NOMECO. Trunkline states that it has unutilized mainline capacity, even if it had a full supply of gas to serve its present contract demands, due to a cessation of transportation service for Tennessee Gas Pipeline Company.

On June 14, 1974, NOMECO requested issuance of a certificate pursuant to § 2.75 of the rules (Optional Procedure) authorizing long-term sales of gas (20 year primary terms) to Consumers from three fields in the Offshore Louisiana, Federal Domain, at an initial rate of 45.0¢ per Mcf at 15.025 psia. On July 24, 1974, NOMECO amended its application to request authorization to make the proposed sales at the national rate established in Opinion No. 699 (43.0¢ at 14.73 psia subject to upward and downward Btu adjustment from a base of 1,000) plus transportation charges based on cost-of-service.

NOMECO owns a 12½ percent working interest in Block 320, Vermilion Area, Block 338, East Cameron Area, and Block 639, West Cameron Area, and has dedicated such interests to a June 12, 1974, contract with Consumers. The contract provides that NOMECO will sell and arrange for the transportation and delivery to Consumers of up to 40,000 Mcf per day. In addition, the contract provides that Consumers will pay a transportation charge which is equal to the transportation charges paid by NOMECO to Trunkline. It is noted that Consumers is also required to pay MGS a transportation charge based on MGS' cost-of-service.

The application of NOMECO indicates that Consumers will use the additional gas to serve its market in the State of Michigan. Data filed in Docket No. CI74-738 indicates that Consumers has currently in effect a gas allocation plan for new customers approved by the Michigan Public Service Commission (MPSC), and Consumers is currently accepting new customers in its Priority 1 and 2 Categories, which are residential, commercial and industrial customers requiring not more than 6,600 cubic feet of gas per hour. Consumers' projected ability to serve a limited amount of new load is premised on assumptions that curtailment from Trunkline and Panhandle Eastern Pipe Line Company will not increase, exploration and development within the State of Michigan will continue, feedstock shortages and other problems will not limit Consumers' Marysville SNG plant operation, and the subject NOMECO offshore supply project will be certificated. Consumers does not curtail firm load but has interrupted seasonal firm customers 60 days this year. Consumers has pending before the MPSC a program for curtailment should the need arise. Such curtailment plan is based on end-use concepts, the first usage curtailed would be large boiler fuel loads. Notices of these applications were issued on July 30, 1974, in Trunkline (39 FR 28327, August 6, 1974); on July 9, 1974, in MGS (39 FR 26066, July 16, 1974); and on July 9 and August 7, 1974, in NOMECO (39 FR 26067, 29234, July 10 and August 14, 1974).

Petitions to intervene were filed by Central Illinois Public Service Company,

Columbia Gas Transmission Company, Consumers Power Company, Laclede Gas Company, Michigan Gas Storage Company, Michigan Gas Utilities Company, Mississippi River Transmission Corporation, and Northern Michigan Exploration Company. A notice of intervention was filed by the Michigan Public Service Commission. No party requests a formal hearing; however, the Commission has determined that the applications for certificates for the sale of gas and transportation from Offshore Louisiana in the Federal domain to distribution companies, such as Consumers, should be the subject of formal hearing to determine inter alia whether the end-use of the subject gas under present and projected circumstances is required by public convenience and necessity in view of the severe shortage of natural gas. In Opinion No. 668 and Opinion No. 668–A, "Northern Michigan Exploration Company, et al.", October 23, and December 7, 1973, the Commission found, among other things, that the record developed therein on the issue of vertical integration was insufficient as a bar to the proposed transportation there proposed. However, that proposal did not involve the movement of reserves from the offshore federal domain. Considering the circumstances of the present severe shortage of natural gas a formal hearing will be convened to examine all public interest issues associated with the movement of volumes from the offshore federal domain under the circumstances herein proposed inclusive of such issues and evidence relating to present and projected end-use of all gas supply available to Consumers, including the proposed NOMECO gas supply. The matter of "vertical integration" having been resolved in Opinion No. 668–A, no evidence or argument on this issue need be submitted.

The Commission's policy on utilization and conservation of natural resources, relevant to this proceeding, § 2.78 of the General Policy and Interpretations, states, 18 CFR 2.78(a)(1):

Section 2.78 *Utilization and Conservation of Natural Resources—Natural Gas.* (a)(1) The national interests in the development and utilization of natural gas resources throughout the United States will be served by recognition and implementation of the following priority-of-service categories for use during periods of curtailed deliveries by jurisdictional pipeline companies:

(1) Residential, small commercial (less than 50 Mcf on a peak day).

(2) Large commercial requirements (50 Mcf or more on a peak day), firm industrial requirements for plant protection, feedstock and process needs, and pipeline customer storage injection.

(3) All industrial requirements not specified in (2), (4), (5), (6), (7), (8) or (9).

(4) Firm industrial requirements for boiler fuel use at less than 3,000 Mcf per day, but more than 1,500 Mcf per day, where alternate fuel capabilities can meet such requirements.

(5) Firm industrial requirements for large volume (3,000 Mcf or more per day) boiler fuel use where alternate fuel capabilities can meet such requirements.

(6) Interruptible requirements of more than 300 Mcf per day, but less than 1,500 Mcf per day, where alternate fuel capabilities can meet such requirements.

(7) Interruptible requirements of intermediate volumes (from 1,500 Mcf per day through 3,000 Mcf per day), where alternate fuel capabilities can meet such requirements.

(8) Interruptible requirements of more than 3,000 Mcf per day, but less than 10,000 Mcf per day, where alternate fuel capabilities can meet such requirements.

(9) Interruptible requirements of more than 10,000 Mcf per day, where alternate fuel capabilities can meet such requirements.

The above list of priorities requires the full curtailment of the lower priority category volumes to be accomplished before curtailment of any higher priority volumes is commenced.

Consumers and MGS (jointly or separately) shall submit a complete statement of total gas supply, market, and storage field data for one full year of actual operation and three full years of projected operations, with and without the proposed NOMECO supply. Consumers will make a submission of any present and projected customer conversions from any other fuel to natural gas, the number of such customers, the volumes of natural gas, and the cost of fuel displaced on an equivalent Btu basis.

Gas storage field data shall include the type, capacity and location of each natural gas storage field, or facility, or other similar plant or facility attached to Consumers' and MGS' systems. For each present and projected storage field, details of the actual and projected operation shall include a study of each gas storage field showing: Location; geology; original and present reserves for each reservoir; original and present pressure of each reservoir; proposed top and base storage pressures; proposed top and base gas volumes to be stored; a deliverability study, including daily and annual injection and withdrawal rates and pressures; and maximum daily deliverability and maximum storage capacity under any proposed plan of development.

A statement of the total gas supply committed to, controlled by, or possessed by Consumers, MGS and NOMECO which is or will be available within three years shall be presented together with:

(i) The estimated total volume of proven reserves in place for each reservoir in each field from which they take natural gas, giving names and location of fields (state, county, or parish).

(ii) The estimated total volumes of proven reserves available by fee or under lease, segregated by gas fields and reservoirs thereof, giving names and locations of fields (state, county, or parish).

(iii) The names and addresses of persons with whom they have gas purchase contracts, the effective dates and remaining terms in years of such contracts.

(iv) A study, showing the daily volumes of natural gas which can and are proposed to be obtained each year from each source of supply.

(v) Estimate of the Btu content of the available gas.

Consumers shall also present a similar study of all alternate sources of SNG, LNG, etc.

Market data will show the number and annual and seasonal consumption of residential, commercial, firm industrial, interruptible industrial, residential spaceheating, commercial spaceheating, and other types of customers; total annual and peak day gas requirements by classification of service as set forth above in the nine priorities; total past and expected curtailments of service all to be listed by the classifications of service as indicated above; an explanation of basic factors used in estimating future requirements, including, for example: Peak day and annual degree day deficiencies, annual load factors of deliveries to proposed customers; derivation of numbers of customers proposed to be served; individual consumer peak day and annual consumption factors for each class of consumers, with supporting historical data; forecasted saturation of spaceheating as related to past experience; and full detail as to all other sources of gas supply available including manufacturing facilities and liquid petroleum gas; a full description of all facilities, other than transmission facilities, necessary to provide service in any new communities to be served; and a copy of each market survey made within the past 3 years for new markets proposed to be served.

In the event Consumers' data shows a gas supply deficiency, the following shall be submitted. The estimated peak day and monthly volumes of natural gas which would be available with and without the certificates requested.

A full description of Consumers currently effective curtailment program and details regarding any flexibility which may be available by effectuating additional curtailment to its existing industrial customers including Consumers' use of gas. Consumers should also provide a breakdown of the estimated disposition of its natural gas estimated to be available by nine priorities established above for the 3 year forecast period.

A breakdown of all natural gas requirements on peak day and monthly bases at the individual plant site by specific end-uses. The specific end-uses to which the natural gas requested will be utilized and should also reflect the scheduling within each particular end-use with and without the certificates requested. A description of existing alternate fuel capabilities on peak day and monthly bases broken down by nine end-uses as shown herein. For the alternate fuels shown above, provide a description of the existing storage facilities and the amount of present fuel inventory, names and addresses of existing alternate fuel suppliers, and anticipated delivery schedules for the period for which certificates is sought; and the current price per million Btu for natural gas supplies and alternate fuels supplies.

A description of efforts to secure local natural gas and alternate fuels, including documentation of contacts with the

Federal Energy Administration and any state or local fuel allocation agencies or public utility commission.

A description of all fuel conservation activities undertaken by the utility and its customers.

The Commission finds. (A) The above-named petitioners should be granted intervention in the above-described proceeding.

(B) The above proceedings should be consolidated for hearing and decision.

The Commission orders. (A) Pursuant to the authority conferred on the Federal Power Commission by the Natural Gas Act and the Commission's Regulations under the Natural Gas Act and the public hearing will commence on January 21, 1975, at 10:00 a.m. e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 respecting the issues set forth above and as contained in the applications above.

(B) The petitioners named above are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission, provided that the participation of such interveners shall be limited to matters affecting the rights and interests specifically set forth in their petitions to intervene, and that the admission of such interveners shall not be construed as recognition by the Commission that they or any of them might be aggrieved, because of any order issued by the Commission in this ceeding.

(C) Applicants and intervenors shall serve prepared direct testimony in support of their positions on issues in this proceeding, including prepared testimony of witnesses and exhibits, on the Office of the Administrative Law Judges, the Commission Staff and every party to this proceeding on or before January 13, 1975.

(D) An Administrative Law Judge to be hereinafter designated by the Chief Administrative Law Judge shall preside at the hearing and, in his discretion shall control the proceedings hereafter.

(E) The proceedings in Docket Nos. CP74-322, CP75-3 and CI74-738 are hereby consolidated for hearing and decision.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. RP75-38]

MISSISSIPPI RIVER TRANSMISSION CORP.

Petition To Change Method of Accounting for Storage Gas Withdrawals

DECEMBER 13, 1974.

Take notice that on November 18, 1974 Mississippi River Transmission Corporation For Approval To Change To Last-In-First-Out (LIFO) Method Of Accounting For Storage Gas Withdrawals. MRT's Petition requests the Commission approval of a change from the first-in-first-out (FIFO) to the last-in-first-out (LIFO) method of accounting for storage gas withdrawals commencing with the year 1974.

MRT states that it has been utilizing FIFO in connection with the pricing of storage gas withdrawals since it began withdrawing gas from St. Jacob Storage Field in 1966 and that continued application of the FIFO method would cause a significant and unacceptable distortion in MRT's reported net income and its financial statements for 1974 and subsequent years. MRT further states that this distortion is particularly severe when, as in the case with MRT's storage gas inventories under the FIFO method, revenues received for the sale of a commodity currently are being retailed to prices paid for that commodity in a much earlier period. Finally, MRT states that the proposed switch from the FIFO to LIFO method of accounting as to storage inventories would reduce MRT's 1974 net earnings by approximately $1.6 million.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR §§ 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket Nos. E-8756, E-8757, E-8758, E-8761]

NORTHEAST UTILITIES COS.

Order Amending Prior Order and Terminating Proceedings

DECEMBER 16, 1974.

By order issued July 22, 1974, in the above captioned proceeding, we accepted for filing certain unit sales contracts filed by the Northeast Utilities Cos. (Connecticut Light and Power Co. (CL&P), Hartford Electric Light Co. (HELCO), and Western Massachusetts Electric Co. (WMECO)), subject to the outcome of the proceedings in Connecticut Light and Power Co., Docket Nos. E-8105, et al. Footnote 1 of that order, which listed the sales contracts filed by NU, was erroneous. The correct designations of these contracts are as follows:

CL&P's Rate Schedule No. FPC 94; HELCO Rate Schedule No. FPC 77; CL&P Rate Schedule No. FPC 92; and HELCO Rate Schedule No. FPC 76 and WMECO Rate Schedule No. FPC 92, both concurring in CL&P Rate Schedule No. FPC 92.

We shall amend our order of July 22, 1974, to reflect the correct rate schedule designations.

Additionally, these contracts were accepted for filing subject to the outcome of the proceeding in Connecticut Light and Power Company, Docket Nos. E-8105, et al. In Opinion No. 701, issued July 22, 1974, we affirmed and adopted the Initial Decision of the Presiding Administrative Law Judge in that proceeding with regard to rate of return on short term unit sales contracts. Since the contracts herein conform to the outcome in that case, we shall lift the refund obligation imposed by our order in these dockets and terminate these proceedings.

The Commission finds. (1) Good cause exists to amend our order of July 22, 1974 to reflect the correct rate schedule designations as set out below.

(2) Good cause exists to lift the refund obligation previously imposed and to terminate the proceedings in these dockets.

The Commission orders. (A) Footnote 1 of our order of July 22, 1974, is hereby amended to read:

CL&P's Rate Schedule No. FPC 94; HELCO Rate Schedule No. FPC 77; CL&P Rate Schedule No. FPC 92; and HELCO Rate Schedule No. FPC 76 and WMECO Rate Schedule No. FPC 92, both concurring in CL&P Rate Schedule No. FPC 92.

(B) The refund obligation previously imposed in these dockets is hereby lifted and the proceedings in this docket are hereby terminated.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIRD, *Acting Secretary.*

[Dockets Nos. G-9379, G-20870, RP66-2]

PAN AMERICAN PETROLEUM CORP., ET AL. AND UNITED FUEL GAS CO.[1]

Petition for Order Releasing Producer Refunds and Permitting Retention of Supplier Refunds

DECEMBER 16, 1974.

Columbia Gas Transmission Corp. (Petitioner), an affiliate of Columbia Gas System, Inc., as legal successor to United Fuel Gas Company (United Fuel), on December 2, 1974, filed a petition requesting an order of the Commission releasing certain supplier refunds (including interest) held by Pan American Petroleum Corporation (Pan Am) pursuant to an order issued September 11, 1967. Petitioner also requests that the requested order permit it to retain the refund amounts and interest paid by Pan Am, without obligation to flow-through such refunds to Petitioner's jurisdictional customers. Petitioner states that Pan Am, pursuant to the 1967 order, holds in escrow the sum of $2,572,229.77 plus interest accruing from December 31, 1965.

[1] United Fuel Gas Company, a predecessor in interest to Columbia Gas Transmission Corporation, was an affiliate of Columbia Gas System, Inc.

Petitioner asserts that the terms of its predecessor's rate settlement agreement in Docket No. G–20270, as approved by the Commission, contemplate its retention of supplier refunds resulting from producer rate increases effective after June 1, 1961, and that the $2,572,229.77 amount of refunds is applicable to its purchases of gas from Pan Am during the period July 1, 1962 through March 31, 1966.

Petitioner states that copies of the petition have been served upon specifically listed jurisdictional customers, intervenors in Docket No. G–20270, and interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR §§ 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–29783 Filed 12–20–74;8:45 am]

[Docket No. RP72–99]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Tariff Filing

DECEMBER 13, 1974.

Take notice that Transcontinental Gas Pipe Line Corp. (Transco) on November 29, 1974 tendered for filing revised tariff sheets to its FPC Gas Tariff First Revised Volume No. 1, as follows:

Second Substitute Eleventh Revised Sheet No. 5
Third Substitute Seventh Revised Sheet No. 6
Original Sheet No. 159–A
Original Sheet No. 159–B

Transco states that the purposes of this filing are (1) to reinstate the Section 20 collection procedures for credits net of debits granted to customers under Transco's curtailment plan which expired on November 15, 1974, and (2) to "track" the net costs thereof incurred by Transco through October 31, 1974.

Transco states that its presently effective curtailment plan provides for an across-the-board tracking procedure for demand charge adjustments, which method was agreed to by the parties, whereas the previously effective "pro rata" plan provided for a collection method which recognized zone rate differentials—again by agreement of all parties. Because the tracking demand charge adjustments made under the "pro rata" plan is the principal purpose of its filing, Transco proposes to reinstitute, commencing January 1, 1975, the tracking method under the "pro rata" plan until all credits net of debits under such plan have been recouped. In the alternative, Transco has submitted sheets providing for the recoupment of such credits under the method contained in the presently effective plan, although Transco states that it does not believe that this method reflects the intent of the parties.

The Company states that copies of the filing have been mailed to each of the company's jurisdictional customers and interested State Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR §§ 1.8 and 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. G–16139, etc.]

Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

Applications

DECEMBER 11, 1974.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Docket No. CS75-222, etc.]

"SMALL PRODUCER" CERTIFICATES [1]

Applications

DECEMBER 12, 1974.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before January 3, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9161]

MONONGAHELA POWER CO., ET AL.

Filing of Rates and Charges for New Service

DECEMBER 18, 1974.

Take notice that Allegheny Power Service Corporation (APSC) on December 9, 1974, tendered for filing on behalf of its affiliates, Monongahela Power Company, The Potomac Edison Company and West Penn Power Company (the APS Companies) an Agreement between the APS Companies and UGI Corporation (UGI) for the sale by the APS Companies and the purchase by UGI of 50,000 kw of electric power and energy to be sold from the APS Companies' Harrison Station (Harrison Power) for a period of six years commencing January 1, 1975. The Agreement provides, among other things, that Harrison Power will be sold to UGI at a rate of $3.95 per kw per month plus 110 percent of the out-of-pocket cost of energy delivered, including losses. Deliveries of energy to UGI will be scheduled for as many hours as UGI

desires but not to exceed 50,000 kwh per hour, and such deliveries shall be made unless: (1) None of the three units of the Harrison Station is operating; (2) the APS Companies have received an order from an appropriate governmental body to curtail or for any other reason have curtailed the output of the Harrison Station as a result of a shortage of fuel; or (3) transmission of the energy is made impossible.

Applicants estimate that for the twelve months ended December 31, 1975 the demand charges will total $2,370,000 ($197,500 per month). Further, Applicants state that energy charges cannot be estimated at the present time since the cost of producing energy will vary and the number of kwh that UGI will take will vary from month to month.

Applicants state that no facilities need be constructed or acquired in connection with the sale and purchase of Harrison Power.

Applicants have requested the Commission to accept the Agreement for filing, to be effective on or before January 1, 1975, as they intend to commence the sale and purchase of Harrison Power as of that date. Accordingly, Applicants have requested waiver of any requirements of the Commission's rules and regulations deemed necessary and desirable by the Commission to grant the requested effective date.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29686 Filed 12-20-74;8:45 am]

[Docket Nos. RP71-119, RP74-31-34]

PANHANDLE EASTERN PIPE LINE CO.

Petition for Extraordinary Relief

DECEMBER 18, 1974.

Take notice that on December 13, 1974, Anchor Hocking Corporation ("Anchor Hocking") filed a petition for permanent extraordinary relief from the natural gas curtailments imposed by Panhandle Eastern Pipe Line Company ("Panhandle") on Anchor Hocking's glass container plant located at Winchester, Indiana. Anchor Hocking, a direct sale customer of Panhandle, states that due to unexpected additional curtailments being imposed this winter season by Panhandle, Anchor Hocking could effectively lose delivery of the required 790 Mcf per average day necessary to fuel the feeders and annealing lehrs at the Winchester plant. If the minimum 790 Mcf of process gas per average day is curtailed, Anchor Hocking will not have sufficient gas to maintain full production and will as a result suffer irreparable injury. Without relief, the Winchester plant will have to shut down, at least in part. This will create a significant loss of employment in the town of Winchester, in which Anchor Hocking is by far the largest employer. Irreparable injury will also occur to Anchor Hocking itself and to its customers.

Accordingly, Anchor Hocking has moved for permanent extraordinary relief from curtailment through a Commission order requiring Panhandle to deliver to the Winchester plant 790 Mcf per average day, with a peak day of 875 Mcf. Any volumes delivered pursuant to such extraordinary relief in excess of entitlements under the effective Panhandle curtailment plan would be subject to payback out of subsequent daily entitlements in excess of 790 Mcf per average day.

In order to avoid irreparable injury pending hearings on its request for permanent relief, Anchor Hocking has also moved for immediate temporary relief identical with the permanent relief requested. In this connection, Anchor Hocking requested and Panhandle has agreed to a grant of emergency relief from curtailments during the months of December and January.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said petition should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before December 27, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

W. J. YOUNG & CO.

Order Approving Exemption of Nonbanking Activities of Bank Holding Company

W. J. Young & Co., Clinton, Iowa, a bank holding company within the meaning of the Bank Holding Company Act by virtue of its ownership of over 63 per cent of the voting shares of The Clinton National Bank, Clinton, Iowa ("Bank"), has applied to the Board of Governors, pursuant to section 4(d) of the Act (12 U.S.C. 1843(d)), for an exemption from the prohibitions of section 4 of the Act (relating to nonbanking activities of, and acquisitions by, a bank holding company).

Notice of receipt of the application was published in the FEDERAL REGISTER on October 10, 1974 (39 FR 36512), providing an opportunity for interested persons to submit comments and views with respect to the application. Time for filing comments and views has expired and all those received have been considered. No request for a hearing has been received.

Section 4(d) of the Act provides that, to the extent such action would not be

substantially at variance with the purposes of the Act and subject to such conditions as the Board considers necessary to protect the public interest, the Board may grant an exemption from the prohibitions in section 4 of the Act to a bank holding company that controlled one bank prior to July 1, 1968, and has not thereafter acquired the control of any other bank, in order (1) to avoid disrupting business relationships that have existed over a long period of years without adversely affecting the banks or communities involved, (2) to avoid forced sales of small locally owned banks to purchasers not similarly representative of community interests, or (3) to allow retention of banks that are so small in relation to the holding company's total interests and so small in relation to the banking market to be served as to minimize the likelihood that the bank's powers to grant or deny credit may be influenced by a desire to further the holding company's other interests.

The Board has considered the application in light of the factors set forth in section 4(d) of the Act, and finds that:

Applicant was incorporated in 1882 for the purpose of holding the interests of the W. J. Young family. At the present time, the Young family interests consist of sole ownership of the Clinton Herald Co., publisher of the "Clinton Herald," a six-day per week evening newspaper of general circulation in Clinton, and a company that is engaged in commercial printing; ownership of less than five per cent of the stock in Newmont Mining, a company listed on the New York Stock Exchange; and ownership of over 63 per cent of the outstanding voting stock in Bank.

W. J. Young & Co. acquired a significant ownership interest (43.9 per cent) in Bank in 1924; however, the Young family's contact with that Bank began at the time of Bank's organization in 1865, when W. J. Young sat as a member of the board of directors of Bank. In addition, Clinton Savings Bank, which was organized in 1875 by the Young family for the purpose of providing a depository for the earnings of W. J. Young lumber mill employees, was merged with Clinton Bank in 1945. Accordingly, it appears that Applicant or its predecessors have controlled Bank since 1924 and members of the Young family have been directly associated with Clinton Bank since 1865. Furthermore, the record indicates that over the last ten years Applicant has maintained an average demand deposit balance of approximately $150,000 to $200,000 with Bank. Bank appears to be in satisfactory financial condition, and the record contains nothing to suggest that Applicant has abused its relationship with Bank or misused Bank's resources for the benefit of Applicant's other interests. There is no reason to believe that permitting Applicant's relationship with Clinton Bank to continue would adversely affect Bank or the communities involved.

Furthermore, the Board notes that at the present time over 90 per cent of Bank's stock is owned either by Applicant or the residents of Clinton and its environs. Forced sale of Bank could result in a loss of such local control, and could detract from the bank's involvement in the local community. In this regard, it is noted that Bank has a loan to deposit ratio of 71 per cent and, furthermore, it has exhibited an active interest in various community projects.

Bank is the second largest banking institution in the Clinton RMA (the relevant banking market) with 27.6 percent of market deposits.[1] As of year-end 1973, Bank had total deposits of $33.7 million and total assets of $38.2 million. Applicant, on an unconsolidated basis, had assets of $3.9 million. On a net income basis, Bank accounted for 41.3 percent of Applicant's total net income for the 1973 calendar year. Thus, the facts presented do not meet the standards for exemption set forth in section 4(d)(3) of the Act, although the record does not contain any evidence that Bank has used its powers to grant or deny credit to further Applicant's other interests.

Based on the foregoing and other considerations reflected in the record, the Board has concluded, pursuant to the tests set forth in sections 4(d)(1) and 4(d)(2) that an exemption is warranted to avoid disrupting a business relationship that has existed over a long period of years without adversely affecting the banks or communities involved, and that forced sale of Bank could result in sale of Bank to purchasers not similarly representative of community interests. In addition, granting an exemption to Applicant would not be substantially at variance with the purposes of the Act nor adverse to the public interest; and an exemption is warranted under the provisions of section 4(d) of the Act. Accordingly, an exemption pursuant to section 4(d) of the Act is hereby granted subject to the condition that this determination may be revoked if the facts upon which it is based change in any material respect. Further, the provisions of any credit, property, or service by Applicant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under § 106 of the Bank Holding Company Act Amendments of 1970. The determination herein is subject to the Board's authority to require modification or termination of the activities of Applicant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By order of the Board of Governors,[2] effective December 12, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-29766 Filed 12-20-74;8:45 am]

[1] The Clinton RMA is comprised of the incorporated areas of Clinton and Camanche and the section of Hampshire township in Clinton County, all in Iowa; in Illinois, it includes Fulton, Fulton Township, one quarter of Garden Plain Township and the small northern portion of Albany Township in which Albany City is located.

WYOMING BANCORPORATION

Acquisition of Bank

Wyoming Bancorporation, Cheyenne, Wyoming, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of Bank of Wyoming, Hanna, Wyoming, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 14, 1975.

Board of Governors of the Federal Reserve System, December 13, 1974.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.74-29764 Filed 12-20-74;8:45 am]

WYOMING BANCORP.

Order Approving Acquisition of Bank

Wyoming Bancorporation, Cheyenne, Wyoming, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of The First National Bank of Kemmerer, Kemmerer, Wyoming ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in Wyoming, controls thirteen subsidiary banks with aggregate deposits of $202.8 million, representing 16 per

[2] Voting for this action: Governors Sheehan, Bucher, Holland, Wallich and Coldwell. Absent and not voting: Chairman Burns and Governor Mitchell.

cent of the total commercial bank deposits in the State.[1] The acquisition of Bank ($21.8 million deposits) would increase Applicant's share of State deposits by 1.7 percentage points and would not result in any significant increase in the concentration of banking resources in Wyoming.

Bank is the only bank located in Kemmerer (population of about 2,300). Applicant's subsidiary bank nearest to Bank is located in Evanston, 50 miles southwest of Bank. Bank is located 85 miles northwest of Rock Springs where Applicant has received approval to acquire a *de novo* bank. In view of the fact that Kemmerer, Evanston, and Rock Springs are distinct market areas, no significant existing competition would be eliminated by consummation of the proposed acquisition. Furthermore, from the facts of record, it appears unlikely that any significant competition will develop between Applicant's subsidiary banks and Bank in the future. Although Applicant has the resources to enter the market *de novo*, it does not appear from the record that the area is particularly attractive for such an alternative means of entry at this time or that Applicant would attempt such entry.[2] Accordingly, the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant and its subsidiaries are regarded as satisfactory and consistent with approval of the application. The same factors are satisfactory with regard to Bank, particularly in view of Applicant's commitment to inject $300,000 in equity capital into Bank. Factors relating to the convenience and needs of the community to be served are also consistent with approval. Affiliation with Applicant will enable Bank to introduce longer term certificates of deposit and extend the weekday banking hours; and Applicant will provide additional management expertise in the lending and investment functions of Bank. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record,[3] the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[4] effective December 12, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-29765 Filed 12-20-74;8:45 am]

[1] All banking data are as of December 31, 1973. Applicant has also received approval to acquire Bank of Wyoming, N.A., Rock Springs, Wyoming, and Bank of Wyoming, N.A., Sheridan, Wyoming, proposed new banks.

[2] It is noted that an application has been filed by a group of individuals with the Regional Administrator of National Banks for a charter for a national bank to be located in Kemmerer.

[3] Dissenting Statement of Governor Holland filed as part of the original document. Copies are available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Kansas City.

[4] Voting for this action: Vice Chairman Mitchell, Governors Sheehan, Bucher, Wallich, and Coldwell. Voting against this action: Governor Holland. Absent and not voting: Chairman Burns.

GENERAL ACCOUNTING OFFICE

ATOMIC ENERGY COMMISSION

Receipt of Regulatory Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 13, 1974. See 44 U.S.C. 3512(c) & (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

ATOMIC ENERGY COMMISSION

Request for clearance of application, reporting, and recordkeeping requirements contained in 10 CFR 55.10, 55.33, 55.41, and Appendix A of Part 55 of the Commission's regulations pertaining to the qualification of licensed operators; frequency of each requirement is biennial or on occasion; potential respondents are applicants for operator licenses; respondent burden varies greatly depending on the requirement and is estimated at 636 total man-hours annually.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

FEDERAL MARITIME COMMISSION

Receipt of Regulatory Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 16, 1974. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

FEDERAL MARITIME COMMISSION

Request for review and clearance of an extension without change of FMC reporting requirement under 46 U.S.C. 816, 820, 841a and FMC General Order 15. Approximately 550 marine terminal operators will be required to file with the Commission a schedule of tariffs showing all its rates, charges, rules, and regulations relating to or connected with the receiving, handling, storing, and/or delivering of property at its terminal facilities. The respondents must file 11 times annually. The respondent burden per filing varies considerably depending on the size of the operator. No estimate of the average number of man-hours can be made.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

NATIONAL ENDOWMENT FOR THE HUMANITIES

ADVISORY COMMITTEE EDUCATION PANEL

Meeting

DECEMBER 13, 1974.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463) notice is hereby given that a meeting of the Education Panel will meet at Washington, D.C., on January 10, 16 and 17, 1975.

The purpose of the meeting is to review Planning Grant Program applications submitted to the National Endowment for the Humanities for grants to educational institutions and non-profit organizations.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 532(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation on the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, NW., Washington, D.C. 20506, or call area code 202–382–2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

PHILADELPHIA COKE DIVISION OF EASTERN ASSOCIATED COAL CORP.

Application for Variance and Interim Order; Grant of Interim Order

I. *Notice of application.* Notice is hereby given that Philadelphia Coke Division of Eastern Associated Coal Corporation, 4501 Richmond St., Philadelphia, Pa. 19137 has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596) 29 CFR 1905.11 for a variance and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.23(c)(1) concerning the Protection of Open-sided floors, platforms, and runways.

The address of the place of employment that will be affected by the application is as follows:

Philadelphia Coke Division of Eastern Associated Coal Corporation
4501 Richmond Street
Philadelphia, Pa. 19137

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application the applicant contends that it is providing a place of employment as safe as that required by § 1910.23(c)(1) which requires that every open-sided floor or platform 4 feet or more above adjacent floor or ground level shall be guarded by a standard railing on all open sides.

The applicant contends that as the major element of its operation are two contiguous coke oven batteries of 37 ovens each. These batteries are operated as a unit. The coke ovens were built in 1928 and have been in continuous operation since February 1, 1929. The cost of replacing these batteries with batteries which would permit compliance with § 1910.23(c)(1) is estimated to be $20 million.

The operation is a series of batch operations, so arranged and operated as to effect a continuous distillation of bituminous coal. Each of the 74 ovens is approximately 3½ feet wide, and has a door at either end. The coal is charged into each oven unit from the top and at the appropriate time the oven is opened at each end, with the residue coke pushed from one side out the other side into a "hot car."

The applicant alleges that removal of the residue coke from the oven is accomplished as follows. On each side of the ovens there is a "bench" a few inches below the oven floor level. This bench is six feet, ten inches wide and runs the length of the 74 ovens (approximately 260 feet). The bench is 11 feet above the adjacent track level. About four feet above ground level a set of tracks (similar to railroad tracks) run parallel to the bench along the length of the bench (track level). Along these tracks, on the west side of the ovens ("pusher side"), travels a large machine called a "pusher" which protrudes over the bench to the oven doors. The pusher is operated by an employee from a cab in the upper portion of the pusher. There is also another machine, called a "clay carrier," on the

XUM
V 39 N 247 DEC 23 1974
XUM

pusher side of the ovens, which travels along the surface of the bench on overhead rails, but does not extend beyond the edge of the bench. The function of the clay carrier and its operator is to seal the oven doors with clay after the residue coke has been pushed out and the door replaced in order that the oven be prepared for the next charge of coal.

The applicant further contends that on the east side of the oven batteries ("coke side"), two machines travel along the surface of the bench on tracks. The first of these is a combination door opener and coke guide, which is operated by one employee from a cab in the machine. This machine is positioned by its operator in front of the appropriate oven and removes the oven door. It is then positioned in such a way as to set the coke guide (which is equal in height and width to the oven itself) immediately in front of the oven. As the coke is pushed through the oven from the other side by the pusher, it is forced through the coke guide and into a "hot car" which is positioned on track level below the bench. After the hot coke has been pushed out of the oven into the hot car, the door opener replaces the door on the oven. The other machine on the coke side of the batteries is a clay carrier which seals the oven door after it has been replaced. The clay carrier is operated by one employee from a cab in the machine. Both of these machines occupy the full width of the bench, and casual passage around them is impossible.

The applicant alleges that there are seven employees involved in this operation. They are: a pusher operator, clay carrier operators (one on either side), door opener operator, hot car operator, heater helper, and an oven foreman. These employees do on occasion walk along the bench, but are never required to approach the edge of the bench. The applicant further states that other than for maintenance and repair work, no other employees work on or below the bench area.

The applicant states that because of the nature of the operation, it is impossible to install a standard guardrail. The pusher which travels the length of the pusher side bench does protrude over the full width of the bench. The portion of the pusher which protrudes over the bench is a mere 1 inch above the bench. Were a railing or a toeboard to be erected along the edge of the bench, it would necessarily prohibit the pusher from travelling along the bench from oven to oven as it must do. Likewise, the coke guide on the coke side bench extends beyond the bench by 10⅞ inches. Thus, erection of a railing on the edge of the coke side bench would prohibit the necessary movement of the door opener along the bench.

The applicant states that in the past 32 years there have been only two incidents of an employee falling from the bench. In each case only minor injuries were sustained by the employee.

The applicant states that in lieu of a standard guardrail the following procedures will be established:

(a) A regulation will be adopted prohibiting unauthorized personnel, including those who might attempt to use the benches as a passageway for transit, from entering upon the benches, and barricades will be erected at the ends thereof with signs giving notice that only authorized personnel are permitted to enter the area.

(b) Safety rules for the six job classifications (pusher operator, luterman, door machine operator, hot car operator, heater helper, and oven foreman) will be prescribed, and mandatory safety classes will be instituted for all employees who work on the oven benches.

(c) The present regulation prohibiting employees from attempting to walk or crawl around the outside of the movable rail-mounted equipment on the benches would remain in force.

(d) Sufficient lifebelts and safety lines will be provided so that all employees can meet the requirements under item (e) below. The lifebelt will be a harness or belt manufactured or provided by a recognized supplier of safety equipment suitable for the purpose. The lifebelt will have a six-foot lanyard attached; a bar, shackle, or other device, will be affixed to the end of the lanyard so it can be securely hooked to the oven buckstays along the benches. The buckstays will be modified, if necessary, to permit such attachment, by the addition of welded rings or other fixtures enabling quick and safe connection.

(e) A yellow, or other high visibility, stripe will be painted along the benches at a distance of one foot from the edge, and warning signs will be posted at appropriate locations reading as follows:

"Caution. Oven Bench is Unprotected with Handrail. Stay Within Painted Stripe on Outside of Bench. Work on or Outside of Stripe Requires Lifebelt and Safety Line."

The applicant contends that these additional safety measures will virtually eliminate any risk of employee injury and result in a situation as safe and healthful as that which would exist were the applicant to install the railings and toeboards required by § 1910.23(c)(1).

A copy of the application will be made available for inspection and copying upon request at the Office of Compliance Programming, U.S. Department of Labor, 1726 M Street NW., Room 210, Washington, D.C. 20210, and at the following Regional and Area Offices:

U.S. Department of Labor
Occupational Safety and Health Administration
Gateway Building—Suite 15220
1535 Market Street
Philadelphia, Pennsylvania 19104

U.S. Department of Labor
Occupational Safety and Health Administration
Room 8458
William J. Green, Jr., Federal Building
600 Arch Street
Philadelphia, Pennsylvania 19106

All interested persons, including employers and employees, who believe they would be affected by the grant or denial of the application for a variance are invited to submit written data, views and arguments relating to the pertinent application no later than January 22, 1975. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than January 22, 1975, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Compliance Programming, at the above address.

II. *Interim Order.* It appears from the application for a variance and interim order, that an interim order is necessary to prevent undue hardship to the applicant and its employees pending a decision on the variance application. Therefore it is ordered pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 and 29 CFR 1905.11(c) that the Philadelphia Coke Division of Eastern Associated Coal Corporation be, and is

hereby, authorized to operate its 74 coke ovens provided the following conditions are met:

1. Warning signs shall be posted in pertinent areas, emphasizing the necessity of avoiding the edge of the benches and the danger inherent in the absence of a handrail. These signs will be posted at every way of access to the benches as well as on the benches themselves.

2. Safety classes are instituted for the employees who work in the bench area.

3. Unauthorized personnel are prohibited from the bench area.

4. Approved lifebelts and safety lines as specified in the variance application shall be provided and used by all employees working in the bench area.

5. A yellow or other high visibility stripe will be painted along the oven benches at a distance of one foot from the edge.

Philadelphia Coke Division of Eastern Associated Coal Corporation shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

Effective date. This interim order shall be effective as of December 23, 1974, and shall remain in effect until a decision is rendered on the application for variance.

Signed at Washington, D.C., this 16th day of December 1974.

JOHN STENDER,
Assistant Secretary of Labor.

Office of the Secretary

MT. VERNON, OHIO PLANT OF PPG INDUSTRIES, INC., PITTSBURGH, PENNSYLVANIA

Worker Request for Certification of Eligibility To Apply for Adjustment Assistance; Investigation

A petition requesting certification of eligibility to apply for adjustment assistance has been filed on December 13, 1974, with the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, by the United Glass and Ceramic Workers of North America, AFL–CIO, and the Window Glass Cutters League of America, AFL–CIO, on behalf of workers and former workers of the Mt. Vernon, Ohio plant of PPG Industries, Inc., Pittsburgh, Pennsylvania. The request for certification is made under Proclamation 3967 (Adjustment of Duties on Certain Sheet Glass) of February 27, 1970. In that Proclamation the President, among other things, acted to provide under section 302(a)(3) with respect to the sheet glass industry that its workers may request the Secretary of Labor for certifications of eligibility to apply for adjustment assistance, under Chapter 3, Title III, of the Trade Expansion Act of 1962.

The Act, section 302(b)(2), provides that the Secretary of Labor shall certify as eligible to apply for adjustment assistance under Chapter 3 any group of workers in an industry with respect to which the President has acted under section 302(a)(3), upon a showing by such group of workers to the satisfaction of the Secretary of Labor that the increased imports (which the Tariff Commission has determined to result from concessions granted under trade agreements) have caused or threatened to cause unemployment or underemployment of a significant number or proportion of workers of such workers' firm or subdivision thereof.

In view of the petition and the responsibilities of the Secretary of Labor, the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, has instituted an investigation, as provided in 29 CFR 90.11. The investigation relates, as above indicated, to the determination of whether any of the group of workers covered by the request should be certified as eligible to apply for adjustment assistance, including the determinations of related subsidiary subjects and matters, such as the date unemployment or underemployment began or threatened to begin and the subdivision of the firm involved to be specified in any certification to be made, as more specifically provided in Subpart C of 29 CFR Part 90.

Interested persons should submit written data, views or arguments relating to the subjects of investigation to the Director, Office of Foreign Economic Policy, U.S. Department of Labor, Washington, D.C. 20210, on or before December 30, 1974.

Signed at Washington, D.C. this 13th day of December 1974.

GLORIA G. VERNON,
Director, Office of Foreign Economic Policy.

INTERSTATE COMMERCE COMMISSION

[Notice 459]

ASSIGNMENT OF HEARINGS

DECEMBER 18, 1974.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after December 23, 1974.

MC 129350 (Sub-No. 45), Charles E. Wolfe, DBA Evergreen Express, now assigned January 13, 1975, at Helena, Mont., is cancelled and reassigned January 13, 1975, at Billings, Mont., in Room 246, U.S. Post Office Building, 26th and First Ave., North. MC 119738 Sub 3, Haggard Heavy Hauling, Inc., now assigned January 15, 1975, at St. Louis, Mo., is cancelled and the application is dismissed.

MC 51146 Sub 374, Schneider Transport, Inc., now assigned January 14, 1975, at Indianapolis, Indiana is cancelled and transferred to Modified Procedure. MC 134139 Sub 11, B. L. T. Corporation, now being assigned January 21, 1975 (2 days) at New York, N.Y. in Room F-2220, 26 Federal Plaza.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74-29863 Filed 12-20-74;8:45 am]

[AB 48 (Sub-No. 3)]

CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD CO.

Abandonment Between Fairbury and Ruskin in Jefferson and Nuckolls Counties, Nebraska

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding, because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. § 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby directed to publish the appended notice in newspapers of general circulation in Jefferson, Thayer and Nuckolls Counties, Nebr., on or before December 31, 1974, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 13th day of December 1974.

By the Commission, Commissioner Tuggle.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[AB 48 (Sub-No. 3)]

CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD COMPANY

ABANDONMENT BETWEEN FAIRBURY AND RUSKIN IN JEFFERSON AND NUCKOLLS COUNTIES, NEBRASKA

The Interstate Commerce Commission hereby gives notice that by order dated December 13, 1974, it has been determined that the proposed abandonment by the Chicago, Rock Island and Pacific Railroad of its line of railroad between Fairbury and Ruskin in Jefferson, Thayer, and Nuckolls Counties, Nebr., a distance of approximately 39.39 miles, if approved by the Commission does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq. and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed action are considered insignificant because rail traffic over the line has been embargoed since March 1973 and, prior to the embargo, traffic over the line was low. Substantial use was being made of motor carrier movement despite the availability of direct rail access. Permanent diversion of traffic to motor carrier and the associated environmental effects, i.e. increase in energy consumption and deterioration of air quality, will be minimal. Alternate rail service also exists in the area over several lines, all within 8 miles of each affected station. The abandonment and subsequent sale of the right-of-way may result in the destruction of the few remaining wildlife habitats in the area. Sale of the abandoned right-of-way to governmental agencies for public use may mitigate this impact.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before January 17, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.74-29862 Filed 12-20-74;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 18, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before January 7, 1975.

FSA No. 42917—*Liquefied Petroleum Gas Within and From Western States.* Filed by Western Trunk Line Committee, Agent, (No. A-2712), for and on behalf of carriers parties to schedule listed below. Rates on liquefied petroleum gas, in tank-carloads, as described in the application, from specified points in Wyoming, to points in western trunk-line territory.

Grounds for relief—Market competition, modified short-line distance formula and grouping.

Tariff—Supplement 2 to Western Trunk Line Committee, Agent, tariff W-200-E, ICC A-4936. Rates are published to become effective on January 20, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74-29865 Filed 12-20-74;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 18, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR § 1100.40) and filed on or before January 7, 1975.

FSA No. 42918—*Joint Water-Rail Container Rates—Seatrain International.* Filed by Seatrain International, S.A., (No. 13), for and on behalf of itself and carriers parties to its tariffs Nos. 704, 710-A, and 715, I.C.C. Nos. 3, 16, and 17, respectively, and its tariff No. 705, I.C.C. No. 2 (Seatrain Pacific, S.A., Series). Rates on general commodities, between specified United States rail terminals, on the one hand, and ports in the United Kingdom, Continental Europe, and the Far East, on the other.

Grounds for relief—Water competition.

Tariffs—As set forth above. Rates are published to become effective on January 15, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.74-29856 Filed 12-20-74;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 18, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR § 1100.40) and filed on or before January 7, 1975.

FSA No. 42919—*Commodity Rates—Louisiana Midland Railway Company.* Filed by Southwestern Freight Bureau, Agent, (No. B-598), for and on behalf of carriers parties to Uniform Classification Committee, Agent, tariff 11, ICC 7. Rates on property moving on point-to-point commodity rates, between Louisiana Midland Railway Company stations, Packton to Vidalia, Louisiana, on the one hand, and points in the United States and Canada, on the other.

Grounds for relief—New stations.

By the Commission.

[Notice 206]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 13, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75525. By order of December 9, 1974 the Motor Carrier Board approved the transfer to Paper Transportation Specialists, Inc., Portland, Oreg., of the operating rights in Permit No. MC-135241 (Sub-No. 1) issued September 7, 1972 to Kenneth M. Allison, doing business as Allison Trucking, Portland, Oreg., authorizing the transportation of various commodities from and to specified points and areas in Washington, Oregon and California. Nick I. Goyak, 404 Oregon National Bldg., 610 S.W. Adler St., Portland, Oreg., 97205, attorney for applicants.

No. MC-FC-75547. By order of December 9, 1974 the Motor Carrier Board approved the transfer to Bennie Elmquist and Gerald Elmquist, a partnership, doing business as Elk Horn Elevator, Elk Horn, Iowa, 51531, of the operating rights in Certificate No. MC-44839 issued December 31, 1940 to Bennie Elmquist, Elk Horn, Iowa, 51531, authorizing the transportation of various commodities from and to specified points and areas in Iowa and Nebraska.

No. MC-FC-75549. By order entered 12-9-74 the Motor Carrier Board approved the transfer to R-M, Inc., Lynn, Mass., of the operating rights set forth in Certificate of Registration No. MC-120943 (Sub-No. 1), issued January 28, 1964, to A. Francis, Inc., Swampscott, Mass., evidencing a right to engage in transportation, in interstate or foreign commerce, of general commodities, anywhere within the Commonwealth of Massachusetts. Frank J. Weiner, 15 Court Square, Boston, Mass. 02108, attorney for transferee and Arnold J. Levin, 10 Lowell St., Peabody, Mass. 01960, attorney for transferor.

No. MC-FC-75552. By order entered 12-9-74 the Motor Carrier Board approved the transfer to Emanual J. Werner, doing business as Rego Park Moving & Storage Co., Middle Village, N.Y., of the operating rights set forth in Certificate No. MC-21551, issued by the Commission March 2, 1953, to Arthur Werner and Emanuel Werner, a partnership, doing business as Werner Bros. & Co., Middle Village N.Y., authorizing the transportation of household goods, as defined by the Commission, between New York, N.Y., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia. John P. Tynan, 65-12 69th Place, Middle Village, N.Y. 11379, attorney for applicants.

No. MC-FC-75559. By order of December 9, 1974 the Motor Carrier Board approved the transfer to John P. Hoover and Ronald J. Hoover, a partnership, doing business as Phillipsburg Truck Line, Route 3, Phillipsburg, Kansas, 67661, of the operating rights in Permits No. 33964 and MC-33964 (Sub-No. 1) issued December 19, 1963 and November 25, 1966 respectively to Ralph Cox and John Hoover, a partnership, doing business as Phillipsburg Truck Line, Route 3, Phillipsburg, Kansas, 67661, authorizing the transportation of various commodities from and to specified points and areas in Missouri, Kansas, and Colorado.

No. MC-FC-75573. By order entered December 9, 1974 the Motor Carrier Board approved the transfer to Functional Marketing System, Inc., Jamaica, N.Y., of the operating rights set forth in Permits Nos. MC-129973 (Sub-No. 6) and MC-129973 (Sub-No. 10), and a portion of the operating rights set forth in Permit No. MC-129973 (Sub-No. 9), issued by the Commission February 26, 1973, July 31, 1974, and September 27, 1974, respectively, to Field Marketing Services, Inc., New York, N.Y., authorizing the transportation of books, and educational materials, equipment and supplies, between points in New Jersey, on the one hand, and, on the other, specified counties in New York; between specified counties in New Jersey and New York, N.Y., on the one hand, and, on the other specified points in Delaware, Pennsylvania, New York, and New Jersey; and business and trade directories, registers and guides, credit reference books, and related publications, and business materials and supplies, between specified counties in New York and New Jersey. Larsh B. Mewhinney, 235 Mamaroneck Ave., White Plains, N.Y. 10605, attorney for transferee and William J. Lippman, 1819 H St. NW., Washington, D.C. 20006, attorney for transferor.

[Notice 168]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 17, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, on or before January 7, 1975. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the

Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 40630 (Sub-No. 9 TA), filed December 11, 1974. Applicant: VIRGINIA FURNITURE CARRIERS, INC., P.O. Box 369, Bassett, Va. 24055. Applicant's representative: Frank B. Hand, Jr., P.O. Box 446, Winchester, Va. 22601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from Bassett, Va., to points in Virginia, restricted to traffic having a prior movement by railroad, for 180 days. Supporting shipper: Bassett Furniture Industries, Inc., Bassett, Va. Send protests to: Danny R. Beeler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 215 Campbell Avenue SW., Roanoke, Va. 24011.

No. MC 95350 (Sub-No. 5 TA), filed December 9, 1974. Applicant: R. W. JONES TRUCKING COMPANY, P.O. Drawer T, Vernal, Utah 84078. Applicant's representative: Harry D. Pugsley, Suite 400, 315 East 2nd South, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, materials, equipment, supplies, and facilities* used in, or incidental to, or in connection with the discovery, development, production, extraction, and preservation of oil shales, natural gas, and petroleum and the construction, dismantling, repair, servicing, and maintenance of facilities for the storage, operations, processing, repressuring, and blending of oil shale, natural gas, gasoline, and petroleum, between points in Emery, Grand, Duchesne, and Uintah Counties, Utah, on the one hand, and, on the other, points in Wyoming and Colorado, for 180 days. Supporting shippers: There are approximately 11 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Lyle D. Helfer, Interstate Commerce Commission, Bureau of Operations, 5301 Federal Building, 125 South State Street, Salt Lake City, Utah 84138.

No. MC 107403 (Sub-No. 926 TA), filed December 10, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Methyl chloride*, in bulk, in tank vehicles, from Institute, W. Va., to Chattanooga, Tenn., for 180 days. Supporting shipper: G. Frederic Stunkard, Manager of Transportation, Velsicol Chemical Corporation, 341 E. Ohio Street, Chicago, Ill. 60611. Send protests to: Ross A. Davis, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Arch Street, Room 3238, Philadelphia, Pa. 19106.

No. MC 111729 (Sub-No. 485 TA), filed December 11, 1974. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Radiopharmaceuticals, radioactive drugs, and medical isotopes*, and *related supplies and accessories*, between Arlington Heights, Ill., on the one hand, and, on the other, points in Alabama, Florida, North Carolina, and South Carolina, for 180 days. Supporting shipper: Amersham/Searle Corporation, 2636 S. Clearbrook Drive, Arlington Hts., Ill. 60005. Send protests to: Anthony Giaimo, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, Room 1807, New York, N.Y. 10007.

No. MC 113024 (Sub-No. 133 TA) (Correction), filed November 26, 1974, published in the FEDERAL REGISTER issue of December 9, 1974, and republished as corrected this issue. Applicant: ARLINGTON J. WILLIAMS, INC., R.D. 2, S. Dupont Highway, Smyrna, Del. 19977. Applicant's representative: Samuel W. Earnshaw, 833 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Carbon black*, in bags, from Evangeline Parish, La., to McCook, Nebr. and Wilmington, Del., for the account of Electric Hose & Rubber Company, Wilmington, Del., for 180 days.

NOTE.—The purpose of this republication is to change the origin to Evangeline Parish, La., in lieu of Seagraves, Tex., which was published in the FEDERAL REGISTER in error. The rest of the application will remain the same.

No. MC 117765 (Sub-No. 180 TA), filed December 10, 1974. Applicant: HAHN TRUCK LINE, INC., 5315 Northwest 5th Street, Oklahoma City, Okla. 73112. Applicant's representative: R. E. Hagan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Carpet, carpet padding*, from the plantsite of Sequoyah Industries, Inc., and facilities, Anadarko, Okla., to points in Delaware, Florida, Georgia, Maryland, New Jersey, North Carolina, Pennsylvania, South Carolina, Virginia, and West Virginia; and (B) *Materials and supplies* used in manufacture (except commodities in bulk), installation and/or distribution of carpet, from Calhoun, Dalton, Hazelhurst, Jasper, and Savannah, Ga.; Anderson, Columbia and Greenwood, S.C.; Chattanooga, Tenn. and Longview, Tex., to Anadarko and Watonga, Okla., for 180 days. Supporting shipper: Sequoyah Industries, Inc., Joseph Allen, T.M., P.O. Box 369, Anadarko, Okla. 73005. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 240-Old P.O. Bldg., 215 N.W. Third, Oklahoma, City, Okla. 73102.

No. MC 118468 (Sub-No. 42 TA), filed December 10, 1974. Applicant: UMTHUN TRUCKING CO., a Corporation, 910 South Jackson, P.O. Box 166, Eagle Grove, Iowa 50533. Applicant's representative: Patrick E. Quinn, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gypsum*, granular, ground, or pulverized, in bulk, from the warehouse facilities of the United States Gypsum Company at or near Winona, Minn., to points in the Upper Peninsula of Michigan and Wisconsin, under contract with United States Gypsum Company, for 180 days. Supporting shipper: United States Gypsum Company, 101 South Wacker Drive, Chicago, Ill. 60606. Send protests to: Herbert W. Allen, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 119789 (Sub-No. 231 TA), filed December 9, 1974. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulators, electric wire or wiring, pottery or pottery and iron combined, and parts*, from Sandersville, Ga., to points in Arizona, California, Colorado, Nevada, New Mexico, Texas, and Utah, for 180 days. Holland, Interstate Commerce Commission, Bureau of Operations, 1100 Commerce Street, Room 13C12, Dallas, Tex. 75202.

No. MC 123502 (Sub-No. 45 TA), filed December 10, 1974. Applicant: FREE STATE TRUCK SERVICE, INC., Route 3, P.O. Box 760, Glen Burnie, Md. 21061. Applicant's representative: W. Wilson Corroum (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crude rubber*, in bulk, in dump vehicles, from Belle Mead and Somerville, N.J., to Baltimore, Md., for 180 days. Supporting shipper: Edwin W. Burchess, Exec. Vice President, International Briquetting Corp., 2805 Light Street, Baltimore, Md. 21230. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814-B Federal Building, Baltimore, Md. 21201.

No. MC 124579 (Sub-No. 13 TA), filed December 11, 1974. Applicant: WIKEL BULK EXPRESS, INC., R.D. #2, Huron, Ohio 44839. Applicant's representative: Robert E. Wikel (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boats, incidental materials and supplies* when moved on same trailer, from points in

Erie County, Ohio, to points in Michigan, Indiana, Kentucky, Illinois, New York, Pennsylvania, and West Virginia, for 180 days. Supporting shipper: Everett Fiberglass, Inc., 1305 Huron Avery Road, Huron, Ohio 44839. Send protests to: Keith D. Warner, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 313 Federal Office Building, 234 Summit Street, Toledo, Ohio 43604.

No. MC 125161 (Sub-No. 18 TA), filed December 6, 1974. Applicant: UNITED FREIGHTWAYS, INC., 671 Chestnut Street, North Andover, Mass. 01845. Applicant's representative: George C. O'Brien, 15 Court Square, Boston, Mass. 02108. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Limestone*, in bulk, in specially designed pneumatic self-unloading tank vehicles, from Adams, Mass., to North Leeds, Maine, for 180 days. Supporting shipper: Boston Feed Supply Corporation, 177 Milk Street, Boston, Mass. 02109. Send protests to: District Supervisor Max Gorenstein, Interstate Commerce Commission, Bureau of Operations, 150 Causeway Street, Boston, Mass. 02114.

No. MC 128007 (Sub-No. 7 TA), filed December 11, 1974. Applicant: BOYD TRUCKING CO., P.O. Box 577, Cottonwood, Calif. 96022. Applicant's representative: Marvin Handler, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and forest products*, between points in California except those in Butte and Inyo Counties, subject to the following restrictions: (1) No shipments shall be transported which originate at or are destined to points south of Woodland, Calif., except that shipments may be transported which originate at and are destined to points north and east of Stockton, Calif., including Stockton; (2) No service shall be performed between Montague, Callahan, and intermediate points; (3) No service shall be performed between points on U.S. Highway 101 north of Alton, on the one hand, and, on the other, points in San Francisco Bay; and (4) Carrier shall not transport any shipments of sawdust, wood shavings, wood chips, and wood pieces except when shipments thereof have a prior or subsequent movement by for-hire rail, motor, or water carrier, for 180 days.

NOTE.—Applicant will be available to interline with other carriers at any points served by it.

Supporting shipper: There are no supporting shippers. Send protests to: A. J. Rodrigues, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 450 Golden Gate Avenue, Box 36004, San Francisco, Calif. 94102.

No. MC 128831 (Sub-No. 7TA), filed December 10, 1974. Applicant: DIXON RAPID TRANSFER, INC., East River Road, Dixon, Ill. 61021. Applicant's representative: Robert H. Levy, 29 South LaSalle, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe and duct* used in heating, cooling, air conditioning and exhaust systems, and *materials and supplies* used in the installation thereof and *building construction wall sections and accessories and parts* used in the installation thereof, from the plant site of United Sheet Metal, Division of United McGill Corp. at Westerville, Ohio, to points in Nebraska, Indiana, and Iowa, for 180 days. Supporting shipper: United Sheet Metal Division of United McGill Corp, 200 E. Broadway, Westerville, Ohio 43081. Send protests to: District Supervisor Charles R. Nesmith, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1086, Chicago, Ill. 60604.

No. MC 135245 (Sub-No. 3TA), filed December 9, 1974. Applicant: BURGER'S EXPRESS, INC., doing business as BOULDER VALLEY TRANSFER, INC., P.O. Box 1365, Boulder, Colo. 80302. Applicant's representative: Ross F. Robbins (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cosmetics, toilet preparations, toilet articles;* and (2) *Equipment and supplies* used in connection with the commodities described in (1) under continuing contract with Avon Products, Inc. from points in Boulder County, Colo., to points in Colorado, for 180 days. Supporting shipper: Avon Products, Inc., 83rd & College, Kansas City, Mo. 64141. Send protests to: Roger L. Buchanan, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 2022 Federal Building, 1961 Stout Street, Denver, Colo. 80202.

No. MC 136023 (Sub-No. 3 TA), filed December 12, 1974. Applicant: WILLIAM L. SMITH, doing business as CIRCLE S. TRUCKING, 1308 S.W. Gamma Court, Pendleton, Oreg. 97801. Applicant's representative: Russell M. Allen, 1200 Jackson Tower, Portland, Oreg. 97205. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood residuals*, from points in Grant, Union and Umatilla Counties, Oreg., to points in Cowlitz County, Wash., for 180 days. Supporting shipper: Wakny, Inc., 5470 S.W. Arrowood Lane, Portland, Oreg. 97225. Send protests to: District Supervisor W. J. Huetig, Interstate Commerce Commission, Bureau of Operations, 114 Pioneer Courthouse, Portland, Oreg. 97204.

No. MC 139112 (Sub-No. 6 TA), filed December 6, 1974. Applicant: CALEX EXPRESS, INC., 149 Warden Avenue, Trucksville, Pa. 18708. Applicant's representative: Kenneth R. Davis, 999 Union Street, Taylor, Pa. 18517. IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

DECEMBER 18, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before January 2, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 43867 (Sub-No. E1), (Correction), filed May 6, 1974, published in the FEDERAL REGISTER November 26, 1974. Applicant: McALISTER TRUCKING COMPANY, P.O. Box 2214, 1610 East Scott St., Wichita Falls, Tex. 76307. Applicant's representative: Hardy McAlister (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (3) *Machinery, equipment, materials, and supplies*, used in or in connection with, the drilling of water wells, (b) between points in Texas, Oklahoma, Louisiana and points in New Mexico on, south, and east of a line beginning at the Texas-New Mexico State line and extending along U.S. Highway 56 to Springer, thence along U.S. Highway 85 to its intersection with the northern boundary of Mora County, thence along the northern boundary of Mora County to its intersection with the eastern boundary of Santa Fe County, thence along the eastern, northern, and western boundary of Santa Fe County to its intersection with Interstate Highway 25, thence along Interstate Highway 25 to its intersection with the northern boundary of Dona Ana County, thence along the western boundary of Dona Ana County to its intersection with the northern boundary of Luna County, thence along the northern and western boundary of Luna County to the International Boundary line between the United States and Mexico and points in Kansas on, south or east of a line beginning at the Kansas-Oklahoma State line and extending along U.S. Highway 56 to junction U.S. Highway 154, thence along U.S. Highway 154 to junction U.S. Highway 54, thence along U.S. Highway 54 to the junction Kansas Highway 96, thence along Kansas Highway 96 to junction Kansas Highway 39, thence along Kansas Highway 39 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Kansas Highway 57, thence along Kansas Highway 57 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 160, thence along U.S. Highway 160 to the Kansas-Missouri State line, on the one hand, and, on the other, points in Montana (points in Texas)*; (c) between points in Illinois, Indiana, and Kentucky on the one hand, and, on the other, St. Louis, Missouri, and points in Kansas, Oklahoma, New Mexico, Texas, Arizona, Colorado, Utah, and Wyoming (points in Kansas, Oklahoma, and Texas)*; and (d) between points in Texas, Oklahoma, Louisiana, New Mexico, and Kansas (points in Texas and Oklahoma); (9) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; (b) between points in Texas, Oklahoma, Louisiana, and points in New Mexico on, south, and east of a line beginning at the Texas-New Mexico State line and extending along U.S. Highway 56 to Springer, thence along U.S. Highway 85 to the northern boundary of Mora County, thence along the northern boundary of Mora County to its intersection with the eastern boundary of Santa Fe County, thence along the eastern, northern, and western boundary of Santa Fe County to its intersection with Interstate Highway 25, thence along Interstate Highway 25 to the northern boundary of Dona Ana County, thence along the western boundary of Dona Ana County to its intersection with the northern boundary of Luna County, thence along the northern and western boundary of Luna County to the International Boundary line between the United States and Mexico, and points in Kansas on, south, and east of a line beginning at the Kansas-Oklahoma State line and extending along U.S. Highway 56 to junction U.S. Highway 154, thence along U.S. Highway 154 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Kansas Highway 96, thence along Kansas Highway 96 to junction Kansas Highway 39, thence along Kansas Highway 39 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Kansas Highway 57, thence along Kansas 57 to junction U.S. Highway 69 to junction U.S. Highway 160, thence along U.S. Highway 160 to the Kansas-Missouri State line, on the one hand, and, on the other, points in Montana (points in Texas)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to clarify the territorial description in (3)(b) above, correct the gateways in (3)(c) above, include (3)(d), and to correct a destination highway number in (9)(b) above.

No. MC 52953 (Sub-No. E2) (Correction), filed May 3, 1974, published in the FEDERAL REGISTER November 27, 1974. Applicant: ET & WNC TRANSPORTATION CO., 132 Legion St., Johnson City, Tenn. 37601. Applicant's representative: H. M. Cook (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Delaware, New Jersey, and Pennsylvania within 35 miles of Philadelphia, Pa., and points in New Jersey within 35 miles of the New York, N.Y., commercial zone, on the one hand, and, on the other, points in Burke, Cleveland, McDowell, Polk, and Rutherford Counties, N.C., points in Gaston County, N.C., on and west of U.S. Highway 321, points in that part of Catawba County, N.Y., on and west of a line beginning at the northern Catawba County line and extending along North Carolina Highway 127 to junction North Carolina Highway 10, thence along North Carolina Highway 10 to the southern Catawba County line, and points in Caldwell County, N.C., on and west of a line beginning at the southern Caldwell County line and extending along U.S. Highway 321 to junction North Carolina Highway 18, thence along North Carolina Highway 18 to the western Caldwell County line. The purpose of this filing is to eliminate the gateways at Asheville and Swannanoa, N.C. The purpose of this correction is to clarify the destination territories.

No. MC 61403 (Sub-No. E46), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, (1) between points in Arkansas, on the one hand, and, on the other, points in Delaware, Maryland, New Jersey, North Carolina, and Virginia, (2) from points in Arkansas to points in Connecticut, Maine, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateway of Kingsport, Tenn.

No. MC 61403 (Sub-No. E2), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting. *Chemicals*, in bulk, in tank vehicles, (1) between points in Alabama, on the

one hand, and, on the other, points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, and West Virginia; and (2) from points in Alabama to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateway of Kingsport, Tenn.

No. MC 61403 (Sub-No. E17), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Chemicals*, in bulk, in tank vehicles, between points in Virginia on and south of U.S. Highway 250 beginning at the Virginia-West Virginia State line, thence to junction Interstate Highway 64, thence along Interstate Highway 64 to and including Newport News, on the one hand, and, on the other, points in Wisconsin (Kingsport, Tenn.)*; and (2) *Liquid chemicals*, in bulk, in tank vehicles, from points in Virginia to points in Oklahoma, points in North Dakota on and west of U.S. Highway 281 and on and east of U.S. Highway 85, and South Dakota on and east of U.S. Highway 85, Nebraska and Kansas (Kingsport, Tenn., Sheffield, Ala., and Marshall, Ill.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 61403 (Sub-No. E18), filed May 31, 1974. Applicant: The MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, (1) between points in Texas, on the one hand, and, on the other, points in Virginia and West Virginia, and (2) from points in Texas to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateway of Kingsport, Tenn.

No. MC 61403 (Sub-No. E19), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Chemicals*, in bulk, in tank vehicles, between points in Delaware, on the one hand, and, on the other, points in Indiana on and south of Indiana Highway 64, points in North Carolina on and west of U.S. Highway 221, points in South Carolina on and west of a line beginning at the South Carolina-North Carolina State line and extending along South Carolina Highway 18 to junction U.S. Highway 176, thence along U.S. Highway 176 to junction South Carolina Highway 121, thence along South Carolina Highway 121 to junction U.S. Highway 25, thence along U.S. Highway 25 to the South Carolina-Georgia State line (Kingsport, Tenn)*; and (2) *Chemicals* (except naval stores to Pensacola, Fla.), in bulk, in tank vehicles, from points in Delaware to points in Florida on and west of U.S. Highway 231, and Oklahoma (Kingsport, Tenn., and Sheffield, Ala.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 61403 (Sub-No. E22), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, (1) between points in Illinois on and south of U.S. Highway 36, on the one hand, and, on the other, points in Virginia, (2) between points in Illinois north of U.S. Highway 36, on the one hand, and, on the other, points in Virginia on, south, and east of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 33 to Harrisonburg, thence along U.S. Highway 11 to New Market, thence along U.S. Highway 211 to the Virginia State line-Washington, D.C. District line, and (3) between points in Illinois north of U.S. Highway 460, on the one hand, and, on the other, points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 25E to Newport, thence along U.S. Highway 411 to Sevierville, thence along U.S. Highway 441 to the Tennessee-North Carolina State line. The purpose of this filing is to eliminate the gateway of Kingsport, Tenn.

No. MC 61403 (Sub-No. E34), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Chemicals*, in bulk, in tank vehicles, (a) between points in Tennessee on, north, and east of a line beginning at the Kentucky-Tennessee State line and extending along Interstate Highway 75 to Knoxville, thence along U.S. Highway 70 to the North Carolina-Tennessee State line, on the one hand, and, on the other, points in Texas (Kingsport, Tenn.)*, (b) between points in Tennessee east of a line beginning at the Tennessee-Kentucky State line and extending along Interstate Highway 75 to Knoxville, thence along U.S. Highway 11 to Athens, thence along Tennessee Highway 39 to Englewood, thence along U.S. Highway 411 to Madisonville, thence along Tennessee Highway 68 to the Tennessee-Georgia State line, on the one hand, and, on the other, points in Wisconsin (Kingsport, Tenn.)*, (c) from points in Tennessee to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont (Kingsport, Tenn.)*, and (d) from points in Tennessee on and east of a line beginning at the Tennessee-Virginia State line and extending along U.S. Highway 25E to Newport, thence along U.S. Highway 25 to the Tennessee-North Carolina State line, to points in Oklahoma (Kingsport, Tenn., and Sheffield, Ala.)*; and (2) *Liquid chemicals*, in bulk, in tank vehicles, (a) from points in Tennessee on and east of U.S. Highway 27, to points in North Dakota on and east of U.S. Highway 85, and points in South Dakota, on and east of U.S. Highway 27 (Kingsport, Tenn., and Marshall, Ill.)*, and (b) from points in Tennessee on, east, and north of a line beginning at the Tennessee-Kentucky State line and extending along Interstate Highway 75 to Knoxville, thence along U.S. Highway 70 to the Tennessee-North Carolina State line, to points in Colorado east of U.S. Highway 85, points in Iowa, Kansas, and Nebraska (Kingsport, Tenn., and Marshall, Ill.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 61403 (Sub-No. E37), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except muriatic acid, caustic soda, and caustic potash), in bulk, in tank vehicles, (a) from points in North Carolina on and east of U.S. Highway 21 to points on and west of a line beginning at the Tennessee-Mississippi State line and extending along Tennessee Highway 22 to Union City, thence along Tennessee Highway 21 to the Tennessee-Kentucky State line, and (b) from points in that part of North Carolina bounded by a line beginning at the North Carolina-Tennessee State line and extending along U.S. Highway 23 to the North Carolina-Georgia State line, thence along the North Carolina-Georgia State line to U.S. Highway 21, thence along U.S. Highway 21 to the North Carolina-Virginia State line, thence along the North Carolina-Virginia State line to the point of beginning to points in Shelby County, Tenn. The purpose of this filing is to eliminate the gateways of Kingsport, Tenn., and Sheffield, Ala.

No. MC 61403 (Sub-No. E38), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Dry plastics*, in bulk, in tank and hopper-type vehicles, from the plant site of Foster Grant Co., at Peru, Ill., to points in Florida, Georgia, North Carolina, and South Carolina. The purpose of this filing is to eliminate the gateway of Jeffersonville, Ind.

No. MC 61403 (Sub-No. E41), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O.

Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from points in Illinois on and south of a line beginning at the Indiana-Illinois State line and extending along U.S. Highway 50 to Sandoval, thence along U.S. Highway 185 to Hillsboro, thence along Illinois Highway 16 to Litchfield, thence along U.S. Highway 66 to junction Illinois Highway 108, thence along Illinois Highway 108 to Kampsville, thence along Illinois Highway 96 to Hamburg, to points in Connecticut, Maine, Massachusetts, New Hampshire, and Rhode Island. The purpose of this filing is to eliminate the gateway of Kingsport, Tenn.

No. MC 61403 (Sub-No. E44), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from points in Mississippi, to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateway of Kingsport, Tenn.

No. MC 61403 (Sub-No. E39), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except muriatic acid, caustic soda, and caustic potash), in bulk, in tank vehicles, from points in Virginia, to points in that part of Tennessee bounded by a line beginning at the Tennessee-Mississippi State line, and extending along Tennessee Highway 22 to Union City, thence along Tennessee Highway 21 to the Tennessee-Kentucky State line, thence along the Tennessee-Kentucky State line to the Tennessee-Mississippi State line, thence along the Tennessee-Mississippi State line to the point of beginning. The purpose of this filing is to eliminate the gateway of Kingsport, Tenn., and Sheffield, Ala.

No. MC 61403 (Sub-No. 140), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from the plant site of Ashland Chemical Company, Division of Ashland Oil & Refining Company at or near Mapleton, Ill., to points in Louisiana south of a line beginning at the Louisiana-Texas State line and extending along U.S. Highway 190 to junction U.S. Highway 90, thence along U.S. Highway 90 to the Louisiana-Mississippi State line, and points in Texas on, east, and south of a line beginning at the Texas-Louisiana State line and extending along U.S. Highway 190 to Livingston, thence along U.S. Highway 59 to the International Boundary line between the United States and Mexico. Restricted against the transportation of (1) naval stores to De Quincy, La., (2) caustic potash and caustic soda to points in Louisiana. The purpose of this filing is to eliminate the gateway of Sheffield, Ala.

No. MC 83745 (Sub-No. E15), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities* generally requiring rigging, special equipment, or specialized handling (except articles requiring special vehicular equipment for over-the-road movements), between Zelienople, Pa., on the one hand, and, on the other, points in Ohio (except Mahoning County). The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 83745 (Sub-No. E16), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities* generally requiring rigging, special equipment, or specialized handling (except articles requiring special vehicular equipment), for over-the-road movement between Butler, Pa., on the one hand, and, on the other, points in Ohio beginning at the Ohio-Michigan State line and extending along Interstate Highway 75 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction Ohio Highway 31, thence along Ohio Highway 31 to junction Ohio Highway 736, thence along Ohio Highway 736 to junction Ohio Highway 161, thence along Ohio Highway 161 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Ohio Highway 60 to the Ohio-West Virginia State line. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 95540 (Sub-No. E803), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Georgia 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen fruits, frozen berries, and frozen vegetables*, from those points in North Carolina on and east of a line beginning at the North Carolina-Tennessee State line and extending along U.S. Highway 25/70 to its junction with U.S. Highway 25, thence along U.S. Highway 25 to the North Carolina-South Carolina State line, to points in California. The purpose of this filing is to eliminate the gateways of points in California.

No. MC 95540 (Sub-No. E805), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Washington Court House, Ohio, to points in California and Arizona, and those points in New Mexico on and west of a line beginning at the New Mexico-Texas State line and extending along Interstate Highway 25 to its junction with New Mexico Highway 44, thence along New Mexico Highway 44 to its junction with U.S. Highway 550, thence along U.S. Highway 550 to the New Mexico-Colorado State line. The purpose of this filing is to eliminate the gateway of Washington, Pa.

No. MC 95540 (Sub-No. E806), filed November 29, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, and meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from South Edmeston, N.Y., to points in Mississippi on and south of a line beginning at the Mississippi-Alabama State line and extending along U.S. Highway 78 to its junction with Mississippi Highway 6, thence along Mississippi Highway 6 to its junction with Mississippi Highway 9, thence along Mississippi Highway 9 to its junction with Mississippi Highway 330, thence along Mississippi Highway 330 to its junction with Mississippi Highway 32, thence along Mississippi Highway 32 to its junction with Mississippi Highway 1, thence along Mississippi Highway 1 to the Mississippi-Arkansas State line. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC 95540 (Sub-No. E807), filed November 29, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Charlotte and Concord, N.C., to points in Colorado, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateways of Gainesville, Ga., and points in Tennessee.

No. MC 95540 (Sub-No. E808), filed November 29, 1974. Applicant: WATKINS

MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Charlotte, and Concord, N.C., to those points in Tennessee on and west of a line beginning at the Tennessee-Georgia State line and extending along U.S. Highway 411 to its junction with Tennessee Highway 30, thence along Tennessee Highway 30 to its junction with Tennessee Highway 111, thence along Tennessee Highway 111 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to its junction with Tennessee Highway 56, thence along Tennessee Highway 56 to the Tennessee-Kentucky State line. The purpose of this filing is to eliminate the gateway of Gainesville, Ga.

No. MC 95540 (Sub-No. E809), filed November 29, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, and meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from South Edmeston, N.Y., to those points in Texas on and south of a line beginning at the Texas-Arkansas State line and extending along U.S. Highway 82 to its junction with Interstate Highway 35, thence along Interstate Highway 35 to its junction with U.S. Highway 380, thence along U.S. Highway 380 to its junction with Texas Highway 199, thence along Texas Highway 199 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC 106398 (Sub-No. E83), filed May 31, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings, complete, knocked down, or in sections and component parts, materials, supplies, and fixtures*, to points in Pennsylvania, Ohio, Indiana, Missouri, Kentucky, West Virginia, Virginia, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, and Arkansas, to points in Minnesota. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 107515 (Sub-No. E287), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats* (except liquid commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, (1) from points in North Carolina to points in Texas, that part of Arkansas on and south of a line beginning at the Arkansas-Mississippi State line, thence along U.S. Highway 82 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 271, thence along U.S. Highway 271 to the Arkansas-Oklahoma State line, that part of Oklahoma on and south of a line beginning at the Oklahoma-Arkansas State line, thence along U.S. Highway 271 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Muskogee Turnpike, thence along Muskogee Turnpike to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Kansas-Oklahoma State line, and that part of Kansas on and south of a line beginning at the Oklahoma-Kansas State line, thence along Interstate Highway 35 to Wichita, thence along Interstate Highway 35W to Salina, thence along U.S. Highway 81 to the Kansas-Missouri State line, (2) from points in that part of North Carolina on and south of U.S. Highway 29, to points in Oklahoma, (3) from points in that part of North Carolina on and east of U.S. Highway 15, to points in Arkansas, and (4) from points in that part of North Carolina on and east of North Carolina Highway 49, to points in that part of Kansas on and north of Interstate Highway 70, restricted against the transportation of traffic originating in points in Florida. The purpose of this filing is to eliminate the gateways of (1) any point that is both within 10 miles of Atlanta, Ga., and within the Atlanta Commercial Zone, as defined by the Commission (except Atlanta), and (2) Montgomery, Ala.

No. MC 107515 (Sub-No. E299), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen edible meats and frozen edible meat products*, from Covington, Ky., to points in that part of Mississippi on and south of U.S. Highway 84, that part of Louisiana on and south of a line beginning at the Louisiana-Mississippi State line, thence along U.S. Highway 84 to junction Louisiana Highway 28, thence along Louisiana Highway 28 to Alexandria, thence along U.S. Highway 165 to Lake Charles, thence along Interstate Highway 10 to the Louisiana-Texas State line, and that part of Texas on and south of a line beginning at the Texas-Louisiana State line, thence along Interstate Highway 10 to Houston, thence along U.S. Highway 290 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateway of Gainesville, Ga.

No. MC 119774 (Sub-No. E302), filed November 11, 1974. Applicant: EAGLE TRUCKING COMPANY, P.O. Box 471, Kilgore, Texas 75662. Applicant's representative: Nolan Killingsworth, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies*, used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by products, and *machinery, equipment, materials, and supplies*, used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; and (2) *Earth drilling machinery and equipment and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, between points in Wyoming, on the one hand, and, on the other, points in Kentucky. The purpose of this filing is to eliminate the gateways of Oklahoma and Arkansas.

No. MC 107515 (Sub-No. E301), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats*, as described in the report in *Modification of Permits—Packinghouse Products*, 46 M.C.C. 23, from Covington, Ky., to points in that part of Alabama on and south of Interstate Highway 59, that part of Mississippi on and south of a line beginning at the Mississippi-Alabama State line, thence along Interstate Highway 59 to Jackson, thence along Interstate Highway 55 to junction U.S. Highway 98, thence along U.S. Highways 98/84 to the Mississippi-Louisiana State line, that part of Louisiana on and south of a line beginning at the Louisiana-Mississippi State line, thence along U.S. Highway 84 to junction Louisiana Highway 28, thence along Louisiana Highway 28 to Alexandria, thence along Louisiana Highway 8 to the Louisiana-Texas State line. The

purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 107515 (Sub-No. E302), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen edible meats and frozen edible meat products* (except commodities in bulk, in tank vehicles), from Adairsville, Ky., to the District of Columbia, and points in Connecticut, Massachusetts, New Jersey, that part of Virginia on and east of Interstate Highway 95, that part of Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, thence along Interstate Highway 83 to York, thence along U.S. Highway 30 to Lancaster, thence along U.S. Highway 30 to junction Pennsylvania Highway 10, thence along Pennsylvania Highway 10 to Reading, thence along U.S. Highway 222 to junction Pennsylvania Turnpike, thence along Pennsylvania Turnpike to junction Interstate Highway 80, thence along Interstate Highway 80 to the Pennsylvania-New Jersey State line, that part of New York on and east of a line beginning at the New Jersey-New York State line, thence along U.S. Highway 209 to junction Interstate Highway 87, thence along Interstate Highway 87 to junction Pennsylvania Highway 74, thence along Pennsylvania Highway 74 to the New York-Vermont State line, restricted against transportation of traffic originating at Nashville, Tenn. The purpose of this filing is to eliminate the gateway of Rocky Mount, N.C.

No. MC 107515 (Sub-No. E313), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen meats and meat products* (except commodities in bulk, in tank vehicles), from the plant site of Iowa Beef Packers at or near Emporia, Kans., to points in Rhode Island, that part of Virginia on and east of a line beginning at the North Carolina-Virginia State line, thence along Interstate Highway 85 to junction Interstate Highway 95, thence along Interstate Highway 95 to the Virginia-District of Columbia Boundary line, that part of Connecticut on and east of a line beginning at Long Island Sound, thence along Connecticut Highway 9 to junction Interstate Highway 91, thence along Interstate Highway 91 to the Connecticut-Massachusetts State line, that part of Massachusetts on and east of a line beginning at the Connecticut-Massachusetts State line, thence along Interstate Highway 91 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction Interstate Highway 495, thence along Interstate Highway 495 to junction U.S. Highway 3, thence along U.S. Highway 3 to the Massachusetts-New Hampshire State line, that part of New Hampshire on and east of a line beginning at the New Hampshire-Massachusetts State line, thence along U.S. Highway 3 to junction Interstate Highway 93, thence along Interstate Highway 93 to junction New Hampshire Highway 101, thence along New Hampshire Highway 101 to junction Interstate Highway 95, thence along Interstate Highway 95 to the New Hampshire-Maine State line, and that part of Maine on and east of Interstate Highway 95. The purpose of this filing is to eliminate the gateway of Gatesville, N.C.

No. MC 107515 (Sub-No. E361), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from points in that part of Ohio on and north of a line beginning at Lake Erie, thence along U.S. Highway 6 to junction Interstate Highway 80/90, thence along Interstate Highway 80/90 to the Ohio-Indiana State line, to points in that part of Alabama on and south of a line beginning at the Georgia-Alabama State line, thence along U.S. Highway 80 to Montgomery, thence along Interstate Highway 82 to the Alabama-Mississippi State line, that part of Mississippi on and south of a line beginning at the Mississippi River, thence along Mississippi Highway 16 to junction Mississippi Highway 15, thence along Mississippi Highway 15 to junction Interstate Highway 20, thence along Interstate Highway 20 to the Mississippi-Louisiana State line, and that part of Louisiana on and south of Interstate Highway 20. The purpose of this filing is to eliminate the gateways of (1) Detroit, Mich., and (2) Columbus, Ohio.

No. MC 107515 (Sub-No. E362), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from Cleveland, Ohio, to points in that part of Louisiana on and south of a line beginning at the Gulf of Mexico, thence along Interstate Highway 10 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 71, thence along U.S. Highway 71 to Shreveport, thence along Interstate Highway 20 to the Louisiana-Texas State line, that part of Texas on and south of a line beginning at the Louisiana-Texas State line, thence along Interstate Highway 20 to Dallas, thence along Interstate Highway 35E to junction Interstate Highway 35, thence along Interstate Highway 35 to the Texas-Oklahoma State line, and that part of Oklahoma on and west of Interstate Highway 35. The purpose of this filing is to eliminate the gateways of (1) Detroit, Mich., and (2) Columbus, Ohio.

No. MC 107515 (Sub-No. E363), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd., NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from points in that part of Ohio on and north of a line beginning at the Pennsylvania-Ohio State line, thence along Interstate Highway 80 to Cleveland, thence along Ohio Highway 8 to Akron, thence along Interstate Highway 76 to junction U.S. Highway 42, thence along U.S. Highway 42 to Mansfield, thence along U.S. Highway 30N to junction U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Indiana State line, to points in that part of Florida on and south of a line beginning at the Atlantic Ocean, thence along Florida Highway 827 to Lake Okeechobee, thence along U.S. Highway 27 to junction Florida Highway 80, thence along Florida Highway 80 to junction Florida Highway 833, thence along Florida Highway 833 to junction Florida Highway 846, thence along Florida Highway 846 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of (1) Detroit, Mich., and (2) Columbus, Ohio.

No. MC 107515 (Sub-No. E365), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, from points in that part of Ohio on and north of a line beginning at the Ohio-Indiana State line, thence along U.S. Highway 36 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction U.S. Highway 30N, thence along U.S. Highway 30N to junction Ohio Highway 67, thence along Ohio Highway 67 to junction Ohio Highway 53, thence along Ohio Highway 53 to junction Ohio Highway 587, thence along Ohio Highway 587 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Ohio Highway 420, thence along Ohio Highway 420 to junction U.S. Highway 280, thence along U.S. Highway 280 to Lake Erie, to Buffalo, Rochester, and Syracuse, and points in Connecticut, Rhode Island, and Massachusetts. The purpose of this filing is to eliminate the gateway of Detroit, Mich.

No. MC 107515 (Sub-No. E367), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats and edible meat products* (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from Carey and New Riegel, Ohio, to points in that part of Mississippi on and south of a line beginning at the Alabama-Mississippi State line, thence along Mississippi Highway 16 to junction Mississippi Highway 492, thence along Mississippi Highway 492 to junction Mississippi Highway 15, thence along Mississippi Highway 15 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Louisiana-Mississippi State line, and that part of Louisiana on and south of a line beginning at the Louisiana-Mississippi State line, thence along Interstate Highway 20 to junction Louisiana Highway 888, thence along Louisiana Highway 888 to junction Louisiana Highway 4, thence along Louisiana Highway 4 to junction Louisiana Highway 155, thence along Louisiana Highway 155 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Texas-Louisiana State line, restricted to the transportation of traffic originating at the plant site and warehourse facilities of Riegel Provisions Co., at New Riegel and Carey, Ohio. The purpose of this filing is to eliminate the gateway of plant site of Commercial Code Storage, Inc., located at or near Doraville, Ga.

No. MC 107515 (Sub-No. E368), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen bakery products*, in vehicles equipped with mechanical refrigeration, from Cleveland, Ohio, to points in that part of Minnesota on and north of a line beginning at the Wisconsin-Minnesota State line, thence along Minnesota Highway 70 to junction Minnesota Highway 107, thence along Minnesota Highway 107 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 27, thence along Minnesota Highway 27 to junction Minnesota Highway 10, thence along Minnesota Highway 10 to the Minnesota-South Dakota State line, that part of Wisconsin on and north of a line beginning at the Michigan-Wisconsin State line, thence along U.S. Highway 41 to junction Wisconsin Highway 22, thence along Wisconsin Highway 22 to junction Wisconsin Highway 55, thence along Wisconsin Highway 55 to junction Wisconsin Highway 47, thence along Wisconsin Highway 47 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction U.S. Highway 53, thence along U.S. Highway 53 to junction Wisconsin Highway 70, thence along Wisconsin Highway 70 to the Minnesota-Wisconsin State line, and that part of Colorado on and west of a line beginning at the Colorado-Wyoming State line, thence along Colorado Highway 13 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Colorado Highway 65, thence along Colorado Highway 65 to junction Colorado Highway 92, thence along Colorado Highway 92 to junction U.S. Highway 550, thence along U.S. Highway 550 to the New Mexico-Colorado State line. The purpose of this filing is to eliminate the gateway of the plant site of Chef-Pierre, Inc., at Traverse City, Mich.

No. MC 107515 (Sub-No. E369), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except frozen fruits, frozen berries, and frozen vegetables), from points in that part of Ohio on and north of a line beginning at the Ohio-Michigan State line, thence along U.S. Highway 23 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Ohio Highway 18, thence along Ohio Highway 18 to Akron, thence along Interstate Highway 77 to Canton, thence along U.S. Highway 30 to the Ohio-Pennsylvania State line, to points in Oklahoma, Texas, and that part of Missouri on and north of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 54 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Missouri-Arkansas State line. The purpose of this filing is to eliminate the gateways of (1) Detroit, Mich., and (2) the plant site of Holloway House, Inc., at Lafayette, Ind.

No. MC 107515 (Sub-No. E371), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from points in that part of Ohio on and north of a line beginning at the Pennsylvania-Ohio State line, thence along Interstate Highway 90 to Cleveland, thence along Interstate Highway 71 to junction Ohio Highway 95, thence along Ohio Highway 95 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Ohio-Michigan State line, that part of Texas on and south of a line beginning at the Louisiana-Texas State line, thence along Interstate Highway 10 to Houston, thence along U.S. Highway 290 to junction with Interstate Highway 10, thence along Interstate Highway 10/U.S. Highway 290 to the International Boundary line between the United States and Mexico. The purpose of this filing is to eliminate the gateways of (1) Detroit, Mich., and (2) Columbus, Ohio.

No. MC 107515 (Sub-No. E372), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods*, in vehicles equipped with mechanical refrigeration, from Toledo, Ohio, to points in Florida, Louisiana, that part of North Carolina on and east of Interstate Highway 85, that part of South Carolina on and east of a line beginning at the North Carolina-South Carolina State line, thence along U.S. Highway 21 to junction Interstate Highway 20, thence along Interstate Highway 20 to the South Carolina-Georgia State line, that part of Georgia on and south of Interstate Highway 20, that part of Alabama on and south of a line beginning at the Georgia-Alabama State line, thence along Interstate Highway 20 to junction U.S. Highway 78, thence along U.S. Highway 78 to Birmingham, thence along Interstate Highway 20/159 to Tuscaloosa, thence along U.S. Highway 82 to the Alabama-Mississippi State line, that part of Mississippi on and south of U.S. Highway 82, that part of Arkansas on and south of a line beginning at the Mississippi-Arkansas State line, thence along U.S. Highway 82 to junction U.S. Highway 65, thence along U.S. Highway 65 to Little Rock, thence along Interstate Highway 40 to the Arkansas-Oklahoma State line, that part of Oklahoma on and south of Interstate Highway 40, and that part of Texas on and south of Interstate Highway 40, and (2) *Meats, meat products and meat by-products, dairy products, and articles distributed by meat packinghouses*, as described in the appendix to the report in *Modification of Permits—Packinghouse Products*, 46 M.C.C. 23, 48 M.C.C. 628 (except canned goods not requiring refrigeration), from Toledo, Ohio, to points in Georgia, Alabama, North Carolina, and South Carolina. The purpose of this filing is to eliminate the gateways of (1) Detroit, Mich., and (2) Columbus, Ohio.

No. MC 107515 (Sub-No. E429), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta,

Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products and dairy products*, as described in the Appendix to the report in *Modification of Permits—Packinghouse Products*, 46 M.C.C. 23, 48 M.C.C. 628, in vehicles equipped with mechanical refrigeration (except canned goods not requiring refrigeration), (a) from points in that part of Michigan on and east of a line beginning at the Michigan-Ohio State line, thence along U.S. Highway 23 to junction Interstate Highway 75, thence along Interstate Highway 75 to the International Boundary line between the United States and Canada, to points in that part of Mississippi on and south of Interstate Highway 20; and (b) from points in that part of Michigan on and east of a line beginning at the Michigan-Ohio State line, thence along U.S. Highway 127 to Lansing, thence along U.S. Highway 27 to junction Interstate Highway 75, thence along Interstate Highway 75 to the International Boundary line between the United States and Canada, to points in that part of Louisiana on and south of a line beginning at the Louisiana-Mississippi State line, thence along U.S. Highway 61 to Baton Rouge, thence along Interstate Highway 10 to Lafayette, thence along U.S. Highway 90 to the Mississippi-Louisiana State line. The purpose of this filing is to eliminate the gateways of (1) Columbus, Ohio, and (2) Atlanta, Ga.

No. MC 107515 (Sub-No. E430), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Atlanta, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except frozen fruits, frozen berries, and frozen vegetables); (a) from points in the Lower Peninsula of Michigan, to points in Missouri, Oklahoma, Texas, and points in that part of Kentucky on and north of a line beginning at the Kentucky-Indiana State line, thence along Interstate Highway 65 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Missouri-Kentucky State line; and (b) from points in that part of Michigan on and north of a line beginning at the Michigan-Indiana State line, thence along Interstate Highway 94 to junction U.S. Highway 27, thence along U.S. Highway 27 to Lansing, thence along Michigan Highway 78/21 to Flint, thence along Michigan Highway 78/21 to Lake Huron, to points in that part of Kentucky on and west of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 150 to Danville, thence along U.S. Highway 127 to the Kentucky-Tennessee State line, restricted to the transportation of traffic destined to the destination specified. The purpose of this filing is to eliminate the gateway of the plant site of Holloway House, Inc., at Lafayette, Ind.

No. MC 107515 (Sub-No. E431), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration; (a) from points in Michigan to points in Louisiana, that part of Tennessee on and east of U.S. Highway 127, that part of Mississippi on and south of a line beginning at the Mississippi-Alabama State line, thence along Mississippi Highway 12 to junction U.S. Highway 51, thence along U.S. Highway 51 to Jackson, thence along Interstate Highway 20 to the Mississippi-Louisiana State line; (b) from points in that part of Michigan on and east of a line beginning at the Michigan-Ohio State line, thence along U.S. Highway 127 to Lansing, thence along Interstate Highway 75 to the International Boundary line between the United States and Canada, to points in Tennessee and Arkansas; and (c) from points in that part of Michigan on and east of a line beginning at the Michigan-Indiana State line, thence along Michigan Highway 66 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Interstate Highway 75, thence along Interstate Highway 75 to the International Boundary line between the United States and Canada, to points in Mississippi. The purpose of this filing is to eliminate the gateway of Columbus, Ohio.

No. MC 107515 (Sub-No. E435), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree, Rd., NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk), in vehicles equipped with mechanical refrigeration, from South Hutchison, Kans., to the District of Columbia, and to points in Connecticut, Massachusetts, Ohio, Rhode Island, that part of Michigan on and east of a line beginning at the International Boundary line between the United States and Canada, thence along Interstate Highway 75 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Indiana-Michigan State line, and that part of Indiana on and east of a line beginning at the Indiana-Michigan State line, thence along Indiana Highway 15 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 31, thence along U.S. Highway 31 to Indianapolis, thence along Indiana Highway 37 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 150, thence along U.S. Highway 50/150 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Indiana-Kentucky State line, restricted (1) against the transportation of traffic destined to the facilities of Lorillard, a Division of Loew's Theatres, Inc., or its affiliates, and (2) to the transportation of traffic originating at South Hutchinson, Kans. The purpose of this filing is to eliminate the gateway of the plant site of Food Specialties of Kentucky, Division of Oscar Ewing, Inc., in Jefferson County, Ky.

No. MC 107515 (Sub-No. E439), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd., NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen meats and meat products* (except hides and commodities in bulk), from Wichita, Kans., to points in Maine, and that part of New Hampshire east of a line beginning at the Massachusetts-New Hampshire State line, thence along New Hampshire Highway 10 to Keene, thence along New Hampshire Highway 9 to Concord, thence along Interstate Highway 93 to junction New Hampshire Highway 104, thence along New Hampshire Highway 104 to junction New Hampshire Highway 25, thence along New Hampshire Highway 25 to the New Hampshire-Maine State line, restricted to the transportation of traffic originating at Wichita, Kans. The purpose of this filing is to eliminate the gateway of Gatesville, N.C.

No. MC 107515 (Sub-No. E440), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd., NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Arkansas City, Kans., to points in that part of South Carolina on and south of a line beginning at the Georgia-South Carolina State line, thence along Interstate Highway 20 to junction Interstate Highway 95, thence along Interstate Highway 95 to the North Carolina-South Carolina State line, and that part of North Carolina on and south of a line beginning at the North Carolina-South Carolina State line, thence along Interstate Highway 95 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction U.S. Highway 64, thence along U.S. Highway 64 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Tifton, Ala.

No. MC 107515 (Sub-No. E44), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen meats and meat products* (except

commodities in bulk, in tank vehicles), from the plant site of Farmland Foods, Inc., near Garden City, Kans., to the District of Columbia, and to points in Delaware, Rhode Island, Connecticut, New Hampshire, Maine, that part of Virginia on and east of a line beginning at the District of Columbia-Virginia Boundary line, thence along U.S. Highway 29 to Danville, thence along U.S. Highway 58 to South Boston, thence along U.S. Highway 360 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction Virginia Highway 45, thence along Virginia Highway 45 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 15, thence along U.S. Highway 15 to Culpepper, thence along U.S. Highway 29/211 to the Virginia-District of Columbia Boundary line, that part of Maryland on and east of Interstate Highway 94, that part of Pennsylvania on and east of U.S. Highway 1, that part of New Jersey on and east of a line beginning at the Delaware River, thence along U.S. Highway 1 to junction New Jersey Highway 18, thence along New Jersey Highway 18 to junction Interstate Highway 287, thence along Interstate Highway 287 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction New Jersey Highway 511, thence along New Jersey Highway 511 to the New Jersey-New York State line, that part of New York on and east of a line beginning at the New Jersey-New York State line, thence along Interstate Highway 87 to junction Interstate Highway 90, thence along Interstate Highway 90 to the New York-Massachusetts State line, and that part of Massachusetts on and east of U.S. Highway 70 and on and north of Interstate Highway 90, restricted to traffic originating the main plant site. The purpose of this filing is to eliminate the gateway of Gatesville, N.C.

No. MC 107515 (Sub-No. E442), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from Kansas City, Kans. (except points in the Missouri portion of the Kansas City, Kans.-Kansas City, Mo., commercial zone, as defined by the Commission), to points in that part of Virginia on and east of a line beginning at the North Carolina-Virginia State line, thence along U.S. Highway 220 to Roanoke, thence along U.S. Highway 221/460 to Bedford, thence along U.S. Highway 221 to Lynchburg, thence along U.S. Highway 29 to Warrenton, thence along U.S. Highway 29/211 to the District of Columbia-Virginia Boundary line, restricted against the transportation of traffic originating at points in the Missouri portion of the Kansas City, Mo.-Kansas City, Kans., commercial zone, as defined by the Commission. The purpose of this filing is to eliminate the gateway of the plant sites of Family Foods Inc., and Ambrosia Chocolate Company, Division of W. R. Grace & Co., at Charlotte, N.C.

No. MC 107515 (Sub-No. E454), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd., NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Kansas City, Mo., to points in that part of Louisiana on and south of a line beginning at the Gulf of Mexico, thence along Louisiana Highway 1 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Louisiana-Mississippi State line, that part of Mississippi on and south of a line beginning at the Mississippi-Louisiana State line, thence along U.S. Highway 51 to junction U.S. Highway 98, thence along U.S. Highway 98 to junction Mississippi Highway 42, thence along Mississippi Highway 42 to the Mississippi-Alabama State line, that part of Alabama on and south of a line beginning at the Alabama-Mississippi State line, thence along Alabama Highway 56 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Alabama Highway 52, thence along Alabama Highway 52 to junction Alabama Highway 27, thence along Alabama Highway 27 to the Alabama-Florida State line, and that part of Florida on and south of a line beginning at the Alabama-Florida State line, thence along Florida Highway 81 to junction Florida Highway 20, thence along Florida Highway 20 to junction U.S. Highway 331, thence along U.S. Highway 331 to junction U.S. Highway 98, thence along U.S. Highway 98 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateway of New Orleans, La.

No. MC 107515 (Sub-No. E455), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Unfrozen meat and meat products, from* Phelps City, Mo., to points in that part of Maryland on and south of a line beginning at the Chesapeake Bay, thence along Maryland Highway 16 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Maryland Highway 18, thence along Maryland Highway 18 to junction Maryland Highway 313, thence along Maryland Highway 313 to the Maryland-Delaware State line, and that part of Delaware on and south of a line beginning at the Maryland-Delaware State line, thence along Delaware Highway 11 to junction Delaware Highway 8, thence along Delaware Highway 8 to the Delaware Bay. The purpose of this filing is to eliminate the gateway of Gatesville, N.C.

No. MC 107515 (Sub-No. E456), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, (a) from Kansas City, and St. Joseph, Mo., to points in Florida and that part of Tennessee (except Memphis, Tenn., and points in the Memphis commercial zone as defined by the Commission), on and south of a line beginning at the Tennessee-Alabama State line, thence along Interstate Highway 65 to junction Tennessee Highway 96, thence along Tennessee Highway 96 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Tennessee-Kentucky State line; and (b) from St. Joseph, Mo., to Nashville, Tenn. The purpose of this filing is to eliminate the gateway of Booneville, Miss.

No. MC 107515 (Sub-No. E457), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen meats and meat products*, from Kansas City, Mo., to points in those parts of New Hampshire and Maine on and east of Interstate Highway 95, and that part of Massachusetts on and east of a line beginning at the Massachusetts-Rhode Island State line, thence along Massachusetts Highway 126 to junction Interstate Highway 495, thence along Interstate Highway 495 to junction Interstate Highway 95, thence along Interstate Highway 95 to the Massachusetts-New Hampshire State line. The purpose of this filing is to eliminate the gateway of Gatesville, N.C.

No. MC 107515 (Sub-No. E463), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen, fresh, and cured meats*, from points in Louisiana, to the District of Columbia

and points in Delaware, New Jersey, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, that part of Virginia on and east of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 29 to Lynchburg, thence along U.S. Highway 501 to junction Interstate Highway 81, thence along Interstate Highway 81 to the Virginia-Maryland State line, that part of Maryland on and east of Interstate Highway 81, and that part of Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, thence along U.S. Highway 220 to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line, and that part of New York on and east of New York Highway 14. The purpose of this filing is to eliminate the gateways of (1) any point that is both within 10 miles of Atlanta, Ga., and within the Atlanta, commercial zone as defined by the Commission (except Atlanta), and (2) Gatesville, N.C.

No. MC 107515 (Sub-No. E469), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, in containers, from New Orleans, La., to the District of Columbia, and to points in Vermont, New York, Connecticut, Massachusetts, Rhode Island, New Hampshire, Maryland, Maine, New Jersey, Delaware, that part of Virginia on and east of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 15 to junction U.S. Highway 522, thence along U.S. Highway 522 to the Virginia-West Virginia State line, and that part of Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, thence along U.S. Highway 219 to junction Pennsylvania Highway 56, thence along Pennsylvania Highway 56 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction Interstate Highway 79, thence along Interstate Highway 79 to Lake Erie. The purpose of this filing is to eliminate the gateways of (1) Atlanta, Ga., and (2) Gatesville, N.C.

No. MC 107515 (Sub-No. E470), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except commodities in bulk, in tank vehicles), from points in that part of Louisiana on and south of a line beginning at the Texas-Louisiana State line, thence along Louisiana Highway 8 to junction Louisiana Highway 28, thence along Louisiana Highway 28 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Louisiana-Mississippi State line, to points in that part of South Carolina on and east of a line beginning at the Georgia-South Carolina State line, thence along Interstate Highway 20 to Columbia, thence along U.S. Highway 21 to the South Carolina-North Carolina State line, and that part of North Carolina on and east of U.S. Highway 21. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC 110420 (Sub-No. E160), filed June 4, 1974. Applicant: QUALITY CARRIERS, INC., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Glycerin, soap stock, liquid soap and fatty acids, in bulk, in tank vehicles, from the plant site of Armour Company near Aurora, Ill., (1) to points in Minnesota, that part of Kansas in and west of Norton, Graham, Trego, Ness, Hodgeman, Edwards, Kiowa, and Comanche Counties, and that part of Iowa in and west of Winnebago, Hancock, Wright, Hamilton, Greene, and Audubon Counties (Milwaukee, Wis.)*; (2) to Baltimore, Md., and points in New Jersey, and Delaware (Janesville, Wis.)*; (3) to points in Colorado, Idaho, Montana, Utah, Wyoming, and that part of Nebraska on and west of U.S. Highway 281 (Janesville, Wis.)*; (4) to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut (Milwaukee, Wis., and Carpentersville, Ill.)*; (5) to points in Texas (Milwaukee, Wis., and Kankakee, Ill.)*; (6) to New Orleans, La. (Milwaukee, Wis)*; (7) to points in South Carolina, that part of North Carolina in and east of Ashe, Wataug, Caldwell, Burke, and Cleveland Counties, that part of Virginia in and east of Augusta, Rockbridge, Bedford, Franklin, and Patrick Counties, that part of New York in and east of Wayne, Cayuga, Tompkins, and Chemung Counties, and that part of Pennsylvania in and east of Bradford, Sullivan, Columbia, Schuylkill, Dauphin, and York Counties (Janesville, Wis., and Carpentersville, Ill.)*; and (8) to points in that part of Georgia in and south of Toccoa, Homer, Jackson, Gwinnett, Rosewell, DeKalb, Coweta, Heard, and Smyrna Counties (Janesville, Wis.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113843 (Sub-No. E814), (Correction), filed May 19, 1974, published in the FEDERAL REGISTER September 24, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Marysville, Pa., to that portion of New Hampshire on and north of a line beginning at the New Hampshire-Vermont State line and extending along U.S. Highway 4 to junction New Hampshire Highway 118, thence along New Hampshire Highway 118 to junction New Hampshire Highway 25, thence along New Hampshire Highway 25 to the New Hampshire-Maine State line. The purpose of this filing is to eliminate the gateway of Syracuse, N.Y. The purpose of this correction is to correct a typographical error.

No. MC 113843 (Sub-No. E517), (Correction), filed May 23, 1974, published in the FEDERAL REGISTER August 5, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Moosic, Pa., to points in Oklahoma. The purpose of this filing is to eliminate the gateway of Dundee, N.Y. The purpose of this correction is to correct a typographical error.

No. MC 113843 (Sub-No. E524), (Correction), filed May 23, 1974, published in the FEDERAL REGISTER August 5, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Moosic, Pa., to points in Wisconsin. The purpose of this filing is to eliminate the gateway of LeRoy, N.Y. The purpose of this correction is to correct a typographical error.

No. MC 113843 (Sub-No. E518), (Correction), filed May 23, 1974, published in the FEDERAL REGISTER August 5, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Moosic, Pa., to points in Illinois. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. The purpose of this correction is to correct a typographical error.

No. MC 113843 (Sub-No. E839), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER October 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Marysville, Pa., to points in that portion of Vermont on and north of a line beginning at the Vermont-New Hampshire State line and extending along Interstate Highway 89 to junction Vermont Highway 107, thence along Vermont Highway 107 to junction Vermont Highway 100, thence along Vermont Highway 100 to junction Vermont Highway 73, thence along Vermont Highway 73 to junction

Vermont Highway 73A, thence along Vermont Highway 73A to Lake Champlain. The purpose of this filing is to eliminate the gateway of Syracuse, N.Y. The purpose of this correction is to correct a typographical error.

No. MC 113843 (Sub-No. E912), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER November 4, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, between points in that part of Michigan on, and south, and east of a line beginning at the Detroit River and extending along Michigan Highway 39 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Michigan Highway 60, thence along Michigan Highway 60 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Michigan-Ohio State line, on the one hand, and, on the other, points in Salem County, N.J. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. The purpose of this correction is to indicate complete destination territory.

No. MC 115331 (Sub-No. E13) (Correction), filed May 6, 1974, published in the FEDERAL REGISTER November 21, 1974. Applicant: TRUCK TRANSPORT INC., 230 St. Clair Ave., East St. Louis, Ill. 62201. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, in bulk (except lime used for agricultural purposes), from Limedale, Ark., to points in Florida, Georgia, North Carolina, and South Carolina. The purpose of this filing is to eliminate the gateways of St. Genevieve, St. Louis, Kansas City, and Hannibal, Mo., and Adams County, Ill. The purpose of this correction is to clarify the destination territories.

No. MC 115603 (Sub-No. E6), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, materials, equipment, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof (except the stringing or picking up of pipe in connection with main or trunk pipelines); (2) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, between points in Kansas, on the one hand, and, on the other, points in Mississippi. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E7), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., PO. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies, and equipment* incidental to, or used in the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; and (2) Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, between points in Colorado, on the one hand, and, on the other, points in Texas on and east of a line beginning at the New Mexico-Texas State line and extending along Texas Highway 2290 to its junction with Texas Highway 214, thence along Texas Highway 214 to its junction with Texas Highway 145, thence along Texas Highway 145 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to its junction with Texas Highway 305, thence along Texas Highway 305 to its junction with U.S. Highway 290, thence along U.S. Highway 290 to its junction with Texas Highway 163, thence along Texas Highway 163 to its junction with US. Highway 90, thence along U.S. Highway 90 to its junction with U.S. Highway 277, thence along U.S. Highway 277 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E8), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, materials, equipment, and supplies used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (2) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) Earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, between points in Texas, on the one hand, and, on the other, points in Wyoming. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E9), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Oklahoma 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, (1) between points in Texas, on the one hand, and, on the other, points in Arkansas on and north of a line beginning at the Arkansas-Oklahoma State line and extending along Arkansas Highway 32 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Arkansas Highway 27, thence along Arkansas

Highway 27 to its junction with Arkansas Highway 26, thence along Arkansas Highway 26 to its junction with Arkansas Highway 8, thence along Arkansas Highway 8 to its junction with Arkansas Highway 46, thence along Arkansas Highway 46 to its junction with U.S. Highway 270, thence along U.S. Highway 79 to its junction with U.S. Highway 49, thence along U.S. Highway 49 to the Arkansas-Mississippi State line, (2) between points in Arkansas, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 259 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with Texas Highway 24, thence along Texas Highway 24 to its junction with U.S. Highway 380, thence along U.S. Highway 380 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to its junction with Interstate Highway 635, thence along Interstate Highway 635 to its junction with Interstate Highway 35E, thence along Interstate Highway 35E to its junction with Interstate Highway 35, thence along Interstate Highway 35 to its junction with U.S. Highway 84, thence along U.S. Highway 84 to its junction with Texas Highway 116, thence along Texas Highway 116 to its junction with U.S. Highway 190, thence along U.S. Highway 190 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to its junction with Texas Highway 29, thence along Texas Highway 29 to its junction with Texas Highway 16, thence along Texas Highway 16 to its junction with Texas Highway 27, thence along Texas Highway 27 to its junction with Texas Highway 41, thence along Texas Highway 41 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 57, thence along U.S. Highway 57 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115003 (Sub-No. E11), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Oklahoma 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials*, and *supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, materials, equipment, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipelines; (2) *Machinery, equipment, materials*, and *supplies*, used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, between points in New Mexico, on the one hand, and, on the other, points in Illinois. The purpose of this filing is to eliminate the gateways of points in Texas, Oklahoma, and Kansas.

No. MC 119988 (Sub-No. E26), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under Section 203(b)(7) of the Act when transported in mixed loads with printed advertising matter, from the facilities of the Oklahoma Publishing Co., Web Offset Division, at or near Oklahoma City, Okla., to points in California (except San Francisco), north of a line beginning at the California-Arizona State line, and thence along Interstate Highway 40 to junction California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction California Highway 46, thence along California Highway 46 to the Pacific Ocean. The purpose of this filing is to eliminate the gateway of Ringgold, Calif.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLE ENGINES

Recall Procedures

V 39 N 247 DEC 23 74 XUM

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 275-2]

PART 85—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Subpart S—Recall Regulations

On March 25, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER, (39 FR 11103), concerning the proposal to establish a new Subpart (S) in Part 85 of Title 40 to provide procedures for conducting recalls pursuant to section 207(c)(1) of the Clean Air Act. Interested persons were given until May 24, 1974, to submit written comments on the proposal and such comments were received from American Motors, Chrysler, Ford, General Motors, International Harvester, Volkswagen, Volvo, Fiat, White, Motor Vehicle Manufacturers Association, Engine Manufacturers Association, Motor and Equipment Manufacturers Association, Specialty Equipment Manufacturers Association, Caterpillar Tractor, Cummins Engine, Mack Truck, Automobile Importers of America, Public Interest Research Group, State of Maryland, and Western Union.

Explanatory statement. Section 207(c)(1) of the Clean Air Act provides that "if the Administrator determines that a substantial number of any class or category of vehicles or engines, although properly maintained and used, do not conform to the regulations prescribed under section 202, when in actual use throughout their useful life * * * he shall require the manufacturer to submit a plan for remedying the nonconformity * * *." The manufacturer may request a public hearing to contest the Administrator's determination of nonconformity. Unless, as a result of such hearing, the determination is withdrawn, the manufacturer must give dealers, ultimate purchasers, and subsequent purchasers notice of the nonconformity. Section 207(c)(2) authorizes the Administrator to promulgate regulations to prescribe the content of the notification and the manner in which it is given. Section 208(a) authorizes the Administrator to require the manufacturer to establish and maintain such records and to make such reports as are necessary to ensure that the manufacturer is in compliance with Title II, Part A of the Act and applicable regulations thereunder.

Without an * adequate regulatory scheme, the effectiveness of any recall will be diminished by the delays which accompany *ad hoc* decision and policy making. These delays are contrary to the interest of the public, the environment, and the Agency and should be avoided. To this end, I am promulgating the following regulations to implement the statutory requirements of the Clean Air Act. These regulations are contained in six major sections:

1. Section 85.1802 describes the notification to be sent by the Administrator to a manufacturer of vehicles or engines against whom a determination of nonconformity has been lodged. The notification will include a description of each class or category of vehicles or engines subject to the determination of nonconformity as well as the factual basis for the determination. Finally the manufacturer will be given a date by which he is to submit a plan to remedy the nonconformity.

2. Section 85.1803 describes the Remedial Plan. The regulations require the manufacturer, upon notification by the Administrator that a nonconformity exists, to submit descriptions of the proposed repairs, alterations, or modifications he intends to use to correct the nonconformity, the method by which owners of the nonconforming vehicles or engines will be identified, and the procedure which owners must follow to have their vehicles remedied. The regulations further require the manufacturer to describe any conditions upon which eligibility for repair is premised.

The regulations also address the obligations of a manufacturer subject to a recall in regard to the notification of purchasers. Notification of vehicle or engine owners will usually be by first class mail. A copy of the notification must be included in the plan. To increase the efficiency of the notification process, a manufacturer must use all reasonable means necessary to locate ultimate and subsequent purchasers.

Under the regulations, each vehicle or engine which participates in the recall campaign (i.e., inspection for repair followed by repair if necessary or repair without inspection), will have a decal affixed in the engine compartment in proximity to the emission label or in such other location as approved by the Administrator.

3. Section 85.1804 provides for the approval of the remedial plan by the Administrator and for the implementation of the plan by the manufacturer. Under the regulations, the manufacturer will receive written notice that the remedial plan has been approved or disapproved. Upon receipt of notice that the plan has been approved the manufacturer is to commence implementation of the plan.

One aspect of implementation is the notification of vehicle or engine owners. The regulations provide that when no public hearing is requested to challenge the determination of nonconformity, consumer notification is to commence within 15 working days of the receipt of the Administrator's approval of the remedial plan. If a hearing is held, unless the Administrator withdraws his determination of nonconformity, the Administrator will, within 60 days of the completion of the hearing, order the manufacturer to commence prompt notification of vehicle and engine owners.

4. Section 85.1805 describes the contents of the notification to be sent to vehicle or engine owners. The section requires the manufacturer to explain to the vehicle or engine owner most of what is contained in the remedial plan. Besides describing the procedural aspects of obtaining correction of the nonconformity, the notification will inform the vehicle or engine owner of the adverse effects, if any, that an uncorrected nonconformity may have on performance, driveability, and the functioning of other engine components. Owners will be warned that failure to correct the nonconformity may cause vehicles to fail an emission inspection, if required by State or local law. In addition, a vehicle or engine owner will be cautioned that by not participating in the recall campaign, he may have failed to have properly maintained his vehicle or engine which could cause him to be ineligible for free repair under his emissions warranty or a future recall campaign.

These warnings are designed to improve the response to the recall campaign by encouraging vehicle and engine owners to seek correction of the nonconformity as well as to give vehicle and engine owners important information concerning the mechanical condition of their vehicles or engines and the legal impact of the failure to obtain correction of the nonconformity.

5. Section 85.1806 describes the records which a manufacturer must keep and the reports he must make of the recall campaign. From this data, the Administrator will be able to evaluate the success of the recall campaign and determine whether a subsequent notification will be required.

6. Section 85.1807 describes the procedures which will be followed in the event that the manufacturer requests a public hearing to contest the Administrator's finding of nonconformity. The hearing is designed to conform with the requirements of the Administrative Procedure Act, 5 U.S.C. 551–9, and 701–6, as amended. Under the regulations, party status is afforded the contesting manufacturer, the Agency, and interveners. Any member of the public may petition to intervene. If the presiding officer determines that certain criteria are met, the petition will be granted. The criteria are designed to test the petitioner's interest in the proceeding. In this manner, effective public participation can be provided without sacrificing the concomitant public interest in an expedited hearing.

Comments received. (In the discussion to follow, section numbers are referenced to the proposed regulations unless otherwise noted.)

I. ISSUES

A. ISSUES RAISED IN ORIGINAL PROPOSAL

In the preamble to the proposed regulations, two major concerns were indentified: (1) The formality required by the public hearing requirement of section 207(c)(1) of the Act; and, (2) the viability of the decal and certificate program to be implemented as part of the remedial plan.

1. *Public hearings.* The question of the nature of the public hearing required by the recall provisions of the Act was resolved in favor of formal hearings to be governed by the requirements of the Administrative Procedure Act (herein,

APA), 5 U.S.C. 554 et seq (1970). Although comments were received concerning the content of the procedures (discussed below), the conclusion that section 207(c)(1) should be read to require a formal APA hearing was not challenged and the formal nature of the proceedings has been retained for final promulgation.

2. *Decal and certificate programs.* Under the proposed regulations, each vehicle brought to a repair facility in response to notification would have a decal affixed to one of the non-movable inside glass surfaces. In addition vehicle owners would receive a recall campaign certificate. Some owners of recalled vehicles may not be eligible for free remedial repair (e.g., the vehicle was not properly maintained and used) but the decal and certificate would still be issued if the vehicle were brought to the appropriate repair facility.

The purpose of the decal and certificate programs was to complement state inspection programs by allowing identification of those vehicles which had complied with the recall notification and those which had not. As proposed, every vehicle presented for repair would have a decal applied and the vehicle owner would have received a certificate regardless of whether any remedial action had been taken. The conditioning of the issuance of the decal and certificate on actual repair was rejected in the original proposal on the basis that to do so might deter some states from utilizing them.

The force of the criticism was directed at two points: (a) The decal should be conditioned on actual participation in the recall campaign (i.e., inspection for repair followed by repair if necessary or repair without inspection); and (b) the certificate should be dropped as it was redundant and served no independent function.

In view of the lack of response from states concerning the program (only Maryland commented), and in consideration of the comments of vehicle manufacturers, the final regulations reflect the substance of these comments. The certificate provision has been dropped altogether. The decal, as suggested, will be affixed only to those vehicles or engines actually receiving remedial action. It should be noted that remedial action is constituted either of remedial repair or merely inspection for repair if no repair is needed. As the decal provision is intended to aid state inspection programs, those vehicles or engines inspected for repair but not requiring repair must be distinguished from those which were not involved in the recall campaign in any way.

The regulations provide for the issuance of a decal only upon actual participation in the recall campaign. Where an owner is found ineligible for the remedial action because of a failure to properly maintain or use his vehicle or engine, no decal would be issued. States which utilize the decal for inspection programs may desire to establish procedures by which those who are ineligible for remedial action and who obtain the proper service at their own expense can demonstrate effective compliance with the recall campaign for inspection purposes.

Additional comments were directed at the location of the decal itself and the majority favored locating the decal in the engine compartment. The location of the decal on the glass surface, it was suggested, would risk removal by owners and loss due to glass breakage, and was complicated by state laws regulating window obstructions. The location of the decal in the engine compartment, on the other hand, would not subject the decal to the same degree of risk of destruction and is not regulated by state law.

As part of the arguments to drop the certificate, several manufacturers suggested that the VIN number could be included in the decal to insure that decals are not transferred.

The final regulations thus require the decal to contain the vehicle or engine identification number and provide for installation in the engine compartment.

B. OTHER ISSUES RAISED BY PUBLIC COMMENTS

The comments to the proposed regulations raised three major issues not previously addressed in the regulations themselves or the supporting documents: (1) The division of responsibility for the recall plan and the subsequent recall campaign of heavy duty vehicles when the engine and the vehicle in which it is installed are produced by different manufacturers (i.e., the multiple manufacturer problem); (2) the impact of the recall regulations on aftermarket part manufacturers and independent service facilities; and (3) the ability of foreign manufacturers to comply with the time limits specified in various sections of the regulations. A fourth class of comments demonstrated concern over the lack of definitions for the terms "substantial number" and "class or category."

1. *Multiple manufacturers.* Analysis of the issues surrounding the recall of heavy duty vehicles when the engine and vehicle manufacturer are not the same has lead EPA to the conclusion that the burden of the recall campaign must be with the manufacturer (vehicle or engine) at fault. Thus, the issuance of the notification of nonconformity to a manufacturer would implicitly allege that the manufacturer is responsible as the sole cause of the nonconformity. The other manufacturer(s) would not be liable in any way to EPA for correcting the nonconformity and any necessary assistance would be a matter for agreement between the parties.

The heavy duty manufacturers urged that the final regulations delineate the lines of responsibility between vehicle and engine manufacturers. To determine the duties of each manufacturer in advance of an actual recall would, however, ignore the general principle that liability should be based in fault. No formalized demarcation of the responsibilities of the various manufacturers in a recall of a vehicle not produced by a single manufacturer could be fair in all cases. The most equitable solution to this problem is to handle each case on its own merits. For these reasons, no attempt has been made to define the roles of vehicle and engine manufacturers in the regulations.

2. *Impact on the aftermarket parts and independent service industries.* The comments also raised the question of the anticompetitive impact of the regulations on the aftermarket parts and independent service industries.

Section 85.1803(a)(4) requires a manufacturer against whom a recall order is lodged to describe "the proper maintenance and use, if any, upon which the manufacturer conditions eligibility for repair under the remedial plan, * * * (provided that no) such condition may be imposed unless it is, in the judgment of the Administrator, demonstrably related to preventing the nonconformity." It was suggested that the provision be modified to ensure that use of aftermarket parts could not be used to deny eligibility for remedial action per se. Although it is unlikely that a blanket prohibition of the use of aftermarket parts could satisfy the proviso of the condition (quoted above), the suggested modification serves to avoid any future argument over this issue and has therefore been adopted in the final regulations. It should be noted that the owner notification letter (as described in § 85.1805 sections (a)(3) contains a statement as to the proper maintenance requirements to be imposed on vehicle or engine owners. The language of this provision has also been changed in response to the comments of the aftermarket parts industry.

It was also contended that § 85.1803 (a)(5) was anti-competitive in that it restricts the performance of the repair to agents of the manufacturer. It was argued that unless special knowledge is needed to perform the repair, a vehicle or engine owner should be allowed to have the nonconformity corrected at any facility of their choice. The difficulty with this argument is that the Act requires a manufacturer to remedy the nonconformity. The legislative history provides no basis for requiring the vehicle or engine manufacturer to pay for recall work done by service facilities in general as opposed to franchised dealers or authorized agents. Of course, if the unlikely circumstance arose that special service not available from agents of the manufacturer was necessary to remedy the nonconformity, the Agency could require the manufacturer to utilize such service. However, the manufacturer will be able to remedy the vast majority of the recalls through his own agents. Since manufacturers have traditionally been allowed to specify who would perform recall (and warranty) work, no adequate justification exists for changing the status quo.

3. *Foreign manufacturers.* Another issue raised by the comments not originally addressed by the proposed regulations concerns the ability of foreign manufacturers to comply with the various time limits specified in the regulations. The major deadlines are: (a) The date for

submission of the remedial plan; (b) the date by which notification of owners should commence; (c) the dates for submission of quarterly reports; and (d) the time allowed for a request for a public hearing. All of these provisions allow for the exercise of discretion on the part of the Administrator (either in setting the date or in extending it). The concern of foreign manufacturers is understandable but the flexibility of the regulations would seem to answer these concerns and no changes in regard to these comments have been made.

4. *Need for definitions.* Manufacturers also criticized the policy decisions not to define "substantial number" and "class or category" as those phrases are used in section 207(c)(1) of the Act. The definition of these terms is not necessary to the exercise of the recall authority granted by the Clean Air Act. Although it may be argued that formal definitions could simplify the issues of any recall hearing (and thereby expedite the hearing), until the full impact of such definitions on other programs is understood, rulemaking in these areas should be postponed.

II. Specific Provisions

A. Notice to the Manufacturer

Section 85.1802 of the proposed regulations was designed to afford a manufacturer notice that a determination of nonconformity had been lodged against him and to provide the manufacturer the basis for the determination. A manufacturer was also to be given at least 30 days in which to submit a remedial plan.

Criticism of this provision was aimed at the lack of specificity as to the information to be given a manufacturer concerning the determination of nonconformity and the 30 day period allowed for submission of a remedial plan.

The detail of the explanation of the factual basis of the Administrator's recall decision to be given to a manufacturer is, of course, an important consideration. A manufacturer will probably base his decision to request a public hearing in large part on the data provided by the EPA. It is in the interest of the agency to avoid such hearings when possible and it is therefore in the Agency's interest to provide sufficient information to a manufacturer to convince him that the determination is sound. The general statement of § 85.1802 that the manufacturer will be given the factual basis for the determination of nonconformity encompasses any statistical analysis and data used in making the determination (not previously provided the manufacturer by the EPA). For this reason, the general language of the provision has not been changed.

The provision also called for the submission of a remedial plan on or before a date designated by the Administrator which date was to be no sooner than thirty days after the receipt by the manufacturer of the notice of nonconformity. Section 85.1803(c) allowed the manufacturer to obtain an extension upon good cause shown. The objections of the manufacturers to the thirty days language was that thirty days is not sufficient time in which to devise a remedy to the nonconformity and prepare a remedial plan. The thirty day period was intended to be a minimum period. The actual deadline for the submission of the remedial plan would be determined only after evaluation of the particular cause of the nonconformity, the technological problems involved in remedying the nonconformity, and the time needed for devising a workable plan to apply the remedy to vehicles or engines in the field. The time imposed on foreign manufacturers would also reflect any delay expected because of overseas mail service. Furthermore, a manufacturer could request an extension if the time allocated for the remedial plan is not sufficient.

Despite the obvious flexibility of the provision, the 30 day period has been extended to 45 days in order to make the remedial plan deadline consistent with the amended provision governing requests for public hearings.

B. Remedial Plan

Section 85.1803 describes the Remedial Plan. The proposed regulations would require the manufacturer, upon notification by the Administrator that a nonconformity exists, to submit descriptions of the repairs, alterations, or modifications he intends to use to correct the nonconformity, the method by which owners of the nonconforming vehicles or engines would be identified, and the procedure which owners must follow to have their vehicles remedied. The proposed regulations would also require the manufacturer to describe any conditions upon which eligibility for repair was premised.

Section 85.1803 also addressed the obligations of a manufacturer subject to a recall in regard to the notification of purchasers. Notification to ultimate and subsequent purchasers was required to be in writing and a copy of the notification was to be included in the plan. The decal and certificate programs (discussed above) were also described in the section.

The comments to the requirements of § 85.1803 can be grouped into four general classifications: (1) Those aimed at the provisions concerning the design and testing of the remedial repair; (2) those aimed at the notification of vehicle or engine owners; (3) those directed to the actual conduct of the campaign; and (4) the comments aimed at the information needed by the EPA to evaluate the manufacturer's plan.

1. *Remedial repair.* The proposed regulations, pursuant to subparagraph (a)(2) of § 85.1803, required a manufacturer to submit "a description of the specific modification, alterations, repairs, (etc) * * *" to be used to remedy the nonconformity and a summary of technical information which supports the decision to use the particular remedy. Section 85.1803(a)(8) required the remedial plan to include a statement "that an adequate supply of parts would be available to perform" the remedial repair. Paragraph (f) of this section allowed the Administrator to require the manufacturer to conduct tests incorporating the remedial repair according to procedures specified by the Administrator.

The comments reflect a concern on the part of manufacturers that these provisions could be burdensome in application, especially when (under § 85.1802) a manufacturer might be given only 30 days in which to submit the remedial plan.

Because the factors of each recall determination will not be the same, the regulations provide the Administrator with flexibility in determining the time allowed a manufacturer to submit a remedial plan (some of the considerations involved in determining this deadline are discussed above). Although the potential for abuse can be said to exist, the regulations themselves are not inherently burdensome and the possibility of unfairness in their application is justified by the flexibility they provide the Agency to deal with the variables of recall.

As part of the evaluation of the remedial plan, it is important to know how the manufacturer will ensure that the parts to conduct the remedial repair will be available. As proposed, the regulations did not require notice of the date by which parts would be available but only a statement that they would be available. The analysis of the criticism of this provision revealed further deficiences in its scope. For this reason, the final regulations require not only a description of when parts will be available but information concerning the quantity of parts designated for initial shipment and the method to be used to ensure that the supply of parts is both adequate and responsive to owner demand.

Concern was also expressed with the broad authority of the Administrator to require testing of the manufacturer's remedy pursuant to § 85.1803(f). It should be pointed out that the testing under this provision would not always be required and in any case would not interfere with the initial submission of the remedial plan. The question here is the extent to which the discretion granted by the provision is necessary to the purpose of the provision. As the authority reflected by paragraph (f) would be exercised when doubt exists as to the effectiveness of the remedy, it is the need for data which is the essence of the requirement. In response to these comments, the provision has been modified to limit the discretion of the Administrator in this case to requiring tests "reasonably designed to demonstrate" the effectiveness of a remedy.

2. *Consumer notification.* The second classification of comments identified above represents those aimed at consumer notification. As a matter of editorial comment, it was pointed out that the phrase "ultimate and subsequent purchasers (if known)" was confusing in that the phrase taken literally would include the owner of record and the original purchaser (who may no longer be the owner of record). In order to avoid this confusion, it was suggested that the phrase "vehicle or engine owner" be used in its place. This suggestion has been

adopted. It should be emphasized that this change cannot be interpreted to relieve the manufacturer of taking positive action to identify and notify subsequent purchasers.

The substantive objections were made in regard to paragraph (b) of § 85.1803 which required: (1) Notification of owners to be made in writing and "by certified mail or such other means as approved by the Administrator" and (2), that a manufacturer use all reasonable means necessary to locate owners "provided that the Administrator may require the manufacturer to use motor vehicle registration lists as available from state or commercial sources * * *." These comments raised questions concerning the effectiveness of certified mail and commercial and state sources for owner notification purposes. Although much of this reaction can be viewed as economic in origin, there is merit in the criticisms, especially that directed toward vehicle registration lists.

Presently, safety related notifications handled by the NHTSA are made by certified mail as required by statute. The NHTSA experience would appear to oppose the manufacturers' argument that certified mail is "ineffective" but the data that is available tends to support the contention that first class mail is at least as effective as certified mail in reaching owners. The requirement that the initial notification always be made by certified mail has therefore been dropped. Certified mail may, however, be required when warranted by good cause.

The possible use of registration lists to locate vehicle or engine owners was emphatically denounced. A number of manufacturers described the inadequacies and costs of such sources in detail. It should be noted that §.85.1804 (describing the owner notification) requires a manufacturer to include a card in the owner notification letter on which the letter recipient can note that the vehicle or engine has been sold and the address of the purchaser. In response to these comments, the discretion of the Administrator to require the use of such lists is restricted to "good cause" in the final regulations.

Paragraph (g) of the proposed regulations would have allowed the Administrator to order subsequent notifications "by reasonable and appropriate means." For the reasons discussed above, this provision has been changed to allow subsequent notifications to be made by first class mail (or other reasonable means) and reserves certified mail to circumstances where good cause can be demonstrated.

3. *Conduct of the campaign.* The third classification of comments concerns those provisions dealing with actual conduct of the recall campaign. (A discussion of the criticism made with regard to the impact of the requirements of the provisions on the aftermarket and independent service industries appears above). Specific attention was given by manufacturers to the requirement that "repair shall be completed within 60 days from the date the owner first tenders the vehicle or engine * * *" It was pointed out that, as written, an owner could present his vehicle or engine for repair prior to the date on which parts would be available to dealers. Also, the 60 day period was needlessly inflexible. The language of this provision in the final regulations has been changed to require the repair to be completed within a reasonable time from the date an owner tenders his vehicle or engine (measured after the date designated by the manufacturer as the date after which the repair could be obtained). The "reasonable time" would be designated the Administrator upon review and approval of the plan.

Section 85.1803(a)(6) required a manufacturer to give specific information concerning those persons, other than dealers who were to perform the remedial repair. One manufacturer objected strenuously to this requirement as burdensome and argued that it effectively limited the class of those who could perform the repair to his dealers. In evaluating these comments, the purpose of the provision must be kept in mind. The EPA has an interest to see that the repair is done correctly and according to all the requirements of the recall plan. To the extent that the manufacturer has delegated his duties under the plan to persons outside his corporate umbrella, the EPA can demand certain assurances that the recall campaign will not suffer as a result of this delegation. The assurances should not, however, be so stringent as to deny a manufacturer the option of designating nondealers as facilities for performing the remedial repair (e.g., authorized warranty agents).

For these reasons, the requirements of § 85.1803(a)(6) have been changed to require a manufacturer to provide, as a part of the plan, a description of the class of persons, (other than dealers or authorized warranty agents), if any, who will perform the remedial repair and a statement that participating members will be properly equipped to perform it.

4. *Evaluation of the Remedial Plan.* The final group of comments were directed at various provisions requesting, or allowing for the Administrator to request, information concerning the proposed remedy and the remedial plan. The objections were largely editorial and are reflected in minor language changes in the final regulation. An objection was raised to the broad discretion of the Administrator to request additional information with regard to the plan. The final regulations limit this authority to other information which the Administrator may "reasonably determine is necessary to evaluate the remedial plan." This language is in substantial conformity with Section 208 (a) of the Act.

C. APPROVAL OF PLAN; IMPLEMENTATION

Section 85.1804 provides for the approval of the remedial plan by the Administrator for the implementation of the plan by the manufacturer. Under the proposed provisions, the manufacturer would receive written notice that the remedial plan has been approved. Upon receipt of this notice the manufacturer is to commence implementation of the plan.

One aspect of implementation is the notification of ultimate and subsequent purchases. The proposed regulations provide that when no public hearing was requested to challenge the determination of nonconformity, consumer notification would commence within 15 days of the receipt of the Administrator's approval of the remedial plan. If a hearing was held, unless the Administrator withdraws his determination of nonconformity, the Administrator would, within 60 days of the completion of the hearing, order the manufacturer to commence prompt notification of vehicle and engine owners.

Criticism was also directed at the 15 day period allowed for implementation of the plan following notice of its approval by the Administrator. This criticism ignores the fact that the provision also allows the Administrator to specify a time other than the 15 day period in which notification is to commence and that the approval of the plan is made in full view of the manufacturer's statements regarding parts availability and the date on or after which an owner could receive the remedial repair. Again, the period specified is a minimum period and the provision is sufficiently flexible to handle any difficulties which might arise.

In response to additional comments and in order to clarify the provision, the 15 day period has been changed to "15 working days." Other than this clarification, the notification requirement has not been changed in the final regulations.

D. NOTIFICATION TO VEHICLE OR ENGINE OWNERS

Section 85.1805 describes the content of the notification to be sent to owners of recalled vehicles and engines. The section would require the manufacturer to explain to the vehicle or engine owner most of what is contained in the remedial plan. Besides describing the procedural aspects of obtaining correction of the nonconformity, the notification would inform the vehicle or engine owner of the adverse effects, if any, that an uncorrected nonconformity may have on performance, driveability, and the functioning of other engine components. In addition, owners would be warned that failure to correct the nonconformity could cause vehicles to fail an emission inspection, if required by State or local law, and could jeopardize the warranty made applicable to engines and vehicles by section 207 of the Act. These warnings were designed to improve the response to the recall campaign by encouraging vehicle and engine owners to seek correction of the nonconformity as well as to give vehicle and engine owners important information concerning the mechanical condi-

XUM

tion of their vehicles or engines and the legal impact of the failure to obtain correction of the nonconformity.

The bulk of the comments concerned the content of the notification letter itself. Particular attention was given to those warnings described above. The crux of the criticism was that these statements would not always be true (e.g., a nonconforming vehicle might not fail a state inspection test) and therefore should be deleted. The express qualification of these warnings, however, emphasizes their function as warnings and not statements of inevitable result. A consumer whose vehicle or engine is subject to a recall campaign should be fully informed of the potential consequences of failing to participate in the campaign.

A number of comments were directed specifically at the requirement that the notification letter include the statement that failure to comply with a recall campaign could jeopardize an owner's emissions warranty. The difficulty with the required statement is that it raises more questions than it may answer. It was pointed out in the comments that nonparticipation in a recall campaign could more accurately be found to be a lack of proper maintenance and could thereby cause a vehicle or engine owner to be ineligible for free repair under the emissions warranty or, in the event a class of vehicles or engines was recalled a second time, to be ineligible for repair under a recall campaign. It was also noted that the first clause of the emissions warranty covers a vehicle or engine which fails to meet certain standards at the time of sale. Since the condition of a vehicle or engine at the time of sale cannot be affected by future treatment by its owner, the admonition in question cannot be said to apply to this part of the emissions warranty. In order to clarify these and other issues concerning the implications of a failure to participate in a campaign, the language of the warning has been modified to incorporate the view that what an owner risks by nonparticipation is a later finding that he has not properly maintained his vehicle or engine which could cause him to be ineligible for free repair under the warranty provisions or in a future recall campaign.

Finally it was urged that the Administrator's discretion to impose further requirements in regard to notification as "are necessary to fulfill the intent of the law" was too broad. In response to these comments, the provision has been changed to allow for additional requirements "which the Administrator has determined are reasonable and necessary to ensure the effectiveness of the recall campaign."

E. RECORDS AND REPORTS

Section 85.1806 describes the records which a manufacturer must keep and the reports he must make of the recall campaign. From this data, the Administrator would be able to evaluate the success of the recall campaign and determine whether a subsequent notification will be required.

In response to the comments received this section has been redrafted to conform more substantially with the regulations of the NHTSA concerning safety-related defects, 49 CFR 573.1 et seq (1973). The regulations were originally intended to parallel the NHTSA requirements but grew more complex as the proposal was developed. In redrafting this section, the particular information needed to evaluate the effectiveness of an emissions recall must be kept in mind. These can be listed as follows:
